FOR SCHOOL PURPOSES.

Mr. Joseph has a bill now be-
fore congress for granting public
lands to the territory for education-
al purposes which, if it becomes a
law, will be of vast benefit to the edu-
cational interests of New Mexico.
As the bill is short, we copy it be-
low in full, to let the people of the
territory see what their indefatiga-
ble delegate is doing for them:

Be it enacted by the senate and
house of representatives of the
United States of America in con-
gress assembled:

That sections numbered 8, 16, 24
and 36 in every township in New
Mexico, and where such sections,
or any part thereof, have been sold
or otherwise disposed of by or
under the authority of any act of
congress, other lands equivalent
thereto, in legal sub-divisions of
not less than one-quarter section,
and as contiguous as may be to the
section in lieu of which the same
is taken, and hereby granted to the
territory of New Mexico for the
support of the common schools,
such indemnity lands to be select-
ed within said territory in such
manner as the secretary of the in-
terior may provide; provided, that
the 8th, 16th, 24th and 36th sec-
tions embraced in permanent res-
ervations for national purposes
shall not, at any time, be subject to
the grants nor to the indemnity
provisions of this act, nor shall any
land embraced in indian, military,
or other reservations of any char-
acter be subjects to the grants or to
the indemnity provisions of this
act until the reservation shall have
been extinguished and such lands
to be restored to, and become a
part of, the public domain.

Sec. 2. That 50 per centum of
the proceeds of the sales of public
lands lying within the territory of
New Mexico which shall have been
and shall hereafter be sold by the
United States, after deducting all
the expenses incident to the same,
shall be paid to the said territory,
to be used as a permanent fund,
the interest of which only shall be
expended for the support of the
common schools within said ter-
ritory and state.

Sec. 3. That there is hereby grant-
ed to the territory of New Mexico
from the unappropriated lands
within said territory for the fol-
lowing purposes, to-wit: For pub-
lic buildings for legislative, execu-
tive and judicial purposes, one
hundred thousand acres; for agri-
cultural college, one hundred and
fifty thousand acres; for insane
asylum, one hundred thousand
acres; for deaf and dumb asylum,
one hundred thousand acres; for
normal school, one hundred

thousand acres; for reform school,
one hundred thousand acres; for
establishing permanent reservoirs
for irrigating purposes, five
hundred thousand acres.

Sec. 4. That all lands granted
in quantity or as indemnity by
this act shall be selected under
the direction of the secretary of the
interior from the surveyed
and unsurveyed, unreserv-
ed, and unappropriated public
lands of the United States within
the limits of the said territory of
New Mexico. And there shall be
deducted from the number of acres
of land donated by this act for
specific objects to said territory the
number of acres therein heretofore
donated by congress to said terri-
tory for similar objects.

Sec. 5. That the schools,
colleges, and universities provided
for in this act shall remain under
the exclusive control of said ter-
ritory as herein provided, and no
part of the proceeds arising from
the sale or disposal of and lands
herein granted for educational
purposes shall be used for the
support of any sectarian or de-
nominational school, college, or
university.

Sec. 6. That the lands granted
for educational purposes by this
act shall be sold or leased and the
proceeds expended for said pur-
poses for which said lands are
granted under the direction of the
governor, chief justice, auditor and
secretary of said territory.

Sec. 7. The provision shall be
made for the establishment and
maintenance of a system of public
schools which shall be open to all
the children of said territory, and
free from sectarian control.

A New Empire Among Us.

Ten years ago the population of
the United States, as shown by the
figures collected by the enumera-
tors of the Government, was 50,-
155,443. To-day, according to the
most conservative estimates, it
reaches 65,000,000. The average
increase in the decades since 1790,
when the first count was made, has
been considerably over 30 per cent.
It was 35.10 between 1790 and 1800,
36.38 from the latter date to 1810,
33.06 between that time and 1820,
32.51 in 1820-'30, 33.52 in 1830-
'40, 35.83 in 1840-'50, 35.11 in
1850-'60, 22.65 in 1860-'70, and 30
.08 in 1870-'80. The low ratio of
increase from 1860 to 1870 was due
to the civil war, which largely re-
duced immigration and lessened
the birth rate. In no other ten-year
period, except the one which closed
in 1880, did the advance drop be-
low 32 per cent. An addition now
equal to that of the latter decade,

