NO. 39

PUBLIC SCHOOLS OPENED MONDAY

ENTHUSIASM MARKS OPENING EXERCISES IN TIVY HIGH SCHOOL AUDITORIUM.

The Kerrville Public Schools started off very auspiciously Monday morning, and the enthusiasm manifested by faculty, patrons and pupils insures a year of great attainments in school work.

The opening exercises were conducted in the Tivy High School Auditorium, and it was filled to its capacity. At 9 o'clock the exercises were opened with music by Mrs. King's Orchestra. Prayer was offered by Rev. J. B. Riddle of the First Baptist Church. Supt. G. C. Jones took the floor and made a brief, but masterful, address on "Education." His remarks in full were:

There are three words which are coming to be included more and more in the vocabulary of the average man and woman of today. The first of these is conservation. This has to do with the elimination of waste in the use of natural resources, which have been supplied in our great country with such a lavish hand. To study this word, conservation, properly, will require a certain amount of foresight, and consideration of the good of future generations, which is exceedingly commendable. During the limited time that it has been before the minds of the people, it has been productive of much present good, for it has led to the study of the reproduction of such resources as can be replaced, and to the greater utilization of others in the development of by-products.

The second word is preparedness. The entire country has been thrown into a state of excitement over the declaration of war, and theories of all sorts have been propounded. This also has been valuable. It has served to show us the benefits of peace as well as its price. We were forced to see our own weakness and have felt keenly humiliated because of our unpreparedness.

The third word is development. Resources must be brought to their highest capacity; the earth's increase must be made as great as possible. Growing populations must be housed, clothed and fed, and to do this every effort must be made to contribute its share. Idleness and lack of use are worse than waste.

There can be no possible criticism of the ideas which underlie these words; as used in the majority of instances they deal with things, whereas living men and women are the greatest resources of a State and the end upon which all efforts at conservation, preparedness and development should terminate. If the present condition should last for any considerable period, we shall incur the danger of substituting something that is good for that which is best. It is important to save our timber, to conserve our minerals, to make one acre yield two bales of cotton instead of one, and to do all else with the resources at our command of which we are capable. But, after all, if we lose sight of the best development of the hundreds of thousands of children and young people of Texas, we shall be guilty of selling our birthright for less than a mess of pottage. I believe the wisest and most farsighted piece of legislation that has ever been adopted in Texas is that of the last Legislature in providing two millions of dollars for the common rural schools of the State and the more adequate appropriations made for the higher institutions of learning. The various religious denominations of Texas also deserve the highest commendation for their educational policies; for the present and rapidly increasing human resources of this State far outstrip the combined efforts of all our institutions. With our greatest endeavors thus far we have only been able to touch the fringe of that which needs to be done.

Education is a profitable thing. Looked upon from any angle, it is beneficial. If the individual only be considered, it is worth while to increase the consciousness and exercise of his own powers, to broaden his vision, to enlarge his efficiency, to expand the horizon of his thoughts and to give him that sympathy with his fellow which the right kind of education imparts. If the family be considered, it is worth while to secure homes that are full of light where fathers and mothers are capable of providing for sons and daughters (in those earlier years when external forces operate most strongly), the proper stimulus to right thinking and proper living. If the State be considered, it is worth while to have intelligent citizens, men and women familiar with the progress of history and capable of broad vision and accurate thinking.

If we consider actual results produced by the educational work of the past, we shall arrive at the same con-

clusion. For example, less than 1 per cent of the American men have been college graduates, yet this 1 per cent has produced 55 per cent of our Presidents, 30 per cent of the members of Congress, 47 per cent of the Speakers of the House, 54 per cent of the Vice Presidents, 62 per cent of the Secretaries of State, and, if statistics are followed further, they will reveal that the larger number of all public offices have been filled from this 1 per cent of American men. It has been calculated that the child with no schooling has one chance in a hundred and fifty thousand of performing distinguished service to the State. With an elementary education he has one chance in 17,500. With a high school education he has one chance in 1,722. With a college education he has one chance in 187. From a financial standpoint, it can also be proved that education increases productive power, and that this productive power itself grows with the growth of education. The State which does not educate, dooms its children to industrial subjugation by those from States where education prevails. The educated mind is the greatest producing agency in the world, without which fertile soil, timbered land, and mineral deposits are but so much useless material.

The point, however, which I most desire to make is that in the failure to provide adequate educational facilities for its youth, the State has already lost and has lost heavily, simply because her valuable human resources have not been developed. Vicious practices and vicious men find ignorance their most fertile field. A true democracy presupposes an individual intelligence. It grows in security only as proper education grows. The ignorant man is perhaps a greater menace to our American institutions and ideals than the scoundrel, and the State will seal the doom of the demagogue upon the day when she determines to give to every citizen the opportunity for adequate development.

The man who takes his child out of school to put him to work is crippling the child and robbing the State. He is short sighted. The man who is compelled to such a course by circumstances is deserving, not only of our sympathy, but of the most earnest efforts of our statesmen to relieve such necessity. Education is the highest conservation, the most profitable preparedness, and the greatest development.

Rev. S. W. Kemerer, Methodist pastor, was the next speaker and in his usual case of manner and eloquence made a splendid address.

An appropriate talk on behalf of the School Board was made by A. E. Seif, in a few well chosen remarks.

Before teachers and pupils retired to their respective rooms, at the suggestion of an interested patron, each member of the faculty was brought forward and introduced to the large audience. Superintendent Jones also presented each member of the Board.

When the program was completed pupils were instructed to report to their rooms, and after the usual preliminaries of getting acquainted and being properly assigned were gone through, the 1917-18 school year was begun in earnest with bright prospects for a great session.

The faculty of the Kerrville Public Schools this year is composed of fourteen teachers, and represents the best in efficiency, ability and teaching reputation. The personnel of the faculty is as follows: Primary, Mrs. Fred F. Real; Second Grade and Domestic Science, Miss Florence Smith; Third Grade, Miss Lynn Burnett; Fourth Grade, Miss Dora Nimitz; Fifth Grade, Miss Nellie Horne; Sixth Grade, Miss Bess Graham; Seventh Grade, Miss Hattie Garrett; Eighth Grade and English in High School, Mrs. Taquard.

High School: G. C. Jones, Superintendent; J. L. Dixon, Principal; Mrs. H. C. Geddie, Miss Dora Krause. Mexican School: Miss Lurel Paine. Negro School: Mrs. A. W. Doyle. The present School Board is composed of: T. C. Johnston, president; J. E. Palmer, secretary; Dr. E. Galbraith, R. B. Everett, Jno. H. Ward, A. E. Seif and M. T. Davis.

Wooden Shoes in Demand

Chicago, Sept. 18.—Wooden shoes in various styles, made entirely of wood, and wooden soles with cloth or leather uppers, are now being displayed in Chicago stores and dealers predict their use will be general if the war continues another year. Prices of full leather shoes have gone beyond the limit for working people, who are taking kindly to the wooden shoes. Motormen, workers in dairies, garages and shops generally are the chief buyers. Shoe houses report that sales of all wooden or part wooden shoes are increasing. The shoes with wooden soles and leather uppers are most in demand.

