### THE PURCHASE OF SILVER.

The Mi nt Director Explains the Oper ations of the Law.

WASHINGTON, D. C., Aug. 26 .- The director of the mint said to a Denver Republican representative to-day :

There seems to be a general misapprehension as to operations of the new silver law, in case the price of silver should advance to parity. Some of the papers state that in such case the government will cease buying while others hold that we will then have free coinage. If silver should reach its old parity, the government ment will continue to buy 4,500,000 ounces a month, or so much thereof as might be offered, under the provisions of the present law. The new law does not provide that purchases shall cease when silver reaches parity, but that the government shall not pay in excess of \$1 for 37114 grains of pure silver, or what is the same thing, shall not pay in excess of \$1.39.20 per fine ounce, the amount of pure silver in the silver dollar being 471% grains. If

the government paid \$1,29.29 per fine ounce (480 grains) it would be paying \$1 for 37114 grains. That is to say that the market value of the pure silver in the silver dollar would be exactly equal to the face value of the coin, so that the government could lose nothing by continuing to buy at that rate which the law contemplates. While this would not be free coinage, and in the absence of further legislation there is no provision for free coinage, it would be practically free coinage for 4,500,000 ounces of silver a month. That is, we would receive from depositors 4,500,000 ounces of silver and give them for it the exact amount of money which 4,500,000 would make in coin. Of course, the government could not pay in excess of that rate, because if it did the value of the silver in the silver dollar would be greater than its value as a coin, which would be a losing operation."

### THE STRIKE AT CHICAGO.

Dissatisfaction Spreading and a General Tie-Up Possible.

CHICAGO, Ill., Aug. 26 .- The strike of switchmen of the Stock Yards Switching Association, after an adjustment of the grievances of the engineers and firemen yesterday, put a new phase on the situation, and this morning it was decided to dissolve the association and allow each road to do its own switching. The old men were told that their services were no longer needed and others were procured to do the switching.

Superintendent Marsh went to the stock yards this morning at the head of 300 men to take charge of the police arrangements there and see that no act of violence is committed by the strikers

The switchmen on the Chicago & Alton road have struck because that company wished to put out its old employes in the charge of the yard at Brighton. About forty-five men are out altogether. Passenger trains are moving all right, but freight

trains are tied up. The difficulty has cost those directly interested not far from\$ 500,000. The nackers who shipped their meat to meet certain steamers and markets have been unable to do so and contracts made have been forfeited. There are fully 150 cars of dressed meat in the yard and each car con tains 20,000 pounds, and the loss at the market price is considerable. Swift & Co.'s cars, which have been standing near their house since Friday, were opened this morning and the contents were found to be spoiled, totally unfit for anything but tanning purposes. None of the big packers, with the exception of Armour & Swift, did any killing to-day, and they did but little. The buyers and sellers this morning assembled under the runways and discussed the strike. They made no purchases, though the receipts were decidedly large.

The police have driven all of the strikers out of the yards and have formed a cordon about the place to keep them out.

When the news came to the striking switchmen assembled in conference that the Switching Association had been dissolved, the meeting broke up hurriedly, the strikers realizing that they were strik-

ing at empty space.

Every road entering Chicago may be tied up before forty eight hours, as there is no doubt to-morrow will see every road attempting to do its own switching. There is ground for hope that a general strike may not be declared in the fact that the switchmen last night struck in an altogether irregular and, according to their by-laws, illegal manner. They should have first presented their demands for higher wages to the association and, on its rejection, called a meeting of the proper committee of the trainmen's organization to determine whether a strike should be determined or not. In event of a strike being ordered after this informal proceeding they would then be entitled to the assistance and co-operation of the organized trainmen of every road entering Chicago. This formality was not observed, however, and the companies are confident that for that reason, if for no other, the switchmen will find themselves without support from the railroad employes of the various

No serious attempt was made to clear the yards to-day, but to-morrow will witness a herculean attempt to resume operations. It appears to be the desire to give the employes of the various roads time to think over and discuss the situation rather than' to run the risk of a general strike being precipitated as a result of the roads forcing the issue before the employes fully comprehend the situation.

### FIGURES ON POPULATION.

An Average Increase of 30 Per Cent in Ten Years.

Approximately, the populations of the States of the Union, arranged according to their relative rank, as shown in some cases by actual count, in others by postal card returns, and in others by careful estimate, based on the count just completed, as classed by a member of Superin-

tendent Porter's staff, are as follows:

1890.

New York	6,022,400	5,082,871
Pennsylvania		4,282,891
Illinois	3,801,285	3,077,871
Ohio	3,600,000	3,198,082
Missouri	2,788,000	2,168,380
Indiana	2,224,822	1,978,301
Michigan	2,175,000	1,636,937
Texas	2,142,000	1,591,749
Massachusetts	1,996,000	1,783,085
Iowa		1,624,615
Georgia	1,896,000	1,542,180
Kentucky	1,880,000	1,648,690
Virginia		1,512,565
Tennessee		1,512,359
Wisconsin	1.682,000	1,315,497
Kansas	. 1.680,000	996,096
North Carolina	1.673,000	1,399,750
Alabama		1,262,505
Minnesota	1.415.000	780,778
New Jersey		1,231,116
Mississippi	1.347.000	1,131,597
California	1 342 000	864,694
South Carolina	1 194 000	995,578
Louisiana	1 122 000	939,946
Nebraska	1.105.000	452,402
Maryland	1.070.000	934,934
Arkansas		802,525
West Virginia		618,457
Connecticut		622,700
Maine		648,936
Colorado		194,327
New Hampshire		846,991
South Dakota		020,00
Washington		75,116
Florida		269,498
Vermont		332,286
Rhode Island	328,000	276,531
Oregon		174,768
North Dakota		
Delaware		146,608
Montana		39,159
Wyoming		20,989
Idaho		32,710
Nevada		62,266
Novada		

The population of the country shows an increase of about 30 per cent., and the greater part of this is in the Western and Southwestern States. The official and final count will be required to settle the rank of some of the commonwealths, the race being particularly close between Iowa and Massachusetts for ninth place, and between Virginia, Kentucky and Georgia for seventh place. Kansas and Wisconsin are neck and neck for the honor of standing fifteenth in the sisterhood, and Minnesota will have to depend on the result of her count for beating New Jersey in the contest for nineteenth place.

### Law to Be Tested.

TOPEKA, Kas., Aug. 25 .- A petition for a writ of habeas corpus was filed today with Judge Foster in the United States district court in the case of Charles Rohrer by David Overmyer and Zachariah bered that Rohrer was arrested some time ago charged with violating the Kansas prohibitory law. He was an original package dealer and is not accused of selling liquor in other than original packages, his arrest being made under the provisions of the Wilson bill. The petition does not differ in any respect from those which were made in cases prior to the passage of the Wilson bill, and it ignores the new law altogether. This will leave it for the State to bring up the new law and aroue that under its provisions the sale of intoxicating beverages in original packages is in violation of the prohibitory law. Then upon this issue the constitutionality of the new law will be argued and a decision rendered. This is the first case in which an attempt has been made to test the Wilson bill, and its outcome is watched with great interest by the entire country.

### A Great Railroad Scheme.

PANAMA, Aug. 25.-The scheme for a Pan-American railroad is exciting a good deal of attention in the British colony of Guinea, South America, and one local paper suggests that the colony join the scheme. It says: "A gigantic project providing for railroad communication between the United States and Patagonia has taken definite shape and may be regarded as fairly in motion.

