LIFE.

BY FRED LYSTER

"Life is a song," so piped the thrush,
Perched on a sweet white blossomed
bush.

"'Tis an unfolding," said the rose,
Whose blushing petals 'gan to close.

"'Tis pleasure," breathed the butterfly,
Kissing the rose and passing by.

"Say rather a short summer's day,"
The Mayfly hammed—and flew away.

"'Tis work," buzzed out the busy bee,
Sipping the rose-sweets daintily.

"'Tis freedom screamed the eagle proud,
Piercing the fleecy summer cloud,

"'Tis battle, that, and nothing more,"
The wave moaned, breaking on the shore

"A dream," the mist sighed, "set with
fears."

The soft rain wept, "'Tis tears—all
tears."

"The Scholar and the state,"

From an Address to the Phi Beta Kap-
pa Society of Harvard, June 26, by
Bishop Potter

There is a great host of patriotic
well-wishers of their country all
over the land who honestly believe
in her great destiny and earnestly
desire to serve her. And these are
they who the trained minds of those
who, as Bacon wrote, have been
trained to master the problems that

concern a nation's best life by
"thinking through" them, can often
and greatly serve. But to do so
they must be willing to sacrifice
something of their leisure and some-
thing more of their love of ease.

They will not always or often, per-
haps, find such service a pleasant
task, but they will not fail sooner
or later to find it a fruitful one.

There will be those who will be ea-
ger to denounce the pessimism of a
patriot who has not learned to echo
the shamsless cry, "Our party, and
country, right or wrong." But all
thoughtful and ingenuous minds

will own that in the domain of
patriotism he and he alone is pes-
simist who despairs, not of bad men,
but of the worth of any appeal to
good ones; who is without faith in
men's nobler instincts of truth and
honor; who reckons all manhood as
equally base and purchasable and
corrupt, who dismisses every regard
for those chivalric asperations which
alone have made men or nations
great, as so much irrelevant senti-
mentalism, and who would appear
in the strifes of party only to that in
human nature which is the most
ignoble and unworthy. Surely this
is pessimism, this despair of virtue
and goodness and of the obliga-
tions of duty, the rankest and most
faithless. And with such a temper
nothing can be more essentially
inconsistent than the training and
acquirements of the scholar. For
he knows, as indeed the most super-
ficial student of history may know
the power of ideas in the hearts
and on the lips of the few, profound-

ly believed, courageously uttered,
persistently urged to leaven and
lift up the many. There are names
enduringly associated with this
university, and others bound up
with the history of this common-
wealth and this republic, that clam-
or for mention as I repeat those
words. But I need not rehearse
them. From Winthrop to Hancock,
from Adams to Sumner, all the way
on you know them better than I.
And what do they say to you and
me, my brothers? This, this, they
say: "Yours is the heritage; your
country's best things; her best gifts,
her ripest acquirements; her nob-
lest vantage-ground. Use them
worthily of your great past and of
the promise of a still greater future."

The world, and above all our Wes-
tern world, waits for the voices of
men who have learned to love the
truth and are not afraid to bear
witness to it. And your country,
she bids you to remember that all
you have and are, you hold as a
trust for her. The great idea of a
government of the people, by the
people, and for the people, she bids
you never to forget, can find its
worthy realization only when it is
the government of an upright and
enlightened people, by upright and
enlightened servants, rooted in the
high purpose of loyalty to duty to
God! For such a nation what ser-
vice can be too painful, what sacri-
fice too costly! Once, not so long
ago, she called on some of her sons
to die for her, and now she calls
upon all of them not to die but to
live for her—witnessing at whatever
cost of scorn and obloquy for all
things pure, and honest, and of good
report! Again I ask, is her de-
mand too large? Let another,
even one of your own poets, still
spared to adorn this university,
and to be a jewel in the diadem of
America's choicest scholarship,
make answer for you:

O beautiful, my country! Ours once
more!
Smoothing thy gold of war-disheveled
hair
O'er such sweet brows as never other
wore,
And letting thy sweet lips,
Freed from wrath's pale eclipse,
The rosy edges of their smile lay bare,
What words divine, of lover of poet,
Could tell our love and make thee know it
Among the nations bright beyond com-
pare?

What were our lives without thee?
What all our lives to save thee?
We reck not what we gave thee;
We will not dare to doubt thee.
But ask whatever else, and we will dare!

