THE FOLLOWING TELEGRAM FROM THE U.S. FOOD ADMINISTRATOR AT WASHINGTON, D. C., WAS RE-CEIVED TUESDAY:

"The following rule has been adopted in connection with the special rules and regulations governing dealers in poultry and eggs: "RULE 14.—The licensee shall not, between February 11, 1918, and April 30, 1918, purchase, ship, sell or negotiate the sale of any live or freshly killed hens or pullets; provided however, that this shall not prevent the purchase, shipment or sale between February 11 and February 23, 1918, of hens or pullets which were either killed or shopped prior to February 11, to markets for sale as food; and provided, further, that nothing in this rule shall prevent the purchase, shipment or sale of live hens or pullets for egg production purposes.

"Effective February 11, 1918."

The new regulation, as indicated, is for the purpose of stopping the slaughter of hens and pullets for a period of about seven weeks in order that the egg production and chick crop might be increased. It is unlawful for either licensed of unlicensed dealers or persons to ship or to sell for the purpose of butchering, pullets or hens.

This does not hinder or stop the sale of Cocks, Cockerels Turkeys, Ducks or Geese, and we will continue in the mar ket for this class of goods.

CARROLL COLONY MIX-UPS.

"Sunbeam" back on Job, But Reports News Scarce.

Brady, Texas, February 11th. Editor Brady Standard:

After an absence of quite a while "Sunbeam" is back, but with very little news.

There are some prospects of rain in which was an encouragement, if not a benefit.

Miss Mittie Parker is residing in the home of Dr. W. C. Jones, of Brady. Gus Parker has an attack of chicken-pox this week, which is keeping him out of school.

There was no Sunday school or B. Y. P. U. Sunday on account of unfavorable weather and sickness in the community.

There will be church at Dodge Saturday night and Sunday, conducted by Rev. Harley Smith. Everyone attend if possible.

Miss Clara Pennington is visiting in our community from Lohn, this week.

Mr. Everett Perry and Ermer Oli-

ver are on the sick list this week. News is scarce and "Sunbeam" is busy, so will ring off, hoping Mr. Editor and readers will excuse this uninteresting letter.

BUTCHER SHOPS **ASKED TO CLOSE MEATLESS DAY**

Houston, Texas, Feb. 5th .- State Food Administrator E. A. Peden is being daily advised of meetings of butchers and meat market proprietors in various Texas cities on the issue of closing their markets on Tuesday, which is meatless day, and of conducting their business so as to sell no pork on Saturday, which is porkless day.

Mr. Peden thinks that the question of closing meat markets on Tuesdays should be a volunteer measure on the part of a community and that if the majority of the guild are in favor of closing the minority should abide by the decision.

"Butcher shops and meat departments of retail stores should close their places of business or departments on Tuesday," said Mr. Peden. "If all do not agree to close those willing need not close but should handle on that day only fish, poultry or permitted wild game. If this works serious injury to the business, the dealer should report the situation to the county and state food administrators for appropriate action."

In Brady, both markets have decided to close on Tuesdays. The scarcity and difficulty in getting fish and oysters, does not justify the shops in remaining open for the sale of such articles. Poultry has also been ng your students of placed on the restricted list until April 30th.

When the Sun Sinks Into the Golden West

Hundreds of brave young American soldiers in France watch it's fading rays with a longing in their hearts to follow it until they are back by the warm fires of the dear old home in the States.

Did you ever feel lonesome? Did you ever have a creepy feeling in your make-up that the world, friends, all had forsaken you, and that you were the only one in all the universe who cared a hang whether you lived or not? The boys who have gone to France to fight for you and me, must be constantly reminded that they are being thought of. We mustn't let them fight and make all the sacrices while we stay at home and take our ease. We must meet them half way. If we can't fight in France we must furnish the comforts for the boys who are fighting. We can furnish the government with money to keep them properly equipped. Thousands of soldiers in the French, British, Italian, and Russian armies have died because they didn't have the proper equipment. Let's not have it said of UNCLE SAM'S great army has nothing to fight with and no money to buy equipment with.

"It is not claimed by any one that tically all possible producing territory. Some of it will be richer than other sections and there is plenty of room for several Cushings.

