ST. PATRICK'S DAY.

Last Monday, March 17, was celebrated by Irishmen all over the world, as the birthday of St. Patrick, the patron saint of the Emerald Isle. Centuries have passed since he lived, and though dead he still speaks through the lips of every living son of Ireland to-day. His virtues have built a monument to his memory that the destroying rust of time can never efface, and his benevolent acts and charitable deeds will survive the present generation, and be told as a memorial of him for generations and ages to come. The recurrence of this anniversary is always heralded by the glad hearts of the sons of Old Ireland, and in some places celebrations in honor of the day are held that are marked by grand displays of patriotic love for its mighty deliverer, indicating that the memory of the shamrock is as strong as ever in the heart of every true child of the Emerald Isle. There are things connected with the patron saint of Ireland which will be forever cherished in the hearts of the people of that country, and though seas may roll between them, and time may seek to efface the record yet they cannot be robbed of any of their native spirit and continuance. Every time that St. Patrick's day comes around, be it stormy or otherwise, not only in the United States, but in the land of the shamrock and thistle, and all over the civilized world, there are thousands of brave and stout hearts both of men and of women who welcome it with throbs of delight, and who claim it as their legacy both by right of nationality and inheritance.

The story of the conversion of the ancient Irish by the pious and zealous Patrick is an interesting one. Led into captivity and slavery in his early youth, he was placed in the most menial of occupations, and patiently submitted to his hardships for a number of years. During the period of his thralldom he learned to know and appreciate the Irish people, and when once set free it became the object of his life to convert them from Paganism and make them adherents of the Christian religion. When he came to Ireland for the second time it was as a bishop of the Christian church intrusted with the mission of converting the heathen in Ireland. His success in the noble work is unparalleled in the annals of history. Without the shedding of one drop of blood the conversion of the whole population was secured, and St. Patrick lived to see the faith for which he had labored firmly and

lastingly established throughout the whole Island. The stormy centuries that have passed since then have only fixed that faith more firmly in the hearts of the Irish people. The 17th of March has for centuries been dedicated by the people of Ireland to the great apostle. The date of his birth is assigned to the year 387, but the place is not known to a certainty. His own confession gives it that his father had a small farm near Bonavem, Tabernia, although some writers assign his birth place to the present Bonlogne-surmer, and others at or near Dumbarton. His father, he himself tells, was a deacon named Calpurnius. His mother was named Conchessa. In his sixteenth year, while at his father's farm, he was seized by a band of pirates, and with a number of others carried to Ireland and sold to a petty chief, in whose service he remained six years, and then made his escape to France, where he became a monk, first at Tours, and afterwards at the celebrated monastery of Lerins. In the year 431 he went to Rome, whence he was sent to Ireland to preach, and where he was eminently successful, for he adopted the expedient of addressing himself first to the chiefs, and of improving as far as possible the spirit of clanship, and other existing usages of the Irish for the furtherance of his preaching. He visited a large part of the Island and baptized great numbers, chieftains as well as people. Irish biographers state that he founded 365 churches and baptized with his own hand 12,000 persons. He is said to have ordained a vast number of priests, and blessed many monks and nuns. After he had been engaged about twenty years in this missionary work, he is said to have fixed his see at Armagh about the year 454. He died at a place called Saul, near Downpatrick, and his relics were preserved at that place down to the period of the Reformation. It is alleged that he lived to the surprisingly great age of 116 years.—Optic.

Public Money, and Education.

Boston, March 11.—A proposed amendment to the constitution of the United States has been drawn up by Lawyer W. A. Butler, of New York, acting in consultation with ex-Gov. Long, of Massachusetts, the object of which is to prevent the use of public money in any way for private educational institutions under the control of religious denominations. Copies of the proposed amendment will be distributed throughout the states with a preamble declaring for the non-union of church and state.

