**2500 PEOPLE IN DISTRESS.**

Ex-Delegate Luna writes from Peralta, under date of May 12, to Col. J. Frank Chavez respecting the floods in the Rio Grande. He says:

"The river still continues to do a great deal of harm, and the Lord only knows what is going to become of us at Peralta; we are threatened in three different places and it keeps us working day and night to save ourselves. So far we have been able to do so; but I am

very much afraid that the worst is yet to come. In Valencia from the church down to Tome (four miles), there is nothing left; all families have abandoned their homes which are now in ruins or washed away. Don Vicente Lujan's residence is surrounded and the water is three feet deep at his merchandising store house; the house is as good as rained. The water is now very near Cantono's house. That branch of the river running through the former site of Valencia is about 500 yards wide and five feet deep. We are not safe here east of the river; it is water, water everywhere, and most pitiful to see the women and children praying hourly for the flood to subside while the men are busy with shovels. The worst of it is, we have no place to remove to; we can not cross to Los Lunas, and there are no more vacant houses at Ladera."

From the above facts Col. Chavez estimates that at least 2,500 people have been made homeless and rendered destitute in that locality. Can not something be done to relieve the wants of the sufferers? New Mexico residents should come promptly to the relief of these flood sufferers.—New Mexican.

The following from a Colorado paper shows what can be accomplished on a small acreage in that state. Many instances of this kind could be cited in New Mexico:

Judge Felton of Canon City, Colorado, has a ten acre orchard which has proven a good paying investment to him. According to his own statement his yield for one year was as follows:

"The first stock was set out about the first of May, 1881. About five and a half acres were set with apple trees, the balance being pear, plum, cherry, peach and quince trees, grapes, strawberries and a small amount each of raspberries, blackberries, currants and gooseberries. One year's fruit from said place was sold to the amount of \$6,023.99, as follows: Apples \$4,361.61; pears \$553.43; grapes \$373.64; strawberries \$460.75; plums \$144.56; cherries \$56.60; other fruits \$73.50; total \$6,023.99. The total expenses, labor, barrels, boxes, crates, buckets, teams, manure and everything \$2,406.78, leaving a clear profit of \$3,617.21."

"Remember," my son," says Judge Tourgee, in a "Son of Old Harry," "nobody can be respectable unless he has more money than he has use for. It don't matter how good or nice a man he may be, if he aint rich he's mighty little thought of."

Mrs. Grover Cleveland is said to be a liberal purchaser of rare books. She has a passion for unique bindings, and knows a genuine article from an imitation.

NEW MEXICO.

The year of 1891 will prove a wonderful one in the development of irrigation enterprises in the territory of New Mexico. The leading spirits of this section of the country are already directing their best effort toward connecting the best arid tracts into most fertile farms, and foreign capital is pouring into the territory for use in new enterprises, in a most encouraging manner.

Senator Stephen A. Dorsey, of Chico Springs, has been at work for some time past building storage reservoirs at his own home with the intention of reclaiming a large tract of land that has never grown anything but cactus and sage brush.

Reports from Espanola the past week are to the effect that the Rio Grande is rising rapidly and there is a prospect for the highest water in years. All spring work is well advanced and the orchards are looking remarkably well. Storage reservoirs are needed to prevent the waste of water that always occurs this time of year.

Dwellers in the fertile Pecos Valley are happy over the work which has been done there in aiding irrigating enterprises and making it possible to raise magnificent crops from what has been heretofore desert lands. Capt. H. D. Bowker, who has recently returned from the Pecos Valley, was a caller at the office of the Age, a day or two ago. He says that the two great canals in the Pecos Valley are being pushed forward very rapidly. The northern canal was started two years ago, work having been begun at Roswell, in Chavez county. This ditch is completed for thirty miles. It is 25 feet at the bottom and will carry six feet of water, and will eventually be the means of irrigating 100,000 acres. The final work has been done on the big dam across the river Hondo, which empties into the Pecos about 100 miles north of Texas line. The second or southern canal, as it is known, starts about 50 miles above the Texas line. The second or southern canal, as it is known, starts about 50 miles above the Texas line. This is 45 feet at the bottom, carries eight feet of water and will be fifty miles long. This ditch is intended to irrigate 200,000 acres. Already 23 miles are completed and it will be ex-

