pluses will not continue to pile up White Man Will See Weird Ritual For First Time Aug. 16-18

> For the first time in history, a white audience will see the full and complete rites and dances of the most sacred of all Navajo ceremonials, the "Male Mountain Chant." In inaugurating the first annual Navajo Tribal Fair, at Window Rock, Ariz., Sept. 16-18, the white guests, as well as many thousands of Navajos, will witness the solemn and beautiful sacred ceremonial as it has not been seen

> for more than forty years. White visitors to the Navajo Tribal Fair will see the last three nights of the weird "Mountain Chant," which will have been in

progress for six days and nights. After consultation with one of the few Navajo medicine men who could conduct the ceremonial in all its primitive beauty and procedure, it was found that a very few old men still remembered these "acts." When contacted by these who desired the full ceremonial, they gladly acquiesced, and were happy to assist in their revival. Their only stipulation was that the full nine days of the ceremonial must be held and that all rules of ritual procedure as well as taboo should be strictly adhered to. This was TRAIN AT CARLSBAD agreed to, and therefore, six days before the fair opens Navajo medicine men will be "singing" over two patients at the ceremonial hogan especially prepared for the "Mountain Chant." Special accom-

tribal fairgrounds. Hundreds of students of Navajo life are expected from all parts of the United States to witness the "mountain Chant." Special accommodations are to be provided by the fair committee to handle a large number of campers. The new fairgrounds, built by Indian CCC labor, are modern in every respect.

about that. But I may take you up you out for right now." on yore offer. Maybe I can use two guns.

cup after cup of coffee. More than stay with the Chiswicks if you've a once he went back to the bottle. At last he pushed his chair back.

"I reckon you know it was Lee Chiswick's crowd attacked us in Live Oak canyon." he said. "I left in some hurry. Me and Kansas. Did they collect the rest of the boys?" "Mile High got away, But Sid

Hunt was killed. Lou they captured. "Too bad about that, Sherm," the other man jeered. "He'll blab, of course, and you'll be in this up to

yore neck. The big man looked at him bleakly, but made no answer in words. Kansas got away with you, didn't

he?" was his comment A film of wary blankness came over the eyes of the hunted man. "Kansas made it out of the canyon with me," he said slowly. "A posse jumped us at the old Walsh

"Got Kansas. You mean killed "He'll never be any deader," Nor-

place and got Kansas. I fought 'em

off and lit out with the girl."

ris answered callously. "Come clean, Morg. We've got to

know just where we're at. Did you do this Chiswick girl any harm in The sulky look spread over the

face of the kidnaper. "Didn't hurt the li'l fool at all, outside of slapping her white face once when she got sassy. "What are yore plans?" Howard

inquired. "First off, I aim to dress my wounds and bathe my feet in hot

"Sure, Morg." the fat man said with oily smoothness. "Help yoreself to anything I have here. You are welcome to whatever I've got." Norris leered at him. "I'll bet you feel like I was your prodigal

son. A fatted calf wouldn't be near

good enough for me. His host decided not to put the welcome on too thick. Morg Norris was not a fool when his passions were not involved.

"You can have it straight, Morg. since you ask for it," he retorted "You've played yore hand like a damn fool. I was hoping you wouldn't show up here, but would slip across the line to Mexico. Well, you're here. There's nothing I can do but give you a lift on yor way. Right now all the passes will be watched. You wouldn't have a dead man's chance of getting through unless you had all the luck in the world. Question is, where do you aim to hole up? They will watch Tail Holt the way a cat does a mouse-hole. Even now someone may know you're here.'

"Only Sherm Howard, and of course he wouldn't give me away,' Norris said derisively.

"Sure nobody saw you come in?" "Sure. While I think of it, Sherm, I'll take that other gun you promised me." The slitted eyes stabbed into those of the older man.

