A GOOD SHOWER FELL WEDNESDAY

A good shower visited Brady Wednesday morning, beginning about 6:00 o'clock and continuing for an hour or more, during which time a total precipitation of .4 of an inch was recorded. Following the rain the sun came out brightly although the day remained calm. The humidity of the afternoon and clouds on the horizon gave hopes for more rain, but the west wind that prevailed yesterday dissipated any present hopes.

While the rain was comparatively light in Brady, it was much better in various parts of the county and surroundings. At Mason two showers were reported, although both were light. At Voca a splendid rain was had, and several large tanks were partly filled. This side of Rochelle the rain was light, although it was good at Rochelle, and beyond that place towards Brownwood it was somewhat heavier. North of town it was rather light, in spots only laying the dust. At Waldrip about the same amount of rain was had as at Brady.

The best rain is reported from the Lohn community, where tanks were filled and where the rain is variously estimated at from one and one-half to two and one-half inches. Five reports a similarly good rain, and in the Melvin community a fine rain is also reported. The gain

also extended as far as Concho, Coleman, Runnels and Tom Green counties.

There is said to be quite a good acreage of oats and barley that will be benefited by the rain, as well as cotton and corn. Also garden stuff will be brought up and pasturage will be improved.

Notice!

We, the barbers of Brady, deem it necessary, on account of high price of living, to place an extra charge of 5c for neck shaving.

This charge will begin on April 23rd.

W. L. Hughes, superintendent of the Brady schools, has been long regarded as a permanent fixture in Brady, and year after year no thought is given other than that he will again head the school system, which he has built up so splendidly. With the purchase of a home last week by Mr. Hughes, his remaining a citizen is doubly assured. Mr. Hughes has purchased the C. H. Bradley home on South Blackburn street, and will occupy the same immediately following its vacation by Mr. Bradley about June 1st.

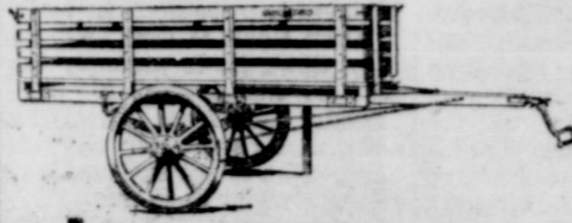

CHANGE IN FRISCO SCHEDULE SOUTH

Effective probably the 1st Sunday in May, the schedule on the south-bound Frisco passenger train will be changed. The new time card will give the departure of the south bound train from Fort Worth at about 11:00 o'clock, with a 30 minute lay-over in Brownwood to clean the engine, coal and make other preparations, arriving in Brady about 8:00 o'clock and stopping here 30 minutes for breakfast.

Agreement to this effect was reached at a meeting of the directors of the Brady Y. M. B. L. yesterday afternoon with head officials of the Frisco road, included among whom were G. H. Schleyer, vice president and general manager, W. B. Wells, general freight agent, C. O. Jackson, general passenger agent and E. F. Tillman, live stock agent. The party came down from Brownwood yesterday morning while on a trip out of Fort Worth over this section of the road.

The present schedule, with the train leaving Fort Worth at 9:00 o'clock p. m. and laying over in Brownwood several hours, arriving in Brady at 9:00 a. m.,

Will Remove to Temple.

It is with great regret that the people of Brady learn of the intended removal from the city of Mr. and Mrs. C. H. Bradley, who expect to leave about June 1st for Temple, Texas, to take up their permanent residence. Mr. Bradley has for some time had in view locating further east, where he could have a larger territory for his business activities in cotton seed buying, and with the sale of his home he now feels free to make the move. Mr. Bradley's son, Oscar, has already gone to Temple, and his daughter, Mrs. Joe Proctor, and family have been located at that place for a month or more. While regretting the removal of the family, all their friends wish them much success in their new home.

Read What Mark Twain Says The New Edison And Its Re-Creation

"The music of the Hawaiians, the most fascinating in the world, is still in my ears and haunts me sleeping and waking. I can still hear the pulsing of the surf at Waikiki, see the plummy palms drowsing by the shore, the garland crags, and the leaping cascades, and this music fills me with the spirit of its woodland solitudes."—MARK TWAIN.

When you hear the Hawaiian music on the New Edison, you hear it exactly as it sounded to Mark Twain. The New Edison's Re-Creation of Hawaiian music will linger in your ears and will haunt you, just as Mark Twain describes.

ORGANIZE FARM LOAN COMPANY

A Farm Loan association was organized at Pear Valley on Tuesday night, at which time a representative number of citizens met to discuss the matter of the new Federal Farm Loan Bank system. Some 18 Pear Valley farmers constitute the first association organized in McCulloch county, and it is estimated that the loans which they will ask will aggregate \$50,000. More are expected to join, which would swell this total considerably. Application of the association for a charter was at once forwarded to the Federal bank at Houston.

Party Attends Commencement Exercises at London.

ear Valley, Texas, April 10. Editor Brady Standard:

Here comes Smarty with just a few items for the week.

I think the farmers have given up all hope of it ever raining here again.

Bro. Williamson, the Methodist pastor filled his regular appointment here Saturday night and Sunday morning.

The singing at the Baptist church house Sunday night was enjoyed by a large crowd.

Mr. and Mrs. Jim Vineyard and Mr. and Mrs. Ralph Schooler made a trip to Brady Friday.

W. H. Seymore and family who lived at Bangs have moved to our midst. We welcome these new people here.

Horace and Arthur Baisden and Tom Weldon returned to the Valley again Monday.

W. H. Bullock, daughter Ora and son, Houston, and George Luce went to London, Kimble county Friday afternoon and attended the commencement exercises of the London high school graduating class. They were accompanied home by Miss Lola Bullock who was intermediate teacher in that school the past year.

Mr. and Mrs. Reed and Mr. and Mrs. J. C. Reed made a business trip to Brady Tuesday.

The party at Bill Fowler's Monday night was enjoyed by all who attended.

Mr. and Mrs. Roy Miller were visitors at Pasche Sunday.

Ervin Shannon returned home Sunday afternoon after a two weeks' visit at San Saba.

I will ring off—with best wishes to all.

School to Close Friday—Had a Splendid Term.

Everything is flourishing in the Gap.

While stock water is getting to be a serious thing, there is sufficient moisture to bring up garden stuff, corn, maize and the like to a moderate good stand.

Our school will be out Friday. We have had a splendid term of school this year, with Miss Augusta Eubank, principal, and Mrs. Bessie Baze, assistant. They are both good teachers.

The Gap is coming to the front. They have purchased a new organ and a lot of new song books. So come and bring your "Guiding Star" books along.

Mr. and Mrs. Chas. Sallee spent Sunday with Clint and Hattie Bell.

Misses Dessie and Bessie Bowden spent Sunday at the Mooring home.

Mrs. Nannie Frankum of Fife is visiting this week with her parents, Mr. and Mrs. E. L. Harrison.

Andy Hall is visiting relatives at Mullin this week.

Miss Novie Fraim visited the school Friday.

Fonso Gressett and son, Gordon, visited his brother, Tatum, one night last week. It is remarkable to see him up and going so quickly.

Clint Bell and wife visited at Fife Friday night.

The little folks enjoyed an Easter egg hunt Friday evening at the school house.

Mrs. Bill McCartney and children were in Brady shopping Saturday.

Misses Sallie Bratton and Ruby Barton were guests of Mrs. Leonard Dennis Sunday afternoon.

Hub Dobbs and wife were guests at the Will Stewart residence Sunday.

Mrs. Bessie Baze was visiting at Rochelle Saturday night and Sunday.

There was a large crowd at the singing at Mrs. Taylor's Sunday night.

The election for the school trustees was held Saturday, Messrs. Andy Brown and E. J. Howard succeeding themselves for another term.

Several Gap folks have been attending the show at Rochelle lately.

They have the reservoir on the Bratton lease about completed; also have all the dogs killed. Messrs. J. T. Gressett killing the dogs and Sam Crider building the reservoir.

Mrs. Nannie Cottrell and Mrs. Kate Suggs and children were guests of Mrs. Gressett a few days ago.

Mrs. Andy Hall spent Monday night at the Ince home.

P. O. Neal and Mimm Stuart are on the San Saba fishing.

Bill McCartney has purchased the P. O. Neal place from the Lay boys.

All you people that love to mingle together, study the bible and sing, come to the Gap on Sunday evening. That is the kind of medicine it will take to cure the Gap of its selfishness.

Easter Egg Hunt Enjoyed by Placid School.

Placid, Texas, April 9. Editor Brady Standard:

Miss Celia and Miss Lucile Kimbrough took a joy ride Friday evening, as Miss Celia Gault is just recovering from a spell of the measles.

Placid public school enjoyed a nice Easter hunt Friday evening in Mrs. West's pasture.

Miss Linda Smallwood came home from Brownwood school one day this past week with the measles.

Barney Clark is having some trouble with blood poison in his hands.

Mrs. May Penn visited Placid school Friday evening.

The Apostolle's are holding another meeting at Placid.

Joe Foster is making many business trips to Rochelle lately.