MOHAIR USED IN ARMY SUPPLIES

GOOD WORK BEING DONE FOR MOHAIR INDUSTRY BY CAPT. CHARLES SCHREINER.

Capt. Charles Schreiner has recently been very active in his efforts to have mohair used in the manufacture of uniforms and other equipment for our soldiers, and the results so far have been highly gratifying.

This means much to the goat men of this section and to the mohair industry of the Nation, as it will mean a far greater demand than ever before for this product and, hence, better prices. This is indeed a commendable undertaking and should have the unqualified support of everyone connected with the mohair industry.

The following letters regarding the matter are self-explanatory:

War Department, Equipment Division, Washington, D. C., September 11, 1917.—Hon. John N. Garner, House of Representatives.—Dear Sir: In reply to letter from Charles Schreiner dated August 27, 1917, O. O. File E. 423.3-2960, forwarded by you to the Quartermaster General's office and referred to this Department, with reference to the use of mohair in Army supplies, I have the honor to inform you that this office is not using any material of this kind at the present time. This correspondence, however, has been referred to the Council of National Defense to be listed in that office in connection with this material. Sincerely yours, WILLIAM CROZIER, Brig. Gen., Chief of Ordnance.

War Department, Office of the Quartermaster General of the Army, Washington, D. C., September 12, 1917.—Hon. John N. Garner, House of Representatives.—My Dear Sir: Replying further to your memorandum of September 12th, having regard to the possible use of mohair in the manufacture of Army supplies, you are informed that mohair is not suitable for any use by the Quartermaster Corps except for lining, and purchases are being made of all available mohair for this purpose. Very respectfully, P. BRAINARD, Colonel, Q. M. Corps.

Kimble County's Quota Reports.

Kimble County's first quota of the new National Army, composed of fifteen men, passed through Kerrville Tuesday evening en route to Fredericksburg, where they joined the drafted men from that city and proceeded to Camp Travis, San Antonio. Those in the party were: Barney B. Smith, Julius Heyman Jr., Rudolph L. Becker, Henry M. Barker, Julius Fred Leffeste, Arnold John Grossenbacher, O. D. Sanders, Ed Trapp, Carroll D. Collier, Pearl Shipman, Fred G. Westone, Charles Vestine Wootan, Frank Thurman, Arden R. Tomlinson, Andrew Franklin Surber.

Will Meet Fridays.

The Surgical Dressing meetings will hereafter be held only once a week, which will be Fridays. This meeting will be under the supervision of Miss Viola Burney at the old Schreiner Bank Building, which is being occupied by the Red Cross workers.

All ladies interested in this work are most cordially invited to each and all of these meetings, which, remember, will be held on Friday of each week.

Death Claims Little Boy.

A pall of sadness was cast over the city Sunday when the Death Angel again visited Kerrville and claimed Richard, the 12-year-old son of Mr. and Mrs. Harry Williams of Turtle Creek. The little fellow died at the Kerrville Sanitarium-Hospital at 3:30 o'clock Sunday afternoon after a brief period of intense suffering from blood poisoning.

Some months ago little Dick, as he was known to his comrades and playmates, received a blow of some kind in his left side over the heart. It was not thought of much consequence at that time as it rapidly healed and soreness left the interior; but only a few days prior to his death the boy received a cut on his knee and the wound showed traces of blood poison. This, however, suddenly left and it is

the opinion of attending physicians that the disease caused the old hurt in his side to become active and this caused his death. Everything that skilled surgical aid and tender nursing could do were of no avail as the disease had early maintained a hold upon the body of the brave sufferer. Over a happy home the shadow of a little grave has fallen, and this beautiful young life so precious, so fraught with blessings to his parents, has been recalled from the scenes of this life leaving the earth road for them lonely. It seems that a flower was budding in a garden fair, and then—

Death came with friendly care,
The opening bud to Heaven
conveyed,
And bade it blossom there.

The remains of this beautiful young character were laid to rest in the Turtle Creek Cemetery Monday morning by a large concourse of friends and relatives, within a stone's throw of the school house where the lad had spent all his school days and on the morning he had hoped to begin this year's term of school. Rev. Mr. Kemerer of the Kerrville Methodist Church conducted the services in tender words of sympathy and comfort, of hope and promise.

The Sun joins the entire community in extending sympathy to the sorrowing ones in their great loss.

The Turtle Creek community mourns with the family of Mr. and Mrs. Harry Williams the loss of their little son, Dick. The children of many of us will miss their playmate and school-fellow whom Our Heavenly Father in His infinite wisdom has seen fit to call to Him—while it is given to none of us to fathom His plans, and the pain of parting sinks deep, there is endless consolation in the knowledge that whatever happens is for the best. Whittier strikes a heart chord when he says:

I long for household voices gone,
For vanished smiles I long,
For my dear old mother led my dear one on,
And he can do no wrong.

Our heartfelt sympathy goes out to the bereaved family.

A FRIEND OF THE FAMILY.

Two Sides to Every Question.

I read with interest in last week's issue of The Mountain Sun, the letter of the Rev. J. B. Riddle in which he deplored the seeming thoughtless frivolity of those who have been attending the weekly dances, when they should rather be mourning the departure of our soldier boys.

There are two sides to every question, and I wish to call attention to the other side. By means of these dances the nice sum of \$175 has been raised for the purpose of buying material for the Red Cross, and who knows but that the actual goods bought with this money (after being converted into surgical dressings) may not be the means of saving the lives of some of our own boys in some distant Red Cross Hospital across the sea. If some of our patriotic citizens who do not approve of dancing would club together and donate the material needed so urgently, it would not be necessary to give dances and card parties to raise the money that so far has only been forthcoming by these means.

A RED CROSS WOPKLE.

Villa Asks Amnesty.

Chihuahua, Mex., Sept. 18.—Francisco Villa believes he is entitled to honors from the government as the one who did most to put down the Huerta regime in Mexico; according to a letter made public here today as the one written by Villa to General Francisco Murguía, in which the former asked guarantees of amnesty.

The letter said Villa considers himself a valuable citizen.

German Citizen Is Patriotic.

Chicago, Sept. 18.—Gottlieb Traub, born in Germany, now an invalid on his farm near Elgin, Ill., is proclaimed by members of district special board No. 3 to be a genuine patriot. Four of his sons, the only ones in a family of fifteen children who are able to care for their father's farm, were drafted for the army. Traub urged them all to claim no exemption but friends requested the appeal board to allow one son to remain at home. The request was granted over the protest of the father.

It is pretty hard to assert your independence and defy the world, when you have an empty pocketbook.

A bank account is a stimulant to real manhood. It breeds self-confidence, is proof of efficiency, and an ever present resource in time of need.

It is not what a man earns a year, that gives him a surplus at the bank, it's what he saves.

We want your deposit. We can offer every accommodation consistent with safe banking methods. Let us help you save.

No business so large that the smallest detail escapes our attention, or so small that we do not appreciate.

ESTABLISHED 1869

JAPAN IS IN WAR TO WIN FLOWERS FOR THE LIVING

Head of Japanese Mission Declares Oriental Country Will Do Share and Carry Burdens.