The President of the United States has given expression to an opinion in an official capacity, strongly in favor of it, and an appropriation of \$65,000 toward the preliminary expenses has been voted." After quoting largely from the President's letter, the paper says: "This railway is bound to be built sooner or later. and it is not only possible, but highly probable, before the close of this century a man may step on a train in New York en route by rail all the way to Bueno Ayres, either via Venezuela or Brazil, or by the west or Pacific branch, for the proper service of the continent will demand; a line on each border, nor is it at all improbable that our own colony will be included in the system unless of course we deliberately condemn ourselves to obscurity Secretary Blaine, who is a warm advocate of the project, lays the utility and feasibility of it very plainly before his fellow citizens."

### The Sundry Civil Bill,

WASHINGTON, D. C., Aug. 25 .- An greement has been reached by the sundry civil bill conferees upon the paragraphs relating to irrigation and public land sur-

For the survey of public lands the con ferees have fixed the appropriation at \$425,000. The sum of \$60,000 for additional clerk hire in the offices of surveyors general was stricken out. For topographic surveys the conferees agreed upon \$325,000 One half of this sum is to be expended west of the 100th meridian of longitude. The item appropriating \$720,000 for irrigation survey was stricken out.

Count Von Moltke will complete his 90th year on October 26, and the occasion will be celebrated throughout Germany by a series of popular fetes.

The military maneuvers last week at Narva, Russia, before the Czar and Emperor William were the most brilliant spectacles ever seen in mimic warfare.

Secretary Windom says that as he desires to release at present from the tinue to buy silver if the offers are reason able, without regard to the quota proportion for the month.

A dispatch from Odessa says that in spite of protests the anti-Jewish edicts will be promulgated in October with a supplement justifying such reprehensive servility on the ground that it is intended to satisfy foreign opinions.

The German Emperor is a voracious newspaper reader. Fifty of the leading journals of Europe are laid on his table every morning, and immediately after breakfast he plunges through them, shears in hand, clipping any item that strikes his

A check has lately been drawn by the great Indian Peninsula railway in the London and county bank for £1.250,000 or \$6,250,000. This is supposed to be the largest ever written, the famous Vanderbilt check for £700,000 (\$3,500,000) having hitherto stood at the head of the list.

Commenting on the effects of the American silver bill the London Times warns the silver interests to be in readiness to meet the (though perhaps distant) danger of a plethora of silver in America finding a vent outside and forcing itself on the market at a reduced price.

A meeting of 5,000 dock laborers held in London Sunday, at which Mr. Burns, the labor agitator, presided, passed resolutions of sympathy with the American Knights of Labor on the New York Central strike. The resolutions also expressed hope for the success of the strik-

Representative Hansbrough, North Dakota, has introduced in the House a joint resolution proposing an amendment to the constitution providing that neither the United States nor any State shall pass a law suthorizing the establishment or maintenance of a lottery or any scheme for the dristribution of prizes by chance.

A number of well-known citizens of Washington have united in a petition to the House of Representatives urging the passage of an international copyright bill, which it is said to be the intention of the committee on patents to call up Tuesday next. The enactment of such a law the petitioners assert would give a stimulus o American authors. In the absence of such a law American authors are declared to be subject to an unfair competition with foreign literature. Among the signers are Dr. Welling of Columbian university, Librarian Spofford, Bishop Keane of the Catholic university, Admiral Porter. George Keenan, Professors Newcomb Tangley, Goode and Mendenhall, General Greely, Dr. Richards of Georgetown university, General Boynton, Simon Wolf, Prof. Alexander Melville Bell, Garrick Malley, Dr. Swan Burnett and Dr. N. S.

### A POINT OF LAW.

Are Strikers Gultty of a Misdemeanor?

WASHINGTON. D. C., Aug. 25 .- A uestion of great importance at this time as been raised in connection with the strike of the Knights of Labor on the New York Central railroad. It is whether the members of the executive board of District Assembly No. 246 are not liable to be proceeded against under the provisions of the act entitled: "An act to protect trade and commerce against unlawful restraints and monopolies." It is known in congressional parlance as the "anti-trust bill."

A prominent Senator, whose legal ability is unquestionable, says, in speaking of the act: "I believe under a strict interpretation of the first section of that act a great many strikes on railroads and in other fields will be averted. While it was evidently not the intention of the framers of the law to interfere in any way with the liberties of the laboring classes to strike at will, still the first section under a strict and literal interpretation would seem to make it a misdemeanor. The first section reads:

"Sec. 1. Every contract, combination in the form of trust or otherwise, or conspiracy in restraint of trade or commerce among the several States or with foreign nations, is hereby declared to be illegal. Every person who shall make any such contract or engage in any such combination or conspiracy shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by a fine of not exceeding \$1,000, or by imprisonment not exceeding one year, or by both said punishments in the discretion of the court.

The senator continued: "There is no doubt that the Knights of Labor could be put in the category of combinations or conspiracies, and as, for instance in the New York Central strike, restraining trade. While the spirit of the law evidently does not aim at strikes, I have no doubt that if a test case can be made of it, it would result in the conviction of the

Section 4 of the law provides: "The several circuit courts of the United States are hereby invested with jurisdiction to prevent and restrain violations of this act, and it shall be the duty of the several district attorneys of the United States in their respective districts, under the jurisdiction of the attorney general, to institute proceedings, which may be by way of petition, setting forth the case and praying that such violation shall be enjoined or otherwise prohibited. When the parties complained of shall have been duly notified of such petition, the court shall proceed, as soon as may be, to the hearing and determination of the case; and pendthe court may at any time make such temporary restraining order or prohibition as shall be deemed just in the premises."

### Still Rich in Corn.

TOPEKA, Aug. 22. - Secretary Moh. ler of the State Board of Agriculture, has just completed a table made up from the returns from the county clerks which shows that there is now over 40,000,000 bushels of old corn in Kansas. He estimates this year's crop at 75,000,000 bushels, which, added to the 40,000,000 bushels of last year's crop, which still remains in the State, make a total of 115,000,000 bush-

He also made an effort to get from the county clerks an estimate of the amount of corn fed and sold since March 1, in order that he might approximate the amount on hand August 1. but the replies have not been as a whole very satisfactory. Yet, from the sixty county clerks reporting, it is safe to say that not less than 40 per cent. of the amount of corn on hand March 1, 64,558,516 bushels, has been disposed of, being fed or sold since that time. This would leave on hand on August 1 about 40,000,000 bushels.

### A Farewell Banquet.

ST. PETERSBURG, Aug. 24 .- A farewell banquet was given last evening at the Peterhof palace. The Czar, Emperor William, Chancellor Von Caprivi, M. De Giers and a number of leading officials were present. After the banquet the Czar and the Emperor went out upon a balcony which overlooks the gardens of the palace-These were brilliantly illuminated, the fountains, cascades and grottoes being lighted up with colored fires, and present ing a dazzling spectacle. Conspicuous among other devices was a huge shield on which were displayed the German Emperor's initial in letters of fire and the coat of arms of Prussia.

At 10 o'clock the Emperor departed. He was accompanied to the quay by the Czar, the officers of the Viborg regiment, of which the Emperor is honorary colonel formed a guard of honor. Upon arriving at the landing stage the Emperor shook hands with each of the officers and hade the Czar a cordial farewell. As the steam er left the Czar called out! "Bon voyage" au revoir."

The emperor boarded the imperial yacht Hohenzollern, which put to sea at dawn, escorted by the German ironclad Irene.

