Parity Prices: ONE of the administration's chief policies for agriculture has been abandoned, Secretary Wallace announced in Washington.

Nanking and Canton Bombed: PAYING no attention to the protests of the United States, Great Britain, France and Germany, Japan sent her air fleets on bombing raids that spread death and ruin in Nanking and Canton.

Madam Perkins Snubbed: FOR the first time in the history of the Labor department, the secretary is not asked to address the annual convention of the American Federation of Labor.

Legion Head Hits Naziism: FOUR hundred thousand members of the American Legion and their families and friends gathered in New York for the annual convention of the organization.

Roosevelt Goes West: NOMINALLY to visit his daughter in Seattle, actually to find out what recent events have done to his popularity among the people of the Middle and Far West.

Plan to Fight "Polio": JUST before leaving for the Pacific coast, the President announced that he was organizing a new foundation to direct the war against poliomyelitis or infantile paralysis.

Bill's Legs Were Pinned Between Two Beams. gate with outstretched arms and blood dripping from a cut over one eye stood Private McClellan, a rather irresponsible soldier, who, often as not, was in the guard house.

Indians Played Hoops: The game of hoops—with variations—was not looked on as a girl's or "sissy's" game by the Great Plains Indians, according to Dr. James R. Walker, student of the Indians' games.

Russian Soldiers Tricked: In the first part of the World war there were high officials in Russia actually in the pay of the enemy, who arranged to assemble the Russian war material so that the shells supplied with the guns should not fit the Russian guns.

The Camera Goes to College

PICTURE PARADE

VACATION days are over. Peggy Co-Ed and her thousands of counterparts the nation over have started back to the whirl of studies, sports and dates that characterizes co-education in scores of American colleges and universities.

Somewhat apprehensive Peggy Co-Ed stepped off the train at Baton Rouge, wondering what college days held in store for her.

Like the average freshe, Peggy had to go through certain entrance formalities to make sure she was equipped to become one of the 7,300 students.

The day's studies over, Peggy and dormitory mates primp for dates.

And at night we find her twirling about the gymnasium floor in the arms of her linen-suited date, at a student "hop." This is the life!

Kissing the newest cornerstone upon arrival is an LSU tradition.

HEADLINES FROM THE LIVES OF PEOPLE LIKE YOURSELF!

"Death Was Confused"

By FLOYD GIBBONS Famous Headline Hunter

HELLO, EVERYBODY: As a rule, it doesn't pay to look too much like someone else. You know how embarrassing it is to have some dizzy dame rush up to you gushing, "Why Tom Waters, where on earth have you been? I haven't seen you for ages; how's your dear mother?" etc.

Your name has always been Henry Jones and you don't know the gal from Adam's off ox, but you stand there like an oaf wondering how you can correct the mistake without hurting her feelings.

Some have been pointed out as robbers and murderers, served terms in prisons and even paid with their lives for looking like someone else. It never happens that someone walks up to you and says, "Well, if it ain't old Joe Doakes himself. Here's that five hundred bucks you loaned me twelve years ago."

But, luckier, very much luckier, things than that have come to a very few men because they were thought to be other persons. One of them is William H. D. Bence, of Laurelton, L. I., who sent me today's adventure.

In 1917 Bill was where most Canadians were—in the Canadian army, and on December 6 of that year he was at Wellington barracks, Halifax, Nova Scotia. At 9 o'clock in the morning on that awful day in Halifax Bill was standing in inspection in the barracks yard.

The officer, swearing a blue streak, got to his feet. Bill sat up and saw that every man in the battalion on parade had been blown flat like a pack of cards, instruments of the band were scattered and the bass drum was bowling across the yard like a thing possessed.

The air became thick and yellow as a London fog and carrying through it was the rumble of falling masonry. Through the murk the soldiers could see the solidly-built barracks buildings melting away as they settled inwards.

