NUMBER 39

HAVE POWER TO ISSUE BONDS.

Opinions Rendered By District Attorney and Attorney General Announce that Commissioners Have Authority to Issue Court House Bonds.

SEVERAL BIDS FOR BOND ISSUE RECEIVED

The law with reference to the removal of county seats has been so often amended that some question had arisen as to the authority of the Board of County Commissioners of Lincoln County to issue bonds for the construction of a court house and jail at Carrizozo; so the Board called upon District Attorney Llewellyn and Attorney General Clancy for an opinion, and they are herewith presented:

Las Cruces, N. M.,
October 23, 1909.

"Hon. Robert H. Taylor,
White Oaks, N. M.

Dear Sir:—In reply to your inquiry of the 11th instant, I have to advise you that it is my opinion that Section 632 C. L. 1897 gives the Board of County Commissioners full power and authority to authorize a bond issue for the purpose of building a court house at Carrizozo.

Very truly yours,
M. O. LLEWELLYN,
Deputy District Attorney."

October 23, 1909.

"Hon. W. H. H. Llewellyn,
District Attorney,
Las Cruces, N. M.

Dear Sir:—I have received your letter of the 18th inst., enclosing another addressed to you from Mr. Robert H. Taylor, Chairman Board of County Commissioners of Lincoln County, in which he says that the board desires an opinion from you and from me as well, as to whether or not the board has authority to issue bonds for the purpose of raising funds with which to build a court house and jail.

In answer to this I have to say that I find ample authority for the issuance of such bonds in Sec. 632 of the Compiled Laws of 1897.

The county seat of Lincoln county appears to have been removed from Lincoln to Carrizozo as the result of an election held under the provisions of Sec. 2 of Chap. 80 Laws 1909. That section amends Sec. 630 of the Compiled Laws of 1897, leaving Secs. 631

to 634 of the Compiled Laws unchanged, all of said sections being originally parts of Chap. 6 of the laws of 1897.

By Sec. 630, as amended in 1909 as amended in 1909, it is required that the persons interested in the removal of a county seat must, before the commissioners call an election, make a deposit of \$40,000 to be used in the construction of a court house and jail, if the county seat is changed, but such deposit is required only in the counties which have court houses and jails the original construction of which cost more than \$30,000. Now, the letter from Mr. Taylor declares that the board has found that the original cost of the court house and jail at Lincoln was less than \$30,000, and it was undoubtedly necessary that this should be so, or the board never would have called an election without the \$40,000 deposit being made.

Under these circumstances, reading Sec. 632 as a part of the same act as Sec. 630, in its new form, as it appears in the law of 1909, it is quite clear that the county commissioners are definitely authorized to issue bonds for the purpose of the construction of a court house and jail. It is true that Sec. 632 makes it a condition precedent to the construction and the issuing of bonds that the money mentioned in the written guarantee provided for in Sec. 630 shall have been paid over, but this has no application to the law as it now stands, as it does not now require any guarantee, but the actual deposit of money if the old buildings cost more than \$30,000. I can discover no valid objection to the issuing of the bonds upon the statements made to me.

I will send a duplicate of this letter to Mr. Taylor for his early information.

Yours truly,
(Signed) FRANK W. CLANCY,
Attorney General.

Attorneys at Court.

A number of attorneys are here attending court, and more will arrive before the term ends. The following represent the list here at present:

M. O. Llewellyn, deputy district attorney, Las Cruces; J. E. Wharton, El Paso; Byron Sherry, Alamogordo; John Y. Hewitt and Wm. Watson, White Oaks; G. W. Prichard, Santa Fe; Geo. B. Barber and Wm. F. A. Gierke, Lincoln; G. W. Hall, L. R. Wade, H. B. Hamilton, George Spence, Carrizozo.

When You Come to Court

YOU are invited to make our Store your headquarters. Attend to your correspondence in our room set apart for visitors. We will be glad to see you if you buy anything or not. We will be pleased to show you over our immense stock. We buy in large quantities, and meet any and all kinds of competition.

Don't Fail to see the Prize Doll

that we will give away. You might be the lucky one, and a chance will not cost you one cent. Ask to see it.

NUTS ARE POPULAR

THEIR USE AS FOOD IS GROWING IN THIS COUNTRY.

Immigrants from Southern Europe and the Orient Like Them—Some of the Varieties Which Are Considered Most Delicious.

The growing popularity of nuts for food and the number of new sorts introduced in recent years to the notice of people in this country is ascribed by experts of the department of agriculture to the influx of immigrants from the southern nations of Europe and the orient.

"Pinenuts, for example," said a member of the plant industry bureau of the department, "which grow in the cones of certain varieties of native and foreign pines, are now fairly common in our markets. It is a fact that the Indians have always known and appreciated them. They are small, rather pointed and white, and are usually marketed shelled, but as they grow they are covered with a more or less hard, woody shell.

"The pistache nut, now grown in California, has long been used and is prized by confectioners for its delicate flavor and attractive green color, yet it is by no means common. The nuts are small, not unlike a bean in size and shape, though more pointed, and before marketing are freed from the pods in which they grow. The individual nuts are covered with a gray or purplish skin and are blanched before they are used.

"The so-called lichi nut, which is really a dried fruit, surrounded by a nutlike shell and not unlike a raisin in flavor, is a favorite in China, and has become common in this country. The ginkgo nut, the fruit of an ornamental tree widely known in the United States and sometimes called the maiden-hair tree from the shape of the leaves and which fruits abundantly in some regions, is seldom eaten except by the Chinese, who gather it whenever possible. The small, roundish, oval, thin-shelled nut is surrounded by a very acrid, bad-smelling pulp, the whole fruit being not unlike a green damson plum in size and appearance.

"In China, Korea and other parts of the orient this nut is much used as a food, and so far as can be learned is always cooked in some way. Roasted like a peanut, it is palatable. The ginkgo nuts are on sale in various Chinese shops in the large cities.

