VOL. XXXV

KERRVILLE, KERR COUNTY, TEXAS, FRIDAY, MARCH 9, 1917

NO. 11

PLANS ARE MADE FOR CIVIC LEAGUE

PERMANENT ORGANIZATION TO BE COMPLETED AT MEETING NEXT SATURDAY.

On Tuesday afternoon of this week about twenty ladies of Kerrville met at the Business Men's Club room for the purpose of discussing the organization of a Civic League to aid in the betterment and growth of the city.

A committee, composed of Judge R. A. Dunbar and P. W. Berry, met with the ladies on this occasion, with instructions from the Business Men's Club to assure the proposed organization of the hearty support and cooperation of the Club in any step that they might take for the betterment of civic improvements.

After a few brief remarks by Judge Dunbar and Mr. Berry the meeting was then taken in charge by the ladies. Mrs. H. C. Geddie was elected temporary chairman with Mrs. Lee Wallace, secretary, after which the meeting was opened for general discussion and was carried out in a very enthusiastic and harmonious manner.

A motion was adopted for a mass meeting to be held at Fawcett's Hall in Kerrville, Saturday afternoon, March 10, at 2:30 o'clock, for the purpose of securing a large representation of ladies from the city and surrounding territory. At this mass meeting the permanent organization will be perfected, officers elected and plans laid for future work.

Every lady in Kerrville and community who is interested in a healthier, happier people, a cleaner and better Kerrville, are most cordially invited to attend this mass meeting to be held next Saturday.

The purpose of this organization will be to secure the best interests of the city and that they will ask is that you help them by taking a sympathetic (instead of a critical) interest in the efforts that they are going to put forth. Put your own shoulder to the wheel occasionally, even if it does get your coat muddy; you will have the satisfaction of being a good citizen and a true worker.

The interest that is being taken by the ladies show that they believe in the town, and in its progress and improvements. They believe that the arousing of an interest in civic improvement is a duty that every citizen should take upon himself.

The Sun is very deeply interested in civic pride and will rejoice in whatever success that may be obtained by the energetic ladies who have already shown their sincere willingness to perfect this civic organization for the purpose of making Kerrville a more attractive city. The ladies realize that through the co-operation of the already wide-awake Business Men's Club their efforts will not be in vain. Inasmuch as nature has provided such an attractive setting they feel that by the exercise of average intelligence they can build a city that will present a picture of civic beauty.

Among the ladies who were present at the meeting Tuesday afternoon were: Mesdames E. E. Palmer, G. F. Schreiner, E. C. Fisk, A. W. Henke, R. S. Newman, L. W. McCoy, J. T. Moore, R. A. Dunbar, T. A. Shofner, T. Holdsworth, C. W. Moore, P. J. Dominguez, Chas. Mosel, H. C. Geddie, Herman Schultz, Lee Wallace, Misses Herzog and Kemper. Mesdames G. F. Schreiner, R. S. Newman and Lee Wallace were appointed as a committee to arrange for the program of the mass meeting to be held Saturday.

Clean-Up Day.

To Health Officers, City and County Authorities, Women's Clubs and all parties interested in public health and sanitation:

"Public Health is Public Prosperity. No Nation did or ever will prosper until it pays first heed to the health of its citizenship. Health is the handmaid of happiness."—Governor James E. Ferguson.

March 10th has been selected as the annual "Clean-Up Day" for Texas. The various city authorities and county health authorities can not easily over-estimate the value of making a united, determined effort to clean up the rubbish and filth that invariably accumulates during the winter months and which continues to exist during

the spring and summer. This dangerous condition constitutes a constant menace to the public health. To improve sanitary conditions means more than the mere beautifying of premises. "Clean-Up Day" is intended to arouse in all people of Texas a desire to ward off diseases peculiar to the warmer months, as well as to guard against those which, like tuberculosis, are perennial in their destructiveness.

I, therefore, call upon you now to do all in your power officially and privately to rid our State of filth and its products. The weeds and old tin cans, and garbage of every kind, should be given attention, not overlooking that wonderful breeding place for the fly—the manure pile.

All sanitarians agree upon the importance of sanitation as a preventative of disease. The cleansing of just one day will not serve for the entire year, but it will point the way to the time when Texas will constantly observe all rules of sanitation. The date is placed in the early spring in order that the diseases of warmer months may be guarded against.

The "Clean-Up Day" for 1916 proved a great success. Many of the cities and towns of the State observe not only the day named, but, entering in the real spirit of the movement, devoted two weeks to the laudable work of removing and destroying the accumulation of the winter months, preparatory to the coming of warmer weather. The suggestion is again made "Why not make 1917 a 'Clean-Up Year' for Texas?" Let each man cleanse his premises, each woman her house, and each officer his territory. To every concentrated action each parliamentary body is requested to pass resolutions to urge all Texans to observe Saturday, March 10th, as Clean-Up Day. Very respectfully,

W. B. COLLINS,
State Health Officer.

Civil Service Examination.

An open competitive examination under the rules of the United States Civil Service Commission for the position of clerk in the Kerrville post office will be held on March 24, 1917, commencing at 9 a. m.

Applications for this examination must be made to the Commission's local representative, Mark Mosty, local secretary, at the post office, Kerrville, Texas, who will furnish with the necessary information.

De Yates Cafe.

J. K. Yates has recently opened a first-class cafe in Kerrville, located on Mountain Street. Mr. Yates is a restaurant man of broad experience. He has selected a nice location for the new business and the neatness of his fixtures is inviting to the trade. He solicits a share of your patronage, and no doubt will show his appreciation by the service rendered. Read his advertisement in this issue of The Sun.

Birthday Dinner.

On Sunday, March 4, Mrs. G. F. Schreiner very appropriately arranged for an entertaining Mr. Schreiner and a few close friends and relatives at dinner at Cedar Lodge, their country home, the occasion being in honor of Mr. Schreiner's birth anniversary. The invited guests were: Capt. Charles Schreiner, Messrs. A. C. Schreiner, L. A. Schreiner, W. R. Schreiner, M. F. Weston, Howard Lacey and Dr. E. E. Palmer of Kerrville, and Chas. Schreiner Jr., W. C. Rigby and H. Partee of San Antonio.

Flowers for the Living.

The following letter was published under the above heading in Monday's issue of the San Marcos Daily Times:

Kerrville Business Men's Club, Kerrville, Texas, March 2, 1917—Editor Daily Times, San Marcos, Texas: Dear Sir: I have just finished reading your little boost for Kerrville in general and your endorsement for this place as a location for the West Texas A. & M., and wish to thank you in the name of our people for your good wishes.

We really expect to land this proposition, and in addition complete a pike from San Antonio to our town over which your pleasure seekers may make 40 miles per hour and just loaf along. Until this matter is settled and settled our way, no live business man in our community will sleep with more than one eye at a time.

A deep blue, shady bass reel is reserved on the Guadalupe for the editor of the San Marcos Daily Times. Very truly,
R. A. DUNBAR, Sec.

C. J. JORDAN SHOT THROUGH THE HEAD

AGENT AT FREDERICKSBURG JUNCTION WOUNDED IN AFFRAY WITH MEXICANS.

San Antonio, Tex., March 7.—Shot through the head with a bullet from a .45-caliber pistol, C. J. Jordan, joint agent at Fredericksburg Junction for the San Antonio & Aransas Pass and Fredericksburg Railroads, was said last night to have some slight chance of recovering from the bullet wound, cuts and bruises he suffered in an encounter with Mexicans Monday evening at that place. The bullet fired at a distance of one foot, entered a half inch from the middle of the nose and came out the back of the neck. For a time, because of a weak heart and the nature of the wound, the doctors had no hope of his recovery. Louis Jimenez, one of the men in the fight, is dead.

As soon as it was considered possible to move Jordan he was brought Tuesday to San Antonio on a special train and placed in the Santa Rosa Hospital, where Dr. Amos Graves took charge of the case.

The fight is said to have started with a dispute as to whether or not Jordan had the right to drive his cows through the Mexicans' field. Mrs. Jordan, wife of the wounded man, who is at the Santa Rosa Hospital last night, said her husband had obtained permission from the owner of the field to use it for that purpose.

"When my husband started out to feed the cows Tuesday night," said Mrs. Jordan, "I told him he had better take his pistol, as the Mexicans had threatened him several times."

"Time passed, my husband did not return and I was watching for him, when I happened to see three Mexicans running away from where I afterward found my husband. The Mexicans ran away without him and I sent my little boy, Tommie, to see why papa did not come back."

"When Tommie came to where papa lay, my husband was too weak to get on his feet and he raised himself on one elbow and told Tommie he was 'not very badly hurt' and to tell me, first thing, he was only slightly injured."

"From what I have been able to learn from my husband, the four attacked him, on sight, from ambush, one with a club, another with a knife, and when he drew his pistol they were so close to him they were able to take the pistol away from him and shoot him. But he regained possession of the weapon and shot one of them, when the others ran away. But before my husband got in the one shot they had clubbed him over the head, cut a deep 6-inch slash across the top of his head, and his hand was sliced to ribbons where he had grasped the knife trying to wrest it from the Mexican who was stabbing him."

Mrs. J. B. Eddleman, proprietress of the Hillcrest Sanitarium at Fredericksburg, brought Mr. Jordan to San Antonio on a special train, which made the run of fifty-five miles, in a little more than an hour.

Citizens' Military Training Camps.

