FOSTER'S FORECASTS.

A Great Storm Period Predicted.

ST. JOSEPH, Mo., May 9,

EDITOR HERALD:

A storm wave of only ordinary force will be due to leave the Pacific coast about May 15, cross the Rocky-Allegheny valley from 16th to 18th, and reach the Atlantic coast about the 19th. The low barometer of the storm wave will pass across the continent south of the 40th degree of north latitude, and the cool wave and frosts following it will reach farther south than is usual at this time of year. This storm will become quite severe on the Atlantic coast about the 19th, and following it will occur the coldest weather of the month. My last telegram gave particulars of the storm wave due to cross the continent from the Pacific to the Atlantic coasts from 9th to 13th.

These forecasts give the key to the weather that will occur at any place on this continent within the dates mentioned, but to appreciate the accuracy and benefits of the forecasts the reader must bear in mind the nature of storm waves and how they affect the weather within and all around them. The storm wave consists of two parts, a high and a low barometer, that always move together across the continent, and, in this latitude, around the earth. The low barometer is called the storm centre, and is from 500 to 3,000 miles in diameter, and within these storm centres the wind blows in a circle contrary to the movement of the hands of a watch when placed with the face up, while outside of the low barometer the wind blows toward the centre of its right-hand quarter as you face it. About one-third, the outside edge, of this low barometer consists of very clear weather and the bluest of skies, and this must always be recorded as a part of the storm wave, as it is a sure indication that the storm is not far away. Another third, inside of this clear belt, is occupied by a cloud belt in which the rain and snow occur, and the clouds move with the wind around the low barometer. The centre of the low barometer has but little clouds, not much wind, and the weather warm and sultry. If the reader will keep this whirling storm centre in mind and note my forecasts, the future of the weather may be known nine times out of ten. The high barometer follows the storm centre and brings clearing cooler weather, and these high and low barometers follow each other around the earth from west to east and cause all changes in the

weather. South of 30 degrees north latitude the movements of these barometers are different and constitute the tropical hurricane.

Beginning with the first week in May of this year and ending with the last week in June, 1892, will constitute the greatest storm period since 1832-3 and it will be at its greatest force during the coming winter. The winter will set in early and with its unusual cold and great snow storms and blizzards, will be what is termed a very hard winter. These winter storms will begin in the northern tier of states with great severity in October and an early winter very severe all over the continent will follow. The force of the storms will increase very gradually and the May storms will not be so marked as those later on. We will probably have an occasional tornado, but destructive storms will not attract general attention till after June 8th when the great battle of the elements will begin in earnest and every month will bring its noted storms. June is not always a month of great storms but it will be this year and should my predictions be verified as to that month the public will give more attention to what I have said as to the eleven months that follow it. October and November are the months that usually bring the tropical hurricanes that are sometimes very disastrous on the Gulf of Mexico and occasionally do damage as far north as Tennessee and Arkansas. The great hurricanes that visited the lower Mississippi and the coast of the Gulf of Mexico in 1832-3 will be repeated next October and November.

Wherever you find an old man who followed flat boating on the Ohio and Mississippi rivers in 1832-3 you will find an oracle who can reveal much history about the hurricanes of the lower Mississippi river at that time. Portions of Florida were greatly damaged by the hurricanes sixty years ago.

I do not desire to create any unnecessary sensation about this very great storm period, but no harm can come by being prepared for the very severe winter and the storms it will bring. Hundreds of thousands of people who read my weather forecasts every week will have great faith in the predictions made in this letter, for they know that I am very careful and seldom mislead them. The forecasts are not based on any superstition or secret, but on what I know to be, and what any person may know to be, real physical causes.

The causes of this period of great disturbances will be the equinox of Saturn in October and the equinox

of Jupiter next January. Jupiter's equinox occurred in August and Saturn's in October, 1832, and hence the great storms of that and the following year. The equinoxes of these planets cause great electric disturbances in our solar system, just as do the equinoxes of our earth in March and September, but on a larger electricity is the force that causes all storms, and the sun and all the planets throw an electric force far out into space over their equators, as do the dynamos, and consequently when any planet passes its equinoctial the electric tensions of the sun and of that planet are disturbed and simultaneously the electric force of every planet in the solar system is unbalanced, which affects the electric currents of the earth.

In my regular weekly letters I will give details of each storm wave that crosses the continent from a week to ten days in advance, and indicate when the most severe of these disturbances will occur. I have no secrets as to my meteorological theories, but give full explanations of what I regard as to the cause of every storm wave. The weather bureau publishes a daily weather map, which is a great aid in studying the past of the weather.

W. T. FOSTER.

The present rainy season in New Mexico shows the influence upon the climate of large bodies of water. The snowfall, of last winter, was unprecedented. As the snow melts, the air is filled with moisture, which precipitates itself in rain. The same results would be secured were the country dotted over with a large number of reservoirs and catch basins. The water in these would evaporate, charge the atmosphere with moisture, and produce rain with all the regularity of the central states. This will be the future of New Mexico.—Las Vegas Optic.

An autopsy performed on the body of young Potter, who was drowned in the bay at San Diego, developed the fact that he forfeited his life to the cigarette habit. It was found that he had a very pronounced case of what has come to be known as "cigarette heart." The smoke causes the valves of that organ to harden, and in time an extra effort of any kind results in the death of the victim.—Citizen.

