

COCHRAN & STEWART SPUDED IN ON BRANDENBERGER TRACT

EXCELSIOR SHOE STORE RETIRES FROM BUSINESS

The Excelsior Shoe store is no longer numbered among Brady business institutions, Messrs. F. T. Fowler of this city and C. P. Warman of Fort Worth having retired from the business, after disposing of both the shoe stock and shoe repair department. Mr. Fowler has, for the past couple months, been desirous of disposing of all his business and personal interests in Brady, and his closing out the business is no surprise to his friends, although all regret that this action will remove him from business circles in our city.

The shoe stock was purchased by H. Wilensky, and has already been consolidated with his stock. Mr. Wilensky made the purchase at a price which will enable him to make some remarkable shoe offerings, especially in view of the steadily rising market of today.

The shoe repair department has been purchased by H. P. C. Evers and F. A. Knox, and will be continued in charge of Clarence Scott as before, and in the same building with the Evers Saddle shop. The new firm will operate under the name of the Evers & Knox Shoe shop. They feel fortunate in being able to retain the services of Mr. Scott which will enable them to assure their patrons of the same high grade work as has always characterized this shop.

Mr. Fowler is undecided as to his future. He expects to remain here for a week or ten days closing up his affairs, following which he will visit Mr. and Mrs. Warman in Fort Worth and a sister in New York, before deciding what line of future endeavor to pursue or just where to locate. Mr. Fowler, during the nine years of his residence in Brady has been one of our most substantial and popular business men, and in addition has been active in church circles and church work. For the past year or two he has been superintendent of the Methodist Sunday school, where his efforts have been largely responsible for much good and effective work, as well as the upbuilding of the classes. None but the best wishes of friends and fellow-citizens will accompany Mr. Fowler to his new home.

How about your watch? Is it keeping correct time? If not, let us remedy the trouble for you. Satisfaction guaranteed. A. F. Grant, jeweler, east side square.

That good home raised Stearns' honey for sale at A. R. Hooper's.

Sammons-Dunlap.
Friends of the groom in this city will be interested in announcement of the marriage at Fort Worth Sunday of Major Cleveland Sammons and Miss Glenn Dunlap. The groom is a son of W. W. Sammons of this city, and has been in charge of the detention camp at Camp Bowie, and is now in charge of the Salvage depot at that place. His bride is a prominent young lady of Fort Worth, and has been connected with one of the leading banks of that city. Brady will always claim Cleveland as one of her illustrious sons, and is proud of the record he has made in his service with Uncle Sam, and now is even prouder of him since he has gracefully been captured by a member of the weaker sex.

We are here to serve you. Write or wire us your wants. McCulloch County Oil-Lease Exchange.

SAN ANGELO TO ENTERTAIN MT. REMNANT BRIG.

San Angelo is planning royal entertainment for the ex-Confederate veterans and members of the Mountain Remnant Brigade. Gen. H. R. McInnis, commanding this band of veterans, is in receipt of a special invitation from the San Angelo Board of Development to the Mountain Remnant Brigade to meet the citizens of San Angelo on August 6, 7, and 8th. The invitation includes the wives, widows, sons, daughters, families and friends of the veterans.

Bread and coffee are to be furnished free to the veterans and wives, widows and children, in addition to the general program of amusement and entertainment.

The numbers of these veterans are each year growing less, and especial attention is being paid to the making of this years meeting and reunion a most memorable occasion.

DO YOU READ?

Of course you do; and if you do not you can look at the seven comics published every day in the Fort Worth Star-Telegram. Here's our latest bargain offer on the Fort Worth Star-Telegram, for subscriptions running from time of subscribing to December 1st, 1919:

L. P. COOKE SAYS MISSING THE BRADY STANDARD LIKE MISSING HIS DINNER

You have heard, dear reader, of food for reflection and of literary feasts, but have you ever heard of The Standard being compared to a nice appetizing meal? No? Well, then, read what our friend and former citizen, L. P. Cooke says. Porter, who is now with the Brownwood National bank, writes a note that will be of interest to others of his friends; so we are taking the liberty of publishing the same:

"Friday seems to be an unlucky day of late for me, as I have missed getting the last two Friday issues of The Standard. I get the Tuesday issue all right. Please send me a copy of the last two Friday issues, that is for 13th and 20th. It is like missing dinner to miss getting The Standard. "You all have not got us beat on the rain business for it can rain here three times a day and not try very hard.