Alton Gault is very sick, and they think he is probably taking the measles, which his sister brought back from Brownwood a few weeks ago. Mr. and Mrs. Gault went to see the doctor at Rochelle about their son.

Mr. and Mrs. George Parker and Mrs. Parker's sister, Ozell St. Clair, visited Mrs. Parker's mother and father Saturday and Sunday near San Saba.

C. L. Gault, principal of Placid public school, was sick Monday evening.

CALOMEL SALIVATES AND MAKES YOU SICK.

Acts Like Dynamite On a Sluggish Liver and You Lose a Day's Work.

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great.

No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

SALT GAP SAYINGS.

A Singing Class Has Been Organized.

Salt Gap, Texas, April 9. Editor Brady Standard:

Here comes "Red Bill" with a few words to say for the Gap. As our school and the Warloopey school consolidated, it will hereafter be called Salt Gap—the same old place.

We are sure having some disagreeable weather for the time of the year it is getting to be.

Some of the farmers have planted feed stuff, while others are waiting for the big rain, which I believe is coming, for it has been so long about it.

We had a small shower a few days ago, but didn't put out any stock water, and just enough to spoil the maize that was in the ground.

Some are plowing up their small grain, getting ready for the big 20 cent cotton crop.

Mrs. Lottie Redinger has returned home from her son's in Houston where she has spent the past three months.

Rev. Williams filled his regular appointment here Sunday evening and Sunday night.

We have organized a singing class here and will try and have a little singing at the Gap.

J. I. Peel and family were in Melvin Tuesday.

Miss Ruby Thompson and Miss Eula Burleson were in Brady Friday and Saturday on business.

A large crowd of youngsters enjoyed themselves at the party at Mr. Tom Burrow's Friday night. All report a splendid time.

Johnie and Miss Lela McCaughey of Doole took supper with Mr. and Mrs. A. W. Chamberlain Friday night.

Robert Whitehurst called on Johnie Windham Sunday.

Odious Hutts and Dave Peel say they don't have to go to war. Wonder why, boys?

FIFE FINDINGS.

Listen to This —Tanks and Creeks Full.

Fife, Texas, April 11. Editor Brady Standard:

A two and a half inch rain Wednesday morning has put every body in a good humor.

Tanks and creeks all full and a good season in the ground for plauting. Considerable hail fell with the rain which damaged corn considerably but it is thought it will come out all right.

Henry Martin was at Pear Valley Tuesday on business.

J. A. Stowe was down from Lohn Monday greeting his many friends and attending to official business.

Prof. J. C. Nichols has been very sick for the past week, but is considerably improved at the present, and hopes to be able to resume his school duties in a few days.

W. D. Walker visited with H. D. Bradley and wife Saturday and Sunday.

Rev. T. P. Grant and wife were out from Brady Sunday. Rev. Grant preached an Easter sermon here and those who did not hear it certainly missed a treat. Besides being an A1 minister of the gospel, Rev. Grant is a good roads booster and was pleased to see the decided improvements made in the roads around here since his first visit here 17 years ago when he used to fill his appointments here from Milburn and had to come on horse back to be sure of getting here. The Parson is a rustler and deserves the good will of everybody.

In the trustee election held here Saturday 40 votes were cast. C. M. Conrod receiving 14, J. P. Horne 12, Thos. Mitchell 7, R. H. Conrod 5 and L. M. Farmer 2. C. M. Conrod and J. P. Horne receiving the highest number, they were declared elected for the next two years.

Farmers Wait for Rain to Plant Their Crops.
Rochelle, Texas, April 9. Editor Brady Standard: The farmers don't know whether to plant their cotton crops, they fear it will not rain, so they can make a good crop this year.

A crowd of the Fairview boys and girls attended the literary Saturday night.

Messrs. Alvin, Hugo and Felix Jacobson visited their father, from Friday until Sunday evening.

Mr. and Mrs. T. B. Milburn of Carroll colony visited relatives here Sunday.

Mr. Clarence Roudon visited his brother Floyd at Carroll colony the past week.

A crowd of the young folks spent a pleasant evening Sunday with Mrs. Jennie Bentley and son, Amasa, of the Onion Gap community. They took a view of a beautiful mountain near Mrs. Bentley's home.

Miss Irene Curry and brother, Orville, visited at the Jess Peel home at Pear Valley Saturday.

There are a few cases of sickness in our community this week but hope they will be well when I write again.

I will ring off, as I am in a hurry; with best wishes to one and all of the readers.

Constipation and Indigestion.
These are twin evils. Persons suffering from indigestion are often troubled with constipation. Mrs. Robert Allison, Mattoon, Ill., writes that when she first moved to Mattoon she was a great sufferer from indigestion and constipation. Food distressed her and there was a feeling like a heavy weight pressing on her stomach and chest. She did not rest well at night, and felt worn out a good part of the time. One bottle of Chamberlain's Tablets corrected this trouble so that she has since felt like a different person.

RAMSAY'S PAINT SHOP

FEMALE "R. F. D." CARRIERS
It is Estimated That We Now Have One Hundred and Fifty.

The post office department itself is not aware of the actual number of woman carriers in the rural delivery service, but it estimates that there are about 150. This is a very striking percentage of the total number of carriers, 41,652 in 1914; but it seems safe to say that a high percentage of the romance which the rural delivery service is supposed to contain will be found along these 150 routes.

Possibly, just possibly, these faithful messengers of the government are not much concerned about the romantic side of their calling, the Christian Herald remarks. To them it is doubtless a very businesslike proceeding, and they are willing to leave the drowsy notions about the work to us who think of the R. F. D. service as symbolized by a placid white horse, a comfortable looking, inclosed and easy-going conveyance and a daily jaunt through leafy lanes and over purling brooks, with occasional stops at cheery farmhouses.

We who are strong in imagination, however, do not trouble to visualize these leafy lanes when the trees are bare, the fences hidden by snow, the brook a winding streak of ice and the farmhouses maddening suggestions of warmth and cheer that rural mail-carriers cannot stop to share.

Facts Concerning Sound.
In determining the transmission, reflection and absorption of sound by various materials, F. B. Watson has placed a whistle emitting a given note in the focus of a parabolic reflector, and in an adjoining room has stationed a Rayleigh resonator to receive the sound. The materials to be tested closed the doorway between the rooms. In the tests made, pressed fiber one-fourth inch thick stopped practically all sound; one-fourth inch cork board, 50 per cent and three thicknesses of this, 92.6 per cent. The transmission of sound at constant pitch depends on the porosity, density and elasticity of the material; porous bodies transmitting sound about as they transmit air.

WHAT ACCESSORIES WILL DO
Have a Very Great and Definite Value in the Scheme of Things, According to Writer.

"We can only live once, and the more we live the better," wrote Wilson Young, English novelist, "and I find upon examination that the passion for accessories is only an expression of a passion for life.

"Not to follow up those engaging by-ways of temptation is to miss a great deal of agreeable and accidental information and knowledge of the kind that makes life full and interesting.

"You can press the button of your camera and send your films to be developed and remain unenlightened, but if you equip yourself with half its accessories, photography will lead you far into the sciences of physics and chemistry.

"If you have a horse and some one to look after him, you need not occupy yourself very much about his needs; but if you have this interest in accessories and take a pleasure in thinking not how little, but how much, you can do toward making your horse's stable a kind of shrine, it will not only bring you nearer to him and make you understand him better, but it will make you understand a great many other things, such as the rotation of crops and the working of leather.

"In short, accessories are the circumference of the circle of which the thing itself is the center; they are leads and links which take us out from ourselves (and at our own expense) into the surrounding life of the world."

Irish Kings Their Ancestors.
There are more than two hundred and twenty-five Hogans listed in the Philadelphia directory and they say that the Boston Hogan who wanted the probate court to make him Hogan is the only one of the clan who was ever ashamed of his name. "Ashamed of the name of Hogan!" exclaims one of them. "Shades of the Princes of Croich Cian! Why, the Hogans are descendants of Irish kings. Cosgraeh was the second son of Lorcán the one hundred and third king of Thomond Sten, and was the ancestor of the family. Croich Cian of which they were chiefs, was a territory in the principality of Ormond. The Hogans had a fortified residence at Ardromy, a parish in the barony of Lower Ormond, and they had another at Ballylusky, in the same territory. That was in ancient times." The Philadelphia Hogans never change their names excepting when one of the daughters of the clan gets married.—Boston Post.

The Doctor and the Farmer's Wife.
Dr. Clarence J. Blake of Boston tells the following story:
A farmer's wife was found too run down from overwork to respond to treatment. She told him that she and her young daughter did all the farm house work for a family consisting of her husband, two hearty sons and two hired men. "And sometimes when I go to bed at night and think over what's on hand that must be used tomorrow and what will keep over and what must be cooked and bought and all the rest I just wish that my folks could have their virtuous made up into an intelligent rubber into 'em."—Journal of Home Economics.

Wonder Words.
Wonder, Ore., March 31st.

It snowed here all forenoon. March came in like a lion and is going out like a tiger. There has been ice every morning this month, except one or two days. It was as thick as a pane of glass on the water in the bucket on the porch this morning.