"The water chestnut or horn chestnut, an aquatic plant, produces a seed which somewhat resembles two curved horns united into one, the kernel of which is largely used as a food by the inhabitants of Asiatic countries. It is on sale in the United States to a certain extent, but chiefly in Chinese shops.

"Another water plant is also known as the water chestnut, but in this case it is the corn or bulb that is eaten. It is not unlike a chestnut in shape, and has a tough brown skin. This is grown in Asia, but it is imported by the Chinese in this country.

"A nut which seems to be growing in popularity, though still uncommon, is the paradise nut of South America, which resembles a brazil nut in appearance and flavor. Still less common is the South African cream nut, though it is sometimes shipped to this country.

"The choicest member of the Brazil nut group is the true butternut of the tropics, which is very seldom found outside that region. Its flavor is very delicate and delicious, but it does not keep well; and even if it would bear shipment successfully the available supply is at present very small.

"The cashew nut of tropical regions, which many consider one of the most delicious nuts grown, has long been known, but has never become common. It is sold to some extent in this country and brings high prices.

Chafing Dish Defined.
Pat—"An' phwat the devil is a chafin' dish?" Mike—"Whist! Ut's a fryin'pan that's got into society."

Important to Mothers.
Examine carefully every bottle of CASTORIA a safe and sure remedy for infants and children, and see that it

Bears the Signature of *Charles H. Fletcher* In Use For Over 30 Years. The Kind You Have Always Bought.

Cobblestones for Baltimore.
The Brooklyn Standard Union says that "those people from the rural regions who jeer at Manhattan's horse cars may take note that the Baltimore city council is preparing to pave a street with cobblestones."

Dodging Work.
"It's too hot to do housework," sighed the wife.
"I know it is."
"Let's go and spend a few days with the Browns at their summer cottage. They'll be tickled to death to have us."

Wild Horses in Southwest.
Wild horses are found roaming in bands on the plains of New Mexico, Arizona, Nevada and California. Of 50 horses captured by rangers in the Modoc national forest, about half proved to be branded stock which had grown wild, the others being horses that had never known the ownership of man.

Standard Oil Wails.
The Standard Oil Company's real estate holdings in Bayonne, N. J., where its largest oil refining plant in the east is situated, have been increased from \$7,360,000, the value fixed upon them in 1908 for taxation, to \$13,000,000. The company is appealing against the increases fixed upon the realty by the Hudson county board of equalization.

Its Troubles.
The family skeleton complained. "I wouldn't mind being exhibited once in awhile," said the skeleton, articulating with difficulty through its set teeth, "but they air me so frequently in the courtroom, where the air is always notoriously bad."
But who ever thinks of looking at such exhibitions from the family skeleton's point of view?

THE DOCTOR'S WIFE
Agrees with Him About Food.
A trained nurse says: "In the practice of my profession I have found so many points in favor of Grape-Nuts food that I unhesitatingly recommend it to all my patients."
"It is delicate and pleasing to the palate (an essential in food for the sick), and can be adapted to all ages, being softened with milk or cream for babies or the aged when deficiency of teeth renders mastication impossible. For fever patients or those on liquid diet I find 'Grape-Nuts and albumen water very nourishing and refreshing.'"
"This recipe is my own idea and is made as follows: Soak a teaspoonful of Grape-Nuts in a glass of water for an hour, strain and serve with the beaten white of an egg and a spoonful of fruit juice for flavouring. This affords a great deal of nourishment that even the weakest stomach can assimilate without any distress."
"My husband is a physician and he uses Grape-Nuts himself and orders it many times for his patients."
"Personally I regard a dish of Grape-Nuts with fresh or stewed fruit as the ideal breakfast for anyone—well or sick."
In any case of stomach trouble, nervous prostration or brain fag, a 10 day trial of Grape-Nuts will work wonders toward nourishing and rebuilding and in this way ending the trouble.
"There's a Reason," and trial proves. Look in pkgs. for the famous little book, "The Road to Wellville."
Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

If these amateurish aviators want to watch real soaring, just let them take a look at beef prices.

NEW SEARCH FOR BURIED TREASURE OF CAPTAIN KIDD'S

For more than two centuries adventurous and ever hopeful persons have been seeking the treasure which that bloody pirate, Capt. Kidd, is supposed to have buried in Chester Basin, Nova Scotia. Now it is announced that another organized search for the vast amount of gold and jewels is to be made.

Capt. Kidd was said to have secreted this treasure, estimated at more than \$10,000,000, when on one of his cruises about 200 years ago he landed on Oak Island. Probably many thousands of dollars have been spent in unavailing search for the loot.

In 1795 three men—Smith, McGinnis and Vaughan—visited the island and while rambling over the western part of it came to a spot of which the unusual and strange conditions at once attracted their attention.

Old Shaft Discovered.

They started digging in the spot and as they got down they discovered a well defined shaft, the walls of which were hard and solid, and it is said that in some places old pick marks were to be seen, while within the walls the earth was so soft that picks were not required. On reaching a depth of ten feet an oak plank was struck. They kept on digging until a depth of 30 feet was reached, finding oak platforms at each ten feet.

Captain Kidd's House in New York City.

At this point the earth proved to be too heavy for them. Superstitious beliefs were in full force in that part of the country at that time, and on this account they were unable to get any help to continue the work and were obliged to abandon it.

After an interval of six or seven years accounts of the wonderful discoveries made at Oak Island had spread all over the province and a gold seeking expedition was formed

in Truro, N. S. Work was at once resumed and the shaft was excavated to a depth of 90 feet. Marks were found every ten feet as before, and an iron bar was frequently used in taking soundings. At the 90-foot mark a flat stone two feet long and 14 inches wide was discovered. On it were cut characters which an expert read as follows: "Ten feet below are two million pounds buried." This gave the searchers renewed hope.

This was Saturday night. Monday morning when the men returned to work the shaft was discovered full of water. It was then decided to sink a new shaft and to tunnel under the "money pit" and to take the treasure out from below. The pit was sunk to a depth of 110 feet, and just as the workers thought that the treasure was theirs the water burst in on them and the men barely escaped with their lives.

