Finger Prints Are Positive Means of Identification.

A criminal can dye his hair, change clothing, and alter his appearance, but he can not change his finger prints. STAMPS and Trade-Marks are just as positive means for identifying good jewelry and silver.

No table flatware is solid silver unless it bears the stamp "STERLING" on each piece, and all gold jewelry is stamped with a "karat" mark to indicate its degree of fineness.

We are always glad to show you these pledge marks of quality stamped on the merchandise we sell.

ZERO MILESTONE LIKE ROME'S GOLDEN MARKER

Washington Marker is Measurement Point for Roads

When Dr. S. M. Johnson first suggested the idea of the Zero Milestone which, on the meridian of Washington, located just south of the White House, now serves as the starting point for calculation of all mileage from the Capital City, he said:

"Rome marked the beginning of her system of highways, which bound her widely scattered people together, by a golden milestone in the Forum. The system of highways radiating from Washington to all boundaries of the national domain and all parts of the Western hemisphere, will do vastly more for national unity and for human unity than even the roads of the Roman empire."

The milestone was authorized by congress, which directed that the Secretary of War see to its erection from the designs approved by the Fine Arts Commission. Accordingly, the stone was erected, a part of the monument from many individuals and associations among them the Lee Highway Association, the American Automobile Association, the National Automobile Association and the National Highway Association.

The bronze disk, on the top of the monument, is an adaptation from ancient Roman charts of the so-called "wind roses," or "compass roses," pointing to all parts of the then known world—the prototype of the modern mariner's compass.

Inscriptions, on west face: "Starting Point of First Transcontinental Motor Convoy over the Lincoln Highway, July 7, 1919." On the east face: "Starting Point of Second Transcontinental Motor Convoy over the Bankhead Highway, June 14, 1920."

The monument is a bench-mark and standard of linear measurement of the United States Coast and Geodetic Survey. The exact center is the starting point for the measurements of distances on the Lee Highway, the Bank-

head Highway and all other highways radiating from Washington. Lee Highway is erecting the "Pacific Milestone," an exact duplicate, with suitable inscriptions, at San Diego, California, a distance of 3,000 miles.

SCHOOL FUNDS TIED UP

Austin, Texas, Dec. 4.—More than \$200,000 of the available school fund is being withheld from distribution to 400 schools because of the failure of depositories to file bonds as required by law, State Superintendent Marrs announced today.

A VETERANS' COMMITTEE

Washington, Dec. 5.—The creation of a standing committee in the house to have jurisdiction over all legislation pertaining to World War Veterans was proposed in a resolution today by Representative Connally, democrat, Texas.

HOUSTON'S DOUBLE TRAGEDY

Houston, Texas, Nov. 30.—Frod Hickman, 38, was instantly killed here last night when struck by an automobile driven by Mrs. C. O. Fuller, a wealthy Houston widow. About three minutes after Mrs. Fuller had struck Hickman she drove her machine head-on into a street car and was almost instantly killed herself.

FAMOUS DANCER MARRIED

Chicago, Nov. 30.—Irene Castle, dancer and Frederic McLaughlin, Chicago merchant, were married here Wednesday, it was learned today. The marriage took place at the McLaughlin residence here, and was a very quiet ceremony. The newlyweds left here last night for the West.

FIRE IN MEXICAN TOWN

Tampico, Nov. 30.—Fire early today swept a block of small business houses and offices on the outskirts of the city's commercial district. The damage was estimated at \$200,000. There were no casualties.

MAYFIELD IS SWORN IN AS U. S. SENATOR

Takes Oath of Office on Son's Birthday; Henry Young of Waco Makes First Move to Unseat Him

Washington, Dec. 4.—Earle B. Mayfield was sworn in as junior senator from Texas shortly after the senate convened at noon Monday. Senator Mayfield's call was twenty-first on the list of newly elected senators. He joined Senator Morris Sheppard in the center aisle and marched down to the president's desk, where President pro tem Cummins administered the oath of office.

Mayfield signed the oath and immediately went to his desk in the rear row on the democratic side, taking his seat by Senator Ralston of Indiana.

Mrs. Mayfield was in the gallery as Mayfield took the oath. William A. Hangar of Fort Worth, who is to be Mayfield's attorney in his fight to retain his seat, J. P. Straughan, of Fort Worth, close friend of Mayfield and a witness in the Corsicana trial, and William H. Gray, Tulsa, foster brother of Mayfield, also were in the gallery.

As Mayfield reached his desk, he hurriedly wrote a telegram and sent it to his son, John Mayfield, a student at the University of Texas. It read: "On this, your nineteenth birthday, I have just taken the oath of office as United States senator from our native state. I congratulate you on reaching your nineteenth milestone. May divine providence guide you in all your aspirations."

Washington, Dec. 4.—Henry Young of Waco, Texas, Monday filed with the clerk of the house formal protest against the seating of all members of the Texas delegation including Senator Mayfield on the grounds that he had been denied a place upon the ticket as a "state's right" candidate for the United States senate.

Young charged that the refusal had denied him inherent rights granted under both the state and federal constitution.

METHODIST BISHOP IN CRITICAL CONDITION

Little Rock, Ark., Dec. 5.—Bishop James Atkins of Junaluska, N. C., who was taken ill last week while presiding over the Little Rock Conference of the Methodist Episcopal church, South, suffered a stroke of paralysis shortly before midnight at the home of Dr. James Thomas here, and is reported to be in a very critical condition. Attending physicians say his death is expected at any time.

ANOTHER OIL FRAUD CASE

Houston, Texas, Dec. 5.—Federal court today was to take up the first of five cases charging mail fraud. Sixty defendants are involved in the five cases. The first case scheduled is known as the Blue Bird case. At the spring term the grand jury returned a bill naming nineteen defendants, officers or directors of the Blue Bird Oil Company, charging them with using the mail to defraud.

Henry Hoffman, former president of the Blue Bird Oil Corporation; John McCain of Houston and M. M. Leavitt and H. I. Messe of Chicago entered pleas of guilty when their case was called.

GILLETT RE-ELECTED SPEAKER

Washington, Dec. 5.—Frederick H. Gillett of Massachusetts was re-elected speaker of the house today when the republican insurgents voted for him for the first time since the deadlock developed Monday. The insurgents decided to abandon their fight after they had been assured by republican leaders that an opportunity would be afforded later to freely offer amendments to the house rules. From the start the insurgents maintained that its real fight was for rules revision. On the final ballot Gillett received 215 votes and Garrett, Tennessee, the democratic candidate, 197.

PRESIDENT'S MESSAGE

Washington, Dec. 5.—President Coolidge's annual message to congress will be delivered at a joint session of the senate and house shortly after noon tomorrow. Definite decision as to the time of his appearance was reached today after the White House had been in communication with leaders at the capitol.

WHITE HOUSE IS DECLARED UNSAFE

Washington, Dec. 4.—The White House has been declared unsafe. Conditions there are such as to require that immediate remedial measures be taken to prevent a possible calamity.

These disclosures were made Monday by Major General Lansing H. Beach, chief of engineers of the army, in his annual report to the secretary of war. Congress is asked for \$400,000 for the work of reconstructing the interior portion of the famous building to make it secure.

"A preliminary study of the situation in the interior upper portion of the executive mansion has indicated a condition which renders the building unsafe. Both from the standpoint of security in the structural features and the fire hazard," said Major General Beach. "The conditions are such as to require that immediate remedial measures be taken to prevent a possible calamity."

"These conditions have been called to the attention of the president and his authority for the inclusion of the item submitted herewith (\$400,000) has been requested."

ROYAL ARCH MASONS OPEN ANNUAL MEETING

Waco, Texas, Dec. 4.—The seventy-fourth annual convention of the Grand Masonic Royal Arch Chapter of Texas convened here Monday.

Grand High Priest J. A. Gartland of Paris, who presided, said that during the past year, owing to the depressed financial condition throughout the state, the chapters have not been as active or prosperous as formerly, but that the figures reveal a substantial gain in membership.

Five new chapters were constituted during the year and one chapter restored.

HOME PAPER POPULAR

Dallas, Texas, Dec. 4.—Students at Southern Methodist University read papers from their home towns in preference to all other reading matter available, a survey of student reading shows. Few daily papers come in quantities to the college post-office. Among books, the Bible, O. Henry, and the "Book of Etiquette" are leaders.

COOLIDGE IS PLEASED

Washington, Dec. 5.—President Coolidge will acknowledge the action of the South Dakota republican proposal of the South Dakota republican proposal convention in granting him preference for the presidential primary and will send a communication to the republican leaders of that state which may go a long way toward indicating his attitude toward 1924. It is the intention of the president to recognize publicly the South Dakota convention's endorsement, it was made known today at the White House, where officials made no attempt to disguise their satisfaction in the majority given the president over Hiram Johnson.

GERMANY WANTS FOOD LOAN

Washington, Dec. 5.—German proposals that the Reparation Commission authorize a floating loan by Germany to cover foodstuff purchases are assured the moral support of the United States. The only connection of the Washington government with the matter will be an expression through James Logan, American observer on the commission, of the willingness of this government that priority should be extended for such loan.

BOY CHARGED WITH MURDER

Mobile, Ala., Dec. 5.—Leon Layfield, 17, charged in a warrant sworn out today with the murder of Melvin Brantley, 19, by shooting him, was held without bail. The body of Brantley, with eight bullet holes in his head, was found in a marsh near here yesterday. He had been missing 11 days. Police announced they have witnesses who saw Layfield and Brantley enter the marsh and the former return alone.

KILLS WIFE, TRIES SUICIDE

Houston, Texas, Dec. 3.—Mrs. Milner Ward, 23, is dead and Frank Gibson, 25, is seriously wounded as the result of a shooting here today. According to witnesses, Gibson killed Mrs. Ward, his divorced wife, and then turned the pistol on himself.

STILL DEADLOCKED ON SPEAKERSHIP ELECTION

Washington, Dec. 4.—The insurgent bloc in the house, which has tied the hands of the new congress by refusing to support Speaker Gillett for reelection, militantly carried forward today its campaign of opposition. As the balloting in the speakership deadlock continued, the division of votes was much the same as during the four ballots taken yesterday. The vote on the sixth ballot gave Garrett 197, Gillett 195, Cooper 17 and Madden 5. Garrett lacked 11 votes of a majority.

COTTON PRICES DECLINE \$11 TO \$12 PER BALE

New York, Dec. 4.—An excited opening of the New York cotton market, with a break of 77 to 100 points on the first sales, followed a smash in the Liverpool market. After heavy Continental and hedge selling, December declined to 35.25 and January to 34.90, representing \$11 to \$12 per bale loss from the recent high records.

COMPLEXION OF CONGRESS

Washington, Dec. 4.—The house of representatives of the Sixty-Eighth Congress is one of the most picturesque assemblages that ever faced the speaker's gavel.

Party lines are closely drawn. There are 225 republicans, 207 democrats, one farmer-laborite, one independent and one socialist, giving the republicans a majority of 18 over the democrats and 15 over all.

The third party members are the Rev. O. J. Kvale (independent) of Minnesota, who is occupying the seat of Andrew J. Volstead, and who announced that he was "drier" than even the famous dry advocate; Knud Wefald (farmer-laborite), also of Minnesota, and Victor Berger (socialist) of Wisconsin. Kvale and Berger expect to "go along" with the republicans on general routine legislation and party affairs. Wefald has refused to accept classification by either party.

The new senate convened with 51 republicans and 43 democrats and two farmer-laborites. Included in the republican majority are six insurgents who boycotted the republican caucus on Saturday and thereby gave infernal notice of their refusal to abide by any party decisions.

WALTON FIGHTING HARD

Oklahoma City, Okla., Dec. 3.—A motion to disqualify District Judge George Clark, before whom indictments were returned recently by the grand jury against J. C. Walton, former governor, was filed by counsel for Walton, when he appeared for arraignment today. The motion would bar Judge Clark from any participation in the case. Walton also filed application for a change of venue. A motion to quash was filed by attorneys for T. P. Edwards, former personal chauffeur to Walton, whose arraignment was scheduled simultaneously with that of Walton.

HEAR MOTION DEC. 21

Oklahoma City, Okla., Dec. 4.—After a brief argument in the state district court here today before Judge George Clark, December 21 was set for hearing the motion by J. C. Walton, deposed governor, to quash the six indictments pending against him in Judge Clark's court.

COTTON PRICES TUMBLE

New York, Dec. 3.—The cotton market broke 75 points shortly after the opening today. March contracts were down to 36 cents, or \$5.50 per bale from the recent high price. Increased crop estimates by private authorities caused a general unloading movement following a weakness in the Liverpool market.

MAY CONTINUE FOX CASE

Atlanta, Ga., Dec. 5.—Probability that postponement might be sought in the case of Philip Fox, publicity manager for the Ku Klux Klan, charged with the murder of Captain W. S. Coburn, a prominent klan man, was seen in the statement by defense attorneys yesterday that they would not be ready for trial December 2. The statement followed the announcement by the prosecution that it had completed the preparation of its case.