The total number of American
patents issued last year reached
23,360, as against 19,585 for 1888.

British Admiral Interviewed

Victoria, B. C. July 18.—The British gun boat War Ship, flagship of the North Pacific squadron, with Rear Admiral Latham aboard arrived here yesterday. The admiral was interviewed in regard to the suggestive movement of the War Ship to protect Canadian vessels in Behring Sea. The admiral has not yet had any opportunity to complete the perusal of the mass of correspondence that awaited him here, but stated emphatically that he had as yet received no instructions to send any fleet to the north to prevent the British vessels from seizure by the American cutters or to retake any that might be seized in Behrings Sea. He considers the matter, principally from what he had read of it in the press, as purely one for diplomatic negotiations. He had yet to learn what new phrase had presented itself that would suggest the possibility of the War Ship being required to take a hand in the adjustment of the difficulties.

The county alliance met at Eagle Creek, July 10. They decided to prepare questions to be submitted to our candidates for the Territorial legislature and thus ascertain who of them favor legislation demanded by the alliance. They appointed a legislative committee to report at a meeting to be held next Saturday week, at which time the matter of endorsing candidates for county officers will also be considered. The legislative committee will meet at Nogal on Saturday, July 26, at which time a stockholder's meeting will also be held.—Baner.

CHRISTY-FRENCH—The wedding of Mr. Albert L. Christy and Miss Sophia French took place on Wednesday evening last at the residence of the bride's parents in Las Cruces. Rev. Henry Forrester, of the Episcopal church, went over from Kingston and performed the ceremony. Only a few of the young couple's more intimate friends were present. After a short wedding trip Mr. and Mrs. Christy will return to Las Cruces and be at home to friends after August 5.—Mr. Christy is the bright and genial clerk of the district court for the 3rd district, and counts his friends in all quarters of the territory. He is a most promising young business man, just such as is entitled to catch for a wife so charming a lady as his wife is known to be. The Santa Fe Friends of this pleasant couple will join the New Mexican in wishing them all the joys of this life.—New Mexican.

A party of Spanish diplomats is in Washington sounding the sentiment regarding the annexation of Cuba.

Hon. David Dudley Field will preside over the universal peace congress in London.

S. M. Folsom, president of the Albuquerque National bank; W. P. Metcalf, manager of the Antelope Springs cattle ranch; E. A. Cahoon and R. H. Fry, former clerks in the Albuquerque National, left last night for Roswell, N. M. Messrs. Cahoon and Fry go to take charge of the new bank to be started there—the former as cashier and the latter as assistant and bookkeeper. Messrs Folsom and Metcalf are interested in the bank in a financial way.

An expedition of explorers will leave Bisbee about August 1st. to be gone two years. They will take the Sierra Madre mountains first and spend much of their time there. After finishing that range they will work up the coast, going to the extreme north of the coast range before disbanding. They have with them geologists, ornithologists, and entomologists. There are 78 in the party, and they will travel thoroughly equipped for a thorough exploration of unknown regions.—Much valuable information will result from this research.—Prospector.

Perhaps the most extraordinary article ever published upon "Hypnotism" will appear in the COSMOPOLITAN MAGAZINE for August. It was secured from one of the two most celebrated professors of weird art, the Frenchman Donato, and the illustrations were secured by having a number of subjects taken to the photograph gallery of Mr. Kurtz, in New York, and there hypnotised under the camera by Donato himself. The illustrations show very fairly the frightful power which the hypnotiser exerts; and the whole article makes plain a subject which is exciting much attention all over the world at this time. One who has not seen the facile movements of the hypnotiser and the change which takes place in the victim under his apparently simple action, cannot for a moment comprehend the wonderful powers exercised. One moment the subject looks you in the eyes, talks to you as any other person; is in his right mind in every particular; the next under a motion of the professor, his mind is as completely lost to his body as if his head had been cut off, and in this condition, subject to suggestions of the operator, suggestions, which may be carried to the most farcical or the most terrible results, he remains until recalled to life by the hypotiser. Never before has a number of subjects been placed under the camera and operated upon in this way, and the article will doubtless be received with general interest throughout the country.

The New Fifth District.