See Curry Probable Clark

HARDWARE, TINWARE,

STAPLE & FANCY GROCERIES,

and most authorities believe that that will be at least equaled, would add 15,000,000 to the country's inhabitants, and bring the total up to the 65,000,000 mark. It is probable that the average reader fails to grasp the entire dimensions and significance of this tremendous expansion in population. The number of new residents which the country has gained since 1880 is almost as great as that of the entire population of Spain, as great as that of Mexico and Canada together, or as Belgium, the Netherlands and Portugal combined.

The addition to our inhabitants in the past ten years exceed five-fold the aggregate population of the thirteen colonies at the time of their separation from Great Britain. In the period named a new nation, so to speak, largely surpassing in number that of any entire civilized country, except Russia, Germany, Austro-Hungary, France, Great Britain, and Italy, has arisen among us. Between 1850 and 1860 we passed the United Kingdom in inhabitants, and subsequently we left France, Austro-Hungary and Germany behind, while we will overtake and sweep by Russia, taking the first place among the world's enlightened States, in the decade which ends with 1900.—St. Louis Globe Democrat.

JUDGE LEE INTERVIEWED.

A reporter of this paper called on Judge Wm. D. Lee this morning, and interviewed him in regard to the judicial changes in the territory. In reply to the question as to the district over which Judge Seeds would preside, Judge Lee said:

"Judge Seeds was appointed on 17th of July, vice Wm. H. Whiteman, whose nomination was withdrawn on account of his resignation. He will preside over the First district unless there is another assignment."

"Where did you get this information, Judge?"

"Congressional Record, of July 18th."

"What about the reported increase of salaries of justices of the supreme court?"

"I am sorry to say there is no bill before congress to increase the salaries of the judges of the supreme court of New Mexico."

"How did such a report originate?"

"I suppose it originated from the fact that the senate amended the civil appropriation bill, adding \$3,000 to the appropriation to the justices of the supreme court of New Mexico. This is the salary of the fifth judge."

"When will the new fifth district be created?"

"The act providing for a fifth justice has passed congress, been signed by the president, and the amendment of the senate has been agreed to by the house for the ap-

propriation for his pay, and will no doubt be passed along with the regular appropriation bill. The president will then appoint a justice of that district. Or in view of the fact that the counties of Chaves and Eddy will not be legally formed until next January for judicial purposes and the fact that the next legislature in all probability will create other new counties, which would have to be provided for in the assignment, the judges may not take action before the meeting of the supreme court in January, but of this I do not know, as the supreme justice is absent in Minnesota, and the judges have not consulted on the matter."—Albuquerque Citizen.

THE APPORTIONMENT.

The meeting of the Democratic Central committee at Santa Fe, last Monday, was harmonious, and the proceedings were characterized by a practical, business-like spirit, which augurs well for the success of our party in the campaign now opening. All personal dislikes and differences were subordinated to the one great purpose—to achieve the success of the party and the vindication of its principles.

The following is the apportionment of delegates to the Convention to be held at Silver City on the 3d of September—as unanimously agreed upon by the committee:

Bernalillo county	9
Colfax	6
Dona Ana	7
Grant	8
Lincoln	6
Mora	9
Rio Arriba	8
San Juan	2
San Miguel	17
Santa Fe	11
Sierra	4
Socorro	7
Taos	6
Valencia	6

It is safe to predict a harmonious convention of able, earnest men.

The Santa Fe New Mexican is bravely booming the statehood movement; not only this, but it is getting warm under the collar because the republican papers of the territory do not fall into line and pull for statehood, it also brands papers that do not follow in its wake as back-sliders and sinners. Perhaps it would be well for the editor of the New Mexican to recollect that there are some people in New Mexico that are capable of reasoning for themselves and do not wear a collar with a string attachment. The New Mexican is a very great paper, but its vanity is very much larger we fear.—Black Range.

Hon. H. B. Fergusson made excellent speech at the mass meeting at Santa Fe, the 4th inst.