WILLS POINT DECIDES NOT TO BUILD ELECTRIC PLANT

Wills Point, Texas, Dec. 3.—The service of electric power and light in this city is now being provided by the Texas Power & Light Company. A few months ago the people here voted a bond issue for construction of a city electric light plant.

When it became possible to secure the service from the Texas Power & Light Company the city authorities decided that it would be better to take such service than to build the municipal plant.

HUMASON RESIDENCE DESTROYED BY FIRE

Lufkin News, 1st.

Fire of unknown origin destroyed the home of City Manager and Mrs. C. N. Humason on the corner of Mantooth avenue and Bonner street Friday night at about 9:15 o'clock. Mr. and Mrs. Humason were at the home of Mr. and Mrs. E. H. Sims, the latter being ill. It is supposed that defective wiring was the cause of the fire inasmuch as it began in the upper attic. The entire roof was on fire when discovered by a negro servant on the premises.

The total loss is conservatively estimated at \$7,000, including building, furniture, clothing, china, silver, library and other effects. Most of the furniture in two rooms was saved, little else being recovered. The property was insured for about 50 percent value, it was said. Mr. Humason had not decided this morning just what he would do but thinks of erecting a bungalow home back on the site rather than building at present on the beautiful Humason Heights estate just east of the city.

THIRTY ARE INJURED IN STREETCAR SMASH

Pittsburgh, Pa., Dec. 4.—More than 30 persons were injured, three seriously, in a streetcar accident here today when the rear truck of a street car ran into an open switch, derailing the car, which struck an iron pole, wrecking the front end. All the injured were cut by broken glass from the windows.

NEW REPARATIONS PLAN

Paris, Dec. 4.—At a conference between Premier Poincare and Louis Barthou, president of the Reparations Commission, held last night, the revised text defining the powers of the expert committee which are to investigate Germany's resources, financial assistance was agreed upon. The text is worded in a way which reparations circles hope will overcome the objection raised by Secretary of State Hughes to participation of the United States. Barthou planned to submit the text to the Reparation Commission today. No doubt was expressed that it would be approved.

MASONRY AND THE KLAN

Waco, Texas, Dec. 4.—Masonry has no right to condemn or accept the Ku Klux Klan any more than it would some other fraternal or religious sect or political party until proven in courts of the United States that it is immoral. Mike Thomas, grand master of Texas Masons, said in his report to the eighty-eighth annual meeting of the organization here today. He said Masonry should not be used to build up or tear down any other organization.

CHLOROFORMED AND KILLED

New York, Dec. 4.—Dominick Maggio, who laughed three weeks ago when he received a letter signed with a smeary blackhand demanding money or his life, was shot dead today in his Brooklyn home after his wife, three children and himself had been chloroformed. After Mrs. Maggio had been revived she told a story of her husband's enemies that led to the arrest of two suspects, one of which was held.

CRUISER IS CAPTURED

New York, Dec. 4.—The motor cruiser Herreschoff was seized by custom agents off Port Reading, N. J., today after a running battle with riot guns and revolvers. The six men on the cruiser were arrested.

NO FOREIGN CARDINAL

Rome, Dec. 4.—A semi-official communication from the Vatican today states that no foreign cardinal will be created at the coming consistory.

Can You Save \$100?

If you are careful with your earnings, can you save \$100 every year? Not such a great amount, is it? You could do it if you would try.

Well, here's what would happen to you if you started in at 20 years of age, depositing \$100 every year at compound interest and leaving it alone. If you lived to be 70 years of age, your total at the bank would be over \$30,000. Worth trying, isn't it?

BUILD FOR THE FUTURE

"Who builds for the present, builds only for the past," was not written of good roads, but is as true of them as of temples and meeting halls. The organization which, knowing it is growing, builds only for its present membership, soon finds it has built too small. The "present" which soon comes, brings a membership too big for the building.

The hard road built just big enough, wide enough, strong enough, well enough for today's traffic, is built for tomorrow, too, only when it is known that the traffic does not, can not grow. But there are few places where traffic does not grow.

The village of today is the thriving town of tomorrow. The town of today is the big city of tomorrow, and the big city of the immediate moment becomes the huge city of the next one.

When the Boston Post Road was built, no such thing as the "capacity of the road" was known. But today this road (among many) is strained against its capacity limits most of the time, and always on Sundays and holidays. The good roads connecting any two large cities of the nation; Boston and New York, New York and Albany, Baltimore and Philadelphia, Cleveland and Toledo, Chicago and Detroit, to mention only a few, are often inadequate to carry the traffic which seeks them. They do carry the traffic, but at a greatly reduced speed, and speed is as much a part of transport as motion.

New roads should always be built for tomorrow; never for today. For "tomorrow" soon becomes "today," and the road, big enough to spare for present needs, is speedily used up to its capacity. To paraphrase the quotation, "Only he who builds for the future, builds for the present."

GOOD WORK OF HENRY FORD

Houston Chronicle.

We hear every day of the great achievements of Henry Ford in the field of manufacture. He pays higher wages to more workers than perhaps any other man in the world and produces every day thousands of complete automobiles.

Taken altogether he stands in unchallenged pre-eminence among the employers and manufacturers of his age. Yet he has never been noted for any benevolent contributions—yet it was recently recorded that he is doing a work of such nature as few men are doing.

Recently an ex-convict delivered an address in the Central Y. M. C. A. in Philadelphia in the course of which he said that Henry Ford was doing a great work in giving ex-convicts a chance to redeem themselves and work back to respectability and a place in the confidence of men.

He said there are 4200 ex-convicts in Mr. Ford's plants and all are making good and have become decent citizens. That is a tribute to Henry Ford's higher value than any that could be paid because of his own great mental and moral ability and it will present him as a new and admirable man.

The ex-convict said also that which most everybody will agree with, that saloons, cheap dance halls and pool rooms are responsible for many of the country's criminals.

SUPREME COURT TINKERERS

It has been the favorite indoor sport of a few congressmen and senators to try to change the character of the supreme court of our country.

It has been a popular political pastime to air the grievances of reformers and labor leaders and radical politicians by attacking the validity of the last court of resort for interpreting laws and constitution.

Senator Borah has been particularly savage in talking about five-to-four decisions and proposed a bill requiring that 7 out of 9 judges concur in pronouncing any act of congress unconstitutional.

Charles Warren, former assistant attorney general of the United States in the Saturday Evening Post of October 13 shows that the actual fact in this particular matter is that in 134 years of the existence of the United States Supreme Court, there have been exactly nine of these five-to-four cases in which an act of congress was held unconstitutional.

Senator LaFollette goes further and proposes to amend the constitution so that if the Supreme Court of any inferior Federal Judge declares an act of congress unconstitutional, congress may, by re-enacting the law, nullify the court action.

Senator Borah's amendment would give a minority of two judges such tremendous monopoly of power that majority rule on the Supreme Court in rendering decisions will seem to

any ordinary mind to be infinitely more fair than seven-to-two decisions. The LaFollette amendment would destroy the theory of equality between the three great branches of our government—the representative, executive and judicial.

THE BOOSTERS BOOST

Boost your city, boost your friend, Boost the church and club you attend. Boost the things of which you have knowledge.

First of all our S. F. Austin Teachers' College.

Boost the Boosters' round about you, They can get along without you, But greater things can be done by them.

If they know you are behind them.

Boost for every forward movement, Boost for any civic improvement.

Boost that your street has been properly surveyed.

And sign up at once to have it paved.

Boost our climate, which is nice, pleasant and cool.

Boost our city and rural schools.

Boost our county's fertile soil.

Also our high grade Nacogdoches oil. Cease to be a chronic knocker.

Cease to be a progress blocker.

We can make Nacogdoches still better if we all will boost it in the final letter.

BLESSING IN DISGUISE

When Mrs. Farley learned that her old friend, Mrs. Tarler, had become "stone deaf," she went, with a long face, to see her.

"It must be an awful cross, Harriet," she wrote on the slate which Mrs. Tarler presented to her as soon as she was seated.

"Ain't either," snapped the afflicted woman, who, although deaf, was by no means dumb. "Folks that have got anything to say can write it on that slate. And Caleb Walter, that's had to put a curb on his tongue for upward of 30 years on account of his high temper he took from his mother's folks, is now able to say anything he likes to me, and no feelings hurt. I count my deafness a blessing. How's your rheumatism?" — Philadelphia Ledger.

AT MT. HOBER SCHOOL

A very enjoyable and financially successful box supper was given Friday night at Mt. Hober schoolhouse. There was a fairly good attendance and the receipts were \$30, which will swell the equipment fund the pupils are endeavoring to provide.

County Attorney Jack Varner made a timely and eloquent address upon the subject of education, handling his subject in a manner which impressed his hearers with the importance of school work.

Miss Exier Lewis, county superintendent, was present and acted as auctioneer for the sale of the boxes.

The prize for the most popular girl was won by Miss Minnie Alders.

Miss Versie DuBose is the capable teacher of this school, which has an enrollment of 28 pupils, who are making fine progress in their studies under her careful guidance.

The wide-awake trustees are Mrs. Caroline B. Kornekay (the only woman trustee in the county), Mr. Frank Lewis and Mr. T. M. Spurgeon, and it is evident that they are doing their full duty as guardians of the district's interest.

CAMPBELL SCHOOL

Although the attendance was small, owing to the wretched weather and bad roads, the entertainment at Campbell schoolhouse Thursday night was an unusually successful affair, the receipts from the sale of boxes by Miss Exier Lewis, county superintendent, amounting to \$30.30.

Mrs. Roy Coon, the accomplished teacher, is giving entire satisfaction. She enjoys an enviable reputation among the teachers of the county and her district is fortunate in being able to command her services. There is an enrollment of 24 pupils, who appear to be applying themselves assiduously to their tasks and making gratifying progress under the affectionate direction of their popular instructor.

The trustees of this school are Messrs. O. C. Faulkner, M. H. Clark, and Hardy Greer, who are giving earnest attention to their work of looking after the interests of the district.

"Cascarets" 10c
if Sick, Bilious,
Constipated

"They Work While You Sleep." When you feel sick, dizzy, upset, when your head is dull or aching, or your stomach is sour or gassy, just take one or two pleasant "Cascarets" to relieve constipation and biliousness. No gripping—almost cathartic-laxative on earth for Men, Women and Children. 10c boxes, also 25 and 50c sizes—any drug store.

S. M. U. STUDENTS COME FROM MANY STATES

Dallas, Texas, December 3.—Twenty-two states and five foreign countries are represented in the student body of more than 1,700 registered in the Southern Methodist University this year, including North America, South America and Asia.

States represented are Alabama, Arkansas, California, Colorado, Georgia, Idaho, Illinois, Kansas, Kentucky, Louisiana, Massachusetts, Minnesota, Mississippi, Missouri, Montana, New Mexico, New York, Oklahoma, Tennessee, Texas, West Virginia, Virginia.

Foreign countries represented are Brazil, Canada, Japan, Korea and Mexico.

Out of state students number 171, of whom 9 are from foreign countries. Oklahoma contributes the largest number from outside Texas, 57. Arkansas sends 27, Louisiana 22, Missouri 12, New Mexico 8, California 5, Mississippi 5, West Virginia 5, Colorado 4, Tennessee 3, Alabama 2, Minnesota 2, Mexico 2, Brazil 2, Korea 2 and the other states and countries listed one each.

All the large cities in Texas are represented except Austin.

Over six hundred and eighty of the 1,336 students enrolled this year are from families residing in the city of Dallas, a check of the rolls made by Dr. A. D. Schuessler, business manager, shows. The Dallas students make up 47 percent of the total. The proportion of Dallas students has been increased by many families moving to the city for the purpose of educating their children at the university.

Since the University opened in 1915 it has received 9,671 students, of whom 3,867, 40 percent, registered from Dallas.

I. C. C. REFUSES DEMAND TO RECONSIDER

Washington, Dec. 3.—The Interstate Commerce Commission today refused a demand that it reconsider all its work in the physical valuation of the country's railroads. Petitions making such demand, presented by the national conference on the valuation of American railroads, which is headed by Senator LaFollette of Wisconsin were dismissed. The conference, whose program was drawn up last spring at a meeting in Chicago, sought to have the commission establish the original cost of the property investment and labor in railroads, as well as other data. All existing valuation work of the commission was attacked as unsound.

EXPRESS RATES REVISED

Washington, Dec. 3.—New bases for the application of interstate express rates were laid down today by the Interstate Commerce Commission in a decision which refused the American Railway Express Company the right to make general increases which it asked and the express companies were ordered to establish a new schedule on or before February 24, next, incorporating a change in the present interstate express rates applied to food articles of nearly all kinds which the commission held are too high and should be reduced by amounts ranging from 10 to 11 percent. The companies are required to make reductions by installing charges which will equal those in effect on October 12, 1920, when increases to the present levels were made.

SEEK STATE WAREHOUSE

Dallas, Texas, Dec. 3.—The Farm Labor Union of Texas, in annual session here today, will ask the next session of the state legislature to pass a bill creating a state system of warehouses for farmers, according to E. M. Hillard, president, of Fort Worth.