This ended the effort, and it was not till 1848 that operations were resumed, but again the water forced the toilers to stop working.

In 1863 another effort was made to overcome the water and obtain the treasure. The undertaking proved to be most difficult, as the flow of water was very heavy. About this time the men who were engaged in the underground work got the idea that the

made heroic efforts to overcome the flow of water but were forced to abandon it. It was at this time that a copper coin weighing an ounce and a half, dated 1317, and a stone boatswain's whistle were found in the bottom of the pit.

Among the other "signs" which led the discoverers to dig were the remains of a hoisting block, such as is used on sailing craft, hanging to the limb of a tree which overhung the "money pit." One of the ten foot-marks found in the "money pit" was a layer of putty. This was used in the glazing of the windows of a house built there afterward. Other layers were charcoal. These articles are usually found among the stores of seagoing craft. Among other things

was worked for some time in an attempt to get it deeper, but it would not go down, and when brought up the bore was cleaned in a basin and the dirt washed out the same as if looking for gold.

A piece of parchment with several pieces of wood was the result of this washing.

New Pit Sunk and Filled.

Another hole was then started and wood was struck at 120 feet and the soft stone at 152 feet.

This time, however, they struck the box on its edge and the chisel worked down past it to 157 feet, when soft stone was again struck. They bored through this and found it three feet thick. Under this they found ten feet of puddle clay, and at 170 feet they

Map of Workings On Oak Island.

that go to prove that these things were put there by seagoing men is an iron ringbolt imbedded in the rock. This can be seen only at very low tide and can be accounted for in no other way than that it was put there to moor vessels to, long ago.

Attempt to Pump Out Pit.

In 1896 a new Nova Scotian company was organized to look for the treasure. In the autumn of that year work was again started, with two engines and steam pumps, with the intention of pumping out the "money pit" and forming a way down the pit, which was then opened to a depth of 58 feet. At 108 feet a tunnel cribbed with timber was struck. The men went into this tunnel to explore and had gone but a short distance when they discovered a large pit about eight feet square and open as far as they could see. The pit was opened up and at 38 feet a platform was struck.

The pit from this depth was open and well cribbed down to a depth of 108 feet. The workers at once pumped the pit out and commenced digging, but had a great deal of trouble in keeping the water out, and it was after a great deal of work and time the 113 feet was at last struck. At this depth the water became very heavy and the pumps had all they could do to keep it out. The pit was eight feet square. At this time one of the pumps went wrong and before she could be repaired the pit filled up with water.

They swung in a three-inch pipe through the water to the bottom of the pit and commenced boring, with the idea of striking the treasure at a depth of not greater than 125 feet.

No one dreamed of there being anything below that depth. They bored through puddle clay down to a depth of 130 feet and struck nothing but several pieces of wood from 120 to 126 feet.

They started another hole and struck iron at 126 feet. The auger

struck iron, pieces of which they brought up, but they did not attempt to get through it.

After they gave up the boring they decided that the best plan was to sink another pit. A pit was accordingly started, but at 108 feet the water drove them out. Starting a new pit was cheaper than pumping, so again a new pit was started, but much further away from the "money pit." This was sunk to a depth of 160 feet, and if it had not been for the ill luck that always followed them at Oak Island the mystery would have been solved. At 160 feet, without a moment's warning, with a great rush the water once more broke in.

Caving of the Tunnel.

The "money pit" at once began to fill and circumstances at once showed that there was a perfect connection between the two pits. This was just what was wanted, although not quite deep enough. They at once tore the cribbing and everything else to pieces. Upon close examination it showed that no vent had been made for the water on the down stroke of the piston, and it took them more than a week to fix this mistake and get the pumps running again.

In the meantime the pit had been standing full of water, with the cribbing in a damaged condition. The water worked into the tunnel at a 95-foot level and it caved in.

That was the end of the venture. Since that time three pits have been sunk, but they have all proved failures.

The present theory is that a tunnel runs through from Smith's Cove into the "money pit" to the opposite shore. This pit is very close to the tunnel and the water broke into the pit from it.

It is now generally believed that the tunnel running to the cove was either choked by work done on the shore by the Halifax syndicate or by the dynamite used by the company working in 1896.

THE ELECTIONS.

The elections last Tuesday in several states and municipalities resulted pretty much in an equal division of the offices. The most surprising result in the entire contest was in Massachusetts where the democrats came within 5,000 or 6,000 of electing their governor, whereas two years ago the republicans had 60,000 majority. The effect, in a moral way, was a democratic victory.

Rhode Island elected a full set of republican officials, while Virginia chose officials from the opposite party. Tom Johnson was defeated for mayor of Cleveland by his republican opponent by a majority of 4,000. Justice Gaynor, the democratic candidate for mayor of New York City, won by 70,000 but many of the other important offices were captured by the combined opposition. The Tiger had its claws trimmed, but not extracted. In the state of Maryland the contest was on the adoption of an amendment of the constitution, which had for its purpose the disfranchisement of the negro. The amendment was lost by about 7,000. Francis J. Heney was defeated for District Attorney of San Francisco, and the labor union again secured control of the city, electing their mayor. Honors were pretty well divided between the opposing parties in Indiana, although the general result indicates a democratic gain.

SERVANTS.

The good book tells us that ye cannot serve two Masters; ye cannot serve God and Mammon. The world has come to believe that is absolutely true; but when admitting that, it must not be forgotten that the belief is quite as general that few will enter the pearly gates because most are Mammon servers.

While these things are accepted without question, it is not generally known that ye cannot serve God and the people; but under our code it is so, and we had an ocular and audible demonstration of the fact Monday evening in the court room. The jury was being empanelled and the judge had called on the members to rise and render any excuse they might have to offer as to why they should not serve.