Training Camps in the Southern Department will be held in the States of Louisiana, Texas and New Mexico in the summer of 1917. While the exact locations of the camps have not been fully determined, the following is the program that probably will be put into effect:

Austin, Texas: May 4 to June 3.
Dallas, Texas: June 16 to July 15.
Alexandria, La.: July 28 to August 27.
Houston, Texas: September 8 to October 7.
Las Vegas, N. M.: July 21 to August 20.

The objects of these camps are to instruct and train the citizens of the country in the use of arms and in the tactical use of troops, to teach the military history and policy of the United States, and the military conditions existing therein, and also to prepare those desiring commissions in the Officers' Reserve Corps for the duties pertaining to such commissions.

These camps may be attended by any male citizen of the United States (or any male who has declared his intention of becoming a citizen) between the ages of 18 and 45, who is in

sound physical condition and of good moral character, and who has had the equivalent of a high school education.

Those who have the above qualifications, but who are between the ages of 45 and 55, may be authorized to attend, but entirely at their own expense.

Attendance at these camps involves absolutely no obligation of any kind for future military service. As explained below, those who have completed a course of three camps, may become members of the Officers' Reserve Corps, subject to call in the event of war.

Transportation to the attendant's home to the camp and return, will be furnished by the United States; the exact manner in which this will be done has not yet been decided upon.

Subsistence while at the camp will be furnished by the United States without cost to the attendant.

The uniform will be furnished at the expense of the United States in somewhat the following manner:

(a) The applicant is urged to furnish his own uniform. After being accepted as an attendant, he has the privilege of purchasing this uniform from the Government at cost price, plus 10 per cent. At the conclusion of his three terms, he will then be reimbursed one-third of the amount so expended.

(b) The applicant may wear the uniform already purchased by him at some former camp, and he will be similarly reimbursed.

(c) Upon reporting at the camp and depositing \$10.00, a uniform will be furnished the attendant, to be returned by him at the conclusion of the camp. If no article furnished has been lost or damaged other than by wear, the deposit will be returned on in the event of loss or damage, a balance will be returned after the cost of the lost or damaged articles has been deducted.

Attendants at the camp will be furnished with bedding, arms and equipment by the United States.

The course of instruction includes a series of three camps each of thirty days duration, and known respectively as the "White" and "Blue" Camps. The first camp is a basic infantry course. For the second and third camps, the attendant will be allowed to choose the particular arm of the service in which he desires to be instructed, and will be assigned to the duties of officers and commissioned officers of that particular arm. In addition to the summer camps, a correspondence course will be conducted during the winter months for those desiring to continue their studies.

A part of the period of each camp will be devoted to a march in which actual campaign conditions will be assumed, and in which problems of security, transportation, bivouac and combat will be solved.

Those who have completed the course of three camps and the prescribed winter work, will be given an opportunity to obtain a commission in the Officers' Reserve Corps, should they so desire.

All students under forty-five years of age who have not had typhoid fever, or who are not otherwise protected against it, are urged to take the typhoid prophylaxis. This prophylaxis will be administered at the camp to enrolled applicants prior to their arrival at the camps at such places as the department commander may designate, or a supply of the serum to be administered to enrolled applicants only may be sent to any reputable physician upon application.

Applications to attend any of the camps mentioned above should be made to the:

Officer in charge of Training Camps, Southern Department, Fort Sam Houston, San Antonio, Texas.

The information given above is tentative only, since some points in connection with the camps have yet to be decided. From time to time announcements will be made as the preparations for summer camps progress. Any information requested will be furnished by the Officer in charge of these camps.

Camp Fire Girls.

Guadalupe Camp of the Camp Fire Girls was organized last week with twelve charter members and the following officers: Miss Lurel Pains, president; Miss Dorothy Taquard, secretary and Mrs. J. C. Geddie, guardian.

The law of the Camp Fire is as follows:

Seek beauty. Give service. Pursue knowledge. Be trustworthy. Hold on to health. Glorify work. Be happy. Our girls are at work every day to carry out the law. REPORTER.

Chas. Schreiner, Banker

Wool and Mohair Commissioner Merchant

It is pretty hard to assert your independence and defy the world, when you have an empty pocketbook.

A bank account is a stimulant to real manhood. It breeds self-confidence, is proof of efficiency, and an ever present resource in time of need.

It is not what a man earns a year, that gives him a surplus at the bank, it's what he saves.

We want your deposit. We can offer every accommodation consistent with safe banking methods. Let us help you save.

No business so large that the smallest detail escapes our attention, or so small that we do not appreciate.

Individual Responsibility More Than Three Million Dollars

NOISELESS GUN, LATEST INVENTION OF BRITISH

Amsterdam, March 7.—The German correspondents on the western front report that the British are using a new type of gun and shell. The gun appears to be pneumatic, as it makes no noise when fired, and can therefore be used from points very close to the front. The shell which it carries is loaded with a composition resembling dynamite, and is fired by means of a gas cylinder. It is chiefly used against dead dogouts and trench positions.

Presbyterian Church News.

The Presbyterian Church year ends on March 31 and so we are now closing up the year's plans and making new ones for the future.

In many respects this has been a good year and the church is actually doing more for the community than it was a year ago.

During the past six months the most notable improvement has been in the work of the Sunday School. About six months ago a class of young men in late teens was organized and have done fine work.

A little later a class of young ladies was organized.

Two weeks ago a class of young business men was organized under the leadership of Mrs. A. C. Schreiner and is doing nicely.

This class promises to be a very interesting one, for they will take up original lines of study, have some special objects for which to work and will be in the pastor's study at the Manse. They now have about a dozen enrolled and the promise of eight or ten more.

Last Sunday a class of women was organized with Miss Sarah Scofield as teacher and as there has been a demand for this for some time we are sure it will prosper.

The Women's Society has just elected officers for the ensuing year, who are: Mrs. Geo. M. Doyle, president; Mrs. L. D. Garrett, first vice president; Mrs. W. L. Secor, second vice president; Mrs. Emil Gold, secretary and Mrs. Lee Wallace, treasurer.

Sunday morning after a brief sermon a meeting of the congregation will be held to review the work and to plan for the future activity of all these agencies.

On Thursday the Rev. E. I. Dickey stopped on his way to Rocksprings, where he went in company with Mr. R. W. Blain, a Sunday School organizer. They went in the interest of the Presbyterian work at Rocksprings, where they have recently built a new church.

Methodist Church Service.

The pastor will preach at 11 a. m. and 7:45 p. m. Sunday school at 9:45 a. m. and Epworth League at 7 p. m. Special music. You are cordially invited.

SCOTT IS REAPPOINTED CHIEF OF ARMY STAFF

Washington, D. C., March 7.—President Wilson reappointed Major General Hugh L. Scott to be chief of staff late today. The terms of the chief ends with the presidential term and the President found it necessary to make the new appointment to keep General Scott in his present position.

General Scott will serve until next September, when he will reach the retirement age. In the event of war, however, he will continue in active service without regard to the age limit.

A chief of staff during the last three years, General Scott has the fight of staff officials for reappointment of the army, culminating in his appeal to the congressional military committee for universal military service. In the latter move he acted on his own initiative, as neither President Wilson nor Secretary Baker had reached any conclusion on the subject.

General Scott in a carefully prepared statement laid before the committee the conclusion of staff officers that the volunteer system had shown itself inherently inadequate.

Senate Procedure May Be Modified.

Washington, D. C., March 7.—Democrats and Republicans of the Senate in caucus today cleared the way for early modification of Senate procedure so as to make filibusters such as defeated the armed neutrality bill impossible in the future.

The Democrats voted unanimously to support a rule under which debate could be limited by a two-thirds vote recommended by a conference of ten, five representing each party, as the best way to solve the filibuster problem. The Republicans voted 30 to 2 to support the same change.

Distinguished Visitor.

The well-known and universally beloved Southern writer, Mrs. Annie Fellows Johnston, paid a flying visit to Kerrville last Sunday, when she motored up from San Antonio to spend the day with Mrs. L. E. King.

Mrs. Johnston is spending the winter in San Antonio, where the scenes of some of her most delightful books are laid. This lady has the proud distinction of being one of the very few American writers whose works have been translated into every civilized language, including Russian and Japanese.

Mrs. Johnston was enthusiastic over the beauty of our mountain scenery, and the charming picturesqueness of the road between Kerrville and San Antonio.

Kerrville is proud to have had a visit from this gifted daughter of the South, and hopes that when she returns to her beautiful Kentucky home, she will pass on to her many friends the pleasing impression that our little city gave her.

Get Rid of Dangerous Disease Germs

When balmy spring days arrive germs will develop very rapidly. Therefore, you should get busy now and use proper

Disinfectants and Germicides

Their use will ward off the attacks of germs and guard the health of your family.

Scatter disinfectants freely in all places where germs are apt to lurk—damp cellars, cesspools, stables, etc.

We sell all of the reliable disinfectants and germicides and should be glad to suggest what is best for any special purpose.

The Texas Star Garage is under my personal management, and I earnestly solicit a share of your auto repair work, and will show my appreciation of your patronage by the excellent service given. All work guaranteed.

ARNO BERNHARD

Party at Center Point.

Center Point News: Last Friday night the country home of Mr. and Mrs. Riley entertained a number of her friends. Among the guests were eight Boy Scouts from Kerrville, who made quite a hit with the girls in their natty uniforms.

