HELEN LATHROP DIES OF DIPHTHERIA AT HER HOME SATURDAY

Helen Grace Lathrop, thirteen year old daughter of Mr. and Mrs. George Lathrop, died suddenly Saturday night at 8:45 o'clock of diphtheria. Helen had just been ill a few days, and her sudden passing was a terrific shock to her family and the community. This little maiden had won her way into the hearts of all she had met. In the sixth grade at school, she was apt in her studies, and congenial with classmates. It will be remembered that Helen had acted as reporter for the 4-H club to The Messenger for the current school term.

Helen was born at Weston, Ohio March 23, 1918. She had lived here, with her parents for the last eight years. Her death occurred at the family home on the north edge of town.

Funeral services were conducted privately at the Hagerman cemetery. The Methodist church choir sang beautifully at the grave. Rev. Bryan Hall had charge of the services.

GAME PLANTINGS

During the fiscal year ending June 30, 1931, the New Mexico game and fish department planted 161 Bob White quail; 192 Gambel quail; 232 Scaled quail; 32 Hungarian partridge; 623 pheasants and 52 wild turkey.

MASSEY'S GROCERY IN ROSWELL ADVERTISES

Massey's Grocery in Roswell, is running advertisements in The Messenger each week, giving the prices on various articles in the grocery line.

Mr. Massey is well known in this territory as an old time fiddler. He was the winner of a subscription to The Messenger last summer in an old fiddler's contest held at Dexter.

It will pay local people to read the advertisements of Massey's Grocery, and to visit their store when in Roswell.

BARBECUE A SUCCESS

The American Legion boys again sold out on their special supper Saturday night. This time it was a beef barbecue. The boys had some circulars printed by The Messenger, and the barbecue went so fast, the supper only lasted an hour.

Oh, no. It doesn't pay to advertise.

NO COURT FUNDS

Eddy county district court will open in Carlsbad Monday to try the case of the state versus Gifford Welch, charged with first degree murder, but there is no money available to try the criminal cases. Judge Richards came down from his home in Roswell Tuesday to qualify the jury and place the court in recess until next Monday. Judge Miguel A. Otero who will preside for Judge Richardson found it necessary to defer the Welch case a week.

EDWARD FOLKS OF TUCUMCARI IS KILLED IN A CAR ACCIDENT

Edward Folks of Tucumcari who was a member of the federal petit jury, was killed about seven o'clock Saturday evening when the car in which he was riding crashed head on with a truck being driven by R. B. Slease, who was driving toward his home in Carlsbad.

The accident occurred when Folks swung his car around to avoid crashing into the rear of a truck belonging to E. C. George, of Hope, which was parked on the side of the road, to collide head on with the Slease truck. The accident was six miles south of Hagerman.

The bed of the truck crashed into the chest of Folks, crushing and cutting his body. Two passengers in the auto with Folks, Delfino Romero of Cimarron and Lorenzo Lopez, of Mora, were not seriously injured.

Mr. Folks was rushed to the office of Dr. C. A. Wright, of Hagerman, but died five minutes after reaching there.

A coroner's jury composed of N. S. West, Sam McKinstry, E. Langenegger, W. E. Jacobson, H. L. McKinstry and T. S. Lawing returned a verdict that "Ed Folks came to his death by an unavoidable accident by colliding with a truck driven by R. B. Slease, six miles south of Hagerman about seven o'clock Saturday night."

A New Co. To Develop Ramage Oil Properties

Oil Leases Transferred To Arba Green—Western Drilling Co. Moving In To Drill A Well For Gas.

Recently oil leases and oil properties of the late A. R. Ramage, located in Eddy county, just north of the Artesia field were assigned to Arba Green, with the property to be developed by the Western Drilling Company, who are moving on a location for a gas well. At present the company is moving in for a gas well in the NW corner sec. 29-17-29. The test will be known as the Green No. 1.

Oil royalties from wells operating on state lands in southeastern New Mexico for the month of September totaled \$19,650.69. State Land Commissioner J. F. Hinkle said Tuesday.

The total amount was collected from the following fields: Artesia, \$270.82; Lea City, \$2,154.51; Eunice, \$164.49; Hobbs, \$9,029.47; and royalties from lands in litigation in the Hobbs area, \$8,631.80.

The royalties will be distributed as follows to the following state institutions and funds: common schools \$2,371.12; deaf and dumb school, \$3,279.41; blind school, \$3,279.41; state penitentiary, \$2,470.65; and the oil and gas suspense fund, \$8,031.40.