U. Ozanne, was interviewed by the El Paso Herald a few days ago as follows:

U. Ozanne, proprietor of the stage line and mail contractor from San Antonio to Lincoln via White Oaks, Nogal, the Bonito mining country and Fort Stanton, is in the city. The starting point of the mail was originally from Carthage, but it has been changed recently to San Antonio on the same road. He also carries passengers through to Roswell and the Pecos valley. The distance from San Antonio on the Santa Fe to Lincoln is 139 miles, stage running daily and Sundays. He states that Roswell and vicinity are growing rapidly there being now 800 inhabitants in the town alone and they are increasing daily. The upper or Roswell canal is completed. It is twenty miles long, and they have an unlimited supply of water there. Farming on a large scale is going on and there are vast quantities of fruit trees being planted. Over 10,000 fruit trees are being planted in the vicinity of the town this spring. One firm of stockmen named Chisum and Roberts, who own a large herd of cattle there and who have 12,000 acres of land in cultivation, are setting out 2,000 fruit trees. Pat Garrett and J. W. Poe are setting out large quantities also. Judge Stone is setting out 80 acres of an orchard. S. M. Folsom president of the Albuquerque National Bank, is about to start a bank in the town. There are a large number of coal prospects

in the vicinity of White Oaks. Three of these mines are being worked within three miles of the town of White Oaks, and there are two large gold mines close to town also, and two reduction works within sight of the town. One of these is a Huntington mill and the other is a 20 stamp mill, both running in full force.

They were a superior lot, which accounts for the seemingly high price. Fred will take a trip to Europe and on his return possibly re-engage in the business, as he retains his ranches and outfits.—Stock Grower.

A Rebellion.

St. Petersburg, March 15.—Intelligence is just received here from Cabul, the capital of Afghanistan, that a revolution against Abdurrahman Khan, the Ameer, has broken out in that country. Among those connected in it were a number of the courtiers of the Ameer several were captured by the troops, who remained loyal, and were beheaded by order of the Ameer. Other courtiers implicated in the revolt fled to Russian territory. At last accounts, they, with a number of other revolted, were gathering on the frontier of Afghanistan,

A good town is one in which the farmers spend money with the home merchants, the laborers spend the money earned with their local tradesmen; where the feeling and good will of every citizen is in sympathy with home industries, and where every article that can be is bought of the local dealers in manufactures. This is spirit of reciprocity between business men and merchants, tradesmen, laborers and farmers, and it all makes business lively; the town and community prosper and grow, and are, above all, pleasant places to live in.

The Two Methods.

The Democratic party proposed in its platform and legislation to stop the surplus by reducing taxation.

The Republican party purposes to get rid of the surplus by the simple method of spending it.

The Democratic party declared that the best place and the only place consistent with justice, for every dollar not required by the necessary and legitimate expenses of the government is in the pocket of the man who earned it.

The Republican party proceeds upon the theory that any excess of revenue should be distributed among the people by tricking it through the sly fingers of pension agents, subsidy seekers and favored contractors.

A Democratic senator favored the suspension of needless and forced payments to the sinking fund in order that taxation might be reduced to the extent of \$50,000,000 a year.

The Republican ways and means committee contemplates suspending these payments in order that its party may squander the money in reckless appropriations.

These two policies and methods will come before the people for judgment in the congressional elections next autumn.—N. Y. World

The Farm Mortgage.

There is in Bangor an ancient drug store which for over forty years has been the headquarters of the farmers trading in that city, says the Lewiston (Me.) Journal. There they go for goods, to leave whips, robes and bundles, to loaf away the evenings when "down on the jury," and when in search of information.

Into it the other day there walked a sturdy yeoman, his bronzed face and hard, horny hands telling of exposure to the weather and days of hard toil. His clothing was of good, honest material, and on his feet were solid cowhide boots. Walking up to the proprietor of the store, he inquired of Lawyer Blank.

Now the man from the farm had such an honest face, such an honest expression, that the druggist knowing that the man sought for a "sharper"—in fact not a real lawyer at all—departed from his rule of minding his own business and asked the farmer what he wanted of the lawyer. In a few words the story was told. It seemed the man had worked hard all his days, had bought and paid for a \$1,200 farm, had taken a wife, furnished a house, and now, envious of some of his neighbors, wants to build a \$300 barn. To do this, he proposed to borrow the cash, giving a mortgage on his farm. Said the druggist, after the story was told.