One lean, long member from the tall uncut arose, and said:

"Your Honor, I have two reasons to offer for not serving on this jury. The first is that I am a minister of the gospel, and the second is," "You needn't trouble about the second" replied the judge, "the first is sufficient; ministers are disqualified; you're excused. Call the next name, Mr. Clerk." And so it is; a minister cannot divide his services; the people have no claim on him. We have long known that ministers were exempt from many duties that the ordinary man had to perform, but we are again compelled to congratulate him upon his immunity from jury service.

Many Cases Dismissed.

The following cases have been dismissed, without prejudice:

Timoteo Analla, assault; John B. Wharton, assault; Ed. West, larceny; John McLennon, minors in saloon; Maurice Sanchez, attempt to rape; Antonio Perez, attempt to rape; Andres Smith, larceny; W. S. Kirby, assault; Geo. Cox, larceny; E. R. Dye, et al, larceny; Jasper Cox, et al, receiving stolen property; Elisha Cox, receiving stolen property; John Harkey, assault; W. R. Beaty, et al, false pretenses; Geo. Smith alias Lee, larceny; William Stanton, gambling; N. S. Rose, failing to account for fines; Estanislado Montano, larceny; P. C. Baird, larceny.

The following were dismissed: George Maes, contempt; Nicolas Maes, contempt and Jap L. Clark, deadly weapon, was nollied.

A Scrap in the Jail.

"When the cat's away the mice will play" is an old saw, which was thoroughly illustrated in the Lincoln county jail on Tuesday morning of this week during the temporary absence of Sheriff Stevens. It appears that there are about fifteen prisoners in the county jail—which number will be materially reduced by the time district court adjourns—and that all sorts of arguments are indulged in, not merely for arguments sake, but in order to kill time and "drive dull care away."

On the morning in question, a discussion arose between a prisoner called "Foreigner Joe" and another named Darling, both having received their sentence from this place. As the discussion progressed, the boys grew warm, much to the amusement of the other prisoners. Words failing to convince, they decided to resort to a passage at arms, and have it out in the old style, without gloves. Seconds were chosen and a referee appointed, straight Queensbury rules adopted, the articles calling for a finish fight at catch weights.

Ten vicious rounds were fought when Darling's seconds threw up the sponge, the referee awarding the victory to "Foreigner Joe." Darling is said to have put up a game fight and there is some talk of the boys having another "go" in the near future. After all life is not as dull in the county bastille as one might imagine.

Women Suffer Agonies from Diseased Kidneys
And Most Women Do This Not Knowing the Real Cause of their Condition
These poor, suffering women have been led to believe that their misery of mind and body is entirely due to "ills of their sex." Usually the kidneys and bladder are responsible—or largely so. And in such cases, the kidneys and bladder are the organs, that need and must have attention.
Those torturing, enervating sick headaches, dragging pains in back, groin and limbs, bloating and swelling of the extremities, extreme nervousness or hysteria, listlessness and constant tired, worn-out feeling—are almost certain symptoms of disordered and diseased kidneys, bladder and liver.
DeWitt's Kidney and Bladder Pills have, in thousands of cases, been demonstrated as remarkably beneficial in all such conditions of female organism—affording the most prompt relief and permanent benefit.
As an illustration of what these Pills will do, Mrs. P. M. Bray of Columbus, Ga., writes that she was very ill with kidney trouble, and that she is now well—and that these Pills are what cured her.
They are very pleasant to take, and can in no case, produce any deleterious effects upon the system—as syrupy, alcoholic, liquid preparations are apt to do.
E. C. DeWitt & Co., Chicago, Ill., want every man and woman who have the least suspicion that they are afflicted with kidney and bladder diseases to at once write them, and a trial box of these Pills will be sent free by return mail post-paid. Do it to-day.
For Sale at Dr. Paden's Drug Store and Rolland Bros.

LOST—At Capitan, Tuesday night, an English setter dog: color white with a few reddish-brown spots; red-brown drooping ears, long, feathery-looking white tail; answers to the name of "Brownie," or "Brownie-Boy." A reward of \$5.00 will be paid for his recovery.
MRS. M. I. PARDEE,
Capitan, N. M.
Notice Ziegler Bros. ad. in this issue. They invite you to attend their Opening. Are you going?

ADDITIONAL LOCAL.

Tom McDonald is in town today from his ranch, near Salinas Peak.

Mrs. W. C. McDonald went to El Paso this week, to visit with relatives.

T. J. Grafton was in this week from the head waters of Bonito with a load of spuds.

Nogal hasn't a representative on either of the juries; but she doesn't consider this a reflection on her citizenship.

Court brought a large crowd in town this week, and the session, so far, has brought joy to many; for the docket begins to look sick for lack of cases.

Cattle shipments continue, and the range will be relieved of its burden, or a large part of it, this winter. Few stockmen in this country have sufficient range to carry their stock through the winter.

Dr. and Mrs. T. W. Watson came up from Lincoln Sunday. The doctor has a temporary treasurer's office fitted up in the Carrizozo Trading company's store, and is ready to entertain any and all who have business with the collector and treasurer.

Judge Cooley is handling cases with such rapidity that he is making the old docket appear useless. He announced his purpose at the beginning of the term to clear the docket, and unless the grand jury grinds out too much business, the pace so far set indicates a clear docket at the end of the term.

J. M. Bell, Richard Brockman and J. L. Van Zant came over from Fort Stanton the first of the week on their way to El Paso. Bell's main object was to witness the big ball games, his interest in the game not diminishing, even if he has quit the league.

W. L. and John F. Gumm left this week for the Mimbres valley in the western part of the territory, where they have contracted for six carloads of apples, which they will ship to points in Texas. They expect, when they reach there, to increase the shipment to ten or twelve carloads, and possibly more.

A special meeting of the Board of County Commissioners has been called to meet here next Monday. The purpose of the meeting is for the consideration of the issuance of bonds to erect a court house and jail. The legal advisers of the board have rendered an opinion to the effect that the law authorizes the Board to issue such bonds, which opinions will be shown in another column.

CAPITAN.