There has been quarried in Maine a solid shaft of granite that will be the largest monolith in the world. It is without a crack or flaw, and is 115 feet long, and 10 feet square at the base. The largest Egyptian obelisk which is now at Rome, is 105 feet high, so that the Maine stone exceeds it by 10 feet. It is computed to weigh not far from 850 tons.—Ex.

On Monday of this week there was reported a large rainfall throughout the northern part of the territory, and it will be of untold value to the cattle and sheep.—Flagstaff Champion.

We had a glorious rain Monday afternoon and night, and again on Tuesday. As a consequence, the Pecos valley stockmen and the Pecos valley farmers are happy.—Roswell Register.

The unusual showers this month are turning the country green, giving the promise of early fat beef and a good calf crop next year, and generally gladdening the hearts of our stockmen.—Silver City Sentinel.

The fruit and grape crop in this county will be simply immense this season. The Rio Grande valley will soon be able to supply the Rocky mountain region with all manner of fruits grown in the temperate zone.—Alb. Citizen.

Another great find has been made on the Young American mine in the Magdalena mountains, Socorro county. A vein has been found going down in the lime that is fully six feet wide. The ore runs 56 ounces in silver and is growing richer as depth is attained.

Quite a heavy rain and hail storm passed over this section last Monday afternoon, and Tuesday morning the main range was enveloped in a heavy blanket of hail. The unusual amount of rain at this season of the year has not been before witnessed by the oldest inhabitant, and the country is growing.—Choride Black Range.

The recent rain has been general in this country as heard from, and consequently the cattlemen are rejoicing. It means thousands of dollars to every big cattleman, and is worth in proportion to smaller holders. It will start the grass in good shape and a few rains during the summer will make the best of range.—Socorro Advertiser.

An Italian living at Gallup, attempted to pull Mrs. Sam Young, formerly of Socorro, from her horse when he met her on a lonely road, and got shot at four times for his gall. He was then arrested, fined and sentenced to jail. Mrs. Young is teaching school near Gallup and rides to and fro every day. It is safe to say that she will not be molested in the future.

The Range is reliably informed that two Apache Indians visited the V cross T ranch last week. Our informant tells us that the two Indians went to the home ranch of the V cross T and made it understood that they wanted something to eat and refused to converse in the common language of the land. When informed that they could not have the desired accommodations

unless they asked for it in English, one of them said they wanted it d—d bad. They could speak good English, wore blankets and each carried a revolver, and claimed to be Apaches and said they were runaway pupils of the Albuquerque Indian School; one was about twenty years old and the other about forty-five. About that same time three Indians visited the mess wagon of the U. S. outfit on the San Augustine plains. The Indians said they were Apaches and that they were on their way to visit the Navajos. They also wore blankets and carried six-shooters.—Bullion.

G. O. Shields of Eddy, N. M., in a letter to the New Mexican, dated May 11, says: The artesian well borers who have been at work here for some time encountered, on Saturday last, at a depth of 520 feet, a stratum of pure salt, which proved to be forty feet thick. This is one of the most important discoveries ever made in the Pecos valley, as a plant will doubtless be put in at an early day, to mine this valuable material.

The Albuquerque Fair Association is making preparations to make the territorial fair, which commences at that place September 14th, the best that has yet taken place and have sent letters to the several boards of county commissioners urging upon them the importance of appointing some suitable person to canvass their respective counties to wake up an interest among the farmers, miners and others to get them to agree to send exhibits.

The Indians of the Pueblo of Isleta begin their communal spring rabbit-hunts, on Sunday, the 10th inst, and will probably continue the exciting sport through four Sundays. Several hundred Indians join in the hunt which is a series of surrounds, each enclosing several hundred acres. The only weapons used are boomerangs, which the swarthy Nimrods throw with astonishing precision and force, bringing jack rabbits on the run and quail on the wing.—Optic.

Another one of Foster's Storms.

St. Louis, May 21.—A special from Moberly, Mo., says: A most destructive wind and hail storm passed over this place, yesterday. Hail stones as large as eggs fell, completely demolishing crops of every description. The wind blew a perfect tornado. The hail fell in such quantity as to completely fill fields, drowning small stock during the storm, which lasted about an hour. The darkness was truly appalling. It is believed that the damage in this vicinity will reach 300,000. Fortunately, no lives were lost. All telegraph wires were torn down.

Walter C. Hadley is chairman of the board of trustees of the school of mines at Socorro.

Agreement to Surrender.

San Francisco, May 23.—The Evening Bulletin says; It is informed through unquestionably reliable sources that the congressional party of Chili, otherwise known as insurgents, has entered into an agreement with the United States government to surrender to the United States the Itata and her cargo; that the Charleston will not pursue the Itata any farther, but proceed to Callao, and that the Itata will be handed over to the American authorities.

Among the astonishing discoveries of the chief Protection organ as to the effects of the McKinley law is the alleged fact that "prices of necessities of life affected by the tariff have not been enhanced." Speaker Reed's "shopping women" found differently. But if prices on domestic manufactures have not been advanced, and are not to be, how will the protected monopolists be able to pay the higher wages which it was the professed object of the law to ensure?—N. Y. World.