Panic in the Wrecked Barracks. With the cry, "The magazine is going up—run for your lives!" there was a mad rush for the main gate. But above the shouts of the men and the roar of falling masonry came the screams of women and children trapped in the crumbled, married men's barracks. And standing at the

Bill's Legs Were Pinned Between Two Beams.

When he came to, Bill was on his back, his legs pinned between two beams on which was heaped a ton of bricks. Struggle how he would, Bill could not free his legs. Then, as he lay and looked up, he got the shock of his life.

There, directly over his head, hung half the slate roof that was held only by a thin lath that had become wedged at a key point, but was SLOWLY BUCKLING. The mass was already stirring and dust trickled onto his upturned face.

Bill raised up and began tearing like a madman at the top beam that held him prisoner, shouting himself hoarse for help. Soon exhausted, the dust-covered man lay back, waiting for the end.

Perhaps he fainted. Anyway, Bill says, it was as in a dream he heard a woman's voice: "Praise be to the saints, he's here! See the stripes and crown on his sleeve. Here, Katie, get hold of this beam and pull—'tis the only thing holding him down."

A tall, strong woman and a husky girl in her teens heaved and pulled until they had that top beam to one side. Then their strong fingers clutched the collar of Bill's coat and pulled him outside. And only in the nick of time, for, with a great roar and a blinding cloud of dust, the roof came down.

They Thought He Was Their Dinny. Bill was unable to stand. The two women supported him, all three coughing from the choking dust, and mother and daughter took turns in kissing him frantically. And then, heaven preserve us, mother and daughter realized the man they had saved from certain death was not their Dinny.

"Who were you looking for?" Bill gasped. The woman screamed at the sound of his voice, the more practical daughter wiped the thick coating of dust from his face. "Company Sergeant-Major O'Hara," she answered. "He was off duty this morning—wasn't he in there?"

Bill only shook his head. He did not have the courage to tell them of those two boots and the feebly moving hand. For, whatever life that was then in the buried Company Sergeant-Major O'Hara had been crushed out by the falling roof. Bill had been pinned down in O'Hara's room. And the crown and stripes were worn by both a company sergeant-major (O'Hara) and a company quartermaster-sergeant (Bill).

Bill was not long in learning what had knocked over the battalion parade like so many toy soldiers. A ship loaded with high explosives had been in a collision in the harbor and had been blown to bits, causing a tidal wave and started fires that destroyed one-third of the city of 80,000 persons. There were 1,226 dead and 400 more were missing. There were, of course, thousands and thousands injured, and Bill was immediately assigned to Dartmouth hospital for duty. Things he saw there are better left untold.

Doilies Offer Thrifty Way to Set Table

A perfectly appointed table is the dream of every woman's heart. With the simplest of crochet you can make this dream come true. This set of doilies, in four sizes, does the trick. There are a 6, 12 and 17-inch size suitable for luncheon and buffet sets

Pattern 1462

as well as doilies while the largest, a 22-inch doily, is just the thing for in-between cloth on many a table. Use string or mercerized cotton—they'll stand long usage and be decorative too. Pattern 1462 contains directions for making the doilies shown; illustrations of them and of all stitches used; material requirements.

Send 15 cents in stamps or coins (coins preferred) for this pattern to The Sewing Circle Needlecraft Department, 82 Eighth Avenue, New York, N. Y.

OF INTEREST TO THE HOUSEWIFE

Crab Apple Jelly. — Take one pint of water to every pound of apples, and boil until soft. Then put through jelly-bag. Allow one pound of sugar and a tablespoonful of vinegar to every pint of liquid, and boil for half an hour or until it jellies.

When Peeling Small Onions. — Cover small onions with hot water and let stand for a minute or two and the skins are easily removed.

Cleaning Enamelled Sinks. — Those stubborn dark streaks which accumulate on enamelled sinks and bathtubs can be removed with kerosene.