LEGISLATOR RESIGNS

Oklahoma City, Okla., Dec. 3.—Murray Gibbons, state representative from McCain county, speaker of the last session of the legislature, resigned today through counsel when his expulsion case was called up in the house.

DEADLOCK IN CONGRESS

Washington, Dec. 3.—The progressive bloc in congress today made good its threat to throw the house into a deadlock over the election of a speaker. On the first ballot no candidate received a majority over all, as required to elect.

CONGRESS CONVENES

Washington, Dec. 3.—The Sixty-eighth Congress assembled today facing uncertainties both as to its ability to organize promptly or to enact even a major portion of the pressing legislation confronting it. Republican insurgents planned a strike in the house, using their votes to prevent the election of a speaker, in an effort to obtain concessions from the party organization for drastic modification of the rules and a greater representation on the committees.

AN APPEAL TO MEN

Those who braved the inclement weather going to the Baptist church Sunday night to hear Bro. Grimes' sermon on "The Power of the Devil" were a thousand times repaid for their effort. It was a grand panoramic view in words of the "great battle royal" between God, the omnipotent, and the "permitted power of the devil." It had its beginning in heaven, was transferred to earth, and has been raging from Adam and Eve and will go on until the dawn of the millennium.

Christian men, of every faith, in this town, what are we about anyway? The devil blinding the great vision God has given us of our lives. He is finding our weaknesses, our "yellow streaks." We are to be tried as by fire—who will be able to stand the test? Old Nacogdoches, it seems to me, in God's providence, has been blessed with the best of everything—the best of preachers, the best of doctors, the best teachers, the best lawyers, the best business men, and the best people. We have everything to make our town a "beacon light" to other "sleeping towns." Why not make it so? Why not cast away our prejudices, our strifes, our contentions, and all enmity to our fellow-men? These are only the wiles and snares of the devil. Why not clean up our lives of depravity, filthiness and all sin of every nature—a general house-cleaning, so to speak, of our own selves? I am talking to men, church members, or those who have been, who should be real men, exemplifying the life of our blessed Savior, as best we may as an example to others. This vision for a great uplift of the Christian people of this town is not spontaneous with me. I feel and know its latent power is surging and tugging in many souls for a manifestation of God's victory over the devil. Men, of every faith, let's put on the whole armor of God to fight His battles. Read Ephesians 6th chapter, 10th to 24th verses, inclusive. Let's take this town for God. Why not? We can't do it in a day, in a week, but who knoweth the bounds of it, if all we Christian people will put on the whole armor of God, and say "All together?"

Finally, I would say, let's all together pray it through—pray all this week and go out to our churches next Sunday and tell our pastors, our friends and the whole people of this town, live or die, sink or swim, survive or perish, we, as Christians, will henceforth give the best there is in us toward the spiritual uplift of this town, our town. We can do it. Why not?

I can say this truthfully: I have written this unsolicited and for the love of all the people of our town. As a humble Christian and citizen, I commend these few words for your prayerful consideration. Let's make this the happiest Christmas for the poor and needy in the history of old Nacogdoches. H. F. Sanders.

A SURPRISE PARTY

Last evening at 7:30, a number of Rev. and Mrs. E. G. Cooke's friends completely surprised them by walking upon their porch and singing "Blessed Be The Tie That Binds."

The door was opened and the party invited into the parlor.

Robert Blackwell, as spokesman for the party, then presented the couple with a \$150 chest of silver, consisting of 28 pieces, in token of the love and affection held for them.

The gift was so unexpected, and Bro. Cooke being so overcome with surprise and emotion, that it was some time before the reverend gentleman could respond, but he did so with one of the most appropriate and feeling talks that the party had ever had the pleasure of listening to.

The subscription of this present was raised so quickly that a number of the friends of Dr. and Mrs. Cooke did not get the opportunity of donating to the fund.

ITALIAN FLOOD DAMAGE

Bergamo, Italy, Dec. 3.—One hundred and thirty-six bodies had been recovered today from the Bergamo Valley country, 600 of whose inhabitants are believed to have been drowned when the great dike impounding the waters of Gleno Lake collapsed Saturday. A hundred homes, including the entire villages of Dezzo, Corna and Bueggio, were wiped out by ten million cubic yards of water that swept from the lake.

Girls! An abundance of luxuriant hair full of gloss, gleams and life shortly follows a genuine toning up of neglected scalps with dependable "Danderine."

dry, wispy or fading hair is quickly invigorated, taking on new strength, color and youthful beauty. "Danderine" is delightful on the hair; a refreshing, stimulating tonic—not sticky or greasy! Any drugstore.

A GLORIOUS THANKSGIVING

Nacogdoches Wins Two Football Games

Teachers' College 20, Hillsboro 6. High School 37, Rusk 7.

Starting slow, the high school and Rusk battled 7 to 7 for the first quarter of a period marred by fumbles and slow work, but then the boys warmed up and came in to their old-time pep and "ran away" with Rusk, Captain Burrows, Quarterback Brewer and Center Tucker playing their last game for the high school. All played fine games that will leave good impressions, but the real bright star of the game was Halfback Sam Strzelle, who stood out both on the defense and offense. Brewer's kicking stood out again and the two ends, Burrows and Seale, were down fast and every exchange of kicks was good for at least a ten-yard gain. Burke and Spradley, playing for their first time, showed up well and looked good for next year, while Bates and Lambert, playing parts of the game, both will show up with a little more experience. On the line, Tackle Parmley stood out and was well helped by Tackle Grimes and Guards Baker and Langford. Coach Hamilton can well be proud of his work this year.

Very few people would concede the high school a chance at the first of the year, but they have made a splendid year's record and have a great nucleus of experienced men for next year's team.

The college team also started slow, and Hillsboro scored first on an intercepted pass; but after the first quarter it was their game, and only a question of time. Halfback Summers and Tackle Ray starred in this game, while Halfback Olders stood out with a brilliant 60-yard run and Quarterback Hale ran his team without an error, showing fine generalship. The team shows the results of a season of hard work, and played together like a machine. Wildcat Bater and Shelton on ends were like lightning, and Center Parrish played his usual brilliant defensive game, always rushing the play, while the line, Ray and Avery, tackles, and Walker and Thomason opened up holes big enough to drive a wagon through.

A millionaire who dies poor may try lending money to his wife's relatives.

Piles

CURED In 6 to 14 Days
All Druggists are authorized to refund money if PAZO OINTMENT fails to cure any case of ITCHING, BLIND, BLEEDING or PROTRUDING PILES. Cures ordinary cases in 6 days, the worst cases in 14 days. PAZO OINTMENT instantly Relieves ITCHING PILES and you can get restful sleep after the first application. 60c.

THE BIG DIFFERENCE AND WHERE DOES IT GO?
Most everyone will admit that \$1.10 a month, \$13.20 a year; 10 years \$132.00; 20 years \$264.00; 40 years \$528.00 is cheap insurance for men and women from 16 to 80 years of age, and nowhere can you get it for such a small amount. If we had been collecting \$1.10 a month, whether any death or not, after paying all death claims and expenses, 64 deaths in 14 years in the Mutual Benefit, we would now have on hand a surplus of \$88,000.00, and for 6 years in the Brotherhood, a total of 24 deaths, we would have a surplus of \$39,600.00, a total surplus in the two orders of \$127,600.00, and could stop assessing until 127 members died before it would be necessary to begin assessing again. And remember, there have only been 66 deaths in the two orders and all death claims and all expenses have been paid. Is not this vast saving by the Dorsay Way worth something to the people of the county?
Talk about Life Insurance the Dorsay Way is best and shoulders above any other Life Insurance and grows more in favor of the insuring public and grows stronger and more secure as time goes by. Life is uncertain and death is sure. Insure today. We have openings all along in Orders that are worth \$1,000.00 the day you get it should you die.

ASPIRIN

Beware of Imitations!

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-three years for

Colds, Headache, Toothache, Lumbago, Neuritis, Rheumatism, Neuralgia, Pain, Pain

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proven directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark of Bayer, Manufacture of Monoceticacidester of Salicylicacid.

ONLY 45,000 CARED FOR

The war of words which has raged before a senatorial committee charged with investigating the Veterans' Bureau has served to obscure the fact that what the committee is concerned with essentially is justice for disabled service men.

The hearings were not called particularly to determine whether one past official of the bureau or another is crooked, although it is important that the truth in that matter be disclosed. The intention has been to examine a whole system which seems to have accomplished only a fraction of what is necessary for the relief of veterans in obvious distress. Senator Reed, therefore, has acted wisely in shutting off the stream of vituperation with which the minutes of the hearing have hitherto been adorned.

Especially interesting is the testimony of an employee in charge of claims who admits that special dispensations have been granted claimants who have been championed by congressmen and others. He testifies that more than 150 letters a day are received at times from congressmen, a condition which has necessitated the creation of a special section in the bureau. "It is," he observes, "very active."

This is a deplorable state of affairs, yet there is some incentive for feeling that the congressman is less at fault than is the bureau from which he is attempting to get action. Five years ought to be sufficient time to clean up the bulk of claims by disabled men, yet of the 330,000 men eligible for relief the bureau has thus far only been able to deal with 45,000. The remainder who have not found access to the congressional ear are victims of tragic inefficiency.

It would work to the interests of congressmen themselves if the bureau were so conducted that there would be no occasion for their intervention in individual cases.

"HOT DOG" CHAMPION

New York, Dec. 1.—John Hume is today the proud possessor of a fur lined brown derby and a hand painted leather vest he won in a "hot dog" championship here Thanksgiving Day. John, who weighs 250 pounds, ate 53 frankfurters in one sitting.

Val Menges, last year's titleholder, collapsed after consuming 44.
And John disdained mustard!

MOTHER!

Clean Child's Bowels with
"California Fig Syrup"

Even if cross, feverish, bilious, constipated or full of cold, children love the pleasant taste of "California Fig Syrup." A teaspoonful never fails to clean the liver and bowels.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on the wrapper. Mother! You must say "California" or you may get an imitation fig syrup.

COMMITTEE FOR RELIEF OF GERMAN CHILDREN

Houston, Texas, Nov. 30.—In a letter to E. A. Peden, state chairman for Texas of the American Committee for Relief of German Children, accepting membership on that committee, Colonel Lindsey Blaney of the faculty of Rice Institute said:

"Having served along with you and General Allen during a great national emergency in time of war, I deem it an even greater privilege to serve with you in this great humanitarian work in time of peace. Truly 'the American army never waged war on children!'"
"As a member of the commission sent to Berlin after the Armistice by the American Commission to Negotiate Peace to investigate the economic and political situation and later as chief of a military commission to various cities of Germany for the same purpose, I saw in my investigations, which extended also to schools, hospitals and tenements, enough to warrant my making a report that depicted the terrible conditions existing even then, confirming the report of the British commission and refuting French reports."

"As we know, things have gone from bad to worse since that time, until it is hard for us to realize the extent of the destitution that reigns among the middle and lower classes of this once prosperous land.

"Every consideration of justice and humanity, therefore, and the fundamental American instinct for 'fair-play' in war and peace time dictate that we who personally took part in the great war effort should now contribute gladly of our energy to save the innocent victims of the great disaster. If men like you and General Allen, who gave of their utmost energies against Germany in time of war, feel this way, surely the citizens of this God-blessed land of plenty will gladly come forward, in the spirit of the true American 'Sportsmen,' with generous contributions to save the children of this land with which we are now at peace." Signed Robert Blaney.

Mr. Peden said that response to his letters to prominent Texans to accept membership in this State Committee had been astonishingly unanimous and their spirit, he construed, as showing that the heart of the average American is absolutely sound.

BUSINESS REVIEW

Dallas, Texas, Nov. 30.—Debtors in the Eleventh Federal Reserve District in the month ended November 15, were rapidly paying the claims against them, and bank deposits increased the monthly review of business conditions issued by the Federal Reserve Bank says. Increased deposits and reductions in loans have left the bankers with a problem of obtaining a profitable outlet for surplus funds, the review states.

"Record breaking debits to individual accounts resulting from the active distribution of goods at both wholesale and retail, the heavy liquidation of old and current indebtedness, and the movement of a large part of the concentration points formed the outstanding developments in the district in the past month," the review says. "Retail trade was exceptionally active, showing substantially larger volumes of sales than in either September of this year or October of last year. Wholesale distribution was even larger than the previous month and continued to show a widening margin over a year ago.

Although October is the months in which retail merchants in this section customarily make heavy payments on their accounts the liquidation of these accounts of last month was exceptionally gratifying, especially because of large payments made on accounts of long standing."

Bankers have met the problem of investing surplus funds by buying commercial paper as well as government short term certificates. Many banks, however, are carrying large reserves.

Continued improvements in ranges and livestock has encouraged stockmen, and indications are that the stock will go into the winter in better condition than for the past several years, with but little feeding expected to be necessary. Heavy receipts at market centers has caused a downward revision in prices which reduced the profits of the growers.

Coincident with favorable developments has been the heavy casualty rate in the mercantile field as reflected in the month's failure statistics, which shows the checkered situation that still exists in this district," the report continued. Both the number of failures and the indebtedness involved increased sharply during the past two months.

