### MASS MEETING NEXT TUESDAY FOR HOBBY CLUB

A meeting was held Wednesday afternoon at the court house for the purpose of organizing a Hobby club. There were something like 200 or more enthusiastic Hobby supporters in attendance, with the ladies largely predominating in the crowd, and neatness and dispatch may be said to have marked the proceedings.

Judge F. M. Newman presided, and Sam McCollum made a rousing talk for Hobby, declaring that every candidate should be made to show just where he stands on the governors race, and that if anyone refused to state his position it might be put down for certain that he was a Ferguson man and not a Hobby man. At the conclusion of his address Mr. McCollum proposed Judge Newman as the president of the Hobby club, and the nomination was made unanimously.

W. G. Joyce spoke a word of caution as regards voting the balance of the ticket, and especially with reference to the lieutenant-governor's race in particular, stating that a good man should be selected, in order that the right man should be in line for the governor's chair, should there be occasion for another "accidental governor."

It was decided to have an active Hobby organization in every precinct in the county, and to this end it was proposed to have a lady and a man to act as chairman for such club in each precinct. Mrs. S. J. Howard who has been appointed county chairman for the ladies' Hobby club, will have supervision of the appointment of the lady chairmen in each precinct.

It was decided to appoint two soliciting committees to secure names of endorsers and supporters of Hobby for Governor—one to be made up of ladies who will solicit both men and women signers, and the other committee to be made up of men. Messdames Roy Wilkerson and A. W. Tipton were named the ladies committee, and W. L. Hughes and T. J. Wood, the men's committee.

It was decided to hold a big mass meeting next Tuesday afternoon at the court house at 2:00 o'clock, to which every supporter of Hobby for Governor in McCulloch county is invited to come. The object of the meeting will be to get an active Hobby campaign started in every part of the county. Judge Newman is now in correspondence with Sam Sparks and ex-Governor O. B. Colquitt, and confidently expects to have one of these gentlemen present to speak in behalf of Hobby.

At the conclusion of the meeting the Hobby supporters present were asked to sign the Hobby club membership list, and practically every person in the house responded.

### ODOM MARTIN WOUNDED 2ND TIME IN FRANCE

Word has been received in Brady that Odom Martin has been wounded for the second time in France, and that he is again in a hospital for treatment. Odom joined the marines something like a year ago, and for the past six months or more has been in France. A couple months back he was wounded by a shrapnel, and was confined to the hospital for some time and now it appears that shortly after rejoining his company he was again injured.

From his letter it would appear that the shock received at the time of his last injury had been almost as serious as his wound, as his nerves seem to be quite badly unstrung.

Odom writes interestingly of his experiences in a letter to Mrs. L. A. Williams of this city, from which we are permitted to reprint the following extract:

"I received your letter several days ago. That was the day I got back to my company. I am back in a hospital again—only a field hospital. I was knocked unconscious and my back was sprained by a big shell.

"I was in the big drive made by the marines. I guess you have read in the paper about what the marines are doing. I have been over the top and I am proud of it. I wouldn't take anything for the experience.

"I wish I could tell you something about it. I am sending you a clipping from a paper. You can see what we are doing. The marines have been cited more than once.

"People in the states haven't any idea what war is like—that is, from some of the papers I see.

"Well, Mrs. Williams, I don't know any news, and I am so nervous that I can hardly write, so guess I will close for this time. I was awfully glad to hear from you, and to know that some one thinks about me. I can tell you lots when I get home.

"Give my love to all the women of the Bible class."

Odom gives his address as 82 Co., 6th Reg., U. S. M. C., American Expeditionary force, France.

The clipping referred to from the Paris edition of the New York Herald published on Saturday, June 8th, or just a month ago. It gives a graphic description of how the marines forced their way over ground heaped with German dead, while storming Bourges. A significant paragraph in the newspaper article reads as follows:

"The prisoners stated also that the Germans had schemed to attack the Americans on Saturday, but that the assault by the Marines on Wednesday had upset their calculations and that the new attack of yesterday had completely disarranged all the schemes of the German commanders, at this particular point of the line, which is north-west of Chateau-Thierry."

and he has so far been unable to complete the task, or get it in such shape as to enable him to give even an estimate. He expects, however, to have a complete report ready for publication next week.

While it is impossible to give anything like correct figures, those who have kept pretty well in touch with the matter estimate that the total will reach approximately \$180,000.00.

### COMFORT WELL NO. 1 SPURRED IN LAST THURSDAY

Comfort Well No. 1 was spurred in on last Thursday afternoon, and drilling is proceeding at a very satisfactory rate, in charge of Messrs. Tate and Becker. This rig is said to be the biggest and heaviest rig in the county, if not in this section, being a typical California outfit, and capable of going down into the sands no matter at what depth they lie. In fact, it is the announced intention of C. S. Thomas, who contracted the Comfort well, to thoroughly test out his lease to the extent of going four thousand feet or more, unless pay sands were found at a lesser depth.

The entire outfit is new and shiny, and the equipment is the best obtainable. A six-room bunk house has been provided for the drillers and crew, and everything about the well indicates the determination of Mr. Thomas to stay on the job until he gets the oil he is looking for.

The big rig shipped here by A. W. Cooper for his well on the Roberts-Shelton tract at Lohn, arrived Sunday. The rig is stated to be the biggest put out by the Star people, and is said to be one of the very best that has been shipped to McCulloch county. Mr. Cooper is expected to return here today, and he will personally superintend the unloading and placing of the big machine.

Messrs. Bowen and Day have reached a depth of about 10 feet in their new location on the Hall-Dutton tract, and reported drilling progressing very satisfactorily. Yesterday morning, however, they sheared a pin, and as a consequence now have a job fishing for a bit. It is not anticipated that this will occasion much delay, how-

er, and they expect to be drilling again within a day or two.

At Rochelle the Southwestern Petroleum Co. has been successful in finally casing off the water, which has so long delayed operation at the J. F. Crews well, and work is now proceeding very satisfactorily.

Macy & Co., have a full stock of cane seed.

W. H. Dial Dead.

W. H. Dial, pioneer-citizen of McCulloch county, and one of the most widely known and highly respected, passed away last Friday noon at the home of his daughter, Mrs. Tom Burk, in the Rochelle community.

Deceased was 62 years of age, and had lived in McCulloch county for about 37 years. A few years ago he removed to Plainview, but returned to Brady about two years back, and had made his home here since. For a number of years he had been in bad health, suffering from Bright's disease, and he had sought treatment at various sanitariums and resorts, without securing relief.

Funeral services were held Saturday morning by Rev. J. G. Forester, and interment was made in the Brady cemetery.

Mr. Dial will be mourned by all the old-timers who remember him as one of the leading cattle and stock-raisers of this section, as well as by friends of his later years, and whose sympathy is extended the bereaved family.

Surviving him are his widow and three children, Tom Dial and Mrs. W. M. Bryson of this city, and Mrs. Tom Burk of Rochelle.

### W. S. S. PLEDGES REACH A SATISFACTORY FIGURE

Upon the whole, general satisfaction is expressed with the results of the War-Savings Stamp Pledge campaign which was conducted in every school district in the county last Friday. It was not anticipated that the quota named for this county would be reached, as it was out of all reason in comparison with the population and conditions prevailing. Despite the fact that protest was made by County War-Savings chairman W. D. Crothers and other leading citizens as well, nothing could be done to change the quota, State Director Louis Lipsitz stating that the amount had been set by the officials at Washington and that he was powerless to make any change.

Under these circumstances, there was nothing left to do but to carry out the campaign to the best of our ability, and be it said to the credit of the various districts of the county, they all responded nobly and patriotically.