For a barely perceptible instant Howard hesitated. He had a suspicion Morg was not armed. If so. he could be killed now with no risk. The man had become a menace. It fifty dollars left. would be well to get rid of him. He would come to him for rubbing out the desperado. But he could not do it. He found he had not the sheer nerve to draw and pump lead. not with the killer's gaze on him and his hand close to where the butt of a revolver might lie inside

"Glad to give it to you," Howard said in his cheerful voice of false heartiness. "You'll find it in the tray of the trunk there. It's a good gun too. Throws just a mite high.

but you'll make allowance for that." "You get it for me. Sherm." the visitor urged. "You know just where

Howard got the gun. He handed it to Norris, who broke it and made sure the chambers were loaded.

"Much obliged, Sherm," the outlaw said, mockery in his voice. "I back. can sure use this. Haven't had a gun in my hand since those skunks jumped me at Wild Horse."

The fat man made the best of it not dumb, Morg. Knew all the time you didn't have a cutter. Trouble with you is you're so damned suspicious. Why wouldn't I let you have a gun when you're up against it? You don't think straight."

"You'd bust a trace to help me wouldn't you, Sherm?" the killer

"Personally, far as I'm concerned, you can go to hell yore own way, Morg," Howard told him blunt-"But I stand by my crowd, and you're one of the gang, even if you do wear out our patience. You can't stay here, of course. Everybody the garden to a back street. Be- in making paints and varnish, wa in town comes and goes to this fore moving into the open road he terproofing materials, linoleum, house, as you know. Where do you glanced up and down it to make leather, soap, and lard substitutes.

Norris said with a cynical grin. "If used by the town for a baseball but the horse was plunging at the "I'm armed all right," the bandit you are a Good Samaritan to me ground. This he followed. Behind feel of the spur. Again Norris fired, sneered. "Don't make any mistake while I'm here that will about let the plate were two or three adobe his mount still in the air. An in-

"I don't care where you hide," the older man replied. "Nothing the rear door of the Golden Nugget. Norris ate ravenously. He drank to me. Go to the L C ranch and them the wrong steer."

"Sure. You'd hate to see them the kettle, and reduced this to the proper temperature. All the time he watched his host out of the corner of his eyes. "But there's one thing you can do for me, Sherm, since you're so anxious to help. I'm about out of mazuma. I'll take a small foan if you can spare it."

Howard took his time to answer. Money was his god. To part with t unless he saw a chance of getting it back with interest was a positive pain to him. He could read Norris like a book. The fellow was sneering at him, but back of this lay a threat. His request was an order.

He had collect me. But don't worry about been one of the king-pins there for They won't." The outlaw got a many months. He had ruffled it basin, poured hot water into it from with the best of them. Fifty times he had cantered into town with some boon companion and strolled in to drink, loaf, or play the wheel. Sick and weary as he was, nothing would have pleased him more than to drop in there and relax.

But he dared not show his face. The Golden Nugget was closed to him forever. When he had run away with Ruth Chiswick, he had put himself beyond the pale. If he were to open the door and walk in now a dozen cold, hostile faces would stare at him, and at the right moment bullets would crash into his body as they had into that of Wild "Haven't got much here, Morg, Jim Pender. Howard had been hurt all the Tail Holt outlaws. If they got the chance they would square themselves by planting him

in Boot Hill. He crept along the wall toward Main street. From this spot he had fired the shot that had wounded Lee Chiswick only a few weeks ago. Then he had been riding the top wave, a leader among the reckless. lawless cowboys of the vicinity. Now he was a fugitive, every man's hand against his.

A poor broomtail stolen in the hills had brought him to town, but he intended to leave on a better mount. That was why he had ventured so close to the heart of the town. There were sure to be horses in front of the Golden Nugget.

A half a dozen of them stood at the hitchrack. His eyes went up and down the street. A few people were in view, two or three of them lounging in front of saloons, one or two others moving briskly toward some destination. Norris stepped to the hitchrack

came the sound of hoofs. Three men rode round a corner and drew up at the Golden Nugget. One of hem was Curly Connor. Back of a horse Norris crouched. revolver in hand. He guessed that

U. S. WARFARE

Since mid-1937, the United States has suffered more than its share of labor troubles, which always appear during periods of business stringency. Whereas most strikes used to be peaceful, modern strikes are often accompanied by rioting in which bystanders and participants both are injured. Here are some of the strikes that have made headlines this year.