Admiral Schwartz, military governor of Cronstadt, gave a dinner last evening to the officers of the Irene and Hohenzollern. The admiral toasted Emperor William and Captain Von Drom proposed the health of stopped!

ANOTHER RAILROAD ACCIDENT.

Three Men Lose Their Lives by Jump ing from a Run-away Train.

A terrible accident occurred on the Denver, Utah & Pacific branch of the Burlington road Friday morning at Towers, near Lyons. Three men were killed and three others wounded. The dead are Engineer C. E. Norton, age 28, of Lyons; T. Torgurson, age 24, of Lyons; William Gerke, age 26, of Denver.

The injured are James Considene, James

Miller and J. R. Strayer.

The scene of the accident was at least 3,000 feet above the altitude of Lyons. In the ascent of the switch the trains are compelled to zig-zag over a 'switch-back," as it is commonly called, and for this reason seven carloads constitute the maximum train. After the cars bad been loaded yesterday the ill-fated train began its descent. Owing to some unaccountable reason the cars started wildly downward beyond the control of the engine. The engineer did all in his power to check the flight of his heavy train. The brakes were doubled, the car repairers joining in the desperate fight for life by placing clubs in the brakes and twisting until their muscles almost snapped in twain. Considene saw that death had control of the train and shouted in despair:

"My God! boys, jump for your lives." The engineer, C. E. Norton, was the first to accept the advice. He was dashed headlong among the rocks below and received injuries from which he died within ten minutes.

Considine jumped and received serious injuries about the head. Thomas Torgurson and William Gerke made a wild leap to the horrible fate that awaited them on the rocks below. It was a desperate attempt to save life that was in itself more horrible in results than it would have been had the victims clurg to the train. James Miller, the fireman, fortunately did not land on his head, but received a sprained ankle and slight outs on the forehead.

J. R. Strayer, the switchman, received a cut on the forehead, while Frank Paulding, whose coat became caught in the stone, remained in the car and escaped without a scratch.

The cars commenced their rush down the grade and finally reached what is known as the "dump," where six of them left the track. The engine and one car remained on the rails without suffering any damage.

### Fleeing From Cholera.

NEW YORK, Aug. 22 .- Madrid government physicians have announced their refusal to serve any longer in cholera infected districts unless they are given a strong military escort They declare the peasants are opposing all attempts to institute sanitary precautions and even resort to force in order to prevent them from doing their duty, and under these circumstances an abatement in the disease is impossible. The city of Arges has been deserted by all the inhabitants. Only those who are down with cholera and a few relatives who refuse to desert them are left. The mayor, who is the only remaining official in the city, yesterday buried his own son, all the grave diggers hav. ing fled the city. Of 128 people who have been attacked by the disease, forty-four have died during the last few days.

### Mr. Webb's Statement.

Mr. Webb has at last come forward with a prepared statement, evidently prompted by Mr. Powderly's manifesto-Mr. Webb starts out wih the statement that "No man has been discharged by this company because he was a Knight of Labor or a member of any other organization."

Then he, for the first time since the beginning of the controversy, names a list of offenses, among which are those because of which the Knights of Labor are said to have been discharged. Mr. Webb con tinues:

"The company has discharged men irrespective of their membership in the order of the Knights of Labor for drunkenness and incapacity, breach of duty, insubordination and for lack of sufficient work to employ them; and it will continue to do so whenever proper occasion arises. The people of the State granted to this company its franchise, and made it obligatory upon it to render certain services to the public, and providing that all its duties, including the employment and discharge of all classes of agents, should be performed by certain officers; and its officers do not propose to surrender, abandon or transfer the discharge of these duties, or any part of them, to any one except their duly appointed successors.

"It would be a moral and probably a oriminal neglect of duty for me to omit to discharge a switch tower man for drunkenness, when upon his sobriety and fidelity to duty depends the safety of the life and limb of some of the millions of passen gers transported annually by this com-

We could temporarily supply the place of a man who absented himself from work for two days without leave and without excuse; but, what business, public or private, can be carried on under such conditions? What private or public business can be carried on subject to the dictation from the workman that there shall be performed only this or that amount of work! What employer can tolerate insolence and insubordination, based upon the belief that the offender will be supported therein by a secret organization to which he belongs and by the agency of which the employer's business can be damaged or

### CONGRESSIONAL

THURSDAY, AUGUST 21.

SENATE .- The resolution heretofore offered by Mr. Plumb to prevent the sale of spiritous, vinous or malt liquors in the nate wing of the capitol was laid before the Senate, the pending questions being on Mr. Blair's amendment to add the words "and drinking." After some debate the matter went over until to-morrow. Senator Evarts presented a telegram from the members of the Grant Memorial Monument Association in New York protesting against the proposed removal of General Grant's remains to Washington.

The consideration of the tariff bill was then resumed and the pending amendment was rejected. Mr. McPherson moved to amend paragraph 162 (referring to files and rasps), by striking out the classifications by lengths and inserting 25 per cent. ad valorem. Without voting on the amendment, the Senate went into executive session and soon adjourned.

House.-The Senate bill was passed to change the time of sessions of Circuit and District Courts for the Western District of Missouri. A bill was passed amending the act authorizing the construction of a bridge across the Red River of the North.
Mr. Henderson, of Illinois, reported
the river and harbor bill, asking
non-concurrence in all the Senate amendments and agreeing to the conference requested by the Senate.

Mr. Kerr, Iowa, made the point of order that the amendments must first be considered and the considere ered in committee of the whole. Mr. Henderson thereupon withdrew the re-port, stating that he would make it to-

morrow morning as a privileged matter.
In the morning hour Mr. Buchanan (New Jersey) again called up the bill for adjustment of the accounts of laborers and workmen and mechanics arising under the eight-hour law.

Pending discussion the morning hour expired and the House proceeded under the special order to the consideration of the bill defining lard. FRIDAY, AUGUST 22.

SENATE .- The tariff bill occupied the whole of the session. Considerable progress was made, the paragraph relating to lead ore being reached.

House.—Mr. Henderson, of Illinois, submitted to the House the report of the committee on Senate amendments to the river and harbor bill, recommending non-concurrence in these amendments and agreeng to a conference asked by the Senate.

Mr. Kerr raised the point of order that the amendments must first be considered in committee of the whole. This point was sustained by the Speaker. The House then resolved itself into committee of the

whole for their consideration.

After non concurring in about one-half of the Senate amendments the committee

SATURDAY, AUG. 22.

SENATE. - The entire session was taken up in addresses of eulogy of the late Senator Beck. House,-Mr. McKinley, of Ohio, from

the committee on rules, reported, and the House adopted, a resolution setting apart Thursday and Saturday of next week for the consideration of the bills, constituting eight hours a day's work and relative to alien contract labor. The House then re-sumed consideration of the Conger lard

### MONDAY, AUGUST 25.

fered by Mr. Plumb to prohibit the sale of spirituous, vinous or malt liquor in the Senate wing of the capitol was taken up, but in the absence of Messrs. Blair and but in the absence of Messrs. Blair and Butler, who had offered amendments, it went over until to-morrow. The tariff bill was then taken up. A proposition was made by Mr. Aldrich, representing the Republicans and accepted by Mr. Gorman, representing the Democrats, that general discussion on the tariff bill be continued up to and including Wednesday, September 3, to have five minutes debate on Thursday, the 4th, Friday, 5th, and Saturday, 6th, and to fix Monday, September Sth. and thereafter for consideration of the bill and amendments without debate, and then the final vote to be taken on the passage of the bill. To morrow, Mr. Aldrich will ask for unanimous consent to have this order made.

