

## FRIDAY NIGHT

BY BILL ELLIS

**FRIDAY MARKS** the end of 12 years of schooling for 32 Bovina youngsters.

We wish to thank the many businesses and individuals who have made our tribute to the seniors possible in this edition of the Blade. We have "beefed up" our senior tribute some this year, with individual pictures and a brief sketch of their activities.

For many of this year's seniors, graduation will be just a pause before continuing their education, but for several others, the quest for jobs—the permanent variety—and-or careers and marriage, will be just around the corner.

The graduates of 1975 are going to find the job market the most competitive they have been in several years, or so it would seem.

With unemployment higher than usual, it may be harder for the graduates to locate a good, steady job. However, in our immediate area, there always seems to be jobs for those who really want to work, so if you are in this category, you'll probably make out all right.

AN OLD IDEA REGARDING the state of Texas has been brought up by a pair of legislators. With all of the flack that Texas has been receiving, although the state is the nation's richest energy producer, the idea may have some merit.

We refer to the old idea, and privilege that the state has, of dividing itself up into five smaller states.

Buffeted by Eastern ecologists who oppose offshore oil drilling and construction of oil refineries, and newer threats, such as the loss of natural gas for irrigation purposes, the failure of the farm bill, etc., the idea may be getting closer to being a reality.

According to the treaty under which Texas joined the United States, we retained the right to divide into as many as five states.

Using a little quick arithmetic one can easily see that this would give Texas ten senators instead of two, and would still leave Texans with less representation than New England, which has only 66,608 square miles, to Texas' 267,338.

New England now outvotes Texas 37-26 in the electoral college. Should the state vote to split up, this would be reduced to 37-34. "Splithood" would not change the setup in the House of Representatives, since this is based on population.

State senator Bob Gammage, and Dallas representative Fred Agnich are supporting a movement which would call for a referendum on the splitting question on next year's general election ballot.

We would like to see the referendum, just to see out of curiosity how the voters would react. As usual, the referendum would not be binding, but it would give state legislators a yardstick to go by.

There was a time when we doubt if such a proposition would have been favored by many, simply because of plain old stupidity called PRIDE at being the largest state, for whatever that was worth.

However, since Alaska came along and punctured most Texans' egos, we won't have to worry about that problem quite as much. (Many Texans, though, contend that Texas is still the nation's largest "fully thawed" state.)