To date it has been impossible to get any figures as to the total amount pledged. Secretary Ernest Keeling of the Brady Y. M. B. L., assisted by County Emergency Agent, B. D. Black has been checking the pledge cards this week but the task is a big one

### A. L. LANG NOW EXPRESS AGENT CHECKED IN SAT.

### FOUR CALLED INTO SERVICE ON JULY 5TH

Mr. and Mrs. A. L. Lang and family arrived Friday night from Menard, and their many friends are delighted to know that they will again be numbered Brady citizens, Mr. Lang having Saturday been checked in as local agent for the express company.

Beginning the 1st, the express company has been designated the American Railway Express Co., this company taking over the express business of the Southern, the American, the Fargo and the Adams express companies, and being under government supervision for the period of the war.

Mr. Lang for the past seven years has held the position of Frisco agent at Menard, and following a continuous service during this period, he retired from the position a month or so ago to take a well-earned rest. With the members of his family, he has always cherished a warm spot in his heart for his old home, Brady, and consequently they all are gratified to once more make their home among us, and in returning here they have met with a hearty welcome from all their many friends.

Mr. Lang has bought the former Sessions home on North Bridge street and will remodel and improve the place for occupancy by himself and family.

### STACY HAPPENINGS

Stacy Makes Good Showing on W. S. S. Pledges.

Editor Brady Standard:

Stacy, Texas, July 1.—Every man, woman and child did their "bit" in the thrift campaign here June 28th. Those who were unable to be present at the school house had their cards signed up to pledge as much as they were able to buy, although our quota was not reached, which was an enormous sum for this community, people did their best, and about \$1,700.00 was pledged with over \$500 cash subscription.

Mr. and Mrs. Lester Cox, accompanied by Mr. and Mrs. Idle of Gouldbusk, are in San Antonio this week, visiting their son and brother, Bill Idle who is in training there.

Mrs. Capt. Ayers Johnson and her sister, Miss Cleve Doss, of San Antonio, are here at Stacy to spend the summer. Mrs. Johnson was formerly Miss Kathleen Doss, but recently married Captain Johnson of San Antonio. Capt. Johnson is over in France now, and his wife and sister are here interested in leasing their land situated near the Day ranch.

Mrs. Jenkins is visiting her daughter at Cleburne. She will also visit in Temple before returning home.

Little Miss Urna Fay Clemens has accompanied her grandmother to her home at Melvin for a visit of a week. Miss Lavada Davis, who has been

### FIFE FINDINGS

Fife 100% Patriotic—Over Top With W. S. Pledges—As Usual.

Editor Brady Standard:

Fife, Texas, July 2.—About half an inch of rain fell here last Thursday, which was duly appreciated, although it was not enough to help us out very much.

As usual this community went over the top in the War Savings campaign,

\$5605.00 being the total amount bought and pledged and about three-fifths being already paid for. It was a surprise to us to be able to go over, but every man and woman in the community pledged themselves except two and these had reasonable excuses. So far as we can learn only one other place in the county subscribed its quota. This little community has sent thirteen soldiers to Uncle Sam's army and our people want them to know we are back of them.

The citizens will meet next Wednesday to clean up the cemetery grounds. Everybody invited.

Mr. and Mrs. B. W. Bradley left Sunday for Austin for a visit with relatives for a few days.

Bill Cowan and Ed House of San Saba, were here last week on a tour of the county in the interest of Mr. House's race for the legislature. On account of a balky Tin Henry, they had to return to Brady from here without completing their trip. Come again, boys, we are glad to have you. E. Z.

### PEAR VALLEY WHISPERS

Pear Valley Makes Good Showing—\$2800 W. S. Pledges.

Editor Brady Standard:

Pear Valley, Texas, July 2.—John William, the little son of Mr. and Mrs. George Vineyard, is very sick at this writing.

Ivan Elliott and wife of West Sweden are welcome visitors in the Valley this week.

Mrs. Ed Fortson and daughter, Bettie Lee, of Goldthwaite are visiting in the home of Joe Russell.

The Fifth Sunday meeting held here was indeed a great success. We had eleven preachers with us, and they surely preached some fine sermons; also the singing led by Bro. Harley Smith, was great.

We had two additions to the Baptist church during the meeting; Mr. Edwards joined by letter, and Mrs. Edwards by baptism.

News has been received here stating that Craven Ferguson has arrived safely "over there."

In our War-Savings Stamp meeting Friday, Pear Valley pledged about \$2800. We feel proud of the community, even tho' we did not reach our quota of \$3500. Not only did the men and women, boys and girls help, but many of the children bought stamps. We are very glad, indeed, that our chairman didn't have to report any slackers from the Valley.

Jim Nichols came in Monday. Since leaving here eight months ago, he and his wife have lived in New Mexico and Arizona; but they have decided that Grand Old Texas is best, so are moving back.

## GLAD TO TESTIFY

Says Watoga Lady, "As To What Cardui Has Done For Me, So As To Help Others."

Watoga, W. Va.—Mrs. S. W. Gladwell, of this town, says: "When about 15 years of age, I suffered greatly . . . Sometimes would go a month or two, and I had terrible headache, backache, and bearing-down pains, and would just drag and had no appetite. Then . . . it would last . . . two weeks, and was so weakening, and my health was awful.

My mother bought me a bottle of Cardui, and I began to improve after taking the first bottle, so kept it up till I took three . . . I gained, and was well and strong, and I owe it all to Cardui.

I am married now and have 3 children . . . Have never had to have a doctor for female trouble, and just resort to Cardui if I need a tonic. I am glad to testify to what it has done for me, so as to help others."

If you are nervous or weak, have headaches, backaches, or any of the other ailments so common to women, why not give Cardui a trial? Recommended by many physicians. In use over 40 years. Begin taking Cardui today. It may be the very medicine you need.

### CALF CREEK NEWS

New Girls at the W. R. Duncan, Louis Williams and Bruce Wren Homes.

Editor Brady Standard:

Calf Creek, Texas, July 1.—I have been absent for quite a while, and so will step in with a few lines.

Mr. and Mrs. Louis Williams are the proud parents of a new girl at their home.

Quite a lot of Calf Creek people went fishing Saturday night and report lots of fish and a very nice time. Clyde Tucker is back home from Oklahoma.

Edd Trampp is here visiting friends and sweethearts, from Arizona. He brought with him two of his brother's children to their grandma, Mrs. H. W. Ewing.

Mrs. Awalt is at Brady at the sanitarium to be operated upon. She is getting along nicely.

Mr. and Mrs. W. R. Duncan have a new girl at their home, and also Mr.

and Mrs. Bruce Wren have a girl at their home.

We had a thrift stamp meeting here last Friday, and also sold ice cream and pop for the Red Cross, and made \$40.00 for the Red Cross. We are going to sell ice cream and pop next Friday, the 5th of July, and everybody is invited, most especially the candidates. Come, we will be glad to have you.

Mr. and Mrs. Jack Wood came and spent the night with her home folks, Mr. and Mrs. Bridge Saturday night.

Miss Minnie Blasdell's cousin, Miss Velma Sharp, is here visiting her for a few weeks.

Bernice Bridge and Claude Knight spent the evening with David and Francis Kolb Saturday.

My letter is getting rather long, so I will give space for a better writer.

## LADIES TAKING GREAT INTEREST IN THE PRIMARY

Much interest in the forthcoming primary election on July 27th has become manifest among the ladies of McCulloch county during the past week or two, and the registrations of ladies who expect to vote promises to be much heavier than was at first anticipated.