The western congress, now in session at Denver, in point of numbers is one of the most successful meetings ever held in the west. New Mexico has a strong delegation present, and if no other result is achieved will advertise the great resources of the territory in a way that should do great good.

New Mexico was heard from in a flattering manner at the Denver congress. The delegation from this territory made a good impression at the Rocky mountain metropolis, and good results will come from this work.

Quite too many killings in New Mexico, gentlemen of the jury, quite too many. The newspapers that come to us this week from all sections of the territory show that crime is on the increase. Let justice awaken and take a hand in righting this matter.—New Mexican.

The jury's verdict in the Mafia affair, while it did not give satisfaction to the exacting Italians throughout the country, is generally considered to be the only reasonable solution possible to reach under the circumstances. The indictment of an entire community would have been simply preposterous, and the sooner foreign criminal associations

discover the fact, the better it will be for all hands concerned. If Umberto cannot control the lawless element among his own subjects, why should an indignant populace in an American city be blamed for resorting to extreme measures? The men killed by the mob of exasperated citizens of New Orleans, were, with a few possible exceptions, outlaws, who left their country for their country's good. Under similar conditions in their own country they would not have been arrested, but would have been hunted and shot down like beasts of prey by Italian soldiery. Italy will get no satisfaction for the killing, nor will she ask any.—Ex.

The following Harrison joke is told by the Washington correspondent of the Brooklyn Times: "President Harrison showed that he is not devoid of the quality of humor yesterday. He has made 139 speeches during his tour across the continent and had made up his mind to finish up with an even 140. But it was raining pitchforks and there was little chance of such a gathering at the Washington depot as might give him a fair excuse to work off the extra speech. He was equal to the emergency. He sounded the three sixes through the train and assembled the whole crowd, passengers, brakemen, conductors, porters and candy boys in his car and delivered a farewell address that completed the record. It was hard on the audience. They had listened uncomplainingly to every one of the preceding 139 speeches, and they might have been spared the additional infliction. But it was the president's last chance and he made the most of it."

Protecting the Mails.

Under the above head the St. Louis Republic says:

"If the press reports from El Paso, Tex., tell a 'plain, unvarnished tale,' there is urgent need of a new Postmaster in that far away city on the Rio Grande, where President Harrison was recently received with a pleasant international welcome.

The dispatches from El Paso say that Postmaster Smith seized the whole mail edition of an El Paso paper the other day because it contained a synopsis of the Louisiana Supreme Court's decision respecting the New Orleans lottery. If this is true, Postmaster Smith is a good subject for prosecution in the Federal courts for unlawful interference with the United States mails. The statute against the transmission of lottery advertisements does not confer upon postmasters the right to act as censors upon the news columns. This is a fact that any postmaster who forgets it needs to be forcibly reminded of.

If it is also true, as reported, that post office detectives were allowed

to take from the El Paso office and break open a number of sealed letters, this is another strong reason why President Harrison should promptly require a thorough overhauling of the El Paso post-office.

The anti-lottery law does not pretend to authorize the opening of sealed letters by raiding detectives, no matter to whom addressed. If such a power were conferred, or if its exercise were allowed to go unpunished, the usefulness of the mails would be practically destroyed no letter but could be opened "by mistake" or upon some other pretext.

Some vigilant precautions are necessary to prevent the mails from being abused for immoral or pernicious purposes. But no unlawful exercises of authority can be tolerated on the part of officials charged with executing the laws for protecting the mails, or their irresponsible meddling will speedily become worse than the original abuse. The postmaster or the post office inspector who exceeds his authority to the extent of opening sealed matter in the mails becomes at once an exceedingly dangerous criminal."

The New Orleans Times-Democrat of the 17th., instant says:

"There is fortunately no dispute as to the facts or that Postmaster Smith has clearly placed himself within range of the law, and is subject to fine and imprisonment. The Revised Statutes are very specific on this point, as follows:

"R. S. 3890. Any postmaster who shall unlawfully detain in his office any letter or other mail matter, the posting of which is not prohibited by law, with intent to prevent the arrival and delivery of the same to the person to whom it is addressed, shall be punishable by a fine of not more than \$500 and by imprisonment for not more than six months; and he shall be forever thereafter incapable of holding the office of postmaster."

UNUSUAL.

The "rainy season" which we are enjoying during the present month is something that has not been experienced in this country before for many years. Ever since the first American immigration to this part of the territory—some ten years ago—the month of May has always been absolutely rainless, and not only dry but very hot; indeed, all the American settlers had come to regard May as one of the driest and hottest months of the year. But natives of the territory inform us that this was not always so. Hon. F. A. Manzanara, of Las Vegas, who was in the city yesterday, said to a representative of The Citizen, that this weather reminded him of old times. He stated that it had only been during the last ten years that such dry, hot weather had prevailed in the spring. He said

he remembered distinctly that when he was a boy there were usually seasonable rains during the month of May, and large portions of the high table lands, which have been for some years past utterly destitute of vegetation, were then reckoned as among the best grazing lands in the country.