"Your farm is clear now?"

"Yes, sir."

"You love your wife?"

"Yes, sir."

"Well," said the merchant, "this is what you should do: Go home and earn the three hundred dollars first and then build your barn. If you borrow now you will think each night as you lie on your bed that you are in debt. You will fret and worry; your young wife will do the same; sickness or accidents may come or a poor crop be your portion; there will be a three hundred dollar skeleton in your house, and ten to one, you will fret and grow peevish and have a row with your wife. Don't go into the mortgage business! Don't go into debt! Live within your income, be industrious, and when you do build your barn and own it you will be as proud of it as an Englishman is of his castle."

For a moment the young farmer hesitated. On each side were interested spectators, and all was silent. Gradually the head lowered and a tear rolled down the cheek. Though only a tiler of the soil, the man took pride in his occupation and wanted that barn. At last he said:

"Thank you, sir. To tell the truth, sir, my wife was a-crying when I left home because I was going to mortgage the place. I'll take your advice and go home as I came down, and she'll be glad to see me, you bet!"

"There," said the Bangor man; "that fellow has come to a good, wise conclusion. I have seen lots of misery on account of this mortgage business. He who gives one often gives peace, comfort and contentment with it."

The Albuquerque Citizen of the 17th, contains a list of republicans who are candidates for the various city offices, to be elected this spring, it comprises about 1/3 of the repub-

lican vote, in addition the paper contains an enormous delinquent Tax list. The two subjects appear to be suggestive of the situation. With another Republican administration, affairs will not be changed, delinquent tax lists and Republican administrations are natural sequence.

From Arkansas City to Englewood, the entire Cherokee Strip, sixty-six miles wide has been burned over by the boomers. The directors of the cattle company state that the cattle will be turned over to Kansas farmers and fed until grass.

Messrs McPherson & Biggs, the saw-mill men have returned from court at Las Cruces. Messrs. Anderson, Ozanne and others are at home. The government is considering a proposition to compromise the cases pending against the mill men. McPherson & Biggs have tendered a sum of money on the basis of one dollar per thousand for the timber claimed. These suits were wrongfully brought in the first place, under the policy of Land Commissioner Sparks during Cleveland's administration. Sparks was removed when it was found that his policy of indiscriminate indictment was foolish and harassing, but the evil inflicted was not remedied, for the present government is as direct as the former. The suits should have been dismissed long ago, and the administration under Harrison is besmirching its life by demanding any sum whatever. The parties were innocent and why they should be compelled to pay a dollar is a mystery.

Under the Land Laws of 1878, the right to cut timber in the states of Nevada, California, Colorado and the Territory of New Mexico, was given for mining, domestic and agricultural purposes. The law in thus giving these privileges or permission has not been infringed upon in any particular, and if the mill men are to pay one cent, it is so much money fraudulently taken from them. The republican papers of late have been harping upon the leniency of the government in these cases. The truth of the whole matter is that the cases have not been dismissed, and the government officials are considering a proposition as above stated.

Good fortune has again come to Colorado College. Hon. Warren Carrier of St. Louis has founded a scholarship of \$1,000 to be known as the Carrier scholarship, and Mr. J. J. Hagrman recently gave a valuable collection of Latin books known as the "Dolbin Latin Classics," numbering some 150 volumes.

Santa Fe artesian well is now down 900 feet, they have struck salt water.

The status of the statehood question is, Wyoming and Idaho will be admitted. Arizona and New Mexico will endeavor to have an enabling act. Republican Congressmen do not feel sure of the politics of New Mexico. The opinion prevails that no Democratic Territory need apply.

The Las Vegas Seminary, both the old and new buildings were destroyed by fire Saturday night, the Opie says: "There were in attendance at the institution of learning on last Monday 153 pupils, about twenty-five from abroad.

It was thought this morning that the Hotel Buckingham would be secured and fitted up, so that school can open there on next Monday morning.

The Seminary was nearly on its feet financially, the extension board of the M. E. church, south, at Nashville, Tennessee, having recently arranged for the payment of \$6,000 on the standing indebtedness. But the trustees and faculty are not discouraged in the least. They will prove themselves equal to the emergency by rebuilding at once, if they receive that substantial encouragement from our people that certainly they are justly entitled to.