The Republicans in accordance with their usual practice, are endeavoring to mislead the people by their advocacy of the statehood question. Knowing that the measure will not carry in the present state of affairs, they hope to quietly secure enough legislative nominees to control the next legislature, and perpetuate the present unjust apportionment, and to satisfy Tom Catron, et al, on the school question. The land grabbers do not want taxes voted for schools and have so pronounced by placing themselves squarely against the Perkins' School Bill, and they have further condemned the effort toward schools by the resolutions passed at the late meeting of the League. The only course for Democrats and friends of a good school law to pursue, is to pay no attention to the hurrah about statehood, but elect a Democratic legislature, and secure both statehood and schools by proper and legitimate means. Lincoln, Chaves and Eddy will certainly send two good Democrats pledged to schools and as to statehood, for the time being laid on the table.

HOW THEY HELD THE NEGRO VOTE.

A very good illustration of the cunning and successful manner in which the Republican leaders so long deceived and led captive the colored people of this country, occurred in the senate chamber immediately upon the close of the Johnson impeachment trial.

A number of colored clergymen had been admitted to the floor of the senate chamber on the last day of the proceedings, when the final vote on the impeachment was taken. They were standing in a row against the wall on what was known as the Republican side, immediately behind the seats of Chandler, Howard, Wade, Sumner, and other ardent impeachers.

Immediately upon the announcement of the vote of acquittal of the President, one of them, an elderly man, threw up his hands and cried in the bitterness and agony of his disappointment "Oh! My God! what will we poor colored people

do now! We must all go back into slavery!"

This had been told so often by their Republican patrons that they firmly believed it. To them, and it has been so to a good degree till now, the failure of any scheming political purpose of the Republican leaders, was an unfailing sign of their return to slavery.—Deming Headlight.

The contest between Ed. R. Bonnell and Dr. M. G. Paden in relation to the homestead entry of Paden, was heard at Roswell, and a decision reached by the Register and Receiver favorable to Paden. This case has been of great interest, not alone to the parties immediately interested, but many others in this locality. The tract involved adjoins the White Oaks town plat and is very valuable, and the entry has been contested before, by E. W. Parker and decided also favorable to Paden. At times local feeling has run high with the friends of the contesting parties, and much said and done now happily at an end, providing Bonnell accepts the decision as it now stands. The right to appeal further is with Bonnell—what success should await him is very doubtful, and for the welfare of all concerned, it is better that the matter now be dropped. Dr. Paden in the present instance and also in the former decision, has been sustained by the land department. We are not inclined to discuss these matters, being of the opinion that too much bitterness has already been engendered by outside influences. Now, for the good of the parties immediately interested and the public at large, we hope the question of title and ownership has been fully and forever settled. The local land offices have rendered their decisions after a great deal of patient and thorough inquiry, accompanied by all the influences that usually are pressed, and, in the performance of their sworn duties, have merited the good opinion of one and all concerned—some one is bound to be on the off side in a contested land case, and the officers have a disagreeable duty to perform, and the above long and determined contest has been one of that nature. Again we remark, that for the good of all let this be the end.

PAYING THE PRETORIANS.

The following from the New York Herald is a fair index of the great change in public opinion that has been forced since Mr. Harrison was inaugurated:

The senior Republican organ in New York having called a "halt" in the pension business, the Grand Army organ denounces it as "having gone over to the enemy."

The Herald has received many communications (spelling of many more or less dilapidated) censuring

its course on the pension question. The policy of the Herald has been governed by the advice of Grant that twenty-seven millions annually were enough to meet every deserving case in the army, and the subsequent opinion of Garfield that thirty-eight millions would be required. Taking the cue from these eminent soldiers, and believing in extreme liberality to the veterans, we are willing to do better than Grant or Garfield and give fifty millions a year. Every dollar spent above that sum is improperly taken from the treasury.

The Herald sets the just limit of cost at not over \$50,000,000 a year, knowidg well that by 1892 the cost under acts already passed by this Congress will be at least \$150,000,000 and probably more.

In 1880, the total earnings of all laborers, men, women and children, employed in manufacturing of all kinds in the United States was \$947,000,000 for the year. A pension cost of \$150,000,000 a year is thus over 15 per cent. of the gross annual earnings of the 2,749,000 workers in the factories in 1880. In order to pay it at the rate of wages they receive they would be obliged to give the whole of one day's wages out of every week in the year.—St. Louis Republic.

