AT LAST!
The long expected Illustrated History of Utah by the eminent Historian, Hubert H. Bancroft, has at last appeared. It is absolutely a revelation. After visiting the field in person, taking testimony impartially from all sides, critically reviewing the enormous number of 1000 different authorities, and searching many of the secret archives of the Mormon Church, Mr. Bancroft now gives to the world this wonderful and remarkable work, the only true history of Mormonism.

The work reads like a romance—the wonderful adventures of trappers and travellers, the bloody Indian wars, the thrilling accounts of massacres and miraculous escapes, the famous Danite Association and destroying marches, the story of Brigham Young—all this fresh from the pen of the brilliant and gifted author, forms a narrative of exciting interest, as fascinating as a novel, yet true to the letter. Above all in surprising interest is the unfolding of the great Mormon Question and the intrigues of Polygamy which will be read with equal interest by all classes of people throughout the English speaking world. The work is published in one large handsome volume of over 1000 pages, bound in red and gold and greatly illustrated with steel plate portraits of the great Mormon leaders, exquisite half-tones engravings and other colored plates. It is bound by the most perfect binding of the Pacific Coast, the Halfton Co. of San Francisco, and can only be procured through their authorized agents. We call attention to the advertisement in another column, under the heading of "2500 Reward."

Information for Settlers.

Congress by the act of Aug. 30, 1890, has repealed the arid land act of Oct. 2, 1888, and all land entries made by settlers since the date of the act of Oct. 2, 1888, are made valid, except as to reservoir sites selected.

The act of Aug. 30, 1890, limits the amount of land subject to entry by any person under all the various land laws to 320 acres.

Any legal sub-divisional part or the whole of said 320 acres can be entered under the desert Land Law, or in such amounts as is prescribed by the Homestead, Pre-emption or Timber Culture Laws can be entered as shall not exceed in the aggregate 320 acres.

The Timber Culture Law has not been repealed; but it is likely to be repealed during the next session of congress, which convenes in December.

Settlers living on the United States land prior to Aug. 20, 1890 and who have made reasonable improvements thereon will be entitled to enter said land and in addition thereto 320 acres more when desired, under the act of Aug. 30, 1890.

The usual exception obtains as to the Pre-emption Law, i. e., the entryman must not be the owner of 320 acres of land.

Public lands can now be safely entered under any of the foregoing laws; and settlers can be reasonably sure of receiving patent when they comply with those laws in good faith.

All applications for the entry of land, if complete, will be acted upon the same day they are received, office business permitting; and all correspondence relating thereto will receive prompt and courteous attention.

Settlers and all other persons are requested to remit all moneys to the Receiver after Dec. 1st, 1890; and only currency, postal orders, express orders, postal notes and certified checks will be received.

Letters from this office to settlers calling for additional papers should receive prompt attention in order that their lands may proceed to patent rapidly.

No unnecessary requirements will be asked for by this office.

Very Respectfully,
SAMUEL P. McCREA,
Register.
QUIMBY VANCE,
Receiver.

U. S. Land Office,
Las Cruces, N. M.
Oct. 25, 1890.

Upon the receipt of such affidavit from entrymen their cases will be examined and whenever the facts warrant the entries will be put to record and receipts will be issued to the entrymen.

QUIMBY VANCE,

Wedding in "Big Four" Life.
From the telegraphic columns of the daily papers we have lately learned of the matrimonial alliance of the families of two of the leading members of the great meat monopoly and hitherto no opportunity has been offered for comment on our part.

Armour's son has married Nels Morris' daughter and thus the business alliance of years is more firmly cemented by the ties of relationship. The daily papers have kindly spared us a detailed account of the splendor of the event and thus the western ranchman, whose daughter's trousseau, now-a-days, consists of a calico dress and poke bonnet, does not learn of the splendor which is squeezed out of the stock grower and feeders of the west.

An old saying is that like begets like and as this is true in stock breeding, then the intermarriage of these monopolistic families is to be dreaded, as being against public welfare. A new and distinct breed of thoroughbred monopolists must be the result.