It is stated that Jay Gould and party on the way up the T. & P. stopped sixteen miles east of Pecos to view the country about the proposed junction of the Eddy railroad with the T. & P. The engineer corps is already at work on the Eddy line.—El Paso Herald.

Land Crazy Boomers.

New Mexico citizens en route from the Fort Worth cattle convention caught a glimpse of the boomers' methods as they came through the Cherokee country. They say the settlers practically settled the country three days ago, and it is not believed the military can drive them off their claims. Probably 25,000 home seekers went in with the first rush and the cattle have been driven out or burned in the prairie fires now raging. From the car windows the prairie could be seen burning over a large area of country and the boomers were pouring in from all the frontier towns on foot, on horse back and in all manner of conveyances. The New Mexico visitors thought it a remarkable scene.—New Mexican.

Berlin, March 14.—It is stated that Bismarck has asked Windthorst, the clerical leader to give support to startling financial and military proposals which the government will soon lay before the Reichstag.

John J. Cockrell is much better, his illness was temporary. From a letter received by a White Oaks attorney, John J. is transacting business as usual and will be at Lincoln at court, or before.

TRUTH.

Lives of some men oft remind us,
Honest toil don't stand a chance;
More we work we leave behind us,
Bigger patches on our pants.

O'er our pants once new and glossy,
Now are patches of different hue;
All because subscribers linger,
And won't pay up what is due.

Then let all be up and doing;
Send in your mite, be it so small,
Or when the winds of March shall leave us,

We will have no pants at all.

Who Wants a Websters Dictionary

We are prepared to furnish the regular edition of the above Dictionary for \$4.00. Size of book 8x10½ in, by 4 inches thick. Weight 9 lb. Bound in calf. The regular price is \$12.00. This offer is made in connection with 3 months subscription to the New York Weekly. All for \$4.00. No excuse for being without a Dictionary.

The Congregational Church Society, an incorporated body has nearly completed their church in this place, the only uncompleted portion is the chimneys and steeple. On last Sunday divine services were held, Rev. N. W. Lane, pastor in charge officiating. The church is of stone, with iron roof, side walls plastered, ceiling wainscoted, new seats have been provided, and the church well lighted and is commodious. The construction of this church has been under the Congregational Church society, and it is the property of that society. The salary of the pastor is paid in part by the Home Missionary society, which, pays \$600.00 a year—the balance is contributed by the public of White Oaks. The means to construct the church has been gathered from various sources—the principal amount, some \$800 was contributed by the Congregational building society. This amount will be ample to pay the outstanding indebtedness together with the home subscription and some funds collected East by Congregational church people. Rev. Lane, Messrs. Parker, McDonald, Rudisill, Kempton and Wells, the trustees, are adjusting the business matters, and in a very short time the church will be free from debt. Too much praise cannot be extended to the ladies, they have worked early and late and were no small factor in the success attending the completion of the edifice. Rev. Lane has been untiring in his efforts in behalf of the society. The people of White Oaks have a just pride in the structure. White Oaks has a church now suitable, and a credit to the town.

A Dime Social will be held at the Cong. Church Friday evening. A good time is expected, and a general invitation is extended to all.

A prize will be given to the best trimmed bonnet in the house. The trimming to be done by the gentlemen present, as each lady will take a bonnet and trimming, and gentlemen will choose lots as to which one they shall trim.

Will the ladies please remember and bring any kind of a bonnet, and trimming—also a needle and thread, without further invitation.

Come and look at my Boots and Shoes—Remnants and broken lots—very cheap, Levin W. Stewart.

IMPORTANT ANNOUNCEMENT.

J. M. Runsdale, who has charge of J. A. Cooper's milk dairy, will, in a short time be prepared to supply the citizens of White Oaks with pure milk, at reasonable rates. Give him a trial—he will give you satisfaction.

Jake Ziegler returned from San Pedro last Thursday. Sidney Parker will remain for a time at San Pedro, with Goodman, Ziegler & Co.