At Newton, Iowa, striking washing perpetually blowing and marking the sites of the cement plants scat-

@ T. W. Burgess .- WNU Service.

WE'RE always crabbing about twin beds. For purely practical reasons, rest assured. Because most bedrooms aren't big enough to hold them and leave room enough to turn around in.

And yet twin beds are a lot more comfortable for twisters and turn ers. Besides, they do look mo. stylish somehow We asked a decorator friend of ours for her ideas.

"Oh, I don't have any trouble arranging a room with twin beds," said she. "I just put them where I

please, instead of right in the middle of the floor." "For example," we encouraged

her to go on "Well, as often as possible I place them so that they can each have a long side to the wall. That saves loads of space. It works best if there are two opposite walls of the room that the beds can go against. leaving the middle of the floor clear. But if there aren't two opposite walls with the corners free, I use one corner, building in a false

square of compo board, like this.'

She got out a pencil. "I have a lamp niche on each side with a shelf for books, radio, clock and so on at the head of each bed-that takes the place of bedside tables.' E By Betty Wells WNU Service.

ARE YOU PREPARING FOR THE FAIR?

Are you thinking of the coming fair on September 30th and October 1st? Do you dream it, and plan it as you go about your day's work? That is one way of making it a success, that you and I will be proud of, and one way of creating pleasure that we all en-

Can a jar of fruit ar vegetables; make a pillowcase or two, practice cakes on your family the next few weeks, or cookies; we wager they won't object to sampling a few in between. Set a plate or gallon, whatever the list calls for, of alfalfa seed away, or oats, barley or what have you?

Don't for one minute think but what you have better than the other fellow, for too often the faint hearted might have won, if they

Only five more weeks, and that will pass in swiftness before our eyes. Let us be prepared.

FARM SOLUTION

Persons who believe the future for American agriculture depends on adoption of the technique of our welcome. large scale industries will be interested in the success of two operators of a Louisiana plantation in applying "industrialized" methods to make cotton farming prof-

The 2,400-acre plantation has been entirely mechanized. Six tractors each do the work of ten mules, an airplane spreads boll weevil poison, and trucks haul cotton from the fields to the gin to the number of about 1,500 bales a year. Tenancy has been abolished and day labor substituted, with two classifications of skilled and unskilled workers. Seventy families now live on the place where once there were 150. One thousand returned from Evanston, Illinois acres are devoted to cotton and where Mr. Clayter has been attendthe remaining land to corn and soy ing the summer school at Northbean crops. plantation say that the tenant sys- they visited relatives in Saunemin, tem is an attempt to make a given Chicago and also took a trip by area support more persons than boat to Milwaukee from Chicago. is economically possible.

"In good years, when production is heavy and prices are high," one of the plantation operators explained, "the mule system can turn out a profit after paying for labor and other costs; but in the bad years, the grinding years - and there are more of them than good -it cannot. This is what dedebt; he tried to make ends meet tlesnake bite. by cutting down here and cutting down there, by whittling wages, by snitching on fertilizer, by "economizing" on upkeep. Eventually subsistence basis.

"The tenant system can not be improved, because its methods are can be gotten rid of."

A recent survey of Texas farms conducted under the direction of Dr. C. Horace Hamilton, economist | Silver City. of the State Agricultural Experiment Station, may be illuminating in view of the comments of the Louisiana planters. On January 1, 1938, there were 478,000 farms in Texas, compared with 498,000 at returned from a visit in Las Cructhe beginning of 1937. The 20,000 decrease was attributed to the tractor, causing the consolidation of small farms. Dr. Hamilton further reported that the number of tractors on Texas farms has increased about 75 per cent in the last two years .- Fort Worth Star-Telegram.