"My work is not very heavy at this time. I have been made teller until fall, and I like the work fine. We expect business to get good as soon as it dries up so the farmers can get to threshing their grain.
"Best wishes to all."

NEW DEEP TEST GOING DOWN IN MASON CO., 4 MILES EAST HEXT

SPLENDID RIG PROMISES SPEEDY DEVELOPMENT OF TERRITORY TO SOUTH OF BRADY. LOCAL PARTIES RESPONSIBLE FOR DRILLING CONTRACT

The Cochran & Stewart deep test on the Brandenburger ranch in Mason county, 4 miles east of Hext, and about 25 miles south of Brady, was spudded in on last Sunday, and drilling is now actively proceeding. The contract calls for a 2500 ft. test, and despite the difficulties and obstacles of slow transportation, the test was spudded in in less than 90 days from the date of the signing of the contract.

The contract was made through Messrs. E. L. Ogden, Lee King, Dick Dyer and J. C. McCormack with Messrs. J. G. Cochran and J. W. Stewart of Parkersburg, West Virginia, and was signed and the forfeit posted on April 4th, with a 90 day limit in which operations were to begin.

Messrs. Cochran and Stewart, who are prominent operators in West Virginia and Wyoming, showed their capability of carrying out the contract by assembling the rig in record-breaking time, the rig material being on the local tracks in just 30 days' time from the signing of the contract, and the tools and balance of the material following in short order. Good fortune smiled upon their endeavors, and the material was all hauled out in good time, in spite of delaying rains and bad roads.

About the only development the past week has brought has been the finding of a second showing of oil in the Lohn Oil & Gas Co. well on Survey 595. This second showing was found at between 122 and 126 feet, following the finding of a showing of oil and gas the week before at 111 feet.

R. T. BELL REPRESENTING ARMSTRONG MANUFACTURING CO., VISITS BRADY FIELD

R. T. Bell, representing the Armstrong Manufacturing Co. branch at Baxter Springs, Kans., was in Brady the past week looking over the field in the interests of his company. The Baxter company has headquarters at Waterloo, Iowa, and manufacture the well known Armstrong rigs, as well as well supplies of every kind. Mr. Bell was a most affable gentleman, and sees a great future for the Brady field, in the development of which his company, through their rigs and supplies, will naturally play a big part.

A. R. Hooper has the famous Roe Stearns' Honey on sale.

Macy & Co. have a big supply of Oat and Wheat Sacks.

We have plenty of that famous Plymouth Binder Twine in stock to supply everybody. We are getting lots of compliments on this Twine. There is nothing better on the market. Give us a trial and be convinced. O. D. MANN & SONS.

NO NEW DEVELOPMENTS IN ARTESIAN WELL ON THE BUMGUARDNER PLACE

There have been no new developments in the artesian well on the Bumguardner place two miles southeast of Brady, although drilling has been proceeding steadily. Yesterday the drill had penetrated to a depth of 1318 feet and was in a gray lime sand. The well still showed up with as strong a supply of water as ever, although an artesian flow had not yet been struck.

Pure Home Raised Honey, from the Roe Stearns' apiary, at A. R. Hooper's.

Kerr Self-Sealing Mason Jars. Seal air-tight, without using a rubber ring. The Kerr Self-Sealing Mason Jar keeps your fruit—no mould—no spoiling. We have two styles—Regular and Wide Mouth. Be sure the fruit you put up is saved. O. D. MANN & SONS.

For good Ice Service, phone your orders early to 125. MANN BROS. ICE CO.

Attention Confederate Veterans. The Annual Reunion of Mountain Remnant Brigade Confederate Veterans will be held by special invitation of citizens of San Angelo, at that place on August 6th, 7th and 8th, 1919. The well-known hospitality, generosity and enterprise of this city on a former occasion with great success, assures us a royal time. Let all our comrades, wives, widows, sons, daughters and friends show our appreciation by their presence and make this the banner reunion of the Brigade. Few of us are left and many may never meet with us again to enjoy these pleasant occasions.

