Experience of the Ages

THE EXPERIENCE OF THE AGES HAS PROVEN THAT A MAN WHO SPENDS ALL HE MAKES, SOON GETS BEHIND. THE BEST WAY TO GET AHEAD IS TO DEPOSIT A PART OF YOUR EARNINGS EVERY WEEK. WITH OUR BURGLAR-PROOF SAFE AND EFFICIENT BOARD OF DIRECTORS, WE OFFER YOU STAUNCH PROTECTION. A SMALL AMOUNT DEPOSITED EACH WEEK SOON ENABLES YOU TO HAVE A WORKING CAPITAL. THE SMALL DEPOSITS SOON BECOME THE LARGE DEPOSITS AND A GREAT MANY OF OUR SOLID BUSINESS MEN STARTED IN THIS WAY. COME IN AND TRY THIS SYSTEM AND WE ASSURE YOU THE SAME COURTEOUS AND CAREFUL ATTENTION THAT WE GIVE EVERY CUSTOMER. KEEP A BANK BOOK INSTEAD OF BANK NOTES. A BANK ACCOUNT WILL GIVE YOU A BETTER BUSINESS STANDING IN THE COMMUNITY. IF YOUR NAME IS NOT ON OUR BOOKS, WE INVITE YOU TO PUT IT THERE. WHY NOT DO SO TODAY? CULTIVATE THE SAVING HABIT. YOU WILL FIND IT PROFITABLE. IT IS NOT HOW MUCH YOU EARN, BUT HOW MUCH YOU SAVE THAT WILL COUNT WHEN THE PROVERBIAL RAINY DAY COMES. IF YOU HAVE NO BANK BOOK, BRING IN A DEPOSIT TODAY AND GET ONE.

Very truly yours,

JEFF F. MONTGOMERY, Cashier,

The Brady National Bank,

Brady, Texas.

J. M. Duke and his party returned Monday from a two weeks' fishing trip on the Colorado near Waldrip. Mr. Duke reports a fine outing. He says a big rain fell in the Waldrip community, being especially heavy where he was camped. The Colorado rose about 27 feet, and wagons loads of fish were caught by the people there, the alkali water making the fish come to the surface, where they were easily gilled or caught.

The Brady National bank has

received its new wall stands for the use and convenience of depositors and customers. The stands are glassed topped, making them both sanitary and neat in appearance.

Mens' \$12.00 Suits for \$8.00 at Watters' Sale.

R. B. Hardin was among the Melvinites attending court Monday. He reports no rain yet out his way, aside from a shower Saturday, which settled the dust. Cotton is looking fine in his community.

MEETING IS POSTPONED

ADAIR UNABLE TO COME UNTIL SUNDAY.

Will Reply to Colquitt's Speech at Dallas—A Disappointment to All.

Wednesday morning the local union meeting committee received word that Lockett Adair would be unable to come to Brady until Sunday morning, and consequently the meeting has been again postponed until Sunday morning at 11 o'clock. It seems Mr. Adair was prevailed upon to remain over in Dallas and reply to the speech made by Governor O. E. Coquitt.

Everything was in readiness for the meeting to begin Wednesday and a number of people had come in prepared to camp, consequently they are more or less disappointed by this second postponement. The prayer meetings have been declared off until next Monday night, but as long as the people desire Dr. Kolybe will continue the services at the tent on the west side of the square.

A. J. Priddy and son left on Monday afternoon in A. B. Carriher's car for Goldthwaite, where they were called by a message stating that Mrs. Priddy had fallen and broken her arm. Mrs. Priddy was on a visit to relatives at that place. It seems, however, the information was incorrect. Mr. Priddy's mother was injured in a fall, but not seriously so.

Mrs. S. A. and Miles Abernathy went to Mercury Saturday to visit her daughter, Mrs. R. B. McCarty. They returned Monday. Miles reports everything looking prosperous down that way in consequence of the rains of a week ago.

Miss Ora Strickland is enjoying a months' vacation, spending this week on a fishing trip. She will also visit the next week or two in Brownwood. Mrs. Mat Roberts is taking her place at Central office.

A fine girl came to make her home with Mr. and Mrs. Jack Nussbaum Wednesday, the 12. Father Jack is just as happy as can be.

Wood-Wiggington.

Claude Wood and Miss Mary Belle Wiggington were married last night at the summer home of Mr. and Mrs. H. P. Jordan two miles west of the city. Rev. D. R. Hardison, pastor of the First Christian church, performed the ceremony which united these popular young people in the holy bonds of matrimony, in a beautiful and impressive service, after which the congratulations and good wishes of a number of friends present were extended.

Mr. Wood is a son of Mr. and Mrs. T. J. Wood, and was born and reared in this city, where he has a host of friends and admirers. Miss Wiggington is the daughter of Mrs. Julia Wiggington, and a very charming and popular member of Brady social circles.

The Standard joins the many friends in congratulations and best wishes for a long and happy life.

Man Making 800 Mile Journey Driving Goats to Wagon.

The novel sight of four goats drawing a miniature farm wagon occupied by a young man of about 28 years, was witnessed in Brady Saturday, the stranger being named John Rose. He was making an 800 mile trip by this means, having started from Gilmer in northeast Texas on May 1st of this year and was bound for San Angelo. His route took him by way of Houston.

Rose had the misfortune of losing both legs above the knees, but makes up for his incapability by using the above stated method of locomotion. The wagon is a perfect miniature of the ordinary farm wagon, being equipped with bows, brake, seat and all complete. Rose makes his living by selling colored post cards of himself and team, and did a thriving business here. The Sunday daily papers of a week ago contained a photograph and description of him and his novel team.

The post cards contain the following description: "This is the only Four-Spanish Goat Team in the world, pulling 596 pounds, averaging 16 miles per day. These goats are four years old, were raised in East Texas, their average weight being 86 pounds and were trained by John Rose, of Gilmer, Texas, owner and driver. This is the heaviest goat wagon ever built, also the smallest farm wagon using a sheet and bows, costing \$70. The heaviest double set of goat harness ever made, costing \$40. This picture made at Gilmer, Texas, Feb. 14, 1911. Buy a souvenir of the World's Greatest Goat Team, price 10c."

Bargain Days are Not Over

Here are a Few Specials We Offer in Piano Bargains

Some of these pianos have only been used a week, some a month and some only a few years, but they are guaranteed to be in good shape. We are going to sell every used piano on our floor, as we are cleaning out our stock. Remember, it is better to buy a good used piano than it is to buy a cheap new piano.

We can make prices the other concerns can't, and our terms will meet your requirements.

We will ship any piano we handle on trial, prepay the freight, and after you have tried it if you think it a bargain all right; if not we will call for it without one cent of expense to you. Is this fair? Here are a few of the many bargains we have to offer now. Of course we could not guarantee to keep them long at these prices.