Dry Soiled Clothes. — When clothes are sent to the laundry they are usually paid for by weight. Money can be saved if the housewife makes certain articles are dry before they are sent out.

When Washing Soft Polishing Dusters. — Rinse them in slightly soapy water instead of clear water. This makes the dusters much softer and they polish better.

Strain the Starch. — Starch used in laundering should be strained to remove all lumps that might blister when ironing.

Potatoes for Short Cakes. — Hot, boiled and mashed white potatoes are good in making short cakes and puddings. They not only save flour, but require less shortening.

Constipated?

What a difference good bowel habits can make! To keep food wastes soft and moving, many doctors recommend Nujol.

INSIST ON GENUINE NUJOL. Act Above Doubts. Never do an act of which you doubt the justice or propriety.

A Three Days' Cough Is Your Danger Signal

No matter how many medicines you have tried for your cough, chest cold, or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel the germ-laden phlegm.

GEMS MADE FROM CARBOLIC ACID

Country Newspaper Editor's Discovery Led to Huge Industry, Affecting Every Walk of Life in "the Plastic Age."

By WILLIAM C. UTLEY. Left: In testing laboratory, a chemist puts catalin buttons through the same trials they would face in years of wear. Right: Adding color to catalin.

This was highly important. Any one who can remember back three decades can recall when "the best dressed man in town" had to be mighty careful with his cigar because his celluloid collar, which could be wiped off with a damp cloth, could also be touched off by a tiny spark, leaving him a bit hot under the collar.

The World war set the stage for the third and most recent important development in the world of plastics. European Entente chemists worked feverishly trying to create a synthetic rubber from phenol (the carbolic acid derivative of coal) and formaldehyde (a gaseous derivative of wood alcohol captivated in water).

Desperate they were, these researchers. With their ports blockaded and supplies cut off, the Entente nations needed raw materials. Rubber was sorely needed to soften the screech of iron-tired wheels of military equipment, which creaked and rattled, indicating their positions to the enemy just as definitely as if they had shouted, "Here we are."

Synthetic rubber eluded them. But the German scientists did discover catalin, a material similar to that discovered by Dr. Baekeland, and made from the same ingredients, but so processed that it could be produced in a new aura of color ranging from water-clear white, resembling glass, to delicate pastels, vivid hues, black, white, ivory and many combinations of colors definitely divided or blended by mottling.

The Germans had too much other business on hand to spend a great deal of time in the development of catalin, so the formula, patent rights and manufacturing privileges were bought by Americans.

Three important plastics had now been introduced to American industry. It was not long before 3,000 manufacturers, many of whose wheels had been idle, learned that they could make many salable items from plastic materials, using the same machinery which had formerly been used in tooling wood or soft metals and with the same craftsmen and technique.

The flood of plastic articles to the market has in a few years altered fashion trends in costume jewelry, made insignificant accessories an important part in the fashion picture, created thousands of new versions of useful articles—and the President's natural resources committee warns that the industry is only in its infancy, that society will have to plan to adjust itself to its development. This is the magnitude of this "plastic age" being recognized by men who contemplate our future!

How do the 300,000 articles now made from catalin and other plastics affect our daily lives? We start the day with a plastic-handled toothbrush, razor and comb. At the breakfast table we may find knives, forks and spoons with colorful handles of catalin—the insulating handles of the toaster and percolator are of the same material. The

kitchen electric service comes through a plastic switch, plate and fittings, and in all probability serves a table lamp with a plastic shade. (For lamp shades are now being made of paper, glazed with liquid phenolic resin, as the most commonly used plastic is called, commercially. Dials for clocks, radios and speedometers are similarly treated, providing an attractive, efficient and economical substitute for previous processes.) This is just a fair morning start. Driving to business, we use a plastic steering wheel, gear shift lever handle and all sorts of gadgets on the instrument panel. At the office the telephone instrument is made of plastic, and it is an "odds-on" bet that so are the inkwell, pen and ashtray on the desk. Veneer surface woods in the furniture are cemented in place with a liquid plastic adhesive.

