Warranty Deed:
T. J. Jackson and wife to C. H. James \$1500 SW 1/4 NE 1/4 7-12-25. James B. Daughery, a single man to W. A. McCloud and wife \$600.00 Lot 4 Tucker's Addition to Roswell.

CLEAN UP, PAINT UP

(As sung at the Woman's Club)
There's a certain club in town That is bound to wind around By the war its going to wage upon the dirt. We will help along the work And our duty we'll not shirk And the whole town with one problem we will skirt.

Now this thot is filled with such renown We'll begin to wage a war upon the fly So we'll help along the work And our duty will not shirk, We can do what we set out to, if we try.

All our windows we will screen And our yards we'll keep so clean We will pull the weeds and burn up all the mess And as thru our town you ride You will point to it with pride And you'll have to own, there are no flies on us.

Screen! Paint! Clean! And make it classy. Don your overalls with us With a can of paint and brush, We will do it with a rush And we'll make our neighborhood cleanest with no fuss.

NEW MEXICO CENTRAL ABANDONMENT CASE

SANTA FE.—If the Santa Fe and the New Mexico Central railroads win their fight for abandonment of the Santa Fe-Kennedy and the Willard-Torrance sections of the Central before the interstate commerce commission they still will have to obtain permission from the state corporation commission, commissioner Hugh H. Williams said recently. He will sit with three interstate commerce commissioners in Washington, April 28, to hear the arguments of the railroads on the proposed abandonment.

BEN BERNIE

What you find you have nobody to miss you, — Nobody to kiss you, — Then what'll you do?

Ben Bernie in Demand Twenty-Four Hours Each Day

With a wave of his baton, Ben Bernie, musical director at the Hotel Roosevelt, dismissed a concert a few days ago of \$1,500 a week for a fifteen-minute daily performance at a local theatre. Bernie, "Master of Ceremonies," so popular as a personality conductor that his time is bid for continuously by the smartest clubs and night clubs of the city. It is not so long ago that Bernie to leave college to help support his family. Starting out with a violin, he has since become a spectacular success artistically and financially, and has a devoted public. At the Hotel Roosevelt, one sees passively devoted New Yorkers who will go nowhere else for their jazz music and transient guests who make sure Bernie is conducted before they talk business with a room clerk.

DO YOU EVER STOP TO THINK?

By E. R. Waite

Edward Elliott, vice president of Security Trust & Savings Bank in Los Angeles, is an authority on advertising. This institution has 54 branches in southern California, is 39 years old and has received more than a quarter billion dollars. I interviewed Mr. Elliott as to what newspaper advertising has done for this great institution. Mr. Elliott says: "Five years ago we made a high analysis of our advertising and found that we were spending a great deal of money on 'good will' and 'competitive' advertising, special editions, programs, etc. Some of it was waste and a small fraction of it was not a little of it 'hold-overs.' The bank apparently was not advertising with representatives of three of the other banks in the city revealed a similar comparison with them and a desire to change the situation. Accordingly, we invited a representative from every bank in the city to a meeting to discuss the situation. Out of that meeting has grown the custom for the managers of the banks to meet at our store. We have a department of advertising of Buckeye incubator. At first there was a meeting of it that weekly meetings were held, but as word got out that the banks were 'out of advertising,' solicitors from the banks. This saving of time for the banks and eventually a few weeks was enough to get the business. The department has been almost complete of all advertising not merit with a consequent thousands of dollars to newspapers and established publications are fully recognized without doubt a considerable amount of the money saved from these unprofitable forms has gone into news- Security Trust & Savings

TARIFF REDUCTION CAMPAIGN ISSUE OF DEMOCRACY

(By the Republican State Central Committee)

We are told by a prominent Democrat that we have no right to assume that the Democrats will make tariff reduction their chief issue in the 1928 campaign. He readily admits that to put cattle and meats, sheep and wool on the free list would be ruinous to New Mexico.

Our reply is that no other issue, so far, has been suggested. True, there is much talk of corruption. An attempt is being made to rally around, "Turn the rascals out," as the Democratic battle-cry. But the voters of the country gave scant attention to the same cry in 1924. No party has a monopoly of honesty. Besides, the prosecution of the alleged "rascals" has been by Republicans. Instead of the government having lost money because of the Sinclair and Doheny leases, the United States has a net profit, due to Republican prosecutions and suits, of \$24,000,000. Doheny not only lost all profits from the oil taken out of the Elks Hill naval reserve oil lease, but all of the expense incurred by him in drilling and in storing naval oil in tanks for the government at Pearl Harbor near Honolulu. Sinclair lost all the money paid out by him and all the oil he produced in the Teapot Dome.