There is quite a strife going on over the location of the court of the new 5th judicial district. Specially are the people of the town of Lincoln making strenuous efforts to secure the court for their town. Meetings have been held, petitions are being signed and a strong effort is being made to secure influence from prominent men all over the territory for Lincoln. Letters and appeals are being written and work is going on all the time. It is about fifty-five miles from Roswell to Lincoln and a little less than 140 miles from Eddy to Lincoln. There is also an effort being made to add Socorro to the new 5th judicial district; this latter however seems to meet with a good deal of opposition, as the Socorro people, if that should be done, desire the court at their town. Roswell wants it also, and Eddy is not behind in its desires. The fact of Roswell having the U. S. land office is brought up against the claims of that town. The judges of the four districts, as at present constituted, have the selection of the 5th district for the present, and thereafter the legislature can reorganize the district as it sees fit. The situation is an interesting one and has more or less bearing on the political situation in southeastern New Mexico.—New Mexican.

Col. Cronin, Chairman of the Board of Commissioners of Lincoln county, was in town several days this week in the interest of Lincoln as the head of our new judicial district. It being rumored that the people of White Oak would favor Socorro as headquarters of district in the event of the annexing of that county to those of Lincoln, Chaves and Eddy. Col. C. is very much gratified to find no foundation for such reports, as the people of White Oaks without reserve express themselves as unqualifiedly in favor of Lincoln as the district seat.

Politically, we learn from Mr. Cronin, that our present county clerk, Geo. Curry has announced himself as being "out" for the position of assessor, an office Mr. C. thinks Curry is peculiarly fitted to fill, and owing to his popularity would add considerable strength to the Democratic ticket.

Relative to the legislative ticket, Cronin is of the opinion that Judge Richardson for the council, and our townsman, W. C. McDonald for the house would fill the bill, now that J. C. Poe, and judge Hewitt positively decline to stand. Mickey's favorite for the council was John Y. Hewitt, first and last, and he very much regrets the judge's determination not to enter the race.

He is of the opinion that it would not be at all conducive to the success of the democratic county ticket to place thereon for all the office aspirants for such from the town of Lincoln solely, though there is no doubt in his opinion that the brains of both parties has long since gravitated to the town, and are now hived in the different offices in the court house building thereat.

The article in last week's Leader signed "Ex-Democrat" tries to be cunning in his criticism of some White Oaks gentlemen who attended the Commissioners Court from this place. The gentlemen named, one and all are not in the least disturbed, as democrats, they are pursuing the even tenor of their ways, perfectly oblivious to the article written, undoubtedly with a view to create dissension. The mugwump who is making such an effort will be chagrined to know that the mis-sive has fallen on barren soil. At the proper time the democrats will convene in Lincoln at the convention and place such a ticket in the field as to sweep the county. Our republican friends will have ample opportunity to come to the front then and meet defeat like little men. We have yet to learn of a single democrat who has announced himself as opposed to the party. Lincoln County democrats to-day are in full harmony, confident of an overwhelming victory.

The effort to detach Raventon people from White Oaks by the creation of another precinct, is being vigorously pushed by some over zealous republicans. It matters but little whether they succeed or not as the returns will be as favorable as heretofore for the democrats. The scheme is one so openly fraudulent that the commissioners cannot allow it. The petition contains minors and names of Lincoln residents.

The valient and only Majah McCaffrey, left on the Stage Sunday night, to attend the session of the republican, so called league, to be held at Santa Fe. The Majah will endeavor to represent the G. O. P. of Lincoln county at this gathering and poise as the invincible leader. We wonder how the younger element of the G. O. P., will consider this manner of representation. By whom was the aforesaid Majah sent or was it one of the affairs where no one cared to go and of but s 11

moment at most. The assumed leadership of the older element is openly expressed and announced as unfair. We, as democrats are silent and interested listeners to the criticisms made, and hope that the efforts of the gallant Majah will even redound to his well known ability as a leader of his party, notwithstanding the adverse criticism of a few disgruntled republicans. We can only say, boys, take a back seat as usual, and when asked why you are thus treated continue to poise as martyrs and the willing tool of the men who always appear at the front on dress parade.