A \$350 Emerson piano in fine shape	\$175
A \$325 Davis & Sons piano, case only scratched	\$135
A \$450 Chickering & Sons piano, good shape	\$190
A \$500 Peas piano, ebony case	\$75
A \$400 Kimball in good shape, used a year	\$185

Remember we have more bargains. If you don't find what you want, write us for catalogue and prices. We are factory distributors for the following well known makes of pianos: Weber, Mahlin & Sons, Chickering Bros., Packard, Bush & Lane, Kimball, Leyhe; also the Steinway, Weber, Steck, Wheelock & Stuyvesant pianola pianos.

Star Aggregation Playing the Brady Stars.

The Fort Worth Armour, a crack aggregation of ball players from the Panther City, are lined up with the Brady Stars for three games, the first one yesterday resulting 8 to 1 in favor of the visitors. The Brady boys put up a stiff game, but their opponents played ball like ex-leaguers, and had no difficulty in walking off with the honors. The Brady boys are not at all discouraged, but with a little rubbing up, and as soon as they get onto the ways of the Pantherites, they will give them a run for their money.

The Armour have a record of 15 games won out of 17 played. If you want to see some ball games that are worth while, get out and whoop 'er up for the local team today and tomorrow.

If your neighbor tells you he has bought a splendid bargain, you will know he has bought one of the two surreys we have left. Better see us first.

Quick Repairs.

Brady citizens had no idea how near they were on the approach of a water famine last Saturday and Sunday, and as it was, no one was the wiser and there was no hysterics over the matter. The cause of the threatened catastrophe was the breaking of the pump early Friday morning. Fortunately the standpipe was nearly full, which together with what the wells would supply, was sufficient to carry the citizens through until Sunday. Manager Martin, with twenty minutes to spare, caught the morning train to Ft. Worth, and failing to secure the pump he wanted there, went to Dallas, where he was fortunate enough to find what he wanted just being unloaded from a car. The pump was expressed to Brady, and installed Sunday night, in ample time to keep up the abundant supply of water.

SAN SABA FAIR.

Great Event Takes Place August 8-11.

All San Saba county is concentrating their efforts upon making the annual fair, to be held at San Saba August 8, 9, 10 and 11, a great success. San Saba has the reputation of holding successful fairs, and this year will be no exception. On the contrary they will outclass all previous efforts.

There will be every form of amusement—good races being assured by a large and splendid list of entries; exhibits of horses, cattle, poultry, etc., including many prize winners; also exhibits of farm products, culinary art and fancy work.

The first day's program includes a street parade; the second, confederate veterans and home-coming; the third, farmers' and stockmen's day; the fourth, fraternal day, old fiddler's contest, baby show.

The fair also celebrates the arrival of the first passenger train opening up regular service for San Saba. As such it will be a day of tumultuous joy and happiness.

About "Careless Weed."

In The News several days ago there was an article stating that H. G. Foster, of Addison, this county, near the Collin county line, had exhibited some stalks of cotton which had been ruined by web worms.

J. B. Phelps, who is working a 300-acre farm at Lisbon, five miles south of Dallas, was in The News office Tuesday and said that careless weed (the kind which grows upright) surely must have gone to seed on the land which Mr. Foster now has in cotton. Mr. Phelps said it had been his experience that wherever this weed is allowed to go to seed that cotton planted on the land the following year will be damaged by the web worm. He explained this by saying that the worm bores into the careless weed, dies and leaves eggs which produce the worm the following spring. However, he said that corn and oats will not be injured by this worm.

Mr. Phelps said there was about an acre of land in one of his fields upon which the careless weed was allowed to go to seed last year, the land being planted in cotton this year, and that where the weeds were allowed to go to seed the cotton is ruined, but that all around it the cotton is not the least damaged by the worms. He says

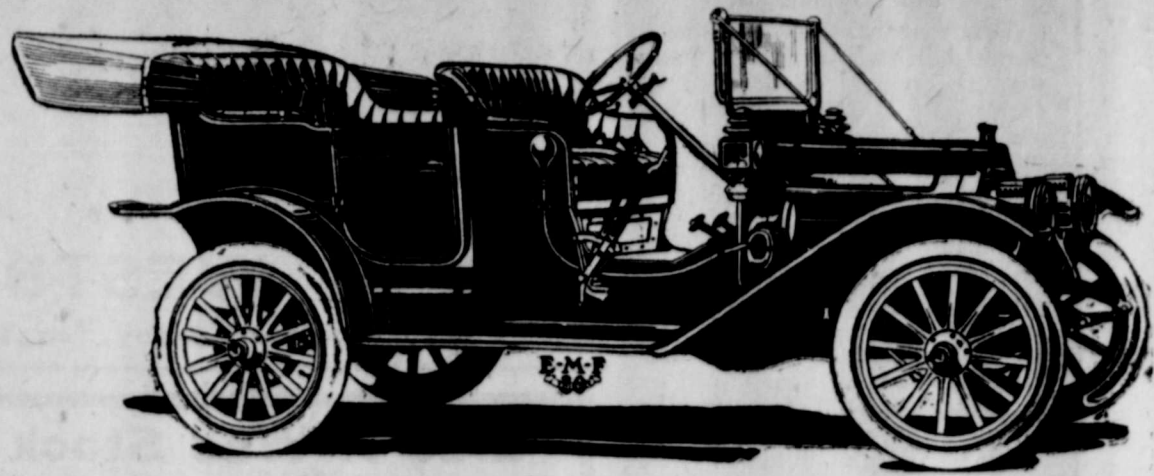

where cotton has been damaged by web worms that in order to get rid of them for following crops it is best to plant some crop other than cotton the following year and then keep the weeds down.—Dallas News.

E-M-F "30"

73,000 Miles! A Record by An E-M-F "30" and Still Running. "Bullet," the Ninth E-M-F "30" Built; Fifteen Years of Service; Two Years of Actual Life.

You are a thoughtful man, about to select a motor car. You're bottling away in your brain an array of questions that must be satisfactorily answered by the representative of the manufacturer whose product you are going to buy. The most important of these questions is this one: How long will it last?

You will experience some trouble, my friend, in securing satisfactory answers to questions that concern the life of a Motor Car.

The lives of some motor cars, handsome and apparently capable, are exceedingly short. The men who sell them are clever enough to the fact as best they can. On the other hand, the salesman who has a car of quality—a car like the E-M-F "30"—is flatly unable to tell you how long this car will live. No E-M-F "30" has ever been worn out, and we can prove it.

But the E-M-F "30" salesman can give you some very interesting information, nevertheless.

He will tell you that the average motorist asks his car for 5,000 miles each year, and that his rate of speed approximates eighteen miles per hour—a fact of which you are probably aware. He will add the engineering axiom that 200 miles at extreme speed causes a car to deteriorate as much as a season of normal use. If you understand mechanics, you will admit this fact.