A show of oil and gas was developed in the Conrad and Colburn, State No. 1, sec. 22-18-34, Lea county at 4,750 feet, according to reports this morning.

In the Hobbs field, the Continental Oil Co., State No. 4-A, 1920 feet from the south line and 130 feet from the east line sec. 37-18-38, is drilling below 1710 feet. The Gypsy Oil Co., Grimes No. 1, sec. 33-18-35, is cementing 9 5/8 casing at 3742 feet. The status on the two offset wells is the same as last week.

The Pacific Oil Co., limited, State No. 1, 1980 feet from the north line and 660 feet from the west line sec. 28-19-38, Lea county's new well is moving materials to the location.

Of the festive autumn wafted thru the house.

In the absence of Mrs. Hughes, the devotionals were led by Mrs. Hugo Jacobson, and during the social hour which followed the business session, cake and lemonade were served to a very large membership and a number of guests.

ALUMINUM DINNER

Mr. and Mrs. E. S. Bowen entertained with an "aluminum dinner" bridge on Wednesday evening of last week.

After the delicious dinner those who bridged were: Messrs. and Mmes. W. A. Losey, Kenneth Servatius, A. L. Nail, Dub Andrus, H. L. McKinstry, Robert Conner, Cliff Hearn, J. V. Brown. Mrs. Brown and K. C. Servatius were high score winners.

FAMILY DINNER

Mrs. Tom McKinstry entertained with a family dinner on Thursday evening, October first, complimentary to Col. Tom's birthday on that day, and James McKinstry's birthday on the following day. Seated around the festive board were: Messrs. and Mmes. Tom McKinstry, Lloyd Harshey, Edmund McKinstry, Lloyd Edgar and Richard Harshey and J. E. McKinstry.

3 SULPHUR WELLS CONTINUE DRILLING COTTONWOOD AREA

Three sulphur tests located in the Upper Cottonwood area continue drilling, while encouraging reports come from the most southwestern test, the Harlan No. 1, on the Wilson farm, sec. 7-16-25, which is understood to have developed a sulphur stratum between 900 and 1000 feet. The Watson No. 1 of the Western Drilling Co., sec. 8-16-25, is believed to be nearing the contract depth unless a decision is made to make a deep test.

The fact that Union Sulphur Co., has secured additional leases in the Cottonwood area is taken as evidence that the company considers the area promising for the development of a commercial sulphur mine.

THESE HIGHWAY ACCIDENTS

Another man was killed Saturday night in a local highway accident. His car crashed into a truck parked at the side of the road, reported to be without lights.

This accident and death was just one of many caused by practically the same thing. A car or truck parked without lights is a menace which must be removed. The person guilty of causing another's death by such neglect should be taught a permanent lesson.

Drive along the highway some night and count the number of automobiles with no tail lights. The car with adequate lights is an exception.

It is really less dangerous to operate a vehicle with no headlights than it is with an absent rear light. In the first instance, if you are on the right side of the road, the chances are that a car meeting you will also be on the right, and will pass you without a collision, whereas, if your car is minus a rear light, the next fellow may smack you into King-dome Come.

Of course, sooner or later, a driver will learn his lesson, but it may be by the death or permanent injury of one he loves, or by a searing conscience caused by the knowledge that he is responsible for the death of another.

SAUERKRAUT SHOULD HAVE A PLACE IN LOW COST DIET

With the approach of the season for making sauerkraut, the bureau of home economics of the U. S. Department of Agriculture calls attention to its place in the low cost diet. The manufactured product ranges in price from 5 to 10 cents a quart, depending on whether it is purchased in bulk or in cans. The homemade product costs even less. Since one quart of sauerkraut is sufficient to serve five persons, it is a very inexpensive vegetable.

Sauerkraut is wholesome and appetizing. It is valuable, primarily, as an additional leafy vegetable product for winter when the diet of most persons consists too largely of concentrated forms of food. Because of chemical changes which take place in the process of fermentation, the flavor is decidedly different from raw cabbage. In fact, many persons find sauerkraut the more palatable of the two for this reason. Sauerkraut has little nutritive value as measured in calories but it supplies several of the essential minerals necessary for human nutrition.

Sauerkraut does not furnish as much of vitamins A, B and C as raw cabbage, but it is a fair source of all three of these elements which are essential for resistance to bacterial infection and for maintenance of appetite and growth.