Boston, Sept. 18.—Japan is in this war on the side of America and the allies "to win with you, to co-operate, to co-ordinate and to contribute," Viscount Ishii declared tonight at a banquet in honor of the Japanese mission, of which he is the leader.

"We do not enter into treaties to tear them up and scatter them to the winds," he continued. "Our treaties are not scraps of paper." We have tried to play our part and carry our share of the burden. We have helped to free the Pacific from the ships and influence of the nation which has thrown off its thin covering of decency and now stands revealed in all the horrid nakedness of the savage.

The enthusiasm displayed when a great crowd greeted the mission at the station on its arrival in a pouring rain from Newport, R. I., this morning reached its climax tonight as Viscount Ishii spoke of Japan's faithfulness to its treaties and to its friendships.

In both the addresses the viscount gave today, the one at the banquet in response to warm expressions of good will by Governor McCall, Mayor Curley and others, and the other at the convention to revise the State constitution, he dwelt upon ties that bind America to Japan.

Speaking at the banquet Viscount Ishii said:

"I feel now that I have traveled from your western to your eastern shores, that after all there are no points of difference between us which can not be settled as time goes by and gives opportunity for discussion between the statesmen of your country and my own. But these questions do not belong to the more vital category of the questions of the present.

"The newer link now added to the chain calls for our earnest attention. This link is of vital importance to all humanity. It is the link of comradeship in the war which will win liberty for all the world from the enemy which has crept upon us in the night and menaced civilization. I say menaced for I firmly believe that the last danger of our enslavement passed into the land of impossible things when your great country threw its weight on the scale.

"We have not been surprised at what we have seen during this month of our sojourn in America. We have realized that America has come into her own and we congratulate you on the magnificent exhibition of national

Postmaster W. G. Carpenter Commended for Good Work in Recruiting Men for the Navy.

The San Antonio Express of Thursday morning, September 13th, has the following to say, in an interview with C. O. Evans, Naval Recruiting Officer, at San Antonio:

"There is another man who has certainly done great service to the country in recruiting men for the navy, W. G. Carpenter, Postmaster at Kerrville. He has worked hard ever since this office was opened and sent us fully twenty-five men for various branches of the service. When he finds a man in the proper frame of mind he just brings him down in his car or on the train, and he has used fine judgment in selecting his candidates. If other postmasters had done as well in proportion we would have been kept busy enrolling men right along."

As is shown by the above article, Postmaster W. G. Carpenter has been very active in recruiting men for all branches of the service; and let no one for a moment think that W. G. Carpenter is a man who will seek men to enlist for service in their country's cause and then draw down himself.

The Sun has long been a member of the "Flowers for the Living Club," and here goes a bouquet for Wheeler G. Carpenter—when it comes down to brass tacks and men of his caliber are called upon, the good-natured Postmaster will be wherever his country wishes to send him.

The affable manner in which the slightest complaint is heard from patrons, and the way the ordinary thousand-and-one little worries connected with his official duties are dispensed with to the satisfaction of all has made every acquaintance of this man his friend.

Mr. Carpenter is indeed a valuable man to his country in a great crisis and is certainly entitled to charter membership in Kerrville's "Who's Who and Why Club."

union, national devotion and national greatness you are making.

"For the future I see two nations. The one out yonder under the rising sun; the other this great union under the Stars and Stripes, their flags entwined, their interests and their objects one, moving together to a sure and certain victory over all that is evil and mean or petty; out of the clouds of suspicion and doubt; out of the valley of fear into the full enjoyment of the blessings of mutual confidence, mutual respect and permanent peace."

Effective Emulsion---

Bronchial affections, chronic coughs and lung troubles quickly give way to the reconstructive powers of our

Emulsion of Cod Liver Oil With Hypophosphites

This valuable remedy is a tissue builder and blood builder which promptly causes all affected tissues to heal and become healthy. It is made from pure materials and prepared at frequent intervals. Always fresh and palatable.

Price 50c and \$1.00

The cool fall weather usually creates an extra demand for a good Emulsion. Keep our Emulsion on hand.

TELEPHONE NO. 190

PRESIDENT ISSUES A PROCLAMATION TO THE SCHOOL CHILDREN

ASKS THEM TO DO THEIR PART
BY JOINING JUNIOR BRANCH
OF RED CROSS.

Washington, D. C., Sept. 18.—President Wilson issued a proclamation tonight calling on the school children of the Nation to do their part in the war by joining the junior Red Cross to assist in the mercy work of the senior organization.

The President says the children's branch of the Red Cross will give an opportunity for relief work for the benefit of both the community and country; will teach how to save in order that suffering children elsewhere may have the chance to live, and will make possible the "best work in the great cause of freedom to which we have all pledged ourselves."

The proclamation follows:

"To the school children of the United States:

"A proclamation:

"The President of the United States is also president of the American Red Cross. It is from these offices joined in one that I write you a word of greeting at this time when so many of you are beginning the school year.

"The American Red Cross has just prepared a junior membership with school activities in which every pupil in the United States can find a chance to serve our country. The school is the natural center of your life. Through it you can best work in the great cause of freedom to which we have all pledged ourselves.

"Our Junior Red Cross will bring to you opportunities of service to your community and to other communities all over the world and guide your service with high and religious ideals. It will teach you how to save in order that suffering children elsewhere may have the chance to live. It will teach you how to prepare some of the supplies which wounded soldiers and homeless families lack. It will send to you through the Red Cross bulletins, the thrilling stories of relief and rescue. And best of all, more perfectly than through any of your other school lessons, you will learn by doing those kind things, under your teacher's direction, to be the future good citizens of this great country which we all love.

"And I commend to all school teachers in the country the simple plan which the American Red Cross has worked out to provide for your co-operation, knowing as I do that school children will give their best service under the direct guidance and instruction of their teachers. Is not this perhaps the chance for which you have been looking to give your time and efforts in some measure to meet our National needs?"

"WOODROW WILSON,
President."

In a letter to Dr. H. N. McCracken, president of Vassar College, in charge of the junior organization, the President has expressed his great interest in the movement, saying he thinks the children "will all look back over the work they are undertaking as a happy circumstance of their school days."

Plans are now under way in co-operation with the boards of education of various States for launching membership campaigns. Schools are to be recruited as units with membership fees of 25 cents for each pupil. The juniors will aid in the making of the simpler articles and supplies needed in the hospitals abroad.

Speeding Not Allowed.

Fredericksburg Standard: Those visiting San Antonio from this section by auto will be interested in learning that a new "speed limit" law is now in vogue on the road between Leon Springs and San Antonio, and all who have been in the habit of driving along at the usual clip of 29 or 30 miles an hour, are likely to pay a penalty for "speeding." A well known citizen of Fredericksburg got "pinched" by a motor "cop" one day last week which furnished him with the first intimation that the new law was in force, and will probably have to pay a fine for speeding. Those traveling the road will profit by taking heed of this warning.

To aid men to carry heavy burdens on their backs, an Englishman has invented pneumatic shoulder pads, the air they contain being equalized by a central reservoir.

HURRAH! RINGLING DAY ALMOST HERE

Big Circus and Great Spectacle Occupy Five Trains Framed With Wonders.