But, thank goodness, we can see the bare ground in the garden again and it makes one think of buying garden seeds to be ready to plant as soon as it will do.

I am sending you this clipping from our county paper, "The Oregon Observer" (which was quoted from another paper) to show what a busy legislative assembly we have had.

While the farmers were working and sleeping the legislature slipped over this one—and Governor Withycombe, who the farmers made governor, signed it.

"After May 20 any farmer who offers to dispose of butter made from unpasteurized cream will be liable to arrest and penalty.

"This means that he must boost one of two combinations, the manufacturers of pasteurizing plants or sell his cream to the competitors who are on his trail—the creameries.

"The farmer who has been supplying the stores and private families with his butter, made in the old fashioned way, is forbidden to do this after May 1. He will be arrested if he so do.

"His butter will be all right for himself, the hired man and visitors, but NOT all right to sell.

"If you can't see the creamery trust sticking out all over this, you must have cataracts on both eyes.

"It is this everlasting 'pure food' regulation, this senseless restrictions and aggravations that make men disgusted with farming and cause them to sell out and jam the cities.

"There was no public demand for such a bill. The consumers have not asked for it. It is a benefit law for the creamery trusts and the manufacturers of pasteurized plants.

"The farmers won't referend it, and it will become a law.

"Why a legislature?"
From what I see in The Brady Standard relative to the labors of your honest farmer, the Hon. Tom Beasley, in regard

to the proposed Johnson grass and thistle law, I believe you made no mistake in choosing him to represent your interests in the legislature.

What we need is honest, sensible farmers, instead of tricksters, grafters and politicians to make our laws for us.

Catarhal Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarh, which is an inflamed condition of the mucous surface. Hall's Catarh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarhal Deafness that cannot be cured by Hall's Catarh Cure. Circulars free. All Druggists, 75c.

THE GERMAN IN AMERICA.

The Dallas Times-Herald in the following editorial admirably treats a question of great importance just at the present time:

The declaration of war against Germany converts the German subject within our gates into what the lawyers describe as an "alien enemy."

The treatment that the German is actually to receive, however, was laid down in instructions issued by Attorney General Gregory, who said:

No German alien enemy in this country who has not hitherto been implicated in plots against the interests of the United States need have any fear of action by the department of justice so long as he obeys the following warning: Obey the law; keep your mouth shut.

More liberal treatment than the attorney general laid down has never been heard of. Germany herself would certainly accord no such treatment to our citizens in Germany.

The explanation for our liberality lies in part in the fact that we regard the war as a war not against the Germans but against the kaiser's government.

For the Germans themselves, the feeling of the American people and government is entirely kindly.

THE VETERANS.

A news item which brings a shadow of sorrow to all hearts who love and cherish the old Confederate veteran, and treasure the memories of the old South and its chivalry and poetry of life as taught us and exemplified in these men, is the fact that one hundred have passed over the river within the last three months. This news was given out by the comptroller's department and was gained from the pension warrants returned to Austin marked "deceased." The sun of life is sinking for these old men; their eyesight is dimmed and their steps are tottering, but the spirit of them has ever remained bright, hopeful, valorous, and will to the end of their days. Let us cherish

them while yet they remain with us, learning the secrets of true bravery and patriotism from them.—Hamilton Record.

TRADE AT HOME.

The country newspaper, however small and insignificant, often leads the way—it is the pioneer, the guiding star and the pilot that blazes the trail for greater things. There are few country newspapers in the past decade, who have accepted whisky advertisements—yet all of us can remember when the Dallas News did so, and it was but yesterday that the Fort Worth Star-Telegram made a simple announcement that it would no longer carry such ads.

Again in the matter of mail order advertising—no all home print country newspaper today accepts this class of advertising, although there are few who have not had the opportunity to do so. Their patriotic stand has at last come to be realized, and now we have a great national magazine, and the greatest in the woman's field, to announce it will no longer carry mail order advertising.

The magazine mentioned, The Delineator, is sold locally through Benham, who also sells many of the goods advertised in its columns. Naturally, the store owners prefer that the advertising which they promote shall help them, which is only fair. The Delineator recognizes this, and, in spite of a loss in revenue amounting to hundreds of thousands of dollars, has made the sacrifice in the interest of local dealers.

But the issue is broader than this. A store such as Benham's is a convenience and a credit to Brady—we might even say a necessity. Now if we all should divert a part of our trade to far-distant concerns, Benham would be obliged to carry only a meager stock, and would have to realize far bigger profits on the things we had to buy there.

Have you ever stopped to think what a queer town this would be—how inconvenient for you—if there were no stores here? Without the stores there couldn't even be a town. Well,

the only way to make stores possible is to give them patronage.

JAKE WOLTERS' ADDRESS.

Jake Wolters, recognized as one of the leading citizens of German extraction in the state, has addressed the German citizenship of Texas, and the entire citizenship as well, upon the subject of patriotism. He has reviewed the causes that led up to President Wilson's declaration of war, and makes plain that there can be no divided allegiance. Not only is his address a notable exposition of the position of the U. S., but his warning against unneutral acts and speech cannot be too strongly emphasized.

Mr. Wolters' address has made a profound impression among all who have read it, so great an impression, in fact, that the editor has received numerous requests for its republication. It gives us pleasure therefore, to reproduce the article in this issue, and we trust every subscriber will not only read it carefully, but will pass it along to his friends.

ARE YOU A PATRIOT?

If you are a patriot, you can serve your country and flag in more ways than by joining either the army or navy. The United States department of agriculture yesterday called upon the citizens everywhere to raise more food. "Plant potatoes" is a new slogan!

Those who lived during the period of the war between the states well recall the hardships occasioned by shortage of food. Today we again face the same problem. Prices have advanced many times over normal—many have been doubled and some more than doubled. All price lists have been withdrawn on flour. The farmer who plants his entire acreage in cotton in the hopes of securing an extraordinary high price for his cotton is making a sorry gamble, for no matter how high the price of cotton, the price of food will be proportionately high or higher.

The United States realizes this. Farmers are not wanted for service in the army or navy. They are needed in the home army—the army that will feed

and clothe those who fight the battle.

Said an old citizen yesterday: "Tell your readers to plant corn. Plant about May 1st, and plant 4 1/2 feet apart and check the rows. Corn has made in this country, and can be made again. It cannot be successfully thinned when planted in solid rows, but by planting as above stated, and given some care and attention, it can make again.

Hogs and hominy may yet become the mainstay of the country!"

The recent legislature enacted a law affecting the pensioning of Ex-Confederate soldiers. The old law allowed totally disabled ex-Confederates \$25.00 a quarter from the appropriation, leaving the balance to be prorated among the old soldiers not so disabled. The new law amends by putting all ex-Confederates on an equal footing. The increased valuation of property throughout the state is expected to soon give each ex-Confederate the full pension allowance of \$25.00 a quarter.—Coleman Democrat-Voice.

MOTHER PRAISE REMEDY THAT RELIEVED HER BABY

Dr. Caldwell's Syrup Pepsin
Is a Dependable Family
Laxative.

Nearly all the sickness incident to a baby's life is due to constipation, or inaction of the bowels. At the first indication of irregularity in this important function, relief should be afforded promptly. A mild laxative should be administered to gently carry off the congested waste and leave the stomach and bowels free to perform their allotted tasks.

Of the various remedies recommended to relieve constipation, the combination of simple laxative herbs with pepsin, as prescribed by Dr. W. B. Caldwell and sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin, is the most effective. It contains no opiate or narcotic drug, is pleasant to the taste, mild and gentle in action, and quickly brings the desired relief in an easy, natural manner.

Mrs. C. J. Douglas, Mason, Ill., writes that she cannot say enough in praise of Dr. Caldwell's Syrup Pepsin as a dependable family laxative. Little Mary Eva had been badly constipated until they tried Dr.

Caldwell's Syrup Pepsin, which brought the first natural relief the child had in two weeks.

Dr. Caldwell's Syrup Pepsin is sold in drug stores everywhere and costs only fifty cents a bottle. To avoid imitations and ineffective substitutes be sure to ask for Dr. Caldwell's Syrup Pepsin. See that a facsimile of Dr. Caldwell's signature and his portrait appear on the yellow carton in which the bottle is packed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 455 Washington St., Monticello, Illinois.

The members of the Five-Forty club held an interesting session last Friday with Mrs. A. B. Campbell. The Easter spirit was predominant in the decorations, while score cards were in the form of Easter eggs. The used series of "5-40" was enjoyed by the following members: Mesdames Ben Anderson, Jesse Ballou, N. A. Collier, C. T. Gray, S. H. Mayo, John F. Schaege, Roy Wilkerson; and guests: Mesdames J. T. Mann, Alice Smith, J. M. Fuller, V. L. Jones, Mary Jones, H. P. Roddie, Frank Wilhelm, C. D. Allen; Miss Mattie Anderson.

Refreshments of fruit salad, grape juice, cake and mints were served.

The club meets this afternoon with Mrs. Gray.

Williams-Gray Wedding.