The party left town in a large wagon, the Scouts marching by the wagon like soldiers. Upon arriving at the Burney home the evening's merriment started in earnest. Dominoes were brought out and soon three tables were going. Others played different games until time for refreshments to be served, then all games suddenly stopped.

Other guests, who came over just to see the fun, were Mr. and Mrs. E. B. Meeker, Mrs. Fuller, Mrs. Griffin and Miss Bettie Hodges.

An Englishman claims to have invented a fraud proof slot machine as it rejects metal slugs and even coins of the same size and weight if of less value than those intended to be used in it.

Houston Has Thick Ice.

Houston, Tex., March 5.—With a temperature as low as 28 degrees in Houston early Monday morning, the coldest March day this city has seen since 1900, caused many to shiver, and ice to form an inch thick in outlying sections, as well as doing great damage to growing garden truck and other early crops.

Headaches Start in the Liver.

Dizzy? Dull headache? Bilious? Muddy complexion? These are signs that your liver is back in its work and needs an assistant. Call in Pe-De-Lax, nature's remedy, derived from the may apple, it quickly stimulates the flow of bile and restores a torpid liver to normal condition. The mildly laxative qualities will remove the impurities from the intestines and you'll soon be feeling fit. Pe-De-Lax will shorten your liver's working hours. Get it today at your druggist, 50¢.

Including all the movements of the earth, a person travels 85,256 miles in taking a three-mile walk.

ARMED NEUTRALITY BILL EXPIRES WITH CONGRESS

OVERWHELMING MAJORITY OF CONGRESS IS DEFIED, AND BY TWELVE SENATORS.

Washington, D. C., March 4.—Twelve Senators, led by Senator La Follette and encouraged by Senator Stone, Democratic chairman of the foreign Relations Committee, in a filibuster, denounced by President Wilson's spokesman as the most reprehensible in the history of any civilized nation, defied the will of an overwhelming majority in Congress up to the last minute today and denied to the President a law authorizing him to arm American merchant ships to meet the German submarine menace. Unyielding throughout twenty-six hours of continuous session to appeals that their defiance of the President would be humiliating to the country, uncompromising in a crisis described as the most serious to the Nation since the Civil War, LaFollette and his supporters refused a majority of their colleagues an opportunity to vote on the armed neutrality bill and it died with the Sixty-fourth Congress at noon.

To fix responsibility before the country, seventy-six Senators—thirty Republicans and forty-six Democrats—signed a manifesto proclaiming to the world that they favored passage of the measure. This declaration was embodied in the Record of the Senate. The text of the manifesto follows:

"The majority of the United States Senators favored the passage of the Senate bill authorizing the President of the United States to arm American merchant ships, a similar bill having already passed the House by a vote of 403 to 13. Under the rules of the Senate allowing unlimited debate, it appears to be impossible to obtain a vote previous to noon March 4, 1917, when this session of Congress expires. We desire the statement entered on the Record to establish the fact that the Senate favored the legislation and would pass it if a vote could be obtained."

Thirteen Senators declined to sign. Senator Penrose of Pennsylvania—stated that he would have voted for the bill had an opportunity been afforded him.

Scout News.

Center Point News: The local Scouts had visitors last week, eight Kerrville Scouts coming down Thursday and remaining over until Saturday night. They were entertained by the local Scouts.

Kerrville has a fine troop of Scouts, most of whom are fully equipped. They are a well drilled body and well versed in Scout lore, fully informed and in drill present quite a martial appearance.

The local boys are going to make an effort to get uniforms this summer. The local troop of Scouts are contemplating a hike to Medina Dam some time this summer in company with the Kerrville Scouts, and a week or ten days.

After going to a party, which both troops attended, the local Scouts marched to the Kerrville Scout camp and spent the night fighting for cover, water, food and toilet jobs.

Saturday night the Scouts attended the picture show, after which the Kerrville Scouts hit the road for home, leaving the impression among our people that Scouting makes very manly boys, and the Kerrville boys looked every inch the Scout.

Texas Judging Team Wins.

College Station, Tex., March 4.—Announcement that Texas Agricultural and Mechanical College had won over Oklahoma and Arkansas in the Southwest American Live Stock Show Cattle Judging contest at Oklahoma City Saturday caused great joy here today.

Texas defeated Oklahoma, the nearest competitor, by 154 points. W. J. Ray, A. & M., was high man. Texas also won third, fourth, sixth and seventh places. A. & M. used juniors in the contest, while the other teams were made up of seniors. W. J. Ray, J. B. McKnight, F. S. Anderson, J. M. Phillips and H. S. Myers composed the Texas team.

Bad Colds From Sudden Changes.

Spring brings all kinds of weather and with it come colds and the revival of winter coughs and hoarseness. Dr. Bell's Pine-Tar-Honey will head off a new cold or stop the old one, the soothing balsams relieve the sore throat and heal the irritated tissues. Get a bottle today and start treatment at once. At your druggist, 25¢. Formula on the bottle.

Dogs' Work in War.

Red Cross Magazine: Dogs are never trained to scent out the dead. Their business is to assist the wounded. There are canine sentries on duty on both sides in the great war, and dogs that are dispatch bearers. Marquis, a French dog, fell dead from a bullet wound almost at the feet of a group of French soldiers to whom he bore a message across a shell-raked

stretch of country. But the message was delivered! And there is Stop, of the Fifteenth Army Corps, the savior of many wounded, and Flora, of the Twelfth Alpine Chasseurs, merciful dogs of war with reputations for distinguished service. There are many Stops and Floras actively engaged in humanitarian service, and it is quite unfair for me to single out individual animals—a conference of dogs of war would doubtless so decide—except as a means of giving typical stories of

what are everyday exhibitions of intelligence, devotion and self-sacrifice on the part of dogs of numerous breeds in the vast zone of battle. The people in the warring countries are called on for many and varied contributions. The French war department has on record a communication from the father of a family which poignantly illustrates this, for he wrote: "I already have three sons and a son-in-law with the colors; now I give up my dog, and vive la France!"

CALOMEL SALIVATES AND MAKES YOU SICK
Acts Like Dynamite on a Sluggish Liver and You Lose a Day's Work.

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can't salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more miliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

Strawberry Crop Is Hard Hit.

Carrizo Springs, Tex., March 4.—A cold wave struck here Saturday afternoon which did great damage to the berry crop, which was almost ready to ship. It is thought the damage that had been freshly watered will not be hurt so badly and the mist that fell for two days may save the crop. It was not cold enough to hurt onions.

CLIP THIS AND PIN ON WIFE'S DRESSER
Cincinnati Man Tells How to Shrive Up Corns or Calluses So They Lift Off With Fingers.

Ouch ! ! ! ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called Freezone when applied to a tender, aching corn or hardened callus stops soreness at once, and soon the corn or callus dries up and lifts right off without pain.

He says Freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of Freezone will cost very little at any drug store, but will positively remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have Freezone tell him to order a small bottle for you.

Gazage Burns at Junction.

Junction Light: Last Sunday night about 9:30 o'clock neighbors of Coke R. Stevenson discovered that his garage was on fire. Rushing over they tried the doors open and pushed his car out just as Mr. Stevenson found out where the fire was.

The building contained about 100 bales of hay and on account of low water pressure the fire had spread over the entire building within a few minutes. The origin of the fire is unknown.

AMERICA ASKS ONLY FOR RIGHTS OF ALL MANKIND

PEOPLE OF THE UNITED STATES HAVE BECOME WORLD CITIZENS, DECLARES WILSON.

Washington, D. C., March 5.—President Wilson's inaugural address was as follows:

"My Fellow Citizens: The four years which have elapsed since last I stood in this place have been crowded with counsel and action of the most vital interest and consequence. Perhaps no equal period in our history has been so fruitful of important reforms in our economic and industrial life or so full of significant changes in the spirit and purpose of our political action. We have sought very thoughtfully to set our house in order, correct the grosser errors and abuses of our industrial life, liberate and quicken the processes of our National genius and energy and life our politics to a broader view of the people's essential interests. It is a record of singular variety and singular distinction. But I shall not attempt to review it. It speaks for itself and will be of increasing influence as the years go-by. This is not the time for retrospect. It is time, rather, to speak our thoughts and purposes concerning the present and the immediate future.

"Although we have centered counsel and action with unusual concentration and success upon the great problems of domestic legislation to which we addressed ourselves four years ago, other matters have more and more forced themselves upon our attention, matters outside our own life as a Nation and over which we had no control, but which, despite our wish to keep free from them, have drawn us more and more irresistibly into their own current and influence.

"It has been impossible to avoid them. They have affected the life of the whole world. They have shaken men everywhere with a passion and an apprehension they never knew before. It has been hard to preserve calm counsel while the thought of our own people swayed this way and that under their influence. We are a composite and cosmopolitan people. We are of the blood of all the nations that are at war. The currents of our thoughts as well as the currents of our trade run quick at all seasons back and forth between us and them. The war inevitably sets its marks from the first alike upon our minds, our industries, our commerce, our politics and our social action. To be indifferent to it or independent of it was out of the question.

"And yet, all the while we have been conscious that we were not part of it. In that consciousness, despite many divisions, we have drawn closer together. We have been deeply wronged upon the seas, but we have not wished to wrong or injure in return. We have retained throughout the consciousness of standing in some sort apart, intent upon an interest that transcended the immediate issues of the war itself. Although some of the injuries done us have become intolerable we have still made it clear that we wished nothing for ourselves that we were not ready to demand for all mankind—fair dealing, justice, the freedom to live and be at ease against organized wrong.