The big event for which the youngsters and grownups have been impatiently waiting is drawing near, for on Saturday, September 29, Ringling Brothers' Circus is to exhibit, afternoon and night, in San Antonio.

Expectancy never ran so high before and it is likely that this district will send a large delegation to feed the elephants. Unusual interest centers around the gigantic spectacle, "Cinderella," with which the famous showmen are this season opening their wonderful main tent program. "Cinderella" is probably the best loved of all fairy tales and to see it produced with more than 1,000 persons, hundreds of dancing girls and glorious pageants, indeed gives promise of making "childhood's golden dreams come true." In the same great tent, will come the marvelous circus numbers in which 400 men and women performers, scores of trained animals and a galaxy of special features are introduced. The majority of the acts are entirely new to America, the Ringling Bros. having secured the pick of all European performers who have been obliged to seek engagements in this country. The all-new street parade will take place show day morning.

Had Narrow Escape.

Comfort News: Sunday afternoon, at about 5 o'clock while Alfred Flach and L. N. Moore of Comfort were going up the Center Point road in a Ford car they had a narrow escape from being run down by the A. &

A. P. train at the first crossing above Comfort.

Mr. Moore was driving the car, and was going at a reasonable rate of speed as he approached the crossing. Neither Mr. Flach nor Mr. Moore heard the approaching train, and both are of the opinion that the engineer neglected to sound the whistle for this crossing, the upper side of which is concealed by trees, affording little view of the track until one is very close to it.

Mr. Moore says that the train loomed up suddenly when the Ford was but a few feet from the track, and as he realized that he could not then cross ahead of the train or get the car within the short space at his disposal, he turned sharply to the right and threw the car into the ditch beside the track. This maneuver saved them, and did not do a great deal of damage to the car.

Great Faith in Chamberlain's Colic and Diarrhoea Remedy.

"Chamberlain's Colic and Diarrhoea Remedy was used by my father about a year ago when he had diarrhoea. It relieved him immediately and by taking three doses he was absolutely cured. He has great faith in this remedy," writes Mrs. W. H. Williams, Stanley, N. Y.

Coal Production Decreases.

Washington, D. C., Sept. 18.—Report to the Geological Survey on production of bituminous coal shows a decrease during August at the rate of more than three million tons a month and indicates that a shortage of coal this winter, feared by many Government officials, may be a reality unless production shows a decided increase.

EVER SALIVATED BY CALOMEL! HORRIBLE!

Calomel is Quicksilver and Acts Like Dynamite on Your Liver.

Calomel loses you a day. You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take, and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

In the last twenty years the freight traffic through the Suez Canal has more than trebled, while the number of passengers has increased only about 85 per cent.

CLIP THIS AND PIN ON WIFE'S DRESSER

Cincinnati Man Tells How to Shrive Up Corns or Calluses So They Lift Off With Fingers.

Ouch! ? ? ? This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called Freezone when applied to a tender, aching corn or hardened callus stops soreness at once, and soon the corn or callus dries up and lifts right off without pain.

He says Freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of Freezone will cost very little at any drug store, but will positively remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have Freezone tell him to order a small bottle for you.

A machine has been invented to test the effectiveness of sand and emery paper.

Burned but a few years ago as useless rubbish, there is a wide demand for the waste from Spain's cork factories.

++++++

Application blanks for membership in the Red Cross may be obtained from Mrs. Geo. Morris, chairman of the Membership Committee, at the St. Charles Hotel. Do your "bit" by joining the Local Auxiliary.

Approximately \$12,000,000 for war relief work in Europe will have been expended by the American Red Cross in the first six months since the United States has been at war with Germany, according to a report addressed to "The American People" by Henry P. Davidson, chairman of the Red Cross War Council, in which full details are given of the activities of the organization in various nations abroad, chief of which is France. More than \$10,000,000 of this sum, appropriated up to and including August 31st by the War Council since its appointment May 10th last is for use in France. Other countries to receive relief are Russia, Roumania, Italy, Serbia, England and Armenia. The grand total amounting to \$12,339,681, the greater part of which will be used by November 1st, although some of the appropriations cover a year. Most of the persons in charge of the Red Cross work in France are giving their time and paying their own expenses. A special fund of \$100,000 has been privately contributed to meet the expenses of members of the commission in France unable to pay their own way.

The War Council has sent to Europe five separate commissions each composed of representative Americans skilled in business administration, in medical and surgical work and in other lines of Red Cross efforts. The work covers a wide scope of relief from the establishing and maintaining of hospitals for soldiers in the American army in France to civilian aid, including the care and education of destitute French children and the rehabilitation of the devastated areas in France and Belgium. Relief and preventative means against tuberculosis, which has greatly increased since the war, also will be supplied. A plan has been devised also to extend aid to soldiers and civilians held as prisoners by the enemy. These are only a few of the many avenues through which Red Cross relief will flow to countless thousands of war victims.

The Red Cross in France has assumed the management of the War Relief Clearing House. It has taken over, under control of the United States Army, the administration of the American hospital ambulance at Neuilly. It has assumed financial responsibility for Dr. J. A. Blake's American Hospital in Paris. It has allied with itself the work of the American surgical dressing committee which distributed in France, in July, 782,949 dressings among 435 hospitals.

The effort has been in accordance with the expressed views of the President of the United States and of the civic and military authorities of France and America. The first and supreme object of the task is to care for our own army and navy. Toward this end the Red Cross is establishing field canteens which it will provide for every corps of the French army as well as for the American Army. There are now large reception camps near the coast where United States soldiers are received. Along the route of the firing line the Red Cross has established infirmaries and rest stations. At railway stations canteens are being established, where our soldiers may find rest and refreshment. Baths, food, games and other comforts will be available. When American troops start for France the men are given comfort kits. Christmas parcels will be sent over later.

Various appropriations have been made to worthy causes, such as \$1,000,000 for the relief of sick and wounded French soldiers and their families; \$100,000 for medical research work in France; \$500,000 for supply warehouses; \$1,500,000 to buy foodstuffs to be sent to France, and \$1,000,000 for the hospital supply service.

The transportation problem with which the Red Cross has had to cope in moving supplies overseas has been most difficult, but through official French, British and Italian co-operation with the United States Shipping Board and leading steamship and railroad companies, vast quantities of supplies are now shipped almost daily.

For the Blue-Jackets

Bevo

A BEVERAGE

Our boys in the Navy enjoy their Bevo. The Navy Department has put its official seal of endorsement on this triumph in soft drinks, by allowing it to be sold and served on all naval vessels.

Ashore or afloat, you will find in Bevo a palate-pleasing, refreshing and nutritious beverage.

Just the thing to take along for sail or cruise—auto trip or camp and for the ice-box at home.

Bevo—the all-year-round soft drink

Bevo is sold in bottles only and is bottled exclusively by ANHEUSER-BUSCH—ST. LOUIS
COLLINS CO.

KERRVILLE, TEXAS 14L

A FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Headache, Malaria, Chills, Etc.