The tariff bill was again taken up, the pending question being on paragraph 193, page 45, imposing a duty of 1½ cents per pound on lead ore and lead dross; provided that silver ore and all other ores containing lead shall pay a duty of 1% cents per pound on the lead contained therein, a ccording to sample and assay at port of House.-In the House to-day Mr. Quinn

of New York offered for reference a resolution instructing the committee on judiciary to report by bill or otherwise on necessary legislation to prevent railroads from employing unjustifiably large bodies of armed men, denominated "detectives," as is now being done by the New York The announcement of the sudden death

of Congressman Lewis Wilson, of Penn-sylvania, was then made and the House adjourned out of respect to his memory.

TUESDAY, AUGUST 26.

SENATE.—The memorandum offered yes terday by Mr. Aldrich, fixing the time for the consideration of and voting on the tariff bill was presented, and after some discussion it was agreed to by unanimous consent. The conference report on the sundry civil appropriation bill was read and agreed to.

The tariff bill was then taken up, the

question being on the lead paragraph to which Mr. Coke had offered an amend ment, to make the lead extracted from silver ores free of duty, and Mr. Plumb had offered one reducing the duty on lead ore and lead dross from 1½ cents to ¾ cents. Both amendments were rejected.

Schedule "E" relating to sugar, having been reached, Mr. Aldrich said that the committee proposed to let that schedule be passed over informally for the present so that schedule "F" relating to tobacco and its manufacture would be the first tring to come up to morrow. Adjourned.

House. - In the house it was contended bill, a vote on the passage of which, Sat-

bill, a wate on the passage of which, Satunder was inconclusive, owing to the absence of a quorum.

After considerable discussion on the
subject, Speaker Reed decided that the
question before the House was the rollcall on the passage of the lard bill. This
gave rise to another long discussion at the
close of which the House adjourned.

Salvador's Invincible Army.

NEW YORK, Aug. 24 .- A dispatch to the Herald from the city of San Salva-

Another battle has been fought by the Salvadoran army and again it has shown its invincibility, and has scored another signal victory to add to the already long

### To the Directors of the Pecos Valley R. R. Greeting;

GENTLEMEN:

THE REGISTER would like to respectfully suggest a few ideas for your consideration, believing that you may be greatly benefitted thereby, and at the same time that you may see your way clear to build up Roswell and the Great Pecos Valley, to an extent never before dreamed of.

In the first place we wish to call your attention to the fact that Lincoln county, and particularly the country adjacent to White Oaks, has yast resources of wealth, now lying dormant and unde veloped.

This section cannot possibly awaken from its lethargy until railroad connection is had with the outside world.

Few people outside of the best posted inhabitants of this section realize what grand resources are here, nor do they now dream what a grand future lies be-

Here are vast bodies of the finest coal, great forests of magnificent timber, millions of tons of all kinds of low-grade ores, grand quarries of beautiful marble and almost every variety of choice building stone

But all of these grand resources are practically worthless without the longlooked-for and long-delayed railroad connection.

Do you see the point?

Surely you do, and if you reflect, you come to the conclusion that now is your grand opportunity. But we are not done.

There are other considerations. It is a conceded fact that the immense bodies of low-grade ores already discovered in the White Oaks, Nogal, Bonito, Jacarilla and Gallina districts cannot be successfully reduced or smelted at home.

Why?

Because they have not at hand sufficient quantities of the proper fluxing material Because they have not a sufficient and

permanent water supply.

Because they cannot procure the necessary labor with which to profitably do the work.

But Roswell has all the necessary qualifications to entitle her to consideration as a proper point for the location of the smelting plants for the millions of tons of ores from the mountian coun-

Why? Because the easy grade would allow the ores to be delivered at the Roswell smelters in long trains at the lowest possible expenditure of engine power, The fluxing could be brought here

easily and cheaply from Old Mexico and from Northern New Mexico.

Here is an unlimited and inexhaustible water supply.

Here is a fine climate, and here labor will be cheap, because the laborer will be enabled to live cheaper than anywhere else in the territory.

You can readily see what an immense amount of business would thus be developed for your road if you should conclude to build through Lincoln county from Roswell.

There are other points: ·With railroad connection completed the White Oaks and Lincoln country would employ thousands of miners and laborers in developing its coal, silver, gold, copper, lead and iron mines; its lumber interests, (including endless quantities of the finest railroad ties) and its stone and marble quarries.

Where must the food supplies for From the fertile Pecos Valley, where

other thousands must be employed in producing these supplies, which cannot be produced near the mines.

The Great Pecos Valley, as you know, has a grand future in store for it. But it is almost destitute of a fuel

and lumber supply. These supplies you can furnish us very cheap if you build your road

through Lincoln county. It will doubtless cost you more to do

this than it would to build over the plains o Albuquerque direct.

But there are millions of dollars waiting for you if you do build through Lincoln county, and the extra cost of building will be more than repaid to you in the first year after the road is

In a letter received this week by Mr. Scott Truxtun from A. A. Mermod, of Eddy, he said that the latest advices from Washington were to the effect that land matters concerning the Pecos Valley have been satisfactorily arranged. This is significant of unbounded prosperity to the Pecos Valley as well as the entire territory.

### ADDITIONAL LOCALS.

—John Campbell, the surveyor, has returned from Las Vegas.

-G. W. Donaldson came down from the mountains Tuesday to attend the

-Rev. Mr. Mid Hill, a Missionary Baptist minister from Eddy was here with Mr. Milligan this week.

A telegraph line will not be built to Eddy until the Western Union is convinced that the line will pay, -Mr. Chas. Wilson is under the

weather this week from a severe cold. Hope to see him around again soon. -Wm. Brookins, who had his leg broken about two weeks ago, is improving rapidly and expected to be out again in

-Miss Louise Truxtun entertained her many little friends in Roswell at the M. E. church last Wednesday. Refresh-ments were served and the children had a general good time.

### Regarding The Pecos Valley.

The following is an extract from a letter written by Mr. C. L. Hubbs to the White Oaks Leader:

My mission to the new county to the south of Lincoln, Chaves, was not to view the country but to institute a lodge of Odd Fellows, the best organization without politics or creed this side of H---. My mission wss consummated and the new lodge, Samaritan, No. 12, composed of the best brains and the best morals among the "male" popula-tion of promising Roswell. I use the word "male" advisedly. I had the pleasure or misfortune of meeting the "superior" halves of some of the aforesaid "best brains and best morals" of that town after having kept the "worser" halves caged in the lodge room till 5 o'clock in the morning, and do not propose a second time to place my earthly

existence in jeopordy.

What have you people of Lincoln County, and now of Chaves been thinking of these many years that you have not enlightened the world relative to the magnificient Valley of the Pecos? Right there in the southern central portion of this Territory, without the curse of a grant, or a cursed land grant within a half hundred miles, lies not only the prettiest but one susceptible of being made the richest and most productive

valleys in the west. I have some acquaintance with the surface features and resources of several of the States, and I speak advisedly when I say that Kansas, Nebraska or the States of the North do not contain within their borders a valley so uniformly level, so rich in its possibilities and extensive in acreage as that of the lower Pecos. When you have a valley, o rather, prehaps, a plain in the valley, in unbroken width from seven to thirty miles, so nearly level that the incline cannot be detected by the unaided eye, only awaiting the water from the great canal just completed, and the hand of the thrifty farmer to make of it a veritable garden. Yet it has not been advertised. The world knows not of it.