October oil production, exceeding previous high records, added to the amount of surplus stock, and resulted in further weakness in the crude oil market.

Texas promises to raise watermelons weighing 125 pounds. But what state will bring out a 24-carat cantaloupe?

NR TO-NIGHT Tomorrow Alright

To Give an overtaxed and tired system a night of refreshing rest and a bright tomorrow is the work of NR Tablets. Nature's Remedy keeps body functions regular, improves appetite, relieves constipation. Used for over 30 years.

ADD PROGNOSTICATIONS

It has long been a habit of kill-joy prophets at this period of the year to turn our beautiful autumn season into a nightmare of dread by assembling and broadcasting a series of ancient "signs" of a long, hard winter.

They tell us, apparently with glee, that the corn has been raising three-ply husks, and that the wild geese and wild ducks have advanced their hopping-off date for the south by two weeks; they announce that the beavers are lathing and plastering their houses throughout; that the fur on the muskrat is so long that he can roll himself up in it, like a rug; and that the ants and squirrels have cached food enough to winter 34 crews of threshers.

HE WOULD

The demobbed airman had been explaining all sorts of things to his country cousins, who were very interested. They'd often seen an airplane flying, but didn't know "how it worked."

"In the case of an accident," explained the flying man, "we can very often save ourselves by using a parachute."

"Ah, but supposing that the parachute should fail to pen after you have jumped off?" asked one of his listeners. "What then?"

"That wouldn't stop me," said the airman. "I'd come straight down, all the same."

PRESS GIVES THE FACTS

The country weekly and small city daily give the people the facts. The institution of the freedom of the press is so firmly entrenched in this country that any attempt to curtail it instantly arouses public resentment.

People demand facts; facts can be given only through a free and untrammelled press.

No better recognition of this can be found than in the fact that when a dictator arises in any part of the world, his first action is to muzzle the press.

No dictator can progress without the aid of censorship of the press and of news dispatches.

U. S. AGAIN INVITED TO JOIN INVESTIGATION

Paris, Dec. 1.—An invitation to the United States to appoint members to each of the two committees which are to investigate German finances has been forwarded to Washington by Colonel James Logan on behalf of the Reparation Commission.

Await Official Notice

Washington, Dec. 1.—Any announcement of the attitude of the American government toward the new invitation to aid in the reparations settlement must await the arrival in Washington of the official invitation itself.

In the meantime, however, it is apparent that officials do not look upon the latest move with the optimism that is apparent in some quarters abroad. Many times in the last few weeks President Coolidge and his advisers have asserted their belief that the real solution of Europe's difficulties could be accomplished only by full, unrestricted inquiry into the facts, rather than by detached investigations into separate and individual phases.

WOMEN'S ORGANIZATIONS PROMOTE HEALTH WORK

Austin, Texas, Dec. 3.—The Club Women of Texas during the past month have shown their interest in health information and disease preventive work by resolutions passed unanimously at two statewide meetings. The first of these was the annual meeting of the Texas Federation of Women's Clubs held at Wichita Falls and the second the annual meeting of the Texas Congress of Mothers and Parent-Teacher Associations held at Tyler.

The Texas Public Health Association from its very inception has found that the women of most Texas communities were wide awake to the need of improvement in health matters. The women's organizations have co-operated with and helped finance the Modern Health Crusade which is teaching health habits at this time to nearly 30,000 school children in Texas. They have been most active in their desire for information and have assisted freely in special health campaigns such as public health nursing, negro health week, swat the fly campaigns, clean-up week, etc.

The resolutions passed at their recent annual meetings endorsed the Texas Public Health Association and its annual financial campaign, the tuberculosis Christmas Seal Sale, which began December 1.

WATCH THAT MATCH AND "SMOKE"

It will probably surprise a great many people to learn that carelessness with matches and smoking materials today constitutes the greatest single cause of fire loss in the United States, yet the carefully compiled statistics of the National Board of Underwriters show this to be true.

"It is the custom of the National Board of Fire Underwriters to combine, under the classification of 'Matches, Smoking,' fires due to either of these hazards," says W. E. Mallalieu, general manager of the organization, "because so many of the match fires are due to burning lucifers thrown away by thoughtless smokers.

"The destruction of property from this cause now amounts to nearly \$26,000,000 a year, which is far more than the toll exacted by any other hazard, despite the fact that the damages from 'Matches-Smoking' are so largely preventable.

"The remedy lies in educating the people to a greater degree of carefulness in handling lighted matches, cigars, cigarettes and pipes, and, to their credit, it may be said that two of the largest tobacco companies in the United States and two of the principal match producers, are endeavoring to change the habits of their careless customers by imprinting suitable precautions upon cigarettes and match boxes."

In course of time, the effect of these appeals to the public should become more visible, otherwise it is fairly safe to predict that public sentiment will bring about further enactment of personal liability laws providing for civil punishment of persons guilty of causing fire destruction by their obvious carelessness.

A life sentence has just been given to a Mexican at Sacramento, California, who set fire to a school house and burned 10 Japanese children to death.

OUR OVERWORKED PRESIDENTS

Academic elements in politics are representing that American presidents are brutally sacrificed on the altar of over-work. They are offering to relieve unfortunate occupants of the White House in their strenuous duties by creating four of five more departments or cabinet positions. It is to be hoped that President Coolidge, who seems to be a common-sense, hard-boiled nutmeg-state New Englander, will not fall for these kindly offers of the bureaucrats—he knows hard work never hurt anybody.

More presidents have had their careers shortened by banqueting, strong dark cigars and social high-life forced upon them than by the cruelties of hard work, or even worry of appointing people to office.

The bureaucrats are always ready to propose a new cabinet position, or a new department, and then fasten the myriad occupants on to taxpayers for life.

COLDS

"Pape's Cold Compound"
Breaks a Cold Right Up

Take two tablets every three hours until three doses are taken. The first dose always gives relief. The second and third doses completely break up the cold. Pleasant and safe to take. Contains no quinine or opiates. Millions use "Pape's Cold Compound." Price, thirty-five cents. Druggists guarantee it.

Diamond Dyes

Each 15-cent package of "Diamond Dyes" contains directions so simple any woman can dye or tint any old, worn, faded thing new, even if she has never dyed before. Choose any color at drug store.

AUSTIN COLLEGE AIDS "ON TO COLLEGE" MOVEMENT

Sherman, Texas, Dec. 1.—Austin College, at Sherman, pioneer Texas college which will celebrate its diamond jubilee in 1924, is taking an active part in the "Go On To College" movement among the high schools of the section. On the eve of the seventy-fifth anniversary, Austin College has employed the services of a full-time field representative, whose business it is to visit secondary schools over the state and urge upon the high school students, particularly the members of junior and senior classes, the great importance of utilizing the opportunities presented to them for securing the best training and equipment for citizenship.

It is pointed out that at present Texas holds an enviable position among the states by reason of the fact that a greater percentage of its high school graduates go to college than in any other state in the union, and that if Texas is to retain its position among the states from this important standpoint, the efforts of all institutions may properly be directed not merely to the enhancement of their own equipment and resources, but to the promotion of the cause of higher education in general.

The effort being made by the Sherman institution has received the hearty endorsement of the State Department of Education and State Superintendent Marrs has commended the movement to the superintendents and principals of high schools through out the section. Attractive displays, setting forth the actual money value of a college education and the desirability of broad training in preparation for professional work, have been prepared and are being distributed to high schools who desire them, as well as in Austin College alone or any other secondary school, but have for their object to lead each high school student to think seriously of the advantages which college training has for him.

Wherever possible the displays are being presented personally by the representative of Austin College, and committees of high school senior classes are being organized for the purpose of forwarding the "Go On To College" movement among their fellow students.

MRS. JOHNSON'S SUCCESSOR ON NATIONAL COMMITTEE

Waco, Texas, Nov. 29.—The state democratic executive committee will meet in Dallas on December 15, Secretary Joe W. Hale was advised yesterday by Frank C. Davis of San Antonio, chairman of the committee.

The purpose of the meeting is to select a successor to Mrs. Cone Johnson of Tyler, who has resigned as National Committeewoman from Texas, and to fill two vacancies on the state committee.

It is also expected that the Dallas meeting will decide on the time and place for the state democratic convention to be held next May, when 40 delegates to the national convention will be chosen.

Dallas, Texas, Nov. 29.—Miss Florence Sterling of Houston and Mrs. None Boren Mahoney of Dallas were mentioned yesterday as possible candidates to succeed Mrs. Cone Johnson of Tyler as democratic national committeewoman from Texas.

WHAT IS A BLUSH?

Perhaps you do not know what a blush is. We didn't know for a long time, but we hunted up a scientist who told us. So we tell it to you as he told it to us:

A blush is "a temporary erythema and caloric effluence of the physiognomy, antedated by the preceptiveness of the sensorium when in a predicament of unequilibrium from a sense of shame, anger or other cause ventuating a paresis of the vaso-motor filaments of the facial capillaries, whereby, being divested of their elasticity, they are suffused with a radiance emanating from an intimidated precordia."—Ex.

Eastern coal operators are assured of plenty of heat, now and hereafter.

PETTON J. EDWARDS DEAD AT EL PASO

Ex-Chief of Police Had Served in Many City and County Offices

El Paso, Texas, Dec. 1.—Peyton J. Edwards, 54 years old, veteran El Pasoan and former chief of police, died suddenly at his home following an acute attack of heart disease. Mr. Edwards, who, since resigning as chief of police, has been golf professional at the El Paso County Club, became ill while playing golf. He was brought to town, where he died.

Mr. Edwards was born in Nacogdoches county, Texas, coming to El Paso in 1886. In addition to serving as chief of police, Mr. Edwards served six years as sheriff. He was also county attorney, city attorney and inspector of police.

On August 4, 1897, he was married to Miss Nettie Mae Cummins, daughter of Prof. Cummins, at that time State Geologist of Texas.

THE TEXAS CENTENNIAL

Corsicana, Texas, Nov. 29.—Lowery Martin, chairman of the committee having charge of the survey work in connection with the staging of the proposed Texas Centennial authorized the following statement today:

Words have come to the committee in charge of formulating plans for the Texas Exposition to celebrate the Centennial of this state that promoters in one or more cities of the state are planning to capitalize on the publicity already given this idea and start such a movement as a scheme for their selfish benefits.

The committee in charge is already at work and a questionnaire will shortly be mailed to organizations throughout the state of Texas, including the Chambers of Commerce, Merchants Associations, civic and business clubs and organizations, and newspapers seeking their co-operation and requesting information from them as to their ideas in the formulating of definite plans.

This Exposition to be the success it rightly deserves must serve every interest in this great state and above all should be kept clean of promotion either for individuals or for any community or section.

Before the press of the state or any organization lends its influence towards the development of any proposed plan for this Centennial they should be certain that such plan emanates from the general committee named to crystallize sentiment for this exposition or later when further progress has been made, to be sure that those presenting the plan are duly accredited representatives of the Centennial Exposition.

Credit for the idea of this Centennial belongs to Theo. H. Price of New York City, editor of Commerce and Finance, who first presented Texas with the plan when he visited Corsicana, at the recent convention of the Tenth District of Associated Advertising Clubs of the World. This convention named a statewide committee to formulate plans or to seek the sentiment of the state towards such an exposition and this work will be properly done by this committee and in due time a concrete plan submitted to the citizenship of Texas.

The committee appointed to take active charge of the centennial survey is Lowery Martin, Corsicana; John Robert Payne, San Antonio; Percy Montgomery, El Paso; Boyce Martin, Corsicana; Beeman Fisher, Dallas; T. Page Rogers, Houston; James Binkley, Sherman and W. O. Allen, Amarillo.

WOULD-BE SUICIDE SAVED BY WOODEN LEG

Tacoma, Wash., Dec. 1.—Charles Aldrich, 55, a laborer out of work, feels today he is a failure at everything, including suicide.

While others were giving thanks Thursday, Aldrich, despondent as a result, he said, of his failures, jumped into the bay.

His wooden leg prevented him from sinking and a bridge tender rescued him.

The man who marries his stenographer soon discovers that there are more pleasant vocations than taking dictation.

STOMACH MISERY, GAS, INDIGESTION

"Pape's Diapepsin" Corrects
Sour, Upset Stomachs
at Once

"Pape's Diapepsin" is the quickest, surest relief for indigestion, gases, flatulence, heartburn, sourness, fermentation or stomach distress caused by acidity. A few tablets give almost immediate stomach relief. Correct your stomach and digestion now for a few cents. Druggists sell millions of packages.

JUDICIAL "CONTEMPT"

Shreveport Journal.
It is no tempest in a teapot that has stirred up the action of a New Jersey judge in sending the controller of New York City to jail for sixty days for criticizing a certain judicial procedure in which the controller was officially interested. The press generally condemns such an act as flagrant abuse of court authority to punish for "contempt." Citizens of every class insist that if judges possess authority for such action, congress should curb their powers.

Critics maintain that power to punish for contempt of court, originally necessary to maintain order in court and insure compliance with judicial decisions, has been extended by the courts themselves, though not by written laws, until no one knows its legal limits, and in practice may be subject at any time to gross abuse.

