REVIVAL OF AN OLD CAMP

During a short visit to White Oaks the first of this week we were impressed more than any former time with the feeling that the old camp is about to enter upon a new period of activity and that the time is not far distant when she may even surpass the grandeur of her early history.

The minds' eye turns back to the days just following the discovery of the precious yellow metal by some daring prospector who wandered far from the railroad into the mountains, sees the eager eyed fortune hunter as he came across the rough mountains and barren plains from Las Vegas, perhaps in wagon or on horse back, and in some instances even on foot, to build a city in the wilderness, the view is one of enchantment, but the view of the future is a different one, not so exciting or attractive may be but with far more solidity and stability about it.

To the pioneer there is a pleasure in the sight of the mule trains as they wended their way slowly across the plains enveloped in a cloud of dust, and music in the tinkle of their bells, but to the business man there is something more practical in the rumble of the locomotive, so, as the fortunes of the early days were made in a fortnight, and in most cases as quickly disposed of, the properties of the future will be built up more slowly and will endure from generation to generation.

While the relic of the past is still there, gold is still being brought from the mountains, and the few mills that are dropping a small battery of stamps, form a connecting link between the past and the present, the growth which is now to come is to a greater extent in the coal, iron cement etc, which are found in almost unlimited quantities and will form support for a population much larger, and the foundation of greater fortunes, than any of those gained in the golden long ago, and will endure in constant increasing strength and value, from generation to generation. And the beginning of this transformation is at hand.

There is now in consideration an railroad to the coal mines of the district, a lig cement works to utilize the cement deposits, and

a company actually at work on the iron mines, a large rolling mill projected as soon as the requisite amount of development work can be done. These things will turn our dream into reality.

SUNDAY SCHOOL CONVENTION

Last Sunday evening the Sunday School convention held by the Baptist church, under the direction of Sunday School Missionary J. W. Rupert, and the pastor, Joseph A. Land, closed with a very interesting session.

The sessions of the convention throughout were intensely interesting and instructive, and must prove a great benefit to the church. Rev. Rupert is a master in his line of work, a pleasant convincing speaker and an earnest worker and his talks serve as both a guide and a stimulant to the Sunday School worker. His theme Sunday evening was how to build up a Sunday School, and was treated from the stand point of spiritual growth and soul winning rather than the mere gain in attendance. He showed how useless the adding of numbers is unless the teachers and other workers have an influence over the heart of the child they try to lead.

The talk by Rev. Rupert was followed by a very good talk by the pastor, on the personal work of the teacher.

A RARE PHOTOGRAPH

Says the Albuquerque Citizen—There is now on exhibition in the Harvey curio rooms here a photograph which as a historic treasure is probably priceless, and which will henceforth be one of the rarest and most treasured possessions of the Harvey system. It is a group picture, taken in 1864, of some of the American soldiers and pioneers who were prominent in the affairs of New Mexico and the Southwest at that time. The photograph is clear and distinct, and about twelve by fourteen inches in size. It contains the likeness of General Christopher Carson, (Kit Carson), a splendid picture of Col. E. H. Bergmann, Delegate to Congress Charles B. Cleaver, who died in Tome, N. M. some years ago; N. H. Davis; Col. Herbert M. Enos, Quartermaster U. S. A.; who was reported living in New York in 1904; Dr. Basil Norris, Col. John C. McFerren, Major Daniel Rucker, who is now living in New York at the age of over ninety years; and General James H. Carlton, who made the famous march from California to New Mexico and Denver, and who was relieved here in the year 1867.

Mr. Schweizer received a tip that the picture was in existence, and after considerable correspondence secured it from a gentleman living in Ohio. He took the photograph to Major H. R. Whiting in Old Albuquerque, and the latter, with great interest, at once positively identified each member of the group. It is doubtful if there is in existence a better photograph of the famous pathfinder, Kit Carson, than this one, and the picture which has been neatly framed attracts a great deal of attention since Mr. Schweizer came into possession of it.

(A group picture containing most if not all of the men named in the above article, and we believe it is the same group is in the possession of Col. E. H. Bergmann, who is still living in the northern part of territory, and is highly prized by him as a relic of his early life in New Mexico.—Editor.)

CHRISTMAS TREE FOR NOGAL

A Christmas Tree for Nogal. The people of Nogal and vicinity are making a combined effort to have a Christmas tree for the children, as well as for the older ones. Any one wishing to contribute to this enterprise will communicate with the undersigned committee. Any and all presents to be put on this tree must be sent in by 6.30 P. M. Dec. 24, 1907. Everybody invited. The tree will be at the Nogal Church Doors open at 7 P. M. Mrs. Geo. Eakers, Miss Lillie Mae Bythwood, Miss Lou. Johnson.