Beef, bread and coffee will be furnished free to Veterans and their widows and children.

Issued by Order of Commander: H. R. McINNIS, General Commanding Mt. Rem. Brig. U. C. V.

Official: L. BALLOU, Adjutant-General and Chief of Staff. (Papers in this District please copy)

TO BULLETIN REPORT ON BIG FIGHT FRIDAY

The Standard has completed arrangements for the bulletining of reports on the big fight to be staged at Toledo, Ohio, between Champion Jess Willard and Jack Dempsey, the challenger for the world's heavyweight title. This arrangement is being made in co-operation with the local fight fans, who have raised a fund to cover telegraph tolls and the expenses of securing this report. The bulletins will be exhibited at The Standard office, and should give a concise but comprehensive account of the progress of the fight by rounds.

How He Did It.

At a works not far from Manchester some workmen were bragging about the skill of some of the men at their various jobs. After several had related their experiences, one man said that what he had heard was nothing to the skill of a stonemason he knew. The curious part of it was that the mason was a nigger who had only one arm.

"How does he manage it if he has only one arm?" questioned one of the men.
"Why," said the other, "he holds his chisel between his teeth and hits himself behind the head with the hammer."

HOUSEWIVES ATTENTION!

We now have received an Electric vacuum sweeper for renting purposes. Phone us your orders and make your arrangements in advance.

Also have for sale a Hoover Special electric sweeper—the best on the market. Will be glad to demonstrate the same at any time. Phone 102. BRADY WATER & LIGHT WORKS.

H. A. WULFF HERE FROM MEXICO—TO MANAGE GARAGE

H. A. Wulff, late of San Luis Potosi, Mexico, is in the city, and will be associated with his brother, F. R. Wulff, in the garage business, taking charge of the garage. Mr. Wulff arrived this morning, accompanying F. R. upon his return from San Antonio, where the latter had gone for a visit with his parents, and incidentally to participate in a family reunion and celebration of the return of a third brother, C. M. Wulff, who had just returned from overseas where he had been in service with the 315th Ammunition train of the 90th Division.

Prior to leaving Mexico, Mr. Wulff was associated with one of the big smelting concerns of that country, making his headquarters chiefly at Matuhuala, San Luis Potosi, and Torreon, Coahuila, which are located in the central portion of Old Mexico. While the revolutionary activities in this section are not anywhere near so pronounced as in Northern and Southern Mexico, yet there is considerable unrest, caused chiefly by bandit raids and outbreaks. Consequently, that section is far from an ideal place to live.

Mr. Wulff foresees a great future for this section of Texas. Like his brother, he is a live wire, and under his capable management the Wulff garage should enjoy a healthy and steady growth. The Standard is glad to welcome Mr. Wulff to Brady business circles.

Save money by ordering your coal early from Macy & Co. We sell that good McAlester Coal.

BRADY, TEXAS, July 1, 1919.

HONEST INJUN.

Our bet is that a straw vote would indicate the citizens of West Texas want both rain and sunshine—in season and in moderation.

OUR NATIONAL HOLIDAY.

Next Friday is July 4th—the greatest of all holidays in America; and as a holiday it will be observed more patriotically this year than ever before. New lustre shines from the stars of "Old Glory;" her red stripes are brightened by the blood shed so patriotically on the battle-fields of Europe, and her white stripes between a peace and understanding such as the world has never before known.

Have you ever thought of what a beautifully symbolic flag Old Glory is? The stars of the firmament are hers, the white stripes for purity of purpose, and the red stripes for loyalty, blood-bathed thought it may be.

There is not a patriotic American but whose heart fills with pride at the sight of Old Glory, and on next Friday a united, and re-united nation will do homage to this, the greatest of all flags that float o'er land and seas.

SPEAKING OF WATER.

Brady needs an unlimited water supply. There are none who deny this or who argue against that point—but as to the method of obtaining such a supply: well, that's where our paths diverge.