The democrats of this county must be up and stirring. We must and will elect the entire ticket, county and territorial.

From an interview with Judge Lee by a Citizen reporter at Albuquerque, which we publish in another column of this issue, our republican office hunters have been somewhat premature in supposing that Judge Seels, the new appointee from Iowa has been assigned to this the 5th district; he will occupy the bench in place of Judge Whitman resigned. For fear the programme will be changed in the camp of the g. o. p., we take the liberty of suggesting that they now join forces and secure the judgeship for B. H. Dye, who in turn can appoint a White Oaks man as clerk, then petition U. S. Marshal Romero to appoint a gentleman of Ravenon as his chief deputy in the new district and end by holding the first term of court at Lincoln, selecting, in accord with home rule, that town as the permanent place for the U. S. Court. And do not end here until you offer as a place of abode, White Oaks, for the timber agents and department sharks who are after the saw mill men. What a place of brotherly love the town would be then! If the foregoing proposition cannot be fully indorsed, we would unite on some one of the numerous Colonels in the g. o. p. for district attorney, and if there is anything else to be caught, White Oaks will never fail to furnish a candidate—bear in mind this fact. The only factor left out is unity on

the part of aspirants. If we learn of any vacancies we will endeavor to have the cemetery contingent on hand. Now this is all meet and proper and we hope our suggestions will meet with the approval of the faithful in the g. o. p.—bury all past differences and make a grab for all and everything in sight. In order to move properly to carry out the above program, the members at Ravenon can be consulted by telephone or in Spanish.

PUBLICLY SHOT.

La Libertad, San Salvador, Aug. 1.—Communication with the interior of San Salvador has been restored. Advics from the capital of the republic state that Gen. Ezeta was ordered from the frontier with about 2,000 men immediately upon the outbreak of the revolt headed by Gen. Rivas. Gen. Ezeta hastened with all speed to the capital. Gen. Rivas' forces had captured the artillery barracks, but the few troops in charge had fought desperately before they surrendered. The indians then pillaged several houses and a panic ensued. Rivas' forces were finally defeated and peace was restored. It is stated that Guatamala has withdrawn her forces from the frontier, and that all is quiet at present. There is no telegraph communication with Guatamala.

The news is confirmed of the defeat of Gen. Rivas by the government troops under Gen. Antonio Ezeta. Rivas escaped from the capital last night, but was pursued and taken prisoner a few miles outside the city. This morning he was publicly shot and his corpse was exposed on the plaza Armas. It is reported that many prominent persons are compromised, and a strict inquiry is being made regarding the Rivas' conspiracy. The siege lasted 40 hours. The capital suffered considerable damage. Hundreds of persons were shot dead in the streets. The government forces which took part in the overthrow of Rivas, are now disposed to return to the frontier, if necessary.

The Force Bill.

The protests against its passage come from Republicans whose character is so high and whose party is so unquestionable, and whose views at the same time are expressed by so many party newspapers, that it would be something like a deliberate defiance of the will of their constituents if the Republicans in the Senate were to pass the Lodge bill. They undoubtedly may dismiss from their minds any fear of incurring the displeasure of the people at home if they should decide at once quietly to drop the bill and proceed to other business.—Philadelphia Bulletin (Rep.)

The democratic party is in favor of public schools and opposed to statehood unless we can secure it under a fair constitution.

"The Territorial fair at Albuquerque this year promises to be the grandest exposition of the resources and products of New Mexico ever witnessed in this territory. Every man who has the good of his country at heart should take an active interest in the fair, and use his personal efforts to make it a success."

Next week we will give the proceedings in full of all the Democratic Co. conventions. The Territorial convention will be held September 3d, at Silver City, and Joseph will be nominated by acclamation. His election is a foregone conclusion, by a larger majority than ever.

Justice T. B. McCourt, associate editor of this journal, has been confined to his bed the greater part of this week, through illness, which fact will in a measure, account for our shortcoming this issue. We hope the Judge will soon be around again.