Indications Over Great Area. "The showings of gas, shallow wells carrying oil, and carboniferous outcrops of this whole section have assumed extreme importance and are

the most of by alert geologists and prospectors. The shallow development on the Texas & Pacific properties at Strawn has its replica in the shallow field near Brownwood in Brown county, and similar occurrences of either oil or gas are indicated by earlier work at several points in Coleman and McCulloch counties

"The extent of this territory going south and southwest from the Texas & Pacific well at Ranger seems reasonably sure to include not only Eastland, Coleman and Brown counties, but much of Comanche, Callahan, Concho, McCulloch, San Saba and Mills counties.

"There are 4 principal points from which the scouts are now working -Brownwood, Mineral Wells, Cisco and Coleman. From its central location. Cisco, in Eastland county, probably will become the center from which hole is finished. most of the oil well supplies will be distributed. It is not only centrally located, but it has two good railway connections and water-two essentials that are vital. It occupies a large portion of western Eastland county and forms a rather narrow belt extending across Brown county and eastern Coleman. The Cisco formation is coal bearing, and is mined in Colen.an and McCulloch counties.

600 PARREL WELL IS DRILLED IN AT COLEMAN.

Coleman, Texas, Feb. 11-Mitchell Well No. 1, brought in near here last week as a gasser, has drilled itself in and oil men say is good for 400 to 600

Oil men are coming in on every train and leases are changing hands at from \$50 to \$300 an acre.

Interested in Oil.

Among recent arrivals in Brady, who are interested in the oil developments are the following: A. W. Cooper, Kansas City, Mo. D. F. Larson, Tulsa, Okla.

W Eastman, Eastland. S. Tarbell, Eastland. H. E. Chambers, Oklahoma City. R. Morris, Tulsa, Okla. T H. Ragsdale, Wichita Falls. Paul Whitten, Wichita Falls. Joel G. Hicks, Coleman. K. V. Ingham, Pittsburgh, Pa.

W. H McMeans, Abilene. Paul W. Smith, Mineral Wells Mrs. A. T. Jergens, Wichita Falls L. J. Pepperberg, Wichita Falls. Dick Sellman, Rochelle C. O. Whitley, Perry, Okla. J. H. Smith, Illinois

W. G. Page, Tulsa, Okla.

Henry W. Ley, Pittsburgh, Pa. L. G. New and son, Cushing, Okla. L. H. Ford, Cushing, Okla.

J Russell Crabtree, Cushing, Okla. S. J. Howard, Pear Valley. C. A. Bowen, Tulsa, Okla.

O. R. Ellsworth, Houston. J T. Craig, Houston A. C. Tarver, Mineral Wells. Dick Slaughter, New York.

O. B. Hoover, Houston

Essay on Oil.

The late George Fitch wrote an essay on oil wells and the same has been slightly revised by an oil man, stay. as follows:

"An oil well is a hole in the ground for Corpus Christi, where she will about a quarter of a mile deep, into spend several weeks enjoying the gulf which a man may put a small fortune breezes and salt water. or out of which he may take a big one. And he never knows until the ter, Miss Ruth, accompanied by Mrs.

"Nothing is as non-committal as an oil well that isn't finished A sphynx is garrulous beside it. But when it is finished, it either goes on being quieter than ever, or it begins spouting automobiles, trips to Europe and marble mansions in New York.

"An oil wll with its fancy work on top clutters up the landscape a good deal, but nobody seems to mind. In Tulsa, Oklahoma, some of the finest residences in the city are defaced by well-derricks in thir back yards, but hte owner of the house does not tear his hair and mourn, because his cucumber vines are getting trampled on. He merely sings a low sweet song on the first of each month and goes down to the safe deposit vault to cut coupons. We would enjoy being a rich man and having an oil well invade our back yard We would even consent to be a very poor man if an oil well would come and deface our asparagus bed and fill our cellar full of petroleum and our stocking full of 220.00 gold pieces.

"An industrious oil well is one of the pleasantest companions on earth, even if it does gum up the surroundings a little. It is one of the few welcome anywhere."

WAR TALKS

By UNCLE DAN

Military Training Necessary for Safety and Defense.

"Say, Uncle Dan," said Billie, "Jimnie and I have been looking up about war in the encyclopedia at school. We found that in the war between Germany and France in 1870-71, Germany ost in killed and wounded 28,000 soldiers while France lost about six times as many, and besides that, she lost every battle. We asked Professor Slocum why this was. He said that the German army was highly trained and ably commanded, while the French soldiers were poorly trained; and that their war department was honeycombed with jealousy and politics; that the officers were not much good, and that's why France lost the war and so many men. What do you think about it, Uncle Dan?"