Ex-Sheriff Owen is up this week from Lincoln, greeting his old friends.

Gov. George Curry arrived yesterday morning from Santa Fe, the Capital.

Sam Fambrough was among the visitors from the Ancho country this week.

Dr. A. B. Cross was down this week from Corona, to witness the opening of court.

C. C. Bennett came up Sunday from Lincoln, and is chief clerk to Sheriff Stevens.

John P. Murray is in this week from his mines at Murray, in the Oscuro mountains,

Henry Stutz, an old-timer of this county, now living below Lincoln, was up during the week.

Robt. A. Hurt, county assessor, is over from Capitan this week, meeting friends and attending court.

G. A. Bush, the plaster, cement and brick manufacturer of Ancho, was a pleasant caller at the NEWS office Monday on his way to El Paso.

Charlie Tompkins, formerly of this place and White Oakes, came up from El Paso Sunday to meet his mother. Mrs. Tompkins has been visiting her daughter, Mrs. J. M. Penfield, at Lincoln.

Q. Sadler, special agent of the E. P. & S. W., is up from El Paso this week.

A bunch of Mesa and Nogal boys were down last night to attend a special session of the Odd-fellow lodge.

W. H. Sexton was one of the lucky ones. He got excused from the jury and returned home to gather corn and beans.

D. W. Glenn came down from Ancho Sunday and left Tuesday for El Paso to take in the big "doings" there this week.

Fred Pfingsten, manager of the company's farms on the Bonito, left Tuesday for El Paso, to attend the fair and exposition.

Uncle Johnnie Burns, a prominent stockman and substantial citizen of the Picacho country, is here this week, attending court.

W. D. Gray returned this morning from Kansas City, to which point he had gone with a train load of cattle for W. C. McDonald.

Harry Comrey, an early settler of Lincoln county, coming to White Oaks in the early eighties, was down yesterday from Ancho.

Bert Roland spent a couple of days in town this week. He formerly resided in this county, but

is now located at the Mescalero Agency, and was returning from a visit to his old home in Arkansas when he passed through here.

Will Ferguson and L. R. Lamay were down Saturday from the Mesa, disposing of some of their produce, and laying in a supply of goods.

A. W. Purcella was up this week from Analla. His family lived at Capitan but now owns the old Analla homestead, which is one of the best places on the Hondo.

Wm. F. A. Gierke has just received his commission as District Deputy Grand Master of the Ninth Masonic district. The counties of Lincoln, Otero and Dona Anna compose the district.

C. E. Wheatley and wife were in Saturday evening on their way from Kansas city. Mr. Wheatley is a nephew of G. B. Greer, and he and his wife had been visiting the Greer family on the Bonito.

Lincoln county has a centenarian, he having reached the one hundredth milestone the 12th of last month. J. C. Hightower, Sr., who resides on Eagle Creek, has seen a hundred summers, the last thirty of which have been spent in this county.

District Clerk Downs meets all with his accustomed courtesy, has the desired information always ready and carefully looks after every detail that requires his attention. His record is a good one and it is a pleasure to transact business with him.

Mrs. C. C. Bennett arrived this morning from Denver to join her husband. After court adjourns Mr. and Mrs. Bennett will visit El Paso, and then return to Lincoln, where Mr. Bennett has resided the past two years.

The Johnson brothers, of Capitan, returned from El Paso last week with a 40-horse Buick automobile, which they purchased there. It is a fine looking machine and a "distance annihilator," as is shown by the speed it records—from here to Capitan in less than two hours.

William Frost, a pioneer miner in the Jicarillas, passed through Carrizozo Wednesday on his way to the El Paso fair, where he will scatter some of the "dust" from the famous Jicarilla placer mines. Mr. Frost stated that there is more activity in the Jicarillas at present than in years. An eastern mining syndicate has several experts there examining the formation and testing the gravel by various methods.

CARRIZOZO NEWS

CARRIZOZO . . . NEW MEXICO

RUSSIAN ILLITERACY.

There hardly could be a stronger condemnation of autocracy than the record of illiteracy of the Russian empire. Seventy-five per cent. of the recruits for the army, in which service is compulsory, can neither read nor write. Newspapers are published, not for the masses, but for an educated minority. The principal paper in the capital of the empire has a circulation of only 33,000 and others with an international reputation have only about one-third that many subscribers. With these facts before us there is no room to wonder at the backwardness of the Russian empire and no one can fail to perceive why it has typified mere brute strength in the affairs of the world and was feared for that reason alone until the giant was laid prostrate by the intelligence of a smaller and physically weaker nation. Were czarism the benevolent institution that its beneficiaries and advocates would have the world believe the people of Russia would not be sunk in such depths of ignorance as is shown by unimpeachable records. If Russia is to have the place among nations to which its population and area entitle it vastly more money will have to be spent on schools.

The new commissioner of immigration at Ellis Island is doing good service to the immigrants, not only by finding employment for many of them or directing them to eligible localities in which to settle with their families, but also by guarding them from the machinations of designing persons. He has refused to admit to the station or to Ellis Island the representatives of immigrant homes and employment bureaus which are obviously run for private gain and have in many instances preyed upon the ignorance and the confidence of the new arrivals. This is good work by the commissioner, and his vigilance should not be relaxed, for the abuses which he has abolished for the moment would quickly spring up again if given the slightest chance.

Although the battleships Alabama, Maine, Kentucky and Kearsarge are comparatively new additions to the navy, they are all going out of commission for heavy repairs, which in the case of the Maine in particular will amount almost to reconstruction. In addition to work on her hull, the Maine will have to receive a new battery of boilers. The rapidity with which battleships become worn and obsolete is surprising to those who have been imagining that navies built of steel are good for many decades of service with little expense or repairs. The truth is that these big ships must be undergoing protective "tinkering" all the time, from the date of launching until that of final retirement.

A new airship is being constructed which, in case of accidents, will float like a boat. This is a very wise precaution, and it only remains to add to the next invention a set of wheels so that it can run like an automobile. Then it will be ready to conquer all the elements.