Farms with ample feed and small grains for winter pasture need only fences, water and shelter to handle a farm flock. Some have found aged bred ewes preferable as a beginning, since they offer a quick return in both early lambs and a wool clip. Aged ewes will thrive on the farm where feed is ample and better care can be given after they have ceased to be profitable on the open range, hence they are often a better "buy" for the beginner than the yearlings and twos which the range sheepman prefers, and which he holds at a proportionally higher price. If open ewes are bought off the

range and placed on comparatively luxuriant feed on the farm they will usually breed readily in a as the dam cost, and the wa few weeks, and the ram should be paying the balance. This how on hand. The change from short is too much to count on as a feed to good feed is equivalent to | ular thing, and the beginner "flushing" to encourage breeding, not be disappointed if he fall a practice as old as the modern pay off his investment the sheep industry. We rejoice

but what marvelous memories in

An interesting incident happened to members of our family last week. They were wandering all over the states of the south, along a highway leading to the Capital city, and in the great Smokies of North Carolina, way up in a high canyon, so states Clifford: "We met up with the girl, who was the mother, who had lived in maid of honor at your wedding, fear of mortgages! And just goes to show you can never get away from home.'

We have a friend, we'll call him a satirist, but we will also still call him our friend, for after all friends are those whose very satire, can urge one on and on. But this friend wrote a little ode to E. M. and in that little poem, we gathered this friend couldn't see Great heavens, the lamp! 1 We still think we prefer to look up, as from a well; we prefer to look up, instead of down into the bottomless pit. Perhaps that will come all too soon.

In case you want a toastmaster or a line of jokes, you may call on our postmaster, and also on Mr. E. A. White. From actual hearsay, they can give such by the yard, enough to last during a session of a men's club dinner.

One needs to be careful of admonishment, we recall a young man urging that care be taken care of the Fair premium lists, and

forthwith left a sheaf of them in a careless location.

Mr. and Mrs. O. J. Ford, who last year built a new home on the southwest of town, have improved the yard, until it is a thing of beauty. A stone fence greets one on the front, and the entire yard is covered with grass, with concrete coping encircling flower beds. Chinese elms which have made a wonderful growth, afford shade. This promises to be one of the show places of the community.

Have you noticed the young lady, who was quite elated over a certain event this week, then attempted to impress folks with her dignity?

Do you know the news that is now confronting the state. breaking soon, which will give a surprise to a lot of folks?

the canners for the new crop.

By JOSEPH W. LaBINE

The little green package with the cellophane top, and the brightly colored label on a can of soup are daily becoming more important to the country's 31,800,000 farm population. Initiated by a few foresighted food producers, the use of modern packaging methods to help move food crops has become one of the chief hopes for boosting farm income.

With more than \$32,000,000,000 in farm lands at stake, the more alert farmers throughout the country are watching with keen interest the rate at which new packaging ideas are helping to move farm products off the grocer's shelves, making room for more. These more astute growers are particularly interested in the jump in sales, higher prices and increased acreage of crops wh have followed the development of

novel packaging methods. Progressive farmers, many of whom have taken advantage of cooperative movements to bolster the marketability of the crops, are keeping a finger on the pulse of all products moving under a packaging stimulant. They have seen celery acreages jump 121/2 per cent in four years, and have seen celery farm values skyrocket from \$14,-996,000 to \$16,646,000 in a single

As an example of what can be accomplished by modernized merchandising methods, agricultural experts point to the growth of 150 per cent in the shipments of Florida limes during three years in which the fruit was available to the public in small, attractive pack-

Tomatoes in Full Dress.

Innumerable devices for getting tomatoes before the public in a doz en different forms have been brought forth recently, and during the past 11 years there has been an increase of tomato production by more than 500,000,000 pounds a year.