My Salt Bacon 8 c lb—The best, —Levin W. Stewart.

Richardson & Jones the young men concerned in the difficulty on the Carizozo range, will have their trial before Justice McCourt, about the 28th. The young men are anxious to meet the charges preferred, and will appear for trial as stated, the cause of delay was occasioned by idle threats, which caused the men to avoid the officers. When assured of a fair and impartial hearing, they have concluded to appear.

A new lot of fresh Ranch Eggs—All warranted.—Levin W. Stewart.

B. H. Dye, has been busy this week perfecting arrangements to resume work at the Lady Godiva mine. Gus Kisler, and the old crew will be in charge, together with some new hands. Work will be prosecuted in a rich body of ore struck last season. The resumption of labor in this mine will materially assist all concerned in the camp.

Mixed Pickles 75 c a gallon, at Young & Taliaferro's.

Mrs. Huff has removed to aristocracy hill, where the dust is not as thick and plenty as at her former residence next to the Interpreter office. Mrs. Huff departs for an extended eastern trip next week, while Mr. Huff will make an extended examination of the mineral field in the White Mountains.

Garden and Field Seeds at, Young & Taliaferro's.

Much dissatisfaction is manifested by the ranch men in the Coyote country, on account of the encroachment of a large number of herds of sheep, from Three Rivers and vicinity. Complaint has been made and the sheep men are to have a hearing before Justice McCourt this week.

Ed. Ferrish with his son John of Denver, left White Oaks for Bonito country last Sunday. Mr. Ferrish is one of the best known mining experts in the country, on his return next week he will be shown some White Oaks property.

ADVICE TO MOTHERS:

Mrs. Winslow's Soothing Syrup, for children teething, is the prescription of one of the best female nurses and physicians in the United States, and has been used for forty years with never failing success by millions of mothers for their children. During the process of teething its value is incalculable. It relieves the child from pain, cures dysentery and diarrhoea, griping in the bowels, and wind-colic. By giving health to the child it rests the mother. Price, 25 cents a bottle.

Dried Peaches 8 lb for \$1.00 at Young & Taliaferro's.

New Orleans, March 14.—The condition of affairs on the river front this evening is much more satisfactory than at the same time yesterday. The authorities aided by the railroads, have strengthened the weak places in the levees with bags filled with earth from St. Louis, to Hospital street and other points, but St. Louis street to Canal, where so much damage was done yesterday, nothing has been done. The levees in this section were injured more by the wind and weather than by the flood. To-day the

wind is blowing from the north at a velocity of thirty miles an hour. Governor Nichols, to-day issued a proclamation requesting all steamers to keep as near mid stream as possible and run slow as the circumstances will permit during the present freshet in lower Mississippi, as waves from passing vessels had done a good deal of damage to temporary work on the levees.

MORTGAGE SALE.

Whereas, on the seventh day of March 1889, George E. Herrington executed and delivered to W. H. Weed his certain mortgage deed, Conveying the west half of Lot 3 in Block 47 in the town of White Oaks in Lincoln County, New Mexico, with power of sale therein, which said mortgage deed was given to secure the payment of the sum of ninety seven dollars and seventy-five cents, one year after date with interest thereon at the rate of 12 per cent. per annum, according to the tenor and effect of a certain promissory note bearing even date with said mortgage deed, a copy of which note being inserted in said mortgage deed, which mortgage deed is duly recorded in Book B pages 136-7-8 of the records of mortgages of Lincoln County, New Mexico,

And whereas the conditions of said mortgage deed have been broken and the amount of said note is still due and wholly unpaid although the same is long since due and payable.

Now therefore, notice is hereby given that, in pursuance of the power in said mortgage deed contained, I will, on the

5th day of April, 1890,

between the hours of 10 o'clock in the forenoon and 12 o'clock noon of said day, in front of the post office in White Oaks, Lincoln County New Mexico, expose and sell at public auction to the highest bidder for cash, the said West half of Lot 3 in Block 47 in said town of White Oaks, the property and premises described in said mortgage deed, to satisfy the amount due on said note and costs, expenses of sale and attorney's fees, and will execute and deliver to the purchaser thereof a good and sufficient deed therefor.