Then the salesman will tell you that an E-M-F "30" has traveled over 73,000 miles, covering more than half this distance at a rate of from 50 to 70 miles an hour.

To condense into two calendar years the wear and tear incident to 15 seasons in the hands of the average motorist is the singular fortune to which the "Bullet"—E-M-F "30" No. 9—fell heir. A member of the first day's output of the E-M-F Company, "Bullet" became, December 8, 1908, the demonstrator of the E-M-F Atlanta Company. Every day's work included a round trip at speed over the 80 miles between the garage and the home of the Company's manager. Demonstration, pathfinding, pioneer work and racing rounded out the program and "Bullet" knew no rest. The car became the sole medium of the most successful band of cup-hunters in Georgia. The season lasted the year round.

In such conditions, "Bullet's" mileage ascended by leaps and bounds. The first speedometer rolled off its limit—9999.9 miles—and a second speedometer lasted no longer. Then an instrument with a capacity of 100,000 miles was installed. That one now registers more than 53,000 miles. The public was interested in "Bullet," and non-partisan observers checked her mileage so often that there can be no disputing the records. "Bullet's" trophies, won on road, track, hill and speedway, are as eloquent as her speedometers.

"Bullet" will be on view this winter, all around the circuit of the big automobile shows. The E-M-F Company is entering no claim for a mythical car nor making a statement that cannot be proven. It's the same Old "Bullet" that left the factory more than two years ago. The red paint that featured the first consignments of the E-M-F "30" still clings to body, hood, frame and wheels. The same mechanical equipment is still in position. And "Bullet" is ready now, as ever, for the racing body and a

A Former Mercury Girl.

Fannin, Miss., July 15, 1911.

Editor Brady Standard:

If you will be so kind as to grant me a little space in The Standard, I will try to tell the many readers of your paper something of what a Mississippi girl thinks of Texas, with all her greatness, and the people that live within her boundaries that make her great.

My first visit was to Texas in 1909, leaving home on September 30th of that year in company with Mr. H. T. Davis and wife, of Georgetown, Texas, Mr. Davis being an old friend of mine, and deputy sheriff of Williamson county. After two days' travel we arrived all safe and sound in Georgetown, and here I made many acquaintances that I shall remember, and viewed the beautiful scenes around Georgetown that bring pleasant dreams to the artist while he slumbers.

Passing on from this dream-land, I turned my face again to the west, arriving in Brownwood and there meeting my uncle who accompanied me on to his home in Mercury. Yes, Mercury, the little village that rests upon the brow of the mountain, overlooking the great Milburn valley. O! how I long to be an artist or some great poet of old, that I might paint the scenes before my eyes that would bring tears of joy to the weary eye, or pen in verse the thoughts of one who visits their little hamlet, and looks out upon this great valley with all its radiant glory.

After spending a few months in pleasure and sight-seeing in Texas, I was called home on account of my grandmother being very sick. I remained at home for two months, but the good old Lone Star State and the people who make her great had attractions for me that I could not resist, so December 12, 1910, found me back in Texas, and since that date I have visited Brady, the county site of McCulloch county, and while there made the acquaintances of many people. I can't say too many good things about Brady and the Brady people, for it is a model little city, and the citizens are noted both far and near for their hospitality, and again it is surrounded on the four points of the compass with broad, fertile valleys for the farmers, and rolling hills for the cattle, and intersected by two great trunk line railroads. With these advantages, Brady bids fair to be one of the best cities of the sunny west.

Now I do not wish to make my letter long, so I will hasten on with my note and be as brief as possible, and then I can't tell the beginning of what I have witnessed in the golden west. Thursday, the 29th of June last, Mr. T. L. and W. J. Sansom and Mr. J. O. Ware, with their families, and Hon. J. T. Mamilton's family, joined by about twenty young people of Mercury and Placid, found themselves assembled on the banks of the silver Colorado, a few miles northeast of Mercury, there to enjoy a day of recuperation. After spending a day with my Texas friends, a day that shall always be remembered, that will bring happy thoughts to my mind and sweet dreams to my memory, the time came for us to return to our homes, and for me to say goodbye to my Texas friends, as July 2nd was the day for me to begin my homeward journey, yes, back to the "old home," the place of my birth; to see mamma, papa, brothers and sisters.

But I must say to you Texas people and friends, that you have a land of sunshine and flowers, and I thank you one and all for the kindness shown me while in Texas. Will again say goodbye, assuring you that the latch string to the door is on the outside at all times, and if any of you people, "Texans," chance

to stray this way, I bid you welcome.

Messrs. Chas. Bierschwale, Wm. Hofmann, and A. N. Mour-sund of the local railroad committee, and Kurt Martin visited Brady last Thursday and secured additional options on right-of-way. One piece of property, however, will have to go through the courts, as it belongs to minor heirs. They found the Frisco surveyors at work running their lines, and they will likely reach Mason within the next week or ten days.

BRADY, TEXAS, July 21, 1911

A DRAWING CARD.

Did you ever stop to think, or realize, what an almost inconceivable amount of railroad building is being done right in the immediate Brady territory? Think what it would mean if the Frisco and the Santa Fe were to extend and improve their great system in every section of the country that their lines traverse as they have and are doing here. What an inconceivable amount of money would be expended—what wonders would be accomplished.

The Frisco expended a world of money extending its line to Menard; now it has taken up the extension from Brownwood to May, and as soon as that is completed, the extension to Mason, and possibly on to San Antonio will be taken up, and if so it means that Brady will be on the main line of the Frisco from St. Louis to the Gulf.

The Santa Fe is rapidly completing its extension from Lometa through Brady and on to Eden, and like the Frisco they are building a main line. The Santa Fe is also supposed to be back of the proposed road from Coleman through Brady, which means that sooner or later they will effect entrance into Brady from the north. And the H. & T. C. is looking this way from Llano.

Every move by these great systems has back of it a meaning—a purpose. Why should all this activity in railroad building in this immediate section prevail, if the officials did not foresee great things for this country? It is prima facie evidence that Brady is a strategic point in railroad circles, and as such, Brady is rapidly coming into her own.

Attend the great Union meeting in Brady.

The number of watermelons received at this office up to date has been just 00,000.

Elephant pressed purses have been relegated to the ash barrels since the rains of last week.

The darkest hour is just before the dawn; which is just a prelude to saying "the rains have come."

When it comes to the show down, Brady never lacks for anything—and just now we have an abundant supply of water. Come to Brady for your annual bath.

There is always something doing in the way of attractions in Brady—we intersperse the monotony of vaudeville shows and stock companies with Decoration day doings, Fourth of July celebrations, summer normal, and now present the greatest of them all—a union revival meeting. Bring the folks to Brady.