Announcement of the marriage of Miss Lura Gray of San Saba to Mr. Richard Coke Williams of Fort Davis, is made in last week's San Saba Star. Miss Gray has visited in Brady upon a number of occasions and is very popular in the younger social circle. The announcement reads:

Miss Lura Gray of San Saba, was married to Richard Coke Williams of Fort Davis at 4:30 o'clock Wednesday afternoon in the first Methodist church, the ceremony being performed by the Rev. H. E. Draper of San Saba assisted by Rev. H. W. Knickerbocker, pastor of the church. Mr. and Mrs. Williams have gone to Colorado on their wedding trip.—Austin American.

Miss Gray is the daughter of Will Gray, and her many friends will read of her marriage with pleasure. She has been attending school in Austin for some time.

Headaches Start In The Liver.

Dizzy? Dull headache? Bilious? Muddy complexion? These are signs that your liver is back in its work and needs an assistant. Call in Po-Do-Lax, nature's remedy, derived from the may apple, it quickly stimulates the flow of bile and restores a torpid liver to normal condition. The mildly laxative qualities will remove the impurities from the intestines and you will soon be feeling fit. Po-Do-Lax will shorten your liver's working hours. Get it today at your druggists, 50c.

Had Heard It Before.

Some time ago, when a local corps was reviewed by Sir Ian Hamilton, one of the officers was mounted on a horse that had previously distinguished itself in a bakery business. Somebody recognized the horse, and shouted, "Baker!" The horse promptly stopped dead, and nothing could urge it on.

The situation was becoming painful when the officer was struck by a brilliant idea, and remarked, "None to-day, thank you." The procession then moved on.—Weekly Telegraph.

Letter From the Golden West.

The Standard editor is in receipt of a letter from our friend, S. W. Moffatt, ordering the paper to his permanent address at 261 Marbrisa Ave., Huntington Park, California. Mr. Moffatt writes an interesting letter, and believing it to be of interest to the many friends of the family, we are taking the liberty of quoting therefrom:

"We have rented a small apartment and are doing light housekeeping. The baby was very sick for several days after our arrival, with his teeth, but is entirely well now, but for this reason we haven't seen much of the country, but what we have seen we like real well and the climate is fine, but one surely must have cover at night and a good deal of that.

"If I can get into something so as to make a living, guess we will stay for awhile as I think this climate will be fine for my wife.

"Flowers are all over creation and yet the people say they wish the flowers would bloom.

"The orange trees are surely pretty and fragrant. On each tree will be the whole process of growth; from the blossoms to the ripe fruit.

"The streets all over the city are crowded with people at all hours, and traffic sometimes is blocked for several blocks.

"I certainly hope that Brady has had lots of rain by this time, but as I have not seen anything about rain in your paper I fear there has been none.

"If you get thirsty come out here and we will give you some real water, melted from the snow and if you don't care for that you can get quart bottles of beer for 12 1-2 cents and quart bottles of wine for 25 cents.

"From our porch we can see the snow capped mountains 60 miles away and you would swear they are only 3 or 4 miles away.

"When I have more time and have seen more of the country will write you a long letter.

"Let me hear from you when convenient."

HOUSTON WOMAN HAS GAINED 18 POUNDS.

Looks So Well After Taking Tanlac Her Friends Hardly Recognize Her.

"My wife gained eighteen pounds on two bottles of Tanlac and now she's the very picture of health," said J. A. McGinney, 608 Hamilton street, Houston, for several years engineer for the Industrial Cotton Oil Co.

"I can't find words," continued Mr. McGinney, "to tell you all Tanlac has done for my wife and how grateful I am over her recovery. Two years ago she began to suffer with stomach trouble and indigestion. She doctored and took medicine but kept getting worse. She lived on such food as milk toast and fell off until she only weighed ninety-seven pounds, and was hardly more than a living skeleton. She complained of awful pains in her stomach and was very nervous. The pressure of gas on her stomach would collect around her heart and she would wake up at night suffering and gasping for breath. I was awake nearly all night nearly every night with her.

"Tanlac has worked on her more like a miracle than a medicine. Three days after she began taking it she began to feel better. After taking two bottles she now eats hearty and sleeps as soundly as if she had never been sick a day in her life and is as happy as a lark. She now weighs one hundred and fifteen pounds—an actual gain of eighteen pounds. She has improved so much that some of our neighbors who haven't seen her for sometime didn't know her on first sight. Tanlac has restored her health after everything else failed."

Tanlac is sold in Brady by Jones Drug Co., in Melvin by Oscar Sellers and in Rochelle by C. W. Carr.

BUSINESS MEN'S NOON MEETING

Between thirty and forty of Brady's business men responded to the invitation extended by Archdeacon Garden and the members of the Episcopal church to the social business meeting held on Wednesday noon at the Mission in the Craddock building. A delightful luncheon had been prepared by H. N. Cook of the Queen hotel, assisted by the ladies of the church, and after those attending had had their fill of sandwiches, coffee and pickles, cigars were passed and the Rev. Mr. Garden spoke briefly and pointedly upon business and the church. He said that practically every community had its commercial organization, which devoted more or less of its time to boosting that community and putting forth efforts to induce more business to come that way. The churches and school and other advantages of the community are the points chiefly stressed in literature sent out. Thus, the business men use the church to promote their business interests, yet how few of them repay the obligation by giving support to the church. But the business interests, said Mr. Garden, are coming to realize that Christianity is the rock upon which successful business must be built, and he told of remarkable meetings he had witnessed in New York City, where, for the forty days of Lent, the world's greatest financiers and business men each noon gathered to hear sermons on Christian life and Christian business. These men realized that sound business principals and the teachings of Christ are identical.

Mr. Garden also pictured the man who let his wife and children pay the religious obligations of the family, while he hid under the cloak of benevolent indifference. He appealed to all the business men to come into church work and do their share of the duty to Christ.

His short address profoundly impressed everyone of the audience, and several respected in

You Can Make Excellent Cake With Fewer Eggs

Just use an additional quantity of Dr. Price's Cream Baking Powder, about a teaspoon, in place of each egg omitted.

This applies equally well to nearly all baked foods. Try the following recipe according to the new way:

CREAM LAYER CAKE

Old Way	New Way
1 cup sugar	1 cup sugar
1/2 cup milk	1/2 cup milk
2 cups flour	2 cups flour
2 teaspoons Dr. Price's Baking Powder	4 teaspoons Dr. Price's Baking Powder
3 eggs	1 egg
1/2 cup shortening	2 tablespoons shortening
1 teaspoon flavoring	1 teaspoon flavoring

Makes 1 Large 2-Layer Cake

DIRECTIONS—Cream the sugar and shortening together, then mix in the egg. After sifting the flour and Dr. Price's Baking Powder together, two or three times, add it all to the mixture. Gradually add the milk and beat with spoon until you have a smooth pour batter. Add the flavoring. Pour into greased layer cake tins and bake in a moderately hot oven for twenty minutes. This cake is best baked in two layers. Put together with cream filling and spread with white icing.

THE GERMAN IN AMERICA.

The Dallas Times-Herald in the following editorial admirably treats a question of great importance just at the present time:

The declaration of war against Germany converts the German subject within our gates into what the lawyers describe as an "alien enemy."

The treatment of the German man is such that the German man is actually to receive, however, was laid down in instructions issued by Attorney General Gregory, who said:

No German alien enemy in this country who has not hitherto been implicated in plots against the interests of the United States need have any fear of action by the department of justice so long as he obeys the following warning: Obey the law; keep your mouth shut.

More liberal treatment than the attorney general laid down has never been heard of. Germany herself would certainly accord no such treatment to our citizens in Germany.

The explanation for our liberality lies in part in the fact that we regard the war as a war not against the Germans but against the kaiser's government.

For the Germans themselves, the feeling of the American people and government is entirely kindly.

THE VETERANS.

A news item which brings a shadow of sorrow to all hearts who love and cherish the old Confederate veteran, and treasure the memories of the old South and its chivalry and poetry of life as taught us and exemplified in these men, is the fact that one hundred have passed over the river within the last three months. This news was given out by the comptroller's department and was gained from the pension warrants returned to Austin marked "deceased." The sun of life is sinking for these old men; their eyesight is dimmed and their steps are tottering, but the spirit of them has ever remained bright, hopeful, valorous, and will to the end of their days. Let us cherish

them while yet they remain with us, learning the secrets of true bravery and patriotism from them.—Hamilton Record.

TRADE AT HOME.

The country newspaper, however small and insignificant, often leads the way—it is the pioneer, the guiding star and the pilot that blazes the trail for greater things. There are few country newspapers in the past decade, who have accepted whisky advertisements—yet all of us can remember when the Dallas News did so, and it was but yesterday that the Fort Worth Star-Telegram made a simple announcement that it would no longer carry such ads.

Again in the matter of mail order advertising—no all home print country newspaper today accepts this class of advertising, although there are few who have not had the opportunity to do so. Their patriotic stand has at last come to be realized, and now we have a great national magazine, and the greatest in the woman's field, to announce it will no longer carry mail order advertising.

The magazine mentioned, The Delineator, is sold locally through Benham, who also sells many of the goods advertised in its columns. Naturally, the store owners prefer that the advertising which they promote shall help them, which is only fair. The Delineator recognizes this, and, in spite of a loss in revenue amounting to hundreds of thousands of dollars, has made the sacrifice in the interest of local dealers.