"It is in this spirit and with this thought that we have grown more and more aware, more and more certain that the part we wished to play was a part of those who mean to vindicate and fortify peace. We have been obliged to arm ourselves to make good our claim to a certain minimum of right and freedom of action. We stand firm in armed neutrality, since it seems that in no other way we can demonstrate what it is we insist upon and cannot forego. We may even be drawn on, by circumstances, not by our own purpose or desire, to a more active assertion of our rights as we see them and a more immediate association with the great struggle itself. But nothing will alter our thoughts or our purpose. They are too clear to be obscured. They are too deeply rooted in the principles of our National life to be altered. We desire neither conquest nor advantage. We wish nothing that can be had only at the cost of another people. We have always professed unselfish purpose and we covet the opportunity to prove that our professions are sincere.

"There are many things still to do at home, to clarify our own politics and give new vitality to the industrial processes of our life and we shall do them as time and opportunity serve; but we realize that the greatest things that remain to be done must be done with the whole world for a stage and in co-operation with the wide and universal forces of mankind, and we are making our spirits ready for those

THE PRESIDENT TAKES OATH OF OFFICE SUNDAY

REPEATS WASHINGTON OATH OF ONE HUNDRED AND TWENTY-FIVE YEARS AGO.

Washington, D. C., March 4.—President Wilson took the oath of office for his second term at noon today in his room at the Capitol and will be formally inaugurated tomorrow with public ceremonies reflecting a great National expression of Americanism.

Before a desk piled with executive business laid before him in the closing hours of Congress and surrounded by members of his official family, the President reaffirmed with uplifted hand and grave features, his promise to uphold the Constitution in whatever crisis may confront the Nation in the momentous four years before it.

After he had repeated solemnly the oath, taken first by Washington a century and a quarter ago, he kissed the Bible at the passage reading: "The Lord is our refuge; a very present help in time of trouble."

Chief Justice White administered the oath and was the first to extend his congratulations. The Chief Justice looked fervently into the President's face for a moment and said brokenly: "Mr. President, I am very, very happy."

Members of the Cabinet then crowded up with expressions of regard. Mr. Wilson received them with a smile and then turned back to his desk.

things. They will follow in the immediate wake of the war itself and will set civilization up again. We are provincials no longer. The tragical events of the thirty months of vital turmoil through which we have just passed have made us citizens of the world. There can be no turning back. Our own fortunes as a Nation are involved, whether we would have it so or not.

"And yet we are not the less Americans on that account. We shall be the more American if we but remain true to the principles in which we have been bred. They are not the principles of a province or of a single continent. We have known and boasted all along that they were the principles of a liberated mankind. These, therefore, are the things we shall stand for, whether in war or in peace; that all nations are equally interested in the peace of the world and in the political stability of free peoples, and equally responsible for their maintenance; that the essential principle of peace is the actual equality of nations in all matters of right or privilege; that peace cannot securely or justly rest upon an armed balance of power.

"That governments derive all their just powers from the consent of the governed and that no other powers should be supported by the common thought, purpose or power of the family of nations.

"That the seas should be equally free and safe for the use of all peoples, under rules set up by common agreement and consent and that, so far as practicable, they should be accessible to all upon equal terms.

"That national armaments would be limited to the necessities of national order and domestic safety.

"That the community of interest and of power upon which peace must henceforth depend imposes upon each nation the duty of seeing to it that all influences proceeding from its own citizens mean to encourage or assist revolution in other states should be sternly and effectually suppressed and prevented.

"I need not argue these principles to you, my country fellowmen; they are your own, part and parcel of your own thinking and your own motive in affairs. They spring up native amongst us. Upon this platform of purpose and of action we stand together.

"And it is imperative that we should stand together. We are being formed into a new unity amidst the fires that now blaze throughout the world. In their ardent heat we shall, in God's providence, let us hope, be purged of faction and division, purified of the crant humors of party and of private interest and shall stand forth in the days to come with a new dignity of national pride and spirit. Let each man see to it that the dedication in his own heart, the high purpose of the Nation in his own mind, ruler of his own will and desire.

CHAMBERLAIN'S COUGH REMEDY

J. L. Easley, Macon, Ill., in speaking of Chamberlain's Cough Remedy says, "During the past fifteen years it has been my sister's favorite medicine for colds on the lungs. I myself have taken it a number of times when suffering with a cold and it always relieved me promptly."

KERRVILLE, TEXAS

God I may be given the wisdom and the prudence to do my duty in the true spirit of this great people. I am their servant and can succeed only as they sustain and guide me by their confidence and their counsel. The thing I shall count upon, the thing without which neither counsel nor action will avail, is the unity of America—an America united in feeling, in purpose and in vision of duty, of opportunity and of service. We are to beware of all men who would turn the tasks and the necessities of the Nation to their own private profit or use them for the building up of private power; beware that no faction or disloyal intrigue break the harmony or embarrass the spirit of our people; beware that our Government be kept pure and incorrupt in all its parts.

"United alike in the conception of our duty and in the high resolve to perform it in the face of all men, let us dedicate ourselves to the great task to which we must set our hand. For myself I beg your tolerance and your united aid. The shadows that now lie dark upon our path will soon be dispelled and we shall walk with the light all about us if we but be true to ourselves as we have wished to be known in the counsels of the world and in the thought of all those who love liberty and justice and right."

CHAMBERLAIN'S COUGH REMEDY
EDY A FAVORITE FOR COLDS

J. L. Easley, Macon, Ill., in speaking of Chamberlain's Cough Remedy says, "During the past fifteen years it has been my sister's favorite medicine for colds on the lungs. I myself have taken it a number of times when suffering with a cold and it always relieved me promptly."

Colds
should be "nipped in the bud", for if allowed to run unchecked, serious results may follow. Numerous cases of consumption, pneumonia, and other fatal diseases, can be traced back to a cold. At the first sign of a cold, protect yourself by thoroughly cleansing your system with a few doses of

THE DRAUGHT'S BLACK-DRAUGHT
The old reliable, vegetable liver powder.
Mr. Chas. A. Ragland, of Madison Heights, Va., says: "I have been using The Draught's Black-Draught for stomach troubles, indigestion and colds, and find it to be the very best medicine I ever used. It makes an old man feel like a young one."
Insist on The Draught's, the original and genuine. E-67

CENTRAL HOTEL

the postoffice at Kerrville, Texas,
under the act of March 3, 1879.

SUBSCRIPTION \$1.50 PER YEAR

Advertising rates and circulation
made known on application.

Subscribers will confer a favor on
the management by notifying the office
promptly when they fail to receive
the paper, or when change of
address occurs.

An accusation unproven acts as a
boomerang. Only an expert or a fool
has any business monkeying with a
boomerang.

Good roads are no longer a luxury;
they are a necessity, and the great
majority of people have come to so
regard them.

We notice that lots of editors in
writing the obituary of a late prominent
citizen say "he has passed to his
reward," but neglect to say just what
they think his reward is. Maybe, they
believe in safety first.

Harper Herald: Kerrville, our
prizing neighbor, is making a
strong bid for the A. & M. College.
Kerrville is equal to any proposition
requiring push and progress and nothing
is too good for her people.

According to dispatches, starving
women were recently arrested in New
York for demanding food. This is
what led to the "reign of terror" in
France, a chapter in French history
that will be remembered for centuries
to come.

We know it's hard to get all the
people in any one community to agree
on any one proposition, but it seems
to us that good roads, streets and
sidewalks would naturally appeal to such
a large majority in any community
that such improvements could be
easily had.

Since the late probe of the high cost
of paper, which threatens to put the
time P. Riley's guests when Miss
manufacturers in jail, most of the
press is jubilant. If we had our way,
we would not send these heartless
maufacturers to jail; we'd send them
to their own mills and compel them to
manufacture paper the balance of their
natural lives for free distribution.

Bandera New Era: Kerrville is
making a fight for the new West
Texas A. & M. College, and from all
reports she stands the best chance of
getting it. We would like to see Kerr-
ville get this institution, as she is our
neighbor and a good one, besides all
the advantages of the school to our
children. If there is anything we can
do, call on us.

And now Germany has hopped onto
little Holland, submerging some of
the Dutch ships. What's the use of a
country that happens to be in Ger-
many's way trying to remain neutral,
anyway? Several have tried it and
failed. But, then, there's Greece—got
in the allies' way, you know. The
European invitation seems to be:
"Come on in, boys; the fighting's fine!"

Ward's County (Rockspring) Leader:
The Legislature has appropriated
\$500,000 for a new A. & M. College,
to be located in some West Texas
town. Kerrville is after it, and
has the support of the people of San
Antonio. If there is anything Rock-
springers do to help Kerrville secure
this nice fat plum we believe we would
feel safe in rendering the services of
the Rockspring county.

We believe in a strict censorship of
the movies and other public entertain-
ments. A week day may be desecrated
as easily as the Sabbath; they are all
God's days. But we feel that a board
of censors should be careful of what
it censors. Too often a censor's judg-
ment is merely a censor's whim. Care
should be exercised by the authorities
in appointing a board of censors.
Such a board should properly consist
of men (or women) of unquestioned
morality in the first place, of course,
but possessing judgment as well.
These kind of people would not per-
mit others to see or hear what their
own sense of right and wrong told
them was unfit for their own eyes
and ears. We don't think the average
minister would make any better cen-
sor for a picture show than the aver-
age movie show manager would make
for a church. We mean by this that
we would not pit extremes against
each other. We have no immoral
movie show in mind; if we knew of
one we'd call the attention of the
police to it. We want the movies kept

clean; our children attend them; some-
times we attend them. We would like
to see all our ministers attend them—
some ministers do. We would also like
to see our movie managers attend
church. Ministers and managers can
do this if each will try to make his
place of business mutually attractive,
and we think it can be done.