It seems to be an open question in America, though not elsewhere, whether free speech implies freedom to criticize the courts. However that may be, it seems only common-sense justice to insist, as most of the critics are doing, that a judge should not be allowed to act as accuser, judge and jury in case of an offense against himself, and send the offender to jail without recourse. If this is a free country and a democracy, presumably the accused person whose liberty is jeopardized should have a right to trial by his peers before an unprejudiced court, as a burglar or murderer has.

BATH TUBS

It is remarkable how quickly a new institution comes to be thought of as if it had existed forever. Take bathtubs, for instance. According to an article in Collier's Weekly:

"The first regular bathtub in this country was put in a Cincinnati home in 1842. It was made of mahogany, lined with sheet lead, and its excited owner gave a party to exhibit it. The next day the Cincinnati papers denounced the new device as a luxurious and undemocratic vanity. Medical men called it a menace to health. When introduced into Virginia, the Old Dominion taxed each such tub \$30 a year. Boston made these bathtubs unlawful."

Now no American home is considered furnished unless it has its shining white bathtub, and abstention from the tub's use is properly regarded as a disgrace in any respectable community. From tubs we proceed rapidly to showers and swimming pools. It is a bathing age.

Yet for many thousand years, man was considered civilized without bathtubs. The next time you are tempted to spank Johnnie for not taking his weekly or semi-weekly ablution, it may be just as well to remember the facts given above, and reflect that not more than two generations of all your son's ancestors ever had a bathtub.

LICENSES FOR DRIVERS

Members of a "society for the blind," considering the traffic situation in American cities, say: "I the streets are made safe for seeing people, we are willing to take our chances."

It is quite in keeping with the usual self-respecting independence of the blind that in this case, where they have every right to special consideration, they ask no favors. What they say, then, about making the streets safe for everybody deserves all the more attention.

The chief thing that remains to be done is to make every driver obtain a license, and not to have it issued until he proves his fitness to drive a car. This is done in some cities and states, but in most places it is still considered enough to license the car and let any grown-up person drive it.

When nobody is allowed to operate a steam engine without a license certifying to his fitness and responsibility, this laxity about automobiles is hard to understand.

WHERE OUR HATS COME FROM

National Foreign Trade Council.

Where did you get that hat? Women know their hat frames and shapes are imported, but the average man never thinks of his headgear as an outstanding illustration of foreign trade.

Approximately 98 percent of the raw materials entering into the manufacture of American-made soft felt hats, derbies and top hats are imported.

Coney skins are brought from Scotland and England, hare skins from Continental Europe, nutria skins from the Argentine, rabbit skins from Australia, raw silk from China and Japan, shrews and goat skins from France, and shellac from India.

Even the hemp braid for our hats...

nary domestic straw hat comes from Italy, artificial straw braids from Switzerland, and hemp and straw braids from Japan and India.

As a progressive, this recent self-announced candidate for a presidential nomination deserves a place among our extinct volcanoes.

Another "triple threat" person is the one who eats peanuts in the movies, reads the captions aloud and beats time with the music.

If the home town send-off could be substituted for the frozen-face reception at Washington, every new congressman would be happy.

Perhaps it would be just as well when granting hunting licenses to inform the applicant that if what he sees hasn't got four legs possibly it is a man.

It wouldn't be much of a surprise if judges sitting in New York divorce courts organized pretty soon to promote a Pay a Little Attention to Your Own Wife Week.

The meeting of master minds at French Lick is about over, but there is a feeling that the necessity for a national convention next June is not yet entirely dispensed with.

Three generations ago the first bath-tub was looked upon with grave suspicion, and here and there the prejudice lingers.

You are always made to feel that it is a private room when you meet a pretty girl driving a fine car.

We prefer the old-fashioned story in which the villain bit the dust instead of biting the heroine's neck.

Now, as always, the world's visible supply of advice is created by men who never create anything else.

Dignity is a pretty good thing, however, for the man who has no other means of hiding his craven spirit.

Still, the girls of all ages have managed to be about what the men of all ages have desired them to be.

One of John D.'s nephews has gone to work at \$20 a week. Must be working for his uncle.

An apartment house is just like an old-fashioned flat except that the rooms are no longer flat, but perpendicular.

It isn't always a yearning to be helpful that makes a husband offer to mind the roast while his wife goes to church.

People once used a censor to provide perfume. Every time we meet a cake-eater, we wish there were a censor to delete it.

Correct this sentence: "I'll have that tooth attended to," declared he, "just as soon as I can get time."

Statistics show that only half the voters in this country normally exercise the right of franchise. The other half are busy criticizing the officials who are elected.

The old boys used to wonder which would be better, a high protective tariff or an income tax. In these days we don't have to wonder. We have both.

You can't judge the culture of an age by the prehistoric skulls found. Only hardheads would last so long.

So far, fortunately, it hasn't occurred to a hard-boiled civilization to change the name itself into "Gift-mas."

As a general thing, a pessimist is a man who has lost faith in the world except its falling flesh in him.

Who remembers when a girl with an unattractive face had to let it go at that?

The court might have been even more severe with Dr. Cook, and ordered him to read his own book.

Governor Pinchot has four ways of helping the farmer. However, all politicians have that many or more.

Every manager of a grand opera company should first be made to take a course in managing a semi-pro baseball team in a small town.

Europe reports a device that will stop motor cars at will from a distance. Every locomotive should have one.

It is sincerely hoped that all the money which will accrue to the winner of the Bok Peace Prize won't get him into trouble.

The only manufactured articles Russia has been able to export lately are cheerful statistics.

Correct this sentence: "And after we are married," he promised, "I will shave just as frequently as I do now."

REDUCTION OF TAXATION
WILL NOT CURTAIL FEDERAL ACTIVITIES

Copyright, 1923, by National Budget Committee

IN the current discussion of the proposals which the Secretary of the Treasury Mellon makes for a reduction in the general burden of taxation, it is important that the real choice which the people have to make should be kept constantly in mind. There is no great difficulty in doing this, but, as in all discussions which are approachable from many points of view, there is a danger that attention will be directed to subsidiary matters rather than to the idea which is central National Budget Committee to the whole proposition.

JOHN T. PRATT
Chairman
National Budget Committee

The essential proposition will be more clearly defined if the assumptions upon which Mr. Mellon's suggestions are based are clearly understood. The first of these is that present methods of efficiency and economy in the management of the Government's business shall continue. There must be no return to slipshod, wasteful methods in administering the ordinary operations of the Government. In concluding that there will be a surplus of receipts over expenditures during the next few years Mr. Mellon and his assistants have taken it for granted that there will be some increase in Government activities. They do not propose to say that henceforth from this particular moment our Government shall cease to have its natural growth as an institution whose purpose is to serve the people. They have allowed for such growth in their calculations, but have doubtless figured that the cost of this growth will be less than in the past by reason of the constant application of better business methods. The decision therefore which is to be made with respect to the disposal

of the surplus does not affect the natural expansion of Government activities. The proposed reduction of \$332,000,000 in taxes can be made without curtailing present activities or refusing to undertake new ones which are really essential.

Another assumption is that there shall continue to be included in the estimated expenditures for each year an amount sufficient to insure an appreciable annual reduction in the total of proposed reductions can be made despite the fact that \$500,000,000 or more will be applied each year to the liquidation of this indebtedness to the American people. Our people are not asked to forego payment of interest on the bonds and notes which they hold in order that their tax bills may be reduced. They are to continue to receive Government payments while contributing less to the support of that Government. Not only that, but making fund charges and other allotments of receipts are to reduce the principal of the public debt.

Assured then of continued efficient service from the Government and of regular payment of interest, along with actual reduction of the debt total, the choice of the people lies entirely between a reduction of taxation and an extraordinary increase in the costs of Government. The question is simply whether we will have a number of new things done for us by the Government which are not imperatively necessary, or whether we prefer a substantial reduction in that part of our incomes which we now have to pay to the revenue collector.

NEW FIELD FOR THE RADIO

In future the modern novel will be sent by daily installments to the happy possessors of radio equipments.

A new department in serialization is the broadcasting by station WJZ, Radio Corporation of America, of William Johnston's new mystery novel, "The Waddington Cipher," published by Doubleday, Page & Co.

Infinitely multiplying the enjoyment of musical performances, public speaking and current news events, the newest treasures of literature are to be transmitted by the mysterious aerial voice.

The west seems to be fairly full of retired farmers who retire for other reasons than prosperity.

It is noted that the unusual assortment of presidential impossibilities have announced their candidacies.

When Mr. Lenin is seriously ill, he is at least not dead, and consequently is much better than at last report.

Germany, Russia, Italy and Spain are not the only ones like that. We have Judge Landis.

Discretion is the quality that makes a man talk that way when his wife asks for an opinion of her new hat. Trains to a crossing, but even the poor can start fires with gasoline.

At any rate Americans will learn patience as they await their turn in the cafeteria, the barber shop and the federal court.

A hopeless radical is one who cusses Coolidge for what he thinks he would have said if he had said anything.

The smaller the town, the louder the cheers when somebody cusses Hill Street.

Correct this sentence: "My children were so shocked and confused when they heard the news that I never fib to me."

Some of the laws that coast of Long Island Boulevard give back momentum a flattering opinion of New York's tolerance.

It will be easy to abolish war when a fighting spirit entitles a man to a congressional medal.

These are all legitimate and worthwhile indications. It looks like an easy winter—especially for eastern coal operators.

BODY IDENTIFIED

Galveston, Texas, Nov. 30.—The body of the man found yesterday at Christmas Bay, on the mainland, at believed to be that of R. A. Crossman, 41, special agent for the Santa Fe, who has been missing since Monday. Crossman's automobile, clothing and dog were found at San Louis Pass, at the western end of Galveston Island, Tuesday. The body was found by hunters.

A fair-sized crowd greeted Bishop Quin at Christ church Tuesday night and listened with close attention to his talk on church affairs. The meeting was in the nature of a conference relative to the work mapped out by the executive council of the church, and after a discussion of the situation it was resolved to inaugurate group meetings of members in various sections of the city for the purpose of learning the details of and promoting interest in the program arranged by the council. The gathering was altogether informal and thoroughly enjoyable as well as instructive. Rev. J. Coy Williams, the new pastor of the Methodist church, was present and was introduced by Bishop Quin to the members of the Episcopal church. He made a few remarks which were cordially received by his hearers, who extended him the "glad hand." Much good is expected to flow from this conference, an awakening of the membership being very evident.

Senator Fairchild and Judge E. J. Mantooth went to Nacogdoches this afternoon and are opposing counsel in the trial of a case that has been on the docket for some time, and which they hope to settle today.—Lufkin News, 3d.

We move that they get up another adjective with which to describe Europe. The good old "chaotic" has been overworked and deserves to be retired on a pension.

YOUNG MEN'S CLASS
METHODIST SUNDAY-SCHOOL

In spite of the inclemency of the weather on Sunday morning the Young Men's Class of the Methodist Sunday-school held a very interesting meeting, with quite a large number present. Our teacher, Prof. R. F. Davis, gave us a very inspiring talk. Having with us also Rev. J. Coy Williams, the new pastor of the Methodist church, we were also delighted in having a few short remarks from him. Presiding Elder H. T. Perritte also made a short talk to the class. Mrs. Forest Gee favored us with one of her beautiful vocal solos in the closing exercises of the class.

A committee from the Young Ladies' Class appeared and announced that the young men having won in the attendance contest a banquet for the two classes would be held in the Young Men's Hall on next Friday night, December 7th. Committees were appointed to see each member of the Young Men's Class and ascertain just how many can be present at the banquet.

UNIQUE EMPLOYMENT
FOR U. OF T. STUDENTS

Austin, Texas, Dec. 1.—As a means of assisting students to earn their expenses while attending school the University Window Cleaners' Association is probably the most interesting. With an orange and white ladder and a reputation for dexterity and speed in washing windows, the group of window cleaners at the University of Texas has attracted much favorable attention.

As a national organization for college students, the University Window Cleaners was founded in 1915 by two brothers, C. W. and W. E. Rose, at the University of Colorado, in Boulder. It is now established in twelve colleges among which are Austin College at Sherman, Baylor University of Waco and the University of Texas. The equipment was invented and patented by the Rose brothers.

The University of Texas boys belonging to the organization are H. T. Fleming and Waldo Dunk of Houston, Valerie Schneider of Locker, G. A. Harris of Harrisburg, and Leland Barclay of Chester.

GOVERNOR OF INDIANA
FACES INDICTMENTS

Indianapolis, Ind., Dec. 1.—Warren T. McCray, governor of Indiana, whose financial affairs have been under discussion for many weeks, was indicted by the Marion county grand jury in its report to the Marion County Circuit Court yesterday.

Eight true bills with 191 counts were returned against McCray, which included grand larceny, embezzlement and forgery.

Among other charges, the governor was indicted on a charge of embezzling \$155,000 from the state board of agriculture.

James A. Collins, judge of the Marion County Court, announced after the returning of the indictments that Governor McCray would not be arrested until Monday. Bond was fixed at \$25,000.