It is the experience not only of New Mexico but of the world in general, that there are no permanent climatic changes, but seasons of rain and drouth, heat and cold, move in cycles, and though we may pass through a protracted period of wetter or dryer, or hotter or colder seasons than we used to have, if we are only patient the whirligig of time will bring us round again to the same old order of things. Let us hope, then, that New Mexico has passed the period of dry and hot springs, and that we are to have better growing seasons hereafter.—Citizen.

Flood Sufferers.

Reports from New Mexico continue to tell of damages and destruction by the Rio Grande floods. They tell of thousands of poor people whose little crops have been destroyed, whose homes have been washed away, who are left without food, and who, unless help is given them, will soon be hungry.

The disaster has come upon the people of New Mexico at a time when prompt relief to the suffering can be afforded by neither the territorial nor national legislature.—Public assistance can come only from the counties. And the number of destitute reported is so great in some instances, that the resources of the counties are hardly adequate to their relief. Private charity will likely be needed to supplement the public aid. If this should prove to be so, organized movements will likely be started in New Mexico for this purpose.

The Catholic church, the great power in organized charity, is the strong church in the territory to the south of us. It probably numbers among its members the majority of the sufferers by the flood. Therefore, if there be need of extended charitable effort to save from cruel want, that church will doubtless undertake the work. If it should do so, its appeals should meet with prompt and generous response from all the people, not of New Mexico alone, but of Colorado also. Charity knows neither sect nor creed, nor state nor sectional lines.—Denver Sun.

It is strange how a dying general becomes at once the greatest soldier that ever lived. He always does—is greater in death than in life. There's nothing to parallel it except the transformation powers of the railway engine, which never fails to make the veriest scrub yearling a registered Polled-Angus or Holstein-Triesian four-year-old, worth a hundred dollars, at least.—Ex.

 JONES TALIAFERRO, Sec'y.

LOCAL MATTERS.

Charles Littell is building a barn on the Three Rivers ranch.
 L. W. Stewart has been very sick since his return from Socorro, but is now slowly improving.
 The soda fountain at Brown & Uebriek's was in working order Wednesday morning, and in the afternoon they were kept busy serving thirsty customers.

Oranges and Lemons at Young & Taliaferro's.

There is very nearly a flour famine in White Oaks, only one store in town—Mr. Weed's—where flour can be bought.

Just received—New lot of Preserves, Jellies and Fruit Butters in bulk—Stewart of White Oaks.

A new stock of goods will soon roll into Young & Taliaferro's. They, as well as other White Oaks merchants, say that business is looking up and that everything indicates a fair degree of prosperity for the coming season.

William Watson, of White Oaks, has been in attendance on the Commercial Congress at Denver, having been appointed a delegate by Governor Prince.

Strained and Comb Honey at Y. & T's.

Brown & Uebriek have had their store painted outside and in a general "spring cleaning" until everything shines like a new pin.

The grip continues to hold its own in White Oaks. Mr. Joseph Biggs is just recovering from a severe attack of this disease, and several children are still sick.

Fresh lot of very fine Evaporated and Dried Fruits—Stewart of White Oaks.

Dr. Bearup has had his hands full of business ever since he came to town and has a month's work engaged. He will remain until everybody's teeth have been attended to.

Mr. T. W. Corey is lying dangerously ill with heart trouble brought on by a second attack of grip. Dr. Paden considers his case very critical.

Emil Ozanne, of White Oaks, is painting and making various repairs and improvements in the buildings at Carisoso ranch.

Our thanks are due Mr. Eubrick of the firm of Brown & Eubrick for several bottles of soda pop which he brought to the INTERPRETER office Wednesday afternoon. Having tested the article and found it excellent we can safely advise all the thirsty to buy and drink.

Wesell Schilling's best Spices, Extracts, Baking Powder, Tea and Coffee.—Y. & T.

Wm. Watson, of White Oaks, a large owner in the celebrated Old Abe mine, was in Denver with his bride, a most handsome and winsome young lady, the daughter of Rev. Lund. Mr. Watson says that a four-foot vein of coal has been discovered in the town of White Oaks.—Optic.

Mr. Goodman, of the firm of Goodman, Ziegler & Co., came in from San Pedro Wednesday morning.

Mr. Ridgeway is taking a new departure by adding a dry goods department to his grocery store. He already has on hand, boots, shoes, gloves, etc., and a variety of notions, also a lot of calices arrived by the last freight wagons.

Celery Salt, Mince Meat, Honey Maple Syrup, N. O. Molasses—Stewart of White Oaks.

Just arrived at Goodman and Ziegler's, an assortment of untrimmed straw hats, in new and fancy shapes. Also, a fresh stock of outing cloths and French flannels, lisle-thread and silk gloves, a great variety of gingham and a lot of summer underwear.

The members of the base ball clubs should not forget to call and look at the base ball suits at \$1.00 each.

Among other ornamental fixtures we always keep on hand the best looking clerk in the town.

Goodman, Ziegler & Co.
 P. S. We don't mean "Nancy"
 G. & Z

When you want some ranch butter like "Grandma" makes, go to Young & Taliaferro's.

Letters from G. R. Young have been received in which he states that he arrived at Las Vegas with several thousand pounds of wool and pelts in good condition, and a flock of over 1000 sheep, all of which sold readily at satisfactory prices. Mr. Young and Rob are expected home early next week.

Water was struck in Charles Hamilton's well at a depth of 50 feet.