There is hope for the future of Roswell, the county-seat of the new county of Chaves. It's people have no word of disparagement for any other town or city, and they are a unit in their good words and their good acts in behalf of their handsome little village.

People must not go there, however, expecting to find the town lighted by electricity, it's streets encumbered with cable roads or water works, or "beer" works. They have not these as yet, but they have room for and will have them in reasonable time-they have the country surrounding to make and support a city capable of these things.

The people of Roswell have the intelligence to know that a word of disfavor spoken of any other town in the Territory is half a word against themselves, and likewise that a good word for others is a credit of fifty per cent. in their behalf. Other towns might pro-fitably profit by their example. Will

they? Awake, ye sons of Lincoln, of Chaves and of Eddy counties, and herald to the world your manifold resources of mines of gold, silver, coal and copper, of your vast and unequalled cattle ranges, and your great extent of rich, level agricultural and horticultural lands, open to settlement under the munificent liberal public land laws of the government, and you are assured of a prosperous future.

### DEMOCRATIC PLATFORM.

The Democratic party of the Lincoln legislative district of New Mexico pledges its fadelity to Democracy and endorses the platform of the National Democratic Convention of 1888.

Chief among its principles of party faith are the maintenance of an indissoluble Union of free and indestructible States: devotion to a plan of government regulated by a written Constitution, strictly specifying every granted power and expressly reserving to the States or people the entire ungranted residue of power: the encouragement of a jealous popular vigilance directed to all who have been chosen for brief terms to enact and execute the laws, and are charged with the duty of preserving peace, ensuring equality and establishing justice.

We denounce the growing tendency of the monopolistic classes to seek the aid of the Federal Government, and as an incident of this tendency to enlarge the powers granted, and to multiply powers never contemplated by the Constitution, and we reassert the time-honored Democratic doctrine, that "all powers not delegated to the United States nor prohibited by the States are reserved to the States respectively, or to the people."

doctrine, that "all powers not delegated to the United States nor prohibited by the States are reserved to the States respectively, or to the people."

We denounce the present tariff as tending to confuse as well as to harass the people, as a work of injustice, inequality and false pretense. It has been maintained by a selfish and false theory of protection, which robs the many to enrich a few. It has piled up in the national treasury a surplus which menaces the prosperity of all classes and every industry. We demand the immediate reducijon of this war tariff not merely as an act of redress to the people promised by all parties, but as the only safe and just method of reducing the surplas; and in making such seductions we demand further that the taxes shall first be abolished, or lowered upon the necessaries of life; and finally we reassert the constitutional and Democratic doctrines that taxes should be levied exclusively for public purposes and limited to the requirements of the Government economically administered.

The freedom of labor is essential to the contentment and prosperity of the people. Workingmen should be protected from the oppression of monopolies and combinations and we recommend to the next Territorial legislature the enactment of such laws as will guarantee to workingmen the most favorable conditions for their labor and the sure and prompt payment of wages.

We favor the development of all the resources of our Territory and approve all proper efforts to advance the material prosperity and spread the worth of our farm, stock and mineral wealth.

Denouncing the policy of personal favor and following that has actuated the republican party within this legislative district in its selection of candidates calculated to respond to their behests, we commend all opposition leading to the destruction of clique or class favor, by or through those selected by the several parties for public offices.

We oppose the policy of political control that has actuated the republican party with inflation as a paper

counties and thereby operated upon us an injustice.

We denounce the Congressional Act of Oct. 2nd 1888, segregating and reserving reservoir and canal sites in the arid West, and reserving lands thereunder, virtually repealing our land laws, as the worst act of an intelligent Congress, hindering and delaying the advance of the great West and striking at the very heart of its material prosperity, and we, in convention, demand a proper and sufficient amendment of said act.

We charge upon the Republican party in Congress, the responsibility of failing or refusing to pass a Land Court law for New Mexico, which over 40 years ago was guaranteed to her people by treaty stipulation. Such failure or refusal has retarded immigration to our Territory, prevented the settlement of our lands, and hindered the investment of capital in all of our rich and varied interests.

interests.

That we proclaim the principles of the Democratic party to be the preservation and continuance of the best interests of the people and we prompt every individual to every honorable act and exertion to their promulgation and maintenance.

### **Dissolution Notice**

The firm heretofore existing under the name and style of Parker & Gray is this day desolved by mutual consent, W. S. Gray & Co. having purchased the entire interest of George Parker in the concern, will continue business at the same stand.

### LOCAL NEWS AND VIEWS.

-It is rumored there will be another meamarket opened soon.

-Mendenhall & Garrett are building anothe house adjoining Judge Morrison's office.

-J. M. Farris started a herd of 3,200 mixed cattle off to Liberal, Kansas, Tuesday last, where he will pasture them.

-Trotter & Daniel have taken the contract to build a comfortable residence for A. B. Allen, on his ranch five miles from town.

house and three lots in Ovard addition and will be occupied hereafter by Billy Gray. -Rev. R. N. Francis will preach next Sabbath

-Geo. T. Ovard, has purchased Mr. King's

morning in the M. E. church South at 11 a. m., evening 8 p. m., at the Farms 4 p. m. The sale of Roswell town lots increases daily

and we understand quite a number of neat residences will be erected in the near future. -Alex Bannow, A. E. Fleitz and Frank Wilson have recently erected houses on their claims

about eighteen miles below here, lying under the canal. -W. L. Hughes, our tonsorial artist, was somewhat indisposed for several days this week,

but is now up and able to wield the shears with -The mud caused by the recent inundation has

all disappeared, and with its coat of green, the land in the entire Pecos Valley presents a truly beautiful sight.

-Dr. T. A. McKinney has purchased J. A. Hill's residence in the Ovard addition and will take possession shortly. Mr. Hill will rebuild on some of his lots nearer town.

-The patrons of the public school in Roswell district are hereby notified that school will be opened by Mrs. Zimmerman Monday, Sept. 8, in

the Methodist church building. -Judge F. H. Lea is now circulating around among his many old friends and relatives in Jackson county, Mo., the home of his boyhood, and noting the many changes which have taken

place since his departure from that country. -The dance at the new hotel Tuesday evening was well attended and, although quite a number of the young ladies present were timid about dancing, probably on account of stipulations in the mortgage, a very enjoyable time was had,

-Littell & Osborne have the contract for the brick and stone work on the public school building, and in view of this fact a good and satisfactory job may be expected as both gentlemen are first-class workmen and of large experience in

-Jim Dunnahoo, an old resident of these parts, who is now engaged in sheep raising out on the plains, was in Roswell this week purchasing supplies. Jim put \$1,000 in sheep two years ago and since that time has sold \$1,700 worth of wool, and now holds his flock at \$3,250. This is how sheep raising pays in New Mexico

-Smith Lea's condition having become some what impaired this week, a comfortable conveyance was provided and was taken up to the mountains by Mr. Jno. W. Poe, C. C. Fountain and Dr. E. H. Skipwith, We join his many friends in hoping that the change will have the desired effect and that he will, at an early date, be able to return shout and well.

-A herd of 115 cattle belonging to Benton Robertson, whose ranch is in Dark Canon in the Guadalupe mountains, was brought up to Roswell and turned over to Deputy Sheriff Charley Perry on Aug. 26, who sold them to T. D. White and James Sutherland to satisfy a mortgage of \$800, and interest for four years, held by J. E. White. The price paid for the entire stock was \$1,168.50. The interest amounted to \$320, sheriff fees and cost \$100 and attorney's fees \$100.