Ringgold, Ga.—Mrs. Chas. Gaston, of this place, writes: "I am a user of Theodor's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Theodor's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit. If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result. Theodor's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Theodor's the original and genuine. E 79

Church worked at the Red Cross hall on Saturday afternoon. Six hospital garments were completed. Mrs. Jack Moore is the efficient leader of this circle of workers.

European factories make each week about 16,000,000 pounds of artificial butter with coconut oil as a base

Concrete floors can be made almost noiseless by covering them with heavy tar paper, attached by cement.

SUBSCRIPTION \$1.50 PER YEAR

Advertising rates and circulation made known on application.

Subscribers will confer a favor on the management by notifying the office promptly when they fail to receive the paper, or when change of address occurs.

The above cut shows the trade territory in Texas that is covered by the publications of The Terrell Publishing Company. The six papers owned by the company each cover well the trade territory from the town in which each is published.

France is fighting, England biting, Italy shoots her gun; Japan is flying, Turkey dying—Russia's on the run!

Unless the people rule no one gets a square deal.

A man can get as drunk on prejudice as he can on whiskey.

When the other fellow has something that suits him, and doesn't hurt you, let him keep it.

Common sense never yet made a mountain out of a mole hill; prejudice never yet failed to do so.

Williamson County stayed wet by the skin of her teeth, and everybody knows there is very little skin on a tooth.

It is as risky these days to deal with a second-hand automobile merchant as it used to be to deal with a horse trader.

A public investigation would be much more interesting if not so long drawn out that the peoples' patience is exhausted waiting for the end.

The Beeville Picayune is bowed down with shame because Beeville has no good hotel. There are other towns in the same fix, Brother Atkins; lord, yes, others!

No, son; you're right. All the righteousness in the world is not bound up in one man; nor all the unrighteousness either. You and I possess some of both.

Government, after all, may be classed as a necessary evil. If all men were true christians, government would be an unknown quantity. As it is, the righteous suffer for the sake of the unrighteous.

We've never seen the human being yet that we'd take the responsibility of pinning a pair of angel wings on; but the Lord has a big stock of wings on hand and will in time find enough souls to wear them all.

Don't judge a man's social or financial status by the automobile he rides in. Many millionaires ride in Fords while dead beats prefer the handsomest thing on wheels they can drive. Tramps prefer box cars.

As cotton gets out of the field into the hands of the farmers it goes down; as it gets out of the hands of farmers into those of speculators it goes up. But a few weeks ago cotton was worth twenty-six cents; now it is down to twenty. Merp!—Don't be in a rush to sell, if you can help it.

We read that Connecticut recently repealed her old blue laws and for the first time in three hundred years milkmen, druggists, ice cream dealers and similar establishments did a flourishing business on Sunday. As parliamentary New England takes off the lid Texas puts it on. Maybe after three

hundred years the pendulum will swing back, but we hate to have to wait such a helluvertime to see it swing.

If the enforcement of a law hurts an honest man and helps a criminal it is a bad law and should be repealed; if the enforcement of a law hurts a criminal and helps an honest man it is a good law and should be enforced. The people are capable judges of whether a law is good or bad in its effects.

A Texas county recently went dry by one vote. Where public sentiment is so equally divided the peace officers will be kept busy holding down bootleggers. Law-abiding anti-alcoholists should make it their duty to assist the officers in enforcing the law. Enforce the law as written, is our motto.

This is not from the Hogwallow News; it is from the Alford News: "Johnnie Smith presented the News with another fine melon Monday and it certainly was a good treat." If Johnnie Smith, or Fencerial Smith, or any other blame Smith, would present this office with a fine melon we will give him more than a four-line card of thanks.

In spite of drouth and hard times, Tom Green County has voted road bonds to the amount of three hundred and fifty thousand dollars. The drouth stricken farmers and other citizens of that county will be employed to build the roads. Thus will the great bulk of the money be kept at home. More prosperous counties should be ashamed not to follow Tom Green's example.

"The men whut'll argy a half hour that hit ain't no use ter try ter do ther right thing 'ain't never done ther right thing an' 're ain'tergoin' ter try ter, nuther," observed Fencerial Smith, as he saw Sickleblade Williams buy a new plow with money he owed for the one he already had, giving as an excuse that he "needed a nuther plow wuss than 'tother feller needed ther money."

Those tender hearted people who howl about the slaughter of the innocents every time the game season opens are the ones who never hunt. Recently a friend of ours, who boards, started out in the morning with his gun to shoot doves. An old lady boarder severely remonstrated. Our friend returned in the evening with his fifteen birds and had them for supper. The old lady ate four.

On the 7th instant we said: "Harris County went wet. Nobody expected anything else. It is different in Dallas, Tarrant and McLennan; no one knows what to expect, and we are no prophet." On the 10th Dallas went dry. We look upon the result in Dallas as the greatest victory yet won on Texas soil by the pros. An election follows in Fort Worth soon. Still we are no prophet, but we will hazard the prediction that if Fort Worth goes wet the anti will be more surprised than the pros. McLennan might then prepare for a fight to a finish, and in sixty days Harris may have to fight her recent battle over again. That's the situation as it appears to us.

THE CONSCRIPT ARMY.

We belong to the conscript army and we don't give a rip. To fight for Uncle Sammy and we're going to do our bit; We'll pack an argy "thirty" and eat that hardtack, too, And fight for dear old Texas and the Red, White and Blue.

We'll have to cross the ocean, And dodge the submarines; But we'll fight those doggone Dutch men.

If they feed us pork and beans, Of course, we may stop a bullet. But that's all in the game, For we are fighting soldiers.

Though conscripts are our name, Yes, they call us conscripts and we place it 'neath our belt; But all we ask of Wilson is to give us Roosevelt.

Give us dear old Teddy, the man that's got a nam, Fighting in the Philippines and in Africa won fame; We'll follow him to France and those Germans they will plead.

When they see us conscripts coming with Teddy in the lead, —STAR E. BRYDEN, Bluff, Tex.

(Editor's Note.—Although that portion of the above article regarding the notorious Colonel Oyster Bay is not in accord with the views of this paper, we publish the verses in appreciation of the patriotism of thousands of young men who now belong and will later be drafted into our National Army.)

Only \$3.00 a Month for this Commercial Course. Regular Tuition for the Twelve Grades is \$1.00 a Month. Free to the Poor.

AS OTHERS SEE IT.

Connecticut recently repealed her old "blue laws" and for the first time in 300 years milkmen, druggists, ice cream stores and similar mercantile establishments did a flourishing business on Sunday.—EX.

We must have good roads, no matter how long it takes to get them, we must have good roads. Soon we will be out of the world unless we have good roads.—Henrietta Independent.

Governor Hobby is being urged to submit to the Legislature the question of repealing the laws enacted at the regular session establishing a number of new normal schools and junior agricultural colleges. The Governor has also been urged by a few to submit the question of repealing the law appropriating two million dollars for the support of rural schools. The new schools mentioned are not needed at this time and it would be a great relief to the tax-payers to repeal the laws providing for them. But, in our humble opinion, it would be a serious mistake to repeal the law making liberal appropriations for rural schools. Most of the rural schools are not what they should be, on account of lack of funds. The great majority of the boys and girls of the State receive all the training they get in the rural schools and surely the State cannot afford to make a backward step in the long-needed work of providing better support for the country schools.—Honey Grove Signal.