County Tax Collector S. H. Mayo has planned a systematic visit of all the voting boxes in the county during this and next week in order to enable all ladies who so desire to register with him for the coming primary election. This is merely an act of courtesy upon the part of Mr. Mayo who thus enables the ladies to register without going to the trouble of coming to town. However, should any lady fail to see Mr. Mayo, or decide subsequent to his visit that she desires to vote, she may register at his office in Brady at any time up to and including July 11th, the period from June 26th to July 12th having been designated for the registration of female voters.

Mr. Mayo is very anxious that all the ladies of McCulloch county register, so as to be enabled to vote, and states that in case any have failed to see him at the time of his visit into their community, his office in Brady is open at all times of the day, and they can come in and register during the period above specified.

Up to Wednesday night Mr. Mayo had visited the Whiteland, Melvin, Stacy, Doole, Lohn and Pear Valley boxes, with a total of 120 ladies registering at these points.

Miss Nettie Bellamy, who is in charge of Mr. Mayo's office during his absence, reported 296 ladies as having registered with her up to Wednesday night.

The interest taken by the ladies in the forthcoming election has proven very gratifying to those who are interested in clean politics, and it is anticipated that a very strong and deciding vote will be polled by the ladies. In order to enable all ladies, as well as the voters in general, to study the ticket for the forthcoming primary election closely, we herewith reprint this ticket in full, showing candidates for state, county and precinct offices:

**HILARY TINDEL THINKS SIGNAL CORPS OFFERS GREATEST OPPORTUNITIES**

The Standard is in receipt of a letter from Hilary Manuel Tindel, which accompanied his remittance for subscription to The Standard. Hilary says he couldn't well get along without The Standard. He is stationed at Fort Leavenworth, Kan., with Co. G, 7th D. B. N. of the Signal corps, and he thinks the signal corps offers exceptional service and opportunities.

His letter is as follows:  
 "As I have not seen a Brady Standard in one month, am enclosing remittance for same.

"Myself and Allie Wooten of Brady, arrived here Sunday from Camp Travis with one hundred and twenty-eight more boys. We are in the signal corps and certainly like it fine. We have lots to occupy our minds. We are to learn telegraphy, electricity and signaling.

This is a real pretty country, and is much cooler than San Antonio. We only drill two hours a day. We are within 23 miles of Kansas City. Also are allowed to go there every Saturday eve and stay until eight next morning.

"Suppose there will be another bunch of boys leaving there soon. We would advise all the boys who are within draft to volunteer in the signal corps. Boys there is more to eat, no long hikes, short drill hours, and a short stay in U. S. before going to France, as we get the greater part of our training over there. So boys come on in the signal corps and let's go across.

"Well, Mr. Editor, send the paper to my address.

"Wishing every McCulloch county citizen success, and hoping the farmers get the rain."

**NOTICE TO ALL PERSONS WITHOUT REGULAR EMPLOYMENT OF A USEFUL NATURE.**

The government has notified this council to see that all men without regular employment be requested and, if necessary, forced to assist the farmers in working their crops, and if unable to do heavy farm work, then to do some necessary or useful light work and release a stronger man for the farm work. No loafers will be tolerated in town or country and this applies to rich and poor alike. In times such as these the country is sorely in need of workers, and it is hoped you who are concerned will take warning and do your part without requiring further action on our part.

## GEOLOGIST SAYS OIL FIELD HERE

According to a geological map prepared by Robert T. Hill, the extent of what is known as the Pennsylvania oil series is shown. The map is of interest and similar to the one published by the state geologist. It shows the extent of this formation in which there has been an active lease campaign carried on for the past six months to start at the Red River, on the Oklahoma and Texas line, thru Montague county, taking in Clay, Jack, Young, Wise, Palo Pinto, Stephens, Shackelford, Callahan, Eastland, Comanche, Coleman Brown, McCulloch, San Saba and Mills counties.

Geologists who have been scouring the country for almost eight months have commended the Pennsylvania area to their companies, but have advised them to a great extent not to go outside of this area; but hundreds of thousands of acres have been leased outside of the Pennsylvania series, and many are recommending their companies to play on the outside, and the outcome will be of interest. There are reported to be no close structures in the North Texas area, being called, as a geologist term them, "neogings." The drill will have to determine what the producing area will be, if any, as the neogings are very small and the best structures that are found have been in Jack county. The outcome of the geological survey will be watched with considerable interest, as many are of the opinion that it will not pan out profitably.

According to Hill, there are three distinct sources of oil in Texas, each of which is accompanied by one or more commercial oil pools. These sources are strata of the carboniferous, cretaceous and neocene (late tertiary and pleistocene) ages, which supply North Texas, Corsicana, Caddo and the gulf coast pools respectively. These various pools are as unrelated as if they were located upon different continents, and the geological and the practical experiences applicable to one of them are not applicable to the others.

The North Central Texas area, of which Electra, Breckenridge, Caddo, Mineral Wells, Strawn, Moran, Ranger, Coleman, Trickham, Brownwood and other new pools are parts which derive their oil from the various strata of the Pennsylvania and Bend series of carboniferous rocks.

The Pennsylvania series, with which the underlying Bend series, is associated (although its affinities are more closely associated with the Mississippian), consists of a series of clay, shales sandstones and limestones, and is from 3,500 to 4,000 feet in thickness.

These strata in North Central Texas extend in a series of sub-parallel belts extending in a direction about thirty degrees east of north, between the Burnett-Llano country on the southwest and the Red River on the northeast, in portions of the counties given above. They are also reached by the drill through the overlying belts in Wichita county.

The Pennsylvania strata are overlain to the east and in places throughout their extent by the strata of lower cretaceous age (Comanchean) and on the west, the Permian, which are closely related to them. In general they dip up gently to the north and west, and successively higher and later strata should be encountered in traveling from the east to the west. When the direction of the dip is different from that of the normal as above stated, the departure consists what is also known as "structure," and is usually detected by instrumental surveys of a combined engineering and geological character.

The Pennsylvania strata, which take their name from the state of Pennsylvania, where they are also the source of coal and oil, are divided in Texas into several groups of formation above the Bend series, which have been named the Strawn, Canyon and Cisco, and which are succeeded above by the Albany-Wichita group of Permian or "red beds." Detailed maps and descriptions of these strata are published in the reports of the former Texas state geological survey (1890-1892).

The Pennsylvania strata of North Central Texas and Oklahoma, south of the Arbuckle and Wichita ranges, represent a southern division of the great Midcontinent field, which hitherto has had its greatest exploitation in central and northern Oklahoma and southern Kansas. The southern division, like the northern, is characterized by great thickness of oil-producing shales and sands, which, under proper structural conditions, constitute favorable reservoirs for the accumulation and storage of oil and gas.

The deep oil and gas wells south of Breckenridge and at Caddo, in Stephens county; at Ranger, Eastland county, and the northeast of Coleman county all obtain their oil from the Bend series, and success in these widely separate localities leads the geologists to believe that similar wells will be elsewhere obtained in intermediate areas. The shallower wells in Parker and Palo Pinto counties, and near Trickham, Brownwood, Moran and elsewhere, come from the various sands in the Strawn series and are all located on "structure."—Fort Worth Record.

 A good story is told by the dean of Carlisle. It concerns a clergyman, who, taking occasional duty for a friend in one of the Moorland churches in a remote corner of Cumberland, was one day greatly scandalized on observing the old verger, who had been collecting the offertory, quietly abstract a half-crown before presenting the plate at the altar rails.

