

THE MESSENGER

HAGERMAN, CHAVES COUNTY, NEW MEXICO, THURSDAY, MAY 30, 1929.

NUMBER 22

Hagerman—Where the most valuable mineral water in the Southwest flows from an artesian well in the city.

DEXTER NEWS

D. Herbst was a Roswell visitor Monday.

Mrs. Jim Caffell and children visited Jim Caffell at Artesia Monday.

Dr. and Mrs. Hubbard and family left Monday for a weeks' vacation in California.

Several cars of alfalfa hay have been shipped from Dexter within the last few days and is bringing a fair price.

Mrs. Mesdames Jim Caffell and P. P. Clark and Mrs. O. D. Johnson, of Sweetwater, Texas, went to Roswell one day this week to decorate the grave of Mrs. Johnson's mother, Mrs. Ed Winkler.

Mrs. Raymond Durand left Saturday for Lubbock to visit her sister, Mrs. R. N. Miller, for a few days. On her return she will be accompanied by her two children, Earline, and Raymond, Jr., who have been visiting Mrs. Miller.

TELEPHONE EXCHANGE MOVED
The Mountain States Telephone Co. have moved the telephone exchange into the C. R. Beck building, just across the street from the Dexter Service Station, and are getting the switchboard and other equipment in first-class shape.

AT THE CHURCHES

METHODIST SUNDAY SCHOOL

Some seem to be laboring under the impression that our Sunday school begins at 10:00 or 10:15 a. m. That is an egregious mistake. The hour is 9:45. When that hour arrives the Sunday school is all set and ready to go.

Last Sunday a kodak picture was secured of the beginners' class with its teacher Mrs. Swisher. There was an attendance of these little tots equal to the class enrollment. Also one of the intermediate boys' classes who had an attendance of 100 per cent and four visitors. This fine class of boys has adopted a program and is putting it over in a splendid way under the direction of its teacher B. F. Gehman.

The theme for the devotional service next Sunday will be "Lost, a Golden Opportunity." If you are not present you will have missed an opportunity not only to receive help, but what is of greater importance, to have helped someone else. Get away from the idea of receiving all the time and take on the spirit of service, then join in "A long pull, a strong pull and a pull altogether."
E. A. PADDOCK, Supt.

CHURCH OF THE NAZARENE

Sunday school at 10:00 a. m. Our Sunday school is on the upward climb; we had a record attendance Sunday. Why not come this Sunday and bring along the whole family—we have some fine classes for the little children.

Morning service 11:00 a. m. N. Y. P. S., at 6:30 p. m. Evening—Evangelistic service 7:30 p. m., with sermon by the pastor. Trust we may have the pleasure of having you worship with us Sunday.

"The little church with a big welcome to all."
W. A. HENRY, Pastor.

B. Y. P. U. SUNDAY, JUNE 2

Subject: "When the Heart Longs For the Temple."

David loved the Temple and Temple worship; in that respect he was "a man after God's own heart." It is hard for the Christian to keep their minds on sacred things—what about you? Christians should cultivate the spirit of worship when in church. Worship is due unto God and does us good. Do we believe "all things work together for good."
Come to B. Y. P. U. wearing a flower of any kind and have a question to ask. Also, find out where Moses was buried. Be there—wearing a flower—with friends.
B. Y. P. U. meets 7:00 p. m., promptly.

PRESBYTERIAN CHURCH

Services in this church next Sunday morning and evening. The Sunday school and Endeavor at the usual hours of 10:00 a. m. and 7:00 p. m. Sunday June 9th will be Children's Day, the exercise to be held in the morning at the Sunday school hour. The pastor has been in school several times the past week. Making arrangements for the coming making arrangements for the coming of Dr. E. T. Mathes to take charge of the work there releasing the pastor here full time service. It is

Mr. and Mrs. O. L. McMain were in Lovington Sunday.

Joe Winkler and Mrs. Herbert Southard were in Roswell Monday.

Mrs. S. E. Hamill and Mrs. Phillips attended a meeting of the Eastern Star at Hagerman Wednesday night.

Mr. and Mrs. J. W. Dudley and little daughter, Ruth, were guests of Mrs. Dudley's parents, Mr. and Mrs. P. P. Clark, recently.

J. E. Coleman, who does the mechanical work at Herbst & Wortman's garage, has ordered a full set of new machinery and will soon be in a position to hone car cylinders or do any other kind of auto work that the public wants.

"MEDICINE MAN" GIVEN O. K.

Jack Erwin, director of the "Medicine Man," says that he has had reports from the films that have already been taken of this show and passed on by motion picture critics at Los Angeles, and that they are pronounced O. K. by the critics. Scenes of this film are now being made east of here on the river, where an Indian massacre will take place in a few days.

LOCAL ITEMS

Jim Williamson was in Dexter Wednesday.

M. Stevenson of Artesia was in town Saturday.

Mrs. C. H. Stroud has returned from Fripole, N. M.

S. E. Hamill, of Dexter was in town Wednesday night.

Lloyd Harshey and family were Lovington visitors Sunday.

Mrs. Elizabeth Floto and son, Albert, were Roswell visitors Wednesday.

Louie Heik and family spent Sunday in Lovington attending the celebration.

Mr. and Mrs. J. W. Campbell and children visited El Paso and Juarez last week.

Frank Curry has returned from State College where he has been attending school.

Mr. and Mrs. W. P. Woodmas spent two or three days at Carlsbad the first of the week.

Elizabeth and Audrey Coffee have returned from Lubbock, Texas, where they have been attending school.

Miss Vene White, who is attending school at Las Cruces, is visiting her parents, Prof. and Mrs. E. A. White.

Mr. and Mrs. W. F. Collins and little son, Billie, of Carlsbad, visited Mr. and Mrs. R. L. Collins Tuesday night.

Large crowds go out from here daily to witness the "shooting" of scenes in the "Medicine Man" and the movie being filmed in this section.

Mrs. Mark Boyce returned Thursday night from an extended visit to relatives and friends in Iowa and at other points in the northwest.

R. L. Collins was in Carlsbad Wednesday night; being accompanied to that place by his brother, Wm. Collins and wife and small son, Billie.

The Hagerman Irrigation Co., has just had their office building repainted and a considerable improvement is noted in the appearance of the building.

Mrs. C. G. Mason and son, Steve, and Franklin Johnson returned Friday from Pine Lodge, bringing with them Garner Mason and Richard Reavis, who had been spending a couple weeks there.

Mr. and Mrs. F. H. Evans have returned from Tulsa, Oklahoma, where they visited Mr. Evans' father who was seriously ill. The senior Mr. Evans is about 93 years of age and his present illness may prove fatal, owing to his advanced age.

not quite certain as to the precise date the change will take place but will be announced in due time.

TWO TEXAS AVIATORS MAKE A NEW FLYING RECORD AT FT. WORTH

FORT WORTH, Texas—Having added almost a full day to the world's endurance flight record, R. L. Robbins, and James Kelly eschewed the admiration of the nation and slept Monday while experts made a careful examination of their single motored monoplane Fort Worth which they brought to earth Sunday after soaring almost seven and one half days.

The two pilots, one an ex-cowboy, the other a former railroad mechanic added a new line to the illustrious record started by the Wright Brothers' one minute flight at Kittyhawk, N. C., in 1903, by keeping the Fort Worth aloft in good and bad weather for 172 hours 32 minutes and one second. The record beats the mark of 150 hours, 40 minutes and 15 seconds made by the army monoplane Question Mark.

Robbins has had six years experience as a flyer, but Kelly came off the range only a year and a half ago and a course in flying which he took technically ended in April, although his skill gave him a job with the Texas Air Transport Corporation long before that time.

The two fliers divided credit for the success of their flight. Kelly pointed out that Robbins' ability to get the most out of the motor, with out straining it was largely responsible for its performance. Robbins attributed a large share of this success to the intrepidity of Kelly who frequently crawled all around the hood of the plane to grease valve rocker arms. The Question Mark was brought to earth by valve trouble.