The Albuquerque-Estancia Auto line, which was tied up for a short time on account of bad roads, has resumed operation. The roads are being improved by the company as rapidly as possible in order to avoid such delays.

SUCCESSFUL BAZAR

The ladies of the home mission society of the Methodist church held a bazar in the old club Room on Alamo avenue, which proved a great success in every way. Beautiful decorated booths for the sale of articles, some of which were manufactured by the members and friends of the society, and some contributed by outside parties were situated on each side of the room, while in the center was a long table where cake and coffee were served.

We have not learned the amount realized from the venture, but judging from the number of people who were coming and going through out the afternoon and evening, the result must have been very satisfactory to the parties in charge, and quite a help to the society.

PARALYSIS CLAIMS PIONEER

Col. Theodore W. Heman, one of the oldest settlers in the territory, and for the past five years a resident of Tucumcari, died at his home in that city on Sunday from a stroke paralysis which he sustained Saturday.

Col. Heman was 67 years of age and came to New Mexico from St. Louis Missouri, in 1879. He engaged in mining in this county for a number of years. He was a veteran of the Civil war and served gallantly as an officer in a Missouri volunteer regiment. He was respected and wielded considerable influence for many years as a member of the Republican Territorial Central Committee. He did a good deal for the building up of Tucumcari, being heavily interested in real estate in the town, and one of the first settlers there. He was a prominent member of the New Mexico department of the Grand Army of the Republic, and of several other fraternal orders.

The remains were laid to rest in the cemetery at Tucumcari.

HOW LIVE STOCK WAS IMPROVED

From Montreal Star

Shortly after a new administration took hold of a well-known southern railroad a great number of claims were preferred against the company on account of horses and cattle being killed along the line in Kentucky. To make matter worse, it appeared that every animal killed, however worthless it may have been before the accident invariably figured in the claims subsequently presented as being of the best blood in Kentucky.

One day, in conversation with one of the road's attorneys, the president became very much excited in referring to the situation.

"Do you know" he exclaimed bringing down his fist on the table by the way of emphasis, "I have reached the conclusion that nothing in Kentucky so improves live stock as crossing it with a locomotive."

CHANGE OF BUSINESS

GALLACHER & COMPANY SELL TO ZIEGLER BROTHERS.

Dec. 17 1907.—To our friends and customers in Carrizozo and Lincoln county: We have this day sold our entire stock of merchandise and good will to Ziegler Brothers.

All outstanding accounts due us to date will be collected by us and all persons having claims against us will please present them at the store not later than January 1st, 1908, as one of us will be there to settle them prior to that time.

Thanking you for the liberal patronage extended us, and bespeaking a continuance of the same for our successors, and with the compliments of the season we are,

Yours truly,
Ziegler Brothers.

Why not add balloon attachment.

On November 12, at new York City, M. Revelliers gave an exhibition of his land and water machine, which he christened Water-land 1. After driving the machine for several blocks, much of the distance through soft sand and over boulders, it was forced into North River, where it maneuvered for some time, showing that it was under perfect control. It then pushed through the shallow water and into the beach, where it proceeded down the road without difficulty. It is claimed that this machine can make fifty-five miles an hour on land and fifteen afloat.

Lee H. Radisille of White Oaks is transacting business in town today.

OSCURO NOTES

'Ben Nabours is furnishing meat to the residents of Oscurio.

W. A. Pearce finished his house on his homestead this week.

Mart Goodwin has been surveying in the vicinity recently.

Messers Young, Hanly and Schreiner visited Alamogordo on Wednesday.

M. I. Jackson announces a full line of Lumber and hardware having installed lately.

Delmar Law of Morroco Indiana is another addition to our town and is building.

Harry Wolf representing Mr. E. Edwards spent the week in Tucumcari on business.

The first cement houses are started under the superintendance of George Davis of Kansas City.

Oscuro Commercial Club had a meeting Monday night twenty enthusiastic citizens were present at the home of Mr. Young.

Eugene Jones, Robert Young, Dr. Raniker, Dr. McCallum and Jack Nelson all have houses under course of construction.

Oscuro Post Office has been established and is in running order. Captain Roberts and wife are now residents of the growing town.

M. I. Jackson's brother Elmer also Flint Arnold were among this weeks excursionists. Mr. W. A. Newman and wife also arrived to inspect mining property in the vicinity.

Zeigler Bros, successor to Gallacher & Co invite you to call, and examine their carefully selected stock of Groceries, Fruit, Candies etc just received especially for the Holiday Season.

NOTICE TO THE PUBLIC

In another column of this paper you will see the announcement of our purchase of the stock of merchandise of Gallacher & Co.