-There was a "real" badger fight in town this week between one caught by Irvin Lesnet and Costa's big bull dog. The old dog sized the little animal up for a minute and took hold of it to see what it would do. The little animal grabbed the dog by the nose and the fight began in earnest, and such a gnashing and clashing of teeth and flying of dog hair was never seen nor heard of before, and the sponge was thrown up for the old dog for the first time. The fight brought out the largest crowd ever seen on the streets of Roswell.

-The life was nearly scared out of all the people in Eddy one night last week by a report being brought to town that the big dam of the Pecos Irrigation & Improvement company had broken and that the people would be swept away if they didn't "fies to the hills." But as luck would have it the dam had not "busted," nor didn't "bush," and we suppose by this time the people are all straightened out again. It's strange that emissible people won't stop to reason on such occasions nor exercise any judgment. A report was circulated in Roswell the same night to the effect that a wall of water six feet high was ing across the prairie toward us, and in the face of this abourd and ridiculous report people present to have lost their senses entirely, some of them grabbing part of their clothing and pulled to Sept. 13, inclusive. Return ticket tention, and the charges will be reasonable for the school house on the hill. out for the school house on the hill.

### PERSONAL POINTS.

-Mr. R. W. Cloud has been up at Lincoln on

business the past few days.

—C. C. Trousdale, of the DeLany ranch above

here, was in town this week. -Tom Gray, of Eddy, returned Monday from his trip to Lincoln and White Oaks. -Capt. J. C. Lea and wife went up to Stanton

last week after the children and returned Mon--Mrs. W. F. Slack and Miss Alice McKinney left Thursday morning for Las Vegas to be gone

-Messrs, Bascom, Cushenberry and Arthur, of Eddy, are in the metropolist of the Pecos Valley this week, seeking investments, and having a

-W, H. Lumbley and family, who resided in Roswell several years, and who now have a ranch

in the Capitan mountains, are here visiting friends this week. -Register Cobean will leave to-morrow for Fort Stanton to visit his family, and we are

pleased to note that he will bring them to Roswell in a short time. -Our photographer, Mr. F. G. Hodsoll, has closed his parlor and gone to Eddy to be absent

about six weeks for the purpose of looking after his interests in that part of the country. -Miss Mildred Littlefield, niece of George W. Littlefield, a very prominent cattleman in the west, is visiting friends in Roswell and vicinity. Miss Mildred is a very accomplished and entertaining young lady and her many friends here

are always glad to see her. -Jas. R. Brent, of Eddy, is up again this week viewing the political situation and events generally. Mr. Brent has sold out in Eddy and, we understand, will locate in Roswell in the near future. Mr. Brent is a thorough going and enterprising gentleman and we are glad to learn of

his intention of becoming a citizen of Roswell. -Rev. Mr. Milligan, of Midland, Texas, Mis sionary Baptist minister, was here this week. He is traveling around throughout the territory visiting the churches of his denomination and placing them on a more solid footing by appropriations wherever needed. The Baptist church here has been organized and now belongs to the regular association.

-Messes. Garrett & Hill are building a new and spacious carpenter shop on Overton Avenue -A large grading outfit went through town this week, to complete the work on the dam for the

P. I. & 1. Co. -The services by Rev. Maule and Francis at the school house in the Farms last Sunday were well attended.

-James Dunnahoo recently purchased 650 improved sheep from W. M. Crow and will remove them to his ranch on the plains.

-Notices to the effect that the collector will be in Boswell on Sept. 15, for the purpose of collecting property taxes for the year 1890, are posted

-We learn from the school directors of this district that school will be held in the Methodist church until the new public school building is completed.

-Our old and congenial friend, Fred Both, is making preparations to visit his old home in Germany about the 15th of this month. He will be absent about six months and it is said he will bring a brand new wife along with him when he returns. Fred is a jolly fellow and we wish him a pleasant journey and speedy return.

-A wedding that was to have been some tim in the future is off, the young man having been bounced higher than "Beecher's Life of Christ" a short time since. This intelligence will doubtess be received with a falling of countenance by Judge Morrison and the ministers, for they will say, "another \$5 gone to --!"

-It will be very distressing news, indeed, to her many warm friends in Roswell and the Pecos Valley to learn that Miss Bettie Cowherd is very low at her father's home in Kansas and not expected to recover. Her sister, Mrs. A. B. Allen, will start to her immdiately and bring her back to the Pecos Valley where she was greatly benefitted by a visit last fall, if possible.

### Grand Barbecue.

The grounds have been prepared at the Chisum ranch to hold a grand barbecue under the auspices of the Farmers Alliance to-day, (Satur day.) Competent committees have been appointed and have all arrangements perfected for having a grand time. Meats will be served in the good old style under the supervision of Amos K. Eakers. Amos makes no pretense at serving dishes with atteunated French names, but when it comes to barbecuing meats in that incompara ble anti-bellum style, he will not turn the spits over to anyone, Baskets containing all the viands that can tickle the palate and appease the appetite of the hungry, will be brought by the members of the alliance. Indeed, a veritable feast will be spread.

### Attempt to Murder.

What came near terminating in a very serious shooting scrape occured at the camp of the Jinglibob Cattle company near the head of South Spring river last Saturday evening between John C. Motton and Nelson Morey who were both working for the outfit named. The trouble was brought on by a quarrel between the two men. Some very abusive language was used and at last Motton ordered Morey to leave camp, and upon being informed that he would not, and could not be made to, Motton went to his bed and pulled out a six-shooter and opened fire on Morey. It happened there was only one cartridge in the gun and after snapping four times at Morey, jumped on one of the Jinglebob horses and made good his escape as Deputy Sheriff Perry was not informed of the tragedy until next day. He is therefore charged with assault with intent to murder and horse stealing. A reward of \$25 is offered by Mr. Perry for his body in any jail in the territory. Age 23, light complexion, blue eyes, broad face, sharp chin, small necktie, height 5 ft. 8 in., weight 145 lbs., brother to Billy, killed by the "Kid" in 1878 in this county, was riding a dun horse branded U on left shoulder, and halfcircle diamond on left thigh; also, a heart with arrow through it.

### NOTICE.

Any person wishing to attend the Albuquerque Fair, can obtain round trip ticket from any station along the mail line to San Antonio and return for one TWO KINDS OF HOSE.

She's fairer than a lilly, And she's sweeter than a rose, And she knocks the neighbors silly When she wields the garden hose.

She lifts her skirts from danger With her left hand, while her right Grasps the nozzle, and the stranger Gets a very pleasant sight.

For she's always fresh and rosy, And she seems so sweet and fair, As she sprinkles every posy With the most impartial care.

The neighbors' eyes all twinkle, And their interests daily grows, For they like to see her sprinkle, And they like to see her hose.

PROGRAMME,

And Order of the Day of the Farmers' Alliance Barbecue,

cession by 9 o'clock at Roswell and proceed to the grounds at the Chisum ranch. The order of

procession will be First, the Roswell Brass Band.

Second, carriage containing officers and banner of the day. Third, members of alliance and familian ..

Fourth, citizens, Upon arrival at the grounds after the usual preliminaries, speeches will be made on behalf of the alliance by Lucius Dills, A. C. Rogers and others, among whom will be one or more Span ish speakers.

After refreshments candidates for the various county offices will be called upon to present their views on the all absorbing topic of the daypolitics. When the speakers are through the young folks will, (and the old ones may) trip the light fantastic to their hearts' content.