ADVISORY.

State Press, in Galveston News: Having just returned from a tour to Colorado, in an automobile with his wife, a pleasure trip, an Oklahoma customer wishes to be told the difference, if any, between a road sign which orders drivers to slow up and a sign which orders them to slow down. On his recent travels, declares the worried one, he saw many signs of both kinds, and he and his companion were very much afraid of being arrested by a constable for not slowing up. Probably Mr. Oklahoma was much perturbed by the advice, admonitions, suggestions and corrections of Mrs. Oklahoma. If there is one thing a woman is surer of than that she knows how to drive a car better than her husband does, in emergencies, it is that the partner man cheats when he measures out the gasoline. And when Mr. Oklahoma would slow up, probably she would tell him to slow down, just as when he slowed down she would tell him to slow up. There is a great deal of difference in slowing up and slowing down. In fact the two operations are direct opposites, for one slows up

when he is going thither and slows down when he is coming hither. The difference between hither and thither is immeasurable, but the two words sound alike and this fact is confusing to women. The best rule is, when driving with your wife, to keep your eye on the road and let her rave.

Portugal has the world's greatest deposit of wolframite, the mineral from which tungsten is obtained, that now is being exploited.

Platinum deposits recently discovered in Spain are believed to be greater and richer than those of the Ural Mountains, which furnish the greater part of the world's supply.

Corn Meal Cheapest Food.

The United States Food Administration authorizes the following: Corn meal, even at the present unprecedented high prices, according to a comparison of nutritive food values prepared by the Food Administration, continues the cheapest food found in a survey of fifty staples.

There is twice as much nutritive value in a dollar's worth of corn meal, even at the prevailing high prices, as in a dollar's worth of wheat bread. The actual figures show that 27.4 cents worth of corn meal now equals one dollar's worth of wheat bread in actual nutritive value. There are four bushels of corn raised

in this country to every bushel of wheat, and corn meal is as good food for man as is wheat. It costs less, and is the richest crop in our country.

For Sale. For sale on the Chas. Schreine Live Oak Ranch, about 50 rams, 3 and 4 years old, one-third Delaine, two-thirds Ramboulet. These Rams are very large, very few wrinkles and in fine shape. Robert Real, Mountain Home, Texas. 35-17

WHAT CATARRH IS

It has been said that every third person has catarrh in some form. Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-fool in Scott's Emulsion which is a medicinal food and a building-tissue, free from alcohol or any harmful drugs. Try it. Scott & Bowne, Inc., New York, N. Y.

THE PEN IS MIGHTIER

Reputation

When you buy an automobile what do you really buy? Do you only buy the material and labor? Or do you buy what a car stands for in reputation, in achievement, in excellence of rank? When you buy a car, you believe what the maker says of it. You buy material and labor PLUS reputation. Reputation in motor car building is most important. Without reputation, your metal, rubber and wood would be merely a highly polished mechanical assembly. With it, you are certain of satisfaction, pleasure, health and efficient travel. Chevrolet reputation is founded on complete satisfaction. We could not have grown without it.

FREE SCHOLARSHIP IN THE SCHOOL OF YOUR CHOICE

The Tyler Commercial College of Tyler, Texas, is positively the only business college in the State which teaches a thorough course of practical, modern bookkeeping and business training. Other schools teach theoretical bookkeeping; some of them call it actual business, but it is not. The commercial room of the Tyler Commercial College is a community of business houses of various kinds, Banks, Wholesale, Commission, Real Estate, Retail, Insurance, etc. Each student is engaged in real, active business, learning to do by doing. Every entry made by the student during his entire course is originated by an actual sale or purchase; it may be grain, it may be groceries, dry goods, real estate or stock in a corporation, but the transaction is really performed and every paper required in the transaction, whether check, note, draft, receipt, mortgage, deed or what not, is filled out by the student. Partnership contracts are drawn up and agreed upon between the parties forming the company. Articles of incorporation are drawn up. Through these practical methods the student learns business as well as bookkeeping; they learn how to meet one another face to face and transact business in a business way, instead of copying theoretical transactions from a text book as is done in every other commercial school in the State. It takes more teaching force and better teachers to teach our systems and they must be well informed on business customs. When a student learns to do a thing by actually doing it, he learns it thoroughly, and with our practical, face to face business methods we are able to give the student a thorough course of both bookkeeping and business training in less time than he could possibly get the theory, or so-called "practical" bookkeeping alone in other schools.

We will give a free scholarship in the school of your choice to anyone finding another school teaching both bookkeeping and business through practical business transaction as we do. Similar practical methods are used in teaching Shorthand; Cotton Clipping, Telegraphy and Business Administration and Finance. We believe in teaching in the school room that which you must do when going into the business world, and it is this policy that has made the Tyler Commercial College of Tyler, Texas, the largest school of the kind in America. Write for large free catalogue explaining our original methods of teaching and securing positions. There is a reason for our school drawing patronage from thirty-nine different States and seven foreign countries. Investigate it, the best is none too good for you, for you must use this education for life and its quality measure your success.

PEOPLE SPEAK WELL OF CHAMBERLAIN'S TABLETS

"I have been selling Chamberlain's Tablets for about two years and heard such good reports from my customers that I concluded to give them a trial myself, and can say that I do not believe there is another preparation of the kind equal to them," writes G. A. McBride, Headford, Ont. If you are troubled with indigestion or constipation give them a trial. They will do you good.

Selling Out

Thoroughbred White Leghorns. Any or all of grown birds at 75 cents; spring chickens at 50 cents. Also incubators and hovers. Ride out to the Masterson Ranch at head of Kelley Creek and pick what you want.

INSTANT ACTION SURPRISES MANY HERE

This grocer's story surprises local people: "I had bad stomach trouble. All food seemed to sour and form gas. Was always constipated. Nothing helped until I tried buckthorn bark, glycerine, etc., as mixed in Adler-ika. ONE SPOONFUL astonished me with its INSTANT action." Because Adler-ika flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold. Kerrville Drug Company.

CATHOLIC CHURCH NOTES BY FATHER KEMPER

The new faculties of Notre Dame Institute and Our Lady of Guadalupe are very well pleased with the opening of their respective schools. At the former place the enrollment has already reached eighty-five pupils and about ten more places are reserved for students who will enter this month. This number does not include the many private scholars for music and special studies. Nor does it take into account the flourishing Commercial Course which is conducted after school hours from 4:20 to 5:20 p. m., in order to convenience the ladies and gentlemen who are busily engaged during most of the day. Newcomers for Shorthand and Typewriting are entering daily, and a particular invitation is extended to all girls that have completed their tenth grade and wish to prepare themselves for a lucrative position in the business world where so many vacancies have been made by our soldier boys. It is indeed a patriotic contribution to help out our country by filling those places with properly trained substitutes. The rates for the stenography course are only three dollars a month, and with book-keeping the complete commercial education is only five dollars. This means a saving of at least three hundred dollars for those who otherwise have to pursue such studies elsewhere. Kerrville citizens appreciate this splendid opportunity, judging from the fact that over twenty people, including married women, have expressed their eagerness to take up this study.