Make Your Own Lace Accessories

By CHERIE NICHOL

MISS COLLEGE GIRL. Miss Debutante and matrons young and not so young who being active in social affairs need must "dress up" to occasion, here's telling you how to economically acquire that air of elegance which fashion demands for this fall and winter.

A touch of lace will do it! Transform your simplest demure and unpretentious gown into a costume of distinction. And now that we've told you, the first step is either to let your favorite dressmaker in on the secret (show her these sketches) or perhaps you prefer to thriftily adopt the "make it yourself" course of action.

Here's a word of friendly advice: don't stint in getting the best type laces for the finer and more exquisite the lace you use in making these dainty fashions the more conclusively will they carry a message of high-style prestige.

If you are clever and have a knack of your own a pattern will not be necessary for the cape for it is cut along simple circular lines. However, a pattern similar to the model shown should be easily available. It has little tailored epaulet effects on the shoulders and cunning wee buttons with tiny thread-crochet loops to fasten it down the

BRIDLE-PATH CHIC

By CHERIE NICHOLAS

To dress up to the part she plays should be the ambition of every true sportswoman. It may be along scenic bridle paths that the enthusiastic guides her gallant steed or it may be in the glare of bright light and trumpet loud in the fashionable horse show arena that she will make her bow.

SILHOUETTE TRENDS FOR EVENING DRESS

By CHERIE NICHOLAS

Outside of that the pencil-slim Directorate with its high slit skirt and the revival of the Empress Eugenia, there is a definite tendency in many houses to a Spanish type of dress. This is usually marked by flounce ruffles. And one must not forget the gently widened skirt as evidenced also in the afternoon clothes. The most startling bit of material used in this has been the placing of various types of lace over lame to give the firmness and stiffness required. One more skirt—and the silhouette can be settled. That is the skirt front. This varies from the gradation effect to those cut off clear to the knees in front to show a filmy petticoat of ruffled net. A cross between this and the Directorate are skirts which are cut away like a man's coat, to the knees and then come down to the ground at either side seam.

Daytime Footwear for Fall

Loses Rugged Sporty Look

Most daytime shoes have lost the rugged, sporty look that formerly characterized the appropriate footwear for tailored suits. Smart, soft-toed models, many of them made with elastic insets and gores, mould the foot trimly. Others, constructed entirely of elastic leathers, insure a streamlined silhouette, unmarred by gapping sides or fastenings that protrude. These snug, form-fitting styles are as easy on the feet as bedroom slippers, partly because of their construction and partly because of their comfortable walking night heels covered with matching materials or built up of little uncovered layers that are slick-proof and resile-

THE CHRISTIAN IN GOD'S KEEPING

TEXT—Jude 14, 17-25.

TOPIC—Keep yourselves in the love of God, looking for the mercy of Jesus Christ unto eternal life.

TOPIC—Why David Sang Psalms
TOPIC—In God's Keeping
TOPIC—Old Testament
TOPIC—People and Adult Topics in God's Keeping.

born is only to begin life, the growth, their struggles, and their triumphs. It is the call for courageous living with the Christian. He is the one who is just ready to begin his life.

The Bible of Jude sheds much light on the dangers which beset the Christian path and exhortations to holy living and sacrifice. It opens with a description of the Christian and closes with a promise of praise to God. It is the Christian as one who is in Christ (vv. 1, 2).

The entire Trinity is seen to be in our redemption (See Revelation). Jude writes "To them who have called on the Father's name."

"Called"—The Holy Spirit calls us to salvation. "Believed in God the Father"—until now.

Living for Christ (vv. 3, 4, 17-25). Jude began to write of the faith which he had in "common with his readers, the Holy Spirit moved him to deal with a subject of vital importance—the faith of the wicked men toward the God of Christ, and their efforts to live by the faith." The Christian includes

faith in God (vv. 3, 4). "The Faith" is the body of revealed truth, the good news of redemption in Jesus Christ. It is a final revelation, "delivered to the faithful" (R. V.). There is no new faith, and there never will be.