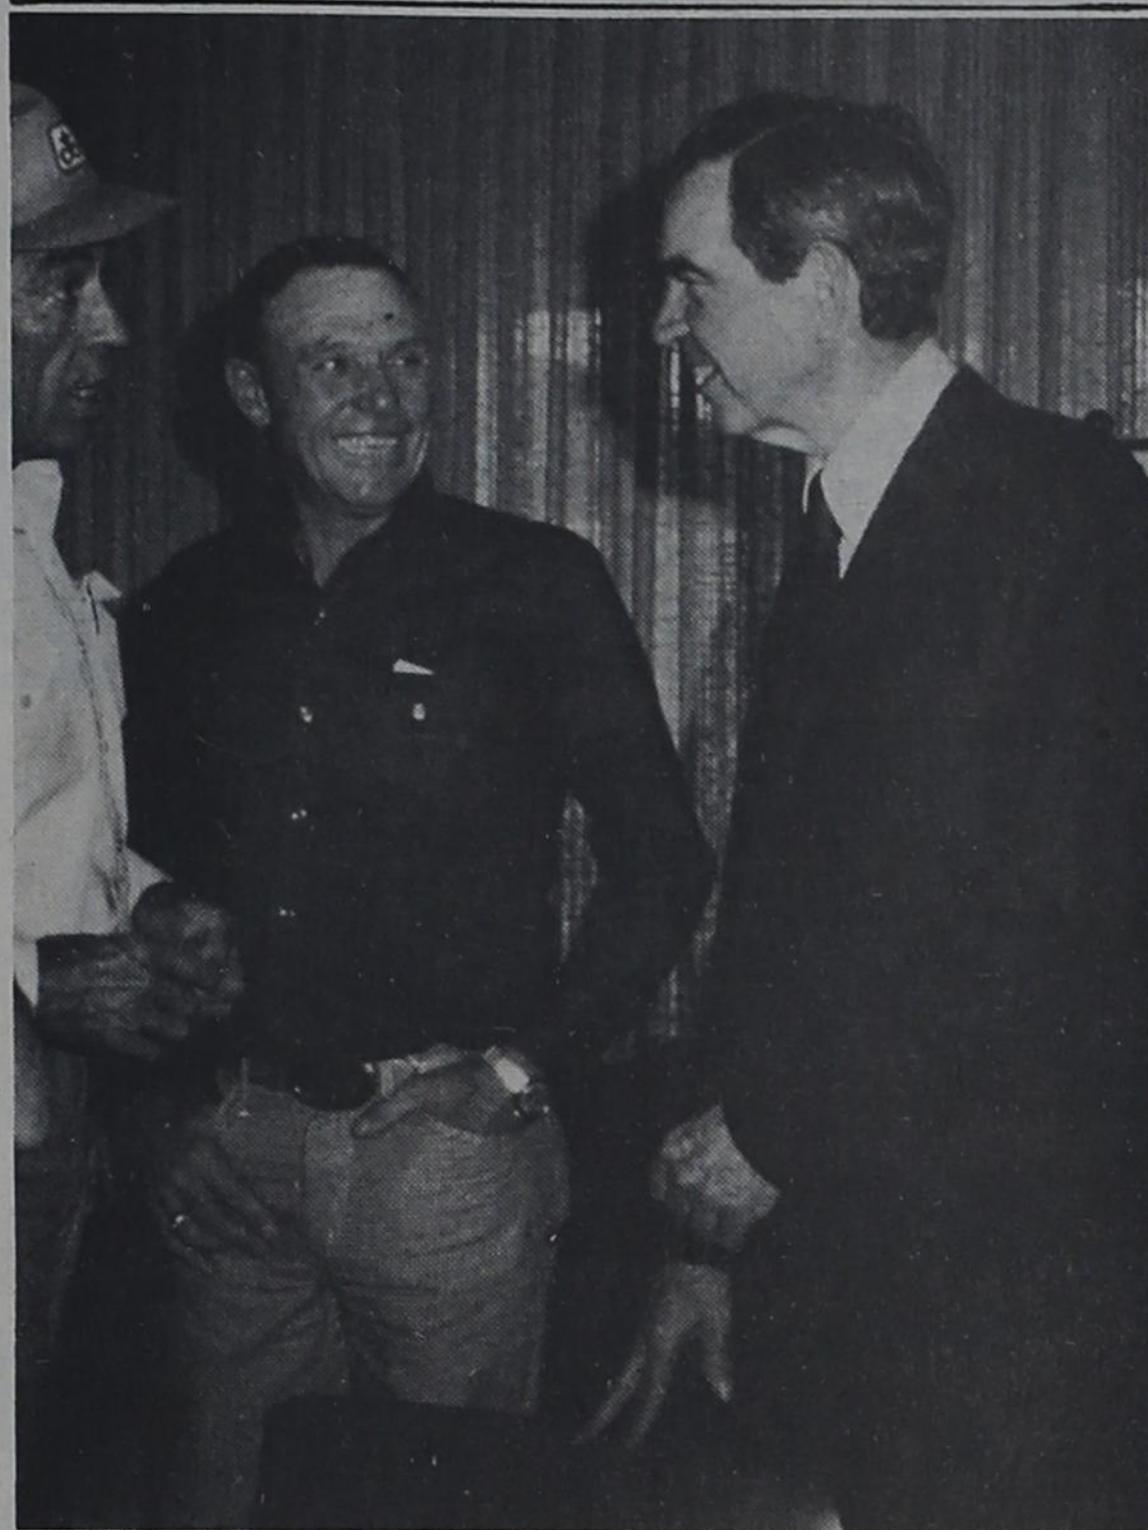

The two Texas lawmakers argue that our state is the nation's major energy producer, one of the major agricultural, industrial and shipping states, but can be rendered helpless in the U.S. Senate, where little old New England has 12 votes to our two.

If the Supreme Court were to call the splitting move unconstitutional, the two lawmakers say, then that might uncover a new can of worms.

According to Gammage and Agnich, if any part of the 1845 treaty were termed unconstitutional, the whole treaty would have to be thrown out, and Texas would revert to being an independent republic again.

That might be the best idea yet. Then, maybe we could apply for foreign aid.

# Commencement Set For Class Of '75

## TO SCHOOL BOARD

# Dr. Laycock Presents Visiting Teams Report

Dr. Kenneth Laycock of Canyon met with members of the board of trustees of Bovina Schools and a number of interested spectators Thursday night at Ridgelea School to give a preliminary report on a visit by four members of the school evaluation team.

Three members of the preliminary visiting team and Dr. Laycock wrote reports on their observations during a two-day visit at Bovina Schools.

Dr. Laycock noted that everyone they visited had been friendly, cooperative, helpful and frank and discussed briefly the responsibilities of the school administration, board of trustees, faculty and community.