Year after year the meat production and distribution is getting more into the hands of the monopolistic few and the best thing to do is to stand firm under.

The Farmer's Alliance men are getting into congress and great things must be expected from the granger in legislature. Men must be elected as law-makers who will not sell out and proper legislation to control monopolists must be enacted.

To revert the wedding we must compare the grand "social event" where the lard maker's son marries the pork butcher's daughter, with the union of two loving hearts of the far west. The marriage of two children of two ranchmen. The parents of these young people are not able to "do the grand" in the manner of the monopolists of Chicago for the reason that the beef barons had taken all their wealth by the absorption process.

Robbery is robbery, whether you hold up a man on the highway or squeeze his dollars out of him by the unpunishable means of controlling the market and price of his production.

From Fort Sumner north, all round-ups of the year have been completed, beoves driven to the various shipping points and the extra "punchers" discharged. It is a wise move to cut down expenses so far as is consistent with good management, but it is a very questionable policy on the cattle owners part to obliterate the staff of faithful guardians over the range industry in the manner that has been done, leaving thousands upon thousands of cattle to take care of themselves during the coming winter, and become an easy prey to those gentry who may be disposed to maverick or monkey with dim brands. The maverickers will have a first-rate opportunity to build to their brands at the expense of the penny-wise and pound-foolish owners.—Stock Grower.

The famous Windsor farm of Bush & Morse, near Denver, Colo., was sold last week to McKnight, Best & Co., a real estate syndicate for \$200,000.

It is now accepted as a proven fact that pleuro-pneumonia may remain latent in cattle five months before active symptoms are exhibited, so that contagion may be readily imported undetected.

"Corn will be cheaper next May than it is now," said a man who had vainly tried to make contracts to have cattle fed in Missouri at ten cents a pound with men who gladly fed last year at 7 cents. It is reported that some Nebraska men who took cattle to feed at 7@8 cents will lose \$15@18 per head.

United States Land Office, Las Cruces, N. M. November 20, 1890.

To whom it may concern:

In all alleged entries of Public Land made at the Las Cruces land office wherein the original or final receipt has not been issued and wherein the settler claims that he has paid a certain sum of money thereon, affidavits must be submitted to the Register and Receiver of the Las Cruces land office embodying the following facts, to-wit:

- 1st. The class of entry, date when made and a description of the land embraced therein.
- 2nd. The sum of money paid thereon, and whether paid in draft, office order or postal note, and when paid by draft or check should be embodied in the affidavit, and the original draft or check be attached as an exhibit to the affidavit. Whenever it is impossible to produce the original draft or check, a certified copy of the cashier of the bank will be sufficient; whenever the original draft or check or a certified copy thereof cannot be had the fact why such cannot be produced must be set forth.
- 3rd. State to whom the money was paid, whether direct to the then acting Register, naming him officially.
- 4th. In all entries where money has been paid to the then acting Register and by him paid over to the then acting Receiver, a supplemental affidavit of the then acting Register, stating that said sum of money was by him paid over to the then acting Receiver, naming him officially must also be submitted.

NOTICE TO ROAD SUPERVISORS.

To Road Supervisors of the various Precincts of Lincoln County, N. M., and to all Whom it may Concern

The year is drawing to a close and your attention is called to the following sections of the Revised Statutes of New Mexico, concerning the working of public roads in your precincts. This notice is given to aid Supervisors in making their annual reports, and that all may understand their duty under the law.

Sec. 1255: Revised Statutes, says: "Every ablebodied male inhabitant of the Territory, between the ages of 21 and 50 years, and of sound mind shall be required to work on the public roads, two days in every year, at such time as he may be called upon by the road supervisor of his precinct to do so. Every person owning a team of horses, mules or oxen, and who travels over the road with any kind of vehicle, shall be required to work one day with such team. Any person may be excused from such work by paying to the road supervisor a road tax at the rate of one dollar and fifty cents for each team, and for every male so excused, \$1.00."

