

OPENING OF BRADY SCHOOLS NEXT MONDAY, SEPTEMBER 8TH

VACATION'S END BRADY SCHOOLS TO OPEN MONDAY

This week marks the end of vacation for the Brady school boy and school girl. The 1919-20 semester of the Brady schools will begin next Monday, September 8th, and W. L. Hughes, superintendent of the Brady schools is at his desk at Central school building completing arrangements for the work in the elementary grades, and on Thursday and Friday of this week will be at the High school building to register the high school students.

The free text books, which arrived a few weeks ago, will be distributed among the pupils according to the requirements of their various classes, and a record of the books so assigned will be kept on a card signed by the pupil. This will enable the school authorities to secure the return of all books at the end of the school year.

In spite of the many obstacles that beset every line of endeavor in these times of high prices and unsettled labor conditions, the Brady school board is looking forward to a successful year. Many pupils are expected to come from other points to attend the Brady schools on account of the splendid reputation of the local schools, and with new families moving in here, a large attendance of both high and grammar schools is anticipated.

NEGRO PORTER SOLVES IT—RATHER LEAD LIONS THAN DRIVE NITRO WAGON

Frank Harris, a farmer from Cedar Hill and enroute to the Desdemona oil fields was in Fort Worth yesterday. While registering at a hotel he volunteered the following statement: "I am on my way to Desdemona where I hear they are paying \$1,500 a month for nitro-glycerine wagon drivers. I thought I would go out to the field and get a job driving a wagon. Seems to be pretty fair wages."

"I would want at least that much," soliloquized a lounge. The negro porter who had been industriously sweeping the floor, manifested considerable interest in the remarks about the \$1,500 a month job, and inquired, "did anybody ever work a month at driving one of dem wagons?"

"You are fired," said the hotel manager, "for butting into a conversation between guests."

The hotel porter placed his broom against the wall. Neither the lounge nor the man from Cedar Hill could affirmatively answer the porter's question, and as a parting volley the skeptical porter said, "I guess dat's why the glycerine company promises to pay by de month. It knows dat dere won't be nobody able to last a month at dat job. I had heap rather hab a job leading de lions in a circus.—Texas Oil Ledger."

TO MUSIC STUDENTS.

Miss Vivian Braswell who is attending the Dunning School of Chicago, and who also has been a piano student of Harold von Mickwitz, will be in Brady September 8th to take charge of the music class. A large number of pupils enrolled in June for the term beginning Sept. 1919. Others who wish to take advantage of this opportunity will see Miss Braswell at school, Sept. 8th.

JUST RECEIVED.

A carload of Cleveland Tractors. On display at my show room. Get them to do your plowing! F. R. WULFF.

Get your sacks for your Oats and Wheat at Macy & Co.

Come out and compare all tractors Saturday, September 6th; we have invited all makes of tractors, including the Fordson, to meet with us in demonstration on the above date. We have had promises of some being there and we hope they will all be there in order for the people of McCulloch county to know just what kind of an engine to buy to meet their purposes. We have decided that it will be more interesting to have all makes there. We have an 8-16 and 10-20 on hand now to put in this demonstration. Don't forget the date. BROAD MERCANTILE CO.

SYRUP CANS.

Don't forget that we have a good stock of 10-lb. Syrup Cans. Also Wood Barrels from 5 to 55 gallons. O. D. MANN & SONS.

Oats and Wheat Sacks. Phone your wants to No. 295. Macy & Co.

DOVE SEASON IS OPEN— SEASON FOR QUAIL DECEMBER 1ST—BIRDS PLENTIFUL

Doves are plentiful, but will be hard to locate this season, owing to the abundant supply of water, according to local sportsmen. The opening of the dove season was Monday, Sept. 1st. In dry seasons, the doves are found at watering places where the supply does not fail. This season has been wet and the hunters will have to scare up the birds in the brush and fields.

Doves are the only birds which may be killed legally until Oct. 16. The quail season does not open until December 1st, and closes January 31st. The dove season will close December 1st. Fifteen doves and fifteen quail may be killed in one day.

Dry Weather Will Help.

If there are no more rains for awhile hunters expect to have an easier time in getting the birds. When the smaller pools and watering places dry up, the doves will be forced to water at streams and lakes, where the hunter can lay in ambush for the birds.

Numerous changes in the fish and game law have been made. The fee for a hunting license has been increased from \$1.75 to \$2. Anyone hunting beyond the limits of the county in which he resides must obtain a license. Under the old law a hunter could hunt without a license in his own county, in adjoining counties or on land owned or controlled by him.