MORTGAGEE'S SALE.

Whereas Theodore W. Heman and M. Lulu Heman, his wife, of the town of White Oaks, County of Lincoln, and Territory of New Mexico, by their certain mortgage-deed bearing date the 17th day of August, A. D. 1888, and recorded in the Probate Clerk's office, of the County of Lincoln in Book B, of the records of mortgages, pp 40-43 did convey to the undersigned, Phil. E. Green, (of St. Louis, Mo.) his heirs and assigns as mortgagee the following described Real Estate situate in the said County of Lincoln and Territory of New Mexico, as follows, to wit: That certain Placer Mining Claim and premises designated by the Surveyor General of New Mexico as Lot No. 151 and known as the James Placer mining claim in the White Oaks mining district and which is more particularly described as to meets and bounds in the United States Patent recorded in the records of said Lincoln County in book C of records of patents at page 151 to which reference is hereby made to secure the payment of a certain promissory note made by the said Theodore W. Heman and M. Lulu Heman to the said Phil E. Green, of even date with said mortgage deed for the sum of one thousand five hundred dollars and interest thereon at the rate of twelve per centum per annum, payable one year from the date thereof. And whereas it was provided in and by said mortgage-deed, that if default be made in the payment of said principal sum and interest thereon or any part thereof, when the same should become due and payable, then in such case, the said mortgagee, his agent or legal representative, might sell at public auction said mortgaged premises to the highest bidder for cash: first giving notice of the time and place of such sale by publishing a notice in some newspaper published in the County of Lincoln, for at least thirty days before the date of such sale and in their name or names or as the Agent or Attorney of said mortgagor might make and deliver to the purchaser or purchasers at such sale a good and sufficient deed of such premises.

And whereas default has been made in the payment of the principal sum and interest thereon due upon said note and which default still continues: Now, therefore, Public Notice is hereby given that on Tuesday the 15th day of April, A. D. 1890, at the hour of two (2) o'clock in the afternoon, at the said described premises adjoining the town of White Oaks, in said County of Lincoln, the said Phil E. Green, by his Agents and Attorneys, Watson & Lund, will sell at Public Auction to the highest bidder, for cash, the premises hereinbefore and in the said mortgage-deed described in pursuance of the powers and provisions of the said mortgage-deed.

The amount claimed to be due and unpaid upon said note of principal and interest thereon together with attorney's fees and costs of advertising and sale, etc, is one thousand, seven hundred and eighty and .10-100 dollars. (\$1780.10)

Mr. Lee: "Why, Addie, you needn't cry about it! I only said 'rs. Allen was a very well-informed woman, and I wished you would follow her example.'" Mrs. Lee: "Yes, and last week you said you wished I could make a table as stylish as Mrs. Allen's—and she made all her own clothes. But she has what I have not!" Mr. Lee: "What is that?" Mrs. Lee: "Well, she gets all of her information from the *Magazine*! I admit that she knows all that is going on, and is bright and entertaining in conversation—but I can do as well as she does if I had the same source of information. She has the last number of her *Magazine* lately, and I'll read it in one hour's reading, about various social matters and the topics of the day, and I'll read it up in a month by my occasional casts with friends. I can't say I cover every topic of interest from the news of the day down to the details of house-keeping; and everything is so beautifully illustrated, too. Every thing *Magazine* goes over to the *Albion* she comes back and passes me to you to take the *Democrat's* family name as the stories are so good. Even the boys would read every number, as a place is found for each of them in the pages; and Mr. Allen swears by it. It is really wonderful how it suits every member of the family!" Mr. Lee: "Well, perhaps I had better send for a Specimen Copy; for if it is anything like what you say it is, it will amuse and interest the whole family." Mrs. Lee: "I see that W. L. Hughes, *Democrat's* publisher, is at 114th Street, New York, is offering to send a Specimen Copy for 1 cent, so we can't lose anything, as each number contains a 'Pattern Order' entitling the holder to any pattern she may choose, and in any size which alone makes each copy worth 8 cents; and I just want a jacket pattern like Mrs. Allen's. The subscription price is only \$10 a year; and I must say I can't see how they can publish so elegant a *Magazine* for so little money."