Just how long humanity will stand
the present excessive cost, based on
no good reason, of the necessities of
life is the question of the day. Right
now those responsible for present con-
ditions seem to be trying the experi-
ment of the limit of human suffering.
It is a dangerous experiment, for
necessity knows no law and hunger
begets unreasoning rage—and disaster
follows.

The British are trying to Villa-ize
the late Lord Kitchener, by making it
appear that he is alive and is being
held for ransom in a German prison.
We refuse to accept the story; Villa
has a monopoly on the dead-and-alive
job, and we don't want any blasted,
bloody Britisher, Doncheknow, in-
terfering with a prerogative strictly
Mexican, sabe? It's an interference
with the Monroe doctrine.

Bob Gresham shows us in the
Temple Mirror that Bell County has
over twenty-five hundred gasoline
wagons. That's a right peart num-
ber, but the number don't bother us.
What's the speed limit in Bell County,
and what's the average number of ac-
cidents? We may have to walk
through Bell County some day, and
this data would be valuable to us in
that event. In Travis County the
speed limit is as fast as you please,
just so you don't run over your fool
self.

Says the Mart Herald: "A clean-
up campaign of vice and immorality
is needed in Mart. It does not take a
seer to tell that there are rotten spots
here of which any civilized community
ought to be ashamed." That is a
severe charge against your own town,
brother, but too general. If you know
these things, specify. Fling the
weapon of publicity into 'em—the only
weapon vice can not stand before.
Point out these rotten spots to your
officers, and, if the officers won't
abate them, point out the officers to
the people. Publicity will win the day.

Laten Stanberry tells us in the For-
tinet that "Villa is a won-
der. He has outwitted Uncle Sam and
all the Mexican forces. He has been
reported as being in Japan and Cuba
and all the while in Mexico homolagat-
ing with Zapata because of their
homogeneity." Sure. We knew that all
along. It is just as natural for two
homogenous homolagators to homo-
logate together as it is for two all-
igatorious alligators to alligate to-
gether. We don't have to tell Laten
this; he knows it to be a fact as well
as we do. We merely mention it for
the benefit of some of you blame fel-
lows who haven't found it out.

Kit Robinson tells us in the Kosse
Cyclone: "Eventually it may dawn
upon some men in Texas that it pays
to be honest, even in politics." We
hope it may, Kit; but you know, and
we know, that the present official
policy of Texas contains the names of
many good and honest men, pro and
con, who unfortunately are not judged
by their honesty and faithful per-
formance of their duties, but by their
political predilections. However, we
have not lost faith in the masses. We
believe they, as a whole, recognize per-
sonal honesty and individual effi-
ciency, and will consider such qualities
above factional prejudice.

Many of the bankers of the State
are in favor of the amendment of the
homestead law, which would make it
possible for the home owner to mort-
gage his home. This would, of course,
be a good thing for those who lend
money, but would it be a good thing
in the end for the borrower? The
Texas homestead law has been of un-
told benefit to many a family in this
State. The law is an old one, and
was conceived in wisdom. Wisdom
would suggest that it be not tampered
with. Think twice before you vote for
a man who would advocate any change
in this law. We doubt if there could
be any change that would be for the
better.

In this writing, submission has
failed to get by the House of Repre-
sentatives, and indications are that it
will not. Among the pro members
there are some who do not fully sanc-
tion the bone-dry feature, and, while
some of the anti members are sincere
in desiring bone-dry prohibition for
Texas, the majority of the latter are
opposed to prohibition in any form.
There lacks a great deal of being
unanimity on both sides, and this is
the present status of the submission
question, which failed of final passage
by two votes on the 1st. What the
final disposition of the question will
be is a mere matter of conjecture.

+++++ AS OTHERS SEE IT. +++++

Grayson County voted against the
eradication of the tick. It is so dull
in old Grayson that those people were
determined to get what excitement
they could out of wrestling with this
little pest.—Temple Mirror.

Senator Johnson made a political
blunder when he tried to work up a
muckraking investigation at Austin.
The people have no sympathy with the
effort of one man to boost himself by
the downfall of another, as Mr. John-
son will learn later to his sorrow.—
Granbury News.

Probably the least dangerous thing
the radical element in the Legislature
can do is to devote the balance of the
session to picking a fight with Gov-
ernor Ferguson. The Governor can
stand it—probably even enjoy it—and
the State will be saved from the dan-
ger of fool laws.—El Paso Times.

Texas, with its enormous area and
extensive road mileage, during the
past year spent approximately \$20,-
000,000 on road construction and
maintenance, and the indications are
that this amount will be at least
doubled this year, making \$40,000,-
000 as the amount Texas will spend
for road work in 1917. Texas has
258 counties, and of these 203 are
active in highway improvement.—
Waco Times-Herald.

Mr. Lawson never swore that any of
the parties mentioned by him were re-
sponsible for the "leak," but only that
he had heard their names mentioned in
connection therewith. What he did
swear to was the existence of "a leak."
This all well-informed men now know
to have existed. So Lawson is again
a benefactor to the public. Is that why
some of our great papers are jumping
on him?—Williamson County Sun.

Senator Johnson thought to advance
his political interests as a candidate
for Lieutenant Governor by introduc-
ing those pernicious and baseless
charges in the Senate against Gov-
ernor Ferguson. As an enemy of the
Governor he sought to ride into the
Lieutenant Governor's office on these
serious charges. To our mind he
knew they were groundless when he
introduced them. The Senate rep-
resentatives, however, who were
properly repudiated them, and the
House repudiated them by a vote of
104 to 31.—Palo Pinto Star.

R. F. Cates introduced a bill in the
Legislature, and it passed, requiring
all legal notices to be published in
some newspaper. That bill should
have been passed many, many years
ago. At this enlightened age of the
world people are not supposed to
search the postoffice walls, or the
windows in public buildings, or the
trail of legal notices, and consequently
trustee elections and other events are
never heard of by a comparatively
large percent of the people until it is
over and appears in some county
paper. It seems to us any legislator
with wisdom enough to find the way
to Austin after his election would vote
for the passage of the bill introduced
by Mr. Cates.—Killeen Herald.

The man who introduced the resolu-
tion in the Senate, a few days before
he had made out his announcement for
the office of Lieutenant Governor of
Texas. There is no doubt but what
he drug the riddled excesses of a lot
of rumors that had already been killed
in the legislative halls, in order to
get a boost. Perhaps he was prom-
ised support if he would keep up the
campaign. But we have too much con-
fidence in the wisdom and the sense
of justice of the voters to believe that
they will go to the polls and cast a
ballot for a man, whose only claim
to the office is that he helped to be-
speak the character of the duly elect-
ed chief executive of his State and
rolled logs in the way of a much need-
ed business administration.—Temple Mirror.

While we fully sense the idea that a
dozener seldom makes a practical
man, still we would not blame the man
who indulges in an occasional dream.
The millionaire of today when a poor
boy of yesterday began with a dream
of success.—The dream gave him the
Pablo success; the idea gave him an
incentive; the incentive gave him the
determination, and labor, backed by
determination, accomplished success.
The boy who dreams of greater things
will in time, as a rule, accomplish
greater things. Dreams sometimes
point the way to their own fulfillment.
Cesar in his youth doubtless dreamed
of conquest, and later conquerer. Na-
poleon, regarded in his youth as a
dreamer, dreamed of a throne and
later sat upon a throne.

Oil of wintergreen applied to an ad-
hesive plaster will soften it and permit
its removal from flesh painlessly.

All Stock Must Be Sound and
gentle. Will be at each place
ONE DAY ONLY.
ED. NEAL

His Destination.
Youth's Companion: Mrs. Horace
Perry had a fault common to many of
her sex; when she saw her husband's
back, she always asked him where he
was going.
Interest, doubtless, had originally
prompted her questioning; but long
after she had ceased to care in the
least where he went, she continued to
call after him, "Whar 'ye goin'
Harry?"
Mr. Perry invariably answered
promptly and, what is more, truthfully.
Occasionally he turned out a neat
reply, such as, "If I tol' ye, Maria,
ye'd know more'n I do"; but this was
the extent of his rebellion.
One day, however, just as he was
disappearing round the corner of the
barn, the familiar words, "Whar ye
goin', Harry?" stirred up a tempest
of wrath within him.
He halted and faced about, resolu-
tion in his bearing, defiance in his
eyes. "Maria," he said slowly and
distinctly, "I'm goin' whar I'm goin';
that's whar I'm goin'."