Sauerkraut suggests pig knuckles, spare ribs and frankfurters, but there are other uses for this appetizing food. Combined with cheese and left over mashed potatoes makes a satisfying and low-cost dish that is easily and quickly prepared. Savory sauerkraut is made by heating a quarter of a cupful of fat in a skillet and then adding a quart of sauerkraut and one-fourth of a teaspoon of celery or caraway seed. This is mixed well and covered while being cooked for five minutes. Sauerkraut can be cooked in casserole with alternate layers of noodles and a top layer of ground sausage. It may also be fried or combined with bacon, ham, or any cured meat. When potatoes are to be combined with sauerkraut, it is better to precook them separately since the acid of the kraut is likely to make the potatoes a trifle hard.

SWOPE SUED

ALBUQUERQUE—Warden Ed Swope of the New Mexico penitentiary was sued for \$50,000 breach of promise in district court by Mrs. Lora McKenzie, of Oklahoma City.

She alleges she became engaged to Mr. Swope in Oklahoma City in August this year, and did not know that he was married until she came to Santa Fe in September to marry him.

Mrs. McKenzie from Santa Fe went to Albuquerque a short time ago where she represented herself to be "Mary Eaton, New York actress." She was arrested for vagrancy, served part of a fifteen day sentence in the Albuquerque jail, was released, then arrested on a charge of being drunk and disorderly. She was fined \$15 on the latter charge from which she appealed. At present she is at liberty under \$30 bail.

Irate Father (discovering his daughter on young man's lap)—"Myra! What does this mean?" Daughter—"Come back in about 15 minutes, dad. I ought to know by then."

35,883 MILES ROAD SURFACED IN 1930

A total of 35,883 miles of county and township roads were surfaced during 1930 according to the bureau of public roads of the U. S. department of agriculture. At the end of the year the total mileage of county and local roads surfaced was 467,338.

The total surfaced mileage is composed of the following types: Sandclay, 71,907 miles; surface treated and plain gravel, 310,308; surface treated and plain water-bound macadam, 43,527; bituminous penetration macadam, 19,059; bituminous concrete and sheet asphalt, 6,019; Portland cement concrete, 14,656; and brick and other block types, 1,862.

Counties and other local authorities outside of cities expended a total of approximately \$700,000,000 for road purposes divided as follows: construction \$297,000,000, maintenance \$284,000,000, miscellaneous \$37,000,000 and interest on bonds \$82,000,000. The total authorities also expended \$113,000,000 for bond retirements and transferred \$39,000,000 to the states for state road work.

Comparison of these figures with similar figures for 1929 shows that there was an increase of 6,000 miles in the rate of surfacing roads, and that local road expenditures increased by \$55,000,000.

WATERFOWL STEP-CHILD WOULDN'T KNOW ITSELF

WASHINGTON, D. C. — The coot, step-child of the waterfowl family—barred from the company of nobler birds because of its awkwardness in dodging hunters' bullets, scoffed off the dinner table because of its flavor, and even robbed of its name in favor of the humiliating appendage, "mudhen,"—now has apparently lived to see the day when it may lose its identity entirely, to judge from a bulletin item of the American Game Association. In order that hunters who fail to get a chance at mallards, pintails, canvasbacks or red heads this season because of their prophesied scarcity, may find a fair substitute in the plentiful coot, the association is suggesting a sure-fire recipe for camouflaging the neglected bird. The coot is claimed to be really wholesome eating, and a savory if somewhat confusing morsel when prepared as follows: Skin and clean several birds. Soak overnight in salt water. Chip and fry half a dozen slices of bacon and two onions, then add the birds and pot roast until brown. A little water, a dash of spices, a small bottle of grape juice, all simmered with the game and afterward thickened

PLATT GIVES UP

ST. LOUIS, Missouri—A young man wearing soiled and ragged clothing, who surrendered to police Sunday night described himself as Charles Platt, 22, told Chief of Detectives Robert Kaiser Monday he had embezzled between \$1,000 and \$5,000 from the New Mexico State Engineering Department.

Platt said he entered the employ of the engineering department four years ago as a stenographer and bookkeeper at a salary of \$125 a month, advancing to the position of chief clerk at \$175 a month before he quit last May 15.

About two and a half years ago he related, he began taking small sums, \$1 or \$2, then gradually got to taking \$10 and more, up to \$50 at a time.