But the issue is broader than this. A store such as Benham's is a convenience and a credit to Brady—we might even say a necessity. Now if we all should divert a part of our trade to far-distant concerns, Benham would be obliged to carry only a meager stock, and would have to realize far bigger profits on the things we had to buy there.

Have you ever stopped to think what a queer town this would be—how inconvenient for you—if there were no stores here? Without the stores there couldn't even be a town. Well,

the only way to make stores possible is to give them patronage.

JAKE WOLTERS' ADDRESS.

Jake Wolters, recognized as one of the leading citizens of German extraction in the state, has addressed the German citizenship of Texas, and the entire citizenship as well, upon the subject of patriotism. He has reviewed the causes that led up to President Wilson's declaration of war, and makes plain that there can be no divided allegiance. Not only is his address a notable exposition of the position of the U. S., but his warning against unneutral acts and speech cannot be too strongly emphasized.

Mr. Wolters' address has made a profound impression among all who have read it, so great an impression, in fact, that the editor has received numerous requests for its republication. It gives us pleasure therefore, to reproduce the article in this issue, and we trust every subscriber will not only read it carefully, but will pass it along to his friends.

ARE YOU A PATRIOT?

If you are a patriot, you can serve your country and flag in more ways than by joining either the army or navy. The United States department of agriculture yesterday called upon the citizens everywhere to raise more food. "Plant potatoes" is a new slogan!

Those who lived during the period of the war between the states well recall the hardships occasioned by shortage of food. Today we again face the same problem. Prices have advanced many times over normal—many have been doubled and some more than doubled. All price lists have been withdrawn on flour. The farmer who plants his entire acreage in cotton in the hopes of securing an extraordinary high price for his cotton is making a sorry gamble, for no matter how high the price of cotton, the price of food will be proportionately high or higher.

The United States realizes this. Farmers are not wanted for service in the army or navy. They are needed in the home army—the army that will feed

and clothe those who fight the battle.

Said an old citizen yesterday: "Tell your readers to plant corn. Plant about May 1st, and plant 4 1/2 feet apart and check the rows. Corn has made in this country, and can be made again. It cannot be successfully thinned when planted in solid rows, but by planting as above stated, and given some care and attention, it can make again.

Hogs and hominy may yet become the mainstay of the country!

The recent legislature enacted a law affecting the pensioning of Ex-Confederate soldiers. The old law allowed totally disabled ex-Confederates \$25.00 a quarter from the appropriation, leaving the balance to be prorated among the old soldiers not so disabled. The new law amends by putting all ex-Confederates on an equal footing. The increased valuation of property throughout the state is expected to soon give each ex-Confederate the full pension allowance of \$25.00 a quarter.—Coleman Democrat-Voice.

In These Days of High Prices, it is up to all of us to Plant Gardens. We have the Necessary Tools.

MOTHER PRAISE REMEDY THAT RELIEVED HER BABY

Dr. Caldwell's Syrup Pepsin
Is a Dependable Family
Laxative.

Nearly all the sickness incident to a baby's life is due to constipation, or inaction of the bowels. At the first indication of irregularity in this important function, relief should be afforded promptly. A mild laxative should be administered to gently carry off the congested waste and leave the stomach and bowels free to perform their allotted tasks.

Of the various remedies recommended to relieve constipation, the combination of simple laxative herbs with pepsin, as prescribed by Dr. W. B. Caldwell and sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin, is the most effective. It contains no opiate or narcotic drug, is pleasant to the taste, mild and gentle in action, and quickly brings the desired relief in an easy, natural manner.

Mrs. C. J. Douglas, Mason, Ill., writes that she cannot say enough in praise of Dr. Caldwell's Syrup Pepsin as a dependable family laxative. Little Mary Eva had been badly constipated until they tried Dr.

Caldwell's Syrup Pepsin, which brought the first natural relief the child had in two weeks.

Dr. Caldwell's Syrup Pepsin is sold in drug stores everywhere and costs only fifty cents a bottle. To avoid imitations and ineffective substitutes be sure to ask for Dr. Caldwell's Syrup Pepsin. See that a facsimile of Dr. Caldwell's signature and his portrait appear on the yellow carton in which the bottle is packed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 455 Washington St., Monticello, Illinois.

Five-Forty Club.

The members of the Five-Forty club held an interesting session last Friday with Mrs. A. B. Campbell. The Easter spirit was predominant in the decorations, while score cards were in the form of Easter eggs. The usual series of "5-40" was enjoyed by the following members: Mesdames Ben Anderson, Jesse Ballou, N. A. Collier, C. T. Gray, S. H. Mayo, John F. Schaefer, Roy Wilkerson; and guests: Mesdames J. T. Mann, Alice Smith, J. M. Fuller, V. L. Jones, Mary Jones, H. P. Roddie, Frank Wilhelm, C. D. Allen; Miss Mattie Anderson.

Refreshments of fruit salad, grape juice, cake and mints were served.

The club meets this afternoon with Mrs. Gray.

Williams-Gray Wedding.

Announcement of the marriage of Miss Lura Gray of San Saba to Mr. Richard Coke Williams of Fort Davis, is made in last week's San Saba Star. Miss Gray has visited in Brady upon a number of occasions and is very popular in the younger social circle. The announcement reads:

Miss Lura Gray of San Saba, was married to Richard Coke Williams of Fort Davis at 4:30 o'clock Wednesday afternoon in the first Methodist church, the ceremony being performed by the Rev. H. E. Draper of San Saba assisted by Rev. H. W. Knickerbocker, pastor of the church. Mr. and Mrs. Williams have gone to Colorado on their wedding trip.—Austin American.

Miss Gray is the daughter of Will Gray, and her many friends will read of her marriage with pleasure. She has been attending school in Austin for some time.

Headaches Start In The Liver.
Dizzy? Dull headache? Bilious? Muddy complexion? These are signs that your liver is back in its work and needs an assistant. Call in Po-Do-Lax, nature's remedy, derived from the may apple, it quickly stimulates the flow of bile and restores a torpid liver to normal condition. The mildly laxative qualities will remove the impurities from the intestines and you will soon be feeling fit. Po-Do-Lax will shorten your liver's working hours. Get it today at your druggists, 50c.

Had Heard It Before.

Some time ago, when a local corps was reviewed by Sir Ian Hamilton, one of the officers was mounted on a horse that had previously distinguished itself in a bakery business. Somebody recognized the horse, and shouted, "Baker!" The horse promptly stopped dead, and nothing could urge it on.

The situation was becoming painful when the officer was struck by a brilliant idea, and remarked, "None to-day, thank you." The procession then moved on.—Weekly Telegraph.

Letter From the Golden West.

The Standard editor is in receipt of a letter from our friend, S. W. Moffatt, ordering the paper to his permanent address at 261 Marbrisa Ave., Huntington Park, California. Mr. Moffatt writes an interesting letter, and believing it to be of interest to the many friends of the family, we are taking the liberty of quoting therefrom:

"We have rented a small apartment and are doing light housekeeping. The baby was very sick for several days after our arrival, with his teeth, but is entirely well now, but for this reason we haven't seen much of the country, but what we have seen we like real well and the climate is fine, but one surely must have cover at night and a good deal of that.

"If I can get into something so as to make a living, guess we will stay for awhile as I think this climate will be fine for my wife.

"Flowers are all over creation and yet the people say they wish the flowers would bloom.

"The orange trees are surely pretty and fragrant. On each tree will be the whole process of growth; from the blossoms to the ripe fruit.

"The streets all over the city are crowded with people at all hours, and traffic sometimes is blocked for several blocks.

"I certainly hope that Brady has had lots of rain by this time, but as I have not seen anything about rain in your paper I fear there has been none.

"If you get thirsty come out here and we will give you some real water, melted from the snow and if you don't care for that you can get quart bottles of beer for 12 1-2 cents and quart bottles of wine for 25 cents.

"From our porch we can see the snow capped mountains 60 miles away and you would swear they are only 3 or 4 miles away.

"When I have more time and have seen more of the country will write you a long letter.

"Let me hear from you when convenient."

HOUSTON WOMAN HAS GAINED 18 POUNDS.

Looks So Well After Taking
Tanlac Her Friends Hardly
Recognize Her.

"My wife gained eighteen pounds on two bottles of Tanlac and now she's the very picture of health," said J. A. McGinney, 608 Hamilton street, Houston, for several years engineer for the Industrial Cotton Oil Co.

"I can't find words," continued Mr. McGinney, "to tell you all Tanlac has done for my wife and how grateful I am over her recovery. Two years ago she began to suffer with stomach trouble and indigestion. She doctored and took medicine but kept getting worse. She lived on such food as milk toast and fell off until she only weighed ninety-seven pounds, and was hardly more than a living skeleton. She complained of awful pains in her stomach and was very nervous. The pressure of gas on her stomach would collect around her heart and she would wake up at night suffering and gasping for breath. I was awake nearly all night nearly every night with her.