After service he called the old man into the vestry and told him, with emotion, that his crime had been discovered. The verger looked puzzled. Then a sudden light dawned on him. "Wy, sir, you doan't mean that old half-crown of mine! Why, I've led off with he this last fifteen year."—Pittsburg Chronicle-Telegraph.

## A WAR CLUB.

A plan was originated in one of the northern cities some time during the past year that might well be adopted everywhere in the United States. It is known as a War Club, and each county in the state has such an organization.

The purpose of the War Club is to take care of and combine under this one head all the various organizations of relief and mercy or assistance now at work upon battlefields or among the soldiers. The system of operation to make up a budget of all anticipated calls during the period of one year, of the various relief organizations, and then pro-rate this among the citizens of the county according to their financial ability and rating.

For instance, the War Club is god-mother to the Red Cross, the Y. M. C. A., the Knights of Columbus, Salvation Army and all other relief organizations. When the Red Cross announces a big drive, the War Club meets and decides what portion of its funds shall be allotted to the Red Cross. When the Y. M. C. A. or any of the other organizations needs financial assistance, like action is taken.

The whole object of the War Club is to do away with repeated and continuous solicitation of funds for first one organization and then another. Solicitation for all the various organizations is done at one and the same time; thereby, not only is the annoyance of repeated solicitation avoided, but the time of the solicitation committee is limited to one big effort rather than to a series of smaller ones—which also saves them the time required to make numerous solicitations.

The general plan is to ask each person to contribute 5% of their salaries. Or, where persons are engaged in piece work they are asked to give one-half hour's pay each week. The big business concerns donate an amount equal to the total amount contributed by their employes. Also there is a sliding scale for salaries in excess of \$2,000 per year. Payment may be made all at one time, or in installments, as the contributor may desire.

Wherever the plan has been tried it has met with success. Each contributor is given a window card and a button as emblems as having performed his duty. The window cards and the buttons both are attractively designed in red, white and blue stripes, with a war club showing on the white background and the words "County War Club" printed over the red and blue background.

The Standard calls attention to this club, believing it an organization that will not only prove effective in caring for our war charities and relief organizations, but one which will save much time and unnecessary labor upon the part of soliciting committees, as well as of the public in general.

## SKYROCKETING.

This is the era of high prices, and when it comes to increasing prices, paper manufacturers may be declared in Class A-1. For a while they attempted excuses and arguments, but now they merely send out notices of price increase, and waste no time in arguments.

According to a new price list just received, practically every grade of paper has been increased 12% per cent over the already sky-high prices.

This makes the third increase within the past six weeks, and makes a total increase in prices of about 53 1-3 per cent. Before these last increases came, it looked as though prices could not possibly go higher—but weather men and newspaper men are sometimes poor prognosticators.

Compared with "fore de war" prices, those now prevailing show an increase of almost 150 per cent. What was regarded before the war as a comparatively cheap bond, is now selling for twice the price of the then first-class sheet of paper.

The rapidly rising costs of paper and material have played havoc with manufacturers who were under contract to fill orders for printing. It is said the firm which successfully bid in the government's order for printed envelopes, threw up their contract, feeling they could better afford to forfeit their bond than to stand the loss which the completion of the order would entail. The government realized their position and made a new contract with them without requiring the forfeiting of their bond.

If anyone doubts these statements, let him test the present-day postage stamps. The paper will be found to be so flimsy as to tear directly across the stamp rather than along the perforation.

These are war times, and the printers are realizing that war is everything Sherman called it.

## PRICE-INTERPRETING COMMITTEE.

The Price-Interpreting committee for Brady held its first meeting last Tuesday afternoon, and established a price list for various staple commodities, which will serve as a guide to all consumers. This committee acts under authority of the Federal Food Administration, and similar committees have for some time been appointed and engaged in interpreting prices in all the larger cities.

While no ladies, representing consumers, were present at the meeting last Tuesday, it is anticipated that greater interest will in future be evidenced, and that they will have a representative present at future meetings, to be held at the Commercial National bank every Tuesday afternoon at 2:00 o'clock.

Look up this interpretation of prices published elsewhere in this issue, and carefully refer to it each week and note the changes which may be made from time to time in the prices.

When Sherman said "War is Hell," he might have included some of these hot days we are having.

## HONEST INJUN—

According to our view of the "work or fight" orders, the fighters and the workers may be likened to the queen bee and the honey bees in a hive. Both are essential to success; and the slacker are represented by the drones—they either must be killed and driven out, or they will destroy the fruits of the workers and the fighters.

"Mother, I believe Mamie is a pro-German. She's got 25c and won't buy a war stamp." These are the actual words of a five-year-old Ellis county child. The man who has not subscribed to the Liberty Loan, or has not purchased his full quota, should realize that his action is subject to the criticism of even the children.

At a Liberty Loan meeting held in a Louisiana parish the speaker drew such a vivid picture of the duty we owe to our boys in France and pleaded so earnestly for economy and sacrifice that a prominent citizen of the community drew off his \$500 diamond ring, handed it to the speaker, saying, "It would burn my fingers now. Sell it and invest the money in Liberty Bonds."

## LOCAL BRIEFS

Mr. and Mrs. S. J. Howard have purchased the J. R. Stone homestead in South Brady, and have occupied it as their permanent residence in Brady.

O. D. Mann & Sons are this week having the remnants of the cement crossing between their store and the Brady Storage Battery Co., torn away, and will replace them with a first-class cement crossing.

Yesterday was the Glorious Fourth of July, and it was observed in Brady as no other holiday has ever been observed. Almost without exception, every business house, bank and office in town was closed throughout the day.

D. D. Hargroves and family left yesterday for Ranger and other points in North Texas, where they expect to locate temporarily. Mr. Hargroves still retains his property and interests here and expects to return when conditions improve.

Mrs. J. F. Allbright writes from Snyder, Okla., enclosing remittance for her subscription to The Standard, saying she cannot do without the paper when away from home, and asking that we commence her subscription with the earliest possible issue.

V. L. Bradley brought in some of his fine beets this week, but says his garden is just about gone. A week or so ago, he had one of the finest gardens in the country, and his beets ran as high as 12 pounds in weight. The garden was sub-irrigated from a large tank, and grew a world of stuff.

Leon Fahrenthold, who has been studying at State university the past year, has received a call into the aeronautic service, according to word received here by friends. Leon has been on the reserve list for the past nine months, and is now in the school of mechanical aeronautics at Austin.

The many friends of Mrs. Harry Irwin will sympathize with her in the loss of her father, S. J. Flannery, who died at a sanitarium in Denison on June 10th, death resulting from blood-poisoning. Mr. Flannery, although 86 years of age, was hale and hearty up to the time of his death, and had led an active and useful life. The funeral took place at his home in Achille, Okla., on the 11th ult.

Letters received here from Chas. Fuller state that he has just recovered from an attack of yellow jaundice. He is in the 105th Aero squadron, and has been located for some time in France. He reports the weather there as quite hot, but says it is not so cold there in the winter time, as in the states. However, he says the states' would surely look good to him, and he will be glad when he can get back to Old Texas once more.

V. L. Bradley is just in receipt of a letter from his brother, M. G. Bradley, who is now in France as a member of E. Co., 5th Ammunition Train. His brother wrote briefly that he had a pleasant passage across the ocean, with no sea-sickness. He sailed on about the 28th of May, and his letter, written in June, took about three weeks to reach Brady. V. L. has had no word from his other brother, I. V. Bradley, since about three weeks ago, when he was traveling across New York, with his destination unknown.