New Law is Outlined.

Colonel W. G. Sterett, State Fish, Game and Oyster Commissioner, has announced the important features of the new law as follows:

"Three buck deer during the season from November 1 to December 31st inclusive, each year. Three wild turkey gobblers during the season, from March 1 to April 30 inclusive, each year. Fifteen doves in one day, from September 1 to December 1, inclusive. Fifteen quails and Mexican pheasants (known as chachalaca) in one day, December 1 to January 31st. Twenty-five ducks in one day, from October 16 to January 31st. Eight geese per day, from October 16th to January 31st. Eight brant per day, from October 16th to January 31st. Eight sandhill cranes per day, from October 16th to January 31st.

"You are not allowed to kill more than an aggregate of twenty-five in any one day of ducks, geese, brant, plovers, curlew, snipe or shore birds.

"Kill Rabbits Anytime.

"You are not allowed to kill at any time of the year any antelope, mountain sheep, prairie chickens, pheasants, (except chachalaca), woodcock or wood duck.

"You may kill rabbits, hawks, crows, buzzards, owls, English sparrows, rice birds and black birds in any number and all seasons.

"You must not buy, sell or barter any wild game birds.

"You must not catch, kill or have in your possession nor ship at any one time more than the aggregate of seventy-five ducks, geese, brant and shore birds.

"You must not kill a turkey hen at any time.

"You must not catch, kill or have in your possession any wild song birds.

"You must not hunt any wild game or wild game birds at night with any kind of light or lantern."

LABOR SITUATION HERE CLEARING UP—MEXICANS AND NEGROES COMING IN

The labor situation in McCulloch county appears to be clearing up satisfactorily, and there promises to be an influx of laborers from other points sufficient to take care of McCulloch county's great harvests, and at prices that will not be out of reason. The failure of crops in the eastern and southeastern parts of the state is causing the same sort of a hegira from the east to the west, as was witnessed in the west the past year.

Notable among the importation of help was the arrival the past week of 53 Mexicans from Eagle Pass. Two trucks with trailers brought the immigrants, who were gathered in by F. R. Peres, who lives on the A. J. Johnson place, five miles out on the Brownwood road. Another truck load is expected to arrive from the same place this week. This labor will be used in gathering the Peres' cotton, and also that of Mr. Johnson and that of neighboring farmers.

The present spell of pretty weather has once more set the threshers to humming, and it is hoped the weather will continue clear and bright for a number of weeks. This would enable the completion of the threshing, and also pop open the cotton, which has been greatly retarded by its late start and the continued rains.

TRACTOR DEMONSTRATION AT BRADY, SAT., SEPT. 6.

The 8-16 and 10-20 I. H. C. Engine, with the Canton Power Lift Tractor Disc Plow; we want you to see it. We want all makes of engines there. BROAD MERCANTILE CO.

DRILLING AT SHULTZ WELL RESUMED FOLLOWING THE CLEANING OUT OF HOLE

The Shultz well has been cleaned out all the way down. Considerable oil was in evidence at about 3100 feet. This is adding to the confidence that the Shultz "field" will prove an oil producing field. While sufficient oil to pay was not found in this hole, oil in paying quantities is almost assured by the drilling of this well. The new piping has been set and drilling will be resumed right at once. All the geologists agree that the drilling will likely strike another oil bearing sand before the 3500 feet has been reached. The Meers well near this well will start to drilling just as soon as machinery can be put in order and made ready.—Paint Rock Herald.

FRED SPILLER TO TAKE UP GOAT RANCHING—HAS MOVED TO BROOK RANCH

Fred Spiller has forsaken the bright lights of Brady city, and with Mrs. Spiller, has hied himself out to the windmill part of the Lewis Brook Brady ranch near Voca, where he will be in charge of a goat ranch to be operated jointly by himself and Jamie Brook. The partners have started the venture with an initial purchase of over 1,000 head of goats. In moving back to the ranch, Fred is just getting back to his boyhood element, and all his many friends are both wishing and predicting for him much success.

Engraved Stationery. The Brady Standard.

FOUR YEARS SERVICE ON LAND AND SEA—TWENTY-TWO WOUNDS

RECORD OF LT. WM. M. STEWART, MEMBER OF ROYAL ENGINEERS—CROSSED ENGLISH CHANNEL NIGHT ENGLAND DECLARED WAR—LIFE PENSION.