"Well," said Uncle Dan, "Professor Slocum is right. By inefficiency France et that war, together with two of

raine and had to pay a officen lars indemnity money. France today learned her lesson by that sad experience, so she put in universal military training, and as a result, her soldiers now know how to fight and how to protect themselves. They are losing ess men in the war than the Germans. France also put politics out of her war department, so that expert authority, instead of bureaucratic stupidity, now directs the army. The result is, France has one of the best and most efficient armies every assembled, and this shows what thorough training and good leadership means in warfare. This saved France in this crisis, as well as the liberties of the world."

"As war is now conducted, there is no place for an untrained man. A body of 10,000 well trained soldiers properly handled could defeat five times their number of raw recruits and do it every time with comparatively small loss to themselves. Proper training alone will reduce the death and casualty rate one-third of what it otherwise would be, and right here is an unanswerable argument for universal military training.

"Our government has no moral right to force her men into war service without properly training them for it. To do so is simply murder, hence the frantic effort that is now being made to give her soldiers some training before they are sent to the front. If we are to win this war, it will take trained men to do it, and it will take trained men to win any other war that may come upon us in the future. If we must fight, let us fight to win and not

"That's the stuff," said Billie.

Continuing. Uncle Dan said: "Our overnment has expended about \$300,-000,000 to put up cantonments and training stations in order to train the men called by the selective draft. just across the river and about four When these men are trained the train- miles distant from Waldrip. Mr. filled with younger men, say those in their nineteenth year, to receive six months of intensive military training along the lines of the Chamberlain bill. This will be of immeasurable benefit to them individually. It will years of their whole life; it will make them strong, manly, self-reliant, quick the mine has orders piled up faster to see and quick to act; it will equip them for a successful life. In short, it will rebuild American manhood and will also give the government a body of trained men to draw from in case it is necessary to defend our flag and country. We must settle this question of universal military training immediately, otherwise these training camps may be demolished. The adoption of universal military training will be notice to the world that from then on we will be prepared to defend ourselves promptly and efficiently, and this will do more to keep us out of war in the future than anything else we could do."

"Do you think, brother," said Mrs. Graham, "that there will ever be another war?"

"I have no doubt about it," said Uncle Dan. "So long as men are selfish, so long as nations are ambitious to acquire territory, so long as population presses and demands more room, so long as there remains a scramble for world trade-so long wars will be. When the time comes that we reach the high plane for which we hope and dream, when all will recognize the fatherhood of God and the brotherhood of man, then, and then only, will wars cease. When that day comes doors will need no locks, banks will need no vaults to protect their treasures, but that day is a long way

"The only safe and sane plan is to he able to defend ourselves at all times. Therefore, every citizen should insist that senators and congressmen shall provide for universal military training, so that never again shall the country be caught so completely unready as this war found us. Fortunately, in this case, our enemy has been held back, so we have had a few months in which to prepare. This advantage probably will never come again. It is however our salvation today.

"Because she was ready, Switzerland is an island of peace in a sea of war. Safety first is good, but safety always is better. In strength there is safety. You never saw a tin can tied to the tall of a bulldog. There

YOU COOK YOUR FOOD—WHY NOT YOUR TOBACCO?

TOU know what broiling does to steak, baking to a potato-and toasting to bread.

In each case flavor is brought out by cooking-by "toasting."

So you can imagine how toasting improves the flavor of the Burley tobacco used in the Lucky Strike Cigarette.

FUEL IN McCULLOCH.

Coal Might Profitably Be Mined in Waldrip Section.

on the Waldrip route, last Friday brought in on his return trip a supply of coal for home consumption. The coal was secured at the mines ing stations should be immediately Hayes says the coal mines there have been worked about two years now, a shaft extending quite a distance built down into the shaft, and the coal as mined is hauled out on cars do them more good than any other two running on this track. Since the scarcity of fuel has become so acute,

than it can produce the coal, and Mr. Hayes said orders had to be placed two weeks in advance of delivery.

The coal is of fair grade, and while containing considerable clate, it may Dick Hays, the genial mail carrier be had at the mine at a very low price, which, together with the scarcity of better fuel, makes it quite desirable.