He really had not thought that Jimmy would dare to treat this great stranger so, and if he hadn't seen it himself he wouldn't have believed it because—well, because he couldn't have believed it.

Peter was full of wonder and excitement as he hurried away to tell all whom he should meet what he had seen. He didn't know what the stranger was. Never had he seen anyone like him in the Green Forest. The very thought of him made Peter shake with fright, even if Jimmy Skunk should say that there was nothing to be afraid of, and Peter knew that this is just what Jimmy would say when he met him.

Presently as he hurried, lippy-tyippy-ty, through the Green Forest he met his cousin, Jumper the Hare.

"Oh, Jumper! Jumper! Jumper! I've seen him!" cried Peter just as soon as he was near enough to make himself heard.

Jumper sat up and looked at Peter curiously. "Supposing you tell me whom you've seen," said he quite as if he had no particular interest in the matter.

BEDTIME STORY

By THORNTON W. BURGESS

JUMPER TELLS PETER WHO THE STRANGER IS

PETER RABBIT could hardly believe what he had seen—the big black stranger, with the great terrible claws, backing away from Jimmy Skunk, and Jimmy acting just as if he were in the habit of meeting this stranger every day and making him get out of his way. And yet he knew that Jimmy never had seen him before. Peter always had had a great deal of respect for Jimmy Skunk. He knew that Jimmy just laughed at Reddy Fox, although Reddy is ever so much bigger than he, and he knew that Bowser the Hound always turned aside if he happened to meet Jimmy. But

"Supposing You Tell Me Who You've Seen," Said He, Quite as if He Had No Particular Interest in the Matter.

Importance of Water to Body

Look to Source of Supply When Choosing a Home.

By EDITH M. BARBER

THE most important material which we take into our bodies through the mouth is completely lacking in food value! This sounds like a contradictory statement. It is, however, water which we are describing in these terms. As has been proven many times, man can live much longer without food than he can without drink, which he must have, not only to satisfy his thirst craving, but for use in every body process.

The first qualifications in choosing a place of residence is a liberal and pure water supply. Those of us who live in cities and suburbs take this for granted. This is not the case, however, in the country. It was brought to my attention in Maine when a new well was necessary.

First Aid to the Ailing House. Double windows for casements. During the warm times of year, casement windows that swing outward are certainly attractive. This is not only for appearance, but for the full ventilation that comes with the opening of an entire window space. In winter, however, the situation is reversed. Out-swinging casement windows are more likely to leak than is the case with windows of other kinds. Also, the ordinary form of double window cannot be used.

When there are two or more casement windows in a room, it is unusual for more than one to be opened during bitter weather. This being so, all of the windows but one can be kept closed, and ordinary double windows put on outside. For the one window that is to be opened, a removable double window can be attached inside. If the casement is provided with inside insect screens on hinges, the screens can be replaced with glass. Another possibility is a sheet of plate glass covering the entire opening, set in a frame of wood molding, fitted to the inside of the window frame. The molding should have good-sized handles attached to it, so that it can be easily moved, and when in place, it is held by simple bolts or turn-buttons.

Double windows raise the temperature of a room by many degrees. There is far less chilling of the space near a window, and drafts in the room are greatly cut down. Double windows are well worth whatever they may cost.

Redskins Inhabited Cave. Archeologists state definitely that red men had inhabited the Mammoth cave in Kentucky centuries before Columbus discovered America, reports a Department of the Interior bulletin.

Love, Honor and Obey. A cartoon showing a man and a woman in a domestic scene. The woman says, "Dearest—why is it that you don't love me as much as you used to? Is there anything wrong?" The man replies, "How mackerel! Your face? What have you done to your face?"