One dramatic example of how a neat package can act as a hypodermic on sluggish sales was demonstrated recently in Birmingham, Alabama, under the watchful scrutiny of the 12 main tomato growing states' 2,300,000 farmers. Following an ideal growing season of plentiful rain, Birmingham found its markets overflowing with tomatoes, a highly perishable product. The situation required quick action and growers turned for a solution to an agency which had been employed by farmers elsewhere when faced with a

Reports indicated that a similar situation had faced California peach growers and showed how the producers there had taken the dilemma by the horns and turned what might have been one of their most ruinous years into a profitable one.

In January, 1936, warehouses were bulging with a carry-over of 5,469,000 cases of peaches—a figure 72 per cent greater than that of the previous year. Canners were offering farmers only \$14 to \$15 a ton for the oncoming crop, which was less than the cost of production.

Grocers to the Rescue.

The situation required quick disposal of the carry-over in order that the prices of the new crop could be stabilized and farm incomes saved. They turned to the retail stores to take advantage, if possible, of their mass buying and mass distribution systems.

A stabilization committee was set up and it immediately conferred with the National Association of Food Chains—a group representing 37,000 grocery stores—with a plan for staging a nation-wide canned peach sale. The association agreed and swung into action the vast dis- gourds, baskets woven by neighborattractively wrapped and properly try in some form. merchandised. Both producer and ers' income.

Heat Affects Layers

It isn't fatigue from a long period of laying, but it is high temperaures that cause smaller egg size n pullets from spring through the est of the year. Tests by Dr. E. C. Warren of Kansas State college's poultry department, show that where birds do not encounter maxidegrees, the maximum egg size is reached in July and August. Those birds subjected to high summer temperatures never reach the potential maximum egg size during the pullet year, except when they keep on laying very late in fall when temperatures drop. These Kansas results point to the need of protecting hens as far as possible from high summer temperatures, warns a writer in the Farm Journal. Not only do hens lay smaller eggs during heat waves, but the number of eggs goes down, too.

By CHERIE NICHOLAS

T'S time to knit! Or do you happen to be a croof the perfectly charming sweaters here pictured.

We'll wager that at sight of these ultra chic and fascinating sweater fashions your fingers will begin to tingle, your heart action quicken as a sudden urge sweeps o'er you to clickety click those knitting needles of yours faster than they ever clicked before. Or, if perchance, it's a crochet needle you wield, we've an idea it's going to go at rapid pace to complete a

model shown above to the right in the illustration, for of course you will be wanting to have it ready to wear with the new fall suit. The other two sweaters in the picture are knitted.

We agree with you, this trio of hand-made sweaters certainly have a chic and charm about them that about the knitting and crocheting of 'em, for each of the models is really very simple to make.

"Sweaters this year," comes word from Paris, "will be new because of their departure from the conventional." Short, just over the hipone is the foreword that réaches us in regard to the new fall sweaters. Many are slide fastened for mostly everything is being zippered among the new fashions that can be zipped. The majority of new sweaters have low necks.

The band-and-bow trim that gives such dainty feminine detail to the to the right affords a grand opportunity to carry out a two-color scheme which is something to take note of, considering that bicolor treatments are highly important in the current stylizing program. The three bands of contrasting color are fastened with bows made of tufts of fringe formed of the identical mercerized

wear your sweater.

knit of knit-cro-sheen in an open-work stitch interspersed with solid blocks that gives a sort of plaided blocks that gives a sort of plaided jacket on. SUMMER ERMINE By CHERIE NICHOLAS

In the way of a summer evening wrap the short fur, feather or marabou bolero ranks at the top of the list, making an agreeable cnange from the fashionable cape. The one pictured is in natural beige summer ermine, worn over a white crepe frock with accordion pleated skirt. The smart young women who go to parties and such adore these boleros. The bolero in brown fur (very important for fall) is forecast as a smart daytime item.