The Standard is in receipt of the announcement that the San Saba Herald is soon to make its debut into newspaper circles, with J. K. Rector, Jr., editor and W. D. Cowan, publisher. With three newspapers to exploit her advantages and resources, San Saba ought not to lack for publicity. We extend fraternal greetings to the Herald and trust success and renown may be its reward.

Opening Announcement

To the Business Men of Brady:
And to Our Subscribers and Friends in General:

THE STANDARD EDITOR has "bought" and contracted for this space each week for the purpose of advertising his business and his views.

Each advertisement will contain information of value to every careful, thinking reader. They will cover every phase of the newspaper business, and the art of advertising in particular. Some new lines of thought will be introduced, that have been tried and found a success.

Read these advertisements carefully—it will take but a minute—and they may set you to thinking.

"The Editor."

SUMMER NORMAL.

Brady's Summer Normal closed with the final examinations on last Friday. That it was a success is attested by the outspoken words of praise from the attendants themselves, who must be admittedly the best judges. In fact, one of the ladies in attendance gave it as her opinion that it was better than any she had ever attended, and that included normals held in Fort Worth and other large cities.

We take pride in the success of the Normal, for it is an added feather in Brady's cap; it is assurance that Brady did her part well—that we will stand in high favor next year when it comes time to decide where the Normal for that year shall be held. To the Normal students we would say, we are glad you came; glad we had your cooperation in making the Normal the success it was, and we hope to have you with us again another year.

CHILDREN WRITE.

Our Lost Creek correspondent recently suggested that we devote a column or two to the children and encourage them to write. Nothing could be suggested that could meet more readily with our approval, and we are only too glad to give as much space as we possibly can to the writings of the little folks. The Brady Standard is for all the people of McCulloch county, for the little folks as well as the big folks, and we feel sure every one of our readers will find special interest in what the little folks may have to say. Now who will be the first girl or boy to respond? Address your letters to the Editor of the Brady Standard—we'll do the rest.

The latest luxury—Irish potatoes.

Good rains in McCulloch county, and 5¢ watermelons soon to be in style.

The Lampasas Blade last week issued something out of the ordinary in the way of special editions, being a nicely illustrated write-up of Lampasas, its resources, businesses, industries, attractions and citizenship, gotten up in magazine form. The work showed commendable enterprise on the part of M. D. Townley, the editor of the Blade.

SAYS IT PAYS.

John B. Westbrook, the Watkins man, was in Saturday to tell us what good work The Standard was doing for him in the way of advertising. Mr. Westbrook says wherever he goes in McCulloch county he finds the people already acquainted with him and his business by reason of having seen his ad in The Standard, and he says the man that does not take The Standard is the exception.

What is more, Mr. J. W. Townsend, at whose store Mr. Westbrook makes his headquarters, reports people calling there for the remedies whom he has never seen and who have never been in his store before. He ascribes this to the result of Standard advertising.

MORAL—As a force for PULLING BUSINESS The Standard is THE MAGNET.

Very often the only reward of the muck raker is the slime his efforts leave on his own hands.

As we before remarked, the dry weather has put the quietus on some several millions of boll worms, so now let cotton grow.

The Standard has been named the official paper for the City of Brady, so if we tell anything on the city dads, its so.

The Alcalde Chronicle is an interesting little publication at Rusk issued by prisoner Jake McKinney. The Chronicle always has something good contained in its columns, for the prisoners of for outsiders alike. It receives no support from the State and depends solely upon its subscription receipts for its maintenance. Prisoner McKinney announces that he desires to enlarge and improve the plant, and to this end he requests all persons who may be interested in the success of the paper or in the benefit it may be to young men in the outside world to send him 50¢ for a year's subscription, for which you have, in advance, his thanks.

SOME "COME BACKS."

Don't Blame Us.

Brady at least has the best of Menard in two things; it has a postal savings bank and D. Doole, Jr. Beat it if you can.—Brady Standard.

Menard people don't want a savings bank. We spend our money "as it were a dry leaf and we the owners of an unbounded forest." Of course Brady folks have to save for months, a few cents at a time, to have \$10 ready to pay a doctor in case of sickness, and the savings bank is a good thing for them. As to D. Doole, Jr., we don't want him. Johnson Grass and Republicans are a drawback to any country in the world.—Menard Messenger.

We quote our own D. Doole, Jr., in reply to the above, thusly: "Johnson grass and republicans have proven themselves of benefit in every community, but if booze and burro-brained editors have ever shown themselves to be of benefit, we fail to note it in Menard's example."

An invitation saturated with attar of roses and signed by thirty-one of San Saba's sweetest and most lovable young ladies, has been received by us. We accept and will attend the big fair August 8-11. Harry Schwenker, the old-maid quill-driver of The Brady Standard is not in a position to realize the joy and bliss that an invitation like ours causes.—Rochelle Record.

We've heard of Americanitis, appendicitis and peritonitis, but never before have we heard of Adkinitis. A new disease, no doubt something near to "heart-leaks." We wonder if Herbert will prove a competent doctor.

A Los Angeles man is advertising for an ugly wife. We are surprised that Callan hasn't suggested he try Brady.—Mason News.

Faith, and how can he, and be consistent. Didn't he tell us that Brady girls became more beautiful every day during their stay in Menard.

Brady is still on a boom. The number of vacant houses there increases daily.—Menard Messenger.

But as fast as the carpenters can nail on the shingles and hang the doors, they are being occupied by the newly married folks, the newcomers and the ex-residents of Magnificent Menard.

Brady always looks her best when visitors come around.

Be it understood that "spuds" are no small potatoes in one sense of the word.

The ladies of the Brady voting precinct are to serve dinner free to pro and anti alike on Saturday, which shows that their hearts are in the right place, and that they believe in the saying that the best route to a man's heart is through his stomach. Without any intention to disparage the efforts of our silver-tongued orators, we are of the opinion that the ladies have more influence over the voter and make more votes for their cause by their methods than all the oratorical flights of our speakers, and all the hot headed arguments of the bench-warmers.

Texas Baptist Encampment.

The Texas Baptist women have arranged three days' program for the encampment July 26, 27 and 28. It is to be the greatest thing ever attempted at the encampment, but Texas Baptist women can do it.

The Lampasas Baptist ladies will furnish B. W. M. W. headquarters in two tents, one to be used as a rest room, one as a committee room and bureau of information for women.

The Texas Central district will hold their annual business meeting on Wednesday, July 26, from 9 to 12 a. m. Let every society in the district be represented, as there is business of great importance before us.

The second day will be the

Texas Baptist Women's Jubilee Day. The State President, Mrs. T. S. Davis, will preside. A great treat is in store for us, an address by Mrs. W. Eugene Sallee of China; also many of the leading women of Texas will make addresses. The third day will be full of conferences on methods of work in the various organizations. Aside from the splendid program furnished by the great leaders of the denomination, to the men and women news comes from Lampasas that the open air swimming pool 90x120 feet, elegantly enclosed, with dressing booths and lockers, has been completed and the enchanted spot, so delightful to all visitors in the past, will hardly be recognized on account of the many improvements.