PHYSICIAN SHOT TO DEATH

Paris, Texas, Dec. 1.—Dr. J. M. Lenoir, well-known physician, was shot and instantly killed at his home here yesterday.

B. H. Dodd, who had lived at the Lenoir residence, surrendered to officers.

Dr. Lenoir is survived by his wife and Dodd has a family.

STUDY GERMAN'S CAPACITY
FOR REPARATIONS PAY

Paris, Nov. 30.—The Allied Reparation Commission today decided to name a committee of experts to study Germany's capacity to pay along the general lines of Premier Poincare's proposal. Two bodies will be constituted for the respective duties which are to be defined later.

Last Friday evening Concord school team and the local high school basketball boys divided honors on a double-header program. Thursday of the same week the high school boys defeated the town team by a score of 18 to 12.—Garrison News.

WITH THE SCHOOLS

TEACHERS COLLEGE
The College Annual
The students of the Stephen F. Austin State Teachers College have decided to publish an annual. Experience has proven that this policy is the best of all means to build up the morals of the student body, to help them live over again their college days.

The students will undertake a book of two hundred and fifty pages, and will try to give a faithful picture of college activities. Particular emphasis will be given to typical features of Nacogdoches—her natural charm, her history and traditions.

The annual will go into the homes of this entire section and will find a place in the libraries of other collegiate institutions. It will therefore be a splendid advertising medium.

The business manager of the annual will, in a few days, solicit the help of the business firms of the city, and this is an appeal to them to give the matter careful consideration. You will do two things by buying space in the annual. You will help a worthy cause and will make a good investment from a business standpoint. The annual will advertise the college and Nacogdoches. It will be read by both present and future students. It will influence many people to come to Nacogdoches, and many students to come to the college.

TEACHERS' COLLEGE

Thanksgiving Theater Party
The First Year Class of the Stephen F. Austin State Teachers College met at 8:30 o'clock Thursday evening in front of the Methodist church before going to the theater party.

A short pep meeting was called after which the class marched to the Grand Theater. The theater had been beautifully decorated in the different class colors.

The class yelled and sang with the other classes until the show began. The show was fine, the picture shown being "The Little Church Around the Corner," and "Truxton King."

After the show the class went to the Sugar Bowl, where refreshments of sandwiches, cakes, mints and hot chocolate were served. The students who enjoyed the delightful evening were Mable Bentley, Violet Hanna, Annie Owens, Esta Justice, Georgia Mitchell, Fay Blackstock, Beulah Blackwell, Tex Grimes, Winnie McGaughey, Gladys Burrows, Alice Helpenstell, Katherine Hornbuckle, Orpha Baugh, Gladys Miller, Ethel Frazier, Lilly Spurgeon, Velma Rusk, Vera Sparks, Orvella Dewberry, and Messrs. L. B. Mott, Hollis Thomas, Clarence Pate, Jesse Beck, Preston Billingsley, Ben Baugh and Osley Pate.

The class was chaperoned by Miss Virginia Broadfoot. Many were the wishes that we might repeat the good time again. First Year Class Reporter.

GRAMMAR SCHOOL
Honor Roll

Fourth Grade—Anna Louise Cunningham, Raymond Ransome, Bernice Burrows, Mildred Hasley, Myrtle Medford, Mattie Lou Bailey, Charlie Miller.
Fifth Grade—Albert Brewer, Mack Stripling, Lottie D. Asfouris, Francis Muller, Helena Wolsiefer, Anan Golub, Louise Burke, Margaret Ramsey, George Rhein, Hazel Beall, Mildred Jones.
Sixth Grade—Barbara Perritte, Jimmie Posey, Maxine Brewer.

We'd have more faith in this scheme of hiring a doctor to keep you well if doctors never got sick.

MONEY SAVING VALUES

Piece Goods

Now is the time to buy your piece goods. This agn-priced cotton has caused an advance in the manufactured cotton goods. We bought heavily in this line before the advance and we are going to give our customers the benefit of our foresightedness.

MAYER & SCHMIDT, INC.

SOME LARGE PIGS

Chamber of Commerce, Farm Bureau, Feeders, Bankers and Merchants Conspire to Beat World in Ton Litters and Do It.

The Chamber of Commerce, in cooperation with the Farm Bureau, supported by merchants, bankers and farmers, down in Denton county, Texas, set out last spring to beat the 1922 Indiana record of 3,040 pounds of pork from one litter of pigs in six months. When all the litters were weighed in, seventeen were found to average 2,369 pounds and the top twelve averaged 2,589 pounds. The 120 pigs in the twelve litters averaged 259 pounds.

Two world's records were made and stand as such. The top litter made an average weight of 333.2 pounds per head, which is 8.3 pounds above the average of the Texas litter which holds the record for total weight of 3,898 pounds. One gilt of this litter made a record of 364.5 pounds when officially weighed on the 180th day, or three days less than six calendar months.

This litter was of pure bred Poland China breeding, and was fed by J. M. Martin of Denton, Texas. He won \$150 in special prizes by business men to anyone who would exceed the 1022 world's record.

The cost of the litter from the time the dam was bred until the pigs went to market for \$183.89, and selling at \$8 the return was \$266.50 making a profit of \$82.61.

The ration consisted of six parts ground corn and one part shorts soaked in skimmed milk, with tankage.

A goal was hung up by the Farm Bureau. The business men offered inducements to reach it, farmer feeders worked and the goal was achieved. Co-operation won. The moral is obvious.

B. F. O'Quinn, father of county superintendent, W. A. O'Quinn, Jr., and Mrs. E. S. Cruse, suffered a stroke of apoplexy Monday night at about 9:30 o'clock at the home of Mrs. Cruse, where he had been making his home. Mr. O'Quinn's right side was paralyzed in the stroke and he was unable to talk this morning, his son informed the News. Members of the family have been coming in both last night and today. Much concern is held concerning the patient's condition. He had been ill two weeks prior to the stroke that came last night. (Larkin News, 4th.)

THE DECLINE OF TURKEY

Propos of the recent Thanksgiving Day and turkey dinner, a self-styled authority on the species meleagris gallopavo predicts the turkey will be as extinct as the buffalo in 20 years.

Perhaps this prognosticator is right, but if his prediction comes true the consuming public will not be convinced that the extinction was the result of anything but the exorbitant prices this Thanksgiving and Christmas dinner bowl brings.

Analyzing this unusual prediction it is readily seen how its author may have been sidetracked in his deductions. It is not possible that the prediction was made on the diminishing propagation of the turkey without taking into consideration possible causes for that condition.

Nobody knows better than the Great American Family that the only reason the turkey is sliding from his position on the festive board is the market quotation on his head at Thanksgiving and Christmas times. Had this seeker-into-the-future been a reader-of-men's desires he would have seen that every American home would serve-up turkey browned to a turn on Christmas Day and for Thanksgiving dinner if turkey was in reach of the average pocketbook. All the producers of the turkey must do to increase their business and perpetuate the turkey is to meet the price the public is willing to pay. It is found that turkeys cannot be raised to sell at an acceptable price, then a substitute for turkey on the family table is inevitable.

The consuming public does not ask that its welfare alone be considered in determining the market price of turkeys, but that the producers shall receive a fair price for their product.

CHRISTMAS RATES

For the Christmas holidays, the Southern Pacific Lines announce special round trip rates between all points in Texas, and between Texas and Louisiana points. Rates of sale December 20th, 21st, 22d, 23d and 24th. Final limit to return January 7th, to reach starting point. d-4-7-11-14-18-21 w-6-13-20.

Pre-nomination activities disclose the usual assortment of hat tossers whose chances of being right and being president are practically the same.

The conservative wishes to delete progress; the progressive wishes to delete abuses; the radical wishes to delete the conservative.

STICKING OF CONE CLUTCH

Usually the Result of Worn Facing—New Leather Shield Remedy the Trouble.

The sticking of a cone clutch may be due to a tendency of the clutch member to fit too snugly in the cone part of the flywheel. This is usually the result of worn facing of the clutch member, caused, in turn, by burning the facing through a habit of slipping the clutch. A new leather facing should remedy the trouble and a handy temporary solution is to wedge broken pieces of a hack-saw blade between the facing and the clutch member at several points on its circumference. This will often smooth out a rough and sticking cone clutch.

SUPREME COURT MAJORITIES

It has often been urged in recent years that congress curb the power of the Supreme Court to declare laws unconstitutional. Most of such demands have been comparatively moderate, contenting themselves with insisting that when the court does annual an act of Congress, it should not do so by mere five-to-four decision, but a decision concurred in by a more substantial majority of the judges.

Now comes John H. Clarke, a former associate justice of that court, with the suggestion that the court itself should adopt such a reform. Writing in the Journal of the American Bar Association, he recalls an old rule, formerly followed by the court, by which it never held a law unconstitutional "when several of the justices concluded that it was valid." In other words, it enforced of its own accord a standard requiring decisions to be near enough unanimous so that no critic could attribute any decision to mere whim, prejudice or accident.

The Supreme Court may not see fit to take notice of the suggestion, but action based on it would be popular and would probably add to the court's prestige.

FARM FOR SALE

44 acres on highway one mile of North Church, all under fence, 25 acres cultivated, rest in pasture, lasting spring water, one 4-room house. For quick sale will take \$35 per acre. Two-thirds cash, balance terms. W. V. HARDY, Cushing, Texas. 38-63w1

Beware of the "ROAD LIFT"

Prudence in City or Elsewhere Says That It Shall Neither Be Offered or Accepted.

The lift on the road is an old act of kindness. Decent people in settled orderly places offered it because they were amiable and wanted to help another person along the way; but prudence in a city or elsewhere for that matter, says that it shall neither be offered nor accepted nowadays.

A good deal of crime is on wheels, says the Chicago Tribune. Criminals are scouting the street and the country roads. The people they pick up are virtually helpless. Contrary-wise, the man in a car who yields to a request for a ride may find a gun at his head in short order. The good Samaritan may go to the hospital in a barrel. It is the ugly necessity of city life to regard a stranger as a potential enemy. It need not result in discourtesy, but it says keep your guard up. Credulity often leads to an empty pocketbook and a black eye, or in the case of a woman, to worse.

TUBE REPAIR KIT ESSENTIAL

One of the Most Important Accessories for Every Motorist to Carry in His Machine.

Probably one of the most important accessories for every motorist to have in his car is a tube repair kit. It is very much like life insurance. In that it is no good at all until needed. When it is needed it is indispensable. This fact is particularly true when tires are punctured many miles from any repair station. Considering the kit's small cost tire men say it is the cheapest insurance possible against country road delays and expense.

AUTOMOBILE GOSSIP

A tire with low air pressure creates friction and causes the car to slow up.

A rigid shaft will bind unless the alignment is perfect and provision is made to prevent frame deflection.

Somehow, in caring for wounded veterans, red tape doesn't seem to be an adequate substitute for adhesive tape.

Jack Walton may not be down but there's no question about his being out.

IMPORTANT TO STUDENTS

Are You Planning to Return to School After Xmas? If Not, Read This

To the young man or woman, who for any reason, does not expect to return to public school after the Christmas holidays, let us suggest to you to "kill two birds with one stone." Enter the Tyler Commercial College for any one of their courses with which is given a complete literary course (without additional cost), just as you would get if you continued in public school, in a more practical manner and is much more interesting. The records of this great school show that a large number of their graduates who are now holding responsible positions and drawing good salaries, came from the graded schools. It is not, by any means, necessary to have a high school diploma to succeed with a course in this school. Some of the most successful graduates entered from the 7th to 8th grades. The two essential requisites to succeed are a LITTLE COMMON SENSE and a WILL to work hard. If you enroll with these, they will do the rest. By entering now, you may complete the General Business Course by the time public school ends its term—thereby enabling you to step into a good position. A PRIZE FOR YOUR EFFORT.

To the student entering the Tyler Commercial College, who makes the highest average in all courses taken for the year of 1924, will be given, free of cost, a transferable scholarship, value \$70.00, any course taught. This is to encourage hard work and honest effort on the part of the student because the more proficient the graduates, the greater they reflect on the institution and the better service they can render the business man. The only requirement to enter this contest is HARD WORK, and to notify the Enrolling Secretary either by letter before you enter, or at any time you enroll, that you are going to WIN. Fill in and mail coupon for free catalogue.

HOMES ON EASY PAYMENTS

COUNTRY RESOURCES AND THE FARMER

You have often heard the remark: "IT TAKES ALL SORTS OF PEOPLE TO MAKE A WORLD," and this is true in a sense. That means, of course, that you will find all manner of characters, good, bad and indifferent and people representing all sorts of trades, professions and businesses in almost every community.

With this in mind, have you ever stopped to consider WHAT AN IMPORTANT PLACE THE FARMER HOLDS IN THAT LIST?

You may see him away from his fields of growing corn and cotton and his acres of ripening grains; probably meet him in town on Saturday afternoon all dolled up in his overalls and a week-old crop of whiskers, and amidst the hum and bustle of business life, he doesn't seem to cut much figure; BUT WITHOUT HIM, WHAT SORT OF A FIX WOULD YOU BE IN?