In going into business in Carrizozo, we are not doing so as entire strangers having been in business in White Oaks for nearly 20 years. Our past history can speak for itself as to the manner in which we transact business. Our aim is to carry in addition to the stock of goods carried by our predecessors a full line of dry goods, clothing gents' furnishing goods, in fact a complete stock of everything.

The quality of our goods and prices will be right and we solicit a share of your patronage.

Yours respectfully,
Zeigler Brothers

Navy Wants Canal Made Wider Washington, D. C. — The engineers of the Panama canal commission are perfectly willing that the locks should be widened to any extent that the navy thinks necessary. We shall in the measure leave it to the navy to settle the question, thereby making it a matter of naval expediency as to how wide the locks shall be."

This will be the attitude which the Panama canal commission will take on the proposition which has been referred to the members of a widening of the locks of the canal to 110 and 120 feet as may seem best, according to the statement of Col. George W. Goethals, chairman of the commission.

Col. Goethals says that so far as is known at present a width of 100 feet for the locks will accommodate mercantile shipping for years to come, and that 100 feet is ample for all naval construction now building or proposed. A Naval vessel that is 98 feet beam allows 8 feet more than the latest battleships proposed and could get through a 100 foot lock without trouble.

Keep your business ever before the public by advertising in your home paper. A good advertiser always has success in any honest enterprise.

The store and home of Juan C. Jaramillo, county superintendent of schools of Torrance, which are situated at Torreon, were destroyed by fire one day last week. There was no insurance on any of the property.

HERVEY AS ATTORNEY GENERAL

Referring to the appointment of James M. Hervey, as attorney general of the territory by Governor Curry the Register-Tribune published at Roswell, Mr. Hervey's home, and knowing whereof it speaks, makes the following very favorable comment:

"The appointment of James Madison Hervey as attorney general last Thursday, is one that gives general satisfaction to all of the people of the Pecos Valley, and will go far toward inspiring the fullest confidence in the territorial administration which, however good at heart, could not attain the best results without a legal adviser who is absolutely above reproach and incorruptible. These two adjectives exactly describe Mr. Hervey, the writer making this statement from a very close personal knowledge of more than a decade. There is another point about his selection, and that is that while Governor Curry may be new in the ways of government he has a might long head in his selection of aides. With Jaffa, Hervey and Leahy at his hand, he has advisory counsel that is not equaled in any state of which we know, and the results of their association will be deeply beneficial to the people of New Mexico."

LEWELLYN ADVANCED

It is now Assistant Attorney General W. H. H. Llewellyn, a high official of the Department of justice of the United States. Major Llewellyn has been promoted by the appointing power from U. S. district attorney of New Mexico to the higher position in which he will have more important work and receive a larger salary. His promotion is certainly a vindication of the highest grade and establishes the fact that any and all charges against him made by vindictive and unscrupulous personal and political enemies have been disproven and are found groundless in every particular. Major Llewellyn has been before the people of this territory for 27 years and has held very high official and legislative positions as well as important business positions during these many years. Naturally a man of his character, aggressiveness and vitality makes enemies, especially political ones, but his friends outnumber his enemies at twenty to one. His advancement is pleasing to his friends and confounds his enemies to the utmost degree. Major Llewellyn is on top where he ought to be and where the New Mexican hopes he will be for many a year. He has done great and good service for the Republican party since attaining his majority, is a straightforward and consistent Republican, and of course a strong Roosevelt man. He is one of the best known men in the Southwest and especially in New Mexico, and his many friends are greatly gratified at his promotion.—New Mexican.

"Big" will be an obsolete word after the next National Irrigation Congress.

The postmaster general says any responsible person may get the mail addressed to Santa Clause by calling at the general delivery. As yet there has been no rush for honor.

What we want in a national currency is perpetual motion. It is stoppage and stagnation that hurt business; as long as money keeps going everything else keeps moving.

It appears that the new gold coins won't stack up. And the Indianapolis Star says a good many people have found this true of the old coins, and it was not because their designs were in too high relief, either.

Among the best work being done by the fraternal organizations is the establishment of "open air sanitariums" for consumptives throughout the West. The saving in life and health through such wise beneficence is beyond calculation.

Press reports tell of terrible storms from the Atlantic coast to the Rocky Mountains during the first of this week, yet a slightly cooler atmosphere and a few partly cloudy days were all the change that was noticeable in this valley. Certainly there is no place on earth where the climate equals this part of New Mexico.

Another deserving man has just received an increase of pension through the activity of Delegate Andrews. This time it comes right home to the people of this community, as the man is a citizen of White Oaks and well known to most of our citizens, we have reference to Captain John Crowley who just received notice of his increase.