There was universal interest manifested among the citizens over the announcement of a probable artesian supply, and everyone is hoping for a good report from this source. Artesian water for Brady has been advocated by various of our citizens for the past dozen years to our certain knowledge. Many there were who

have believed this offered a solution to the problem, and were ready to back their judgment with their money in order to see a test well sunk. Others steadfastly maintained that the immediate Brady section was out of the artesian belt and that such an undertaking would be hopeless.

To be of value to the city, an underground supply of water must really be artesian; i. e.: it should be a flowing well. Of course, there are exceptions. An inexhaustible supply of water might be pumped with success, if it does not have to be pumped too great a distance. But every foot that water has to be elevated will raise the cost in increasing ratio; therefore the less the distance the water need be raised, the more profitable the operation and the less expense of furnishing the water to the citizens.

Whether Brady's water supply comes from artesian wells or from dammed reservoirs is a matter of small consequence, after all. The problem is to decide which is the most expedient, as well as the most enduring and profitable in the long run—and then take action to get the water.

ALL WEST TEXAS DOES IS PAY.

The chief business before the special session of the Legislature which convenes this week will be the passing of the appropriation bills covering the expenses of the State Government and the State institutions for the current two years. The present State Senate, the members of which represent districts that were fixed nearly twenty years ago, will pass upon these appropriations. It is necessary, of course, because the State's expenses must be provided for and it is the only Senate that we have. But the Legislature ought not to adjourn before it passes a bill redistricting the State so that the present State Senate will never have another opportunity to pass an appropriation bill or to enact any other law which is supposed to represent the will of the people.

Much new revenue will flow into the State treasury because of the production tax that has been levied on oil. The bulk of this new revenue will come from three Senatorial districts. The most active man in having this legislation passed was Senator Darrough of Texarkana. Senator Darrough represents a district which as we pointed out the other day, cast less than one-fifth as many votes as the district in which the Wichita-Burkburnett oil fields are located. And yet Senator Darrough will have quite as much to say about how that money is to be spent and where it is to be spent as the lone Senator from the Wichita-Burkburnett district. AND THIS IS TRUE IN SPITE OF THE FACT THAT EVEN BEFORE THE OIL DEVELOPMENT AND BEFORE THE ADOPTION OF THE PRODUCTION TAX, THE WICHITA--BURKBURNETT DISTRICT PAID MORE THAN EIGHT TIMES AS MUCH TAXES AS SENATOR DARROUGH'S DISTRICT PAID INTO THE STATE TREASURY.

We sometimes wonder how the people of West Texas have stood for the

inequalities in representation which this astonishing situation reveals. The average man would hardly believe that such a situation existed if it were not backed up by figures. The latest figures that are available to us at the moment are those of 1913, but they will serve our purpose well, because the situation is even worse today. The First District, which Senator Darrough represents paid taxes in 1913 on a total assessed valuation of \$28,995,901. During the same year the Twenty-ninth District, which is now represented by Senator Bell, paid taxes on a total valuation of \$240,561,982, nearly nine times that of Senator Darrough's district. And there were like inequalities with respects to the other district. The Twenty-eighth District, in which the Ranger-Eastland-Stephens oil fields are located, paid taxes in 1913 on a valuation of \$150,558,900, and the 26th District, in which the Comanche-Brown fields are located, paid taxes on an assessed valuation of \$92,565,313, more than three times that of Senator Darrough's district. Keep in mind that all of this was before the oil discoveries sent all kinds of values to the skies. In every one of these districts, eliminating the tax on oil altogether, and the assessed valuation on which ad valorem taxes are paid today will show such a greater disparity than even these figures reveal, that it would be amazing. Incidentally, in order that it may be clear that we have some right to speak in this matter, it may be well to point out that the Fort Worth district in 1913 paid taxes on an assessed valuation of \$116,519,664. There has been an enormous increase in this district also.

Now we know perfectly well that representation in the State Senate is not fixed on the basis of how much taxes any particular section pays. But we know also that even in 1910 there was three times as much population in the Wichita-Burkburnett district as in Senator Darrough's district, and there was more than twice as much population in the other two oil districts referred to. And in the last election there were five times as many votes cast in the Wichita-Burkburnett district as in Senator Darrough's district, and three times as many in each of the other two districts. Our contention is that the districts which are paying such a great proportion of the taxes ought at least to have the equal voice in expending it that they are entitled to under the Constitution.