EULOGY ON YOAKUM

"CAPTAINS OF WAR AND PEACE."

Wall Street Journal Comments on Achievements of Man Risen to First Ranks.

In modern railroading a very high order of executive and constructive ability is required, an ability closely approaching in the arts of peace the genius that the great military captains have exemplified in the arts of war.

Among the great railroad captains of these times it is generally conceded that at least two native Texans have risen to the first rank in a comparatively short time—namely, Robert S. Lovett, present head of the Harriman lines, and B. F. Yoakum, president of the Frisco system.

It is no derogation to the many able and alert railroad men in Texas to say that the following summary in the Wall Street Journal of Col. Yoakum's far-seeing policy for the promotion of his own railroad interests and the advancement of the service in the Southwest shows railroading genius of the very highest order. All the other railroad men and all the people like this splendid, hustling Texan immensely, and we hardly think any reader of the Star-Telegram will have any complaint against us for reproducing this mention of his roads in full. So here it is:

"The Frisco-Atchison traffic agreement goes into effect coincident with the commencement of operation of the Texico-Coleman branch of the Atchison. This branch is practically completed. The new relations of the Frisco with both Atchison and Missouri Pacific, or rather Iron Mountain and Texas & Pacific, are calculated to begin with July 1, 1911. These accomplish the rounding out of the Frisco system without the necessity of a dollar of new construction or new financing. To make the Frisco's complete system, there remains only about 200 miles of construction from Brady, Texas, to San Antonio to connect with the New Orleans, Texas & Mexico division near Sinton, Texas. Surveys of that line have been made and the cost calculated. The immediate necessity of such construction, of course, is obviated by the Houston-Texas Central traffic agreement. That such connection will be made is only question of time and more favorable opportunity for new construction. When the Brady-San Antonio line has been built, Frisco, over its own lines and the National Railways of Mexico, will have through routes from Chicago, St. Louis and Kansas City, direct to Mexico City. On Frisco's eastern boundary the Chicago & Eastern Illinois from Chicago to St. Louis, the river and Cape division from St. Louis to Memphis, the Iron Mountain and Texas & Pacific to Baton Rouge and the New Orleans, Texas & Mexico to New Orleans serve the Mississippi valley close to the west bank of the Mississippi below St. Louis. The New Orleans, Texas & Mexico skirts the Gulf of Mexico to Brownsville, while traffic arrangements with the National Railways of Mexico and the bridge to Matamoros complete the through route from New Orleans to Mexico City. Frisco's main divisions, serving Missouri, Eastern Kansas, Oklahoma, Northwestern Arkansas and Central Texas at present connect with the New Orleans, Texas & Mexico via the Houston and Texas Central. The remaining problem of Pacific coast outlet for New Orleans, Memphis, Birm-

ingham and St. Louis has been solved by the traffic agreement with the Atchison. New Orleans, Texas & Mexico division gets its Pacific coast outlet via the Gulf, Colorado & Santa Fe from Houston over the Coleman-Texico branch to the main line of the Atchison. Dallas Fort Worth and other Northern and Central Texas points along the Fort Worth & Rio Grande division of the Frisco tap the Atchison further south at Brownwood. The Frisco lines from Memphis, Birmingham and St. Louis via Springfield, Tulsa and Avard thence west via the Atchison will be the shortest and most direct route from those points to the Pacific coast. The agreement has little to do with Chicago and Kansas City traffic to the coast, as the Atchison's main line covers these points. Through passenger service from Birmingham, Memphis, and St. Louis to the coast will be inaugurated via Avard, and through service from New Orleans via Houston and Texico is being planned."

Here is a complicated network of track and traffic arrangements covering a large part of the Trans-Mississippi country and showing that the man who mapped it out not only had to have high ability, but he had to do many months, even years' hard, strenuous head work to round it out as here appears.

It also shows that those political extremists who want each separate line to stand apart and fight every other line are mistaken, perhaps honestly so, but mistaken just the same; for any unprejudiced citizen can analyze this summing up of the Frisco's expansion in connection with other roads and see that it is bound to be a benefit to various sections and will no doubt lead to the construction of a long needed line in Western Texas through some of the best country in the state, as the New York writer points out.—Fort Worth Star-Telegram.

Escaped With His Life.

"Twenty-one years ago I faced an awful death," writes H. B. Martin, Fort Harrison, S. C. "Doctors said I had consumption and the dreadful cough I had looked like it, sure enough. I tried everything I could hear of for my cough, and was under the treatment of the best doctor in Georgetown, S. C. for a year, but could get no relief. A friend advised me to try Dr. King's New Discovery. I feel that I owe my life to this great throat and lung cure." It is positively guaranteed for coughs, colds, and all bronchial affections. 50c and \$1.00. Trial bottle free at Jones Drug Co.

New Postal Law.

For the first time in the history of the postal service, senders of registered packages will hence forth be indemnified for the loss of any registered package sent through the mails up to the value of \$25. The new order was announced by Postmaster General Hitchcock on June 17th last, following the necessary acts passed by Congress. Registered mail is rarely ever lost except in case of highway or train robbery, and that risk is now covered by the government's guarantee of indemnity.

When in the market for anything in J. F. Schaege's line, such as Harness, Saddles, Boots and Gloves, see what your money will do.

Throw away those partial plates and let Dr. Lindley replace them with bridge work at \$5.00 per tooth.

Ladies' ready to wear garments at less than cost at Waters' Sale.

File Reports Monthly.

The Attorney General's department has given out a ruling that all county officers who are required to file reports of moneys collected on fines, judgments, etc., with the commissioners court will have to do so monthly where the courts hold monthly regular sessions. The law requires the reports to be filed with each regular term of the court and if the courts hold monthly terms then the reports must be filed monthly.

CRISIS IN AFFAIRS OF TEXAS VITALLY INVOLVES ITS WELFARE

The Weapon of Religious Terrorism, Ostracism and Outlawry Has Been Brought Into Use to Force Statewide Prohibition Upon the People of this Great State.

To the People of Texas:

It is the conviction of the signers of this address that the present prohibition campaign has produced a crisis in the affairs of this State that vitally involves its welfare, and that would arouse the concern of every man that cherishes a regard for its political integrity and the peace and happiness of its people. We believe it to be a public duty to invite your calm judgment to a consideration of its merits and invoke your sturdy resolution to resistance of its disastrous consequences.