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning 'Rarin' to Go

If you feel sour and snaky and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul. Skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

Bank Service Is An Asset Of Every Business

Look into a bank after closing hours. It is only a simple arrangement of fixtures and desks, books and machines, a vault and safe and a certain amount of cash and negotiable papers. Even if all the money within the vault and safe were taken out and distributed equally among all the people of the community, it would make hardly a perceptible difference. Yet scarcely a personal or business financial, exchange or purchase transaction, made at any hour of the day or night, does not affect or is not affected by the bank. Just as a one dollar bill, passed on one hundred times does the work of a one hundred dollar bill, the bank multiplies capital into service for all the community. Bank service provides a clearing of all business transactions of its community, connecting all businesses of its community with all the communities of the world. It is not unlike a telephone exchange, with its service department largely, not upon its equipment, but upon its personnel as operators.

W. MORROW SUDDENLY AT NEW JERSEY HOME

LEWOOD, N. J.—Sen. D. Morrow of New Jersey died here at noon Monday of cerebral hemorrhage. The death was announced by a notice issued by the state following a state of several hours.

Death of Senator Morrow is given wide attention, both because of his large personal following and the fact that he was mentioned as a possible candidate for president in the recent election of the United States Senator from New Jersey on a "wet" republican platform.

He was high as a diplomat, and his long and successful career as minister to Mexico, and his reputation as such being desired by him altho strongly pressed upon him.

He was the father-in-law of Charles Lindbergh, now in the air, and his communication with Lindbergh had not been broken since Monday, though every effort was made to place the disposal of the telegraphers, the cables and governmental agencies being engaged for the purpose.

Mrs. and Mrs. K. A. Bivens enjoyed a group of young people Saturday night with a party in honor of their guests, Mrs. Petty and daughter, of Mississippi, Mr. Griffith of Dallas, Texas. The first part of the evening was spent in singing and later games were played until a late hour.

The Pecos Valley B. Y. P. U. association held their quarterly meeting at Lake Arthur Sunday afternoon at 2:30. A program was given after which banners were awarded. Roswell received efficiency banner and the Lake Arthur received association banner. The meeting closed at 4:00 o'clock. The meeting will be held at Lake Arthur on January 2nd, 1932.

The Lake Arthur foot ball team was downed by Artesia's second team to the score of 7-0. Both teams played excellent ball. Joe Ballard made the lone touch-down for Artesia while Beasley, and Williams starred on offense for Lake Arthur. The play of Lake Arthur was good, Artesia could only gain around the ends. The Lake Arthur boys will play Lovell at Lake Arthur tomorrow.

The Lake Arthur Extension met at the home of Mrs. Sims, September 29th, with ladies present. The officers for the coming year were installed with a very beautiful ceremony. The room was decorated with the club colors, green and white and lighted with green and white tapers. Mrs. Moots acted as installing officer and inducted the following: Mrs. Clyde Nihart, president; Mrs. J. B. Crook, vice-president and Mrs. Clyde Latta, secretary. After about a half hour of the county demonstration, Miss Borchschell displayed many Christmas suggestions. Mrs. Mary Nihart and Gertrude also gave their "break" demonstration which will be given at Las Cruces next week.

CASH FOR YOUR GRAIN

During the last few weeks anyone who has had occasion to sell any of their grain that they have grown this year, or anyone who has been in the market to buy grain knows that all grains are very very cheap. Cheap grains are being talked at every cross-roads store, at every post office and on every street corner, but few have offered a workable solution to the farmer whose bins are filled to overflowing with this cheap grain. The other day the writer had the privilege of talking to a man that is really doing some thinking on this problem. He was making arrangements to buy 200 hogs—a buyers market and still is—a buyers market and he should have bought them worth the money. His idea in buying hogs was to enable him to sell his grain thru hogs, of course.

Let's figure for a moment and see what your grains are worth when you sell them on the hoof. There are several ways of selling this grain on the hoof. You can feed the straight grain to your hogs or you can add a balanced protein and mineral supplement to these grains. When we study feed lot facts on feeding hogs we discover, and this borne out by our agricultural experiment station and our State College, that it takes at least 600 pounds of grain alone to put one hundred pounds of grain on a hog. This means, therefore, that in feeding grain alone to your hogs it will take 600 pounds of grain to make 100 pounds of pork worth \$6.00; or that you are selling your grain in this case at the rate of \$1.00 per hundred pounds.

