To Ride the River With

COPYRIGHT WILLIAM MACLEOD RAINE—WNU SERVICE

SYNOPSIS

Ruth Chiswick of L C ranch, obsessed by fear of danger to her outstaked father, Lee, from a band of lawless rustlers headed by Sherm Howard, decides to save him by sleeping with young Lou Howard, Sherm's son...

CHAPTER IV—Continued

He pulled on his boots and swiftly examined his revolver. That the weapon rested lightly in its holster so that there would be no hindrance to a quick draw he made sure...

CHAPTER V

Their host maneuvered Norris to a rocking chair, Howard to a straight-backed one. Curly he seated at the foot of the bed. Gray stood in a shadowy corner farthest from the window...

Curly ripped out an angry oath. "If you hurt Miss Ruth—" Smoothly Howard interrupted. "Let us hear the story, Curly. Mr. Gray sent for us to tell it, don't you reckon?"

portant in Texas, Arizona sure ought to give him the glad hand." "The name is Gray in Arizona," corrected the crook-nosed man. "Worth two thousand on the hoof—or as meat, I reckon—down Santone way," Norris continued...

that there had been another raid on L C stock. "How do you know?" Lee Chiswick demanded. "Ran across the tracks of a bunch being driven up Box canyon," the Mexican said. "New tracks?" "I'd say not more than a day old, senor."

"No objections to you staying here, Mr. Gray."

"Meaning me?" asked Norris, his eyes slitted. "Meaning only that this has been talked over among you. Someone took a crack at Chiswick. Whoever it was, I could just see his figure in the alley, and I ripped loose at him."

seems to be an epidemic duplication in Oklahoma. July primaries, it is reported are already entered four Rogerses, one Brigham Daniel Boone, Huey Long, Burns, Joe E. Brown, Patterson, Sam Houston, Wilbur Oliver Cromwell, John L. and a Mae West. With some names there will be little doubt. Few voters, surely, will be the current Daniel Boone Patrick Henry for their predecessors in history. The Oklahoma Mae West is the mother of children and an active member. She is running for job of commissioner of corrections and will be confused with Miss West films. Will the other names be successful in riding to victory on some one name? It isn't complimentary to the voters, but the system worked before, the Las Vegas comments.

announcements, printed before, The Messenger.

Redskin Has Lost Skill With Arrows

Questioning the aim of the Indians with bows and arrows in the Twentieth century which may make "pin-cushions" of the tame buffalo, the New Mexico Association on Indian Affairs passed a resolution disapproving the buffalo hunt at Puye City early in July. The association will try to stop the hunt not only as inhumane but as exploiting the Indians for profit.

In the discussion leading to the resolution, it was pointed out that although Indian forefathers of the Indians could take deadly aim with a bow and arrow, present-day Indians at the Indian fairs have not demonstrated much ability with them, none hitting the bull's-eye in target shooting. The buffalo that will be used at Puye, the former Riverside near Espanola where the Chamber of Commerce of the new city is planning the hunt, have been raised in captivity. Although they are tame it is felt they are finally made "pin-cushions" with the arrows, they are likely to be sufficiently goaded to charge, and unless there are many guards to shoot the animals down, the Indians or spectators may be injured.

Mrs. Margaretta Dietrich, chairman of the New Mexico Association on Indian Affairs, motored to Albuquerque to confer with the federal Indian agency on the matter. She found the agency already trying to discourage the hunt, but that there was no authority to prohibit it as it will take place of the reservation.

Tested Recipe

FROSTED cake at the picnic is an elegant gesture no doubt—but it's a bit of a headache as well, what with getting it to the picnic safe and sound—and then keeping the children from getting their hands on it.