At the outset of the campaign it was a common belief that the prohibition movement involved only an effort upon the part of its advocates to bring about the prohibition of the sale of intoxicants in Texas by means of a constitutional amendment. Good faith and patriotic purpose were conceded to those who believed in the virtue of this method of dealing with the question and who were proposing it for incorporation into our organic laws; and all men found encouragement in the hope that in order for a fair decision to be reached on the merits of the question this untrammelled issue would be squarely presented to the people and that it would be definitely settled in accordance with their sovereign will.

The progress of the campaign of the prohibitionists for the past few weeks, however, has revealed that this is no longer the issue that is presented and that the proscription of the sale of intoxicants is but an incidental part of their purpose in the contest.

With an intolerance breathing the fanatical spirit of the middle ages and an abandon that marks a desperate cause, they have denounced every man who does not supinely subscribe to their theory of the question—however opposed he might be to the saloon and the liquor traffic and however splendid a record of patriotism and devotion to the moral welfare of the State his life might present—as belonging to "the saloon crowd" or as a member of "a corrupt whisky ring."

Emboldened by their own license and not content with having flaunted this insult in the faces of thousands of as good and true men as live in any commonwealth, they have openly proclaimed in effect that should they prevail in the contest there will be inaugurated against all men who do not agree with them an era of political proscription as bitter as the draught of the cup that in a cruel time of angry passions was pressed to the lips of the Southern people.

Has their ruthless career paused with these bold advances? Individuals who have stood aloof from the strife of the campaign might still have been willing to maintain their silence in the hope that this denunciation and this threat would pass with the fever of the con-

test and in the conviction that the sober thought of the people might be safely trusted as a bulwark against such appeals.

It is manifest, however, that in the passing hours of the contest their purpose to employ the final weapon of fanaticism and with it cow into submission enough votes to insure the success of their program—the weapon of religious terrorism, ostracism and outlawry. Already has that battle cry been given by some of their leaders, and it is today sounding down their line. Already in peaceful communities has the ban of the religious outcast been put on humble and devoted citizens who dare to own an honest conviction that Statewide prohibition is not the wise or true method to settle this question. And already it is manifested that their purpose is not merely to make this a moral or political question as they have heretofore proposed, but to make it a religious question as well.

We therefore declare that the issue they now tender to the people of Texas has passed beyond the mere prohibition question. It is the issue of religious and political liberty that now confronts us. The election of July 22 is not to determine alone the prohibition question. It must decide whether a tyranny of opinion shall be established in this State, and whether our peace shall be surrendered to the political program these gentlemen threaten to inaugurate.

We sound no doctrine of alarm when we say that the time has come in this campaign for the patriotic citizenship of Texas who have a concern for her happiness as a people and for her glory as a commonwealth, to lock their shields in a stern and unbroken front against this spirit that would dedicate her solely to bitter and relentless political warfare for the years to come.

Let every man vote a free man's conviction upon this question, for the amendment if he believes in its wisdom, or against it if he be opposed to it. But let no man be swerved from a free man's duty to cast a true vote; and let every man see that every other man has the same opportunity in the face of anathema from the pulpit or elsewhere. It is as important that this election should be free from coercion as from corruption. Let every ballot be free from the stain of both.

City Council.

The city council met Tuesday all members present except Alderman Baze, who is out of the city.

After the reading and approval of the minutes of previous meeting, the bids for city depositary for the year ending July 31, 1912, were opened and considered and it was found that the bid of the Commercial National bank was the highest and best bid and action was taken accordingly. The city will receive interest on their daily balances at the rate of 6 1/2 per cent per annum and will pay interest on overdrafts at the rate of 8 per cent per annum.

The Brady Standard was awarded the city printing for the coming year at a rate of 2c per single column line.

The City Secretary was instructed to transfer the sum of \$295 from the street fund to the general fund.

After considerable discussion of the status of the water bond issue it was decided that the Mayor should wire the attorney general's department and learn what had been done in the matter of the approval of the issue.

City Marshal Paul Sheridan was granted a ten days' leave of absence.

At this juncture the matter of the city's contract with the county in the removal of the old bridge to the crossing near the creamery was taken up and discussed at some length by the different members of the council and a few visitors who were present. It was finally decided that the council should employ Judge F. M. Newman to look into the matter, present it to the attorney general for a ruling as paying their part of the contract price of the bridge and proceed with the collection of the claim.

Appreciating the services rendered the city on several different occasions, the Secretary was instructed to draft a resolution of thanks to Mr. R. C. Brewster and also to Mr. F. G. Pettibone and the Santa Fe Ry. Co.

MRS. LARAMORE TELLS TROUBLES

Lady in Goodwater Describes Her Distressing Experience and Tells How She Was Finally Relieved.

Goodwater, Mo.—"Ever since I was a little girl," says Mrs. Riley Laramore, "I was a great sufferer from dyspepsia. I suffered misery after eating, and had terrible heartburn.

I thought I had to suffer this way as long as I lived, but when I began to take Theodor's Black-Draught, in small doses, every night, the heartburn was all gone in a few days, and I could eat without distress.

I took two small packages in all, and although that was some time ago, the dyspepsia has not returned.

I speak a good word for Theodor's Black-Draught whenever I have the opportunity."

If eating causes distress, we urge you to try Theodor's Black-Draught. It cleanses the system, helps the stomach to digest its food, regulates the bowels, and stimulates the liver.

It acts gently and is without bad after-effects. Try it. Price 25c.

Among the strongest supporters of Dr. Caldwell's Syrup Pepsin are Mr. W. G. Zorn of New Decatur, Ala. and Mr. George S. Spaulding of the National Soldiers' Home, Kansas, both elderly men. The regular size bottles can be bought of any druggist at fifty cents and one dollar, but a free sample bottle can be had by sending your address to the doctor.

Dr. Caldwell does not feel that the purchase of his remedy ends his obligation. He has specialized in stomach, liver and bowel diseases for over forty years and will be pleased to give the reader any advice on the subject free of charge. All are welcome to write him. Whether for the medical advice or the free sample address him Dr. W. B. Caldwell, 205 Caldwell building, Monticello, Ill.

One of the most remarkable proofs of the unusual laxative merit contained in Dr. Caldwell's Syrup Pepsin is that it is effective not only in people in the prime of life, but at the extremes of ages. As many letters are received from mothers regarding the cures of children, as from men and women of sixty, seventy and eighty years of age. It must be truly a wonderful laxative.

In the cure of constipation and bowel trouble in old people it has no equal. It corrects the constipation, dispels the headache, biliousness, gas, drowsiness after eating, etc. People advancing in years should see to it that their bowels move freely, and if they do not, take Dr. Caldwell's Syrup Pepsin. You can prolong your life by healthy bowel action. Clogged bowels invite disease. Women about to pass the menstrual period cannot do better than use Syrup Pepsin several

times a week until the system has settled to its future condition.