Noting that the school had "reached a very critical point," Dr. Laycock said positive or negative actions resulting from the self evaluation process would be determined by the community and school. He said there were "islands of strength within the school" and that Bovina needed to conserve what

had already been accomplished and go from that point.

Laycock pointed out several problems in the curriculum and also some fine points, saying the team had classified a high percentage of the teachers as outstanding instructors.

"There is an unusually high level of community interest in this school," he commented. Noting that in a number of communities, the interest begins and ends with the sports program, he said that "everyone involved seems to want what is best for the students, even though there has been some evident differences of opinion. The adults should put aside their differences and work for what is better for Bovina Schools."

In conclusion, Laycock noted that "it's difficult to be introspective, but as most faculty members become absorbed in the self-evaluation plan, they become very enthusiastic about what can be accomplished."

# 22 Children PreRegister For '75-'76

Some 22 children were pre-registered Thursday, May 15, at Ridgelea Elementary School for next year's kindergarten classes, according to Wilson DiCuffa, elementary principal.

DiCuffa said he expects about 45 children to be enrolled in the classes next year.

No further pre-registrations will be accepted, DiCuffa stated, although he emphasized that parents should have birth certificates and health records up-to-date prior to the beginning of school next fall.

Another registration period will probably be held during the teacher's in-service week prior to the beginning of school in August.

Price for the nine wallet-size color photos of individuals is 99 cents plus tax. An additional charge will be made for group shots. There is no limit, either to the number purchased or to age of customers.

An advertisement with further details may be found elsewhere in this issue of The Blade.

# Car Wash Slated Thursday

The event will be held from 10 a.m. until 4 p.m. with the charges set at \$5 for washing the car and cleaning the interior and \$3 for washing the exterior of the car.

Funds derived from the car wash will go toward defraying expenses of the cheerleading camp the group will attend in July on the campus of Southern Methodist University in Dallas, according to Mrs. Carolyn Reeves, sponsor.

Persons desiring to have their cars picked up and delivered may phone the church office that day.

Working that day will be Dian Roming, Connie Ware, Cathy Rimbles, Denise McCormick, Diana Naegle and Linda Marcom, cheerleaders; and Rita Nuttall and Ginger Gober, captains of the pom pom squad.

JUNE 7

# Tests Set For Pre-Schoolers

Vision screening tests for pre-school age children of Bovina will be held Saturday, June 7, at the First State Bank. It was announced today by Mrs. Gregg Wilson, chairman of the screening project.

Volunteers trained by the Texas Society for the Prevention of Blindness will screen youngsters ages 3-6 for signs of visual problems between the hours of 10 a.m. and 5 p.m. The volunteer screeners are members of Bovina Young Homemakers.

"Some childhood eye defects, if not corrected before the age of six, can lead to permanent loss of vision in the affected eye," Mrs. Wilson pointed out today in urging all parents to bring their youngsters to the free screening program.

"Children must rely on adults for good sight," she said. "By himself, the child has no way of telling whether his sight is good or bad. A youngster may suffer from blurred vision or use only one eye to see, and still not complain because he doesn't realize he should see better."

The program is being sponsored by the Texas Society for the Prevention of Blindness and has the endorsement of the Parmer County Medical Society with the cooperation of Dr. Paul Spring. It is under the direction of a Project Advisory Committee.

Purpose of the vision screening is to detect signs of possible vision defects in children at an age when they still can be corrected with best results. The Texas Society for the Prevention of Blindness estimates that there are 700,000 school children in Texas needing eye care. Vision difficulties in school children can lead to study and emotional problems, the TSPB says.

Volunteer teams will check the child's visual acuity by means of a Snellen "E" chart. If the youngster's performance gives evidence of a vision difficulty, he will be "referred"; this means the parents are notified in writing of the child's need for a complete, professional eye examination. Subsequently, each referral is followed-up to insure that the child has undergone the necessary examination.

Instructor for the training course for screening volunteers was a program consultant for the Texas Society for the Prevention of Blindness.

The screening project in Bovina is the latest in a network of such programs being carried out across

Mrs. Veazey, a 1972 graduate of Bovina High School, is the daughter of Mr. and Mrs. Henry Spicer of 402 Seventh Street.