One of the first 100,000 British soldiers to cross the English channel following England's declaration of war on Germany; four years service with the Royal Engineers; in the forefront of some of the most terrible of the battles fought by the British; wounded twenty-two times, and pensioned for life by the British government—that is the record of William M. Stewart, formerly a lieutenant in the British army, and who has been visiting in Brady the past several days as representative of the American-Akron Tire Co.

Stewart has made his home in the United States for the past ten or twelve years, being an engineer by profession. It chanced that he had returned to England for a visit with his parents in 1914, about the time the war clouds began hovering over Europe, and one day he was summoned before a board of English officers. It seems that at the time of his arrival in England his home paper gave him quite a complimentary mention, telling of the fact that he was a graduate engineer. The government bureau had made careful note of this fact, and had gathered other data concerning his ability. So satisfactory did they find this information that, after questioning him for a brief period, the officers asked him if he would consider enlisting in his Majesty's Royal Engineers with the rank of first lieutenant. Stewart, who did not know the first principle of army service, who, in fact, did not know how to salute or even to stand at attention in the presence of officers, considered the matter a moment, and then told them he would accept.

War on Germany was declared that night at 10:00 o'clock by the British government, and at 5:00 o'clock the next morning Stewart landed at Calais with the Royal Engineers—one of the first 100,000 British soldiers to cross the channel. Stewart talks most interestingly of his experiences both on land and on sea, as well as upon the general features and incidents of the great conflict. Upon landing in France, the engineers set to work to build some great warehouses near Calais, and when this work was about completed he experienced his first air raid. The German bombing planes hove in sight one day, and there was not the semblance of air defense on hand—no airplanes for protection, not even anti-aircraft guns. There was nothing to do but run for safety while the German planes dropped their explosives and blew the great warehouse into kindling wood.

The engineers were first in the fight, and the last to leave; they prepared the way for the onrushing soldiers, and they stayed behind to blow up the bridges when the army was retreating; hence their heavy casualties.

When the British took up their positions north of Ypres, they could see the Germans taking up positions on the hill opposite. The next morning the Germans had disappeared from view; they had securely entrenched themselves. When the British adopted similar methods, they found that after digging down four feet they struck water, which they had no means of carrying off. So well had the Germans prepared for their offensive, however, that they had pumps and every other manner of equipment with them, and when they struck water in digging their trenches, they merely set their pumps to work, and completed the trenches as planned.

It was at Ypres that Stewart was first wounded, and his body shows a mass of scars and wounds—twenty-

two in all. The most serious of these was when a shrapnel tore part of his hip away. Several thousand dollars worth of platinum were used to construct a hip joint for him by the army surgeons, a piece of fish bone was grown into the flesh by means of which the platinum joint is kept oiled, and eventually the injury healed, although in the process the leg contracted to some extent. Another time, while engaged in a trench raid at night, the party encountered a German raiding party. A German soldier struck Stewart across the back of the right arm with a trench knife, almost severing that member. A big Irish sergeant in Stewart's party saw the attack, and although his gun was loaded, became too excited to shoot. Instead, he swung his gun like a club on the head of the German who collapsed like an empty bag. The act saved Stewart's life, but his right arm is completely paralyzed from the wound.

Pensioned for life, Stewart has returned to the U. S., and expects to make his home here the remainder of his days. Despite his wounds and incapacities, he takes a cheerful view of life, has learned to do everything with his left hand that he ever did with his right, and thinks this is a mighty fine world to be alive in.

At present he is making his home in Houston, but he expects to leave shortly for Akron, Ohio, where he will make headquarters as district salesman for the American-Akron Tire Co., in charge of several southern and western states, including Oklahoma, Texas, California and others.

J. E. SHROPSHIRE AND J. E. BROWN FORM LAW PARTNERSHIP IN BRADY

Shropshire & Brown is the title of Brady's newest law firm, the members of which comprise J. E. Shropshire and J. E. Brown. The offices of the firm as the same as heretofore occupied by Mr. Shropshire over Broad Mercantile Co. store.

The association of these two able attorneys will be learned of with pleasure by the citizens of McCulloch county. As one of the ablest civil and criminal lawyers in this section, Judge Shropshire has built up a large practice; in fact, one larger than he could well afford to take care of, and the need of an associate to assist him has long been apparent. In securing Judge Brown for his partner, this need has been fully met. Mr. Brown has a wide experience as practicing attorney, both in Texas and Oklahoma, and added to this, his experience on the bench during his term of county judge has widened his experience and knowledge from the viewpoint of seeing both sides of a case presented.