MEXICAN BUMPS INTO SCREEN DOOR WITH CAR

Saturday a Mexican, from the Cottonwood community, driving a large Studebaker car, ran into the front screen doors of the Kash & Karry Grocery at this place and wrecked one of the doors.

He was driving at a slow speed when he turned in toward the curb and tried to stop, but evidently stepped on the gas, instead of the brake and the car mounted the pavement and bumped into the doors.

COTTON GROWING NICELY

Most cotton is up in this community and growing off nicely these hot days. The recent rains have gotten a good season in the ground which is making cotton and weeds alike grow swiftly, and the hoe will be brought into play shortly to prevent the weeds outgrowing the cotton.

COMPLETES ROAD JOB

John Mitchell, who has been building a road to the oil fields, has just completed grading a five mile stretch 30 miles east and ten miles south of town, and has brought his equipment back to town and gone to hauling hay with his teams.

DINNER BRIDGE PARTY

Mr. and Mrs. R. L. Collins were hosts at a dinner bridge party on Wednesday evening, May 22.

Those present were: Mr. and Mrs. Dub Andrus, Mr. and Mrs. A. L. Nail, Mr. and Mrs. Harold Miller, Mr. and Mrs. O. J. Ford, and Mr. and Mrs. H. L. McKinstry.

O. E. S. MEETING

The regular meeting of the local chapter of the Order of the Eastern Star was held at the lodge rooms Wednesday night with a good crowd in attendance.

REVIVAL CLOSED

D. D. Rose closed a very successful revival at the Church of Christ, this city, Sunday night. Large crowds attended each service during the two weeks that the meeting ran, and much good is expected to result from the excellent sermons preached by Mr. Rose.

CHANGE OF BUSINESS

V. O. Marrs has taken over the shop formerly operated by J. W. Capps in the rear of the Campbell Garage and will hereafter devote his time to doctoring sick automobiles. Mr. Marrs is a splendid mechanic and should make a success of his business.

W. E. Bowen is having his roof painted.

Jim Williamson was a business visitor to Roswell Friday.

MANY HAGERMANITES ATTEND THE BARBECUE AT LOVINGTON SUNDAY

Fear Of Rains Keeps Many Local People Away—An Interesting Program Is Heard After Barbecue Is Served.

Several from here attended the celebration at Lovington last Sunday though more would have gone had they not been afraid of running into mud should it rain before time to make the return trip home.

All who attended report a splendid time. Among the speakers to appear on the speaking program after the barbecue were three state senators Messrs. Z. B. Moon, of Artesia, T. E. Julian and Mrs. Louise Coe. Hugh Williams of Santa Fe, chairman of the state corporation commission, Ollie Webb of Dallas, Texas, assistant to President Lancaster of the Texas-Pacific. Governor R. C. Dillon was the last speaker on the program. Governor Dillon presented an optimistic picture of the future possibilities of Lea county and characterized Sunday's barbecue as a new page in the development of Lea county.

UNCLE GEORGE BUTLER HERE

Uncle George Butler, pioneer of this section, and one of the greatest boosters the valley has come down from Roswell to-day to decorate the graves of loved one at the Hagerman cemetery, and while in town paid The Messenger a pleasant call.

Mr. Butler gave us some valuable information of this section as a health resort, which we pass on: Several years ago the French government appointed a group of learned men to seek the most healthful spot on the globe, and after years of search selected the eastern part of New Mexico. A few years later our government appointed a similar commission which designated the same section. A few years later Mr. Butler met an army physician who had been all over the world, and the army man gave the opinion that the Pecos valley boasted the purest air to be found anywhere, which makes it an ideal climate for tuberculars. With this section designated as the most healthful spot on earth, and Hagerman having the same climate as the rest of the valley coupled with our valuable mineral water, we would do well to advertise our city as a health resort.

WICHITA LIKES HAGERMAN

The Wichita Boosters, who recently visited the Pecos valley, liked Hagerman. Here's what the Price Current, a Wichita, Kansas trade paper has to say about Hagerman:

Here was a splendid 8 o'clock reception. Swarms of youngsters mobbed the Troupers and soon stripped them of their souvenirs. The band was escorted to the town band stand nearby, and played its concert to an ever-increasing number. John Massey met an old time friend in Perry Crisler, 77 years old but looking younger. Many of the visitors drank from the splendid spring in the little city park. It was a reluctant crew of white hats that piled onto the train when the whistle blew, for they would like to stay longer where hospitality was so open-handed as at Hagerman.

LOCAL MAN GETS PHOTO IN "PRICE CURRENT"

Perry Crisler, local blacksmith, who came to New Mexico several years ago because of failing health, and now weighs 200 pounds or more, met an old Kansas friend of his, John Massey, who accompanied the Wichita Boosters on their pilgrimage through here recently, and the two oldtimers celebrated by having their pictures made—and the last issue of the Price Current published these pictures.

Mr. Crisler bought hardware from Mr. Massey when the former ran a blacksmith shop at Milan, Kansas, and the latter was carrying a grip as a hardware drummer. They had not met in more than a quarter of a century.

SAN DIEGO WOMAN CLAIMS ALTITUDE RECORD 24,000 FT.

MINES FIELD, LOS ANGELES, California.—Driving her cabin monoplane to an unofficial altitude of 24,000 feet, Miss Marvel Crosson, veteran San Diego woman flier, landed here Tuesday after a two-hour flight with the women's altitude record apparently broken.

TWENTY-EIGHT
NTIES IN NEW
APE SPECIAL
IS REPORT
ies In The Pecos
among The Five—
Total Road Tax
\$261,211.81
Five counties out of
New Mexico escaped
during the session
legislature according to
the bulletin issued
yesterday by the
Taxpayers' association.
The counties were
Eddy, Chaves,
and Hidalgo.
The counties carrying special
taxes were introduced in the
bulletin, the bulletin said,
thirty-seven became
amount of taxes which
this year under these
laws is \$261,211.81 which
under the 1927 total,
the bills in that pre-
cedent of \$269,544.28.
The 1928 figure, how-
ever, is for 1925 which
was passed," the
bulletin said, "which will permit
expenditures in counties
small and will not
affect tax rates. On the
other hand, there are listed some
which failed to be en-
acted and county taxes.
There is evidence of the treas-
urer brought upon the
by their constituents. The
bulletin serves also to
at the legislature exer-
cising resistance."
The bulletin said, the bulletin
said the largest special
tax with three and one-eighth
placed for special roads.
Mora, Quay, Rio Arriba,
Chaves counties have special
taxes on mills or fractions more
than the legislature
able to pass such bills."
The bulletin said, "although the
bulletin will be raised that
contrary to the spirit of
the section 24 article four of
the constitution which prohibits local
taxes including those for
as state roads extend-
ing into one county or for
roads."
The bulletin said, "the bulletin
said the largest special
tax with three and one-eighth
placed for special roads.
Mora, Quay, Rio Arriba,
Chaves counties have special
taxes on mills or fractions more
than the legislature
able to pass such bills."
The bulletin said, "although the
bulletin will be raised that
contrary to the spirit of
the section 24 article four of
the constitution which prohibits local
taxes including those for
as state roads extend-
ing into one county or for
roads."

SERVING A DISTINCT FIELD

Several years ago, when the radio was beginning to receive popular favor, fear was expressed that the radio would put the newspaper out of the running. Those who have given the matter serious thought have arrived at the opposite conclusion, for it has developed that the radio is an aid rather than a detriment to the newspaper. Even though it is granted that the radio has usurped a portion of the newspaper field, the weekly newspaper still retains the same, if not a more important relation to the community it serves than ever before.