He was born August 26, 1899, in Leonard, Tex., and moved to Clovis in 1927. He was a member of the First United Methodist Church. Mr. Sikes was a retired electrician with 30 years service at Southwestern

### THE POWER OF PRAYER

By his camel, Abraham's servant prayed (Gen. 24:11-13).  
In a field, Isaac prayed (Gen. 24:63).  
By a brook, Jacob prayed (Gen. 32:22-24).  
Lying in a dungeon, Jeremiah prayed (Lam. 3:55).  
Encompassed by lions, Daniel prayed (Dan. 6).  
Lodging in a cave, David prayed (Psa. 57:1-11).  
On a housetop, Peter prayed (Acts 10:9).  
Standing before a king, Nehemiah prayed (Neh. 2:4).  
Even in a fish, Jonah prayed (Johan 2:1).  
Turning his face to the wall, Hezekiah prayed (2 Kings 20:2).

Some of the most powerful forces known to man are the silent forces. Gravity holds our world in its place. Our Sun keeps our energy supply to a level to run our world. A sincere, dedicated, fervent prayer has changed many things in the history of this world. Prayer, so little used, is still the powerful force it has always been. Try it, it still changes things.

**School Board Hears Report --**

(Continued from Page 1)

The self-evaluation program is scheduled to begin at the onset of the 1975-'76 school term and will take the entire year to complete.

Also on the agenda was a report on a workmen's compensation plan for next year. Superintendent L.F. Jacobs reported that Bovina Schools would have to have a plan by July 1 of this year and estimated the cost would be \$2000 to \$2500. The cost is based on the school's payroll. Members of the board voted to table action until the next meeting, giving officials time to check into different companies' plans.

The board heard a report on the cost of glass breakage insurance coverage for the school. Noting it would cost approximately \$1800 per year for the insurance, with a \$100 deductible clause, the board agreed not to use the insurance.

In addition, the board tabled a decision on applying for member-

ship in the Texas School Board Association and appointed Lawrence Jamerson, Leslie McCain, Laurence Kriegel, Jon Lin Riddle and Billy Whitecotton to the tax equalization board.

**Joe Steelman  
Receives Honor**

Joe Steelman, valedictorian of the 1975 Senior Class at Bovina High School, has been selected as a "commended student" in the 1975 Merit Program, sponsored by National Merit Scholarship Corporation.

He was selected on the basis of his 1973 preliminary scholarship aptitude test score, according to Gary Cox, high school principal.

Steelman is the son of Mr. and Mrs. Eddie Gayle Steelman.

**FHA Members Host  
'Secret Granny' Tea**

Some 15 "Secret Grannies" attended a special tea in their honor Wednesday afternoon of last week in Bovina Schools cafeteria. The party, where members of the Future Homemakers of America revealed the identities of their "secret grannies," marked the final event in the project which began shortly after school started in August.

The project began with a letter sent to each "secret granny" explaining the activities. During the year, FHA members remembered their "grannies" on holidays and special occasions.

Red punch and tea cookies were served from a table covered with a white cloth and centered with an arrangement of red roses and greenery in a silver bowl.

Mrs. L.M. Grissom was presented the arrangement following the tea.

Included on the program was the installation of FHA officers for the 1975-'76 school year and the FHA "Big Sister-Little Sister" ceremony.

Installed as president was Rhonda Nuttall. Other officers include Kay Beardain, first vice president; Steve Guest, second vice president; Tammy Christian, recreation chairman; Karla Mills, reporter-historian; and Dianna Naegle, secretary-treasurer. Sue Monk, president of the chapter this year, installed the officers. Mrs. Gwen Corn is advisor to the chapter.

Freshmen "Little Sisters" presented their senior "Big Sisters" with pillows with the "Big Sisters" in turn presenting the "Little Sisters" a long-stemmed red rose.

When the "secret grannies" arrived at the party, each was presented a corsage. The girls later revealed their identities by donning a matching corsage.

Chapter members and their "secret grannies" attending the tea included Tami Russell and Mrs. Earl Derrick, Tammy Christian and Mrs. Jerry Ware, Jyl Gromowsky and Mrs. Oma Gunn, Cathy Trimble and Mrs. Emmett Tabor, Sue Monk and Mrs. Buck Ellison and Mrs. Travis Lloyd, Linda Marcon and

### agri-facts

By John Ricci

This is the first week of AGRI-FACTS and it seems appropriate to take this opportunity to explain a little about the column since now you'll be able to read it here every week.

Through this column, we'll take a look at agriculture. Hopefully, there will be some things you didn't know at all, others you thought you knew but weren't quite sure about and without a doubt there will be observations and definitions some readers know a whole lot more about than the writer.

One thing is guaranteed... many readers will find something new every week... and to keep things even more interesting you will find an occasional hint about the easy way to solve a problem you may be having around the house or on the farm or ranch. Comments on the column will be appreciated. Anybody's... anytime.