The paper known as The Leader and reported as edited by one Majah McCaffrey, at White Oaks, contained an article entitled "Amnsing and Sickening," in the issue of July 19th, which called the attention of its readers to the ignorance and venality of the editors of Democratic papers in New Mexico. The article starts out by saying, "Some small soul from Wisconsin, Kansas, or Colorado moves into New Mexico and gets hold of a 7x9 Democratic organ." The talented and circumspect Majah endeavors to tell how the aforesaid *small soul* knows nothing, cannot speak the Mexican tongue, does not know who are friends or who are enemies in the political arena, and finally ends the article by calling attention to the eminent service and profound knowledge of the aforesaid Majah. To begin with, the writer hereof will acknowledge that he cannot find out and is ignorant of who are friends in the G. O. P., and cannot talk Spanish. We would be pleased to hear the Majah ask for salt or—sugar in Spanish and see the signal failure with which he would meet with. This Leader, so called newspaper, has been the butt of ridicule among the entire press of the territory and its few local subscribers for the past few years, one calling it a "clothes wringer," another "the worst printed paper in the United States, but all agree that the obituaries, generally taken from the Philadelphia Ledger are immense, provided they are legible. We will stop right here and ask a general question of the people of White Oaks: Does McCaffrey ever ask any one to write his editorials? if yes, does he or has he ever given proper credit? The individual particularly aimed at in the aforesaid article has contributed from time to time, articles published in the so called Leader newspaper—one in particular upon statehood and schools in January 1889, which article was taken in part as the text by delegate Joseph in his speech in Februdry 1889, and copied entire in the Congressional Record. When the gallant Majah was made aware of the prominence and value of the article mentioned he swelled up like a great

toad and went about town claiming great credit for the Leader and his original article. At that time the "small soul", was not so densely ignorant as at present and his "monkey work" was very acceptable to the Leader. Talk about cheek and gratitude, the Majah certainly has an abundance of one and is entirely devoid of the other.

The Pretorian Load.

The New York Tribune's estimate of the number of pensioners when the total under the Dependent Pension bill is made up is not too high. There will be at least 900,000 of them, and probably more than that number. There were 490,000 on the rolls on June 30 of last year, of whom 50,000 were added during the year. The number of claims filed at that date reached a total of 1,248,000, of which 739,000 had been allowed and paid at an expence of \$1,052,218,413,17, or over a thousand million dollars. There were still 850,130 claims pending and awaiting action—a number only 50,000 short of the Tribune's estimate of the total. These claims, it must be remembered, were under the disability laws. The Dependent bill imposes no restriction of disability incurred in service. Under it anyone who presents a record of enlistment can swear himself a pauper pension. So we are to look for a pension roll reaching to or above 1,000,000.

DEMOCRATIC CONVENTION.

There will be a meeting of the Democratic voters of Precinct No. 8, of Lincoln County, New Mexico, at the Town Hall in White Oaks, on Saturday, the 2nd day of August, 1890, at 2 o'clock p. m., for the purpose of electing delegates to the county convention to be held in Lincoln on the 14th of August, 1890, and for the transaction of such other business as may come before the same. All Democrats are requested to be present and participate in the proceedings of said meeting.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

Ed. R. Bonnell, and Harry Comry departed for Egale Creek on a fishing expedition. The fish to be caught are of a peculiar variety. Harry Comry's friends report that they intend to give him the nomination of Treasurer in the Republican convention.

Frank Tatti, on Tuesday last, removed to Nogal where he will reside for a while.

S. M. Folsom, Pres. Albuquerque National Bank; W. P. Metcalf, manager Antelope Springs cattle ranch; E. A. Cahoon and R. W. Fry, arrived on Sunday last on their way to Roswell, for the purpose of establishing a bank at that place. They left here Monday Morning.

The New Mexican is strong in its opposition to the Perkins school bill, and is intensely anxious about statehood. The inconsistency of such a course could only emanate from this extreme partisan sheet. Every intelligent citizen cries, give us schools by all means, but this is not the policy of the leaders of the party. Hon. Thomas Catron put a knife in all laws looking toward a permanent school fund, when he and his cohorts defeated the Kistler School Bill in the last legislature.

Geo. E. Sligh was in town on Thursday. He reports an abundance of rain and grass in the San Andreas.

Several miners at the South Homestake mine were compelled to quit work on Wednesday on account of foul air.

Messrs Ransom and Schaefer are busy sinking the well on the Lane property.

John Y. Hewitt has been at the Railroad the past week, awaiting the arrival of a sister who is expected.

LOST,—on the streets of White Oaks, gold breast pin—filagree and Lilly of the Valley design. Any one finding the same will be liberally rewarded by leaving at this office.