Messrs. Shropshire & Brown will do a general civil and criminal practice, giving special attention to land titles.

That the new firm will meet with abundant success no one will for a moment doubt, and The Standard joins in extending to them best wishes for success.

Spiller-Bell.

The many friends of the couple learn with pleasure of the marriage on last Thursday evening of Mr. W. W. Spiller and Miss Mary Bell, the ceremony having been performed by Elder T. L. Allen at his home south of town. Following the ceremony the bridal couple left, amidst the good wishes of their many friends, on the night train for San Antonio and other points where they spent several days. Upon their return here Sunday they took up their residence at Mr. Spiller's place in the south part of town, where they are at home to their friends.

Mr. Spiller is one of Brady's leading citizens and responsible and successful business men, being senior member of the firm composing the Brady Brokerage Co. He has been engaged in the land, grain and brokerage business for a number of years, and is well and favorably known throughout this territory. The bride is a daughter of Mr. and Mrs. J. E. Bell, and is popular with young and old alike. For the past two years she has taught in the Brady schools, and previously taught in the schools of both Brown and McCulloch county, so that she enjoys an extensive acquaintance over these counties. She is a lady of refinement and charm of manner, and in choosing her for his life's companion, Mr. Spiller is to be sincerely congratulated.

The Standard joins all their many friends in extending to Mr. and Mrs. Spiller very best wishes for every happiness and success.

BIG ENGINE-PLOW DEMONSTRATION

In Brady Saturday, September 6th, with Broad Mercantile Co., F. R. Wulff and O. D. Mann & Sons taking part. Any and all makes of engines and plows are invited to enter this demonstration.

BUYING HOUSES POPULAR PAS- TIME IN BRADY

Probably at no one time has Brady resident property been in such high favor as now, and more deals for houses and lots have been turned this summer than for many years past. Some few of the deals are made on speculation, but the great majority of the purchases are made by citizens seeking a permanent abode. Any property that is at all desirable is readily snapped up by some waiting purchaser, which is the surest indication of the general prosperity of this section and the desirability of Brady as a place to live.

Among real estate deals in Brady closed within the past week or two are the following:

Paul Calvert has purchased from J. H. White the Albert Baze property, located in the vicinity of the Central school building. The property includes half a block of land and a 5-room cottage. Mr. Calvert will occupy the place as soon as he can secure possession.

W. M. Deans has purchased the S. T. Ballou homestead near the Christian church, and will occupy it as soon as the present occupants are enabled to find other quarters. The place includes half-block of land and a 6-room cottage.

Burt Pence has purchased the S. M. Richardson place adjoining the place purchased by W. M. Deans, and will move his family from the country some time this month to enable them to send the children to the Brady schools. The purchase is a splendid 5-room cottage, with modern improvements and about half a block of land.

A. J. Rick's has purchased the Kitchens property near the stand-pipe, in the southwest part of the city, and will occupy it as his residence. The house comprises six rooms, sleeping porch and bath, and with it Mr. Rick's has acquired nearly a block of land. He expects to add a garage and other improvements.

C. A. Anderson is adding about \$1,000 worth of improvements to his home on the north side. The interior is being remodeled and several rooms enlarged and the comforts and conveniences of the home enhanced.

Mrs. W. H. Casner of Bluffton, Llano county, has arrived and has occupied the home purchased by her in the spring from Grover Chambles.

Jack Tait, who has occupied the home just purchased by Paul Calvert, will move to the A. W. Tipton place on the north side as soon as it is vacated by W. M. Deans.

SYRUP CANS. Don't forget that we have a good stock of 10-lb. Syrup Cans. Also Wood Barrels from 5 to 55 gallons. O. D. MANN & SONS.

H. F. Schwenker, Editor

Entered as second class matter May 17, 1910, at postoffice at Brady, Tex., under Act of March 3, 1979.

Absorbed the Brady Enterprise and the McCulloch County Star May 2nd, 1910

OFFICE IN STANDARD BUILDING North Side Square, Brady, Texas

ADVERTISING RATES

Local Readers, 5c per line per issue
Classified Ads 5c per line per issue
Display Rates Given upon Application

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected upon calling the attention of the management to the article in question.

The management assumes no responsibility for any indebtedness incurred by any employe, unless upon the written order of the editor.

Notices of church entertainments where a charge of admission is made, obituaries, cards of thanks, resolutions of respect, and all matters not news, will be charged for at the regular rates.

BRADY, TEXAS, Sept. 2, 1919.

HONEST INJUN.