Mrs. E. L. Wade sends in her renewal subscription to The Standard and writes that they like Alpine better every day they live there. She says that community is one of the most patriotic in the United States. As a result of doubling their third liberty loan quota and then going over the top, they have a star in their flag. Also on every Red Cross assessment, they have gone over the top. The Y. M. C. A. quota for the county was placed at \$150, and Alpine alone gave \$156. In fact, Mrs. Wade says they are up and doing when it comes to anything for the good of the soldier boys. Jimmie Wade is in training at Camp Cody, N. M.

## COMMAND "WENT" FOR BOTH

Indiana Woman's Sharp Order Scared Junkman as Well as Dog That Was Digging Up Garden.

There is a woman in Irvington who is certainly in bad with a junk man, all on account of a dog. It was not her dog, nor yet the junk man's, which makes the case sadder than ever. The dog belongs to a neighbor, and must be the reincarnation of Captain Kidd or some other pirate, for his whole existence seems to be spent in seeking for buried treasure. As pirate treasure was always buried in the most unlikely places, that is where he digs. Nobody but a pirate or a dog would look for treasure very far below the surface of an onion bed, for instance, but the digging that dog did made the Irvington woman's onion bed look like a model of the Hindenburg line just after it was broken. The dog was "sedulously engaged in his terrestrial explorations," as they would say it in Irvington, when the woman saw him from the window. Rushing to the door, she shrieked, "Get out of here!" at the top of what is naturally a soft and cooing voice. Instead of one scramble there were two, and a junk man, until then unnoticed, passed through the open back gate just half a jump ahead of the dog, both going strong. It was more than a minute before the voice of the junk man was heard in the siren song, "Ra-a-agsol-l-?-diron," and even at the distance it betrayed a decided tremolo. — Indianapolis News.

"Movin' Fido?"  
"Yes, I'm goin' to change into some family what ain't got seven small boys."

### MORE ON HAND.

Her Admirer—Your sister has such beautiful hair.  
Her Small Brother—You haven't seen a quarter of it yet.

### STUNG.

Stella—Was Jack wounded at the front, then?  
Maud—No; he came home on leave, and sat on a wasp's nest.

### WILLING TO RISK IT.

Surgeon—Do you carry accident insurance?  
Victim—No, but go ahead and operate; I'll take a chance.

### CYNICAL.

"What a good, sensible girl Miss Nellie is."  
"Yes; that is the reason the men keep away from her."

### POOR HAND.

Cholly—Your daughter is my queen and I her king.  
Hed Dad—Take her. A pair of jacks is more serviceable.

### THE REASON.

"I saw a man just now fairly choking with anger."  
"Perhaps he had to swallow his words."

### ECONOMIZING.

"Are you doing anything to save the food supply?"  
"Well, we've given up keeping goldfish."

### ANSWERED UNDER PRESSURE.

Alice—What did you say when he asked you if you loved him?  
Edith—I refused to answer at first, but he squeezed it out of me.

### CLEVER DOG.

"My dog can scent a storm hours off."  
"Then his nose must be something of a storm scenter."

Mr. and Mrs. Hub Meers, accompanied by Sidney, Leslie and Nola Meers, left last Friday for a visit with relatives and friends in Bastrop county. Mr. Meers, Sid and Leslie returned Sunday, while Mrs. Meers and Nola will continue their visit for some time. Mr. Meers reports crop conditions looking very favorable in Bastrop and Travis counties, and is of the opinion that a splendid corn crop will be made.

W. M. S.  
The Woman's auxiliary of the M. E. church held a combined program and social meeting Monday afternoon. The south wing of the church was prettily decorated with ferns and pot plants, while rugs and cozy chairs added to the coziness of the room, and changing it from a plain Sunday school room into a veritable church parlor.

Mrs. Joe White conducted the Bible study which was on "Prayer." The subject of the program was "Christian Stewardship," which was well presented by Mrs. C. A. Trigg. "Our Foreign Work at Home," was discussed by Mesdames Chas. Gray, Geo. Davis and Jas. T. Mann.

The Centenary was stressed and Mrs. White asked that every member pledge herself to daily intercessory prayer for the Centenary movement. A duet by Mrs. Broad and Mrs. Robbins was enjoyed.

The hostess for the afternoon gave the usual \$2.00 in thrift stamps. Up to date the auxiliary owns thirty-five dollars in W. S. S. stamps. The pledge is fifty dollars.

Hostesses for the first, Monday in August are the following ladies: Mesdames F. M. Richards, C. D. Allen, C. P. Gray, S. J. Howard.

## Lindley-Miller.

The marriage of Dr. Harry Wilmoth Lindley and Miss Estelle Frances Miller was solemnized last Saturday night, June 29th, at Brownwood. The ceremony took place at the residence of Mrs. W. F. Son, grandmother of the groom, and only the immediate family and a few intimate friends were present. Dr. Knickerbocker, pastor of the Methodist church officiated.

Following the ceremony, Dr. and Mrs. Lindley left on the Frisco train on a two weeks' honeymoon trip to Galveston, Corpus Christi, San Antonio and other points, following which they will return to Brady to make their home.

Aside from the immediate family, present for the ceremony were Mrs. Chas. White of Fort Worth, Mr. and Mrs. Thompson of Brownwood, W. H. Caldwell of Brady.

Dr. Lindley is one of the foremost dentists of this section, having established his office here about eleven years ago. For three and one-half years he was located in New York, where he was associated with some of the largest and best-known dental offices in that metropolis. He returned to Brady to permanently locate here last February, since when he has enjoyed a very satisfactory and lucrative practice. His bride is a most charming and accomplished young lady. For several years she had charge of one of the leading New York dental offices, and it was while thus engaged that her ability and business tact came under the observation of a prominent Texas business man and resulted in an offer which induced her to come to Texas.

It was while in New York that the doctor and Miss Miller first met, and the friendship that sprang up between them soon grew into love, which had its culmination in their marriage. For

the past month or two, Miss Miller has been assisting Dr. Lindley in taking care of his practice, and her engaging manner and cheerful disposition have endeared her to all with whom she has met.

It is the sincere wish of all the many friends of Dr. and Mrs. Lindley that their pathway through life may be strewn with sunshine and roses, and that success and happiness may attend their efforts throughout.

Bridge Club.  
The regular meeting of the Bridge club was held Tuesday afternoon of this week, Mrs. R. W. Turner entertaining at two tables. Members in attendance were Mesdames W. D. Crothers, W. E. Campbell, H. B. Ogden, G. R. White, C. T. White, F. R. Wulff, Herbert L. Wood, W. L. Hughes.

Mrs. Hughes received high score, the dollar prize being given to the Red Cross.

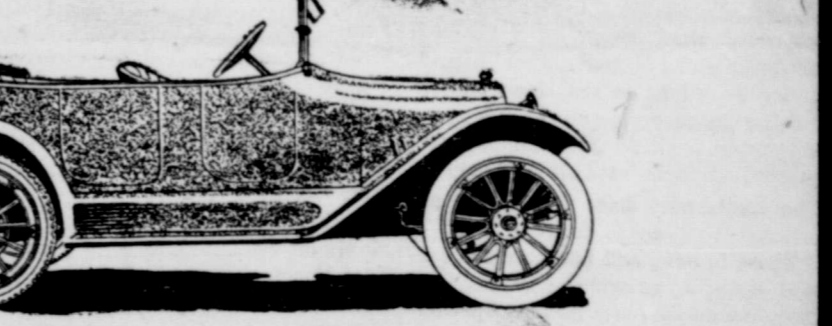

Refreshments consisted of cream and cake.  
Mrs. C. T. White entertains for the club on next Tuesday afternoon.