tended to the Texas line. Already 100,000 acres have been entered along the line of this ditch. The dam for this southern canal is almost 1,000 feet long, 170 feet wide at the bottom, 40 feet at the top, and 45 feet high. The real water supply for these ditches consists of a wonderful series of springs which come through the breaks in the limestone, pouring their waters into the Hondo and Pecos rivers. This spring will probably see 50,000 acres of land under cultivation—land that has possessed nothing but desert growth heretofore. The soil in its vicinity is a deep limestone formation and of a chocolate color. It is the finest kind for the growth of semi-tropical fruits. The town of Elly, which is the principal supply station for this district, has a population of 1,200 although but two years old. A railroad has been completed from Pecos City to Elly, a distance of 1,000 miles, and will shortly be constructed to Roswell, and thence to Albuquerque. Considerable eastern capital will be employed to farther the good work in the Pecos valley during the present year.—Irrigation Age.

Returns from Kansas contradict the oft repeated assertion that women do not wish to vote, and that they will not vote when they have the opportunity. The reports say, "the better class of women voted everywhere;" that the woman vote was larger than ever before, and that most of the women vote after 10 a. m., which means that the dishes were washed and put away, the beds made, floors swept, and the children's faces washed before the women went to the polls. It may also be stated with actual certainty, that the housekeepers among them went home before sundown, and none of them were drunk.—Woman's Chronicle.

Only two of the Mafia prisoners who were shot at New Orleans were subjects of Italy. If Humbert insists on receiving an indemnity for those fellows most any patriotic American citizen would be willing to pay out of his own pocket all that the two thugs really were worth.—Chicago Mail.

SCHOOL DIRECTORS ELECTION.

The following is a copy of a self explanatory communication of general interest at this time:

Territory of New Mexico,  
Office of Solicitor General,  
Santa Fe, N. M., May 9, 1891.

Hon. Amado Chaves, Superintendent of Public Instruction, Santa Fe, N. M.

Dear Sir: Your favor of this date, inquiring who shall furnish and distribute the ballot boxes for the election of school directors, which election is to be held on the first Monday of June next, and out of what fund the expenses connected with such election should be paid, has had my attention, and in

reply would say, that in my opinion it is the duty of the county board of commissioners to loan and distribute the ballot boxes necessary for such election. While section 19 of the school law of 1891 makes no provision specifically as to the method of conducting such elections, yet under a general rule of construction where no such provision is made, the general law, applicable to elections prevails. In addition to this, chapter 113 of the laws of 1889 which has not been repealed in section 3, provides that such election shall be held in other respects (except in regard to registration) as other elections are held. Sections 1 and 2 were amended by chapter 18 of the laws of 1891, and this chapter itself was amended or modified by the school law, chapter 25, which went into effect the 12th of February, 1891. In regard to the expenses connected with such election, it is my opinion that the school fund should be charged with them all, as it gets the entire benefit of such election which is distinct from ordinary county purposes. I have already advised that the poll books and other printing necessary should be paid out of this fund, and I see no reason why the other expenses connected with the election should not be borne by it also. Very truly yours,

EDWARD L. BARTLETT,  
Solicitor General of New Mexico.

Where Gold Goes To.

A considerable part of all the gold that goes to India never returns. Having been obtained in the west by the sale of exported productions, it is retained in the east as realized profits, wealth stored up, and, to a moderate extent, for use in the arts; for the rest, as a representative of value, on the credit of which traders buy and sell with the bills of exchange they issue and the book credits they open and settle up the differences with the silver money of the country.