OUR FARMERS ARE THE REAL CREATORS OF WEALTH. Our business men and others help to conserve that wealth, but the farmer, with nature's help, creates it. He is responsible, year after year, for millions of acres of cotton, corn, oats, wheat, hay, etc., to say nothing of the enormous quantities of potatoes, fruit, melons and vegetables. What he produces in the fields is also directly responsible for the pork, beef, poultry, and eggs which largely make up those things which we must rely upon for our daily sustenance.

So, no matter how he looks, TAKE OFF YOUR HAT TO THE FARMER AND GIVE HIM A SQUARE DEAL TODAY AND EVERY DAY. Next to his own home and fireside, Nacogdoches county farmers are proud of this city and justly so. Nacogdoches is coming right along and direct co-operation between the farmer and business man is something greatly to be desired. Bring the two closer together. In co-operation wonders can be accomplished, but when it's "EVERY FELLOW FOR HIMSELF AND THE DEVIL TAKES THE HIND-MOST," all is chaos, confusion, misunderstanding, and loss.

Business men, all over the country, are recognizing this vital point and are now constantly seeking the opportunity of meeting the farmer face to face and mingling with him at picnics and other public gatherings. This makes for wider acquaintance and brings about a sense of good-fellowship by reason of which great good is accomplished. By this means we are better able to understand one another and to establish closer relations and confidence. LET'S KEEP UP THIS GOOD WORK. UNITED EFFORTS WILL WORK WONDERS.

We should show a united front in working for good roads. There never was a community that did not need still better roads for here is the connecting link between farm and market—the link that bridges many a difficulty. In line with advancement all through the State, Nacogdoches county is holding her own. The farmer is no longer isolated as in days gone by. He has his daily mail, his telephone and it won't be long until every farmer worth while will be equipped with a radio and thus in direct connection with the outside world.

We do not wish to be classed as boasters, but we want the world to know that we are getting along pretty well here in Nacogdoches county and are mighty well satisfied. It is at least satisfying to feel independent, Do you know, folks, that with the exception of just a few things called groceries, Nacogdoches county could make herself off from the rest of the world and jazz right along, peacefully and contentedly through ages to come?

But, folks, no matter how high a place we hold in the industrial, agricultural or manufacturing world, we should not forget that TRADE AT HOME HABIT. Outside competition is going to hammer away at our doors constantly, so don't let the fact that Nacogdoches county is really one of the banner counties of this great state have any but the right kind of influence on our minds. We must, of course, do some trading elsewhere, but let us all decide to PATRONIZE HOME TRADE JUST AS LIBERALLY AS WE POSSIBLY CAN TODAY AND EVERY DAY.

not contemplating anything questionable. None of them is asking for America's moral support.

Getting sophisticated is just a matter of reducing the number of things that...

LADY GOT SO WEAK COULD SCARCELY STAND

After Suffering From Many Female Troubles This Lady Heard of Cardui and Took It, She Says, "Until I Was Well."

"SOME TIME AGO," says Mrs. Buena McFarland, of R. F. D. 2, Bostic, N. C., "I suffered a great deal with weakness common to women. I had bearing-down pains, my sides and back hurt, and my limbs drew. I would get so weak in my knees I could scarcely stand."

"I was very nervous, and could not rest. I didn't feel like eating. I grew thin, and did not have ambition for anything."

"I had been trying other remedies . . . but did not get any better."

"Some one told us of Cardui, and what it was recommended for. I also

took a Ladies Birthday Almanac and read of a case something like mine. I told my husband to get it and I would try it."

"I saw a great improvement after the first bottle (of Cardui), so I kept it up until I was well. Now I am the picture of health."

"Thousands of other women have written, to tell of the beneficial results obtained by taking Cardui, and to recommend it to others."

Cardui has stood the test of extensive use, for more than forty years, in the treatment of troubles common to women. Try it.

1 00

OUR CITY

The proud information has reached The Boosters that every property owner on North street has now signed up for the paving and this street, like all others already completed, is to be 100 percent paved. This is indeed very gratifying and shows the willingness of every property owner on this prominent street to co-operate and assist in the civic welfare of our town, and now that other of our prominent streets have recently been advertised for the paving, it is hoped that every property owner along such streets have realized the beauty and advantages gained by the paving and will promptly sign up, which will likewise encourage others along such streets to do the same, thereby carrying out this 100 percent paving spirit throughout the entire town covering those of our prominent streets included in the contracts, and most especially do the Boosters hope to see this spirit manifested on Mound street, which, like North, is one of our most prominent residence streets, and for one not to join in and pave on this street would certainly show a spirit of non-progressiveness on the part of such property owner, and surely the good citizens on this, one of our most beautiful and prominent resident streets in the city, will help to make it a 100 percent paved one also, the same as North and all others.

Join in immediately, sign up and help to carry out the 100 percent paving program for Nacogdoches.

The Boosters.

666 for Headaches, Colds, etc.

MRS. MATTIE BROWN

Mrs. Mattie Brown, whose illness was noted in these columns Saturday, died at 10 o'clock Sunday night at the home of her daughter, Mrs. N. T. Sisco, near the city, aged 81 years. She had been ill about eight days.

Deceased is survived by her daughters, Mrs. Sisco, Mrs. Joe Harris of Nacogdoches, Mrs. Jessie Greer of this county, and Mrs. Wood, whose address was not available, and sons, Lee Brown of Cushing and J. E. Brown of New Orleans.

Mrs. Brown was a consistent member of the Baptist church and was greatly beloved by all who knew her. Interment was made in the Fairview cemetery at 2 o'clock Monday afternoon under direction of Cason, Monk & Company of this city.

Ray A. Lowery and Mrs. Ruth Chadwell of Lufkin were married by Judge Frank Huston in his office at the courthouse about 7 o'clock Wednesday night, the second couple from our neighbor town whom the judge had "spliced" on that day. Discerning people, those Lufkinites. When the matrimonial inclination gets too strong for 'em they tie themselves to Nacogdoches, where they know a bang-up job will be made of it and the knot tied hard and fast by an expert who has made a lifetime business of uniting yearning souls. Judge Huston is aid to be a double-first-cousin of Dan Cupid, and of course takes pride and pains in doing the best he can for the family.

Beautiful and useful holiday goods are being displayed by all the stores, and there is a wide range from which to select. You can get what you want when you want it right here at home and at a price fully as low as any foreign concern would supply it. Gifts, running the entire gamut from dolls to diamonds are to be had here, our dealers having prepared especially to meet all requirements of the Christmas trade. Buy at home!

666 for Colds and LaGrippe.

A car stolen from G. A. Kelly, a merchant of Cleburne, was located in Nacogdoches county in the possession of an innocent purchaser, who surrendered it to Sheriff Vaught Sunday afternoon and held for the sheriff of Johnson county, and that officer arrived Thursday and took over the machine to be returned to its owner.

Marriage licenses were issued Saturday to J. C. Peoples and Miss Lucette McCauley of Martinsville, Ernest Wedgeworth of Timpson and Miss Irene Mitchell of Nacogdoches, Arthur Bass and Miss Lorena Brown of the Caro community, W. L. Harlam and Miss Irene Mitchell of Etoile, M. F. Wood and Miss Vinnie Wright of Cedar Bluff neighborhood and Manuel Sosa and Miss Viola Martinez of Garrison.

An odd feature of this proposal that Paris tax tourists is that it is being published as something hitherto unheard of.

STOP THAT ITCHING

Use Blue Star Remedy for Eczema, Itch, Tetter or Cracked Hands, Ring Worms, Chapped Face, Poison Oak, Sunburns, Old Sores or Sores on Children. It relieves all forms of Sore Feet. For sale by SWIFT BROS. & SMITH

RAPID PROGRESS BEING MADE AT LOCAL TEST

Garrison News. Drilling is going on steadily at the local test, day and night crews keeping things in continuous progress. At last reports they were down 2,000 feet and going strong. (This was Wednesday). This is a record for this or any other field and is made possible only by super equipment of Haynes Brothers' and their determinations to make a real test.

There is a great deal of enthusiasm and satisfaction among local and other interested people in the way that things are being handled at the test.

There is also quite a bit of interest in leases and royalties, much activity along this line being noted in the last few days.

Another interesting aspect in local prospects is the fact that the rig and tools are now at Caledonia for the second test which will be drilled three miles due north of the present well.

The people of this section have the greatest faith that they are getting a square deal in a real test of the oil possibilities of this country, something that is too often lacking in many of the tests which are being and have been drilled in other sections.

Having a company like this in the field is worth much to Garrison and surrounding territory, while a small, half-hearted company could do more to ruin the prospects of ultimate production than any other thing that could happen to Garrison.

INTERNATIONAL CANARY SHOW

Kansas City, Mo., Nov. 29.—The little known vocal accomplishments of the canary bird will be made manifest to the skeptical December 27, when the International Canary Show opens for a week at the Hotel Baltimore.

The show will continue five days and is expected to bring the largest display of trained roller canaries ever exhibited, according to Alonzo B. Clark, vice president in charge of the Convention Bureau of the Chamber of Commerce.

Canary breeders pronounced the roller canary the most versatile of all feathered musicians, according to Mrs. J. C. Altman, Kansas City, president of the local club.

Among the thirteen distinct tours and rolls practiced by "educated roller canaries," Mrs. Altman said, are those designated as "bubbling water," "Glucke," "Koller," "bass," "water roll" and "hollow." The entire assortment will be demonstrated at the show, she added.

The International Roller Breeders' Association is scarcely two years old, but it has on its rolls more than two thousand canary owners in forty clubs in the United States alone.

Entries for the show here will include prominent breeders of England, Canada, Germany and the United States. It promises to be one of the most interesting educational exhibits of the winter, Mr. Clark says.

S. M. U. ART BUILDING

Dallas, Texas, Nov. 29.—At \$100 a year it would take a thousand years to raise enough money to erect a hundred thousand dollar building, but this isn't discouraging members of the art class at Southern Methodist University who in the last two years have raised about \$200. They hope that some day some artist with a lot of money will contribute a large sum to the fund. Meanwhile the girls make sandwiches occasionally and the boys buy 'em and the total proceeds are put at interest. This year the fund has swelled to the extent of eight dollars.

VISITS COBURN'S SLAYER

Atlanta, Ga., Nov. 29.—Representative Hatten Summers of Dallas, Texas, here to spend Thanksgiving with his mother, Mrs. Anna Summers, called at the Fulton county jail today to visit Phil E. Fox, publicity director of the Ku Klux Klan, who is to be tried on December 12 under an indictment in connection with the death of W. S. Coburn, who was attorney for the Emperor Simmons faction.

"The folks in Dallas can't understand what impelled Fox to shoot Captain Coburn," the congressman said son of Tyler, who has resigned as Na-Fox. "Phil Fox was one of the most popular men in Dallas and at one time his friends thought seriously of putting him out as a candidate for mayor."

Hall Hayter and Luther Swift shipped 526 head of cattle to Webb, Texas, last week. They were accompanied by Douglas Patton and John Sparks.

FOR HOME AND STABLE

The extraordinary Borosone treatment for flesh wounds, cuts, sores, galls, burns and scalds is just as effective in the stable as in the home. Horse flesh heals with remarkable speed under its powerful influence. The treatment is the same for animals as for humans. First wash out infectious germs with liquid Borosone, and the Borosone Powder completes the healing process. Price (liquid) 80c, 60c and \$1.20. Powder 30c and 60c. Sold by SWIFT BROS. & SMITH

PAVING CONTRACTORS MAKE GOOD PROGRESS

Paving contractors are making good progress now days. North street has been paved from the city limits to Bailey avenue. The curb and gutter has all been placed and the grading is keeping out of the way of the paving gang. Curb and gutter is being placed on Pecan, North Fredonia and Church streets. Mound will come next. These streets will be paved with brick to Hospital.

On South Fredonia concrete is being put down rapidly. Only a few days will be required to finish this street to the railroad. A concrete bridge over the little creek near the railroad is nearing completion, but will require 21 days before traffic will be permitted over it.

Curb and gutter has been finished on South Fredonia hill and the hill is being graveled with Appleby graver. The curb has been completed to the city limits on Orton hill and an effort is being made to get the county to finish this work on the highway. This is badly needed, the city having made an easy approach to the highway by cutting a new road around the hill.

The council has been able to secure concessions from the property owners along the first two blocks of Mound street to Edwards which will permit a 26-foot paved street. Only one property owner objected to the plan. Not a single skip has been made in the paving thus far. Many property owners have no doubt made sacrifices in order that the paving may be put down without skips, but in doing so they have added immensely to the city's appearance and their own property as well. The paving is more than half completed or arranged for without a skip and we do not believe that any other town in the state can make a better showing than this. It is hoped that the whole program can be completed without gaps in the paving.

OLD OPERA HOUSE SOLD

Cason, Monk and Company have purchased the old opera house building and lot on East Main street from John Schmidt. The new owners have made no plans for leasing or remodeling the building. The deal includes the adjoining building occupied by Brewer & Mintz.