The weekly can have nothing to fear from the radio or other news broadcasting agencies, especially where the weekly serves a field alone, for there is a personal element in the weekly newspaper that can never be touched, even by the daily, for no matter how swift and comprehensive the world wide news agencies become, the weekly with its summary of local happenings can still have a place in the life of the community. The point was well illustrated the other day by a fellow townsman who remarked that his old home town paper was not the same since it had enlarged into a daily for it carried about the same news that the Star Telegram and other large dailies printed. He missed the personal element. He missed the chronicling of the local events. The change had brought about a change indeed in the things that he was interested in reading for the weekly paper was indeed like getting a letter from home.

No, nothing can ever replace the weekly newspaper that makes an honest and conscientious effort to serve the community in which it exists.

NOT SO DUMB

The indirect success won by State Senator Z. B. Moon in securing by dual measures the authorization of a system of public highways which he failed to obtain by his own proposed legislative act calls to the attention of those who watched the last legislature that the Eddy county solon is "dumb like a fox." With Moon getting his trans-state highway; Vesely winning an early success in the Grant county bond bill; Bryant getting an appropriation for the Eastern State Normal and Jones gaining every point on his favored banking laws it appears that the democrats fared exceptionally well in the sessions of the last legislature.

Certainly few of the eighteen republican members can claim the successes for their individual pet schemes that these four estate democrats managed to slip through in satisfactory manner.

Despite the fact that they were outnumbered hopelessly in the senate the democrats gained practically every point of their legislative program and at the same time contributed no little part of the irritation under which the opposition is still smarting and still believing that they brought it about themselves.—Las Vegas Optic.

A BRIGHT FUTURE

Residents of this section are facing the brightest future seen in the eastern slope for many years. Stockmen especially those who are fortunate enough to have sufficient numbers of cattle and other livestock to eat the abundant vegetation on the ranges are holding the trump hand and will hold it as long as livestock prices hold up. With a good bottom season the farmers should fare considerably better than on the average year, when frequent irrigations are necessary in order to start crops. The farmers prosperity of course depends in a large measure on the price of his product when gathered and that's in the future yet. It would not necessarily have to be, however, if the farmers would practice more diversification.

The fact that the farmer is willing to bet a year's wages and his living expenses on the price of one crop is the only blot on the otherwise optimistic picture. If every farmer had a few cows, a few hogs, a few chickens and his place fenced sheep proof with a nice little bunch of sheep grazing on the fast growing vegetation, he might figure on drawing an immediate return from the good rains, as it is he must wait till fall before he can expect to receive any return and there are a number of factors which may enter into and effect the market in the meantime.

If you possess that rare human trait, poise, you can not expect to have people judge you when you "put your best foot forward," rather poise has to do with how you meet the every day problems and the problems under the stress of the moment.

Just about the time the weather got hot enough to think of going to the mountains, the weather man handed us another dose that made us think of going to Florida.

When better mineral water is produced, it will come out of the Hagerman Mineral Well.

President Hoover says that the prohibition question would be solved if people would quit patronizing the bootleggers. We knew that.

The Town Doctor Says

A MAN CAN APPRECIATE ONLY THAT WHICH HE KNOWS

Records show that many of the old sayings are falling by the wayside, the latest of which is the one about the impossibility of converting the hearing apparatus of a female omnivorous mammal into a silk overnight bag. A man in New York has ruined that by practically making silk of a sow's ear. But the tried and proven statement that "A man can appreciate only that which he knows" will undoubtedly outlive the span of years of the most of us.

Arthur Brisbane tells a story about a brown rat in Lincoln Park, Chicago. This rat lives happily in his hole under a tree, never doubting but that the whole park was made just for him, as some people believe the whole town in which they live was made just for them. This rat is an agnostic—you can't make him believe anything that he cannot understand and prove, and as he cannot understand or prove very much, he is happy and self satisfied. He is a good rat, however, minds his own business, and keeps regular hours. He runs up and down his little path, looks with contempt at the queer animals which live up the tree, and some day he will die in his hole, with his teeth grown long, convinced that he has not missed a thing that life has to offer.

Without intention of drawing any undue comparisons, the fact nevertheless remains that in every community there are residents, who, like the rat, deny what they cannot understand; citizens who are contemptuous of that which is near them, and that which could be appreciated. Intellectually, these people are as rats—rodents to the civic life of community. These people do not know but unlike the case of rats, it does make a difference and upon the shoulders of somebody or some group of somebodies is the responsibility of doing that which is necessary to make them appreciative.

The voters who deter the building of better schools, the paving of roads and streets, the making of play grounds, the laying of sewers, the installation of disposal plants and water filtration plants; the business people who insist on being "storekeeper" and "pooh-pooh" the idea of clerk training, yet weep and wail that chain store and capital are ruining their business, the resident to whom a stranger says: "This looks like a pretty good town," and replies: "Yeah, it all right, if you like it;" the merchant that the community has supported but who refuses to belong to a service club or a civic organization, and who belittles, runs down and decries every attempt on the part of anyone to help the community; Mr. Average Citizen who sits back and says nothing, does nothing, with an "It's none of my affair" attitude; the ever-present percentage that go out of their way to run the community down maliciously; the resident who takes no part in the clean up campaign, an orphan's home benefit, hospital or other charitable drive; the property owners, resident or otherwise, who refuses to eradicate visible community abominations; the man, grown old, who cares not a whit if the swimming pool of his forgotten boyhood joys is polluted with the refuse of his factory; the gossip, the civic derelict, the knocker and the fool—these are the rodents who must be shown and taught the costliness of their ways before, and in order that they may appreciate.

Now is the time for every thinking citizen and civic organization, every business man and every city official to awaken to the very evident fact that "What was, isn't"—that things have changed and that old fashioned ideas of community life will not stand the gaff of modern ways of doing things.

A NATIONAL DISGRACE

One person out of every twenty-four in the United States in 1920 could not read or write, according to the federal census of that year. Nine years have passed, and another census will soon be taken. What will its findings be? Will it again reveal to us 5,000,000 illiterates within our borders? Will it again place us tenth among the great nations of the world?

Adult illiteracy can be wiped out in the months that remain in 1929, according to the statement of the national illiteracy crusade, which is actively engaged at its Washington headquarters in stimulating all responsible official and volunteer organizations throughout the country to make every effort to reduce the illiteracy totals.

The crusade pints with particular emphasis to the most pathetic of all illiterates—the 1,000,000 mothers who can neither read nor write. While the children are young, the mother's ignorance is a dreadful handicap in training them, and when the children have grown up and left home her loneliness is pitiable. She is separated from them by more than mere miles. She cannot write to them, she cannot read the letters they send. She cannot turn to her Bible for consolation.

Surely these million mothers, many of them native born Americans, are worthy of the education which it is within the power of every literate adult to give. The National Illiteracy Crusade has demonstrated that adults can be taught to read and write in from four to six weeks. It has placed suitable text books at the disposal of volunteer teachers. It has developed an easy method of instruction.

If the patriotic citizens of this country will cooperate by devoting the necessary time to the instruction of the illiterates in their communities there is no reason why the federal census of 1930 should not show a reduction in illiteracy about which the entire nation may be proud. And although literacy is an end to be desired in itself, it is bound to bring with it many other benefits—improved standards of living, more intelligent care of children, and better understanding of American ideals.

From the looks of things, Hoover is not going to prove the big boy that his friends had hoped for. President Hoover has a grave problem to solve so far as his career is concerned. He went into the president's chair one of the biggest men in the history of the nation and will be faced with the task of living up to his reputation during the next four years. In this respect he was just the reverse of his predecessor, Calvin Coolidge, who was an unknown quantity when he entered the White House, but came out a great man.

We can't send out a delegation of boosters, as Wichita, Kansas, did, but we can train our citizens to be boosters to that any time any of us make a trip we will boost for the home town.