Ernest Langston, who has been at Drury Col. in Springfield Mo., the past nine months, arrived home Sunday. Ernest is very much pleased with the College, one of the best in the State. And has profited greatly by his close application to studies. Ernest has a host of friends here who are pleased to meet him once more, and gratified to see that he has made the most of his opportunity.

Why is it that Young & Taliaferro's customers all pay their accounts before leaving for other lands? Answer—Because they (Y & T) sell so cheap their customers all save money, and are enabled to pay all they owe.

It seems probable that the Perkins education bill, providing an adequate and modern public school system for New Mexico, will be passed by congress. This will confer more benefit upon the territory than a ton of republican rump constitutions.—Santa Fe Sun.

The question is this: Do we need statehood and Tom Catron worse than we need a good school law? If you believe we should have Tom and statehood and that we don't need public schools you should certainly support statehood. If you think we need schools vote against statehood, and let congress furnish us the school law.—Socorro Advertiser.

Our old friend and old time citizen of White Oaks, is in from his San Andrea ranch, and reports everything flourishing.

Fall and winter samples for gent's suits received. Call and leave your measure—Goodman, Ziegler & Co.

Mrs. T. B. McCourt and Margie have been the guests of Mrs. J. A. Alcock at the Carrizozo ranch for the past week.

J. O. Nabours, has a crew of men out in the Patos country to round up, they started Tuesday.

Mrs. S. B. Schrontz has been very sick the past week, and at this writing is dangerously so. Mr. Schrontz is away off in Central America.—The K. of P. are doing everything possible to make her situation comfortable, Mr. Schrontz being a K't. Thus it is exemplified the good work this organization can accomplish. Mr. Schrontz being in comfortable circumstances, the duties of the K. of P. order are of the character of brotherly love and attention in the absence of a brother member. Dr. Paden is in constant attendance and her son Chalmer at home, everything is being done to alleviate her condition.

Isaac S. Struble, the republican congressman in Iowa, who has been so violent in his treatment of our Mexican fellow citizens, failed to receive the renomination he sought. This is a god-send to the people at large—this man was chairman of the committee which defamed the women in the celebrated minority report, concerning New Mexico. We will publish this report soon to show how much the Republicans love the Mexicans.

ADVICE TO MOTHERS.

Mrs. Winslow's Soothing Syrup, has been used by mothers for children teething for over fifty years with perfect success. It relieves the little sufferer at once, produces natural, quiet sleep by freeing the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste, soothes the child, softens the gums, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle.

CITY BARBER SHOP.

OSCAR DYER has lately placed in fine shape, his barber shop, adjoining the Little Casino, where he has a good stock of razors, comfortable chair, clean towels, &c. Oscar is reasonable in his charges, and those desiring a good clean shave, hair cut, or shampoo, can procure the same at any time.

J. R. Gillman, the well known and popular representative of the firm of Mendell Bros, hardware merchants of Albuquerque, came in yesterday, and left this morning for Roswell.

Milton Katzenberg, the genial representative of the firm of Lowenthal and Meyers, Liquor Merchants of Albuquerque, passed through town yesterday on his way home from the lower country. He paid a pleasant visit with the promise of returning soon.

Gogo Haliography.

The seventeenth volume of Alden's Manifold Cyclopedias extends from Gogo (a town and seaport of British India) to Haliography (a description of the sea), and compares favorably with its predecessors in its skillful editing, handy form, excellent typography and binding, and its remarkable economy in cost. While in magnitude the Cyclopedias compares closely with Appleton's or Johnson's, and is considerably larger than the latest edition of Chamber's, it is vastly more comprehensive than either of them. Besides covering the usual ground of a universal Cyclopedias, it includes also an Unabridged Dictionary of the English language, every important word to be found in Webster's or Worcester's and not a few besides which have grown into the language since their last revision. Considering this comprehensiveness and its editorial and mechanical excellence, its price is hardly less than marvellous, being only a fraction of that of other high-class cyclopedias. Specimen pages and easy installment terms sent free. GARRETON, COX & Co., Publishers, New York, Chicago and Atlanta.

Mr. LEE. "Why, Addie, you needn't cry about
it! I only said Mrs. Allen was a very well-
informed woman, and I wished you would follow
her example."