C. B. Grant, marshal of the day, and a corps of ssistants, will keep order, while a committee of affable young men will do their utmost to make it pleasant for the visitors.

### EDDY ARGUS ARROWS

It is to be hoped that the first train that comes to Eddy will bring a temperance lecturer.

The only objection one can have to this glorious climate is that the rain comes all at once instead of being equally distributed.

The railroad graders are within 35 miles of Eddy, and are pushing work rapidly. Tom Fennessey has been supplying them with meat this week.

W. P. Seymour has sold his store at Seven Rivers to Frank Rheinboldt and Joe Fanning. The boys ought to make some money, as Seven Rivers is a good point for a well-stocked general store.

If we are not greatly mistaken, the late rains were general all over the south-west. We know they extended as far north as Roswell and as far south as the Delaware. If grass is not luxurious in the Pecos Valley this year the people will be greately surprised.

THE Mesilla Valley is just beginning to reap the harvest sown by the progressive element which has been struggling to get the upper hand there during the past few years. One of the results of the struggle can be noticed in the greatly increased shipment of grapes and country produce. The shipment of watermelons by the car load is also another noticeable item. The Pecos Valley, as soon as her railroad is completed, will be ready for business in the same line.

The Fisher boys came to Eddy last spring and took up claims which they will cultivate as soon as water is turned into the big ditch. In the meantime they have not been idle. They rented an improved twenty acre tract on Black river and put in corn and other stuff, and they calculate that this fall they will clean up a thousand dollars in cash. besides having enough potatoes, cabbage, turnips, etc., to last them during the winter. Does not the experience of these poys demonstrate that irrigation pays? When they came here they had never seen irrigation, and of course did not understand it. They simply "went it blind," with the result as stated. When they "get on" to irrigation they will make a hundred dollars out of every

acre they cultivate. E. G. Shields came in from the Lake View farm Tuesday, bringing with him a lot of melons for his friends and samples of Johnson grass, cane and millett for exhibition in his office. The grass is exactly six feet high, or about two feet higher than grass was ever before known to grow. The millet is three feet high and looks fine. The cane towers up to a lordly height. Mr. Shields believes that next to cane Johnson grass is the best feed for stock. Of course he does not go back on alfalfa. He esteems it as the most valuable product of this country because it is so prolific, yielding from three to five crops per year. But it is not as good for stock as cane or John-

A heartless Mississippi editor solves the suffrage problem for the Constitutional Convention as follows: "Make petit larceny a criminal offense, and build the hen roosts low.'

To the Public. We will not allow any more huxter buying or

selling on our land or ranch. MR. and MRS. F. M. WALLACE.

Special Hack will be sent to Roswell if three passengers can be had. Ticket from Roswell to San Antonio and return for \$25. U. Ozanne & Co.

### F. G. Tracy, who has charge of the affairs of the Pecos Irrigation and Improvement Co. at Roswell, now has his office at Lucius Dills' law office, where

he will transact business for the com BUSINESS POINTERS.

### It was Ben Johnson, we be 'STANLEY'S FIRST LOVE

CUPIDS PRANKS WITH THE GREAT EXPLORER.

pends on the liver." And Ben Melodramatic Declaration of Love Before the Footlights in an Omaha Theater-The Foolish Youth Ejected-He Rose to Fame, She Fell to the Grave.

With fame and fortune at his back, Henry M. Stanley was enabled to suclife rosy, everything bright, cessfully woo one of the most beautiful and talented women in England.

Early in the "sixties" matters were different. Stanley was noted for nothing but poverty and persistence-the latter bred in his bone, and that has been of incalculable benefit to him all these worry rise into mountains of latter years of uncertainty and priva-

"Annie" was a variety actress who was headache, dizziness, constipathen gladdening the hearts of that wonderfully large floating population stream-Two ways are open. Cure ing into the great plants of Omaha. She was ing into the great plains region through permanently, or relieve tem- bright, vivacious, of very attractive porarily. Take a pill and suf- figure, and knew how to entertain. fer, or take a pill and get well. Stanley, who had been about the city a few weeks, had, like many others, fallen Shock the system by an over- under her spell. Young and impressiondose, or coax it by a mild, able, he became enrolled as her devoted

Finding means to gain admission to the theater in which she was playing, he found a seat close to the stage night after night, watching the coy Annie lover. Stanley's existence seemed centered upon her. But Annie was fickle. One night, it is related, a scene was preloose with him and was soliciting attention from other gentlemen of larger

On the night in question, as the story goes, he was in his accustomed seat in the theater, and when Miss Ward came on to do her little "act," Stanley was observed to be in a condition of excitement quite foreign to his nature. Miss Annie was too palpably engaged in impressing her personality upon a rather boisterous young man, who had the reputation of having cleaned out numerous bar rooms, and was not on the most intimate terms of good fellowship with the law loving element of the community. Stanley is said to have stepped into the aisle in a most demonstrative manner, and a scene of excitement followed that terminated only when he was summarily and safely ejected through the front

There were many stories related as to what really happened-an angry colloquy with the actress, the public declaration that both he and she would be off out of this world of heartaches and unrequited love, and the final exhibition of a very large and dangerous revolver. object to blood letting as to the disruption of the programme and the possible unsatisfactory termination of the evening's entertainment) Annie Ward was erabled to get out of range of Stanley's weapon, and Stanley was ejected. Annie was saved to die of alcoholic excesses. and Stanley to discover Livingstone and make known the secrets of the Dark Continent.

Stanley's life at that time was a peculiar one. He had knocked about the ing their good wishes, hope the lightning west a good deal and had done some will strike again in this city but a little West a good deal, and had done some fair newspaper work on a military expedition. Dropping into Omaha, he was for a time out of employment, and developed into a splendid specimen of poverty and general hard luck. His trousers were "out" at the heels, his shoes were apologies for foot gear, his linen even a Chinaman would have scorned, and his stock of flannel shirts reduced to one. He would get a job now and then on one of the Omaha dailies-a day's work, no more, at a time.

As for lodgings, he had none, and one of the city editors of that period relates how Stanley would appear nightly at the editorial rooms of the Republican and solicit the privilege of sleeping there, for the reason that he had no money for a bed elsewhere. It was invariably accorded him, and he made his couch by scraping together a lot of old newspapers and softening up the dictionary for a pillow with a few Chicago or New York exchanges. There he spent his nights in refreshing sleep, with no covering save papers; and making his toilet on arising as best he could in the composing room, he would start out every afternoon to skirmish for food and a job. Soon afterward Stanley went to New York, and later he was in Abyssinia, Spain, and then Africa.

An Old Hoax.

Occasionally a correspondent seeks information concerning the 1,000,000 postage stamp hoax. It is firmly believed that if a million stamps are collected and forwarded to a given address some benefit will accrue to the sender. A sublimated form of this swindle has originated in the fertile brain of a postage stamp collector at Stettin, Germany. He desired to get vast collections to sort out and sell again, and hit upon a plan to set the whole civilized world to work for him free of charge. He preyed on the sympathies of people by announcing that an orphan would be cared for in a private asylum for every million stamps ent to him. This worked well; and the next dodge was the starting of a mythical mission in China, the holy sisters of which agreed for every million stamps sent to save from the jaws of the crocodiles of the Yellow River at least one Chinese baby, and then educate and Christianize it. The stamps were to be sent, not to Jerusalem or China, but to Munich or Stettin. The last claim on the sympathy of the world that has been made by this German is, that for one million stamps a home for an old lady or n old gentleman will be provided in ne of three homes-one in London, another in New York, and the third in Cincinnati. For five hundred thousand tamps a bed will be endowed in a hospital, and for one hundred thousand a nome will be found for an orphan for one year. There are agencies in various ities to forward stamps to Stettin. It estimated that this swindler has collected over one hundred million stamps in the United States alone,

If you succeed you are a success. If you do not, you are a fool. That's the long and short of it.