Chocolate Wonder Frosting
 3 ounces (1 package) cream cheese; 2 to 3 tablespoons milk; 2 cups sifted confectioners' sugar; 3 squares unsweetened chocolate, melted; dash of salt.
 Soften cream cheese with milk. Add sugar, 1 cup at a time, blending after each addition. Add chocolate and salt and beat until smooth. Makes enough frosting to cover tops of two 8-inch (or 9-inch) layers, or top and sides of 8x12-inch cake, or about 2 dozen cup cakes. Double the recipe to cover tops and sides of two 10-inch layers.

NO wonder cup cakes are a popular item in the housewife's recipe repertoire. They're so easy to serve—and in an emergency, when a dessert of fruit or berries or ice cream is in order, a plate of cup cakes completes the dessert very nicely. Here is a novel cup cake recipe—a really little individual marble cakes.

Black and White Cup Cakes
 3 tablespoons sugar; 3 tablespoons water; 1/4 teaspoon unsweetened chocolate; 1/4 teaspoon soda.
 2 cups sifted cake flour; 2 teaspoons double-acting baking powder; 1/2 teaspoon salt; 1/2 cup butter or other shortening; 1/2 cup sugar; 2 egg whites, unbeaten; 1/2 cup milk; 1 teaspoon vanilla.
 Combine sugar, water, and chocolate in saucepan and cook over low flame until thick and smooth, stirring constantly. Stir in soda; cool slightly.

Sift flour once, measure, add baking powder and salt, and sift together three times. Cream butter thoroughly, add sugar gradually, and cream together until light and fluffy. Add egg whites, one at a time, beating very thoroughly after each. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth. Add vanilla. Divide batter in two parts; to one part, add chocolate mixture, stirring until blended. Put by teaspoons into greased cup-cake pans, alternating light and dark mixtures. Bake in moderate oven (375° F.) 25 minutes. Makes 18 large cup cakes.

Miss Helen Goodwin was the dinner guest of Miss Wanda Mathews on Sunday. In the afternoon Mr. and Mrs. R. B. Mathews, Misses Wanda Mathews and Helen Goodwin motored to Roswell.

Mrs. Harrington Wimberly and two young daughters, Janis and Mary Margaret of Altus, Oklahoma and Elizabeth Ann Childress of Roswell arrived Tuesday for a visit with Mr. and Mrs. J. E. Wimberly.

JUST KIDS—History Repeats—Sometimes!

By Ad Carter

THE POCKETBOOK OF KNOWLEDGE

Kernels From An Old Nut

Last week I undertook to write something verifying, from the everyday experience of life, the declaration of the Apostle Paul that "The love of money is the root of all evil." This week the press headlines of the whole land give sordid evidence of its having brought tragedy and grief to a number of families—to say nothing of a large portion of a great state.

Obsessed of the notion that if he could get possession of ten thousand dollars which he did not earn, a young married man brought himself to the point where he betrayed the friendship of his neighbors and benefactors; took an innocent sleeping child from the comfort and security of his home; carried it to the unwholesome seclusion of the jungle; heartlessly murdered it and then, in the face of it all, demanded ten thousand dollars for the child's safe return to its family—a condition which he well knew was impossible of fulfillment on his part. To add insult to the injury which he had already inflicted, he joined brazenly in the search for the child and the hunt for its abductor.

After two weeks, what is the result? He obtained ten thousand dollars—only five of which he had been enough to use. Now, it has been recovered and the money which he loved so illicitly and which he thought would give him comfort and satisfaction is gone; his widowed mother, whose late husband, in an humble way, tried to lead others to a better way of life, must go bowed down in sorrow, alone and unaccompanied to her grave; his young wife—however innocent—will face the years ahead as the wife—or, more likely—the widow of a man who committed the most despicable of all crimes, branded with the curse of Cain; if his own life is spared—which is unlikely—he must spend it among men whose lives are hardened and whose outlook is cynical and cruel and who will, to the end of his days, regard him with contempt.

He is not an ignoramus. He is a high school graduate. One minute of thought ought to have demonstrated conclusively to him the futility of the step he was taking. One text from which his father, no doubt, preached many times—"What shall it profit a man if he gain the whole world and lose his own soul," should have been an everlasting and insurmountable barrier to such a step.