Mrs. LEE. "Yes, and last week you said you
wished I could manage to look as stylish as Mrs.
Allen,—and she makes all her own clothes. But
she has what I haven't."

Mr. LEE. "What is that?"

Mrs. LEE. "Well, she gets all of her informa-
tion from the Magazine they take. I admit that
she knows all that is going on, and is bright and
entertaining in conversation; but I could do as
well as she does if I had the same source of
information. She lent me the last number of her
Magazine lately, and I learned more in one hour's
reading about various social matters and the
topics of the day, than I would pick up in a month
by my occasional chats with friends. It certainly
covers every topic of interest, from the news of the
day down to the details of housekeeping; and
everything is so beautifully illustrated, too.
Every time Annie goes over to the Allens' she
comes back and teases me to get you to take
Demorest's Family Magazine, as the stories are
so good. Even the boys watch for it every month,
as a place is found for them all in its pages; and
Mr. Allen swears by it. It is really wonderful
how it suits every member of the family!"

Mr. LEE. "Well, perhaps I had better send for a
Specimen Copy; for, if it is anything like what you
say it is, it will amuse and instruct the whole of us."

Mrs. LEE. "I see that W. Jennings Demorest,
the publisher, 15 East 14th Street, New York, is
offering to send a Specimen Copy for 10 cents, so
we can't lose anything, as each number contains
a 'Pattern Order' entitling the holder to any
Pattern she may choose, and in any size—which
alone makes each copy worth 30 cents; and I just
want a jacket pattern like Mrs. Allen's. The
subscription price is only \$2.00 a year; and I
must say I can't see how they can publish so
elegant a Magazine for so little money."

IF A BODY MEET A BODY

the result is a collision, whether "coming thro' the eye," or not. Life is full of collisions. We are constantly colliding with somebody or something. If it isn't with our neighbors it is with some dread diseases that "knocks us off the track" and perhaps disables us for life. Women especially it seems, have to bear the brunt of more collisions and afflictions than mankind. In all cases of nervousness, bearing-down sensations, tenderness, periodical pains, sick headache, congestion, inflammation, or ulceration and all "female irregularities" and "weaknesses," Dr. Pierce's Favorite Prescription comes to the rescue of women as no other medicine does. It is the only medicine for women, sold by druggists, under a positive guarantee, from the manufacturers, that it will give satisfaction in every case, or money paid for it will be refunded. Judge McFie returned yesterday from his trip to Washington and the East after having done some good work for the establishment of a fifth judicial district and a land court. The former has already been created, and the judge expects the latter will be this session of congress. The judge states emphatically that he did not go to Washington to work for statehood, nor did he do so while there.—M. V. Democrat.

One of the deepest coal mines in the world is at St. Andre du Porier, France, and yearly produces 300,000 tons of coal. The mine is worked with two shafts, one 2,952 ft. deep, and the other 3,083 feet. The latter shaft is now being deepened, and will soon reach the 4,000 feet level. The remarkable feature in this deep mine is the comparatively low temperature experienced, which seldom rises above 75 degrees Fahrenheit.

Last week a terrible race riot, precipitated by drunken negroes, occurred in West Virginia.

Both Ankles Crushed.

In a railroad smash up in 1879, I had both ankles badly crushed. Soon after Blood Poison set in, and both legs, from my knees down, were covered with ulcerated sores, that refused all efforts to heal. I was virtually helpless for ten years, being bedridden most of the time. During all the time I was attended by the best physicians in this section of the state, and must have taken a cart load of medicine, without receiving any relief or being benefited in any way. In 1887 I was induced to try Swift's Specific (S. S. S.) I commenced to improve from the first dose, and continued to get better, until to-day I am as sound and well as any man in the universe. This was two years ago, since which I have had no return of sores or any pain in the legs. From my experience I conscientiously believe that Swift's Specific (S. S. S.) has no equal as a blood purifier, and I cheerfully recommend it to any one suffering from any disease of the blood.

So there are 64,500,000 of us! Superintendent Porter thinks that the census of 1890 will give the United States about those population figures. There is no cause for complaint. This gives us nearly fifteen million more than we had ten years ago; and even with the great contributions of welcome and unwelcome immigrants that come thronging in from foreign shores, and our own well established capacity for natural increase, there was no reason to expect any bigger figures. No country can show greater advances in wealth and population in the last decade.