There are several veins of coal in the Waldrip community also, but the depth at which the veins lie, and the difficulty of transportation have caused these mines to lay idle. It is into the earth. A track has been possible, should the shortage of coal continue that these mines may be opened up and arangements be made to market the product.

CLASS V, AND SUPPLEMENTAL CLASSES I, III, IV.

The draft call announced for February 23rd, by Provost Marshal General Crowder to complete the quotas of the first draft is not likely to affect McCulloch county, according to members of the local exemption board. When the last-minute call came a couple of months ago to send all the men available to Camp Travis, the local board acted so promptly and so successfully in calling up men from all parts to the colors, that at the time of sending the colored contigent, Mc-Culloch county lacked but eight of having sent her full quota of 101 men. · Since then, McCulloch county has from time to time been given additional credits until now officially she owes but three men, and unofficially, but one man. The men joining the colors and making for the additional credits are the following: Officers' Arthur Browning, Electra. Reserve-C. W. Carter and O. L. Neyland; Medical Division-Joe R. White, Second Officers' Reserve-Arthur Ernest W. Clary, Rochelle. Zimmerman, Floyd Sansom; Drafted Thos. Edgar Clements, Lindsey, Okla. Men-Jamie Brook, Harvey L. Goodman. The eighth man for whom cred- Daniel L. Dunn, Harrisburg, Ills. is should be given McCullech county is John J. Evans, Voca. Cyrus Horn, recently drafted as a Jas. O. Floyd, Rochelle.

McCulloch county can thus lay A. F. Holt, Bisbee, Ariz. claim to being one of the first, if not Lewis Jones, Rochelle. Made Assistant Professor in Psychology.

Earl Neal, former Rochelle boy and son of Mr. and Mrs. J. S. Neal, has been made assistant professor in Psychology at Cornell university. Earl has been instructor in Bridgewater College at Bridgewater, Va., and was just recently recommended by the war department for a position in Cornell university in order that he might take a special course in psychology. The nature of his work will be to examine the minds of the officers and soldiers going to the front in France. Earl writes his parents as follows with reference to his new work:

Ithaca, N. Y., Feb. 6th, 1918. "Well, I am here after a very prolonged journey; was about twice as long coming as I should have been. As you know, there has been heavy snows in this section. It is estimated to average 2 ft. in depth now. As luck would have it, I was caught in a blizzard on 16g my first night on the road and in some places the .mew drifted .5 feet on the track. Cur train got caught in seven snow drifts and had to be dug out. On one occasion it took six engines to pull two coaches and a baggage train out of a drift. Irracad of gotting here in about 20 hours I was part of three days on the road.

"I got here at 10:00 this morning. and have accomplished a great deal. Have my work all planned. Took an oral examination and have been given a position as an assistant professor in this work. You see, I have had a part of it and will be given a more advanced course so this made me able to do the assisting work. It only pays for the tuition of the course, but gives me practical work in directing the experiments which will be a boost for my appointment. Tuition, hospital fees, etc, all have to come in advance. I think they take care of you in case of illness.

"I have just met the other fellows rooming here and one is from Texas. He knows Jack Shelton and some other boys I know, so it makes me almost feel like I know him. He is the first man that I have seen in eighteen months that knows someone that I

"I have not seen the town or anything but a few of the buildings around the campus. Everything seems very nice. I hope to like it here. All my men seem to be nice fellows.

"Well, as I am rather tired and sleepy I guess I had better close. the new conditions."

J Striegler, B. F. Matthews, W. D. Crothers, E E. Polk. Team No 12-Rochelle, Placid and

Mercury. Jim Mann, A. W. Tipton.

TESTED AUTO MATERIAL MAKES INTERESTING DISPLAY

F. R. Wulff, local representative for the Dodge Bros.' car, has an unusual and interesting display in his sales room, the display being made up of various Dodge automobile parts, which have been subjected to the usual tests to determine their fitness for use in the finished car. Among others there are twisted axles, one of which has been turned at least a dozen times; also other parts which have been tied in knots. All the tests are made in the cold, and demonstrate the excellence of the material which goes to make up this popular car.

For Indigestion, Constipation or Biliousness

Just try one 50-cent bottle of LAX-FOS WITH PEPSIN. A Liquid Digestive Laxative pleasant to take. Made and recommended to the public by Paris Medicine Co., manufacturers of Lexative Bromo Quinine and Grove's Tasteless chill Tonic.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Cure is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