The British seem to think American pork is of higher grade than Chinese pork, and the latter is boycotted by English consumer.

OUR OLDEST FLATS

Work of Repairing Famous Cliff Palace Going On.

Investigation Shows That Ancients Used Great Apartment Houses for 1,000 Families Before History Was Written.

Kansas City.—Centuries before the first apartment house had taken form in the minds of modern architects the cliff dwellers had developed the flat to an extent that the builders in the great cities are just beginning to approximate. The old-time Americans were not content to house a dozen or a score of families under the same roof; they made room for an entire community, sometimes consisting of possibly 1,000 persons, with their places of worship and entertainment, their workshops and all their industrial activities, excepting, of course, agriculture.

This mode of living had its inconveniences as well as its manifest advantages. If the baby had the colic

Earliest Apartment House in World.

on a cold and wintry night, pater familias could go for the medicine man without exposing himself to the elements and the back-door gossips could keep the whole community under surveillance without extreme exertion.

But to dodge going to church when the kiva, or place of worship, was only a few hundred feet away, under the same roof that sheltered the home, must have taxed the inventive ingenuity of the first American seriously. The weather would never serve as an excuse and a Sunday headache would be only a flimsy one. To visit the "affinity" under the watchful eye of wife and mother-in-law must have been quite a problem and the club must have been tame and commonplace when conducted within calling distance of the home. Decidedly, the modern way is much better, say the Sybarites.

The present summer Dr. J. W. Fewkes of the Smithsonian institution has been engaged in the interesting task of cleaning and renovating the greatest of aboriginal apartment houses. Ordinarily a house cleaning job is of interest only to the persons engaged thereon or inconvenienced thereby. A scientific house cleaning is different; and Dr. Fewkes' undertaking derives national interest and importance from the fact that it consisted in removing the accumulated dust, debris and rubbish of ages from the famous Cliff palace, the most imposing prehistoric ruin in America and the largest and most spectacular cliff dwelling in the world.

Primarily Dr. Fewkes' labors were intended to aid in the preservation of the Cliff palace—to prevent its further decay and demolition and to place it in condition for the enjoyment and edification of the increasing number of tourists and sightseers that annually drift that way. Another object in view was research—to gain, if possible, some insight into the state of culture, the manner of life and ways of thought of the flat-dwellers of prehistoric America.

No attempt was made at restoration or reconstruction; that would have been destructive of the sentiment to which the relics of the people of the stone age owe the major part of their interest. The old ruins remain now,

as before, the unmarred and unaltered work of the people of the back.

The excavation of the accumulated debris and dust heaps of the centuries has been carried on with the greatest care to avoid the working of further destruction. Walls that seemed in danger of falling have been patched, buttressed or braced to save them from utter demolition and to preserve them in their present condition for the edification and wonderment of future generations; but the ragged skyline of the great Cliff palace has not been marred with modern stone and mortar and not a trowel has anywhere been applied excepting as a conserving (not as a rebuilding) agent. For what he has refrained from doing, quite as much as for what he has done, Dr. Fewkes deserves the gratitude of all who are interested in American antiquities.

From a scientific viewpoint the most interesting result of Dr. Fewkes' investigation of the Cliff palace is the conclusive evidence brought to light of the close relationship of the Hopi Indians of northern Arizona to the prehistoric cliff dwellers of the Mesa Verde.

CAME NEAR TURKISH THRONE

Prince Joseph, a Resident of Gotham, Declared Direct Descendant of the Alkeryish Tribe.

New York.—It may not be generally known that the Young Turk party narrowly missed taking a young man from New York at the time of the recent upheaval in Turkey and placing him on the Turkish throne in place of the deposed sultan, Abdul Hamid.

A miss is as good as a mile, however, and Prince Joseph Shehab, who is declared to be the rightful heir to the Turkish sultanate and the Islamic Chalifat, continues to reside with his wife and family in Brooklyn and to attend to his store on Broadway, just below the corner of Forty-second street.

Prince Joseph Shehab.

Prince Joseph is declared to be a direct descendant of the Alkeryish tribe from which the remarkable prophet of Arabia sprang. Mohammed V., the present ruler of Turkey, is the thirty-fifth sultan of the dynasty of Osman who usurped the Chalifat and established the Osman throne in 1300, centuries after the time of Mohammed. For this reason, it is asserted, Mohammed V. cannot be seriously regarded as a rightful heir of the prophet.

In the cult from whence Mohammed sprang the chief was always the calif or vicar of the Mohammedan world until Osman usurped this power and founded his own dynasty.

Prince Joseph Shehab is said to be the eldest son of this eldest prince of princes.

Proved.

"The wisest of women are foolish on some subject or other."

"Well, what subject is my wife foolish on?"

"She is familiar with your looks and still she is jealous, for one thing."

NEW STRENGTH FOR WOMEN'S BACKS

How to Make a Bad Back Better.

Women who suffer with backache, bearing down pains, dizzy spells and that constant feeling of dullness and tiredness, will find hope in the advice of Mrs. Mary Hinson of 21 Strother St., Mt. Sterling, Ky. "Had I not used Doan's Kidney Pills, I believe I would not be living today," says Mrs. Hinson. "My eyesight was poor, I suffered with nervous, splitting headaches, spots would dance before my eyes and at times I would be so dizzy I would have to grasp something for support. My back was so weak and painful I could hardly bend over to button my shoes and could not get around without suffering severely. Doan's Kidney Pills helped me from the first, and I continued until practically well again."

Remember the name—Doan's. Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

To Check Disease Among Indians.

It has been reported that the disease known as trachoma, or granular eyelids, has been spreading rapidly among the Indians. To check this trouble congress appropriated \$12,000, placing it in the hands of the commissioner of Indian affairs, for the immediate investigation and treatment of the disease and to check its spread.

COVERED WITH HIVES.

Child a Mass of Dreadful Sore, Itching, Irritating Humor for 2 Months—Little Sufferer in Terrible Plight.