But the vast stock of gold accumulated there undergoes no diminution; there is no ebb and flow under the reciprocal action which commerce enforces in the case of countries trading together on a common metallic basis. The three millions sterling, or thereabout, of gold bullion which India annually adds to her store are, under the monetary law of that country, just as much lost to the nations of the west, by being withdrawn from the general commerce of the world, as if the money had been lent to a South American republic.

Between the years 1835 and 1889 (April) this depletion amounted in value to 130,292,758. Between that date and the month of September of this year a further accumulation to the value of 5,069,272 has taken place, bringing this portion of the gold treasure of India up to a value exceeding 135,250,000.

Las Vegas will have twenty representatives at the Denver Commercial congress.

On the first Monday in June an election of three school directors will be held in all school districts.

The Rio Grande is reported to be lower, and it turns out that really less damage has been done than was at first reported.

The mayor of New Orleans, La., will take the necessary steps leading to the recall of the Italian consul, Mr. Corte. This gentleman has given expression to a great deal of offensive language since the incident of March the 14th.

The Unitarian churches of Iowa in conference, passed a resolution asking the managers of the World's Fair to keep the exposition open on Sunday and to have a special reduced rate for the day.

In the past three years New Mexico has received more attention from the rest of the United States than in any ten years of her previous history, and notwithstanding much of the notoriety which our Territory has received has been unfavorable—not to say malignant and slanderous—the impetus of immigration has constantly increased. Many came out of sheer curiosity, and, being so agreeably disappointed, have cast their lots, and are endeavoring to persuade others to come. To see the fertile valleys of New Mexico is to be enraptured with them, and to once enjoy the salubrious climate is to insure a residence therein.—Roswell Register.

A full company of Indians from the Apaches, Mohaves, Yumas, Tontos and White Mountain Apache tribes has been organized in Arizona and is now stationed at Whipple barracks. They are all young men.—Ex.

The postmaster at El Paso confiscated the whole mail edition of the Times newspaper a few days ago because it contained a synopsis of the Louisiana supreme court decision to compel the Louisiana secretary of state to submit to the people of that state at the next state election the amendment passed by their last general assembly extending the charter of the Louisiana Lottery company twenty-five years longer.

Before fall there will be a population of 150,000 in Oklahoma.—The greater portion of the 5,000,000 acres of the new Territory is good land and will yield in abundance.

A cloud-burst near Liberty, N. M., recently washed away a party of campers, drowning E. J. Wilcox. The balance of the party had a narrow escape.

**MARRIED.**—Monday morning, May 18, at the home of the bride, Alice Maud Lund, daughter of Rev. R. E. Lund, and William Watson, Esq., all of White Oaks.

Immediately after the ceremony, the happy pair left for an extended tour through the eastern states, going by way of Denver and Chicago. Both parties have been long and favorably known here, Mr. Watson being one of the pioneers of White Oaks, and many wishes for their happiness and prosperity go with them.

**Base Ball Meeting.**

A meeting was held Tuesday evening at the office of A. Schinzing, to organize a Base Ball Club. A. Schinzing was elected chairman, J. Whiteman, Secretary, J. A. Woodland, Captain, and A. Ridgeway, manager.

It was decided to ask the Lincoln and Fort Stanton Clubs to meet the White Oaks Club, in a match game of ball, July 3d and 4th. Now if the merchants of White Oaks will help our home Club out, we will have a big time here during the game, as the boys intend to play to win. The Club will hold its next meeting, Saturday evening, May 23, to which all interested in base ball are invited.

**Memorial Day.**

As usual, the people of White Oaks will properly observe Memorial Day. Committees have been appointed and a programme of exercises arranged by Kearney Post, G. A. R. and the ladies of the Relief Corps. All who wish to take part in the beautiful exercises of decorating the soldiers' graves are requested to be at the Congregational church, at 2 o'clock, p. m., May 30, where a procession will form and move to the cemetery, where the exercises will take place.

There will also be services at the church, in the evening. Over forty young girls and boys, of this place, will participate in what is called the "Memorial of the Flowers," besides other literary exercises, plentifully interspersed with music—in fact, a rare treat is expected from the music alone.