Chocolate Sauce. 1 1/2 ounces chocolate, 1/2 cup cold water, 1/2 cup sugar, 1 tablespoon cornstarch, Salt, 1 1/2 cups hot water, 1/2 teaspoon vanilla. Cut the chocolate in pieces, add the cold water and cook over low fire until smooth. Mix the sugar, cornstarch and salt together and add to the chocolate. Stir in the hot water and cook until smooth. Add the vanilla.

Cottage Cheese Salad. 1/2 pound cottage cheese, 1 tablespoon minced onion or chives, 1 teaspoon paprika, Lettuce or romaine, 1 pimiento. Mix the cheese, onion or chives and paprika well and pack in a small bowl to set in the refrigerator to chill. Cut the pimiento into slices. When ready to serve place the mold of cheese in the center of a platter or chop plate. Arrange the lettuce or romaine around the edge in six bundles and hold together lightly

Japan believes so firmly in the airplane as a factor in modern warfare that her children are taught aeronautics in the primary military training schools, and glider clubs have been organized for the boys. The lad pictured here is about to start on a glider flight. One day he may pilot a bomber and rain death on the enemies of his country.

Right and Wrong. Conscience is that faculty which approves right and wrong in action, and disapproves them, regulates their consequences under the moral administration of God. It is thus either the cause of peace or of disquietude of mind.

Fall Fashion Parade

BE THE first to wear the new Fall fashions in your group—let Sew-Your-Own help you to step right out in front, in the parade of new Fall Fashions. Today's trio gives you wide choice. Your first occasion frock if you are young and slim is a good looking basque model; for rounded a pretty yoke model that is as easy to make as it is to wear; and if you are full bosomed a jabot model that takes away inches.

The Popular Basque Dress. If you are twenty or thereabouts, you'll adore this pretty basque dress with its flaring skirt. The slim wasp waist and short puffed sleeves above a swing skirt are as young as the morning. Have it in a pretty dark print banded in velvet ribbon for every afternoon festivity. It's a dress that you'll wear all through the winter.

Yoke-Style House Frock. Every woman will be quick to see the advantages of this frock, in style and wearability. The round yoke buttons at front and gives a fresh, young look to this design. Best of all, it is cut in one piece from neck to hem so that you can make it in practically no time at all. The waistline is darted for snug fit. You'll look and feel years younger in this model—wear it round the house and for afternoon, too.

Look Slim and Sleek. The newest fashions give you a slim, sleek look even if you are not blessed with a svelte figure. The jabot model in the illustration is designed to make even the woman who is a bit on the plump side look sleek and inches slimmer. Make this dress in one of the new thin wools and see how you'll stand out in your crowd as a fashion leader.

The Patterns. Pattern 1257 is designed for sizes 12 to 40. Size 14 requires 4 1/4 yards of 39 inch material and 11 yards of ribbon to trim. Pattern 1300 is designed for sizes 34 to 48. Size 36 requires 4 1/4 yards of 39 inch material. Pattern 1373 is designed for sizes 34 to 50. Size 36 requires

3 3/4 yards of 54 inch material and 3/4 yards of 39 inch material for jabot in contrast. Send your order to The Sewing Circle Pattern Dept., Room 1020, 211 W. Wacker Drive, Chicago, Ill. Price of patterns, 15 cents (in coins) each. © Bell Syndicate.—WNU Service.

Uncle Phil Says: They Can't Follow Rules. Most people who are in jail are there because of defective judgment—on their part. A cackling laugh is not so cackling if it is at your comic remarks. Life was so dull in the old-fashioned family that the young folks were glad when their cousins came on a visit, because they could sleep with them on the floor.

Or at Least a Philosopher It would require an angel to live under a system in which all things are held in common. Solon wasn't so smart. He said "Reprove thy friend privately; commend him publicly." Reprove thy friend privately and thou'll have none. We don't reprove our friends; we love 'em. The resolution hardest to keep: To hold your tongue.