We can all see the futility and tragedy of this case—for it is outstandingly plain—but the law that it illustrates holds good from the first step away from the path of rectitude.

J. W. Wiggins, who spent the week end in Roswell with Mrs. Wiggins and Miss Ruth Wiggins, returned to Hagerman Monday. He was accompanied home by Ruth, who visited Mr. and Mrs. Spurgeon Wiggins and Max and with friends during the day, returning to Roswell in the afternoon.

LOCALS

The Rev. and Mrs. Harold Dye and two children of Las Cruces were Hagerman visitors on Wednesday afternoon. The Rev. Mr. Dye is holding a revival meeting at the Baptist Church in Lake Arthur this week and the first of next.

Mrs. J. E. Wimberly and Clifford Wimberly spent Tuesday afternoon in Roswell visiting Mr. and Mrs. Floyd Childress. Mr. Childress recently suffered a fractured ankle, and will be several days recuperating enough to walk on it.

Mr. and Mrs. Dwares Reiger, who have been visiting here with the W. R. Goodwins, have gone to Tucson, Arizona, for the remainder of the summer. Mr. Reiger is studying on his master's degree and Mrs. Reiger will specialize in music and take education and physical culture.

Miss Maryonne Becker, who is spending several weeks in Los Angeles, Calif., asks that her Messenger be sent to her. Miss Becker was the music supervisor in the local schools the past year and has received much praise for her untiring work in music, and in glee club work.

The Rev. Rollo Davidson and young son, Misses Marian Key, Dean Condit and Hannah Burk and Lawrence Meneff left Monday for Sacramento to attend the Young People's Assembly of the Methodist Church. They will return home the latter part of this week.

Mr. and Mrs. R. B. Mathews, Sr., R. B., Jr., Misses Wanda Mathews and Rowena McCormick and Mrs. Pliny Skaggs motored to Roswell Wednesday evening and attended the baseball game.

Miss Helen Curry leaves this week for Greeley, Colo., to take work on her master's degree. Miss Curry has been superintendent of schools at Santa Rita for several years. There are twenty-one teachers in the school. The buildings are owned by the Kendrick (formerly Chino) Mining Co., and are leased by the district.

Resolutions for uniformity in fees and a budget plan to provide medical care for relief families were adopted as the New Mexico Medical Society closed its three-day convention at Santa Fe last week. The society chose Dr. George T. Colvard, Deming, as its president and selected Gallup as the 1939 convention city. Other officers were named: Dr. W. B. Cantrell, Gallup, vice president; Dr. L. B. Cohenour, Albuquerque, secretary-treasurer, a position he has held for the past 13 years.

TINGLEY COVERS MANY MILES AS GOVERNOR

A travel log of Gov. Clyde Tingley shows more than 90,000 miles within the state, sixteen trips to Washington and numerous shorter out-of-state trips, members of his staff estimated.

Summing up the governor's activities within the last three and a half years, his secretaries figured the executive had conferred with 120,000 persons in his office, 73,000 outside the office, inspected highways in every county of the state, handled nearly 300,000 pieces of mail and made 477 speeches, not including political campaigns.

WHAT TO EAT and WHY

C. Houston Goudiss Warns of the Dangers of Overweight

Nationally Known Food Authority Describes the Right and Wrong Methods of Reducing

By C. HOUSTON GOUDISS
6 East 39th Street, New York City.

THERE was a time when overweight was indulgently tolerated and even respected. It was believed that width and wisdom went together and that fat people had the best dispositions. Surplus poundage was regarded as an indication of wealth for it implied that one had plenty to eat and did not have to work.

The modern point of view, backed by medical science, is that overweight destroys beauty, multiplies the chances of disease and subtracts years from your life.

Most of the degenerative diseases of middle life occur more frequently in those who are overweight than in those whose weight is normal.