The opera house was built in 1888 and was the best building in town at that time. As an amusement place it was one of the finest in East Texas. When new it was one of the places shown a stranger and the town took much pride in its opera house. As a business venture it was probably never profitable. Many of the best shows on the road were shown here. Many prominent men have spoken of lectured from its stage. But for several years it has been realized that the day was not far distant when its use as an amusement place would be over.

HOSPITAL MOVED

The hospital has been moved to the Smith property on North street and the property formerly used as a boarding house. All the patients have been moved. The Smith home was formerly used as a hospital but for several years has been used as an apartment house. Repairs have been made and the house repainted.

Sam Davis, an experienced dairy man of Palestine, with several years' experience behind him, has rented the E. C. Avey dairy, west of town, and moved in Thursday with nine head of fine cows to be added to the Avey herd. He will take over the delivery work tomorrow (Saturday) morning. Mr. Avey has moved into town, having rooms for the present with Mr. and Mrs. Tom Floyd pending the vacation of their home by Mr. and Mrs. G. Wustenbecker, who have occupied it about two years.

CHILDREN'S FATAL DISEASES

Worms and parasites in the intestines of children undermine health and so weaken their vitality that they are unable to resist the diseases so fatal to child life. The safe course is to give a few doses of White's Cream Vermifuge. It destroys and expels the worms without the slightest injury to the health or activity of the child. Price 50c. Sold by SWIFT BROS. & SMITH

ROBS CALOMEL OF NAUSEA AND DANGER

Medicinal Virtues Retained and Improved—Dangerous and Sickening Qualities Removed. Perfected Tablet Called "Calotaba."

The last triumph of modern science is a "de-nauseated" calomel tablet known to the drug trade as "Calotaba." Calomel, the most generally useful of all medicines, thus enters upon a wider field of popularity—purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water—that's all. No taste, no griping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger. Calotabs are sold only in original, sealed packages, price 35 cents for the large family size; ten cents for the small, trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotaba.—(Adv.)

The approaching income tax installment day may just about sweep Secretary Mellon into the G. O. P. nomination by acclamation.

TEACHERS' EXAMINATIONS FOR THE COMING YEAR

State Superintendent of Education Marrs has fixed the following dates for certificate examinations of teachers for the year 1924, which dates will be adhered to by the county superintendents:

- February 1 and 2.
- April 4 and 5.
- June 6 and 7.
- July 4 and 5.
- August 15 and 16.
- September 5 and 6.
- December 5 and 6.

Teachers expecting to take these examinations would do well to keep the above dates in mind.

DOLLAR TAX VOTED FOR SACUL INDEPENDENT SCHOOL

The Sacul Independent school district has voted the one-dollar tax for school purposes, thus taking its place among the progressive communities of the county giving its school affairs a front rank. Every district in the country should emulate Sacul in this splendid work.

A letter bearing postage stamps to the face value of forty billion marks was received Wednesday morning by Mr. Charles Heitman of this city from his brother, Hermann Heitman, at Hamburg, Germany. There were eight 5,000,000,000 mark stamps attached to the missive. As in normal times the mark is worth 23 cents of American money, our readers may figure out just how many dollars the above sum would be. Of course the German mark is now worth less than the paper upon which it is printed.

WANTS HER SON

Mrs. M. L. Scott, 1901 South 11th street, Waco, Texas, would like to learn the whereabouts of her son, James R. Scott, 38 years old, last heard from in Calexico, California. He was honorably discharged from the army after the war and wrote that he was returning home, but since then has not been heard from. His mother is sick and bedridden and needs his care. If this should reach him, he is requested to communicate with her at once.

Attorneys Adams & Moore, as agents for some 40 delinquent taxpayers of Nacogdoches county, filed injunction proceedings Tuesday morning to restrain Tax Collector Johnson Tax Attorney W. E. Thomason, the County of Nacogdoches and State Comptroller Lon Smith from enforcing liens upon the property of plaintiffs to secure the payment of these taxes, claiming that the proper procedure was by suit instead of lien. It is pointed out that the officials had no authority under the law to recover by lien. Two of the plaintiffs were John Wilburn and J. A. Langford, who are resisting the collection of the taxes for 1919, on the ground that the amounts were tendered at the time the taxes became due.

THE TIME OF DEATH

Shreveport Journal. The time of one's death has always been considered beyond human knowledge. Dr. Charles Mayo, famous American surgeon, declares that in the case of most men, a competent physical examination will disclose within a year or two when they will die, and what will cause their deaths.

This is not prophecy, in the usual sense, but merely scientific reasoning from causes to effects, as observed in thousands of cases. It is like telling a motorist that, with a given car, speed and direction, he will reach a certain point at a certain time.

But there is nothing fatal about it, in Dr. Mayo's view. This scientific foretelling of death is based, a sin the case of the motorist, upon the supposition that he will continue his present procedure. The motorist may change the manner of travel; the patient may change his mode of living.

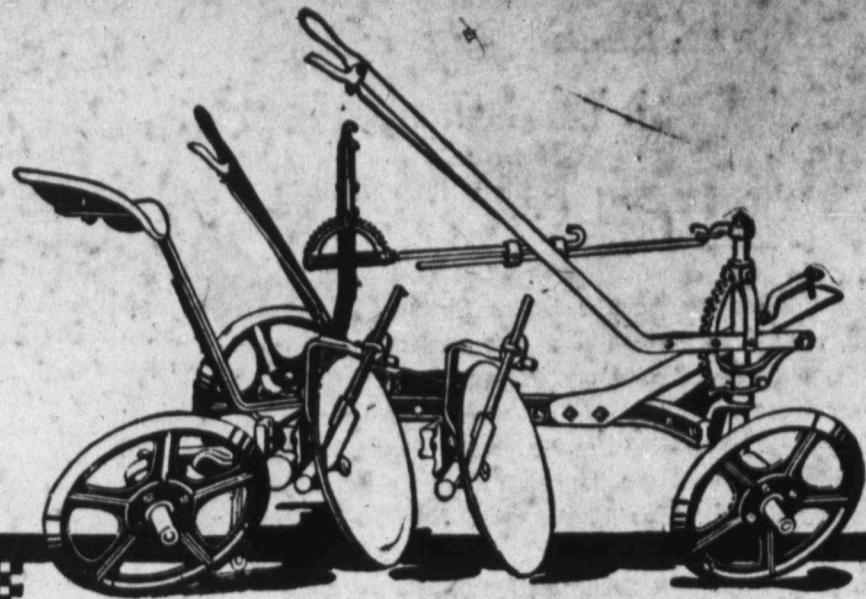

Dr. Mayo says that the average man has it in his power, by a rational change of physical habits, to add 10 years to his indicated period of life.

HONOR ROLL

Third Grade—Miss Mettauer—John Lynn Bailey, Maury Campbell, Perry Campbell, Alvin Cunningham, Ellis Gaston, Junior Kennedy, Walter Rhein, Henry Schmidt, Charles Shindler, Carrie Jenkins, Alma Ruth Jordan, Carolyn Wilson, Marjorie Wynne, Lucile Weise, Wilton Blakey, Wilton Cox, Claude Sowell, Cecil Windsor, Ethel Maude Gaston, Lois Halton, Novice Medford, Bill McLain.

In the book "Who's Who" among the club women of Texas, recently issued by the Texas Federation of Women's Clubs, the name of Mrs. W. F. Price appears, which is a deserved recognition of the good work done by one of Nacogdoches' leading women.

Still, as a means of meeting reparations obligations, passive resistance was about as effective as passive indifference.

**Holds to Its Work
A Little Giant for Plowing**

Correct angle of the strong, clean-faced, keen-edged discs; weight of the driver on the seat set well back, and the pull of the team combine to give unusual penetration to the

John Deere Pony Disc

It is built for use with small mules or light horses, but is as strong as larger plows—a giant for work. A popular plow among planters of the cotton belt for many years.

Opens up full depth furrow the first round, with both discs cutting same depth. Simple lever control to meet all field conditions. Adjustable scrapers keep the discs clean, lighten the draft,

and improve the quality of the work. High-speed, long-lived disc bearings—discs revolve freely.

Single- and double-disc sizes. Single-disc can be made to cut eight, nine or ten inches by shifting landing lever. Double-disc cuts eight inches per disc; can be changed to triple-disc by using third beam attachment.

Drop in and see this plow next time you are in town.

Get Quality and Service This Store Gives Both

Tucker-Sitton Hardware Co.

Attorney A. A. Seale left Tuesday for Austin on business before the higher courts.

Mr. and Mrs. T. H. Dawson of Fort Worth are visiting here with their daughter, Mrs. J. A. Cunningham.

Mr. A. J. Hagan and son, Raymond, left Monday morning for Dallas to look after business matters.

Mr. F. S. Aikman of the Mahdeen Company has returned from a business trip to New York and other Northern points.

A marriage license was issued Tuesday to W. D. Mitchell and Miss Gussie Arline Harlan of the Etoile community.

Miss Golda Mullins returned Tuesday to her studies in S. M. U. after a Thanksgiving visit with her parents, Mr. and Mrs. J. L. Mullins.

Mr. and Mrs. E. B. Fowler of Melrose were in the city selling cotton and doing their winter shopping, and also visited their son, L. B. Fowler, out on Fredonia Hill.

Holly Brown of San Antonio, formerly of this city, is here for a visit with her aunt, Mrs. Ella Swift of Nacogdoches and Mrs. C. H. Martin of Garrison, and other relatives and numerous friends.

Attorney Moss Adams left Tuesday for Austin to appear before the Court of Criminal Appeals to present oral arguments in the cases of James Johnson, and Bridges, convicted in Nacogdoches County District Court for violations of the prohibition laws. He will also argue for the state in the case of T. M. King, convicted for swindling.

ARRIVING TODAY

THE SEASON'S LATEST SHIPMENT OF HORSES AND MULES. EVERYTHING GUARANTEED AS REPRESENTED. PRIVATE SALES ONLY. J. J. COKER. 5-3dw3

Mr. Lacy Hunt left Monday for Havana, Cuba, in the interest of the Tilford-Hunt Lumber Company. He will be absent from home about ten days.

Mr. S. Mintz of Dallas, a member of the firm of Brewer & Mintz of this city, is here looking after business matters and shaking hands with old-time friends.

Mrs. Jonah Bailey was operated upon for appendicitis at the sanitarium at 10 o'clock Wednesday morning, and latest reports are that she is doing fairly well. The good lady's many friends hope to see her quickly restored to health.

Mrs. Allan Seale writes her brother, Mr. Charlie Richardson of this city, that Mr. Seale, who recently underwent a serious surgical operation, has so far recovered that he has been removed to his home. This will be gratifying news to Mr. Seale's many friends in Nacogdoches county.

It is said President Coolidge's message will embrace a series of explicit recommendations rather than the presentation of long arguments. He won't grow garrulous, anyhow.

A club woman says that every married woman should have one night a week to go where she pleases and do what she pleases. Some do, but what do the neighbors say?

Adolph Hiller, the Bavarian revolutionary leader now in Munich jail, has gone on a hunger strike. Thousands of fatherlanders have already arrived at this professed objective.

Jess Williard says he is going to forget he ever was a prize fighter. Everybody else forgot that some time ago.

Another way to make high temperature bearable is to plan asking the boss for a raise. That will give you cold feet.

The smaller towns don't need street towers except to get the cops beyond the reach of fool questions.

We are in position to take care of your needs in fencing of all kinds.

Our stock is complete in Saws, Axes, Hammers and Hatchets.

Just received a shipment of Cook Stoves and Heaters.

A visit to our store will convince you that we need your business.

The Country Store

West Side Square JNO. S. JINKINS, Mgr.

College girls are taking up boxing. They wrestle, also, but it is called dancing.

An item in the Houston Chronicle acknowledges receipt by the committee soliciting funds for the relief of the starving German children of a contribution of \$25 by Dr. W. I. M. Smith of Nacogdoches. This is in keeping with Dr. Smith's usual response to an appeal for aid, and others should donate according to their means. The children of Germany are suffering for all necessities of life, and America is the only country in position to furnish relief. The need is great. The children of Germany are not responsible for the misconduct of the nation's rulers and should not be allowed to suffer. Send in your contribution, large or small.

We will pay 50c per pound for your butter fat. Marigold Creamery. 2-2w

If anyone would like to figure on the goods we have left over the day after Christmas, we can make them a good offer and if anyone contemplating buying the stock, would be glad if they would come in at once and examine the stock. If no one should make a trade we have the following fixtures for sale: One center counter, a good thing for any kind of a store. It will display more goods for the space it occupies than three times the same space on tables and show the goods up in a more attractive way. It is built up to five decks. A cash register, several show cases, a pair of Fairbanks platform scales, a large safe and several other fixtures that we would like to show you. 5-1dw1 C. W. BUTT.

ATTENTION, FARMERS

Expecting a car of maize heads here next week. Arrange with me at once for amount you will want at the car when it arrives. The greater portion is spoken for. J. Thos. Hall. 5-2dw1.

County Clerk Perritte reports business looking up in the marriage license business. He issued 12 licenses Saturday, one of the biggest days' work he ever did in that line.