Kansas farmers and business men protested against the Santa Fe's rates on coal from Colorado, and the interstate commerce commission ordered the railroad to reduce them. El Paso is absolutely at the mercy of the Santa Fe's wholly unjustifiable rates on coal, and it would be wise for our chamber of commerce to take up this matter with the Washington authorities and stick to the guns until the road were brought down.—El Paso Herald.

The world's sincerest sympathy goes out to Secretary Taft in his deep bereavement. The secretary went abroad on a mission of the highest importance in the public service. He has made a quick trip but it must have been a sore trial to him to know of his mother's dying condition and be unable to come to her bedside. Just a few days more and he would have been with her. What a mockery the pageantry must have been in St. Petersburg, with that death shadow hanging over him.

Uncle Sam has established a marriage bureau in connection with a Philippines orphan asylum, and is offering \$150 dowry with each marriage able girl when a young man of good character asks her hand. It has been found by experience that the Filipinos will not marry without a dowry, this being their ancient custom. The Philipinoses experiences have mightly broadened our respected uncle's mind and sympathies, but the marriage bureau stunt would give the fathers of the republic something of a shock. We look to see the idea, however, adopted by some political party in this country before many years; it is in line with insurance of workmen, old age pensions, and a lot of such notions.

A representative of the Department of Labor has been making inquiries in England in regard to labor conditions. It will interest you to know some of the facts he will report. He will tell the department that the average wage for the unskilled male laborer in England is \$5 per week and for the unskilled women laborer \$2.50. He will report that women and girls earn \$1.50 a week making hobnails at 13 cents for every 1150 nails. He will say that although a machine has been invented which will card hooks and eyes, Birmingham finds it cheaper to employ human hands whose possessors link 384 hooks with 384 eyes and stitch these on a card, for all of which they are paid 2 cents. He will tell of industries at which women work from 3 am. until 11 and 12 o'clock at night. The best thing he will mention will be a proposed bill of Sir Charles Dilke, which provides that any trade union may ask the appointment of a wage board in its district, and that such labor board will have the power of determining the minimum rate of wages. The worst thing that he will say (if he says the same to the department as he recently said in London) will be that there are places in America where the sweatshop conditions are worse than they are in England. But one thing he cannot say—that there are sweat shops of any character in New Mexico and yet we are not civilized enough to be admitted to statehood.

Mineral Application No. 25.

United States Land Office, Roswell, Chaves County, Territory of New Mexico, October 22, 1907.

Notice is hereby given that A. R. Byrd, claiming the Old Abe Mining Lode, covering about 1500 linear feet, bearing north 86 deg. 9 min east on the Old Abe vein, lode or mineral deposit, and on adjoining or branch lodes or veins, all bearing gold, silver, lead, copper and other valuable minerals, with surface ground about 600 feet in total width, the length and width of said lode being fully shown below, and on the official plat of said lode, said lode lying, being and situate in the north-west quarter of Section 3 T. 10 S. R. 11 E., N. M. P. M., unsurveyed, in the Bonito Mining District, Lincoln County, New Mexico.

The said claimant is about to make application to the United States for patent for Old Abe Lode or Mining Claim, which is more fully described as to metes and bounds by the official plat, and by the field notes of survey thereof, now filed in the office of the Register of the District of Land subject to sale at Roswell, New Mexico, which field notes of survey describe the boundaries and extent of said claim on the surface.

This claim is adjoined on the east by survey No. 649, renowned O. K. lode; and on the west by the Continuation lode, unsurveyed, A. R. Byrd, claimant. There are no other adjoining or conflicting claims known. This claim being more particularly described as follows:

The notice of location of said claim is of record in the office of the Recorder of Lincoln County, at Lincoln, in the Territory of New Mexico, located by Joseph Beckman on the 14th day of March, 1896, and filed on the 17th day of March, 1896 in Book Q, page 431, deeded by quit claim to claimant A. R. Byrd, by said Joseph Beckman the 18th day of November, 1901, and filed for record on the 12 day of October, 1907, and recorded in the office of the Recorder at Lincoln County, Lincoln New Mexico Book Y, pages 392-393.

Any and all persons claiming adverse the mining ground, vein, lode or premises, or any portion thereof, so described, surveyed platted and applied for, are hereby notified, that unless their adverse claims are duly filed as according to law, and the regulations thereunder, within sixty days from date hereof, with the Register of the U. S. Land Office at Roswell, in the County of Chaves and the Territory of New Mexico, they will be barred, in virtue of the provisions of said statute.

HOWARD LELAND, Register.

MINERAL APPLICATION NO. 26.

United States Land Office, Roswell, Chaves County, Territory of New Mexico, October 28, 1907.