Soon Vacationists will be flocking to New Mexico to spend their vacations, while our citizens will be going elsewhere to spend theirs.

PUBLIC AGAIN WARNED AGAINST GIVING HITCHHIKERS LIFT ON ROAD

SANTA FE—Pointing to the recent murder on an Arizona highway by Richard Burrows, a highway bulletin issued recently again warns the motoring public against giving rides to hitch hikers.

"As long as the motorist encourages the tramps and bums who infest our highways crime will increase on the roads," says the bulletin. "Although stories such as the Burrows case are given a great deal of space in the newspapers the traveling public still gives rides to hitch hikers.

"Every time a motorist gives a hiker a life, he encourages all who come in contact with the walking delegate to go on the road. The numerous reports of crimes committed by these hikers leads to the belief that as a whole they must form a considerable fraction of the criminal element in the land.

Burrows passed through New Mexico. While he was on the highway of the state every motorist was in jeopardy. Had any New Mexican stopped and given him a ride, Burrows' crime might have happened in this state with a citizen as the victim."

The bulletin goes on to state that the man who gives a hiker a ride while the motorist has his family with him is criminally negligent. In case of a crime being committed he is culpable by moral law if not by statute law.

"Not only should hitch hiking be discouraged on the highways of this state because of the safety-to-motorists element, but because hitch hikers are frequently the cause of fires on ranch premises. Also any fruit raiser knows of the loss to him annually from theft by this class of people. Property is destroyed, lives endangered, robbery encouraged and women menaced by the hitch hiker evil. Give no rides and rid New Mexico highways of this menace.

HUGE WASTE IN MAIL

A waste amounting to approximately \$4,000,000 to \$5,000,000 annually to the Post Office Department and the users of the postal service results from improperly prepared and addressed mail, the Postmaster General, Walter F. Brown, said recently while discussing the work of the department.

**BUMP GATES ON THE
ARTESIA CLOUDCROFT
HIWAY TO BE REPLACED**

ROSSELL—District Highway Engineer B. F. Kelly announced the passing of the last bump gates from the highways of the southwest to give way to modern cattle guards.

The bump gates were an innovation of the early days of the automobile age. The first drivers of horseless carriage felt that it was not in keeping with the dignity of a chauffeur to descend from the seat of his vehicle in his goggles, gloves, duster and what not and stride forward to open up gates.

Accordingly, after some mental effort the early drivers evolved the scheme of the bump gate. This was simply a gate pivoted in the middle with long guys running from the center post to the ends of the gate. A car ran up to the gate, bumped it, the pivoted gate swung and while so doing wrapped the wire guys around the center post. Much as a top is spun the gate returned to its closed position by the unwinding of the wires.

Until the last few days two of these gates remained on the Artesia-Cloudcroft road. With the extensive improvements being put on this road the old gate idea did not fit in. Whereupon, money was secured from the Highway Commission to eliminate these archaic forms and modern rail type cattle guards have been placed at the spots formerly occupied by the gates. Now it is possible to maintain full speed instead of slowing up at these two points for the entire length of the scenic Artesia-Cloudcroft-Alamogordo road.

**ASSISTANT TO WILBUR
TOURING SOUTHWEST**

E. W. Sawyer, executive assistant to R. Lyman Wilbur, secretary of the interior, was in Santa Fe this week on a tour of the southwest. Referring to the oil conservation policy of the administration Mr. Sawyer said:

"It is the plan to work out eventually," he said, "a program which will work as little hardship as possible on the industry and still result in the desired conservation of the crude petroleum resources of the nation."

MARTINEZ TO PRISON

Sheriff Harry Thorne and deputies left yesterday for Santa Fe taking with them Miguel Martinez, found guilty here by jury at the last term of district court of second degree murder and sentenced to serve not less than 90 and not more than 90 years in the state penitentiary. The case was transferred from Eddy county.—Roswell Record.

**REVISED ESTIMATE
OF THE 1928 CROP
BY THE BOARD**

Showing revised estimate of the crop of 1928 is made by the Reporting Board of the United States Department of Agriculture. This estimate is based upon the findings of the Bureau of Census of May 17, 1929 together with data furnished by crop agents and others.

The final estimate of production for the Board as of December 31, 1928, for the United States was 14,573,000 bales, and the final census for 1928 amounted to 14,478,000 bales. The yield per acre in 1927 for New Mexico was 123,000. A five per cent increase of this acreage would amount to 83,544 pounds net (500 pounds per acre) to this figure the Crop Reporting Board added an estimated 4,466 bales for the amount of cotton grown in Texas.

The yield per acre in 1927 for New Mexico was more than for any other state, and amounted to 352 pounds compared with 340 pounds for California, and 315 for Arizona. The yield for New Mexico averaged 378 pounds, which is New Mexico second in yield among the cotton producing states.

The acreage of cotton in Dona Ana county in 1927 was estimated at 34,000. In 1928 the acreage for this county was estimated at 53,000 and the production at 53,000. Thus the acreage for Dona Ana county was increased by 19,000 acres and the number of bales by 19,000 over the 1927 estimate.

The county had 37,000 acres, compared with 21,000 in 1927. Its production was estimated at 18,000 bales compared with 12,000 bales in 1927.

**DEATHS FROM VIOLENCE
IN NEW MEXICO IN APRIL**

SANTA FE—Five persons were killed in automobile accidents in New Mexico during April, according to the report of the state health department issued Tuesday. There were two deaths from violence in the state, but no homicides were reported.

The casualty of the world war was reported when one report to the health department recorded that a man died of a "war wound."

Accidents other than grade crossings claimed three persons who were drowned, and miscellaneous causes of death such as gunshot wounds, falls, etc. one person each.

**FISHING SHOULD BE
GOOD SAYS WARDEN**

Trout fishing should be exceptionally good this season, E. L. Perry, state game warden believes, due to the increased number of baby trout planted in the state streams last fall.

High water in most fishing streams will greet the anglers on May 30, the first day of the season, Mr. Perry said. This condition may cause fishing at the beginning of the season to be poor, but will be only temporary, the warden states.

**Round The World Clock Is
Newest Radio Aerial**

A CLOCK for a radio aerial. Not Big Ben, or the clock in the steeple, or the town clock, but just a little one four inches high and weighing one pound.

This is the latest product of radio engineers, in their effort to eliminate the unsightly tangled net-work of wires and poles on tops of buildings and homes from coast to coast. Seeking something useful in itself, which would at the same time serve as a 100 per cent indoor aerial, the engineers came across the round-the-world clock, recently perfected, which tells the time at any spot on the globe, and added another function to its usefulness.

The little clock, with its gold dial, sets on top of a radio set. One wire outlet from it is plugged into the nearest electric light socket, and the other outlet is connected with the radio. It functions with either A. C. or D. C. current.

The clock's adaption for radio use is ideal. If you want a Berlin orchestra, or a Paris night club,

or a getsha entertainment in Japan, the talking clock will tell you just what the hour is in that part of the world. By the ingenious connection of the revolving disk set on the face of the clock, it is possible to know exactly the moment for any broadcasting event in any time zone in the world.

The almost human clock is the invention of George B. Gardner, who prides himself that he has worked on 40 newspapers in the United States since 1887 as a tramp printer. He got tired of trying to figure out the whys of a five o'clock date line on a Paris story that was to run in his paper five hours before it happened.

He set the story of the Battle of Manila Bay in the morning when the dispatches said it happened in the afternoon of the same day. Several years of puzzling on several different papers convinced him the world needed a universal clock, and the round-the-world clock is the result. It has made Gardner rich.

**NEW MEXICO MAY BE
NEXT LOGICAL CENTER
FOR MOVING PICTURES**

ROSSELL—"New Mexico is the next logical location for a moving picture center," stated Jack Irwin, director of the moving picture company now working on a story featuring Carlsbad Cavern. The company was at work at Dexter when the entire town has been changed to a frontier town for the picture.