A copy of the laws enacted by the last Territorial Legislature has been sent to the INTERPRETER, for which the sender has our thanks.

The light attendance at the dance at Young & Taliaferro's hall, last Friday night, was owing to a mistake about the hall. It was generally understood that the ball was to be in Athletic hall, and many in the upper part of town, who wished to attend, seeing no lights there supposed that the dance was postponed on account of the rain.

If you want to see genuine Kentucky blue-grass again, look into Mrs. J. A. Brown's yard. She has many old-fashioned plants growing there, such as tiger lilies, hollyhocks and peonies.

Creamery Butter 3 lbs. for \$1.00 at Y. & T's.

A game of base ball was played Sunday between the White Oaks Club and the Baxter Club, both of this place, with the following result:

Innings	1	2	3	4	5	6	7	8
W. O. Club	1	3	2	5	130	5	9	38
Baxter Club	4	0	3	5	2	3	1	23

A large assortment of Flower Pots—Stewart of White Oaks.

The Woman's Relief Corps held a regular meeting Tuesday, 25th.

Some juvenile bit of depravity entered Mr. Littell's front yard, the other day, and made off with a quantity of choice moss rose buds, just opening. We heartily echo Mr. Littell's wish, that he could lay his hands on the offender.

The public school, Miss Annie McGrew, teacher, closed with appropriate exercises, last Friday. The next day, Miss McGrew gave her pupils a picnic in the woods north of town, but the inevitable picnic shower came up and drove everybody home.

M. Whiteman, of Roswell, is again to be seen on our streets. As he omitted the important duty of reporting to the Interpreter on his arrival, we are unable to inform the public what his business is here, nor how long he will remain.

Capt. Stephenson, Mr. Maddeh and Mr. Gardner of the Park, were in town, this week. Crops in the Park are very backward in consequence of the cold weather.

A queer lot of hen's eggs are lying in the show case at Ridgeway's store. No two are alike in size, shape or color. The smallest is about as large as a robin's egg, and the largest is nearly the size of a goose egg but is flattened at both ends. Another has a strange looking figure marked in the shell, which may be intended for a crown or for a circular saw, and yet another is drawn down to almost a sharp point at one end. We forgot to ask the name of the owner of this extraordinary breed of fowls.

Subscribe for the New Mexico Interpreter.

Nicholas Bastion has this year resigned the position he has so long held, that of foreman on the Block cattle ranch, and moved into White Oaks. He is living in the Miller house, on the south side of town.

This office was visited Thursday evening by several young ladies. It happened that our devil had his face washed, but their sudden and unexpected appearance unstrung his nerves so badly that he has been unable to set a stick of type since.—Roswell Register.

Well, thank fortune, we have no girls in White Oaks homely enough to scare the devil.

M. H. Bellomy, lately a resident of White Oaks, but now assistant clerk at the Indian Agency on the Mescalero reservation, came to White Oaks with Mrs. Rhodes and children, last Sunday. They, with Mrs. Kempton, gave the Interpreter a call, Monday. Mrs. Rhodes, who is the wife of the Agent and is matron at the Agency, says that she finds life very pleasant on the reservation. Her duties as matron bring her into close association with the Indian children, who are bright and tractable, and she has become much attached to them. Her quiet energy, which was very evident even in a brief interview, and her pleasant voice and manner, show that her success in her vocation is not entirely due to the good qualities of those with whom she has to deal.

SAVE MONEY AND SUFFERING.

One feature of the thousands of testimonials that have been given in behalf of S. S. S. is remarkable. In numbers of instances it is related that a great deal of time and money have been spent in a vain effort to secure relief from disease in the usual way. A knowledge of the virtues of Swift's Specific would have saved the time and money, to say nothing of the prevention of the suffering. There need be no such mistakes made now. The great blood purifier is for sale by druggists everywhere, and the S. S. S. company in Atlanta will send to any address their Treatise on Blood and Skin Diseases free, and a pamphlet containing a few of the thousands of testimonials they have received from those who have experienced the benefits of this wonderful medicine.

NOTICE OF ADMINISTRATRIX.

Notice is hereby given, that letters of administration upon the Estate of Charles L. Pearman, deceased, have been granted to me, by the Probate Court of Lincoln county, Territory of New Mexico, bearing date the 4th day of May, A. D. 1891.

All persons having claims against said Estate are required to present them for allowance within one year from the date of said letters, or they will be precluded from any benefit of such estate.

TILLIE J. PEARMAN,
Administratrix of Charles L. Pearman deceased.

(4-347)

NOTICE FOR PUBLICATION.

LAND OFFICE at Roswell, N. M.,
April 20, 1891.

Notice is hereby given that the following-named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before Geo. Sena, Probate Clerk, at Lincoln New Mexico, on Saturday June 6, 1891, viz: William Berford Hd. 1489, (L. C. S.) for the N. E. ¼ S. E. ¼ & S. E. ¼, N. E. ¼ Sec. 10. & W. ½ N. W. ¼, Sec. 11, Tp. 7 S. R. 13 E.]

He names the following witnesses to prove his continuous residence upon and cultivation of, said land, viz:

William Edwards, of White Oaks, N. M.
James Stephenson, of " " "
Joshua C. Lacey, of " " "
D. J. M. A. Jewett, of Lincoln, "

WINFIELD S. COBBAN, Register.