The Australian system might be tried in New Mexico. There is plenty of rainfall to grow any crop if properly distributed. At times there is not enough moisture in the ground to bring the dews, and the result is a drouth. The Australian plan is to make artificial lakes or reservoirs in every hollow; from one to a dozen on every farm.— These reservoirs act as a catch basin for the surplus rainfall in the spring and fall, and during the hot summer months in summer the water in these ponds is absorbed, and, brings rain. The rainbelt farmers can accomplish the desired result if they adopt this plan, and the work to each individual or farmer would be comparatively nothing. It is clear to any mind that lakes of water scattered over the plains in this manner would be beneficial.

An Austrian sculptor, Friederich Beer, has discovered a process for dissolving marble, and then molding it like metals. The name of the marble thus treated is beryt. The new product costs little more than plaster, and is especially well adapted to the ornamentation of houses.—Boston Journal.

There are no more prosperous or progressive cities in the United States than St. Paul and Minneapolis, and it will be interesting to know that they have both officially ordered the substitution of overhead electric railways in all their streets where horse cars have been used heretofore.—Electrical Review

IF A BODY MEET A BODY

the result is a collision, whether "coming thro' the rye," or not. Life is full of collisions. We are constantly colliding with somebody or something. If it isn't with our neighbors it is with some dread diseases that "knocks us off the track" and perhaps disables us for life. Women especially it seems, have to bear the brunt of more collisions and afflictions than mankind. In all cases of nervousness, bearing-down sensations, tenderness, periodical pains, sick headache, congestion, inflammation, or ulceration and all "female irregularities" and "weaknesses," Dr. Pierce's Favorite Prescription comes to the rescue of women as no other medicine does. It is the only medicine for women, sold by druggists, under a positive guarantee, from the manufacturers, that it will give satisfaction in every case, or money paid for it will be refunded. We have just been admiring one of the handsomest oil pictures of "Jacque" Roses that we have ever seen, and had it been in an art-store we should have known that a good price would be asked for it. But imagine a work of art of such intrinsic value being obtained for nothing! for that is practically the case, as it is a supplement to Demorest's Family Magazine for April. This wonderful publication has on its Easter garb, and it certainly is an attractive one. Each succeeding number appears to grow better and better, until we are forced to wonder what can be done to improve its present high standard of excellence. The fact of the matter is, there is but one purely family and home Magazine, and that is Demorest's. The illustrations are works of art, and some of the articles which they illustrate are "Orchids," "The Manhattan Working-Girls' Society," "The Easter Lily," "The Forbidden Place," "The Haram Esch-Seherif in Jerusalem," "Easter Novelties," "Kindergarten Work and Play for the Home," "In the Grasp of the Gripp," "Easter Eggs," etc., besides numerous other articles and stories, including "A Woman's Kitchen Gardea," "Our Cooking Class," "Preserving Garments from Moths," "The Art of Letter-Writing," "Madge Bonfield's Easter Ghost," etc., etc, Published by W. Jennings Demorest, 15 East 14th St., New York. Every newsdealer ought to keep this valuable publication, and we suppose they do. It shows the magic power of 20 cents, and the great distance that small amount can be made to go.

Well and Happy.

I take pleasure in submitting the following statement of facts that you may know the great benefit that has resulted from the use of your Specific in case of my little daughter, now ten years of age. The child, when two years of age, had a severe attack of scarlet fever, which left her with a shattered constitution. Among other evidences of impaired nutrition was what the doctors called softening of the bones. In her fifth year she happened to a slight accident which resulted in the dislocation of the hip joint, and from the irritation thus set up, terrible abscesses of the hip ensued. The abscesses, despite the best medical treatment that could be obtained, remained for three years, discharging continuously. At this time, through the influence of friends, I put her on your S. S. S. When this treatment was commenced the abscess was very large, having six perforations, pus discharging through them all. During this treatment several spiculae of bone came out, and by the time she had finished her fifth bottle the abscess had entirely healed, her appetite and general health had been restored; in short, she was well and happy, and so continues.