"Tanlac has worked on her more like a miracle than a medicine. Three days after she began taking it she began to feel better. After taking two bottles she now eats hearty and sleeps as soundly as if she had never been sick a day in her life and is as happy as a lark. She now weighs one hundred and fifteen pounds—an actual gain of eighteen pounds. She has improved so much that some of our neighbors who haven't seen her for sometime didn't know her on first sight. Tanlac has restored her health after everything else failed."

Tanlac is sold in Brady by Jones Drug Co., in Melvin by Oscar Sellers and in Rochelle by C. W. Carr.

BUSINESS MEN'S NOON MEETING

Between thirty and forty of Brady's business men responded to the invitation extended by Archdeacon Garden and the members of the Episcopal church to the social business meeting held on Wednesday noon at the Mission in the Craddock building. A delightful luncheon had been prepared by H. N. Cook of the Queen hotel, assisted by the ladies of the church, and after those attending had had their fill of sandwiches, coffee and pickles, cigars were passed and the Rev. Mr. Garden spoke briefly and pointedly upon business and the church. He said that practically every community had its commercial organization, which devoted more or less of its time to boosting that community and putting forth efforts to induce more business to come that way. The churches and school and other advantages of the community are the points chiefly stressed in literature sent out. Thus, the business men use the church to promote their business interests, yet how few of them repay the obligation by giving support to the church. But the business interests, said Mr. Garden, are coming to realize that Christianity is the rock upon which successful business must be built, and he told of remarkable meetings he had witnessed in New York City, where, for the forty days of Lent, the world's greatest financiers and business men each noon gathered to hear sermons on Christian life and Christian business. These men realized that sound business principals and the teachings of Christ are identical.

Mr. Garden also pictured the man who let his wife and children pay the religious obligations of the family, while he hid under the cloak of benevolent indifference. He appealed to all the business men to come into church work and do their share of the duty to Christ.

His short address profoundly impressed everyone of the audience, and several responded in

short talks, while all present carried away with them a message that had gone straight to their hearts.

You Can Make Excellent Cake With Fewer Eggs

Just use an additional quantity of Dr. Price's Cream Baking Powder, about a teaspoon, in place of each egg omitted.

This applies equally well to nearly all baked foods. Try the following recipe according to the new way:

CREAM LAYER CAKE	
Old Way	New Way
1 cup sugar	1 cup sugar
1/2 cup milk	1 cup milk
2 cups flour	2 cups flour
2 teaspoons Dr. Price's Baking Powder	4 teaspoons Dr. Price's Baking Powder
1 egg	1 egg
1/2 cup shortening	2 tablespoons shortening
1 teaspoon flavoring	1 teaspoon flavoring

Makes 1 Large 2-Layer Cake
DIRECTIONS—Cream the sugar and shortening together, then mix in the egg. After sifting the flour and Dr. Price's Baking Powder together, two or three times, add it all to the mixture. Gradually add the milk and beat with spoon until you have a smooth pour batter. Add the flavoring. Pour into greased layer cake tins and bake in a moderately hot oven for twenty minutes. This cake is best baked in two layers. Put together with cream filling and spread with white icing.

Some Good Advice.

"Don't think too much of your own methods. Watch other people's ways and learn from them." This is good advice, especially when bilious or constipated. You will find many people who use Chamberlain's Tablets for these ailments with best results, and will do well to follow their example.

GERMANS IN TEXAS LOYAL

Jacob Wolters of Houston Stresses Fact That U. S. Is Not at War With German People and German People Do Not Condone Illegal Acts of Their Government.

BY JACOB F. WOLTERS,
of Houston, Texas.

Suggestions from various sources of such character as to satisfy my own sense of propriety prompts me to write upon a subject uppermost in the minds of the people of Texas at this particular time.

Our great republic, composed as it is of a cosmopolitan citizenship drawn from all of the races of the world, is confronted with the most serious crisis in its history since the secession of South Carolina from the Union and the subsequent war between the several states.

It is a time for calm and deliberate thought and action. It is a time when American citizens of different racial extraction must be tolerant of each other and yield to all in the fullest the loftiest purposes of patriotism. That men of kindred blood should be bound to each other by strong ties of sympathy, though living under different governments and on different continents, is but to recognize one of the basic immutable laws of human nature which is the same in every age and in every clime. The son's affection for mother does not end with the taking unto himself a bride; but when an irreconcilable conflict comes between the bride and mother the dutiful, faithful man remembers the pledge he has made to God in the presence of man to cleave to the wife, forsaking all others, through weal or woe.

Case of Belgium.

Whatever differences in sentiment, in opinion or prejudices that may have existed in the past, all citizens of this republic must now stand united, supporting by word and act the government of the United States alone and no other. There can be no cleavage in allegiance. All differences among ourselves must now be forgotten. We have entered upon war with the imperial government of Germany, and until it reaches a successful conclusion all citizens, regardless of racial extraction must co-operate with each other and with the constituted authorities of our government civil, military and naval, until the purpose sought by the war are successfully accomplished. We are not making war upon the people of Germany. Our President has in a most notable state paper made that position absolutely clear. We are at war with the system of government put over the German people, not with their consent, but by the assertion of a pretended and fictitious claim of one family, to rule them by divine right. So long as those who have put themselves in authority over the people of Germany confined the sphere of their activities to the confines occupied by their subjects we had no right to complain, although, unquestionably, millions of us in America have deep down in our hearts hoped that the time would come when the great mass of intelligent people of Germany would assert their independence of the Hohenzollern dynasty and create a government based upon the consent of the governed. But when those who control the destinies at this time of the imperial German government extended their activities into zones beyond the realm of the German empire, it became a matter of world concern. In America we witnessed with astonishment, if not with pain and indignation, the repudiation of a sacred treaty with little Belgium and the crushing of her people. That act was sought to be justified by the law of necessity. Every deposit in history has sought to justify every act of perfidy by force of the same law. The repudiation of the treaty of Belgium by the imperial German government was an act that no American of German extraction in his heart of hearts thought justified or condoned. I am quite sure that the great masses of

the German people in Germany did not approve it and do not now. It is one of the fundamental racial traits of the Germanic race, no matter where transplanted, to comply honestly with every obligation and compact made. The violation of the treaty with Belgium by the imperial German government was so contrary to the conception of German honor that it humiliated Americans of German blood as much as it startled the rest of civilization. But America contented herself by spending millions upon millions to alleviate the sufferings of the women and children of Belgium. It did not make it a cause for war.

From time immemorial it has been the contention of America, as well as of Germany, that the sea is an open highway that may be used by the ships of all nations without interference, subject only to such limitations as are placed upon that right by the rules of international law. That limitation has always been recognized by all civilized nations, including Germany, to extend only to the right during war between nations to stop on the high seas any vessel, whether it sailed under a neutral or belligerent flag, search the same and if it contained contraband to take it into a port and prevent the contraband from reaching the enemy; or if it was impractical to take it to a port, after assuring reasonable safety of crews and passengers, to sink such ship. But never in all history did international law recognize the right of any belligerent to sink a merchant or passenger ship without warning. On the contrary, the very purpose of the rules of international law is to prevent just such acts. In violation of these recognized rules of international law the imperial German government through the means of submarine boats began the destruction of all classes of ships without warning. America was assailed at the sinking of the Lusitania and the coincident killing of American men, women and children. A wave of indignation swept over the American nation, but our President, cautious and patient, held back the war sentiment that then arose and dealt with the subject thru diplomatic channels. Other ships were sunk again and again with sacrifice of American lives. Still our President patiently dealt with the matter through diplomacy. At last the imperial German government recognized the justice and correctness of President Wilson's contentions and promised to desist from further sinking American ships without warning and assuring reasonable safety to crews and passengers. For a time this pledge was kept. But after a time the imperial German government advised the President of the United States that from and after a given date its submarines would sink any vessel entering a certain prescribed zone. There was but one thing for the President to do, and he did it courageously and manfully. He asserted American right to conduct shipping in accord with the rules of international law. He severed diplomatic relations with the imperial German government. This was followed by the imperial German government carrying out its threat to conduct a ruthless submarine warfare. Not only have American ships bound for England and France been sunk, but ships flying the American flag, registered under American laws and owned by American citizens, manned by American crews, returning with empty bottoms and in some instances outside of the prescribed zone have been sunk without warning and American lives sacrificed.

Zimmermann's Plot.

But, that is not all. Immediately after diplomatic relations severed, at a time when the United States had not indicated any steps toward war with the imperial German government, Herr Zimmermann, the

minister of the kaiser, undertook to bring about a coalition with the de facto government of Mexico to the end that Japan and Mexico become allies of the imperial German government, Mexico to have for its portion of a war of conquest the states of Texas, New Mexico and Arizona, and coincident therewith Japan to have such privileges as might be determined. But say some men, Herr Zimmermann has explained that this alliance was to be effective only in the event of war between the United States and Germany. This does not justify the imperial German government's conduct. If the imperial German government expected Mexico and Japan, with whom we were at that time and are now at peace, to help the imperial German government in war against us, it naturally follows that such conduct indicates a perfect willingness on the part of the imperial German government at any time in the past or in the future while we were or are at peace with the imperial German government to aid and assist in any war that either Mexico or Japan might become involved in with the United States.