Five Hundred Club.  
Mrs. J. S. Anderson was hostess on last Thursday afternoon to members and guests of the Five Hundred club, the following members being present: Mesdames C. D. Allen, G. R. White, John Wall, Dick Winters, F. R. Wulff, W. E. Campbell, J. G. McCall, Wiley W. Walker, B. Simpson, G. C. Kirk; and guests: Mrs. B. L. Malone, Misses Nellie Anderson of Brownwood, Jennie White of Mason.

Mrs. Wiley Walker received high score, the dollar prize being donated to the Red Cross.

The hostess served an ice course. Mrs. Ed Campbell entertains this afternoon for the club.

## CHEVROLET

### ---an individual car

To the very smallest detail, the Chevrolet reflects the ideals of the makers to produce a really high-grade car at a popular price.

That the Chevrolet is more commonly compared with cars selling at much higher prices is justification for the conscientious effort of its manufacturer.

The new model Chevrolet "Four-Ninety" Touring Car and Roadster, attain a standard of excellence uncommon of cars at these prices. This is a claim we would be delighted to prove—we would ask no greater favor than to do so.

Would you have a good-looking car? The Chevrolet has it in full measure. Would you have strength? Vanadium steel is used wherever unusual strength is required. Would you have comfort? Proper spring suspension together with comfortable upholstery and roominess meet your comfort-wishes to the fullest degree. Would you have power and low upkeep? The wonderful valve-in-head motor with which each Chevrolet is equipped provides power far in excess of ordinary requirement or emergency; and the direct-application-of-power principle insures maximum power on minimum fuel. Twenty-five miles per gallon is a common thing for this Chevrolet. And the car is fully equipped.

Suppose you let us demonstrate that we have not overstated Chevrolet quality.

# Platform of E. B. HOUSE

Candidate for Representative of the 114th District, Composed of the Counties of McCulloch and San Saba.

To the Voters of McCulloch and San Saba Counties, Comprising the 114th Representative District:  
Ladies and Gentlemen:

### A Word Personal.

In asking your suffrage for the position of Representative of the 114th District allow me to say a word personal for the benefit of those who do not know me. I live 9 miles north from San Saba town on my farm. Farming has been my life work. I have lived in the precinct in which I now reside for 40 years. I have been State Revenue Agent for the past 8 years, having been appointed under Gov. O. B. Colquitt in 1910 and have held this office continuously under every governor since. I invite your closest scrutiny of my record as Revenue Agent and my standing among home people.

### Voters Should Rule.

I have always been taught and firmly believe that the powers of democratic governments are vested in the people and derive their "just powers from the consent of the governed," and too, that true democracy is "of the people, by the people and for the people," therefore I stand for the rule of the people. Last summer the 35th Legislature unlawfully and unconstitutionally attempted to impeach Governor James E. Ferguson, and later, this same legislature attempted to deny the people of Texas the privilege of reviewing their action, attempting the effort to keep his name off the democratic ticket in the July primaries. The present incumbent Hon. T. J. Beasley, representative of the 114th district, voted to deny the people this right, and continues to steadfastly stand against referring this matter to the people, saying over his own signature that people of this state are too dense to know what they want. If Ferguson receives a majority of the votes in the democratic primary July 27th, and is elected in November and if I am chosen your Representative, I shall take pleasure in voting and working to the end that he is seated in accordance with the will of a majority of the people. On the other hand if any one else receives a majority in the July primary and is elected in November, I shall to the best of my ability co-operate with him in every way consistent with good government.

### Taxes on Luxuries and Non-Essentials

I am in favor of removing, as far as possible, the burdens of taxation from the masses of the people and placing them on special interests and luxuries. Therefore I am in favor of amending and enlarging the present gross tax laws as provided for in Chapter Two, Title 126, of the Revised Civil Statutes to wit: Redefining what shall constitute a terminal company and add many other luxuries and occupations to that law, and requiring these occupations doing an interstate business to keep separate records of their intra-state business.

### The Homestead Law Should Remain as It Is.

There is now, and has been for several years, a growing sentiment among a certain class of land speculators and money lenders, to have the Constitution so changed that the homestead of our citizenship could be ravaged by a forced sale. Sections 49, 50, 51 and 52 of Article 16, of the present Constitution exempts from forced sale, the homestead, whether it be in the city, town or country, and I am unalterably opposed to any change in said Constitution, believing as I do, that it would be the medium by which small home owners would be at the mercy of a bunch of merciless land sharks. I am opposed to tampering with our homestead law in any way.

### Irrigation Laws.

I stand "four square" for the substantial amendment of the present Irrigation Laws of Texas, that riparian owners may be protected; that no foreign corporation doing business 300 miles away can dictate the amount of water to be used by the riparian owners of this state. I am also opposed to the state granting to any individual, company or corporation, the right to impound the waters of our streams for the purpose of carrying them away through the channels of said streams, even beyond the water-shed of said waterways, to be distributed to the detriment of the land owners along the local streams.

### Marketing of Farm, Ranch and Orchard Products.

It has been the dream of the farmers of Texas for more than a quarter of a century that in the marketing of their products, to eliminate the

middleman and save to the producer and consumer the middleman's enormous profits. Looking to that end they established through their representatives in the legislature, a Marketing and Warehouse department, which they trusted would grow and develop into realization of their long wished for dreams and finally be made of inestimable general benefit to the state at large. This hope of the farmers was well founded for the saving to the cotton crop has run into the million of dollars every year. The improvement in "country damage" alone has been 25 per cent over the old method of marketing cotton. In connection with this department I am in favor of amending the scope of the present Weights and Measures Act so as to establish a uniform system of weights and measures in this state. The producers are being systematically pilfered in short weights and measures of farm products, the totals of which runs into the millions of dollars every year. If I am elected your Representative it shall be one of the proudest acts of my official life to assist in widening the scope and usefulness of this department for the farmers of Texas and make it one branch of the government calculated to be of immeasurable benefit to the people at large.

### Educational Questions.

I am in favor of maintaining a State University of the first-class and I believe a \$250,000.00 appropriation by the legislature and the \$220,000.00 endowment the University receives annually from its school lands will maintain such an institution taking into consideration the present decreased attendance. I am heartily in favor of and will support all reasonable appropriations for the country schools of Texas. I am also in favor of the state printing its own text books and furnishing same free to all those not able to purchase them. The records show that the following rural school in San Saba and McCulloch counties have received amounts which are supplementary to the regular apportionment under the law, to wit:

### San Saba County:

### Equal Suffrage

I will vote for the submission of a Constitutional Amendment giving women full suffrage, which will not restrict them to primaries for political purposes, and should a majority of the people vote to so amend the constitution, I am a democrat, and will vote for the enactment of such a law.

### The State Highway Law

I am in favor of amending the present State Highway Law, giving to the Commissioners' Courts of the various counties of this state, absolute supervision and control of their prorate of any and all funds derived under the provisions of said law.

### The Liquor Question—Tax the Manufacturers of "Near Beers"

I will heartily co-operate with the State and National governments, or any subdivision thereof, in any and all measures in the winning of the world war. I am in favor of placing a tax on breweries manufacturing "Near

### Opposed to Double Taxation

I am in favor of a law that will only require a person to pay taxes on the equity of property which he owns, and that all Vendor Lien Notes bear their proportionate rate of taxation.

### Labor and Its Allied Interests

I am the kind of a democrat who subscribes to the doctrine that the laborer is worthy of his hire, and recognizing their ability and efforts in successfully terminating the world's present great conflict, I am in favor of making their burdens as light as circumstances will permit, whether they be in the shop, the mine or on the farm.