"I have been asked by local people whether or not there is anything behind the rumors going around of major producing companies coming from Hollywood to make their headquarters in New Mexico," he went on. "My answer is 'decidedly yes.'"

"California locations are worn out. The trade papers are criticizing the producers for using the same old scenes. After nearly a score of years of making pictures in California it is only natural that all locations are growing old and burned out. New Mexico on the other hand is virgin territory. Moreover, it has scenic views that cannot be duplicated or even approached in the nation.

"Location scouts have been touting New Mexico to the producers for years but the general inaccessibility of the best locations because of lack of transportation facilities has made it impossible for us to come to this state to work. Now, with the fine system of highways which have been built here in recent years and the plans for an even greater system which I hear your governor has promised, New Mexico becomes the ideal locale for the future center of the motion picture industry.

"New Mexico has all the sunlight Hollywood has," he went on to explain, "and with another great advantage—that of the lack of fogs which frequently spoil California days for working. Beside this, the almost unlimited number of new and smashing settings in this state fairly astound the location men."

In commenting on "The Redskin," the Richard Dix picture made at Acoma. Mr. Irwin stated that it was the most beautiful picture which had ever been brought to the screen, in his opinion. "The Redskin" opened the eyes of producers to the Indian and northern New Mexico possibilities," he said. "In 'The Medicine Man' we will show the world what southern New Mexico has to offer."

"The Medicine Man" will smash precedents in the movie world right and left, Mr. Irwin contends. Not only will it be the first picture to be made in the world famous Carlsbad Cavern but it will be the first sound picture made in New Mexico. Where "The Redskin" made movie history by its use of technicolor on the New Mexican landscape, "The Medicine Man" will top the performance by the use of the "talkies."

A battle between settlers and Indians, utilizing hundreds of New Mexico cow punchers and Apache Indians will be staged in the Guadalupe mountains near Carlsbad Cavern. \$45,000 worth of electrical equipment will be moved into the cavern itself for use in the scenes shot 750 feet below the surface of the earth.

It is claimed by Carlsbad people who have been familiar with the cavern for years that this will be the first time in the history of the cavern that it has been completely lighted. The effects will be the most startling scenic thing ever attempted in motion pictures, claims Andy Anderson, camera man who has inspected the cavern in preparation for the scenes.

"Offers from international releasing companies to buy our picture indicate the interest it is arousing," said Mr. Irwin. "I frankly believe that it will be one of the biggest publicity features for the state that has been tried. The cooperation of the people of the state and of your highway department is something which we feel deserves our most sincere thanks. We hope that the publicity the picture gives the state will serve in some measure to express our thanks to both."

**PROHIBITION HERE TO
STAY SAYS FORD**

WASHINGTON, D. C. — Henry Ford wants to see the prohibition laws enforced rather than modified.

That was the burden—as far as he let it be known afterward, at any rate, of his luncheon conversation with President Hoover Friday at the White House.

"Prohibition is here to stay," he told newspaper men as he emerged from the White House. "Prohibition must be enforced. There can be no turning back. I do not believe the people of the country want modification."

Replying to questions, he also expressed the opinion that the Diesel type engine had not been sufficiently developed for him to consider their use in airplanes and automobiles. He said he thought the gasoline engine being much cleaner, was better suited to automobiles and the oil burning though cheaper to operate, were too heavy as now developed for use in airplanes.

His visit to the White House followed a successful hunt in the old city of Alexandria, Virginia, near Washington, for early American antiques to add to his Dearborn, Michigan, collection. Browsing and delirating at great length, he purchased two Betty lamps, once owned by a niece of General Robert E. Lee; a pair of bronze vases; a banjo-shaped barometer said to be more than 200 years old; a colonial sideboard; a ladder-backed chair; a brass bell, a melofion of the Civil War period, and an album.

News Dispatch: Originally women obtained their clothing by skinning unfortunate animals. They are still skinning the brutes—their husbands.

**THE HIGHWAY TOURIST
GUIDE IS EXPECTED TO
MEET WITH APPROVAL**

SANTA FE—Advises received from Chambers of Commerce and booster organizations of the state who are now considering the final copy of the Highway Department's Tourist Guide before it goes to press indicate that the guide is meeting with hearty approval by the people of the state, it was stated at the highway offices recently.

In order to insure the authenticity of the information contained in the guide a highway department representative is making a hurried trip of the state checking up details and securing photographs for illustrations. Although there is still half of the state to cover, reports from the field show that the guide is well looked upon. Tourist travel to New Mexico is expected to be greatly stimulated by the issuance of the booklet which will be for distribution to prospective tourists.

**ABO PASS HIGHWAY MEET
AT SOCORRO MONDAY**

SOCORRO—The annual meeting of the Abo Pass highway association was held here Monday night with eighty delegates present from Oklahoma, Texas, New Mexico and Arizona.

J. B. Anderson of the New Mexico gasoline tax department discussed New Mexico highways and the state's salient tourist attractions in the principal address. Henry A. Bower of Enid, Oklahoma, president of the association gave a resume of improvements over the Abo Pass route during the past year. Riley Edwards, president of the Carlsbad Cavern-Grand Canyon Highway Association spoke on the scenic wonders of New Mexico and said that every part of the state has its share of points of interest. The New Mexico highway department was represented by Ladd Haystead, director of public service, who welcomed the delegates to New Mexico and discussed the road program.

Mr. Bower was re-elected president and D. T. Meek of Enid, Oklahoma, was elected secretary. W. E. West and George Kleth of Socorro are New Mexico's official representatives in the association.

ADVERTISEMENTS

NOTICE AND NOTICE SPECIAL ELECTION TO APPROVE OR REJECT THE PROPOSED GAS FRANCHISE OF TOWN OF LAKE ARTHUR, NEW MEXICO.

at a meeting of the Trustees of the Town of Lake Arthur, New Mexico, held on the 15th day of May, 1929 a resolution was adopted providing for a special election to adopt or reject the proposed gas franchise and the conditions of which resolution is as follows:

SECTION 1. That Whereas, applying for a franchise to furnish gas to the Town of Lake Arthur and the conditions of the franchise hereinafter set out, made by the Pecos Valley Gas Company, a Corporation, and prior to the granting of the franchise by the Board of Trustees of the Town of Lake Arthur the franchise should be submitted to the voters of the Town of Lake Arthur at an election called specially for that purpose, there is hereby appointed E. C. JACKSON, and H. A. SIMS, to constitute the Board of Trustees of the Town of Lake Arthur and the place at which the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 2. That there is hereby appointed as Judges of said special election, Mrs. A. V. Flowers, J. R. and Mrs. E. C. JACKSON.

SECTION 3. That there is hereby appointed as Clerks of the said election Chas. Vincent and A. Matley. That the time of the said election shall be on the 18th day of June, 1929, and the voting place shall be at the Pecos Valley Gas Company, in the Town of Lake Arthur, New Mexico.

SECTION 4. That the Mayor and Clerk are hereby authorized to give notice of the special election, the appointment of the Board of Trustees and the terms and conditions of the proposed franchise to the voters of the Town of Lake Arthur, in the next two issues of the Pecos Valley Gas Company Messenger, a paper published weekly in the Town of Lake Arthur, New Mexico.

SECTION 5. That the resolution shall be in full effect from and after the date of its passage. Passed and approved this 15th day of May, 1929.