We are not making war upon the German people, but we are making war upon the imperial German government, the same government for whose acts we know the great masses of the German people are not responsible, but the same government that has ruthlessly destroyed our ships and made war upon men, women and children, the same imperial government which was willing to enter into an alliance with Japan and Mexico, both non-Caucasian races, and deprive us in Texas of our homes and surrender them into the keeping of the Mexicans and Japanese. The kaiser was perfectly willing to forget the multiplied hundreds of thousands of people of German blood who live in Texas and make us the serfs and our women the victims of the semi-barbaric Indian tribes of Mexico. No Texan of German blood can longer sympathize with the imperial German government and be true to himself, his wife and his daughters independent of the fact that our country is at war with the imperial government.

American citizens of German blood have at all times been loyal to America, whether their citizenship came to them as an heritage of birth or through voluntary acts of adoption. Our people have helped to fight the battles of America. Our Southern fathers did not hesitate to follow the Stars and Stripes against Americans of German extraction fighting beneath the Stars and Stripes. Our young men of today will not hesitate to respond to the call of the republic to follow the flag, no matter where it leads. Our men of property will not fail to respond to the fullest extent with the treasures that they have acquired under the blessings of our government to further its interest in this hour of national need.

We are not playing at war. We are going into war earnestly. Under the present suggestion of the President, we will recruit the regular army and the national guard to a war basis, which means 760,000 men. In addition we will at once raise 500,000

GLAD TO TESTIFY

Says Watoga Lady, "As To What Cardui Has Done For Me, So As To Help Others."

Watoga, W. Va.—Mrs. S. W. Gladwell, of this town, says: "When about 15 years of age, I suffered greatly . . . Sometimes would go a month or two, and I had terrible headache, backache, and bearing-down pains, and would just drag and had no appetite. Then . . . it would last . . . two weeks, and was so weakening, and my health was awful.

My mother bought me a bottle of Cardui, and I began to improve after taking the first bottle, so kept it up till I took three . . . I gained, and was well and strong, and I owe it all to Cardui.

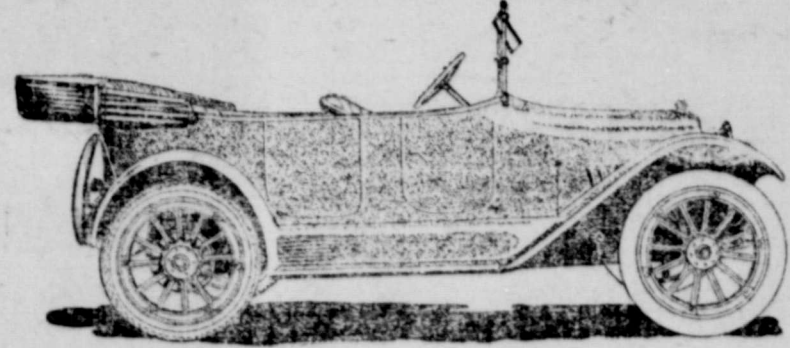

I am married now and have 3 children . . . Have never had to have a doctor for female trouble, and just resort to Cardui if I need a tonic. I am glad to testify to what it has done for me, so as to help others."

If you are nervous or weak, have headaches, backaches, or any of the other ailments so common to women, why not give Cardui a trial? Recommended by many physicians. In use over 40 years. Begin taking Cardui today. It may be the very medicine you need.

men and follow that by increments as time and place and opportunity for training will permit. We will raise an army of as many millions as may be necessary. We shall recruit to the required limit of our navy and marine corps. We shall help to do that which thousands of patriotic Germans sought to do in 1848. We shall establish once and for all the sea is an open highway and that no nation shall have the right to interfere with the shipping of any nation except in accord with the prescribed rules of the international law. Young men of Texas and their parents had just as well look the conditions calmly in the face and realize that the hour has struck when their country needs them. I know that the young Americans of German extraction will respond to the call of their country as promptly as will young Americans of other racial extractions.

There are many citizens in Texas of German extraction, or citizens who were born in Germany. Some of these are not yet familiar with the English tongue. It is to be sincerely hoped that representative citizens of other racial extractions will exert their good influence to protect humble citizens of this kind, who may not be fully understood because of their unfamiliarity with the English language from oppression by thoughtless and indiscreet men. On the other hand, representative citizens of German extraction must take it their personal duty to see that indiscreet acts or acts of disloyalty on the part of any man of German extraction will not be permitted. We had just as well be frank about this matter. We all know that there are many men in Texas of other racial extraction than that of the Germanic who are not in sympathy with the present war by reason of political or religious views, or of antipathy toward England. These constitute but a small minority of our citizens. There unquestionably will be found a small minority of citizens of German extraction who are not in sympathy with our government in this war. The first class enumerated will be calculated to exert a very bad

influence by their example upon the latter class. Caution should be exercised and any expression of anti-American sentiment discontinued.

In America there is but one flag. It is the Stars and the Stripes, and it symbolizes all of the ideals of America. To it all Americans must keep loyal. Those who are not cannot expect the protection of the government. It is claimed (and I have no personal knowledge thereof) that agents of the imperial German government are operating in the United States. Men in authority have reason to believe that some of them would necessarily be secret in their movements and in their actions. To citizens of German extraction in particular comes the duty of promptly exposing to the constituted authorities such agents if found in any community. Caution and discretion should be exerted, however, so that no innocent man may be even embarrassed. In times like these the public mind becomes inflamed and we are given to suspect acts of men which in normal times are not regarded other than natural.

There is one other matter that I wish to call to the attention of the general public. In every community where a sufficient number of citizens reside who speak and understand the German tongue will be found one or more subordinate lodges of the grand lodge of the Sons of Hermann. The ritual of this lodge is in the German language. Membership is not based upon German blood, but upon the ability to speak and understand the German tongue. To it many thousands of our very best citizens of German extraction belong. Its ritual and teachings are idealistically American. I myself am a member of the order. I know and understand its purpose. It is a fraternal, benevolent association, the insurance features of which are supervised by our insurance department. On public occasions and at funerals of its members these orders will display banners and badges symbolic of the sentiments that control the order. I am advised that a general misunderstanding exists as to the colors constitut-

ing its banners and badges. It appears from information at hand that at least in some communities those who do not belong to the order are of the belief that the colors are the constituent elements of the flag of the imperial German government. This is incorrect. The colors are old gold, black and red. They were the colors constituting the flag under which many of our ancestors fought in 1848 in the Revolutionary effort to reform the imperial government of Germany. Those colors are symbolic of the purposes, aims, aspirations and hopes of the present war with the imperial German government as exemplified by President Wilson as they were of the purposes and ambitions of the patriots who followed Carl Schurz and other distinguished exponents of independence and liberty in a lost cause in Germany in 1848.

German Subjects Few

There are some subjects of Germany in Texas, not many. In several instances within my personal knowledge men of that class have within the past few weeks declared their intention to become American citizens. That was their intentions at all times, they having merely neglected to make the declaration. Some of these subjects of Germany may be young men who under the laws of Germany are reservists in the German army. They are in a delicate position. They are upon their honor and their oath to report to their colors when practicable. They were not able to go to Germany at the outbreak of the war, and have not been since. They are here now. By virtue of treaty rights and usage and custom they are hostages in our country. I, of course, do not know what the disposition of our government will be toward them, but my judgment is that so long as they demean themselves as hostages, not seeking to acquire information with reference to our military or naval forces, nor try to communicate with the imperial government or any agent thereof, they will not be molested. I speak of this because I have had numerous inquiries with reference to their status. I would suggest that for the

present those men place themselves in touch with responsible men, citizens in the community where they are residing, so that their good faith may be evidenced by their neighbors should occasion require.

American citizens of racial extraction other than the German must at all times bear in mind that there are thousands of good, loyal American citizens in Texas who were born in Germany, whose closest kin are now and have been for three years fighting in the army of the imperial German government. These men are naturally depressed, their hearts are heavy laden with sorrow, just as you and I would be if similarly situated. It will lighten the burden of these men, who are in all respects good citizens and good neighbors, if those of other racial extraction will make them feel and appreciate that their position is understood and their loyalty and patriotism to America unquestioned. Instead of separating American citizens of different racial extractions this war should cement all closer together by the common ties of American brotherhood. America is not fighting for the dismemberment of Germany, but the result of our entrance into the war Germany will remain a united nation of self-governing people. If the German people themselves should overthrow the present imperial government and create in its stead either a constitutional monarchy or a republican form of government, either based upon the principal of the consent of the governed, and such government should recognize the American position with reference to international law governing the use of the high seas, the purposes for which we have entered the war would have been accomplished.

Hesitation on the part of our young men to enlist in the navy, in the marine corps or in the military service of our government at this time, criticisms of the government's war policy, withholding loyal and united support from the government will only tend to prolong the war, expose the American people to heavier burdens and prolong the day when the German people may lay down their arms, return to their daily vocations under the blessings of a government for which millions of them have contented through the running of the decades. Hence, he who now loyally exerts his efforts in behalf of the United States does not only perform his duty as an American citizen, but helps in the largest possible measure to relieve the people of Germany from their distressful situation.

CLEANSER YOUR HAIR MAKES IT BEAUTIFUL, THICK, GLOSSY, WAVY

Try This! All Dandruff Disappears And Hair Stops Falling Out.