### CHANGES IN EXPRESS COMPANY'S EMPLOYEES ARE MADE THIS WEEK.

Several changes in the express company's employes became effective this week. The company itself changed its name from the Wells Fargo express to American Railway Express company. O. T. Clark, who has been traveling auditor for the company, and who came here to check in A. L. Lang, has been transferred to the western headquarters in Sweetwater. Clark was local agent here some couple of years ago, and his rise to the position of traveling auditor has been very rapid, and may be attributed to his general capability, so well remembered by Brady citizens as characterizing his services here. Clark is succeeded by R. N. Taft, who spent Tuesday and Wednesday here checking over the local affairs. Mr. Taft is a most pleasant gentleman, and his visits here will serve to strengthen his popularity.

W. E. Kershaw, who has been local agent the past month, left Wednesday for Wills Point, Texas, where he will be checked in as agent. Mr. Kershaw has made a very efficient and acceptable agent during his brief stay and his friends here wish him every success in his new location.

# THE TEXAS OIL FIELDS

A WORD WITH THOSE WHO OWN AND OPERATE THEM, or who wish to become identified with them—HOW CAN WE CO-OPERATE in our mutual interest? Permit us to suggest—

HOUSTON has the TEXAS, LOUISIANA, MEXICAN, OKLAHOMA and KANSAS PETROLEUM FIELDS, from which to draw THE COTTONSEED, PEANUTS and CASTOR BEANS of the same zone, and the COCOANUTS of the TROPICS—HER GREAT SHIP CHANNEL furishes unsurpassed sites for REFINERIES, OIL MILLS, STALL FEEDING PENS, AND PACKING HOUSES. Her SHIP CHANNELS PUTS her IN TOUCH WITH EVERY PORT ON EARTH, by tide-water. HER GREAT RAILWAY SYSTEMS will ultimately connect her with EVERY RAILWAY STATION ON THE CONTINENTS OF THE WESTERN HEMISPHERE. GREAT PIPE LINES are being constructed to CONNECT HER WITH THOSE FIELDS.

HOUSTON CAPITALISTS have been long enough identified with the oil industry to know its great wealth producing possibilities, and are ready to aid in financing those of real merit. THE REPRESENTATIVES OF THE LARGEST OIL INTERESTS OF THE GLOBE are gathering to her for headquarters. What other port on earth can offer such an array of facts to ENTERPRISE and CAPITAL, to make of it THE WORLD'S OIL CENTER? HERE IS THE PLACE TO MAKE YOUR CONNECTIONS.

If you wish to engage in the oil industry, we can furnish you SITES FOR REFINERIES AND OIL MILLS. LANDS TO DRILL PRODUCING OIL PROPERTIES. PRODUCTION ROYALTIES. Draw your papers and obtain your CHARTERS FOR YOU, under THE LAWS OF TEXAS, and secure CAPITAL TO AID ANY LEGITIMATE OIL INDUSTRY that has made sufficient development to demonstrate that it possesses real merit, the owner of which is willing to give capital an equitable division in the profits. If you wish to EXAMINE THE MAPS of the different fields, or the counties in which they are located, we have them.

If you want to BUY IN, or SELL OUT, an INTEREST in any property, and do not want to be known in the transaction, if we are situated so as to permit us to take the business, we will give it our best capacity.

If you are a LAND OWNER, you will find it to your interest to COMMUNICATE WITH US.

(a) If you wish to SELL YOUR LAND, OR TO SELL THE MINERAL RIGHTS in it, or to DIVIDE THE GAMBLE, by selling part of your mineral rights and get some READY CASH NOW and hold part, or if you want to get it drilled for oil and other minerals, or if you have contracted your mineral rights and are not getting SATISFACTORY RESULTS, if you want your LAND SURVEYED, if there are DEFECTS IN YOUR TITLE and you WANT THEM CURED.

(b) If you WANT TO BORROW MONEY ON YOUR LAND in sums of less than \$10,000, the FARM LOAN BANK is in HOUSTON, and is your best source to acquire money at LOW INTEREST and ON LONG TIME. I can serve you in the details necessary to secure loans from this bank. If you want to borrow MONEY IN SUMS OF \$10,000 up to \$100,000 or more, and your lands are good security for it, I can get you the money.

If you see A BUSINESS POSSIBILITY FOR YOU, in this ad., suggest it to me, and let us SEE IF WE CAN DEVELOP IT, in our mutual interest.

### RESTAURANT FIXTURES ARE MOVED TO FORMER BRIDGE STREET LOCATION

Mrs. Harry Irwin arrived Monday morning from Vinita, Okla., and is spending the week here looking after business affairs. On last Wednesday the fixtures of the Liberty cafe, which discontinued business here a couple weeks ago, were moved to the former Irwin restaurant stand, where they will be stored for the present.

Mrs. Irwin states that Mr. Irwin is employed in the meat market business at Vinita, Okla., and reports financial conditions there as being most flourishing. However, they still have a warm spot in their hearts for Brady, and for the Brady citizens, and will, very likely, return here this fall and re-open their market and restaurant businesses.

### NINE-YEAR OLD LAD SHOWS GREAT INGENUITY—BUILDS TOY AEROPLANE

Cecil Striegler, the nine year old son of Mr. and Mrs. S. J. Striegler, has displayed considerable mechanical ingenuity in his building of a toy aeroplane. Following the visit here of Lieut. Billie White in his aeroplane, Cecil at once set about building a toy replica of the big flying machine, and so carefully had he studied and absorbed the details of the big flyer, that his toy is a very noteworthy duplicate. In building the machine, Cecil made use of an erector set, supplementing this equipment with bits and scraps of various things which came to his hand. He duplicated the tandem seat arrangement, even to the building of a shield and periscope for the observation seat. On the wings of the plane, both top and bottom, he duplicated the markings of the big machine.

The toy is on exhibition at the Popular Dry Goods Co. store.

#### THOMAS L. BLANTON'S NAME AS CANDIDATE FOR CONGRESS OMITTED BY ERROR

In publishing the list of candidates for the various state offices last week, The Standard inadvertently omitted the name of Thomas L. Blanton, candidate for congressman from the 17th district. Mr. Blanton drew fourth place on the county ticket.

In a letter just received from Mr. Blanton, he states that by reason of an agreement had between the leaders of both house and senate and Pres. Wilson, it is very likely that congress will, some time this week, take a month's recess, in which event Mr. Blanton expects to leave immediately for Texas and will spend the time in this district. He expects to speak over the district, and will challenge his opponents to meet him before the

people in every county on the issues raised. In case the recess is not taken, Mr. Blanton will remain in Washington as long as congress is in session.

#### Mrs. Burns' Letter.

Here is a letter that is certain to prove of interest to people in this vicinity, as cases of this sort occur in almost every neighborhood, and people should know what to do in like circumstances:  
 Savannah, Mo., Oct. 12, 1916.  
 "I used a bottle of Chamberlain's Colic and Diarrhoea Remedy about 9 years ago and it cured me of flux (dysentery). I had another attack of the same complaint some three or four years ago and a few doses of this remedy cured me. I have recommended Chamberlain's Colic and Diarrhoea Remedy to dozens of people since I first used it."

#### WHAT'S THE REASON?

Many Brady People in Poor Health Without Knowing the Cause.

There are scores of people who drag out a miserable existence without realizing the cause of their suffering. Day after day they are racked with backache and headache; suffer from nervousness, dizziness, weakness, languor and depression. Perhaps the kidneys have fallen behind in their work of filtering the blood and may be the root of the trouble. Look to your kidneys, assist them in their work—give them the help they need. You can use no more highly recommended remedy than Doan's Kidney Pills—endorsed by people all over the country and by your neighbors in Brady.