E. C. JACKSON, Mayor.

H. A. SIMS, Acting Town Clerk.

SECTION 6. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 7. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 8. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 9. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 10. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 11. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 12. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 13. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 14. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 15. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 16. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 17. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 18. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 19. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 20. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 21. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 22. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 23. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 24. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 25. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 26. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 27. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 28. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

SECTION 29. That the franchise books shall be open for the registration of voters at 9:00 A. M. on the 25th day of May, 1929, and will be closed at 6:00 P. M. on the 5th day of June, 1929, and a certified list of the names registered will be posted in the building where the franchise books are kept, which time any person notified by this notice to have the same placed in the books and added to said books.

streets and alleys, thereof, to transmit, transport and distribute, erect and maintain such system as it may deem necessary for the purpose of transmitting, transporting and distributing natural or artificial gas to the inhabitants of the said Town of Lake Arthur, New Mexico and for the purpose may acquire, own, construct, reconstruct, maintain, use and operate in, over, under and across the present and future streets, highways, alleys, bridges and public ways, of the said Town of Lake Arthur, New Mexico, pipes, pipe lines or any other system for the purpose of transmitting, transporting and distributing gas to the said citizens and erecting and maintaining suitable system thereof, with all the necessary and desirable appurtenances, including regulating stations, vent pipes, thereto, gate valves, gauges, stop boxes, man holes, mains, low, intermediate and high pressure mains, pipes, feeders, service pipes and conduit and service pipe extension and such other things as may be necessary for use in operating said system for the purpose of transmitting, transporting, conducting, conveying and delivering gas into, within, through and out of the Town of Lake Arthur, New Mexico, and of supplying such gas to the Town of Lake Arthur, New Mexico, and the inhabitants thereof and to corporations, industries, and manufactures therein for light, heat, power and other purposes, (including any purpose for which gas is now or may hereafter be used) it being expressly understood that all and singular the rights, privileges and franchises herein granted and conferred upon The Pecos Valley Gas Company of Artesia, New Mexico, are so granted and conferred not merely with reference to natural gas, but also with reference to the manufacture of both natural gas and manufactured gas, as per terms hereinafter set forth.

SECTION 2. That the said Grantee in laying, maintaining and inspecting its pipes and mains, and installing its system for transmission, transportation, conveying and delivering gas to the various consumers of the said town shall so construct, repair and maintain said system and lay said pipe lines and mains so as to interfere with the use of the said streets and alleys of the said town as little as can reasonably be done; and when said pipe lines, mains and system have been installed, altered, repaired, or inspected said streets and highways shall be placed in as good condition as before the said highways were disturbed by laying of the said mains and pipes and installing said system, transmitting, transporting, distributing and conveying gas as hereinbefore provided and that said Grantee shall interfere with the use of said streets and alleys of said town as little as possible in constructing and maintaining systems, vent pipes thereto, gate valves, gauges, stop boxes, man-holes, low, intermediate and high pressure mains, pipes, feeders, service pipes, conduits and service pipe extension.

SECTION 3. Upon request of any person, joint stock association, partnership or corporation, owning or occupying property in said Town on which is situated a building in which said person, joint stock association, partnership or corporation contracts with grantee to use gas, the lines on whose premises shall be along the route of any low pressure main of said grantee and abutt on the street, alley, or public road so occupied by said low pressure main, the grantee shall at its own cost and expense construct a service pipe of proper size and capacity from such main to the curb line of said premises nearest to that main to furnish such person, joint stock association, partnership or corporation connection with such low pressure mains of said grantee, provided said curb line shall not exceed a distance of one hundred (100) feet from such low pressure line. Said grantee may be required in any instance to extend then existing low pressure mains a distance of not more than two hundred (200) feet to supply any person, joint stock association, partnership or corporation with gas, such extension to be at the expense of said grantee and in no instance shall it be required at its expense to extend any such main a greater distance than two hundred (200) feet for each customer, contracting to use gas aforesaid. In those cases wherein said grantee is required hereunder to extend its low pressure mains not exceeding said two hundred (200) feet aforesaid, provided that said grantee shall never be required to connect or allow any connection for any service pipe with any intermediate or high pressure mains and further providing that said grantee shall not be required to run any service pipe from any main to any curb except at right angles to such curb and main, the grantee shall never be required at its expense to lay or construct any service pipe extension beyond the curb lines of any streets or alleys. THE ENTIRE EXPENSE FOR labor and material for such service pipe of extension beyond the curb line of any street shall be borne solely by the person, joint stock association, partnership or corporation or industry or manufacturing concern or any other customer desiring same. However, the said grantee at its option and without obligation hereunder may construct said service pipe extension from the curb lines to the point desired by such consumer

with necessary connection to the meter provided such consumer shall first deposit with said grantee the reasonable estimated cost of the labor and material required in constructing such service pipe extension beyond the said curb line and out of such sum so deposited, said grantee shall first pay all cost of all labor and material used in the construction of said service pipe extension beyond the curb line, together with a reasonable sum for the over-seeing such construction and the remainder of such sum, if any, shall be by it promptly returned to such consumer depositing the same. The said grantee shall not be required to furnish gas to any person, joint stock association, partnership or corporation, industry or factory unless and until such person, joint stock association, partnership, corporation, industry or factory shall have properly piped the premises in which gas is desired as required by said Town and certificate thereof furnished to said grantee showing that the said premises have been properly equipped and properly piped and appliances have been installed therein for the reception of gas therein and thereon before the said grantee shall be required to furnish gas to such proposed customer.

SECTION 4. The said grantee shall never be required to furnish or continue to supply gas to any customer when the designated official or inspector of said Town shall have reported to it the piping, appliance, fixtures or any part thereof on such consumer's premises as being improper, unsuitable or unfit for gas to be supplied to or through the same to such customer, and in such event said grantee upon notice from such officials shall cease to supply gas to such customer without notice, until such pipe, appliance or fixture on such premises shall have been properly repaired and approved by such official inspector and certificate issued by him and furnished to the said grantee showing the proper repairs of said pipe, appliance and fixtures. The grantee shall at all times furnish gas for light, heat and power service to said Town and inhabitants thereof, and persons, joint stock association, partnership and corporations therein requesting same, in sufficient quantities to meet all reasonable demands and so far as commercially practicable without undue interruptions or fluctuations, provided, however, that said grantee shall not be liable for interruptions or fluctuations in service caused by acts of God, the public enemy, strikes, riots, bursts of mains, diminution or failure of supply of natural gas or other unavoidable contingencies which could not ordinarily have been foreseen and prevented or remedied by said grantee.

SECTION 5. Gas meters shall be read at least once a month and said grantee shall render monthly to its customers bills for gas so furnished and services rendered during the period between such meter readings. Said grantee shall have the right to discontinue service to any customer who shall fail to pay any bill for gas and services rendered within ten days after issuance of bill therefor, which shall be sufficient notice when the bill aforesaid has been placed in the United States mail, addressed to the subscriber to the place where said bill is not paid within the said ten days and said grantee disconnects its lines and discontinues its services to said customer, then said grantee shall have the right to charge for reconnection of its lines and for re-establishing its services to such consumer the sum of One (\$1.00) Dollar for such reconnection, and for each reconnection so made as herein provided, which charge for such reconnection shall be paid in advance, and said grantee shall also have the right to discontinue the services of gas to any customer who shall use gas of grantee not contracted for with said grantee.

SECTION 6. Meters shall be furnished by grantee as hereinafter provided. The said grantee shall have access to customers' premises at all reasonable hours to install, inspect, test or read a meter, and to repair, remove or replace the same or any property of said grantee situated on the customers' premises. Customers shall permit no one other than an agent, official or employee of said grantee to install, change, remove, connect or disconnect the meter or other properties of said Grantee. The Grantee shall never be required to furnish gas or services to any customer who is in default in the payment for gas or service furnished by said grantee either at the same premises or elsewhere until the arrears have been fully paid and settled for.

SECTION 7. The grantee shall furnish gas to the said Town and the inhabitants thereof, as herein provided at the rate of ONE DOLLAR (\$1.00) per thousand cubic feet, same to be paid monthly as bills are furnished as hereinabove set forth to its customers, and in case such bill is paid on or before ten days after issuance, the same shall be discounted at the rate of ten per cent (10%) per thousand cubic feet. Said bills shall be payable at the office of the grantee in Lake Arthur. Said grantee shall furnish gas to industries or factories within the said Town at such rate as may be agreed upon

from time to time by them and such customer, subject, however, to the laws of the State of New Mexico in such cases provided.