We understand a kick is being made by a few persons over the site purchased by our school directors for a public school building. Some kickers are chronic.—Rio Grande Republican.

White Oaks is making no kick about so insignificant a matter.—There is no school house belonging to this district, no site selected upon which to build, and no talk about building, so there is nothing to kick about. In the present state of public apathy with regard to educational matters, the kick would be made should the school board venture to suggest that anything better could be done than to continue to pay rent for the church as a school house.

Dr. N. W. Lane, late of White Oaks, is practising medicine in Washington, where his family will join him in the fall.

An exchange remarks that it is not much wonder that the human race finds it uphill work to be decent and keep straight. The first man was a liar and a sneak, the first woman kept bad company and pried into things that did not concern her, and the first child born in the world killed his brother. Our first parents were a tough lot, and it is hard to get it out of the blood.

The Chaves County Herald has suspended publication.

IT WORKS WONDERS.

The tonic and alterative properties of S. S. S. are now widely known, and it enjoys wonderful popularity as a spring medicine. It is as perfectly adapted to the delicate system of a little child as it is to that of the adult. It works wonders on those who use it as a tonic, as an alterative, and as a blood purifier. It gives health, strength and heartiness to the sick and the feeble. It is adapted to the very young and the very old. It revives, renews and builds up the feeble or the broken-down system.

The recent high water in the Pecos partially swept away the dam of Messrs. Garrard, Lewis and Haynes, forty miles above here. The dam, however, will be repaired at once, stronger and better than ever. The dam stores water to irrigate some of the finest land in the Valley.—Record.

Compulsory education of every child in New Mexico is provided for by statute, the law holding the parents or guardian and the school board responsible. Failure on their part is punishable by fine or imprisonment, or both, and it is also provided, that if the parent or guardian is not able by reason of poverty to buy books, it shall be the duty of the school board of the proper districts, upon the facts being shown to their satisfaction, to furnish the necessary books and pay for the same out of the school fund of the district.—Ex.

A settler living on unsurveyed land has not lost his right to take said land as a pre-emption by reason of the repeal of said act. He must, however, file his declaratory statement within three months after the official plat has been filed in the local office and show conclusively that on March 3, 1891, he was a bona fide settler on the land.

The public school system is costing the country something like \$125,000,000 annually. Education is a public luxury. Tobacco and liquors, private necessities, are only consuming \$1,500,000,000 of the hard earnings of the poor and the melting treasures of the rich.

**NOTICE OF FORFEITURE**

White Oaks, New Mexico,  
March 13, 1891

To John J. Cockrell, and his legal representative and assigns.

You, and each of you are hereby notified that the undersigned co-owner in the Compromise Lode mining claim, situated on the westerly side of Baxter Gulch in Baxter mountain, in White Oaks Mining District, Lincoln County, Territory of New Mexico, has performed and caused to be performed and expended in labor and improvements upon the said Compromise Lode mining claim during the year ending December 31, A. D. 1890, the sum of Thirty-three Dollars and thirty-three and one-third cents, the same being the proportionate amount due from you in labor and improvements upon said claim as co-owner of an undivided one-third interest therein, in order to hold the same under the provisions of Section No. 2324 of the Revised Statutes of the United States, for said year, A. D. 1890: and if within ninety days after the full publication of this notice, you fail or refuse to contribute your said proportion of said expenditures as such co-owner, your interest in said claim will become the property of the undersigned as is provided by said section 2324 of the Revised Statutes of the United States.

**\$300 REWARD FOR ORE THIEVES!**

The common experience of this camp shows that much is lost by the mine operators by the stealing of gold in specimens, if not in amalgam and bullion. Therefore the "Old Abe" Co. offers a standing reward of Three Hundred Dollars for the arrest and conviction, or for information leading to the arrest and conviction of any person guilty of stealing any of the property of the Old Abe Co., even the smallest specimen of ore. The rule of this company is to mill all specimens. Therefore none of the ore from this mine can be honestly held as specimens. And as the receiver, with guilty knowledge, is as guilty in law as the thief, this offer applies to the holders of Old Abe specimens.