We take it for granted that Governor Hobby will submit the question of senatorial reappointment to the special session. We cannot believe that he will permit this injustice to go on any longer. If he submits the question there will be a bill introduced covering the matter and it will then be up to the Legislature to pass it. There is no valid argument why this condition of affairs should be permitted to go on any longer.

But we have no illusions in the matter. The truth is that the average member of the Legislature from the favored districts, has not the most remote intention of redistricting the State at this session. It is going to take every bit of pressure that it is possible to bring upon the Legislature to get action. The West Texas Chamber of Commerce is going to bring it before the session. It will be represented at Austin by a committee headed by R. E. Huff of Wichita Falls. But it must have the undivided and active support of the people of West Texas and the Panhandle if it is going to succeed. We have suggested before that meetings should be held to discuss this matter. Take it up with your neighbors and then let the Legislature know what you think about it. This matter should not be put off a day longer than necessary to make the change.—Fort Worth Star-Telegram.

TIME TO QUIT.

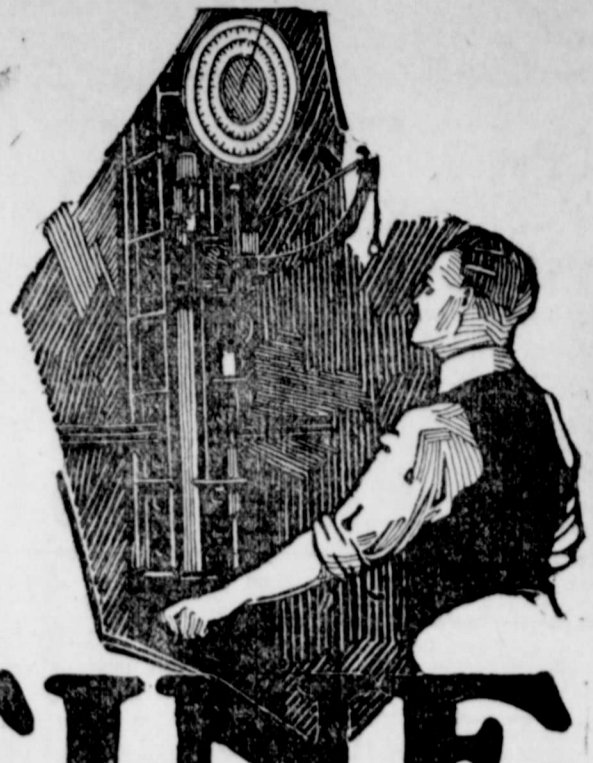

We note that our contemporary, The Brady Standard, has quit calling rains "Million Dollar" rains.—Brady Sentinel.

"Way back early in the game when the rains were tickling the oats and wheat and giving them the big head, The Standard did speak of "Million Dollar Rains," and one week we got enthused to the point where we anted up with a "Two Million Dollar Rain." However, when our observing contemporary, The Sentinel appropriated our thunder, broke into the game and raised the ante to "3,000,000 Worth of Good Rains Fall in Week," in its issue of May 15th, we decided we must be only a "tin horn," and accordingly threw down our hand.

The paths that criss-cross the court yard are to be no more, and the would-be trespasser is finding his way barred with wire entanglements. This editor helped make one of those paths, but he is also ready to help unmake them. "Keep Off the Grass" is one sign in which we believe. The grass is full of chiggers anyway!

OUR SOLDIER BOYS.

There is not a one of our soldier boys but who has an interesting story of his overseas experiences, and The Standard is anxious to give these stories to its readers, as well as to preserve them for future generations. When time and opportunity present, we are enabled to get this story by a personal interview; but more often the boys are anxious to get back to their home folks and friends, and so the opportunity is lost because we are unable to talk with these boys.

For this reason The Standard will be pleased to receive accounts of unusual or interesting experiences of our soldier boys, from any of our readers, many of whom are enabled to present such stories in a most readable and entertaining fashion. Send the stories in to us; we'll be glad to publish them.