An Impressive Demonstration.
Philadelphia Public Ledger: It is a
fact that the members of the Pennsyl-
vania Legislature could not have been
present at the Academy of Music on
Monday evening to witness the earnest-
ness of that impressive demonstra-
tion in favor of the immediate aboli-
tion of the death penalty and to hear
the absolutely convincing arguments
that were offered. But the reverbera-
tions of that gathering will be felt at
the committee hearing in this city on
Friday afternoon, and will undoubtedly
be spread to the Capitol at Harris-
burg. No more completely representa-
tive meeting was ever held in Phila-
delphia, and it voiced with an em-
phasis that can not safely be disre-
garded the determination of this com-
munity that their State shall take a
forward position in the march of civil-
ization and that its next important
step in this direction shall be to rid
itself and its criminal code of a bar-
barous practice which fails to prevent
the crime for which it is now the
prescribed penalty, which is demoralizing
in its effect and which involves a
cruelty the terrible character of which
few realize.
To Hog Breeders.
I have a full-blood Poland China
hog, weighing 485 pounds and prob-
ably can't be out-classed in Southwest
Texas. This hog will stand the
season for \$1.50. R. J. Castillo, Kerr-
ville, Texas. 11-1f
The United States produces about 88
per cent of the world's oysters.

PABLO
Non-Alcoholic
The Happy "Hoppy" Drink
Here is a real treat that you will enjoy. A cold bottle or two of PABLO, cheese, crackers and some sandwiches. PABLO added to the lunch or dinner means more happy fellowship. Its delightful, "hoppy" flavor adds a snap and zest that everyone enjoys. Get PABLO, ice cold, at any place that sells drinks—or by the case from your grocer. You'll like PABLO. It is healthful and refreshing.
Made by Pabst at Milwaukee

Exactly seventy-five of the last hundred cars sold in Kerr County were Fords. Does not that prove the popularity of the Ford in a convincing manner? Look at your neighbors who have bought them. The majority of them can afford cars of a higher price; they carefully tested out the various makes before purchasing. THEIR decision should carry weight with you, for they KNOW that the present Ford Automobile is the greatest value in the entire automobile world. "People buy Ford Cars, not because they are CHEAPEST, but because they are BEST."

Mrs. C. C. Mitchell and Mrs. Geo. Fordtran, accompanied by Archie Mayes, from their homes on the Divide, were visitors in Kerrville Monday, returning home Tuesday morning. They were accompanied by Mrs. F. E. Fordtran and Mrs. L. D. Garrett, who will spend a week visiting on the ranch.

RESIDENT CAN ARM SHIPS, HOLDS GREGORY

Washington, D. C., March 7.—Despite his determination to arm American merchant ships, President Wilson still withheld his decision to act upon his own responsibility tonight. It was made known that the legal and diplomatic advisers of the President had definitely decided that under the Constitution the Chief Executive has the necessary authority to put guns and gunners aboard American vessels. But the formal announcement of the decision and the formal orders for action were withheld while Republican and Democratic forces in the Senate agreed on a limitation on Senate debate which would clear the way for a bill granting armed neutrality authority to the President if an extra session is called.

Two courses were open to the President tonight in the matter of arming American ships. One was immediate action on his own authority which he originally questioned, but which has now been upheld by his closest advisers and by congressional leaders. The second was to wait until the Senate closure rule is adopted and then call an extraordinary session of the Sixty-fifth Congress with the practical certainty that complete authority would be forthcoming promptly and ungrudgingly. The President discussed both courses with Cabinet members and with congressional leaders, and it was known that no move will be made until tomorrow.

From Attorney General Gregory the President received an opinion which sustained the contention that the President has all needed authority to protect merican lives and rights at sea. The Attorney General, it was understood, held that the authority conferred by the Constitution could not be changed or diminished by limitations imposed in statutes passed at any time and that statutes attempting to limit that authority are unconstitutional. The opinion was not made public.

After going over the Attorney General's opinion the President conferred at length with various Senate leaders on the closure situation in the upper House. He then called in Secretary of State Lansing, who for an hour went all over the details, proposal to arm ships and all of the developments which might follow such a step. Secretary Lansing, it was learned, is impatient for the President to take immediate action. He held weeks ago that the President's authority is ample without congressional reaffirmation, after a careful review of all the statutes and precedents. The Secretary believes that aggressive and immediate action is imperative to vindicate the position of the United States with foreign nations and to demonstrate that American commerce cannot be barred from the seas.

Secretary of the Navy Daniels was ready tonight to move at once to arm merchant ships. It was stated that within an hour after the President issues the order the naval machinery at New York, Boston and Philadelphia will be in motion putting guns and gunners aboard the merchant vessels in those ports. At the Navy Department, it was said, however, that no statement on the matter would be forthcoming until some time tomorrow. There is a growing conviction, however, that the orders will be forthcoming within a very short time.

The decision to arm American vessels is expected to bring to a head the European negotiations with Austria. The loss of the Austrian statement on the subject, however, is an indication that Administration officials believe that a reply will be necessary in order to avoid placing the United States in the position of forcing a break. The Austrian note was very clear, however, on the point that the dual monarchy will sink without warning merchant ships which are armed, and if American vessels put to sea without guns and gunners the break with Austria is deemed inevitable.

CHEVROLET
Reputation

When you buy an automobile what do you really buy? Do you only buy the material and labor? Or do you buy what a car stands for in reputation, in achievement, in excellence of rank? When you buy a car, you believe what the maker says of it. You buy material and labor PLUS reputation.

Reputation in motor car building is most important. Without reputation, your metal, rubber, and wood would be merely a highly polished mechanical assembly. With it, you are certain of satisfaction, pleasure, health and efficient travel. Chevrolet reputation is founded on complete satisfaction. We could not have grown without it.

CATHOLIC CHURCH NOTES
BY FATHER KEMPER

One of the most beautiful and practical devotions of the Lenten season is the Way of the Cross, which takes us step by step through the scriptural narrative of Our Lord's bitter passion and death for our sins.

On Fridays after the Stations, the Ladies Sewing Circle assembles in the Rectory.

At the Civic League meeting, held on Tuesday afternoon, the Catholic ladies were represented by Mrs. P. J. Dominguez, Mrs. Charles Mosel and Miss Angeline Kemper.

Father O'Flynn of Boerne was a guest at the priest-house on Monday and Tuesday.

After an enjoyable vacation of a couple of weeks in the Alamo City, Miss Annie Mosel returned to Kerrville.

Mrs. Wm. Newton went back to her family in Junction on Monday.

Mr. Frank Montague of Bandera was a recent guest at Mr. Jack Gallagher's.

Miss Tillie Schwethelm is entertaining Miss Annie Sharpe of San Antonio.

During the week we enjoyed a visit from Mr. Max Mueller, a war refugee from Belgium, whose wife and children are still in the blood-drenched fatherland. Mr. Mueller is combining business with sociability during his present canvassing tour.

We have a new line of ladies spring and summer skirts and suits, which we think very highly of; let us have your opinion. CHAS. SCHREINER COMPANY.

DON'T WAIT
Take Advantage of a Center Point Citizen's Experience.

When the back begins to ache, Don't wait until backache becomes chronic.

"Till kidney troubles develop; 'Till urinary troubles destroy night's rest.

Profit by a Center Point citizen's experience. J. N. Cox, Center Point, Texas, says: "I had rheumatic pains, and I was also having a spell of lumbago and it made me unfit for work. I used six boxes of Doan's Kidney Pills and was cured."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Cured Mr. Cox. Foster-Milburn Co., Props., Buffalo, N. Y.

Despondency Due to Constipation. Women often become nervous and despondent. When this is due to constipation it is easily corrected by taking an occasional dose of Chamberlain's Tablets. These tablets are easy to take and pleasant in effect.

Old Newspapers Wanted Now. We have a big demand for all of your old newspapers and magazines in order to complete a carload which will be shipped as early as possible. N. SACHS.

A Bilious Attack. When you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and a terrible headache. Take Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. They only cost a quarter.

Army Bills Must Wait. Washington, D. C., March 7.—Representative Slayden was informed today by General Sharpe, chief quartermaster, that he is greatly embarrassed by the failure of the general deficiency bill, the major part of which was to cover debts already contracted by his corps.

Many of these bills are for material purchased at San Antonio and for work done there and elsewhere in Texas.

There is no help for this unfortunate situation—except to wait until Congress can be reconvened and more applied. The general impression is that this will involve a delay of at least sixty days, hardly more and it may be less. No one can predict what the President will do regarding an extra session.

Land Bargains

3,062 acres of land, about ten miles southeast of Marble Falls, Texas; 150 acres in cultivation and 300 to 400 more tillable, with approximately 2,000 acres of fine rolling pasture land and the balance cedar breaks. It is estimated that the cedar on this place is worth from \$7,000.00 to \$10,000.00.

This property is well watered with ever-running springs. It is fenced with seven-wire fence with good cedar posts about ten feet apart, one side being hog proof. The pasture portion is cut into four pastures with four to five-wire fences. The improvements consist of two ranch houses in fairly good condition.

This entire ranch property is offered at \$5.25 per acre.

211 acres of good improved land within two miles of railroad in Travis County. 125 acres in cultivation with forty acres more tillable. Good rich black soil and well fenced, and situated on good road. The improvements consist of two houses of five and three rooms respectively, with barns and good well.

This excellent farm and ranch property can be bought for only \$65.00 per acre and party would consider a section or two of good western land, preferably in Lynn or Lubbock County, for same.

158 acres of good farm land, practically all in cultivation, within two miles of Railroad Station in Brazos County and about 11 miles from College Station. The improvements consist of two houses, barn and good water.

Will trade for anything worth the money in or near Austin, Texas, at the very low price of \$30.00 per acre.

320 acres within six or seven miles of Madisonville, Texas. 100 acres in cultivation and forty more ready for the plow. Good frame house and barn with fine well of water and a creek running through one corner of this land furnishes living water the year round.