But to the immense amount of experimental work that has been done on hog feeding we find few if any practical feeds to-day that would attempt to grow or fatten a hog on a straight grain ration. Most feeders to-day buy a balanced protein and mineral supplement to add to their grain ration. This supplement is intended to furnish the necessary protein, minerals and vitamins that are lacking in all straight grain rations.

Sell Grain At \$1.62 cwt.

The smart hog man will take advantage of the immense amount of animal nutrition research work that has been done on hog feeding and follow the proven feeding plans which will enable him to sell his cheap grains on the hoof at \$1.62 per cwt. Hogs need a balanced ration as much as the poultry flock or the dairy herd and will not bring you the maximum amount of profit that they are capable of bringing unless they do get a balanced ration.

CHEAPER TO LEASE STATE LAND THAN TO BUY IT SAYS HINKLE

SANTA FE—Ranchers cannot own New Mexico grazing land for less than 21 cents an acre a year and cannot use state land during the period of purchase for less than 17 cents an acre a year, whereas they can lease it from the state for from three to five cents an acre per year, State Land Commissioner J. F. Hinkle said Monday.

Mr. Hinkle's statement was in further refutation of charges by Ward Shepard in Harper's that the federal government is about to be the victim of a "land steal" by the states who want ceded to them the remainder of the public domain, totaling nearly 17,000,000 acres in New Mexico.

"All range land east of range 19 east must sell for at least \$5 an acre and all land west of range 19 east for \$3," Mr. Hinkle said.

"By the time stockmen buy this land and pay is out they lose the interest on their investment and are forced to pay taxes on the land purchased, which will run them at least 21 cents an acre a year."

THE "HIDDEN QUART"

That Stays up in the Motor and Never Drains Away

— is Worth its Weight in Gold to Any Motorist!

It's not the mileage your speedometer shows that makes your car wear out quickly, lose power and need costly repairs. It's motor wear, caused by friction, that does it! And almost half of all this motor wear occurs while you're starting. Cut down starting wear and you'll give your motor longer life.

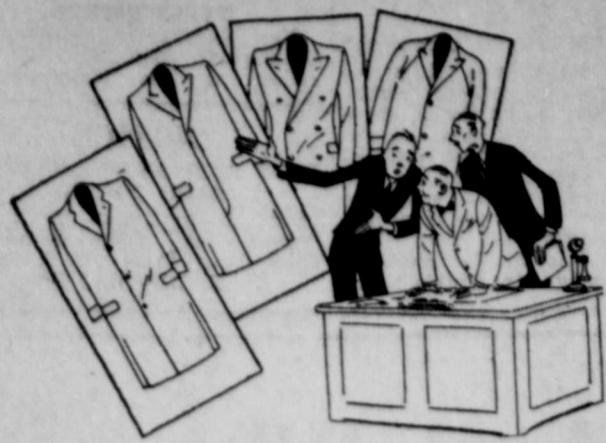

That's just what the "hidden quart" of Conoco Germ Processed Motor Oil does! It stays up in your motor and never drains away and thus cuts down starting wear! Ordinary oils drain away, leaving working parts unprotected until oil is pumped from the crankcase through the motor, which takes several minutes. Conoco Germ Processed Motor Oil penetrates and combines with metal surfaces of working parts, stays there and never drains away. The "hidden quart" safely lubricates every cylinder, piston and bearing the instant you touch the starter.

The "hidden quart" is worth its weight in gold to you! From the first fill with Conoco Germ Processed Motor Oil, you'll have this "hidden quart" up in your motor, giving safe lubrication at all times, lengthening your motor's life. Drain your crankcase now... fill with Germ Processed Oil at any station displaying the Conoco Red Triangle.

DRY ICE PROMISING NEW INDUSTRY FOR TORRANCE COUNTY

Plans are being made by Estancia Valley Carbon Dioxide Development Co., to proceed with development of their property located near Estancia in Torrance county. While drilling for oil several months ago, a carbon dioxide flow was encountered at 1,240 feet, which will flow 140,000 feet of pure carbon dioxide gas with a pressure of 432 pounds per square inch. On May 21st this well was capped and will be held in reserve until additional wells are drilled. The well has opened up possibilities of a new industry, dry ice and a new company known as the Witt Ice and Gas Co., has been formed to handle the products of the company as soon as developments warrant. A pound of dry ice it is said equals fifteen pounds of ordinary ice and will melt slowly making it an ideal refrigeration for long hauls on trains. A second well drilling on the property is down below 400 feet.