SNAP SHOTS.

Percy Noodles says that when he asked the capitalist's daughter why her mother always ordered the limousine when she went two blocks to church she said mamma always liked the closed car because she could ride in her stocking feet.—Dallas News.

TERRIBLY SWOLLEN

suffering Described As Torture Relieved by Black-Draught.

Rossville, Ga.—Mrs. Kate Lee Able, of his place, writes: "My husband is an engineer, and once while lifting, he injured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell off until he weighed 110 lbs., in two weeks.

He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be described as torture.

I sent and bought Theford's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Theford's Black-Draught."

Theford's Black-Draught will help you to keep fit, ready for the day's work. Try it!

Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of R. W. GROVE. 30c.

LOCAL BRIEFS

W. W. Sammons has just received a wire announcing the safe arrival from overseas of his son, Lieutenant Blaine Sammons. Blaine arrived Saturday. He was a member of the 357th Infantry.

J. W. Tabor came in Saturday from Burkburnett for a visit of a few days with his family. Mr. Tabor says there is no end of work at that place. His son Willie, is employed there with him.

H. M. Brannum, who has been helping boost the oil game in Fort Worth and Dallas the past several weeks, came down Sunday for a visit of a few days with Mrs. Brannum and daughter, Betty, as well as relatives and friends.

John B. Westbrook has opened the Singer Shop on the south side of the square and in the building adjoining Schaeg's Saddle shop. John B. is still carrying the Watkins line of remedies, but in addition has taken over and is making a success of the Singer agency. In order to display and store his machines, he has secured these quarters, and will be glad to have interested parties call on him there whenever he is in town.

A. D. Stoneberg was here Saturday from the Melvin community for his first visit in several months; in fact, his first since returning to Melvin from the coast country. Last fall Mr. Stoneberg decided to seek other and more profitable fields in which to labor, and after traversing various parts of Southeast Texas, he returned to McCulloch county, and thinks there is no better place in the universe. He was of the opinion that we were not far from the end of the rainy spell and that unbounded prosperity was to be in store for McCulloch county and her citizens.

Ernest McMurray is wearing his right arm in a sling, the result of a painful accident that befell him last Friday. He was carrying a heavily-loaded sack from the J. M. Radford Co. truck into the warehouse, and in stepping from the truck to the sidewalk, he slipped and fell on his shoulder, the heavy load adding to the seriousness of the fall. The shoulder was thrown out of place and the ligaments strained, so as to incapacitate him for work for a couple of weeks.

Mr. and Mrs. W. J. Yantis went to Dallas last Friday to attend their daughter, Miss Erin, who underwent an operation for an affection of the head on Saturday. Miss Erin had been visiting her brother, George Yantis, and wife at Marlin, but her trouble did not respond to treatment at the wells, and accordingly she went to Dallas, where a specialist found an operation necessary. Mr. Yantis, who returned Monday, reported her getting along nicely, with every indication of an early recovery.

Brady citizens were pleased to greet Dr. J. E. Powell in Brady again last Saturday, and to learn that he has returned to this section, having located at Winchell, in Brown county, and just across the line of McCulloch. The doctor is well pleased with his new location, and is enjoying a splendid practice. Dr. Powell left Waldrip last August, locating at Pecan Gap. However the flu and malaria proved to him that he had erred in his selection of a new location and so he naturally drifted back towards home. He states his family will join him at Winchell in a few weeks.

Our good friend, John R. Winstead, was in from the Waldrip community last Saturday, and in addition to his usual cheery greeting, presented the editor with one of the finest peaches we have seen in many a day. The peach was fully 9 1-4 inches in circumference and although not quite ripened, was perfectly formed and most delicious in flavor. At that, John says it was not by any means the largest of his this year's crop. He has three trees that are bearing this year, all of them having fruit of exceptional size and quality.

Robert White, who has been spending the past week here as a guest of his parents, Mr. and Mrs. J. H. White, left Monday for Houston. Since the close of A. & M. for the summer Robert has been employed by the government in the entomological department, whose plans for this year are chiefly concerned with the finding and eradication of the pink boll worm. The government will have men working throughout the cotton raising territory of the South, from North Carolina to Arizona, on the lookout for the pink boll worm.