Disease Cured by Cuticura.

"My six year old daughter had the dreadful disease called hives for two months. She became affected by playing with children who had it. By scratching she caused large sores which were irritating. Her body was a complete sore but it was worse on her arms and back. We employed a physician who left medicine but it did not help her and I tried several remedies but without avail. Seeing the Cuticura Remedies advertised, I thought I would try them. I gave her a hot bath daily with Cuticura Soap and anointed her body with Cuticura Ointment. The first treatment relieved the itching and in a short time the disease disappeared. Mrs. George L. Fridhoff, Warren, Mich., June 30 and July 13, 1908."

HUSBAND IS SILENT FOR MANY YEARS

WIFE SEEKS DIVORCE AFTER VAINLY STRUGGLING TO INDUCE HIM TO LOOSEN TONGUE.

HER TEARS HAD NO EFFECT

Put Salt in His Coffee—Fed Him Burned Soup—He Moved His Lips Once, But Then Changed His Mind.

New York.—Silence! A sphinxlike wooden, impenetrable silence, which has been broken by the utterance of hardly a single word in the four years since he mumbled the response at his wedding is the reason Frank J. Beekman of Asbury park is being sued by Mrs. Lizzie Beekman for divorce.

For four years Mrs. Beekman has tried by every artifice known to woman to make her husband talk, but in her testimony before Referee Charles J. Parker she admitted that she had failed. At first she squeezed his hand and chucked him under the chin, but the only response she got was a stony stare.

The Beekmans were married in 1905 at 7 o'clock in the morning. At the wedding breakfast Beekman, after murmuring what was taken for an apology, hurried off to work. When he came back in the evening his bride

He Wouldn't Quarrel.

met him at the door with an affectionate smile. Beekman returned the smile and hurried into the house, where he sat down. Mrs. Beekman started the conversation with a remark about the weather. From this she led up to a question of what he would like for dinner, but she got no answer to any of her observations.

At last she wept, but even the tears failed to melt her husband's silence or to abate the stony stare.

Why Beekman has not spoken is a mystery to every one in Asbury park. A dozen neighbors testified that they had not heard him utter more than a curt "yes" or "no" in the last ten years.

Becoming desperate at the silence which pervaded her home, Mrs. Beekman has not cared very much of late what her husband would say when he finally did consent to open his mouth. She tried burning the soup. Still Beekman was silent. She put salt in his coffee, but he drank it without a word.

How Beekman managed his courtship is a mystery in Asbury park, although Mrs. Beekman asserts that al-

though he was not loquacious it did not seem to give him pain to speak. Mrs. Beekman may have felt then that she was able to do all the talking for the pair, but after her marriage she found little satisfaction in talking to a man who refused to answer. He refused to express any opinion about her clothes or hats.

All the time he spent in the house he sat and stared straight in front of him. When an important matter came up for consideration he would sometimes condescend to shake his head and indicate his opinion in this way. Once—it was a red letter day for Mrs. Beekman—he moved his lips as if about to say something, but evidently changing his mind closed his lips again.

Not even the landlord could get a word out of Mr. Beekman when he came to collect the rent.

Still adhering to his policy of silence, Beekman interposed no answer to his wife's suit for divorce, and the referee will recommend that Mrs. Beekman be given a divorce.

WITCH DOCTOR KILLS BABES

Incantations Fail to Cure Summer Ills of Many Little Children in Pennsylvania.

Reading, Pa.—Coroner Strasser is busy securing evidence in the case of the six infants who died in one day recently after alleged treatment by witch doctors for nothing but summer complaint. He has reported the matter to the district attorney.

Reading is known for its many witch doctors, and there have been cases in court time and again of people who claimed that neighbors "verhexed" them. No sooner does a child become ill in this section than the neighbors rush in and declare the child is "verhexed." The result is that a powwow doctor with incantations is sought.

Several of the children who died were simply treated with mystic words while a red cotton cord was passed over the body. In other cases a bag containing charmed words was hung about the neck.

"Many children die every summer from summer complaint who do not have an attending physician," said the coroner. "I find that the parents are of the middle class and spend their money calling in old women who make practice of pow-wowing and using charmed words. What is more, these women describe the 'hex' to the parents, and this is the cause of many of the neighborhood scraps that are aired in court."

BOY BANK ROBBERS IN AUTO

Confess to Sheriff and Say They Had Planned to Rob Several California Institutions.

Santa Clara, Cal.—The two boy bank robbers captured the other day after an automobile chase following their robbery of the bank in Santa Clara confessed to Sheriff Langford that they had planned a series of bank robberies, and that the Santa Clara hold-up "was only an experiment."

According to Joe Willots, he and his companion, Fred Carr, had so far matured their plans that with a hired automobile waiting their return, they entered the First National bank, in the heart of Oakland, and calmly weighed the chances of making their escape with a fortune. So many people were in the bank at the time that they decided not to make the attempt.

The two boys were arraigned in court here and held in \$20,000, on a charge of robbery. Both were taken to the jail at San Jose. In court, they refused to divulge their identity.

Down the Old Road.

Jack—Some of the greatest men claim that there are microbes in kisses.

Jeannette—Gracious! And do you think they should be investigated?

Jack—Yes; closely investigated.

FALL PAINTING.

The majority of property owners are under the impression that spring time is the only painting time. But the fall of the year offers several advantages to the painter. One of the most important is that surfaces are almost sure to be dry, and there is no frost or inner moisture to work out after the paint is applied.

Pure white lead—the Dutch Boy Painter kind—mixed with pure linseed oil (tipped as desired) gives a winter coat to a building that is an armor against the severest attacks of the winter rain, sleet, winds and snow.

National Lead Company, 1902 Trinity Bldg., New York city, makers of pure white lead, Dutch Boy Painter trademark, are offering to those interested a complete painter's outfit, consisting of a blow pipe and lead tester, book of color schemes, etc. State whether you want exterior or interior decorating.