Let us not lose sight of the fact that out of it all Uncle Sam, due to Republican suits and prosecutions, has now a net profit of \$24,000,000 in the Treasury. Not so bad!

Tariff Issue in 1928.

Our assumption that the tariff will be the issue this year is based upon statements by leading Democrats who are candidates for the nomination at Houston.

Governor Smith, far in the lead as a candidate for the nomination, stands for tariff reduction, for membership of the United States in the League of Nations, and for repeal of the prohibition amendment and for modification of the Volstead Act so that enforcement will be left solely to the States. Ritchie of Maryland, stands with Smith.

Walsh of Montana, is for the retention of the prohibition amendment and for the rigid enforcement of the Volstead Act. He wants to see the United States a member of the League of Nations, and the war debts of the Allies to the United States cancelled.

Walsh deprecates the fact that we have lost the good will of foreign nations, which might have been retained had we been willing to cooperate with them through the League of Nations. But he sees the greatest cause of foreign ill will in "our insistence on the payment of the debts due from our late allies, while raising up prohibitive tariffs which make it impossible for them to pay."

Congressman Cordall Hull of Tennessee, former chairman of the Democratic National Committee and a formidable contender for the nomination at Houston, should Smith get out of the way, is for a drastic reduction in the tariff. Senator George at Georgia, who will go to the Houston Convention with considerably more delegates than the twenty-eight from Georgia, speaking at Bristol, Tennessee, not long ago, denounced the protective tariff as "the foster mother of monopolies, and an instrument of oppression of the masses."

CHINESE ELM IN WIDE FAVOR

The Chinese Elm was introduced into the United States in 1908 by the office of foreign-plant introduction of the bureau of plant industry. It is now established in a number of places in this country, particular in the southwest. This elm is very hardy and is valuable under a greater variety of climate and soil conditions than any tree yet introduced. Its resistance to drought, alkali, and extremes of temperature give it a special value in Eddy county, where shade trees are desirable. The tree is one of the first to leaf out in the spring and the last to shed in the fall. It can be grown from plants, seed, or cuttings. Under drought conditions it will grow more rapidly than the Cottonwood and under irrigation it will grow as rapidly as the Cottonwood. The mature tree will not break as badly during the windy season as the cottonwood. The Chinese Elm is sold by several nurseries in the southwest and can be secured from the experiment stations at Lubbock, Texas or Hays, Kansas at a low cost.

A sentry halted a man in general's uniform who was attempting to enter barracks and asked him for the pass word.

The general was unable to remember it, and the sentry accordingly turned him back.

Next day the soldier was warily complimented on his devotion to duty—and for some time afterwards given every dirty job in barracks.

Jerry—Do you make reductions for people in the same line of work?
Waiter—Are you a restaurant owner?
Jerry—No, a robber.

SINCLAIR FREED OF CHARGES TO DEFAUD THE GOVERNMENT

WASHINGTON.—Harry F. Sinclair was acquitted of the charge that he conspired to defraud the government in the leasing of Teapot Dome.

A jury in the District of Columbia supreme court accepted his contention that when he paid Albert B. Fall \$233,000 in Liberty bonds and \$35,000 in cash it was for a part in the ranch owned by the former secretary of the interior and was not a part of a deal through which the Wyoming naval oil reserve was turned over to him.

The jury took the case from Justice Bailey at 10:25 o'clock this morning and returned its verdict at 12:24 p. m., being out exactly one hour and 59 minutes.

Sinclair, although freed of the conspiracy charge still is faced with two contempt proceedings. One of these is for his refusal to answer questions of the Senate oil committee and he was sentenced to serve three months in jail for that. The other is for his hiring detectives to shadow the Fall-Sinclair trial jury last August. He was sentenced to six months for that. Both are pending in the circuit court of appeals.

The conspiracy charge against Fall, which was severed from that of Sinclair, is still alive but what will be done about it by the government, in view of Saturday's acquittal, is problematical.

Sinclair was placed on trial on April 9 to answer the charge which resulted in Saturday's acquittal. The verdict marked the successful culmination of his six year's fight to prove he had not acted corruptly in negotiating the lease from Fall in April 1922.

Immediately after the verdict was rendered Sinclair authorized this statement:

"I have felt since the inception of the oil cases that I would be acquitted of any charge of conspiracy to defraud the government when the evidence went before a jury."

In the court room he was surrounded by his friends who poured their congratulations upon him. Mrs. Sinclair was so deeply moved that she became hysterical.

When the jury had entered the court room and seated itself the usual routine was performed by the court before the justice addressed it.

"Gentlemen of the jury, have you reached a verdict," he asked finally.

"We have," replied the foreman.

"What is your verdict, Mr. Foreman?" asked the clerk of the court.