The entire body functions at a disadvantage for the excess fat is present inside as well as outside of the body. Just as the abdomen, hips and arms are burdened with excess fat, so are the internal organs stifled with needless tissue.

Overweight Burdens the Heart

Fatty deposits increase the work of the heart, because each extra pound demands the pumping of additional blood. It has been estimated that every pound of fat requires six-tenths of a mile of blood vessels to nourish it! Thus, the individual who is 20 pounds overweight is carrying around 12 miles of excess blood vessels. Naturally, the heart must work faster and harder to pump blood through these extra miles, and it is not surprising that it is frequently overstrained.

Heart disease and high blood pressure are often associated with excess fat. So are diabetes and kidney disease. And when fat creeps around the abdominal muscles, it may interfere with normal elimination.

Life May Be Shortened

Furthermore, life insurance companies estimate that the more overweight the body becomes, the sligher the chances for longevity. All the data that have been assembled indicate that as age and weight increase, the death rate rapidly accelerates. Gross overweight may shorten life by as much as ten years.

What Should You Weigh?

It is generally held that under the age of thirty, it is advisable to weigh from five to ten pounds more than the average for one's height and age. But after thirty, a weight of ten to twenty pounds below the average is desirable. In fact, leading authorities now agree that it is an excellent plan to endeavor after thirty to maintain the normal weight for one's height at age thirty.

Reducing Methods to Avoid

If you have allowed yourself to become overweight, you should and can reduce. But you must go about it in a scientific manner. Do not put your faith in worthless or dangerous methods that either fail to reduce or may cause you to lose your health faster than you lose weight.

Never take any sort of drugs for the purpose of reducing, except under the advice of your physician. Many drugs which are said to speed up bodily activities and burn up fat may injure the heart, produce cataracts of the eyes, and

Do You Want to Learn How to Plan a Laxative Diet?

Get This Free Bulletin Offered by C. Houston Goudiss

READERS of this newspaper are invited to write to C. Houston Goudiss, 6 East 39th Street, New York City, for a free copy of his bulletin, "Helpful Hints on Planning a Laxative Diet."

The bulletin gives concrete suggestions for combatting faulty elimination through correct eating and proper habits of hygiene. It gives a list of laxative foods and contains a full week's sample menus. A postcard is sufficient to carry your request.

Dark Silk Sheers of Dress-Up Type

By CHERIE NICHOLAS

FASHION is in a decidedly dress-up mood for summer. The call is insistent for clothes daintily feminine, which accounts for the revival of softly styled afternoon dresses that show care in detail, and with which are worn as pretty beflowered hats and alluring accessories as one's budget will allow.

The dress-to-important-occasion spirit is especially reflected in the charming afternoon frocks which designers are turning out, fashioned of either black or navy silk sheer. Invest in an attractively styled sheer such as here pictured and you will be congratulating yourself the summer through upon your keen fashion foresight. No matter how "ritzy" the set in which you move, dressed in a gown of silk marquisette or chiffon as the case may be, in either black or navy and you will find that you are accounted as among the best dressed.

What's more, you will be poised and serene regardless the heat of a summer day in a cool silken sheer and to add to your comfort you will know that being dark your gown will carry its well-groomed appearance at all times. The importance of the vogue of the dressy dark sheer costume cannot be over-emphasized.

Looking toward summer, a "lady of fashion" can make no wiser choice than the stunning afternoon dress pictured to the left in the illustration. It is fashioned of starched silk marquisette with very deep hem of weighted silk taffeta. The ruffled bows scattered here and there of matching taffeta interpret the mood of the moment for alluring detail. The jeweled heart adds yet another touch of glamor. It is part of fashion's scheme of things this

WHITE TUSSOR SUIT

By CHERIE NICHOLAS

Here is a man's point of view on what a styled-up-to-the-moment woman should wear this summer. The renowned Creed who is noted for turning out tailleurs de luxe designed this classic suit of handsome white tussor with red scarf worn with a jaunty sailor from Rose Valois. The advance style program heralds the white suit with high color as a fashion of outstanding importance for summer.