Surely try a "Danderine Hair Cleanser" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff and invigorates the scalp, stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and try it as directed.

MAKE ESTIMATES ON NEW DAM SITE

The matter of building a dam on Bowie creek, just above Bluff Pens, is still receiving favorable consideration upon the part of the board of trustees of the Brady Water & Light works. Judge W. P. Doty is making surveys of the site, and will also make tests for bottom. If these latter tests prove acceptable, it seems most probable that the damming of this creek will be undertaken.

Mr. Doty's figures at present show as follows: A 25 ft. dam across the mouth of Bowie would, at this elevation, have a length of 765 feet and would back water a distance of 8,489 feet. The total capacity would be 79,000,000 cubic feet, which is equivalent to 592,000,000 gallons. The total annual evaporation is estimated at 41,000,000 cubic feet, leaving 282,000,000 gallons. The total watershed of Bowie creek is said to be 23 square miles. It is estimated that should the dam once be filled, the supply would last the city of Brady two years without another drop of rain.

This dam would supplement the present dam, the capacity of which is placed at 65,000,000 gallons.

Work was begun Monday on a smaller concrete dam on Brady creek at the filter plant, W. M. Allen & Sons having charge of the building. This dam will have its foundation in clay, 4 1-2 feet below the creek bed, and will have a total elevation of 10 feet, or 5 1-2 feet above the creek bed level. The base will be 6 feet wide, and the top 2 feet wide, and the length will be 110 feet. The purpose of this dam will be to impound the water which has seeped by the first dam, and which has, heretofore, been lost.

Arrangements have been made with the Santa Fe for shipment of five cars, more or less, as the needs may be, of water from the San Saba river. Each car will approximate 100,000 gallons, which means that five cars will give Brady daily half a million gallons of water. This water will be placed on the side track and pumped to the filter plant before being placed in the city mains. This water is furnished at the same rate as heretofore announced: \$1.25 for the first 1,000 gallons to each customer and \$2.50 for each additional 1,000 gallons. This will enable the water works company to come out about even on the transaction.

Allen Marsden Dead.
News of the death of Allen Marsden at the sanitarium in San Antonio on Wednesday morning has been received here, and while not unexpected, has occasioned sadness and sympathy for the local members of the family. Mrs. J. P. Jones, Miss Clara Marsden and Dick Marsden left Wednesday for Beeville to attend the funeral services, which, it is thought, will be held today or tomorrow.

Allen Marsden is quite well known to many Brady folks, having lived here for several years about twenty-five years ago, and having visited here upon numerous occasions since. Practically all his life, however, he has spent in Beeville, where he was engaged in business. He had long been a sufferer from Brights disease, and for the past three months had been in the sanitarium undergoing treatment. His serious condition had long been realized, and his death was momentarily expected.

He was about 48 years old, and besides his brothers and sisters, is survived by a wife and four children.

Telephone Service

The human element predominates in all things.

Everything used by the human race in the daily march of progress somewhere and in some manner is directed by human intelligence.

So it is in the matter of rendering telephone service.

The human element that goes to make up the organization of West Texas Telephone Company consists of a carefully chosen force. This force is divided into several departments—each department with an experienced head. One is responsible for the proper handling of traffic; a second is responsible for the proper up-keep and extension of plant; a third is responsible for accounting. Each is dependent on the other—all three closely co-operate, and all three are responsible to a general directing head.

It is only with this type of organization that we are enabled to extend to your community a reliable and efficient telephone service.

J. E. Brown and S. W. Hughes, who were delegates of the local W. O. W. lodge to the state meeting in Waco, the last week of March, gave a very interesting report last evening. Such a crowd arrived in the city that the coliseum could scarcely hold it.

Frisco passenger and freight trains now carry the United States flag on either side of the pilot. Orders were sent out to the agents in every town along that line to place a United States flag on top of the station, water tank, round house and on each side of the engines pulling the trains.

The city had the road scraper at work on North Bridge street following the rain Wednesday

morning, with the result that most of the ruts have been filled in. There still remains much work to be done to get this street in good repair, and this will be done as soon as the city forces can get to the work.

Probably the quietest of quiet elections was held Tuesday, at which time members of the local board of school trustees were named by the voters. Only 29 votes were cast and the entire ticket was unanimously elected. The names voted upon were those of H. C. Samuel, Lee McShan, R. B. McClure and Will Ballou.

GLOWING TRIBUTE TO WOODIE YOUNG

A splendid tribute is paid to the memory of William Haywood Young, better known as Woodie Young, by "The Prism," the official publication of Howard Payne college, and resolutions of respect were adopted by the faculty and student body of that institution. We quote from the article as follows:

The sad news has come to the college this week of the death of Woodie Young, professor of mathematics in Burleson College, Greenville, and one of the most promising of the class of '16. The danger had been known for some days but still it is too unexpected to be realized. Mr. Young was a graduate of Rochelle high school, where his parents live, and for four years a diligent student of Howard-Payne. During this time he was an active member of Theodoric Literary Society, a distinguished member of the track team, a consistent student of above average ability in the class room, and a man of good morals in every sense of the word. Although known for his keen sense of moral obligation he was not a Christian until a few months before he graduated here. Since that time he has been a consistent member of the Baptist church and has led a very influential Christian life. Those who knew him could but like him. The college has been thrown into a serious grief at this sad news. Very tender resolutions were adopted and the entire hour of service Thursday morning was given to expressions of appreciation from the students and the faculty. Never has there been such serious tone of appreciation and such noble tribute paid to any one connected with the college. He had won his way into the hearts of the students and the faculty and possessed a place that any one might covet. Five cars of Howard-Payne people went to the funeral services held in Rochelle Baptist church last Thursday. The

CHILDREN'S KIDNEYS.

No Brady Mother Should Neglect the Little One's Health.

Oftentimes weak kidneys cause great annoyance and embarrassment to children. Inability to control the kidney secretions, at night or while at play, is attributed to carelessness and too frequently the child is punished. Parents having children troubled with kidney weakness would do well to treat the kidneys with a tested and proven kidney remedy. If there is pain in the back, discolored urine, irregular urination, headaches, dizzy spells or a tired, worn-out feeling, try Doan's Kidney Pills at once. A remedy that has been used in kidney troubles for over 50 years and has been recommended by thousands. Proof of merit in a Brady citizen's statement.

Mrs. Lee McShan, Brady, says: "A younger member of my family was afflicted with kidney trouble. She was a healthy youngster, except for this weakness. Her kidneys acted too freely, especially at night and this was very annoying. A neighbor advised me to use Doan's Kidney Pills and the first box brought relief. I kept up the treatment and since taking two boxes, the kidneys haven't given any trouble." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. McShan recommends. Foster-Milburn Co., Props., Buffalo, N. Y.

floral offerings were beautiful. Perhaps the most attractive was the large wreath from Howard-Payne college and students. Flowers were also sent by Burleson College. Theodoric Literary Society, the McCulloch County club and many friends.

Brother Gibson, pastor at Rochelle, and Brother Hamilton of Blanket both paid excellent tribute to his memory. C. E. Lancaster spoke of the deceased from the point of view of a fellow student. The large audience was made to appreciate anew the noble young man when Prof. Winebrenner spoke of him from the point of view of a teacher. Some of the most striking things can not be repeated with the deep meaning they had to those who know him more intimately. But one significant thing that he said was in reviewing his own long experience as student and teacher in school he would choose Woodie Young among the most exemplary students of his acquaintance. Further he went on to say: "If I were asked to choose five of the most ideal characters of my acquaintance the deceased would be one of the five. Then, if I were asked to select two of the strongest specimens of manhood, two of the men who have come under my observation as possessing the finest and strongest characteristics I can go no further to say that I believe that Woodie Young would be one of the two."

Dr. Baten then spoke on Woodie from his viewpoint. He not only paid high tribute to his memory and his fine Christian character but also gave words of comfort to the bereaved.

A quartet was sung by the Theodoric society.

The pallbearers were Gwinn Henry, Horace Shelton, Chester Evans, Doyle Brooks, Troy Brooks, Jim Matlock and J. Frank Weedon.

In Mr. Lancaster's talk he truly said that Mr. Young's life was an inspiration. Just as his life was inspiring in nobler and better things may his death be an inspiration that will call out the very best in us.

Below are the resolutions adopted by the students and faculty:

April 4, 1917.

Whereas, the faculty and student body of Howard-Payne College have learned that Mr. Woodie Young died at an early hour this morning:

Whereas, Mr. Young was for several years a student in Howard-Payne College, having been graduated from this institution as a member of the class of 1916; whereas he was a young man of exceptionally fine character, being an exemplary Christian gentleman; therefore

Resolved, that in the death of Mr. Young the faculty and student body of Howard-Payne College have lost a most loyal alumnus; that we are grieved beyond our powers of expression, and yet, we rejoice greatly in the fact that during his Senior year in Howard-Payne, he surrendered his soul and life to Christ and at once took his place among active Christian workers for the furtherance of the kingdom of God; that we hereby extend to his parents and the other members of the family our heart-felt sympathy