Brushed-Up Coiffures Now

Go With Doll-Sized Hats It seems as if the idea of brushed-up hair is gaining, whether we like it or no. At any rate buyers returning from midsummer trips report that they will show the new tiny doll-sized hats launched by Schiaparelli, worn atop higher hairdress that brings curls up off the ears. It remains to be seen how well the fashion will "take." You never can tell, fickle fashion, fickle public are apt to go to any extreme. | high style.

PART FABRIC, PART KNIT NEW FORMULA

By CHERIE NICHOLAS

College girl, here's your cue to you prefer, a monotone wool of plain or novelty weave. Your choice runs from rich dark autumn tones to the now-so-fashionable pastel colors.

Then there are those amazing three-piece ensembles that employ the identical yarn employed in knitting the sweater, as is used for weaving the cloth for jacket and skirt. There's no-end chic in the costumes of cloth that have short fur jackets with sleeves and borderings, knit of yarn in colors that tune to the scheme of things.

Cerise Added to Popular Pinks by Paris Stylist

Cerise is a new step on the ladder of pinks. A pleasant variation of the more purplish fuchsia shade, the cerise is used by Lelong for a flowing sash tying around a deep blue evening gown with a halter

And the same vivid shade is the oackground for a dainty white-dotted Swiss, which forms the bodice for a bouffant white tulle skirt. The bodice is draped up and over the right shoulder but comes under the left arm, thus leaving the left shoulder strapless, while the right is well covered.

Adding Bright Touch Flowers on the bodice of an evening frock matched by flowers in the hair supply all the decoration that one could want for festive oc

casions.

C. Houston Goudiss Explains the Causes of Food Allergy

Well-Known Food Authority Names the Foods That Cause Trouble

By C. HOUSTON GOUDISS

A NEW phrase has crept into daily usage in recent years, has in fact become so common that comedians use it in jest and draw laughs from their audiences when they mimic, "I'm allergic!" But the words have deep significance for perhaps 30 to 60 per cent of the population who have cause to agree with the old saying that "one man's meat is another man's poison."

They are victims of the curious ® phenomenon known as food al- who are sensitive to milk, eggs lergy and have an abnormal reac- and butter. tion to the proteins in certain foods and other substances. As a normal balanced diet, cause a even the sting of a bee. variety of unpleasant effects.

Send for This FREE **VITAMIN PRIMER** Offered by C. Houston Goudiss

DO YOU want to know where to find the differ-ent vitamins? Just write to C. Houston Goudiss at 6 East 39th St., New York City, for 39th St., New York City, for his new "Vitamin Primer." It tells the facts that every homemaker needs to know about vitamins. In simple chart form, the functions of each vitamin are explained, and there is a list of foods to guide you in supplying your family with adequate amounts of these necessary food factors. • The bulletin will be especially belpful to those who must avoid cer-tain foods, as it offers a wide choice of foods containing each vitamin

Other Offending Substances Foods are not always responsi-

Discovering the Offenders

The ideal procedure for the allergy victim is to find out the ofindividual may suf. fending foods or substances and fer from migraine avoid them. For early recognition headache or an at. of a tendency to allergy may pretack of hay fever vent discomfort and trouble

There are two ways to discover the trouble makers. One is to learn by experience, either by pears to be bron- keeping a record of the foods eatchial or head colds. en and noting the appearance of It has been de symptoms, or by eliminating from the diet, first one and then another symptoms in an in- of the foods that are suspected of causing difficulty. The other is to lergic are due to let your doctor conduct simple intolerance of certain proteins, skin tests. Small scratches are "darling" sweater like the crocheted | crochet cotton used to make the Even when the offending foods are made on the arms and legs, and each scratch touched with a solution made of the protein of a food or substance known to cause trouble. If a person is allergic to that The inflammation disapno pain or inconvenience.

Other Foods Must Be Used

Once the offending food or foods are determined, they should be your jacket as it does with the occur as a sort of defense mechan- eliminated either for all time or until the individual becomes desensitized. If the trouble maker is an uncommon food, such as lobster or clams, the allergy presents no great problem, but when children react to necessary foods such as milk, eggs and wheat, the homemaker faces a difficult task.