SATIN IS FAVORED FOR SUMMER COATS

The newest use of satin is for summer coats. One slinky navy blue model is worn over a deep pink satin-back crepe formal. Other color combinations include purple, green and yellow; red, blue and orange stripes; lavender, white and black; in fact, hues that would dim the glory of Joseph's coat.

Skirts are shorter than ever in Vera Borea's collection. All of her gowns are molded at the waist and hips in the new corselet line, accentuating the fullness of the skirts. Leading materials shown are shantung, linens, sackcloths, "fantasy" crepes and wool laces.

The principal trimmings are good-luck insects—grasshoppers, locusts, flies and bees—which appear in droves on the models.

Avoid Daytime Frills on Budget That Is Limited

To achieve planned wardrobe economy women with high style ambitions and low purchasing powers were advised by a New York style expert to forsake daytime frills and to confine their taste for caprice to evening clothes. For daytime wear she recommended a basic color scheme for each season, simple two-piece suits that can be worn either with or without the jacket, casual millinery, and conservative shoes with medium built-up heels. Above all she stressed the need for meticulous grooming, including attention to twisted stocking seams and run-down heels.

Teen Age Hats

Those little sailor hats with the ribbons under the chin have a smattering of followers, especially among the younger girls.

Secrets of Ancients Survive Attacks of Modern Science

With television soon to become a serious rival to the movies, and giant airplanes and "press-the-button" warships things which raise little comment from the average man, it is surprising that there are many secrets known to the ancients which have survived the attacks of modern science, says a writer in London Answers.

The Greeks could not weave linen or wool on anything like the scale we weave them today. But they wove them into the plemra, a form of cuirass which could not be penetrated by the sharpest dart or arrow. The secret has been lost—perhaps forever.

The Romans sank wells for water to great depths. Exactly how they did the boring we do not know. They also made glass which would bend yet not break. This would be quite useful today.

The beautiful purple dye, known of old, has eluded the dye-makers of today. And modern builders can make nothing of the strong and durable cement used by the Greeks and the Romans in their

walls. This cement was stronger and harder than the stone itself.

The knowledge possessed by the ancient Egyptians was very extensive. They had a method of dressing stone to withstand the ravages of time and weather. They also perfected the art of embalming. Probes, forceps, and other surgical instruments have been found in Egypt. For what purpose they were used we will never know.

That secret, along with many others, passed away with the destruction of the famous library at Alexandria in the Fifth century. The loss of the knowledge contained in that library was a blow to civilization.

Reading and Thinking

Reading furnishes the mind only with materials of knowledge; it is thinking makes what we read ours. So far as we apprehend and see the connection of ideas, so far it is ours; without that it is so much loose matter floating in our brain.—Locke.

Must Books Be Read

The collector of books need not fear the challenge that is to be made, sooner or later, by skeptical acquaintances: "you read them all?" The idea he ought to get out of his head is that he must read books for immediate reading.

"The charm of a library," that devout book lover, the Arnold Bennett, "is serious paired when one has read whole or nearly the whole contents."

Bennett confessed that he had hundreds of books he had opened, and which, perhaps never would open. But he did not part with them. He they were good, and as he on them, he said to them, "day, if chance favors, your will come. Be patient!"—pool Post.

Best Thoughts

Try to care about something this vast world besides the gratification of small selfish desires to care for what is best in the and action—something that good apart from the accident your own lot. Look on others besides your own. See what troubles are, and how to borne.—George Eliot.

WHEN LIFE DEPENDS ON TIRE SAFETY

On May 30, Floyd Roberts shattered track records for 500-mile Indianapolis Race, averaging 117 miles an hour on Firestone Gum-Dipped Tires.