Ray Willoughby will leave tonight

for Dallas, where he will join a party of about twenty-five students of Terrill school for an annual outing trip and camp under charge of Prof. Bogard, head of the Terrill school. The party will go from Dallas to New Orleans; thence by boat to New York; thence to Niagara Falls and into Canada, where they will camp for the summer. The party will return in time for the opening of the fall school term in September.

Dell Bo. ers of Hext and Finis F. Westbrook were numbered among the boys returning from overseas Sunday after 17 months service overseas. Both were in a bakery company, and say the baking industry holds no further attractions for them.

Wallace Price and Paul Haddow were visitors here from Rochelle today, Haddow having returned Monday from overseas. Paul was with Headquarters detachment 72 of the Infantry brigade, and during his overseas stay, favored The Standard with some of the most interesting letters received from our soldier boys.

Tom Brown and Dair Baldrige came in Monday, on their return home from overseas. Tom was with the 141st Infantry, C. Co., 36th Division, and Dair was with Co. A, of the 315th Engineers. Tom had been 11 months overseas, and Dair had counted one year and two days from the time he left the U. S. A. until he again touched home soil.

Mrs. Julius Levy and daughter, Mary, returned Sunday from an extended visit to Burkburnett, Wichita Falls and Dallas. Mrs. Levy says no one knows how to appreciate Brady until they have visited Burkburnett and Wichita Falls. They were the dirtiest and muddiest places she has ever been in. She visited her brother, Dave Cook, employed at the Republic Supply Co., at Burkburnett. Mrs. Levy says she is surely glad to be back and dear old Brady looked good to her. Mrs. L. D. Brown of Dallas, wife of the manager of the American Film Co., returned with Mrs. Levy for a visit of several weeks.

Mr. and Mrs. B. R. Miller came up from Llano last Saturday. Mrs. Miller remaining at Pear Valley for a visit of a few weeks with home folks. B. R. is engaged in the automobile business at Llano, and his many McCulloch county friends are glad to know that he is prospering. He reports the Llano \$300,000 road bond election as having been lost last Saturday, lacking about 50 votes of the necessary two-thirds majority. However, proponents of the bonds expects to call another election within thirty days, or as soon as the laws permit, and to not only carry the bonds, but to vote \$400,000 bonds instead of the \$300,000. Miller is a good roads advocate, and sees the wonderful results that are sure to be received by these counties and communities that build good roads today.

Sunday promised to be the first of a series of bright, sunny days, but a post-season rain happened along towards the close of the evening and spoiled the day's chances for this honor. Monday, however, brought redemption, and while the sky refused to clear itself of clouds entirely, yet the day maintained a sunshiny disposition that acted like a tonic on every citizen of this section. Today opens bright and clear again, and, while we are no prophet, we are in hopes that the long-looked for good spell of weather is on and that the harvest of the early grain may now be completed. The return of sunshine sees the gloom of our citizens rapidly melting, and estimates as to the loss sustained by the wheat and oats is now diminishing from a full 75 percent to as low as 5 percent. That there has been a loss, everyone conceded, but the majority opinion is that the loss is not anywhere as serious as has been thought.

Mr. and Mrs. Abner Mayhew and children arrived Friday for a visit with his father, J. C. Mayhew, and brother, Ira Mayhew, and family. Mr. Mayhew was enabled only to make a brief stay, leaving again on Monday night for a trip which will include New Orleans, Atlanta, Boston, New York and other points, in the interest of the Japan Cotton Trading Co. Mr. Mayhew has been located at Paris, where he represented the company, but for the past six months has been under treatment. A month or more ago he submitted to two operations for transfusion of blood and later underwent another operation. He expected to spend several weeks here recuperating, but it was thought the trip he has undertaken might prove even more beneficial, and at the same time enable him to serve his company. Mrs. Mayhew and children expect to return to Paris Wednesday night.

Ray Willoughby will leave tonight

For The Fourth

GET A NEW FLAG

\$5.00 U. S. Flag for Only \$2.75