NOTICE

After ten years' experience in the practice of medicine and surgery and one year's recent study in one of the largest hospitals in the U. S., I have decided to confine my practice principally to the treatment of

CHRONIC DISEASES, RECTAL DISEASES AND PRIVATE DISEASES OF MEN

WHY? First, because of the study I have made, and the wonderful success I have met with in the treatment of these diseases. Second, since locating here, nine-tenths of those unfortunate enough to contract blood poison and other diseases of this character owe their final cure to me, after others have tried and failed.

I have made Special Study and preparation for this work, and have the most modern office equipment for scientific treatment that money can buy.

It is a well-known fact among scientific surgeons, that many diseases can be cured by late scientific methods that were formerly supposed to be incurable, or cases for the knife.

TERMS:—Consultation free. No pay until cured. All cases treated in the strictest confidence.....

Pasteurized Ice Cream.

This is an age when very few druggists, or other dispensers of ice cream, depending altogether upon the creameries for their products. This has made an increasing demand upon ice cream makers for their products.

People should be careful and know as to what cream they are eating. The Alta Vista Creamery a strictly pure, high-grade of cream; has a firm, but velvet finish, making a cream desirable at all times. Sweet and pure—no condensed milk used in the manufacture of this cream.

HIDDEN DANGERS

Nature Gives Timely Warnings That No Brady Citizen Can Afford to Ignore.

DANGER SIGNAL NO. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

DANGER SIGNAL NO. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the approach of dropsy, gravel and Bright's disease. Doan's Kidney Pills help kidneys. Here is proof in the statement of a nearby resident.

Joseph Taft, proprietor of Rock Hotel, Goldwaite, Texas, says: "For two years I was subject to attacks of backache that came on suddenly, especially when I stooped. Learning of Doan's Kidney Pills, I procured a supply and after using them a short time I was relieved. I have had no return attack of the trouble for several months and in view of my experience, I can say that Doan's Kidney Pills live up to representations."

WALDRIP WARBLINGS.

Waldrip, Texas, July 14
Editor Brady Standard:

No rain yet! But we are not
getting blue and talking about
leaving our beloved country, are
we. Crops look splendid consid-
ering the dry weather.

G. E. Metts and wife return-
ed Wednesday.

W. H. Ramsey and family and
a few friends went fishing last
Thursday night and report a
great time.

Mrs. Ledderer has been on
the sick list but is better now.

Mr. John Ramsey of Mississ-

Dr. Powell and E. E. Hill
made a flying trip to Brady
Monday.

(Later) July 17th.—We had
a light shower Sunday and
heavy rains are reported every
where else. The river is on a
big rise and a large number of
fish are being caught.

A large crowd gathered at the
bridge Monday morning to see
the bridge rafts turned loose
and sent to Bluffton, Texas.

The Prohibition Rally was a
glorious success. Never before
has Waldrip seen such a crowd
gathered together, and for the
grandest cause on earth, "Pro-
hibition." The crowd was, es-
timated at eight hundred people,
and it is needless to say they
enjoyed themselves. A nice pro-
gram of prohibition songs and
recitations was rendered, which
was nothing to compare with
the splendid speeches by Hon.
O. E. Carter, Judge Newman,
Thos. Bell and others. There
was dinner for everybody and
all enjoyed it too. The table
committee managed everything
very nicely, and not one was
sighted. A ball game in the
afternoon between Rockwood
and Hardin was an interesting
feature, and all too soon the day
was over.

Mr. and Mrs. Ware of Mer-
cury, are visiting friends and

Mrs. Nora Andrews of Ohio,
Texas, has been visiting her

There is more Catarrh in this section of the country
than all other diseases put together, and until the last
few years was supposed to be incurable. For a great
many years doctors pronounced it a local disease and
prescribed local remedies, and by constantly failing
to cure with local treatment, pronounced it incurable.
Science has proven Catarrh to be a constitutional dis-
ease, and therefore requires constitutional treatment.
Hall's Catarrh Cure, manufactured by F. J. Cheney
& Co., Toledo, Ohio, is the only Constitutional cure on
the market. It is taken internally in doses from 10
drops to a teaspoonful. It acts directly on the blood
and mucous surfaces of the system. They offer one
hundred dollars for any case it fails to cure. Send
for circulars and testimonials.

DRY HOLLOW NEWS.

Mercury, Texas, July 14.
Editor Brady Standard:

As I never see any news from
this community in the dear old
Standard, will try to write a
few lines.

We are needing a good rain;
had a few light showers last
week, but not enough to benefit
crops much.

We had preaching at Cow
Boy Sunday and a good many
attended. There was also
preaching at Placid and a good
many went from this neighbor-
hood.

Buster Harrison, of near
Lohn, visited at Mr. Shaw's
Sunday.

Fred Cantrell and wife spent
Saturday night and Sunday
with his wife's parents, Mr. and
Mrs. John May.

Mr. Fry and family spent a
few days on the Colorado river
not long ago, and report a nice
time and plenty of fish to eat
while there.

Some few people are having
to haul water, as their tanks are
getting low.

We are having right smart of
sickness around; one of Mr.
Treadway's children is real sick,
also Mr. Shaw's daughter,
Gracie, is sick. We hope for
their speedy recovery.

Well, garden truck is about
played out, and roasting ears
too, so guess we will have to
make out with fried chicken.

Cotton in this vicinity looks
very well, that is what's up.
Some has not come up yet but it
will come up as soon as it rains.

Several farmers are planting
more maize.

I will close with best wishes
to The Standard and its many
readers.

LOHN PICKUPS.

Lohn, Texas, July 17.

Editor Brady Standard:

The rain came at last and it
was welcomed by all. Some say
they are sure for a fourth of a
bale to the acre around here.
When it comes to raising cotton
old Lohn valley is hard to beat.

The singing here last Sunday
afternoon was well attended
and we had some good singing
if our Lohn champion singer
was absent.

The Baptist meeting begins
here next Friday night. Let's
all get ready and attend and
make it a grand revival.

Mr. Willie Hanes and Mr.
Frank Williams were seen driv-
ing towards Brady last Sunday.

Miss Emma Tetens spent the
night with Miss Pearl Bissett
last Friday.

Mr. and Mrs. Tom Shaver, of
Eden, are visiting relatives here
this week. They report crops
fine around Eden.

Miss Anna Lee Dillard was a
welcome visitor at the Brown-
ing home last Friday.

Well, as I have told all that is
worth telling I will have to cut
this short this week. I am cer-
tain there will be more writers
from Lohn next week, and what
I don't tell I guess they will.

ONION GAP ITEMS.

Onion Gap, Texas, July 15.
Editor Brady Standard:
The people are now all very
busy cutting and shocking
grain, and can see no prospect
for rain yet in this part of the
country.

Mr. B. F. Harrison and Sam
Crider began digging a well for
Mr. Charles Bratton Wednes-
day.

Mr. Charlie Sallee is on a visit
to the Sand this week.