IT'S ALWAYS Firestone

FOR 19 CONSECUTIVE YEARS THE WINNERS OF THE INDIANAPOLIS 500-MILE RACE HAVE PROTECTED THEIR LIVES WITH FIRESTONE GUM-DIPPED TIRES

THEY said it couldn't be done—that tire could not withstand the torture of the new high speeds. Yet Floyd Roberts set a new record in this year's Indianapolis Race, averaging 117 miles an hour for the 500 miles of Firestone Gum-Dipped Tires.

With the sun-baked brick of the straight-away and the granite-hard surface of the turns pulling and grinding at the tires, 33 daring drivers, every one of them Firestone Tires, waged a thrilling battle for gold and glory. Never before have tires been called upon to take such punishment. Never in all the history of the motor car has tire safety been put to such a grueling test. Yet not one tire failed—not one single cord loosened—because Gum-Dipping, that famous Firestone patented process saturates and coats every cotton fiber in every cord with every ply with liquid rubber counteracting the tire-destroying internal friction and heat that ordinarily cause blowouts.

Why risk your life and the lives of others on unsafe tires? Join the Firestone SAVE A LIFE Campaign today by equipping your car with Firestone Triple-Safe Tires—the tires made that are safety-proven on the speedways for your protection on the highways.

Listen to the Voice of Firestone featuring Richard Crooks and Margaret Speaks and the 70-piece Firestone Orchestra, under the direction of Alfred Wallenstein, Monday evenings over Nationwide N. B. C. Red Wagon. Tune in on the Firestone Voice of the Farm Radio Program twice each week during the noon hour.

Signs of Commerce

In the day when every trade, guild had its time honored... Barber shops will always have a huge clock outside his door. So, also, will blacksmiths continue to hang a horseshoe above the entrance way.

Druggist's mixing bowl, still frequently used, has associated with it... A less symbolic—and more practical—sign is that of the chiropractor works with feet, so why not hang out a giant foot?

Advertising men "outlawed" such symbols as the above shoe sign, but no more picturesque substitute has ever been found.

You don't need to read it... a glance tells the story!

FARM TOPICS

PRODUCE STAND IS STREAMLINE STYLE

Rickety Stations Are Not Business-Getters.

By W. C. Harrington, Farm Engineering Specialist, Massachusetts State College.—WNU Service. Streamlining has hit the farm produce stand. Instead of the haphazard heap of vegetables under a sprawling sign, the farmer is now putting up well-designed buildings, landscaping the grounds, and going after business in a businesslike way.

The day of the rickety farm produce stand is done. Roads are smoother, cars are faster, and the farmer who wants to keep his share of the city driver's business is changing his old stand to meet the new conditions.

The following are listed as the most important points for consideration in laying out the farm produce stand for this summer's business: The station should be visible for several hundred feet so that prospective purchasers may recognize it and make necessary decisions in time to drive in.

There should be an ample supply of pure water. Suitable drainage should be provided, not only for the parking surface but for sewage and other waste water.

Frozen Egg Industry Is Centered in Midwest

The practice of breaking, canning and freezing eggs is said to have begun in Kansas about 1900. Today, notes a writer in the Chicago Tribune, there are more than 200 plants in the business in the United States, with about 80 per cent of the production centered in the Middle West, which is the leading source of eggs.

Until about 1921 the large American bakers and makers of noodles, macaroni, ice cream, candy, and salad dressing depended largely on dried eggs from China to meet requirements. Then the use of frozen eggs began to increase rapidly, tripling in the next six years, and great storage stocks began to accumulate.

About half of the output of this product consists of whole eggs, and the rest of whites and yolks canned separately. Hotels, bakers and restaurants use frozen whole eggs, and plain and sugared yolks. The whites are used by makers of confections. Mayonnaise and salad dressing makers use about 16,000,000 pounds of plain, sugared and salt yolks and whole eggs each year.

Feeding the Pigs

If you feed your pigs too many peanuts or soybeans, you haul soft pork to market and are penalized two cents a pound, says the Country Home Magazine. Packers know there is not much bacon left after soft pork is fried. But a peanut-fed hog can be finished off with corn.

