Letter Number Three

By the Cashier

The Days of Barter Are Over

At one time, men traded an animal's skin for a stone axe, a canoe for a certain amount of labor.

Today there is a medium of exchange by which all things are measured. You do not express the value of your horse in terms of a number of day's labor. Your home represents a certain amount of money.

Everything is valued by our money standard, yet there is not enough money in the world to do a strictly cash business. It is through the help of banks that the immense volume of business is carried on.

For example, ten men deposit a hundred dollars each in the bank. Not all of them will want their money at the same time; one may draw his money in ten days, another in thirty days, and so on. The banker can loan out a certain per cent of this money to other men who wish to improve or stock their farms, buy new goods for their business, or build homes. This loaned money finds its way back to the bank; it is turned over many threes, so that the one thousand dollars deposited by the ten men may do business amounting to ten or twenty thousand dollars.

The entire community is benefitted by this system, made possible only by the bank and its confidence in men to pay their obligations.

SCHOLASTICS INCREASE

Brady Has a Total of 673, an Increase of About Fifty Over Last Year. County Shows Increase.

County Judge Walker, as exofficio county superintendent, is busy just now formulating the scholastic census for McCulloch county. He is being assisted by his daughter, Miss Jackye, and the complete report for the county will not be ready for publication for some weeks yet as some of the districts have not yet reported. Enough have come in, however, to indicate that there will be a healthy increase shown over last year, one or two of the districts already showing an in-

Crease of more than 100 per cent.

The report for Brady shows the total number of scholastics to be 673, a gain of about fifty over last year. Figuring the town's population on this basis at the usual ratio of 7 to 1, gives Brady a population of 4,711, which, evidently, is not far from being about the correct figures.

Armor for Commissioner.

J. J. Armor, of Voca, authoizes The Standard to announce him as a candidate for re-election to the office of county commissioner from the Voca precinct, No. 2. Mr. Armor is the present incumbent, and during his past service as commissioner he has been a success. No man on the court has a deeper interest in the affairs of the county than Johnnie Armor; he is liked by all his people, and if elected again he will continue to serve them acceptably. His fellow commissioners have great respect for his abilities and the people of the county at large will be well pleased with his re-election. Mr. Armor announces subject to the democratic primary July 23, and The standpipe or water tower A. C. Baze and family left will sincerely appreciate your the Brady Water & Light Co. yesterday for Bertram, Texas, support.

Contract is Let.

Wright & Horn were the low est bidders on the new ward school building and were awarded the contract at \$7,121. There are some changes and additions to be made to the plans and specifications, which matters it is thought will be shaped in a few days, and the work of construction will begin soon.

The plans call for an exceedingly nice building for the amount invested, and will be treated further in these columns next week, showing also, we hope, a picture of the building.

If you are not acquainted with us we want you to call around. We are going to give you that 10 per cent extra that the other fellow pays out for foreign brains, and then some. Our circulars are printed in Brady, not in a foreign land. Our sale is conducted by the Grand Leader force, not by foreigners.

Read our big circular, we are not afraid to quote prices, but let the people know just what to depend on. COMMERCIAL CLUB NOTES

After several week's work the commercial club has at last succeeded in arousing the railroad people to great efforts in bringing home seekers into the Brady country. The necessity of im-Hay (Johnson grass) new crop. \$15.00 mediate action in this great \$13.00 work was made so apparent to 7 to 8c the Frisco and the Santa Fe, that each road has gone to work in earnest towards peopling this rich section.

Officials of each road are supolying the secretary with valuable information.

Garrett A. Dobbin, colonization agent of the Santa Fe, gave Wednesday enroute to Eden to some very valuable suggestions to the secretary relative to the immigration business.

On last Friday afternoon in the Queen Hotel, W. B. Drake and Secretary Bennett held a very important conference, dealing with future co-operative relations to exist between the Brady people and the St. Louis and San Francisco railroad.

Mr. Drake is vice president his trip to our little city was for the purpose of arranging the colonization move, and the general descriptive write up of this county, with the secretary of the commercial club. Mr. Drake, as are all the other railroad officials of both the Santa Fe and Frisco, sees a great future before Brady if the people here will only pull together as they should.

The Frisco is getting up an immense amount of literature to place among the home seekers north and east. Mr. Small says that this is one of the finest countries that he has ever seen. He is favorably impressed with the spirit of push shown by our citizens.

A great many inquiries are being received each day from people who wish to move to Brady. Secure some literature from the secretary and send to your friends. They may desire to locate in a good town.

Draughon's Practical Business College has made the Brady people a proposition by the fulfillment of which, Brady can come into possession of one of the best business colleges in the world. These people have colleges all over the central and Southern states. Their colleges in Texas are located in Denison, Dallas, Fort Worth, Waco, El Paso, Houston, Galveston, Austin and San Antonio. They ask no bonus. All they want is to dispose of fifty life scholarships. Let's get busy and land one of the best business colleges in the world. Every one wishing to secure this school, and will take one or more scholarships, call on the Secretary at Club rooms.