FREE CHART

CAUSE TROUBLE

FOODS THAT OFTEN

C. Houston Goudiss will gladly send you, FREE, a chart showing which foods have been found most frequently to cause allergic reactions, and also those which are the least likely to cause trouble. Just state your request on a postcard and address it to C. HOUSTON GOUDISS, 6 East 39th Street, New York City.

it must be avoided, not only as a beverage, but in bread, cakes and puddings. Sometimes dried or evaporated milk, goat's milk or soy bean milk may be used inresult, foods which are beneficial ble for allergy, and the symptoms stead. When wheat is the trouble in themselves and which usually may be produced by contact with maker, the alternatives include have an important place in a wool, feathers, dust, policin, dander construction from horses or other animals; or rye flour; rice and corn cereals; wool, feathers, dust, pollen, dander | cornstarch, rice flour, potato or tapioca or barley. When hen's eggs are injurious, duck's eggs can sometimes be used with success, or meat or fish may be sub-

> Sometimes after a period of exclusion, an immunity is built up so that later the foods may be reintroduced gradually into the diet.

Don't Jump to Conclusions

It must be borne in mind that many of the symptoms produced by food sensitivity may also result from other causes. For this reason, it is unwise to decide that one is allergic without due investigation. Nor must the imagination or the current widespread discussion of the subject be allowed to cause adults or children to mask their unwillingness to eat certain foods with the false notion that they are unduly sensitive.

On the other hand, homemakers should be sympathetic with both children and adults who say with good cause, "I can't eat that!" And it would appear that there may even be some compensation in this unpleasant situation. For a group of scientists who have studied the subject announced a few years ago that those who belong to the allergy group appear to have a definite capacity for becoming intellectually superior. Thus, the child who suffers from a skin rash or stuffy nose today. due to food sensitivity, is apt to be full of energy when he reaches manhood and exhibit unusual abilwhen milk is the offending food, www.-C. GARRETT-HART

One of the most charming of weddings of the season was solemnized last Sunday at the Jack Sweatt home, when Miss Marie Garrett became the bride of Mr. Robert Hart, both of Monahans,

Amid a wealth of fragrant summer blossoms, an improvised altar was arranged, and the beautiful double ring service uniting this popular counple was read by the Rev. Emery Fritz at the high noon

Only relatives were present, and following the ceremony a wedding luncheon was served. A beautiful three tiered wedding cake was cut by the bride. The cake, which had been baked by the bride's sister, Mrs. Phil Tripp and the bride's cousin, Mrs. John Mann, was lovely in it's bridal colors, and topped

with a miniature wending scene. The bride wore a costume in navy blue color and her accesor-Texas, and is charming and lovable girl. She received her education in Texas Mary Lou Woody, Dennis Evschols, and is employed at the First National Bank of Monahans. She has visited in Hagerman at various times for several years, and spent most of the summer of 1937 here, making a host of friends in Hagerman. Mrs. Jack Sweatt was her mother's sister, and it was the bride's wish to be married in the Sweatt home.

Mr. Hart is an employee of the Cameron Lumber Co., and the couple will reside in Monahans, where BAPTIST SUNDAY SCHOOL each will continue with their posi-

The couple left for an unknown honeymoon trip, and will return to Monahans after August 31st.

DEXTER WOMAN'S CLUB TO OBSERVE ANNIVERSARY

The membership and program committees of the Dexter Woman's school. Club are already at work making plans for the opening of the thirtysecond year of the club's existence. The program outline, while still in the making, promises much of interest and enlightenment. The president, Mrs. R. G. Durand, for a book study on "How and states that every effort will be Why." made to plan the program so that pertaining to auxiliary work in the sessions will not be as lengthy as in the past.

The membership committee desires that every public spirited PICNIC COMPLIMENTARY woman, who is interested in the welfare of the community become a member. All are urged to pay the annual dues of \$1.00 yearly, Guy West and daughter, Helen and have their name in the year