MILLINERY.

Mrs. W. F. Rogers has just received her Spring Stock of Bonnets, Hats, Baby Caps, Flowers, Feathers, Ornaments, etc., etc. She solicits the custom of the ladies of White Oaks and vicinity.

Call at her residence, just back of Stewart's store.

Get your watches, clocks and jewelry repaired by N. W. Shears, the watchmaker and jeweler.—Charges reasonable. His stand is at Ridgeway's store, White Oaks, New Mexico.

Special Notice.

In order to contradict all reports to the contrary, we take this mode of informing our many friends and patrons, as well as the public in general, that we are running our Hotel as heretofore, paying especial attention to the entertainment and comfort of our transient guests, to whom we offer our newly and elegantly furnished rooms, an unsurpassed table, and fruits and vegetables in season, raised on our own grounds.

Excellent stabling attached.

Very respectfully,

WHELAN & Co.

Lincoln, N. M.,

May 22, 1891.

We have some choice milch cows for sale. Will deliver them any place in the County.—Young & Taliaferro.

YOUNG & TALLIAFERRO

MONEY can be earned at our NEW line of work rapidly and comfortably, by those of either sex, young or old, and in their own localities, wherever they live. Any one can do the work. Easy to learn. We furnish everything. No start cost. You can devote your spare moments, or all your time to the work. This is an entirely new idea, and brings wonderful success to every worker. Beginners are earning from \$25 to \$50 per week and upwards, and more after a little experience. We can furnish you the employment and teach you FREE. No space to explain here. For information write: **TRUP & CO., AUGUSTA, GA.**

A STAMPEDE.

Corraling a drove of horses gives you plenty of work for hours. You don't have time to think what the weather is. You let everything slide, till the work is over. But the cowboy is never unprepared. When this "picnic" happens, whatever the weather, he is not drenched and wet to the skin before it's over, because he is always provided with a "Fish Brand Pommel Slicker." With one of these saddle coats on, you can't get wet if you try. Your entire saddle will be inside the coat, and it will be dry, too. Did you ever try the Pommel Slicker? Just try one, they cost very little. Then no more colds, fevers, rheumatism, and other results to exposure of weather. Every garment stamped with "Fish Brand" Trade Mark. Don't accept any inferior coat when you can have the "Fish Brand Slicker" delivered without extra cost. Particulars and illustrated catalogue free.

FREE TRIAL PACKAGE OF PROF. HARRIS' PASTILLES FOR THE CURE OF WEAK MEN

THE HARRIS REMEDY CO.,
 89 BECKMAN STREET, NEW YORK.

As evidence of our faith in Prof. Harris' we offer 5 days trial absolutely FREE. All men, young or old, suffering from this prevalent trouble should send for our list of questions to be answered, that we may know the true condition of each case and prepare medicine to effect a prompt cure. Located in New York (after 12 years at St. Louis), we offer all a chance to be cured by the Pastille Treatment.

\$3000 A YEAR! I undertake to briefly teach any intelligent person of either sex, who can read and write, and who, after instruction, will work industriously how to earn Three Thousand Dollars a Year in their own localities, wherever they live. I will also furnish the situation of the job, which I will furnish you that amount of money for the next successful business opportunity. I desire but one worker from each of the 48 States. I have already taught and advised with employment a large number, who are making over \$2000 a year. Write to me at once. **C. A. SNOW,** Box 1200, Washington, D. C.

 OPP. PATENT OFFICE, WASHINGTON, D. C.

Mr. LEE: "Why, Addie, you needn't cry about it! I only said Mrs. Allen was a very well-informed woman, and I wished you would follow her example."
 Mrs. LEE: "Yes, and last week you said you wished I could manage to look as stylish as Mrs. Allen—and she makes all her own clothes. But she has what I haven't."
 Mr. LEE: "What is that?"
 Mrs. LEE: "Well, she gets all of her information from the Magazine they take. I admit that she knows all that is going on, and is bright and entertaining in conversation—but I could do as well as she does if I had the same source of information. She lent me the last number of her Magazine lately, and I learned more in one hour's reading, about various social matters and the topics of the day, than I would pick up in a month by my occasional chats with friends. It certainly covers every topic of interest, from the news of the day down to the details of housekeeping; and everything is so beautifully illustrated, too. Every time Mamma goes over to the Allens' she comes back and teases me to get you to take Demorest's Family Magazine, as the stories are so good. Even the boys watch for it every month, as a place is found for them also in its pages; and Mr. Allen swears by it. It is really wonderful how it suits every member of the family!"
 Mr. LEE: "Well, perhaps I had better send for a Specimen Copy; for, if it is anything like what you say it is, it will amuse and instruct the whole of us."
 Mrs. LEE: "I see that W. Jennings Demorest, the publisher, 15 East 14th Street, New York, is offering to send a Specimen Copy for 10 cents, so we can't lose anything, as each number contains a "Patent Order" entitling the holder to any Pattern she may choose, and in any size—which alone makes each copy worth 30 cents; and I just want a jacket pattern like Mrs. Allen's. The subscription price is only \$3.00 a year; and I must say I can't see how they can publish so elegant a Magazine for so little money."