Sec. 1287: The Road Supervisor shall apply all the money received by him as such to the purchase of necessary material or the necessary hiring of labor for the work. The action shall be in the name of the county and a certified copy of the order of the County Commissioners fixing the time for the working of the roads, together with proof of notice to the defendant of the road Supervisors and of his neglect or refusal to do so, as required by notice, shall be sufficient evidence to warrant a judgment in favor of the county.

All Supervisors are hereby required to render reports according to the law, and send same to me or to the Board of County Commissioners before the 15th day of January, 1891. I would suggest also that the people of the various precincts should petition the Commissioners at their January meeting, who they want for road supervisor for the coming year. This will save much inconvenience, and insure you better roads, perhaps, in future. Appointing Road Supervisors at random is a failure.

Newspaper Etiquette.

It very frequently happens that visitors to a printing office do things calculated to annoy the employes. For the benefit of those we print the following rules:

When you enter an office do not handle the type in a case. If you want to handle it say so to the printer, and he will be glad to leave his work and empty the type upon the editor's table where you can sit in his easy chair and examine it at your leisure.

Don't read the proof sheet, clippings or manuscript. If you wish to know what is going to appear in the next issue of the paper, ask the editor to read it aloud to you. He has plenty of time and will be grateful to you for the chance to stop his work and entertain you.

If you wish to look over the cash book, have the editor go and get it for you. Your interest will please him.

Never ask for a sample copy. Discover where they are kept and help yourself to as many as you want. Above all things do not offend the editor by tendering payment for them.

It flatters him to think you want to read it and it is cruel to end his satisfying day-dream by the mention of so worldly a thing as money. Besides he only publishes it for the glory there is in it.

Just help yourself to the exchanges. If any are still in their wrappers take them out by all means. They contain later news than the others.

Before going, make some pleasant remark to the editor about how easy it is to run a paper, and express your surprise that he does not do it better. You would leave an aching void in his heart if you should forget to do so.

If you are interested in seeing how things look in type, have the printer set up your name in the nicest type in the office, and then take it home with you for a curiosity. The editor likes for you to have a memento of him. Other people's forgetfulness is the bane of his existence.

Ask the editor, if you are a perfect stranger to him, to supply you with a duplicate key to his postoffice box, so you can get his papers regularly. If he be a gentleman he will give you the key without asking a question; but some editors are not gentlemen.—Ex.

Emperor William's coachman receives \$600 annual wages and house rent.

La Grippe has struck Kansas City worse than last season and the Physicians say it is more fatal.

The Robbins Bros., of Saragosa, Texas, have recently driven into Chaves county, 2,700 head of cattle, locating them on the plains near Monument Springs.

Jim Ambercombe, who had 2,100 head of steers near Las Vegas a few weeks ago, has driven them back to his ranch near Anton Chico, not being able to find sale for them.

Dick Liddell, a compadre of Jesse James and an expert all around train robber and man killer, was killed in New Jersey Monday. He was well known in New Mexico, where he lived for several years.

The lottery law passed by the 51st congress has decreased the receipts of the New Orleans post office \$120,000 a year, and has resulted in the discharge of quite a number of clerks already, whose services are no longer required to run the office.

This is about one-third the annual income of the office.

It is reported that the B Z outfit, now ranging their cattle on the Pecos river, near Fort Sumner, have leased the Portales ranch, Doak Good's place, on the plains and will move their cattle from the river to that place. It is one of the best ranges in the Territory, cattle keeping fat at all seasons of the year.

J. C. DeLany, of Fort Stanton, was an agreeable visitor at the Stock Grower office this week. Mr. DeLany is one of the most progressive and active citizens of New Mexico, and did much to attract the attention of eastern capitalists to New Mexico's magnificent grazing resources, years ago, organizing two of the largest companies in the Territory, each of which have proven profitable investments. He is now post trader at Fort Stanton and also interested in raising fine horses, having on the Hondo river, in Lincoln county, one of the most complete ranches for that purpose in the Territory.—Las Vegas Stock Grower.