Last Sunday many of the Notre Dame students motored to Boerne to visit former instructors who are now stationed at the Holy Angels Academy.

Mrs. King of Floresville moved to Kerrville with all her children in order to let them enjoy the advantages of Notre Dame Institute. Heretofore she sent only her son, Joseph, who resided with Mr. Stehling and boarded at the convent.

Arthur Lott paid his old Kerrville parish a pleasant visit on Friday. He brought along his wife and three sons. It delighted him to observe the rapid progress and civic improvements made by the Catholic congregation. Arthur is a brother-in-law of Mr. Stephens, the care-taker of St. Mary's Park.

Mrs. Henry Wieting of the Harper parish was a guest of Miss Angeline Kemper last Friday on her return from the Teachers' Institute in San Antonio.

RANCH FOR SALE

18,000-acre ranch, about 8 miles southwest of Rocksprings. Well improved, and well covered with grass. Can be divided into three ranches. Easy terms. For further information address J. D. PEPPER, Rocksprings, Texas. 39-1f

HAS A HIGH OPINION OF CHAMBERLAIN'S TABLETS

"I have a high opinion of Chamberlain's Tablets for biliousness and as a laxative," writes Mrs. C. A. Barnes, Charleston, Ill. "I have never found anything so mild and pleasant to use. My brother has also used these tablets with satisfactory results."

For Sale.

I have for sale on the Chas. Schreiner Live Oak Ranch, about 265 head of pure bred Angora Bucks; think as good as you will find, and will sell same very reasonable on account of the drought. Robert Real, Mountain Home, Texas.

A WILLING WITNESS

Is This Kerrville Resident.

What stronger proof of the merit of Doan's Kidney Pills can Sun readers demand than the statement of a well-known local resident? The evidence that follows should convince the most skeptical doubter.

Richard Riggs, Main and Washington Sts., Kerrville, says: "I suffered at times from weak kidneys. My back would ache for days and was more or less sore all the time. I was also subject to dull headaches which affected my sight. I used Doan's Kidney Pills and they did me good. When I feel any of these symptoms coming on now, I take Doan's and they soon cure me of the attack. I have frequently spoken to others about Doan's Kidney Pills and I never fail to recommend them." 60c. at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

LEMON JUICE IS FRECKLE REMOVER

Girls! Make This Cheap Beauty Lotion to Clear and Whiten Your Skin.

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier; at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

As An Aid.

SOCIETY

Miss Katherine King, Editor

No more quiet, no more fun. Away with social affairs till the Thanksgiving holidays. For Tivy High School, last Monday morning gathered into its awful and relentless clutches nearly all the young people of Kerrville. So, since the "Misses" and "Messrs." who have been being society to a finish this past summer have turned book worms, not from choice but necessity, why don't expect much in the way of social news. Therefore, with the hope of better things in the future, we humbly submit the following:

Last Thursday—You needn't go any farther for Thursday means the Justameres, of course. Well, any way, they met as usual from 6:00 to 8:30 p. m., dancing being the program for the evening. To show its appreciation for the faithful way they have helped with the music for the past Red Cross dances, the club invited Misses Maybelle Roberts and Marguerite Henke as the honor guests. After dancing steadily for an hour and a half, those present adjourned to the Schreiner residence and there the most delightful ice cream and cake was served. So after dancing again till time for departure, the club felt that yet another time it had lived up to its motto: "Eat, Dance and Be Merry." The visitors included Misses Marguerite Henke and Maybelle Roberts, the honorees; Beatrice Stribling, and Winnifred Swearingen; Messrs. Clarence Mosel and Willie Dietert.

The last Red Cross dance of vacation was held at Fawcett's Hall last Friday night and quite a fair crowd assembled, considering how scarce young men are these days. Indeed I do not know what would have happened if a carload of Fredericksburg boys had not come over and so saved the dance from being almost a hen party. Special thanks are due Mr. Will Garrett for his efficient services as doorkeeper and also to the Royal Orchestra for the delightful music furnished. They were kindly helped on this occasion by Mr. Martiling, a flutist of rare ability, and Miss Kathleen Molesworth, an accomplished pianist of Austin.

On September 12th, the home of Mr. and Mrs. H. C. Mills was the scene of a very pleasant affair, the occasion being Mr. Mills' 28th birthday anniversary. The arrangements came as a complete surprise to Mr. Mills, and was greatly appreciated by him inasmuch as he has reached a very prominent age and is feeling that he has no absolute guarantee of celebrating his next birthday anniversary in the same home-like manner. Those present to enjoy the occasion, besides Mr. and Mrs. Mills, were: Mr. and Mrs. Chaney of Ferrville, Mrs. Zimire and children and Mrs. Ophen of San Antonio.

Miss Winnifred Swearingen Sunday morning returned to her home in San Antonio, after a very pleasant visit of a week with her friend, Miss Mae Louise Schreiner. A wide circle of quickly-made friends deeply regret Miss Swearingen's departure and are earnestly hoping that she will return next summer.

Miss Beatrice Stribling, well known to members of Kerrville's social set and especially to the members of the Justamere Club, returned Monday to her home in San Antonio, having spent the past two weeks at the St. Charles Hotel in company with her parents.

Misses Hilda and Kathleen Molesworth, the charming and talented grand-daughters of Mrs. Richard Galbraith, returned Saturday to their home in Austin after spending the past two weeks with their grandmother.

To the Editor: On Friday afternoon, September 14, Elsa Beatrice Henke, the charming little daughter of Mr. and Mrs. August Henke, most delightfully entertained her little friends with a party in honor of her sixth birthday. The little guests arrived at 4:30 and showered Elsa B. with many pretty gifts. Outdoor games were played and pictures were taken. Later in the afternoon the little guests formed in line and marched into the dining room, an enchanting bower in pink and white, where delicious refreshments of ice cream, cake and cookies were served. The table was beautifully decorated in birthday fashion, and most effectively carried out in detail the pink and white color scheme of the room. A

Experience the Best Teacher.

It is generally admitted that experience is the best teacher, but should we not make use of the experience of others, as well as our own? The experience of a thousand persons is more to be depended upon than that of one individual. Many thousands of persons have used Chamberlain's Cough Remedy for coughs and colds with best results, which shows it to be a thoroughly reliable preparation for these diseases. Try it. It is prompt and effective and pleasant to take.

He Won.

While driving to the city one morning a short time ago Cy Petlow met a neighboring farmer, and they paused to talk over their crops, each striving with patriotic fervor to outdo the other. Presently their conversation turned into another channel, whereupon Cy asked:

"Are you in the market for a good horse, Eb?"

"You know me, Cy. Always ready to do better."

"Well, here's the critter. She's round and gentle; any woman can drive her. She's yours at rock-bottom price."

Eb gathered up his lines preparatory to starting, at the same time replying:

"Well, Cy, I'd buy her this mornin', but I hate to bust a dollar.—Harper."

Not Gonna Do Anything.