CONSUMPTION CURED.
 An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering I will send free of charge, to all who desire it, this receipt, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper. **W. A. NOYES, 820 Powers' Block, Rochester N. Y.**

NOTICE OF FORFEITURE

White Oaks, New Mexico,
March 13, 1891

To John J. Cockrell, and his legal representative and assigns,
You, and each of you are hereby notified that the undersigned co-owner in the Compromise Lode mining claim, situated on the westerly side of Baxter Gulch in Baxter mountain, in White Oaks Mining District, Lincoln County, Territory of New Mexico, has performed and caused to be performed and expended in labor and improvements upon the said Compromise Lode mining claim during the year ending December 31, A. D., 1890, the sum of Thirty-three Dollars and thirty-three and one-third cents, the same being the proportionate amount due from you in labor and improvements upon said claim as co-owner of an undivided one-third interest therein, in order to hold the same under the provisions of Section No. 2324 of the Revised Statutes of the United States, for said year, A. D. 1890; and if within ninety days after the full publication of this notice, you fail or refuse to contribute your said proportion of said expenditure as such co-owner, your interest in said claim will become the property of the undersigned as is provided by said section 2324 of the Revised Statutes of the United States.

BENJAMIN H. DYE,
Co-owner

**\$300 REWARD
FOR ORE THIEVES!**

The common experience of this camp shows that much is lost by the mine operators by the stealing of gold in specimens, if not in amalgam and bullion. Therefore the "Old Abe" Co. offers a standing reward of Three Hundred Dollars for the arrest and conviction, or for information leading to the arrest and conviction of any person guilty of stealing any of the property of the Old Abe Co., even the smallest specimen of ore. The rule of this company is to null all specimens. Therefore none of the ore from this mine can be honestly held as specimens. And as the receiver, with guilty knowledge, is as guilty in law as the thief, this offer applies to the holders of Old Abe specimens.

Old Abe Co.

CAM LIFE.

HERE'S THE "SLICKER."

The one thing you'll always find in every cowboy's outfit when he goes on the spring round-up is a "Fish Brand" Pommel Slicker. They make the only perfect saddle coat, and come either black or yellow. They protect the whole front of the rider's body, being made to fit round the outside of the saddle entire. When used as a walking coat, the extension pieces neatly overlap each other, making a regular overcoat with a double storm-proof front. When riding, the saddle is dry as a bone, from pommel to cantle, and the rider is entirely protected in every part of his body. These "Slickers," being of extra width, make fine blankets for camp. Beware of worthless imitations, every garment stamped with "Fish Brand" Trade Mark. Don't accept any inferior coat when you can have the "Fish Brand Slicker" delivered without extra cost. Particulars and illustrated catalogue free.

TOLEDO WEEKLY BLADE

1891.

ONLY ONE DOLLAR.

The most popular Weekly Newspaper in the United States, the largest circulation, and the only strictly Weekly Newspaper that ever succeeded in obtaining and holding year after year, a circulation in every State and Territory (and nearly every county) of the United States. All the news, better departments and more first-class entertaining and instructive reading than in any other dollar paper published.

Announcements.

Now to commence first of the year written especially for the BLADE by Oliver Optic "Money Maker Series." A series of special articles on "Side Issues" written for the BLADE, BLADE China Tea Sets and Dinner Sets given to club raisers. Send for specimen copy of the weekly BLADE and read our interesting announcements for the coming year.

Specimens.

A specimen copy will give you a better idea of the WEEKLY BLADE than any description we can give in an advertisement. We therefore invite everybody to write us for a specimen, which we will cheerfully mail you free; and at the same time please mail us a list of names of your friends and neighbors, and we will also mail them specimens.

Confidential to Agents.

Anybody can earn \$10 very quickly by raising clubs for the BLADE. We are now paying the highest amount for clubs ever offered by any newspaper. We want agents everywhere. Write us for confidential terms to agents.

RAIN! RAIN! RAIN!

If there's one set of men who appreciate a good waterproof coat it is the farmer. He knows that a "Fish Brand Slicker" costs him less per year than any garment made. Did you know it rains or snows one day in three the whole year through? A "Fish Brand Slicker" makes every day a pleasant day to its lucky owner. Go anywhere with it in rain, hail, sleet, snow, or blow, it is wind and water proof. Costs less than rubber, and lasts ten times as long. Rubber is good for show days, but will rip in a week. If you want a coat for hard wear and hard weather, get the "Fish Brand Slicker." Every good thing has its imitation, so has the "Fish Brand Slicker." Look out. Beware of worthless imitations, every garment stamped with "Fish Brand" Trade Mark. Don't accept any inferior coat when you can have the "Fish Brand Slicker" delivered without extra cost. Particulars and illustrated catalogue free.

A. J. TOWER, - Boston, Mass.

THE SANTA FE ROUTE.

This is the short line to and from points east to White Oaks, Ft. Stanton, Lincoln, and all stage stations in Lincoln County. Close daylight connections are made by stages to and from above points with trains from Carthage, Engle and Las Cruces, which have through sleepers to Kansas City, Chicago, St. Louis, and New York, without change.