"Not guilty," came the reply as the court room strained forward.

"Oh, good," exclaimed Mrs. Sinclair as she began to cry.

Friends led her into the corridor and as soon as Sinclair could force his way through the crowd he walked out, put his arm around her shoulders, then slipping her arm through his, walked out of the corridor door.

Before the jury filed in the jury room Justice Bailey warned the spectators that any sort of a demonstration regardless of the verdict, would be promptly punished.

CITIZENS TRAINING CAMP

SAN ANTONIO, Tex., April 24.—Enrollment for the Citizens' Military Training Camps to be held this summer in the 8th Corps Area is progressing favorably and is considerably ahead of last year, announced Major General T. Q. Donaldson, the Corps Area Commander at Ft. Sam Houston, today.

To date the six camps are approximately 65 per cent filled, with applications coming in at the rate of about 40 per day.

Compared with the eastern section of the United States, where many camps are already full, this seems to be rather a poor showing, unless one takes into consideration the great area covered by the States of Texas, Oklahoma, Colorado, Arizona and New Mexico, which comprise the 8th Corps Area.

I am sure the young men of this section of the United States, said General Donaldson, are just as appreciative of the advantages and benefits of the month's summer training offered them at Government expense, as are their eastern brothers, and the apparent slowness in taking advantage of the Government's very generous offer is due primarily to the greater length of time it takes to communicate between the various centers of the Corps Area.

Last year, due to additional funds received late in June, continued General Donaldson, these headquarters were able to order to camp and to train some 500 more than the quota assigned by the War Department, and last minute applicants were not disappointed.

This year, the situation is different. The secretary of war has announced that no additional funds will be available, and the quota of 2700 assigned the 8th Corps Area cannot be exceeded.

This means that the young man who waits until the last minute will undoubtedly be disappointed and the only way for him to be sure of a place in camp is to submit his application at once.

Couldn't Fool Ben

"Remember that money is of a prolific, generating nature. Money can beget money, and its offspring can beget more."—Benjamin Franklin.

We agree with Ben, that it can and DOES. If you haven't realized this truth yet, then your feet are hardly on the way to financial success. The people who are our best patrons all know it. They also realize the need of dealing with a safe, conservative bank. We feel sure it will pay you to do likewise.

NATURAL GAS FOR ROSWELL CONSIDERED BY C. OF C. DIRECTORS

At a meeting of the board of directors of the Chamber of Commerce Monday afternoon, the natural gas committee of the Chamber of Commerce made a report and the following statement was ordered published by the directors. The gas committee consists of John W. Hall, C. J. Stillwell and W. C. Lawrence.

Since inquiry has been made repeatedly as to the attitude of the Roswell Chamber of Commerce toward natural gas for the city, the directors deem it advisable not only to explain that the organization has been active in this undertaking for the past year or more but to call to the attention of the people some factors which need their serious consideration. The Chamber of Commerce realizes that natural gas in sufficient quantities at a price to the consumer that would be attractive could be a tremendous asset to the community. It has found, moreover, a general sentiment in the community to this effect and in no instance has it found any opposition to the bringing of natural gas to Roswell, either from individuals, organizations or corporations.

The directors feel, however, that there are a number of factors which should be taken into consideration before the community endorses any specific proposition along this line. A company proposing to bring this gas to Roswell should be financially responsible and have an adequate supply of gas not only to supply Roswell today but in the future, taking into consideration the fact that the demand will in all probability be much heavier two years from now than it would be today. The company should demonstrate that it would install adequate lines of sufficient size and quality to carry this gas to the city. It should be shown conclusively that it would be delivered to the consumer at a price that would represent a real saving over present fuel costs and at a figure as low as is possible consistent with the necessary investment to bring the gas to the city.

There is still another factor which has been discussed in the city at some length and one which we believe merits serious consideration. That is the possibility of developing an adequate supply of natural gas near Roswell. There are many responsible geologists who feel that this will undoubtedly take place in which case gas could be delivered to the Roswell consumer at a rate much lower than would be possible if the gas were piped a long distance.

While we feel that it is important that we get natural gas at the earliest practical moment, so far the Chamber of Commerce has been reluctant to advocate any specific propositions until the directors had more light on the subject. While time is an important element, yet the matter of a few months delay if necessary, would be preferable we feel, to entering a contract which would prohibit gas at a much lower rate, should the supply be found closer to Roswell. We realize that this is a matter which will be officially acted on by the city council when any specific proposition comes before them. The Chamber of Commerce directors are in hearty accord with the unofficial attitude of the councilmen, as expressed from time to time, that this is a proposition on which the community should proceed with greatest caution and act only after the closest and most careful investigation.