W. F. Bodenhammer, Brady, says: "My back often ached and at times I was down with it. My feet and ankles were swollen and my kidneys didn't act as they should. These troubles came on by spells and I always used Doan's Kidney Pills and they relieved me. I generally keep Doan's in the house and use them as needed. They have never failed to give good results." Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Bodenhammer had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

#### CANDIDATES CURRY FAVOR OF THE LADY REGISTRANTS ACCOMPANY MAYO ON TRIP

The majority of the county candidates are this week out in their best bib and tucker, so to speak, endeavoring to impress upon the lady registrants their respective merit and capability for the office to which they aspire. In the absence of the customary picnics and celebrations this year, the candidates have had a hard time getting out among the voters, the more so since the ladies are now included among the voters. Consequently, when Tax Collector S. H. Mayo announced his itinerary over the county in order to enable the ladies to register in their respective voting precincts, the candidates at once hit upon the plan of accompanying him, and getting acquainted with the lady voters at the time of their registration.

It is an interesting and exciting game—and the bashful man stands a good chance of losing out unless he can screw up his courage to a point where he will not let self-consciousness spoil his chances of garnering the votes he so desires.

## DON'T Slow Up Advertising NOW!

Never has there been a time when the public has looked more keenly for MERCHANDISING NEWS than now.

Never has there been a time more auspicious for the enterprising tradesman to secure HIS FULL SHARE OF TRADE than now.

People must continue to eat, to wear and to use.

The tendency is to cut out luxuries, and luxuries are only a relatively small proportion of your business. For every luxury cut out you have a chance to increase your movement of staples.

How short-sighted is the policy of reducing advertising expense to "save money." You will only lose trade. You will only lose prestige.

Advertise to increase sales and make more money; don't cut it out to save money.

Study your advertising as you never did before—do it wisely and well.

Be prosperous and let the people know that you are prosperous.

Success was NEVER achieved by stopping advertising or by wearing old clothes and talking pessimism.

# THE CONSTITUTIONAL AMENDMENTS

## TAKING OF TESTIMONY IN CRIMINAL CASES.

**House Joint Resolution No. 2.**  
To amend Section 10, Article 1, of the Constitution of the State of Texas, providing for certain rights of accused persons in criminal prosecutions, and the manner in which the case may be prosecuted, and providing for the procuring of the testimony of the witnesses for both defense and prosecution.

Be it Resolved by the Legislature of the State of Texas:

Section 1. That Section (10) of Article (1) of the Constitution of the State of Texas be so amended that the same will read and hereafter be as follows:

Sec. (10). In all criminal prosecutions the accused shall have a speedy public trial by an impartial jury. He shall have the right to demand the nature and cause of the accusation against him, and to have a copy thereof. He shall not be compelled to give evidence against himself and shall have the right of being heard by himself or counsel, or both, shall be confronted by the witnesses against him and shall have compulsory process for obtaining witnesses in his favor, except that when the witness resides out of the State and the offense charged is a violation of any of the anti-trust laws of this State, the defendant and the State shall have the right to produce and have the evidence admitted by deposition, under such rules and laws as the Legislature may hereafter provide; and no person shall be held to answer for a criminal offense, unless on an indictment of a grand jury, except in cases in which the punishment is by fine or imprisonment, otherwise than in the penitentiary, in cases of impeachment and in cases arising in the army or navy, or in the militia, when in actual service in time of war or public danger.

Sec. 2. The Governor of this State is hereby directed to issue the necessary proclamation for the submission of this amendment to the qualified voters of this State at the next general election for State and county officers.

Sec. 3. The qualified electors for members of the Legislature shall vote upon said amendment at the said general election and at which election all persons favoring said amendment shall have written or printed on the ballot the following: "For amend-

ment to Sec. 10, Article 1, of the Constitution, providing for prosecution of criminal cases by information, or indictment, and taking of testimony of witnesses by deposition, under certain circumstances," and those opposed to such amendment shall have written or printed on the ballots as follows: "Against the amendment to Section 10, Article 1 of the Constitution."

Sec. 4. The sum of five thousand (\$5,000) dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds of the State Treasury of the State not otherwise appropriated to pay the expense of publishing, proclamation, and election.

(Note.—H. J. R. No. 2 passed the House of Representatives by a two-thirds vote, yeas 123, nays 4; and passed the Senate with amendments, by a two-thirds vote, yeas 21, nays 4; and the House concurred in Senate amendments by a two-thirds vote, yeas 123, nays 0.)

## SPECIAL TAX FOR MAINTENANCE OF PUBLIC SCHOOLS AND FURNISHING FREE TEXT BOOKS.

**House Joint Resolution No. 27.**  
Proposing an amendment to Art. 7 of the Constitution of the State of Texas by changing Sec. 3, providing for a thirty-five cent tax levy for the maintenance of the public schools of Texas, and providing free text books in public schools of the State of Texas, and making an appropriation therefor.

Be it Resolved by the Legislature of the State of Texas:

Section 1. That Section 3, Article 7, of the Constitution, be so change as to read as follows (creating a new section 3):

Sec. 3. One-fourth of the revenue derived from the State occupation taxes and a poll tax of one (\$1.00) dollar on every male inhabitant of this State, between the ages of twenty-one and sixty years, shall be set apart annually for the benefit of the public free schools; and in addition thereto, there shall be levied and collected an annual ad valorem State tax of such an amount not to exceed thirty-five cents on the one hundred (\$100.00) dollar valuation, as, with the available school fund arising from

all other sources, will be sufficient to maintain and support the public schools of this State for a period of not less than six months in each year, and it shall be the duty of the State Board of Education to set aside a sufficient amount out of the said tax to provide free text books for the use of children attending the public free schools of this State; provided, however, that should the limit of taxation herein named be insufficient, the deficit may be met by appropriation from the general funds of the State, and the Legislature may also provide for the formation of school districts by general or special law without the local notice required in other cases of special legislation; and all such school districts, whether created by general or special law, may embrace parts of two or more counties. And the Legislature shall be authorized to pass laws for the assessment and collection of taxes in all said districts, and for the management and control of the public school or schools of such district, whether such districts are composed of territory wholly within a county or in parts of two or more counties. And the Legislature may authorize an additional ad valorem tax to be levied and collected within all school districts heretofore formed or hereafter formed, for the further maintenance of public free schools, and the erection and equipment of school buildings therein; provided, that a majority of the qualified property tax-paying voters of the district, voting at an election to be held for that purpose, shall vote such tax, not to exceed in any one year fifty cents on the one hundred dollars valuation of the property subject to taxation in such district, but the limitation upon the amount of school district tax herein authorized shall not apply to incorporated cities or towns constituting separate and independent school districts.

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of the State at an election to be held throughout the State on the first Tuesday after the first Monday in November, 1918, at which election all voters favoring said proposed amendment shall write or have printed on their ballots the words, "For the amendment to the Constitution of the State of Texas providing for the levy of a special school tax for the maintenance of the public schools of the State and to provide free text books in the public schools of the State of Texas," and all those opposed shall write or have printed on their ballots the words, "Against the amendment to the Constitution of the State of Texas providing for the levy of a special school tax for the maintenance of the public schools of the State, and to provide free text books in the public schools of the State of Texas."

Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution and existing laws of the State.

Sec. 4. That the sum of two thousand (\$2,000.00) dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State of Texas not otherwise appropriated, to pay the expenses of such publication and election.

(Note.—H. J. R. No. 27 passed the House of Representatives by a two-thirds vote, yeas 108, nays 22; and passed the Senate by a two-thirds vote, yeas 23, nays 4.)