Lucinda was testing the devotion of Erastus. "S'pose it is night and we are in a deep, black woods. There comes a bo'er-constricter a-wriggling through the grass; an' a wildcat as bouncin' through the bushes; an' a lion roarin' and making for us a mile a minute! What are we gonna do?"

"There ain't gonna be no, we."—Christian Register.

MR. Auto Owner

Let Us Help You to Keep Your Up Keep Down

When you buy a cheap tire you don't expect much, and you often get less, don't you? You can't wish quality into a tire if it isn't there to start with.

Then the troubles commence—blowouts and what-not—out on the road, miles from help, and you fret and fuss and wish you had a real tire.

Our tire service is worth knowing about. We don't sell off-brands in tires, patches or anything—we do sell good tires in several grades—Diamonds, lowest standard list, guaranteed 3,500 miles, and Portage Tires, medium priced, guaranteed 5,000 miles.

But, we don't stop with selling you the tire. That's where our service commences—we show you how to get more than the guaranteed mileage—we care for your tires as a doctor does his patient—we're tire specialists.

We can positively reduce the cost of gasoline by putting a Wilmo Manifold in your car. Call and let us tell you all about it. It will not cost you anything to try it.

CATTLE AND SHEEP RANCHES IN NEW MEXICO

New Mexico, the ideal range country for cattle or sheep, now offers to stockgrowers the final opportunity to buy desirable grazing lands at reasonable prices. I offer exceptionally good grazing propositions in New Mexico at attractive prices to stockmen who are ready to do business now. These properties come in deeded land, leased land, open range and in combinations; stocked or clear. They are well located and possess all the essentials of first-class stock ranches. They are both large and small and include a few very large properties.

The Reason.

Senator Simmons was discussing the proposed war tax on automobile owners.

"Making war taxes," he said, "isn't pleasant work. It puts one in the position of the factious minister."

"A factious minister at Ocean Grove took a little girl on his knee and said:

"I don't love you, Nellie."

"All the ladies on the breeze-swept veranda laughed, but little Nellie frowned and said:

"You've got to love me. You've got to."

"Got to? How so?" laughed the divine.

"Because," said Nellie stoutly, "you've got to love them that hate you—and I hate you, goodness know!"—

At Residence. Phone 211.

LIBERTY BONDS WILL

BE DELIVERED SOON

Washington, D. C., Sept. 18.—Delivery of Liberty Bonds to subscribers, Secretary McAdoo announced tonight, will begin on September 26. The twelve Federal Reserve Banks will distribute the issue. Considering the probable retention by many subscribers of interim certificates already issued, officials estimate that the work of distribution will require several weeks.

The huge issue is larger in the number of bonds required than first reports, based on more than 4,000,000 individual subscriptions, indicated. The number of coupon bonds, Secretary McAdoo announced tonight, is estimated by Federal Reserve Banks in excess of 8,700,000 pieces of which more than 7,000,000 are of the \$50 and \$100 denominations.

In announcing the date for the commencement of deliveries, Secretary McAdoo repeated his suggestion that holders of interim certificates would find it to their advantage in many instances to hold the certificates instead of exchanging them for bonds, until Congress disposes of the bill authorizing 4 per cent interest rate on the next offering.

"BAT GUANO."

In the market for 1,500 tons extra good bat guano in the next sixty days. Write me care the Bender Hotel, Laredo, Texas. A. H. FLOYD. 39-6t

Special Days at State Fair.

Dallas, Tex., Sept. 20.—Arrangements for the following special days have been made for the State Fair of Texas, October 13-28:

Saturday, October 13—Opening Day; Children's Day; Trinity University Day; Baylor College Day.

Sunday, October 14—Labor Day.

Monday, October 15—Press Day; Safety-First Day; Texas State Council of Defense Day.

Tuesday, October 16—Dallas Day; Automobile Races; Confederate Veterans' Day.

Wednesday, October 17—Orphans' Day (Orphans of all State and private institutions will be guests of the Fair).

Friday, October 19—Mothers Congress Day; Kid Key College Day.

Saturday, October 20—Traveling Men's Day; College of Industrial Arts Day; Mary Sharp College Club Day; Boys' Corn Club Day; Mickwitz Students' Day.

Monday, October 22—Buy-It-Made-in-Texas Day; G. A. R. and Woman's Relief Corps Day.

Tuesday, October 23—Fine Arts Day.

Thursday, October 25—Terrell Day.

Saturday, October 27—Knights of Khorassan Day; Girls' Clubs Day.

Sunday, October 28—Closing Day.

Requests have been made for a number of other special days, which will be arranged by Secretary W. H. Stratton in the near future. Before the opening of the Fair on October 13 it is probable that each day of the entire sixteen will be set aside for observance by some special organization or institution.

Typographical Errors.

The compositor is one of the most useful as well as one of the most exact of men, but he occasionally makes a mistake. The great preacher, Dr. Jowett, who is coming back to England to take the pastorate of Westminster Chapel, was the victim on one occasion, says London Tit-Bits.

He was to speak at a mission in Birmingham and handbills were issued to advertise the event. This was the last line on the bill: "Dr. Jowett and other friends will address the meeting."

Recently a local paper, in a laudatory notice of a V. C., who had been born in the town, referred to the hero, although he was well under thirty, as "the battle-scarred veteran." The brave fellow only laughed, for he had formerly been in the printing business himself.

At the last coronation a north country paper, referring to the crowning of the queen, said that four knights of the garter stood behind her "holding a dishcloth over her head." A rich cloth was what the reporter had written.

Perhaps the cruelist misprint ever permitted stated that some one in a public meeting rose to "propose the death of the chairman." This was bad enough, but was made worse by the following words: "Loud cheers"

A reporter who had set out to write a report of the visit of the bishop wrote, "When the learned prelate arrived the town was on fete," but the report read that the town was "in fits."

THE OLD SENTINEL

When the camps of commercial industry were first pitched in Southwest Texas, almost half a century ago, this house was one of the first in this part of Texas and is, in fact, the pioneer store of Kerr County.

Time has brought its changes in many things, but while this business has grown, and has prospered, the policy of the "House of Quality" has ever been the same.

Old faces have disappeared from behind its counters and in its offices, but new ones took their places and the business went on undisturbed. Old customers have passed away, and new ones, including their children and their grandchildren, have taken their places, but the policy of the house is the same today as it was when conducted in a little building of cedar palisados.

We appreciate the steadfast confidence the people have had in us, and have earnestly striven to merit that confidence. That we have succeeded in a large measure is evidenced by the great growth of the business.

We offer you the same service, the same quality, the courteous treatment today, and the same full value for your money that has marked the course of the business from its founding. You are always welcome at the store of

THE CHARLES SCHREINER COMPANY

"The House of Quality"

ANNOUNCEMENT

I wish to announce to my friends and the general public that I have opened up a new Grocery business and am located in the New Schreiner Block on Water Street.

I earnestly solicit a share of your patronage, assuring you that we will be able at all times to serve you with a first-class line of fresh groceries and vegetables. I will also retail all kinds of feed stuff.

If you want fresh groceries delivered promptly, ring Phone 289 and you will be satisfactorily served at once. We only ask for a trial, and guarantee satisfaction.

A. SCOBLE
Telephone 289