SECTION 8. Each customer shall deposit with the said grantee in advance and before it makes connections with the premises of such customer for each meter furnished to such customer the sum of \$10.00 upon which said grantee shall pay such customer interest at the rate of six per cent per annum where such deposit is left with said grantee for a period of at least six months and in addition to the charge of ONE DOLLAR (\$1.00) per thousand cubic feet as hereinabove provided, it being agreed, however, customer shall be entitled to a return of the deposit upon termination of his contract with grantee, grantee being privileged to withhold from consumer the amount of any unpaid debt of consumer to it.

SECTION 9. The minimum charge for each customer for gas and meter per month shall be Two Dollars (\$2.00).

SECTION 10. The said grantee shall have the right to excavate along, across or under any of the streets or alleys or bridges in said Town for the purpose of laying its pipes and mains and installing its system to furnish gas to said Town and the inhabitants thereof, and to lay its pipe lines, mains and install its system across, under and on such streets and alleys of said Town, provided however, grantee shall deliver to the Town of Lake Arthur, at the office of the Town Clerk a blue-print or map prior to the laying of any mains, gas lines, or the commencement of any other plan of construction contemplated within the corporate limits of the Town of Lake Arthur, showing the exact location of the said mains, lines or other structure and before the said works shall be constructed shall be approved by the proper officer designated by the town of Lake Arthur.

SECTION 11. Grantee in accepting this Franchise subject to conditions express and implied and promises express and implied agrees to begin construction of its pipe line and mains into said Town within ONE HUNDRED EIGHTY days from the passage hereof, and agrees to have its line and mains into said Town by one year after passage hereof and agrees to continue the laying of its lines, mains and laterals for the purpose of furnishing gas to said Town and the inhabitants thereof with reasonable dispatch after its lines and mains have been constructed in said Town. In event that those things enumerated in this paragraph, by the Grantee to be performed, be not done within the time limit provided for herein or if the Grantee herein fail to furnish and maintain a reasonably adequate supply of gas, or to render reasonably satisfactory service, nothing in the foregoing Franchise to the contrary, the Town of Lake Arthur may after having given written notice to the Grantee of its complaint declare forfeiture of this Franchise after six months from the day of the giving of the said notice, provided the cause of the said complaint for forfeiture shall not have been corrected.

SECTION 12. Rights and Franchises herein and hereby granted shall continue for a period of Twenty-Five years from the date of the granting hereof. By order of the Board of Trustees of the Town of Lake Arthur this 15th day of May, 1929.

(SEAL) E. C. JACKSON, Mayor.

LINDBERGH'S WEDDING WAS A SURPRISE

ENGLEWOOD, N. J.—Ambassador and Mrs. Morrow late Monday announced the marriage of their daughter, Anne to Col. Charles A. Lindbergh.

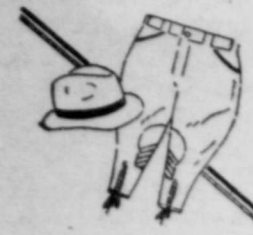

News of the wedding came as a complete surprise. No advance announcement of the date had been made, although there had been many newspaper guesses, most of which had favored mid-June.

It was all the more surprising since every large newspaper of this section and some considerable distances away have besieged the Morrow estate since the family first moved there this month and have followed them to the Maine summer camp and back. In addition many news picture agencies have kept photographers in close proximity for weeks.

Vacation Days

are on the way—wont be long now before you'll be planning on what to do and where to go.

Don't matter how you plan—clothes are necessary—and that's our Business—running a service store and carrying the practical kind of men's wearables—and whether it's a pair of boots and breeches; a big Stetson Hat and a Leather Jacket—or a fine Suit of Clothes and all the trimmings—you can find them here.

THE MODEL

ED WILLIAMS

INSIDE INFORMATION

Prune salad is made by simmering prunes until soft, removing the stones carefully and stuffing the cavity with well-seasoned cottage or cream cheese. It is served on lettuce with French or Mayonnaise dressing.

To make cinnamon buns or rolls, simply roll out your ordinary raised bread dough, cut with a large cookie cutter, brush the tops with egg, and sprinkle with cinnamon and sugar. Do not use too much cinnamon. Three parts of sugar to one of cinnamon is a good proportion.

Commercial or home-canned peaches may be spiced for those who like them. Drain 9 or 9 halves of large firm peaches. Press 5 cloves into each piece. Make a sirup of the juice drained from the peaches, which should be about 3-4 cup, an equal amount of vinegar, 3-4 cup of sugar, and spice with three blades of mace, 2 or 3 small pieces of stick cinnamon. Add 1-8 teaspoonful salt. Cook the peaches in this sirup for 15 to 20 minutes, or until the peaches have absorbed some of the sirup. Allow the fruit to stand 3 or 4 hours before serving so that the flavors will blend.

Send for Farmers' Bulletin, Canning Fruits and Vegetables at Home, before attempting to do any canning. The most recently recommended practice is to use the hot pack, and to process only fruits and tomatoes by the water bath method; all other vegetables are processed under steam pressure for safety.

Pickled cherries, flavored with spices and preserved in vinegar, make a good addition to your supply of tasty relishes. Wash and pit sour cherries, and add three-fourths of their weight or measure of sugar,

sprinkling it over the fruit in layers and letting them stand overnight. In the morning stir until the sugar is dissolved and then press the juice well from the cherries. Tie a small quantity of whole spices in a loose cheesecloth bag, and boil in the juice until the sirup is three-fourths of its original quantity. Pour while hot over the drained cherries, and add 2 tablespoons of well-flavored vinegar to each pint. Seal and allow to stand about two weeks to blend before using.

HOUSE APPROVES THE OIL MEN WILL FORM A STATE OIL POLICY AT ROSWELL JUNE 3 AND 4

WASHINGTON, D. C.—In an atmosphere electrified with charges of "trading" partisan arguments, and resurrected campaign arguments, the house Monday approved another score of committee amendments to the tariff bill and paved the way for a final vote late Tuesday.

The session, lasting more than six hours, was the stormiest of any since the republican-framed measure was taken up three weeks ago, and out of it emerged an amendment, approved by 196 to 90, placing a duty of 10 per cent on hides, rates ranging from 12 1/2 to 30 per cent on leather and a levy of 20 per cent on boots and shoes.

All these commodities have been on the free list for years and first were retained in that category in the present bill. Urgent demands for duties, however, led to reconsideration and the committee conceded to members from the cattle raising and New York and New England shoe manufacturing states.

An attempt by Representative Hudspeth, Democrat, Texas, to make the hide duty 20 per cent was rejected by vote of 190 to 58.

Of other amendments approved the ways and means committee was victorious in every instance.

The most important amendments adopted besides the hide, leather and shoe proposals would provide an increase in the duty on flaxseed from 56 to 63 cents a bushel; a rate of \$10 a ton on broom corn, rice straw and fiber, now on the free list; an increase of 40 cents a pound in the rates of \$2.10 on unstemmed and \$2.75 on stemmed wrapper tobacco, and a boost of one-quarter of a cent in the bill rate of 1 3-4 cents a pound on onions.

The house Tuesday passed the tariff bill and sent it to the senate.

The vote was 254 to 157.

Providing increases in import levies on hundreds of agricultural and manufactured commodities are for a re-organization of the tariff commission, the bill will be referred to the senate finance committee, which plans to hold extensive hearings before reporting it to the senate.

With leaders talking of an all summer recess, it appears doubtful whether the bill will be taken up in the senate for several months.

THRIFT PRACTICE BEST RULE TO BE FOLLOWED

By S. W. Straus, President of American Society for Thrift.