This excellent tract of land is priced at only \$30.00 per acre and party will trade for good clear grazing land in Western Texas.

For these and many other bargains in lands and general properties in Texas, address

NAVY DEPARTMENT OPPOSES PLAN TO CONVOY VESSELS

Washington, D. C., March 5.—While the arming of merchantmen is the subject most considered, it is pointed out that the President has the right to convoy American vessels. This course has been opposed by the Navy Department, however, principally for strategic reasons. Another step suggested is that the shipping board take over American merchantmen, arm them as naval auxiliaries and send them abroad.

The President has been inclined to believe that certain old statutes still in force might prevent him from furnishing guns to merchantmen but some of his advisers hold that the proper interpretation of these laws will show that they have no application to the present situation.

Another name was added today to the list of Senators who signed a manifesto in the closing hours of the session declaring they favored the strict neutrality and would have voted for it if given the opportunity. Senator Lippitt of Rhode Island telegraphed asking that his name be added, making seventy-six signers.

First Baptist Church.

Well, that "norther" like to have gotten some of our people, who were already nearly frozen spiritually. It sometimes is indeed distressing when we think of so many professed Christians who have "Covenanted" that they would "strive to sustain church worship," and yet who do not seem to think it makes any odds whether or not they do. "Christian Indifference" is the one great sin of many Christians.

We are to have services as usual next Sunday, and again ask all who will to be with us in our meetings. "Promotion Day" will soon be here for the Sunday School pupils, and we hope all of them will be able to see the time come.

J. B. RIDDLE, Pastor.

Cattle Clatter, in San Antonio Express: Sheep feeders in the Northwest are doing little shearing and packers are now taking cognizance of this by paying for the wool on the sheep's back. It is a foregone conclusion that American weavers will have access to the smallest volume of imports in many years. The Texas wool grower can get 40c for the wool if he will be satisfied with it.

SUBMISSION DIES IN LOWER HOUSE

PROS ABLE TO MUSTER ONLY 93 SUPPORTERS IN FINAL TEST ON MATTER.

Austin, Tex., March 5.—After being under call for more than forty-eight hours, awaiting the arrival of Messrs. Nichols and Martin, the House reached a vote on the submission resolution this morning with the entire pro membership present, and submission was defeated by a vote of 93 ayes, 41 noes and 5 present and not voting. This is the fourth time submission has lost in the House this year. Ninety-five affirmative votes are necessary in the House to submit, the vote today being two short of that number.

Those present and not voting were Burton of Tarrant, Hill, Lindemann, Sholars and Valentine of Tarrant. The only absentees were three anti who are sick in bed and excused: Tillotson, Strayhorn and Wahrmond.

Today's defeat of submission is considered decisive, although it is a parliamentary possibility for the resolution to be called up again. The House refused, 51 to 77, to reconsider and table, which would have ended the matter absolutely. That leaves the motion to reconsider "spread upon the journal subject to call."

Food for the Foolish.

New York World: The prejudice against rice reported from the East Side never was reasoned into anybody's head, and so it will be difficult to reason it out; but of all excuses for refusing to make the most of a food that is both nutritious and cheap, the fear that we may be "Chinified" by eating an Oriental dish is the worst.

Few of the great staples of diet to which people European born and bred are accustomed are native products. Wheat appears to have come originally from Western Asia, and it was an important crop in ancient Egypt. Potatoes and Indian corn are American products, though both had to be brought to these latitudes from the subtropics.

While of the more substantial sort grows no nationality in these days, human evasions in regard to it are numerous and foolish. Millions of good Americans will not eat corn bread or any dish into which corn enters. The bias against oatmeal was once so inveterate in England that oats were defined by Dr. Johnson as food for men in Scotland and for horses in England. Many people now living can remember when the tomato was regarded as poisonous, and yet needy women in New York have recently engaged in disorderly protests against its high price.

We are not Chinified by rice any more than we are Tartarized or Egyptianized by wheat or Mexicanized by potatoes and maize. The civilizations making the best use of their staple crops of food plants have been the soundest.

Game Bills Probably Doomed.

Austin, Tex., March 5.—The prospects of any amendments before made to the present wild game and fish protection laws at this session are not at all encouraging. These measures are lying apparently dormant in both the House and Senate. C. E. Metcalfe of San Angelo, who has taken a very active interest in bringing about the enactment of legislation that would serve to further protect wild game and fish, is still hopeful that the pending bills may be passed. There is at this stage of the session, however, such a crowding of the calendars with measures in which the membership of the House and Senate are more deeply interested than they are in considering wild game and fish, that the outlook for Mr. Metcalfe's and other bills is not at all favorable.

Sloan's Liniment for Rheumatism.

The torture of rheumatism, the pains and aches that make life unbearable are relieved by Sloan's Liniment, a clean clear liquid that is easy to apply and more effective than many plasters or ointments because it penetrates quickly without rubbing. For the many pains and aches following exposure, strains, sprains and muscle soreness, Sloan's Liniment is promptly effective. Always have a bottle handy for gout, lumbago, toothache, backache, stiff neck and all external pains. At druggists, 25c.

The average annual fire loss in the United States is about \$2 for each inhabitant.

Just plant the Tape a row at a Time.

Greatest Improvement In Seed Planting

The tissue paper tape keeps the seed constantly moist—it is simple to understand that they germinate quicker and better. The seeds are spaced the proper distance apart—so no thinning out is necessary. Only the finest selected seeds of thoroughly tested prize winning strains are used. And the labor is reduced to a minimum.

Surely this is what you should use in your garden this year.

Pakro Seedtape is made by the American Seedtape Co., 71 West 23rd St., New York City. Get it at your dealer. Price 10c per package.

Much Expected of Edison.

Indianapolis News: Thomas A. Edison is reported to be at work on some new device for the use of the United States navy. Secrecy surrounds his experiments. Isolated on a mountain top near his laboratories, the inventor may be approached only by members of his personal staff. Armed guards prevent the intrusion of the curious—who are merely curious—and of those whose curiosity is not without substantial motive. What the great American inventive genius is doing in his secluded laboratory retreat would be of interest to more than one foreign government.

No inkling of what Edison is seeking to do or of the nature of his experiments has made its way from the workshop. The world is left to draw its own conclusions. And so much of the world being now at war, it may be readily surmised that these conclusions are both numerous and varied. From London came recently a brief dispatch, quoting some prominent member of the government, saying pointedly that if the United States should eventually be drawn into the great conflict its greatest service probably would be rendered through its inventive geniuses rather than through its navy or its army.

Belligerent nations, in other words, recognize this Nation's superiority in this respect. They seem to realize that our native inventors would go up for what we may lack in the way of preparedness. This we fancy, is also the opinion of our own public as

well. Subconsciously we feel that we are being well wippled in the emergency when the emergency arises.

But it is as well to remember that, in two years and a half of war fought on a scale never before known, the leading inventors of the belligerent nations have brought forth very little to assist the fighting forces either on land or sea. Nor have they been idle, either. To be sure, poisonous gases and liquid fire and explosives of more destructive force, to say nothing of "tanks" and improvements in ordnance, have all made themselves felt.

But these, as a whole, have not been in the nature of new inventions. The war, in other words, has brought forth less from inventors' laboratories than many of us, if not most of us, believed it would bring to light. The United States, if it becomes involved, might change the trend of this chapter in the history of the conflict. That, at any rate, it appears, would be expected of us. Edison is showing the way. Perhaps others, less in the public eye, are also at work. To fancy that they are is at least a comforting reflection.

The Pneumonia Season.

The cold, damp weather of March seems to be the most favorable for the pneumonia germ. Now is the time to be careful. Pneumonia often results from a cold. The quicker a cold is gotten rid of the less the danger. As soon as the first indication of a cold appears take Chamberlain's Cough Remedy. As to the value of this preparation, ask anyone who has used it.

Thrift in Business Management

Thrift means conservation of time and energy through the use of specialized knowledge and facilities.

Consult with us. Constant contact with business conditions places this Bank in a position to be of particular service.

First State Bank

A Guarantee Fund Bank

KERRVILLE, TEXAS

Miss Schwethelm Entertains.

At the pleasant home of her parents, Mr. and Mrs. E. Schwethelm, Miss Tillie very enjoyably entertained Wednesday evening about forty-five guests with a dancing party, in honor of her friend, Miss Annie Sharp, of San Antonio, who is in Kerrville, a guest at the Schwethelm home.

The reception rooms were very appropriately decorated and the entertainment proved to be one of the most enjoyable of the season.

Among the out of town guests were Maek Stehling, Willie Peterman, Ruben Cameron, Ruben Jourdon, Joe Flager, Mr. Metzger, Mr. and Mrs. Harry Heyland and Miss Irma Heyland of Fredericksburg; Fritz Faust, Oscar Neunhoffer, Lewis Faust, Fritz Stieler and Miss Lillian Wilke of Comfort.

Home Talent Play.

The Parents-Teachers' Club is making arrangements for the production of a play entitled, "How the Story Goes," by an all-star cast of Kerrville stars, to be given at the Tivy High School Auditorium on Friday night, March 17, at 8:30 o'clock. Admission to all school children will be 10 cents each, and to adults 25 cents, the proceeds to go to the benefit of the school. You are invited to come out, and aside from helping a good cause you will be enjoyably entertained.

New Bank Director Elected.