How Much Pullets Eat

It is important for one to know how much feed a pullet will eat so that the feed cost can be figured and financed, says a writer in the Missouri Farmer. At the age of 6 months a pullet will have consumed about 25 pounds of feed.

Carefree Cotton Fashions

THESE two designs are particularly good inspirations for summer daytimes—they're cool, simple, becoming, easy to make. The house dress can be made in

few hours, with a diagram, and the jumper frock includes a detailed sew chart, so it's no trouble at all.

House Dress in Large Sizes. With darts at the waistline and inside tucks on the shoulders, this dress has an unusually good line—trim and slenderizing. Pleats in the short sleeves make them loose and easy to work in.

Prize Winning Recipes To Be Announced Soon

C. Houston Goudiss, who writes our "WHAT TO EAT AND WHY" series, reports that the Cake Recipe Contest which he recently conducted through the columns of this newspaper was a gratifying success.

A tremendous number of recipes were submitted and the home economists on the staff of his Experimental Kitchen Laboratory in New York city have been busy for days testing and tasting almost every imaginable kind of cake.

They regret that it was impossible to acknowledge individual entries, but they thank every homemaker who entered the contest, and have asked us to say that each recipe will be given the most careful consideration.

Because of the volume of recipes submitted, they will require a little while longer to complete their tests and to arrive at their decision as to the winners of the \$25.00 first prize, the five second prizes of \$10.00 each, and the ten third prizes of \$5.00 each.

Prize winners will be reported in these columns in the near future and as announced at the beginning of the contest, prize winning recipes, together with those receiving honorable mention from the judges, will be printed in a booklet to be distributed nationally.

are the best materials for this. Trim it with bright ricrac braid.

Girl's Jumper Blouse Frock. With a jumper frock in dark cotton and several crisp white blouses, it's easy to keep your young daughter looking fresh and smart—and cuts down on the laundry, too.

The Patterns. 1533 is designed for sizes 34, 36, 38, 40, 42, 44, 46, 48 and 50. Size 36 requires 4 1/2 yards of 35-inch material. 1 1/2 yards ricrac braid to trim.

1520 is designed for sizes 6, 8, 10, 12 and 14 years. Size 8 requires 1 1/2 yards of 35-inch material for the blouse; 2 yards of 35-inch material for the jumper.

Spring-Summer Pattern Book. Send 15 cents for the Barbara Bell Spring and Summer Pattern Book which is now ready. It contains 109 attractive, practical and becoming designs.

Send your order to The Sewing Circle Pattern Dept., Room 1020, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each.

When the Good Work Begins. There's a good chance for your getting ahead when you get dissatisfied with yourself instead of the job.

Once a father sends his boys to college, every generation of that family has to do it. If you know how to spend your money you can seem like a magnate on \$3,000 a year.

Two of a Kind. We have discovered that the man who talks in a whisper doesn't know any more than the fellow who bellows.

It is a tragedy when a man gets late in life what he thinks he wants and finds he doesn't want it. A big-hearted woman is one who when she gets into society tries to help her friends in.

And They Could, Too. There are any number of people who feel that they might be able to do big things, but are too indolent to do them.

Stout hearts and thick heads will go far; though wise heads may go farther. A retired farmer still can't learn to sleep late.

Thoroughly Tried

True friendship is a plant of slow growth, and must undergo and withstand the shocks of adversity before it is entitled to the appellation.—George Washington.

ASK ME ANOTHER ? A Quiz With Answers Offering Information on Various Subjects

The Questions

- 1. What continent is known as "the land astride the equator"?
2. How did the United States acquire Minnesota?
3. What ball player pitched the first perfect game?
4. "Minnesota" means what?
5. How many planes are there on the U. S. aircraft carriers?
6. Is hari-kiri practiced by the Japanese in battle?