Connection is made at Albuquerque with through trains for all California points. These trains are unsurpassed in modern improvements with luxurious day coaches and emigrant sleepers, the latter under the management of the Pullman company, are furnished with elegant curtains and clean bedding at a small cost per night.

Shippers will find it greatly to their advantage to consign all freight via the Santa Fe route, a saving of from three to five days time will be gained from all eastern and northern cities.

Freight from Chicago and points west of Chicago is brought through without transfer, thereby saving breakage and delay.

Call on nearest agent for rates and information, or address C. H. Morehouse, Division Freight and Passenger Agent El Paso, Texas.

FOR OVER FIFTY YEARS.

AN OLD AND WELL-TRIED REMEDY, Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. Is pleasant to the taste, sold by Druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, in case no other kind.

HEED THE WARNING.

It is not infrequently the case that itching pimples and irritating "cat boils" are the forerunners of larger boils, or the most serious carbuncles. Invariably Nature puts out her danger signals, and they should be heeded at once. The pimples and little boils show that the blood is not in a good condition and nature is trying to relieve the system. A few doses of Swift's Specific at this juncture will accomplish wonders. The eruption will be healed and the system cleansed of its impurities. The modern paraphrase of the old saying, "A stitch in time," etc., is that "Timely stitches will save nine pairs of treaches." The modern form has a touch of humor that does not modify the truth of it. In that vein, we may say that a course of Swift's Specific prevents ill-tirific.

THE ENGINEERING AND MINING JOURNAL

SCAMMELL & CO., Box 5003, St. LOUIS or PHILADELPHIA.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

Tutt's Pills

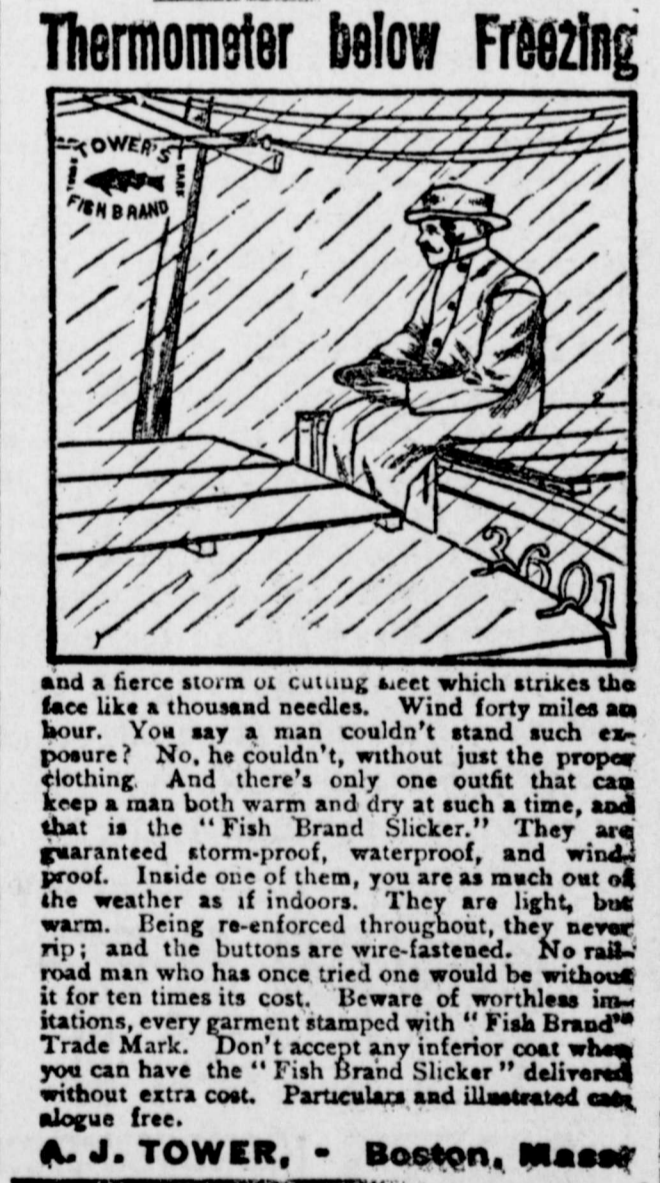

stimulates the torpid liver, strengthens the digestive organs, regulates the bowels, and are unequalled as an

ANTI-BILIOUS MEDICINE.

In malarial districts their virtues are widely recognized, as they possess peculiar properties in freeing the system from that poison. Elegantly sugar coated. Dose small. Price, 25c.

Sold Everywhere.
Office, 44 Murray St., New York.

Thermometer below Freezing

and a fierce storm of cutting sleet which strikes the face like a thousand needles. Wind forty miles an hour. You say a man couldn't stand such exposure? No, he couldn't, without just the proper clothing. And there's only one outfit that can keep a man both warm and dry at such a time, and that is the "Fish Brand Slicker." They are guaranteed storm-proof, and wind-proof. Inside one of them, you are as much out of the weather as if indoors. They are light, but warm. Being re-enforced throughout, they never rip; and the buttons are wire-fastened. No railroad man who has once tried one would be without it for ten times its cost. Beware of worthless imitations, every garment stamped with "Fish Brand" Trade Mark. Don't accept any inferior coat when you can have the "Fish Brand Slicker" delivered without extra cost. Particulars and illustrated catalogue free.