The Root of Altruism.

The three eternal roots of altruistic energy are these: First, the principle of justice; that there is a moral law before which all men are equal, so that I ought to help my neighbor to his rights. Second, the principle of charity; that I owe infinite tenderness to any shape or kind of man, however unworthy or useless to the state. Third, the principle of free will; that I can really decide to help my neighbor, and am truly disgraced if I do not do so. To this may be added the idea of a definite judgment; that is, that the action will at some time terribly matter to the helper and the helped.—G. K. Chesterton.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

Her Bathing Suit.

"Papa, the stuff I want my new bathing suit made of costs ten dollars a yard."

"Well, here's \$1.50—get what you want, my dear."

Mrs. Winslow's Soothing Syrup.

For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

Brazil grows more coffee than any other country in the world.

Dr. Pierce's Pleasant Pellets first put up 40 years ago. They regulate and invigorate stomach, liver and bowels. Sugar-coated tiny granules.

In India there are nearly 26,000,000 widows.

AFTER SUFFERING TEN YEARS

Cured by Lydia E. Pinkham's Vegetable Compound

MARLTON, N. J.—I feel that Lydia E. Pinkham's Vegetable Compound has given me new life.

I suffered for ten years with serious female troubles, inflammation, ulceration, indigestion, nervousness, and could not sleep. Doctors gave me up, as they said my troubles were chronic. I was in despair, and did not care whether I lived or died, when I read about Lydia E. Pinkham's Vegetable Compound; so I began to take it, and am well again and relieved of all my suffering."—Mrs. GEORGE JORDY, Box 40, Marlton, N. J.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases we know of, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

W. N. U., DENVER, NO. 39-1909.

Each of the chief organs of the body is a link in the Chain of Life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

The strong man has a strong stomach. Take the above recommended "Discovery" and you may have a strong stomach and a strong body.

GIVEN AWAY.—Dr. Pierce's Common Sense Medical Adviser, new revised Edition, is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

Court Grinding Away.

Sunday afternoon jurors and witnesses who had been summoned for the district court began to arrive, and by Monday morning the town was full of people. Judge Cooley was delayed on account of sickness in his family, and did not arrive until six o'clock Monday evening. District Clerk Downs, Deputy District Attorney Llewellyn and the court stenographer arrived Sunday evening and got busy arranging preliminaries, pending the arrival of the judge.

At seven o'clock Monday evening court was regularly called, and the impanelling of juries began. The grand jury was at once organized with W. C. McDonald as foreman. The judge delivered his charge to the grand jury and it immediately began to work. Judge Cooley's charge to the grand jury was not a lengthy one, but it covered all points. The grand jury, as organized, consist of the following: W. C. McDonald, foreman; Francisco Gomez, Ramon Lujan, Sylvester Baca, William Fritz, L. H. Bradstreet, Juan Trujillo, Inez Garcia, J. W. Welch, James Fagan, H. K. Roundtree, A. J. Atkinson, Eusebio Carabajal, Jose Herrera, R. E. Stidham, J. H. Skinner, H. J. Little, Paul Burton, E. R. Berry, E. T. Collier and F. W. Brockway.

The regular venire for the petit jury was exhausted, and a special venire issued to complete the panel. The petit jury was filled Thursday morning and is composed of the following:

1 David Gallegos, 2 Martin Fresques, 3 Florencio Chavez, 4 Samuel Farmer, 5 J. A. Simpson, 6 B. F. Goff, 7 Thos. J. Johnson, 8 Henry Silva, 9 Pablo Chavez, 10 Marcial St. John, 11 Cresencio Salas, 12 A. B. Zumwalt, 13 Florencio Vega, 14 Emil Fritz, 15 Pablo Chavez, 16 Amado Monteros, 17 Genebibo Griego, 18 J. H. Potter, 19 Andres Lopez, 20 Salamon Freszues, 21 Zeb Brooks, 22 H. N. Yancey, 23 A. L. Collins, 24 Frank Bright.

The civil docket was gone over, awaiting a report from the grand jury, and a large number of cases dismissed on motion of attorneys. The first case was called yesterday and is still under way. It is entitled Asa Cox vs. F. M. Deel, defamation of character. The grand jury had returned, up to last night, four true bills and four no bills.

Take care of your stomach. Let Kodol digest all the food you eat. for that is what Kodol does. Every tablespoonful of Kodol digests 2 1/4 pounds of food. Try it today. It is garranteed to relieve you or your money back. Sold at Paden's drug store and Rolland Bros.

Eloped by the Light of the Moon.

Last Tuesday night a young man named Aurelio Martinez, in company with a girl named Elsie Wright, skipped by the light of the moon, and left for parts unknown, from the merry town of Lincoln. "Love's young dream" was rudely disturbed two days later by Sheriff Stevens, who captured the love-sick but happy pair several miles west of Lincoln, and brought them back to town. The young lady he delivered to the safe-keeping of her parents, but placed her lover in "durance vile." Later the father of the erring maid swore to a complaint charging Martinez with seduction. He was taken before Justice of the Peace Ramon Lujan who bound him over to await the action of the grand jury, the girl being under the age of consent. In default of bond, the young man was lodged in the county jail.

PUBLIC NOTICE.

Public Notice is hereby given that bids will be received by the undersigned Treasurer and Ex-Officio Collector of the County of Lincoln, Territory of New Mexico at his office, Lincoln, N. M., on Tuesday, Dec. 7th., 1909, for the purchase of school bonds, to be issued by School District No. 13, Lincoln county, N. M., within the limits of which said district, the town of Corona is situated.

The bonds so issued are to be in denomination of \$500 each, payable in thirty (30) years, and redeemable as the pleasure of the district after ten (10) years, with interest at the rate of five per cent per annum, payable semi-annually at the office of the County Treasurer of the county, and the aggregate sum of the bond issue amounts to \$10,000.

No bids will be considered for a less amount than 90 cents on the dollar, and must be made for the full amount of the said aggregate bond issue.