At a recent meeting of the stockholders of the First State Bank of Kerrville, Dr. J. L. Fowler of Ingram was elected a new member of the already strong board of directors.

The officials of this popular banking institution are now composed of Dr. E. Galbraith, president; A. B. Burton, active vice president; A. B. Williamson, cashier; Dr. E. Galbraith, Dr. A. A. Roberts, A. B. Williamson, A. B. Burton and Dr. J. L. Fowler, directors.

Death of Mrs. Annie Lee.

Mrs. Annie Lee, wife of Victor B. Lee, died in Kerrville, March 2, at 8 p. m. Interment was made at the Nichols Cemetery the following afternoon, services being conducted by Rev. J. B. Riddle.

Mrs. Annie Littlefield Lee was born in Hays County, Texas, December 16, 1889, and was married to Victor B. Lee, January 5, 1908. She leaves several small children and many other relatives to mourn her early death. She was the daughter of Mr. and Mrs. Harvey Littlefield, a highly respected family of the Ingram community.

Jim Freeman returned the first of the week from his ranch on the head of the Frio, where he had been looking after stock interests.

SOUTHWEST IS IN EXCELLENT SHAPE

FEDERAL RESERVE BANK REPORT SHOWS LIVE STOCK, MINING AND EXPORTS GOOD.

Dallas, Tex., March 4.—Wholesalers say "there is some disposition among the merchants to proceed cautiously, pending the outcome of the international crisis," according to the monthly report of the Dallas Federal Reserve Bank. However, there is considerable activity in trade, the report says.

There is no improvement in the situation as regards raw materials and wholesale concerns throughout the district are finding it difficult to obtain satisfactory stocks of goods, the report says. Collections continue satisfactory and labor is generally well employed.

Cold weather during the past month damaged winter truck crops considerably, according to the bank's information. In the Brownsville section the cabbage crop was damaged 50 per cent, but, the report says, with the price around \$115 a ton, the damage has been more than offset.

A heavy acreage is being planted in potatoes, beans and tomatoes in the Rio Grande Valley, the report adds.

With reference to banking the report says conditions have not changed since last month, rates "remaining easy." An increase of 38 per cent is shown in bank clearings in Austin, Dallas, Fort Worth, Galveston and Houston, for the month of January, compared with 1916. "From all sections come reports of record reserves and heavy deposits."

According to figures gathered by the bank, there was a falling off in the number of building permits issued in the nine largest cities of the district during January, as compared with the same month in 1916.

Value of exports from the port of Galveston during January was \$32,161,451, or an increase of 80 per cent over 1916.

Notwithstanding the severe winter weather cattle on the ranges suffered comparatively little, so far as deaths are concerned.

The report shows considerable activity in the copper mining districts of Arizona and the southern part of New Mexico. New oil wells recently have been drilled in the Elberta and Archer County fields. Large sales are reported.

Postoffice receipts of the principal cities in the district show substantial gains, with one exception—Galveston, which shows a decrease of 3 per cent for January over that of the same month in 1916. El Paso shows the largest increase—65 per cent.

Failures in the district during January, the report says, totalled 58, with liabilities of \$498,256. For the same period in 1916 there were 125 failures with liabilities of \$1,292,696. "These figures," the report says, "clearly indicate general improvement throughout the district."

Oakland Honors Burbank.

Oakland, Cal., March 7.—Luther Burbank, the wizard of Santa Rosa, is 68 years old today. In celebration of the event Oakland has virtually declared a holiday, and most of the population gathered to attend the setting out of Burbank's Oakland dahlia, said to be the largest white dahlia ever produced.

The Burbank Oakland dahlia henceforth will be Oakland's official flower. A bulb from the new dahlia will be presented also to each of the other twenty-seven cities in the United States named Oakland. This will be Oakland, California's return of the compliment paid by the other Oaklands in presenting her each with a live oak tree to be planted beside Oakland's official oak in City Hall Plaza.

Religious Notice.

St. Peter's Episcopal Church: Sunday School, 9:30 a. m. Holy Communion First Sunday at 10:30 a. m. Morning Prayer Second, Third and Fourth Sundays at 10:30 a. m. Morris Ranch Third Sunday, Fortle Creek Fourth Sunday at 3:30 p. m.

Ducks Are Regular Pets.

Brownwood, Tex., March 7.—Hundreds of ducks are in the Brownwood country, according to reports received here from farmers and stockmen. On every lake in the country scores of the birds are seen daily. Because it is against the law to kill ducks at this season of the year, the ducks have nearly become domesticated.

THE OLD SENTINEL

When the camps of commercial industry were first pitched in Southwest Texas, almost half a century ago, this house was one of the first in this part of Texas and is, in fact, the pioneer store of Kerr County.

Time has brought its changes in many things, but while this business has grown, and has prospered, the policy of the "House of Quality" has ever been the same.

Old faces have disappeared from behind its counters and in its offices, but new ones took their places and the business went on undisturbed. Old customers have passed away, and new ones, including their children and their grandchildren, have taken their places, but the policy of the house is the same today as it was when conducted in a little building of cedar palisados.

We appreciate the steadfast confidence the people have had in us, and have earnestly striven to merit that confidence. That we have succeeded in a large measure is evidenced by the great growth of the business.

We offer you the same service, the same quality, the courteous treatment today, and the same full value for your money that has marked the course of the business from its founding. You are always welcome at the store of

THE CHARLES SCHREINER COMPANY

"The House of Quality"

WILSON IS TWENTY-EIGHTH PRESIDENT OF THE U. S.

Washington, D. C., March 5.—Woodrow Wilson is the twenty-eighth President of the United States, succeeding Cleveland's two terms as separate ones because he was the only President serving twice who was not re-elected.

Virginia leads in the nativity of Presidents. Eight of her sons—Washington, Jefferson, Madison, Monroe, William Henry Harrison, Tyler, Taylor and Wilson—have held the highest office in the gift of the Nation.

Ohio has given six native sons to the Presidency. They were: Grant, Hays, Garfield, Benjamin Harrison, McKinley and Taft.

Of all the vocations in life the law has furnished most Presidents. Nineteen chief executives of the United States were lawyers at the time they were elected. Three are classified as statesmen, two as soldiers, two as farmers, one as a public official.

Seventeen Presidents have been college men; one was graduated from West Point, nine had no college education.

English paternal ancestry has predominated among all the Presidents. Fifteen were of English extraction. Six were Scotch-Irish, three were Scotch, two were Dutch, one was Welsh.

The youngest President at the time of inauguration was Roosevelt, who was 46. The oldest was William Henry Harrison, who was 68.

Of all the Presidents John Adams lived to the oldest age. He was 90 when he died.

To Rush Navy Work.

Washington, D. C., March 7.—American ship builders engaged on Government work entered into an agreement with Secretary Daniels today to accept new contracts at a flat rate of 10 per cent net-profit and pledged co-operation to the fullest extent of their ability in rushing to completion the navy's construction program.

Virtually all of the larger private plants in the country were represented in the conference. The builders, who have been netting from 20 to 30 per cent on merchant steamers, said they were willing to turn to Government contracts at 1 per cent as a patriotic duty and the secretary agreed to protect them from undue loss. As a result, for the present at least, the Gov-

WIDOW OF REPUBLIC OF TEXAS TREASURER DIES

Austin, Tex., March 7.—Mrs. Margaret Johnston Raymond, 92 years old, widow of James H. Raymond, the last Treasurer of the Republic of Texas and the first Treasurer of the State of Texas, is dead at her home in this city. The funeral will be held tomorrow, the seventy-fourth anniversary of her marriage, the ceremony having been performed at Old Washington, March 8, 1843.

Mrs. Raymond was born near Cleveland, Ohio, July 11, 1824. She was the daughter of Andrew and Mary Johnston, who died when Mrs. Raymond was but 5 years old. In 1842 Mrs. Raymond came to Austin with her brother. Save for three years when the seat of government was moved to Old Washington by General Sam Houston, she resided continuously in Austin. It was during her residence in Old Washington that she met and married James H. Raymond. The ceremony was performed by Rev. Charles Gillette, a young Episcopalian minister of Houston. It was his first marriage service.

Two years later Mr. and Mrs. Raymond moved to Austin, the following year building a commodious log house. In those days lumber houses were rare, the only lumber built houses in Austin being the one occupied by the President on President's Hill, where St. Mary's Academy now stands. Some years later Mr. Raymond built the Colonial mansion where occurred Mrs. Raymond's death last evening.

No immediate relatives survive Mrs. Raymond. Of the name only nieces and nephews and grand-nieces and grand-nephews remain. They are Miss Mollie Johnston and Mrs. W. S. Drake of Austin, Mrs. John M. Church of Galveston, Ben Johnston of Llano, Sidney Johnston of El Paso and Miss Royal Watkins of Dallas.

Call for City Election.

By virtue of authority vested in me as Mayor of the City of Kerrville, Texas, I hereby order an election for the City of Kerrville, to be held at the courthouse in said city on the first Tuesday in April next, the same being the 3rd day of said month, for the election of three Aldermen, City Treasurer and City Secretary.

I hereby appoint Geo. W. Walters, J. A. Smith and N. B. Smith as managers of said election. (Signed) GEO. MORRIS, Mayor.

Oppose Easter Clothes.

Chicago, March 7.—A movement to oppose the custom of displaying new attire on Easter was begun here by 125 officers of the Chicago Christian Endeavor Union. The use of this day for sartorial display was deplored on general principles, but particularly because of the European war.