Bertie Lund, who is visiting his sister, Mrs. Bonney, on the Rio Hondo, the other day killed a mountain lion with his pidgeon gun. Rather a bold shot for so young a sportsman and so small a gun.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

Boston, Aug. 11.—The Grand Army week opened here with a bustle and excitement. The weather is cool. A large delegation arrived this morning and the streets are filled with marching bodies.

At 10 a. m., a meeting of the National council of administration was held with closed doors. The resignation of W. H. Sayler, member from Oregon, was received and accepted. Capt. John E. Lombard was elected in his place. Arrivals are increasing hourly.

The great arrival of the day was the Nebraska train, fifteen coaches bringing Department Commander Clarkson. In the state department headquarters car, interest was centered in the thin visaged veteran surrounded by congratulating comrades the survivor of four prisons, Adersonville, Libbey, Savannah and Millen, Lieutenant A. K. Comston. Chairman Goodale of the executive committee received a telegram from Secretary Tracy at Bar Harbor this afternoon, stating a dispatch will arrive Tuesday morning to bring the vice-president, General Sherman and himself.

A Familiar Coyote.

J. N. McBee and family, settlers in White Oaks canon, three miles below town were somewhat surprised a few nights ago by the visit of a coyote to their abode, (the family, during the late warm weather have been sleeping under canvas in front of the house) Mrs. McBee was awakened in the night and was alarmed at seeing a large coyote with its fore feet upon the side of the bed. Mrs. McBee jumped out of bed in her fright, when the brute transferred its attention to the children's couch—By this time Mr. McBee had got out and went for his coyoteship, who returned to the vacated bed and squatted himself on the pillow. McBee having no other weapon handy seized a heavy chair and at one sweep broke the animal's neck. Thus ended satisfactorily the night's adventure, to the McBee family at least.

ADVICE TO MOTHERS.

Mrs. Winslow's Soothing Syrup, has been used by mothers for children teething for over fifty years with perfect success. It relieves the little sufferer at once, produces natural, quiet sleep by freeing the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste, soothes the child, softens the gums, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle.

A Prehistoric Mine.

The Journal Miner tells a very interesting story of the discovery in the vicinity of Prescott, of a mine which is apparently a relic of the stone age. It says: For a distance of about 30 feet along the ledge, and to a considerable depth, the work of taking out the ore had been prosecuted and must have been a very slow and tedious process, as the rock is very hard. The great number of stone axes of all sizes and shapes and also the remains of other implements of the same material shows that they had long and diligently worked this mine to have accomplished the amount of excavation done, but which, by the aid of steel and giant powder, a couple of our modern miners could have accomplished in a couple of months. The original locators of the property seemed to have worked it with a view to taking out of a rich pocket of free gold, after exhausting which they apparently quit work and carefully concealed all evidence of what mining had been done by them by filling up the excavations. All ore not showing gold was discarded and out of the dump thus formed pieces can anywhere be taken assaying from \$75 to \$100 in gold and silver.—Prospector, Tombstone, Arizona.

As a curious item of information to those athirst for knowledge, it may be mentioned that man is the only animal that eats cloves and lemon peel. He does not like either, but in that spirit of sacrifice peculiar to him, he does it for his wife's sake.—Optic.

The four train robbers trailed by blood hounds and captured at Trinidad, last week, were bound over to appear at the next term of court in the sum of \$3,000 each, and are now in jail at Trinidad.

The White Caps and Knights of Labor seem inclined to take a hand in New Mexico politics this fall. It is hard to tell you which party will succeed in capturing them—or rather their votes. Altogether there appears a prospect of lively times ahead.

The government of Mexico is debating the question of accepting Jay Gould's offer of five million dollars for the castle of Chapultepec which the railroad King wants for a winter home. If he secures the castle Mr. Gould will probably buy up the balance of Mexico and have a little kingdom of his own.

The Gallup Elk is a good representative local newspaper, but the quicker it gets out of a town that

All the section men on the A. T. & S. F. line between Las Vegas and Wallace, struck Monday for an increase of wages. They have been receiving \$1.10 per day and demand \$1.25. Some 100 men are out, and the section men on the Lamy Santa Fe branch are among the number.