VAUGHN BANK BANDITS GET PEN SENTENCES

Charles Fee and Johnny Saxon have begun terms of 45 to 50 years in the state penitentiary at Santa Fe following their pleas of guilty in district court at Santa Rosa to charges of holding up and robbing the East Vaughn bank of \$3,245 on December 10 last.

Whitey Walker, who Fee and Saxon said aided them in the holdup, has not been apprehended but the sheriff at Santa Rosa is advised he has been at Borger, Texas.

The three holdup men entered the East Vaughn bank and compelled Cashier A. E. Huntzinger and Pete Sanchez, a customer, to lie face downward on the floor while they looted the vault. They fled in a car and Saxon and Fee later were apprehended at Loington after several other arrests had been made.

When the Pyle cross country runners were in Santa Rosa March 31, Julian Mondragon, jailer, was wounded by Saxon, Mondragon charges, and Saxon and Fee escaped. Fee was recaptured near Santa Rosa two days later and Saxon was caught at Borger, Texas, last week.

The Democratic primary Tuesday passed off quietly but strenuously. There was great interest shown both by candidates and voters and a steady stream of citizens, both men and women, came to cast their ballots for the candidates they favored, from opening time till close of the polls.

DEXTER GIRL WINS WASHINGTON TRIP

Miss Elizabeth Mehlhop of Dexter, who has been in the 4-H Club Work for several years, both as a member and as a leader, has won additional recognition and honors by securing a trip to Washington, D. C. as the award for being the outstanding girl in New Mexico. She is awarded a trip to the Annual Club Encampment in Washington, D. C., June 20th. Members from all over the United States who have won similar honors will be present at this encampment. During the week they will be shown every point of interest in the nation's capitol and will be given every attention possible to make their trip pleasant. They will be under the supervision and direction of competent supervisors at all times so parents need not feel any uneasiness in regard to their welfare. We think that Elizabeth should be congratulated not only upon the good work she has done, but upon the fact that she has won such a pleasant trip.—Exchange Bulletin.

NATIONAL MUSIC WEEK IN VALLEY

DEXTER ITEMS

Irene Northam, Reporter

Breeb Hurst spent the week-end with his family in Dexter.

Mrs. R. C. Reid left the latter part of the week for Flagstaff on a pleasure trip.

An eight pound girl was born to Mr. and Mrs. O. W. Phillips Thursday morning.

Mr. and Mrs. Roy Pior, of Artesia spent Sunday in Dexter visiting relatives and friends.

Miss Eva Mae O'Brien left Thursday to spend a few weeks visiting relatives in Artesia.

Mr. and Mrs. Alex McGonigal, of Artesia, were up to Dexter a few days this week visiting relatives.

Mrs. W. A. Chadwell left Friday for her home in Clovis. Mr. Clyde Barnes trucked their household goods to Clovis.

Mr. and Mrs. E. H. Robertson and little son, Billie, of Roswell, visited in the Robertson home at Greenfield Sunday.

Lee Wright received a number of severe burns about the face Friday morning when the boiler he was firing for Mr. Stanley, blew up.

Mrs. Towers, of St. Louis, is here visiting her daughter, Miss Dorothy Towers, who is the home economics teacher in the Dexter high school.

Mr. and Mrs. Hagen McCaw, Mrs. U. M. McCaw and Miss Linna McCaw, of Artesia spent Sunday afternoon with E. B. McCaw of Dexter.

Mr. and Mrs. Clyde Barnes were the dinner guests of Mr. and Mrs. Edmund McKinstry Tuesday evening. The dinner was given in honor of Mr. and Mrs. Barnes' wedding anniversary.

The J. U. G. girls met last Tuesday night with Miss Elizabeth Mehlhop. Miss Gretchen Mielenze was the honored guest at the meeting. Miss Mielenze was a member of the J. U. G. club last year.

"What are you studying at the University of Chicago?" "Triggernometry."

5 reasons why STEEL ECLIPSE WINDMILLS run in lightest breeze

Why does the Steel Eclipse run when other mills are motionless? The answer is, scientific design and fine workmanship. Note these five reasons— (1) Wheel is tilted to take advantage of lightest breeze. (2) All working parts run in oil. (3) All wearing surfaces are machined. (4) Mill starts on two-thirds load—not full load; quick downstroke and slow upstroke means less effort required on the lift or pumping stroke. (5) All bearing surfaces are in line, reducing internal strain and power loss.

ENNA JETTICK Health Shoes

From the diary of Enna Jettick

"Had to stand all through the third lecture recital of the course today. Mrs. C— stood next to me, but she got so tired she couldn't stay. Before she left, I told her about Enna Jettick shoes and she said she'd certainly get some before the next lecture!"

Enna Jettick