This season of the year marks a new epoch in the lives of a large portion of our population. It is the time when thousands of our young people are leaving institutions of learning and going into the world of practical affairs. It is in keeping with the spirit of the day, therefore, that thought be given to some of the problems that will confront these young people as they move forward in the journey of life.

If it were possible to lay down a general rule for the benefit of everyone such a rule would be along the lines of encouraging thrift practice. We all have different ambitions and points of view. The philosophy of life with each of us necessarily varies somewhat. It is these differences in sentiment and thought that underlie the great drama of life. But we all may be sure that there is no one whose interests cannot be served through thrift.

No matter what may be our environment we can hope for no progress in life if we are wasteful of our time, energies, health and material possessions. Thrift habits are a safeguard against practices that lead only to failure.

We may differ on questions of ethics and morality but all will agree that idleness, lack of ambition and dissipation cannot go with thrift. Those who are thrifty will always be found in the march of progress. Some will be more successful than others—the factors of circumstance and ability will tell—but where there is thrift there always will be progress. Where there is lack of thrift there always will be retrogression either present or potential.

Those who are at this time leaving our schools and colleges no doubt find themselves the recipients of ample counsel but no matter what be said to them along these lines nothing will prove of more lasting practical value than the admonition to bear in mind at all times that success, prosperity and happiness are the rewards only of those who practice thrift.

The lawyer had returned home after an important case in which he had been defending a man charged with murder.

"He was acquitted," beamed the lawyer.

"Wonderful! On what grounds?" "Insanity. I proved that his father had spent five years in a lunatic asylum."

"But he hadn't had he?"

"Yes," said the barrister; "he was a doctor there, but I saw no need to bring that fact out."

"It's the little things in life that tell," said Alibi Sue as she yanked her kid brother from under the sofa.

A state policy to be presented to the oil conservation conference called by President Hoover for Colorado Springs on June 10 will be formulated at Roswell on June 3 and 4 in a conference with oil operators and business men of eastern New Mexico, according to an announcement made by Governor R. C. Dillon at Roswell recently.

An executive committee, which is to officially represent the governor and the state of New Mexico at the Colorado Springs conference has been appointed by Governor Dillon and will call a meeting of the committee in Roswell on June 3-4 to work out the state program.

C. G. Staley, state geologist, and Hugh B. Woodward, lieutenant governor of New Mexico will be two members of this committee, the governor announced Saturday. Governor Dillon has also appointed another committee which he believes represents the varied interests of the state in order that these interests may have an opportunity to present their views at the conference.

Business interests of Eastern New Mexico and independent operators have taken the position that the future welfare of the state demands that New Mexico vigorously oppose any plan which would have as its object the curtailment of drilling operations in this section of the state, at least until such time as the production in eastern New Mexico had reached the point where it would be inconsistent with a sane conservation policy.

Governor Dillon announced recently that any decision reached by the state executive committee at the Colorado Springs conference would be subject to the ultimate ratification of B. F. Pankey, state land commissioner and the governor, himself.

A conference of New Mexico representatives who have been appointed by Governor Dillon to attend the Hoover oil conservation meeting, will be held probably in Santa Fe, Charles B. Barker, attorney for the land office said Tuesday to determine New Mexico's attitude before the main conference meets at Colorado Springs on June 10.

Governor Dillon wired Secretary of the Interior Ray Lyman Wilbur that he would name five persons to act as New Mexico's executive committee.

He announced the following additional names to the New Mexico delegation: Robert Henderson, Chester Dexter, Van S. Welch, M. E. Baish, all of Artesia; B. C. Mossman, Mrs. Grace Phillips, both of Roswell; C. M. Hall, Carlsbad; J. C. Larkin, Raton; L. C. Hanlon, Willard; William Snyder, Lovington; Sidney Weil, L. A. McRae, W. A. Keleher, J. R. McCollum, Albuquerque; T. N. Espe, Santa Fe; C. L. Green, Farmington.

Governor R. C. Dillon Friday appointed 31 delegates to represent New Mexico at the oil conservation conference which has been called by President Hoover to meet at Colorado Springs on June 10th.

The list includes only two state officials, Lieutenant Governor Hugh B. Woodward and State Geologist C. G. Staley, and otherwise is composed of persons directly interested in oil development.

The delegates were: H. J. Hagerman, Santa Fe; F. S. Donnell, Santa Fe; E. M. Elliot, Santa Fe; O. A. Larrizola Jr., Santa Fe; H. B. Armistage, Carlsbad; W. C. Kneale, Carlsbad; C. G. Scott, Carlsbad; H. D. Bedford, Roswell; Herman R. Crie, Roswell; F. B. Smith, Roswell; E. A. Hanson, Roswell; F. S. Prout, Roswell; R. E. Deford, Roswell; Jack Cusack, Roswell; Harry Leonard, Roswell; Burton C. Heady, Roswell; A. G. Swanson, Roswell; Hal Cave, Roswell; Keith Krouse, Roswell; S. M. Willis, S. P. Hannigan, Roswell; A. C. Brown, Artesia; Martin Yates, Artesia; William Dooley, Artesia; John Nickolas, Shiprock; James M. Hervey, Albuquerque; Mrs. Blanche Trigg, Ft. Sumner; Will Springer, Las Vegas.

STEINS' CURRENT EVENTS

(By Ben, in Lordsburg Liberal)

Maybe one reason of the lax enforcement of the laws is that they are trying to work pre-Ford ideas in the post-jazz age.

Grandma's nightgown must appear to have been an awful waste to the modern flapper.

The revolution in Mexico was even longer than a democratic convention in the U. S. A., otherwise about the same results.

With floods in the middle states, cyclones in others, snow storms in the summer all that remains to make things normal is for California to pull an earthquake or two.

Who said the west was wild and woolly. Court a week in Lordsburg and did not hang a one.

The star's composing room has what is described to us as a new soundproof proofroom, but is has been more euphoniously introduced by the sport desk as "the house of correction."—Kansas City Star.

COTTONWOOD ITEMS

(Miss Alma Bradley, Reporter)

Mrs. Wilma Dillard of Carlsbad visited at the J. I. Funk home Tuesday afternoon.

W. A. Watson and daughters Misses Mable, Grace and Pauline motored to Roswell Monday.

Miss Anna Lee Turner of Lake Arthur visited at the home of Miss Grace Watson Monday afternoon.

Mrs. A. V. Whitlock (nee Miss Frances Nelson) of Carlsbad visited at the home of her father and brother, Gus and Ed Nelson last week.

Quite a number of people attended Sunday school at Lower Cottonwood Sunday. Mr. Johnson was elected superintendent of the school. Everyone is invited to attend Sunday school next Sunday.

The girls' club known as the "Happy Hour Club" which was organized last summer will continue its work this summer with the help of Miss Velma Borschell. The club will meet at the W. L. Bradley home Friday afternoon.

The Upper Cottonwood baseball team met the Lower Cottonwood team at Lower Cottonwood Sunday. The Upper Cottonwood boys won with a score of 30-6. This ball game not being enough for the day, another game was played. Upper Cottonwood winning again with a score 16-9.

Ed Watson of Santa Fe, who was visiting at the home of his brother W. A. Watson, motored to Roswell where he and Miss Nola Brantley of Mayhill, were quietly married. They were accompanied by W. A. Watson, Mr. and Mrs. Ellise Brantley of Mayhill. Afterward they motored to the home of the bride at Mayhill.

The Cottonwood Woman's club met at the home of Mrs. Victor Parker last week, quite a number of the members and a few visitors were present. As this ended the year's work, a picnic was given and lunch served on the lawn in honor of Miss Velma Borschell county demonstration agent, who has met with the club throughout the year giving them cooking demonstrations. The club will begin their summer's work with the help of Miss Borschell.

Dr. and Mrs. I. B. McCormick attended the Lovington celebration Sunday.