**CAM LIFE.**

HERE'S THE SLICKER.

The one thing you'll always find in every cowboy's outfit when he goes on the spring round-up is a "Fish Brand" Pommel Slicker. They make the only perfect saddle coat, and come either black or yellow. They protect the whole front of the rider's body, being made to fit round the outside of the saddle entire. When used as a walking coat, the extension pieces neatly overlap each other, making a regular overcoat with a double storm-proof front. When riding, the saddle is dry as a bone, from pommel to cantle, and the rider is entirely protected in every part of his body. These "Slickers," being of extra width, make fine blankets for camp. Beware of worthless imitations, every garment stamped with "Fish Brand" Trade Mark. Don't accept any inferior coat when you can have the "Fish Brand Slicker" delivered without extra cost. Particulars and illustrated catalogues free.

**SAVE MONEY AND SUFFERING.**

One feature of the thousands of testimonials that have been given in behalf of S. S. S. is remarkable. In numbers of instances it is related that a great deal of time and money have been spent in a vain effort to secure relief from disease in the usual way. A knowledge of the virtues of Swift's Specific would have saved the time and the money, to say nothing of the prevention of the suffering. There need be no such mistakes made now. The great blood purifier is for sale by druggists everywhere, and the S. S. S. company in Atlanta will send to any address their Treatise on Blood and Skin Diseases free, and a pamphlet containing a few of the thousands of testimonials they have received from those who have experienced the benefits of this wonderful medicine.

**HEED THE WARNING.**

It is not infrequently the case that itching pimples and irritating "cat boils" are the forerunners of larger boils, or the most serious carbuncles. Invariably Nature puts out her danger signals, and they should be heeded at once. The pimples and little boils show that the blood is not in a good condition and nature is trying to relieve the system. A few doses of Swift's Specific at this juncture will accomplish wonders. The eruption will be healed and the system cleansed of its impurities. The modern paraphrase of the old saying, "A stitch in time," etc., is that "Timely stitches will save nine pairs of tracheas." The modern form has a touch of humor that does not modify the truth of it. In that vein, we may say that a course of Swift's Specific prevents ill's terrific.

**FOR OVER FIFTY YEARS.**

No, he couldn't, without just the proper clothing. And there's only one outfit that can keep a man both warm and dry at such a time, and that is the "Fish Brand Slicker." They are guaranteed storm-proof, waterproof, and wind-proof. Inside one of them, you are as much out of the weather as if indoors. They are light, but warm. Being re-enforced throughout, they never rip; and the buttons are wire-fastened. No railroad man who has once tried one would be without it for ten times its cost. Beware of worthless imitations, every garment stamped with "Fish Brand" Trade Mark. Don't accept any inferior coat when you can have the "Fish Brand Slicker" delivered without extra cost. Particulars and illustrated catalogue free.

## THE SANTA FE ROUTE.

This is the short line to and from points east to White Oaks, Ft. Stanton, Lincoln, and all stage stations in Lincoln County. Close daylight connections are made by stages to and from above points with trains from Carthage, Engle and Las Cruces, which have through sleepers to Kansas City, Chicago, St. Louis, and New York, without change.

Connection is made at Albuquerque with through trains for all California points. These trains are unsurpassed in modern improvements with luxurious day coaches and emigrant sleepers, the latter under the management of the Pullman company, are furnished with elegant curtains and clean bedding at a small cost per night.

Shippers will find it greatly to their advantage to consign all freight via the Santa Fe route, a saving of from three to five days time will be gained from all eastern and northern cities.

Freight from Chicago and points west of Chicago is brought through without transfer, thereby saving breakage and delay.

Call on nearest agent for rates and information, or address C. H. Morehouse, Division Freight and Passenger Agent, El Paso, Texas.