"Have You Ever Tried Them?"

If not, it will pay you well to ask your dealer for a pair of Kirkendall, Jones & Co.'s own make shoes or boots and take no other, as they are all made of the best selected stock and by skilled workmen.

Benjamin Peterson's \$15,000.

Hartford (Conn.) Times, July 28. Instead of \$15 in his inside pocket, Mr. Benjamin Peterson, colored sexton of the First Baptist Church, and who lives at 160 Barbour Street, has \$15,000 in the Phœnix Bank, and he is as happy as a clam at high tide. The big sum of money Ben received by express from the Louisiana State Lot-Through the prompt interposition of muscular spectators (who didn'tso much has made him even a more pleasant man than he was before. The Baptist church people have congratulated him upon his good fortune and said they hoped his turn of good luck would not cause him to leave them. A Times reporter saw Mr. Peterson this morning, to whom he said that he had only bought three tickets in the lottery, and the third—a twentieth of Ticket 92,561—was the winner. A new house, good clothes for himself, wife and children, plenty to eat, home comforts, and good achief for his little cover is what this schooling for his little ones, is what this drawing means. His friends, while offernearer home.

That man is lucky who can partake of meals that his cook also relishes.

Voluntary Evidence of Many Who Have Derived Benefit from the Gun Wa Herb Remedies.

GEORGETOWN, Colo., April 20,1890. Gun Wa Herb Remedy Co:- Having taken a course of your medicine for seminal weakness from which I had been suffering for ten years and having given sufficient time to prove that I am permanently cured I take pleasure in recommending the treatment to others who are afflicted in the same manner, feeling certain that they will derive the same benefit and permanent cure that I have done.

Yours truly, ANDREW JOHNSON.

DENVER, Colo., April 4, 1890. Gun Wa Herb Remedy Co,-This is to certify that my wife has been a sufferer for years from female trouble. She took one treatment of three weeks from GUN WA HERB REMEDIES and derived more benefit than she ever had from all the doctors she ever tried. she and I both cheerfully recommend and urge sufferers to give the GUN WA HERB REMEDIES a trial. We will be happy to substantiate the above in person at our home, 3135 Lawrence Street.

G. W. FAUSLER.

Gun Wa Herb Remedy Co.:-Last month I began taking the GUN WA HERB REMEDIES for nervous dyspepsia and sick headache. I had suffered for years. Ladies having the worst form of sick headache can only appreciate what I suffered. Have had for years attacks that nearly drove me crazy; could not eat anything for three days, during these periodical attacks, which usually came on about every ten days. I was utterly reduced in health and strength. I can truthfully say, however, that I never felt so well in my life. The remedies helped me almost as soon as I began. I will cheerfully answer anyone who asks me questions about what I have suffered. ELIZA GRIFFITH.

CANON CITY, Colo., Feb. 16, 1890. Gun Wa Herb Remedy Co .- I have been taking GUN WA HERB REME-DIES and firmly believe they will completely cure me.

The Union Works of San Francisco have just completed a 100-stamp silver mill, which is one of the largest pieces of mining machinery ever built, and, it is asserted, the finest stamp mill ever made anywhere. The mill was made for the Hunchaca de Bolivia company, a corporation of Parisian and Bolivian capitalists. It is the largest silver producing company in the world and has exceedingly rich

sented by us and you will surely find mines in Bolivia, 14,000 feet above the sea. that they are the best goods for the The company has built a railroad 500 miles long from its mines to the sea coast at Antofagosta, Chili, where the mill will be erected. The mill weighs 2,000 tons in its entirety. Twelve hundred tons are being loaded on a bark and the rest will follow in another vessel in thirty days.

"It is the finest piece of modern mining machinery ever built," said member of the company. "It is finely finished, and it contains several improvements of a technical kind which will be interesting to mining engineers. What makes this machinery noteworthy, is that it is the first large piece made here for export for some time, as Chicago, by cheaper labor, has secured all foreign contracts.

Morse's School Shoes,

Made in our large factory at Omaha, Nebraska. Ask your dealer for them. Refuse to take any others. If not kept in your town, write us asking where to get them. They wear longer and fit better than any other shoes. Shoes have always been made too narrow. We make them wide. A reward of Fifty Dollars in gold paid for every pair of our own make of shoes that contains a particle of shoddy, or anything but solid leather. We make 150 styles of Women's, Misses and Children's Sewed and Standard Screw, Grain, Glove, Kid and Dongola. Elegant styles, wide and good fitting. We also carry 150 styles of Men's Goods, Rubbers, &c.

Invalids, aged people, nursing mothers, overworked, wearied out fathers, will find the happiest results from a judicious use of Dr. Sherman's Prickly Ash Bitters. Where the liver or kidneys are affected, prompt action is necessary to change the tide toward health, ere the disease becomes chronic—possibly incurable, and there is nothing better to be found in the whole range of materia medica. Sold everywhere. everywhere.

When the weather is miserable it is not difficult to find many men who have seen better days.

A multitude of people is yearly passing from the West to the East. To those who have not been advised we wish to say that the Great Burlington Route, with its unequalled equipment and daily through train service, offers the best facilities for all classes of travel to all points east, northeast and southeast.

All trains of this line are made up of finest Pullman palace sleeping cars, Horton reclining chair cars (free) and elegant day coaches. The trains on the Burlington Route are vestibuled and carry the famous "Burlington Route Dining Cars," serving all meals en route on Trains I and 2 between Denver and Chicago. The Burlington is the shortest line to Chicago and ton is the shortest line to Chicago and quickest time and best connections are made by this route.

Start right on your journey by asking for tickets via the Great Burlington Route. Colorado headquarters, 1700 Larimer St., Denver, Colo.

Startling Discovery.

------

The discovery by the inhabitants of a locality hitherto unvisited by the pestilent scourge of fever and ague, that it exists in their very midst, is decidedly startling. Such discoveries are made at every season, in every part of the Union. Subsequently, when it is ascertained, as it invariably is at such times, through the valuable experience of some one who has been benefitted and cured, that Hostetter's Stomach Bitters is a thoroughly efficacious eradicator of the malarial poison, and a means of fortifying the system against it, a feeling of more security and tranquility reigns throughout the whole neighborhood. sides the febrile forms of malarial diseas dumb ague and ague cake are removed by the potent action of the Bitters, to which science also gives its sanction as a remedy for rheumatism, dyspepsia, constipation, liver complaint, debility, kidney troubles, and all diseases impairing the organs of digestion and assimilation.

Strange indeed that \*

like SAPOLIO should make everything so bright, but "A needle clothes others, and is itself. naked"Try it in your next house cleaning

What folly it would be to cut grass with a pair of seissora! Yet people do equally silly things every day. Modern progress has grown up from the hooked sickle to the swinging sayths and thence to the lawn

mower. So don't use scissors! But do you use SAPOLIO? If you don't you are as much behind the age as if you cut grass with a dinner knife. Once there were no soaps. Then one soap served all purposes. Now the sensible folks use one soap in the toilet, another in the tub, one soap in the stables, and SAPOLIO for all scouring and house-cleaning.

Southport, Ind.