Misses Beulah Morris, Katie
Crider, Myrtle Clary and Gladys
Morris visited their friends,
Misses Ola and Zola Anderson
Sunday.

Miss Pearl Bell visited
friends in Prairie View Sunday.

Miss Mamie Harrison, Mrs.
Sam Crider and daughter, Miss
Hattie, left Thursday to visit
friends and relatives in Kerr-
ville.

Mr. Brown and Mr. Bentley
and son, Ainsley, went fishing on
the Colorado this week, and
Mr. Brown said he was going to
bring back a fish that weighed
500 pounds, but suppose he
meant five pounds.

A lively crowd of young folks
from the Gap, enjoyed them-
selves at the ball game at Rochelle
Saturday.

Best wishes to The Standard.

WHITELAND ROUNDUPS.

Whiteland, Texas, July 16.
Editor Brady Standard:

Well as it has been two
weeks since I last ventured in,
will come again to let you all
know that it is still dry and hot,
and we are still needing rain.

The dance at Whiteland was a
good one. All report a jolly
good time.

Some of the Whiteland people
attended singing at Melvin Sun-
day afternoon.

D. L. Rambo and family of
near Brady, visited their
parents, W. T. Rambo and wife,
of near Whiteland, Sunday.

We are glad to hear of Vance

Mitchell being able to be up and
out again.

W. T. Rambo and R. A.
Eubanks made a flying trip to
Brady Friday, returning Satur-
day.

Most all of the farmers are
cutting and putting up their
feed stuff.

Henry Rogers and family are
visiting at Salt Gap.

Joe Kiser, who has been visit-
ing at Whiteland for the past
few days, has returned to his
home at Pontotoc.

Good luck to The Standard
and its many readers.

What She Could Draw.

Pat and his little brown mare
were familiar sights to the peo-
ple of the town of Garry, says
the Housekeeper. The mare was
lean, blind and lame, but by
 dint of much coaxing Pat kept
her to the harness. One day,
while leading her to water, he
had to pass a corner where a
crowd of would-be sports had
congregated. Thinking to have
some amusement at Pat's ex-
pense, one called out:

"Hello, there Pat! I'm looking
for the real goods. How much
is that mare of yours able to
draw?"

"Begorra," said Pat. "I can't
say exactly, but she seems to be
able to draw the attention of
ivery fool in town."

COMMERCIAL CORNER
By the Secretary.

In our last issue we promised to give date for the Reunion of the Confederates, the Santa Fe celebration and the county fair. When we speak of the Santa Fe celebration, we mean when the regular schedule service will begin. I have just received the following letter:

Galveston, July 11, 1911.
Mr. D. R. Hardison, Secretary
Brady Commercial Club,
Brady, Texas.

Dear Sir:—I have your letter of the 5th July. It is now anticipated that our first train will run into Brady on or about September 14th, 1911.

Yours truly,
F. G. Pettibone,
2nd Vice-Pres. and Gen. Mgr.
So we will celebrate all these events in one big show.

Crop conditions are getting much brighter all over the state. There are some points where the rain has not reached as yet, but the greater part of the drouth has been broken. Notwithstanding the very long dry summer, the shipment of fruit and garden truck from East Texas during the season has been one of the heaviest in years, according to reports from that section. From the Jacksonville district alone, fourteen hundred car loads of tomatoes have been shipped since the season first opened in the spring. This is a big thing for the people there. McCulloch county with some expense for water supply, could become an exporter instead of an importer of this very popular table product.

One of the wisest laws enacted by the 32nd Legislature was the one which authorizes the Commissioners court of any county in the state to make appropriation not to exceed one thousand dollars to be used in farm demonstration and experimental work. This is a good law and will very materially increase the interest and activities of farming interests.

There are some prospectors here from one of the counties in Texas where they have good roads from the bond issue method. They say that they will not buy land outside the district. By purchasing inside the limit of the good road district they understand that there will be a special tax to pay for the bonds, but they say that the land will increase in value at least 25 per cent, besides having respectable roads. This is good advertising for the good roads proposition.

WEST SIDE SQUARE  NOBLE BROTHERS COMPANY BRADY, TEXAS.

ARE YOU IN LINE FOR A NEW BUGGY OR HACK? IF NOT, GET IN LINE

We keep the best to be had at a "let live" price, with terms as broad as anybody. Don't be fooled by the slick tongued peddler. Remember he is paid to skin you and the more he skins you, the more he is paid. (Note that most peddlers are imported.) You pay from \$10 to \$40 more for a buggy from a peddler, owing to how easy you are to sell. Do some figuring for yourself: A peddler must pay expenses of a team and himself, also a salary for himself and a profit to the factory. He spends no less than \$30 every time he sells a buggy and the man who buys the buggy pays it. The buggy peddling business reminds one of the balmy days in the sewing machine business when the peddler charged \$65.00 for a machine that can now be bought in any store for \$30.00. We are not attacking the quality of the machine or buggies, but we do say that there is not a peddler on earth who can compete with us. We put the goods in Brady in car lots, at manufacturer's cost, our men, when not actually engaged in selling buggies, are busy at something else, thereby not wasting time. We have no expense of idle teams and idle men laying around town waiting for a sale to show up once a week. Can a farmer stay in town and go out and plow once a week and make a living. Not much; not unless he has some "catch the sucker" plan of selling his cotton for a dollar a pound. Figure it for yourself.

Dialect Stories.

The day before she was to be married the old negro servant went to her mistress and entrusted her savings in her keeping, so the story goes. "Why should I keep it, I thought you were going to get married," said her mistress. "So I is, Missus, but do you s'pose I would keep all dis money in de house wid dat strange nigger?"—Big Springs Herald.

Which is a Companion piece to the one that details the story of a colored courtship by telephone. "Is dat Ca'line Jackson?" asked a masculine voice at the far end of the phone. "Yes, dis am her," was the response. "Well, Ca'line, will you ma'ry me 'bout nex' Saddyday night?" "Cose I will," returned the courted one, "if I could get my weddin' dress ready. Who is you?"—Dallas News.

In 1794 the American cotton crop was only one per cent of the world's production, the East Indies furnishing 70 per cent, the Mediterranean countries 20 per cent and Brazil 8 per cent. In 1910 the United States produced 59.9 per cent and British India 18.3 per cent. The American crop promises to exceed 15,000,000 bales this year and this increase in production of cotton is not likely to be equalled in foreign countries.—San Antonio Express.

An exchange relates that a fashionable dressed young woman entered the postoffice in a Western city, hesitated a moment and stepped up to the stamp window. The clerk looked up expectantly and she asked, "Do you sell stamps here?" The clerk politely answered, "Yes." "I would like to see some, please," was the unusual request. The clerk dazedly handed out a large sheet of the 2c variety, which the young woman carefully examined. Pointing to one near the center she said, "I will take this one, please."