It looks now like McCulloch county citizens are going to have to take a week off to properly observe Thanksgiving Day.

NEW ADVERTISING RATES.

Beginning September 1st, the price of display advertising in The Brady Standard will be 20c per single column inch and 25c per inch for front page or special position. Minimum charge of \$1.00. Local readers will be 7c per line per insertion, and classified ads will be 1 1/2c per word per issue. Minimum charge of 25c.

This raise in rates has been too long delayed, especially in view of the continued jumps in the costs of paper, material, supplies and labor, and the high cost of living makes the maintenance of the old rates no longer possible.

The new rates are in line with the rates charged by papers in the same class, and are recommended by the National Publishers association as the lowest rates possible at which a newspaper can be successfully operated.

THIS APPLIES IN BRADY.

Last Saturday's mail brought the Record a handful of announcements, from the various wholesale paper houses with which we deal, that another advance in all kinds of printing paper had just gone into effect and that all paper shipped after August 15th, would be billed at the new price. This is a hard blow to an already struggling institution like The Record. We do not pretend to understand the cause of it, but this increase places print paper prices higher than at any time during the worst stage of the war. A few more similar advances will force many small and some larger publishing and printing plants into bankruptcy and suspension. The Record is exerting every means at our command to hold on and keep the paper up to its average standard. In this work we earnestly ask the encouragement and co-operation of the people to the extent of giving us their full patronage and support. We are engaged exclusively in the business of trying to give Hamilton a first-class county paper and are constantly on the job six days out of each week, sending out as good a paper as the means at our command will permit. The quality of a newspaper depends entirely upon the volume of its patronage. The more patronage given the better the paper. The Record is putting every cent it makes back into the maintenance and advancement of the service of the paper. The assistance of one and all by subscribing and renewing subscriptions will help us out tremendously and will be duly appreciated.—Hamilton Record.

BROWNWOOD'S WATERWORKS SYSTEM.

Oftimes the whole world looks dark and gloomy and discouragement very nearly gets the better of the greatest of optimism. We doubt not but what the citizens of Brady have sometimes so felt concerning the municipal water and light works proposition. On the whole we have had no real reason to kick, for the service under municipal ownership has been better than ever before, and the city is gradually acquiring a piece of property that will some day be one of her most valuable assets. There may still be times of gloom and despondency in store for us, but eventually the effort we now make will have its reward.

The following is reprinted from last week's Brownwood News as illustrative of what our neighbor city has accomplished in a period of 25 years. So far as the merits of the controversy mentioned is concerned, The Standard is not informed, but the point we wish to emphasize is that Brownwood in 25 years' time has built a waterworks plant valued at \$65,000 into a community property whose worth now is near the half-million mark.

The Brownwood News says. The News last week, in this column, giving news events that happened in Brownwood 25 years ago, stated that the proposition to irrigate 50,000 acres of Bayou land was lost to the citizens

THE WHITTLERS.

(Note—the following was dedicated to the Whittlers of Eldorado, and was published in last week's Eldorado Success. However the theme is worthy of taking in more territory than merely the confines of the City of Eldorado).

Take a walk up the street, just to look around
You'll see the sign of "Whittlers" all over town.
They whittle up the side walks, they whittle on the wall,
They whittle on the hitching post, telegraph posts and all.
They whittle, whittle, whittle, from early morn till night,
The floor in front of the market, I say—it is a sight!
No seats are furnished, out in front of the door
To get even with the owner, they are whittling up his floor.

They sit upon the sidewalk, there they chew and spit
And look around for a piece of pine, to whittle a little bit,
Every man here owns a knife, with IXL on the blade
Judging the shavings fly, when the whittlers are in the shade.
They talk about the weather, the cotton and the cane
And wonder to the Lord, if it's ever going to rain.
The trees can't grow they whittle so, they pierce them to the core
Each whittler as he comes along cuts one name or more.

At the hotel they whittle on the benches, they whittle on the chairs
They whittle on the counter, they whittle on the stairs;
They even whittle on their shoes, and their boots as well,
Everything that cuts—the whittlers give it h—I.
While I sit here writing, I looked across the street
Three men sat there whittling, I never saw the beat.
I laughed aloud—but lo, in one moment more
A fat man came 'round the corner, and sat down on the floor.

Says I old man I'll watch, and see what you will do
So he got him a shingle and went to whittling too.
The maize has been headed, the cotton is blooming too
The reason for the whittling, I presume, there's nothing else
to do.
So here's luck to the whittlers, I now bid you adieu
If I lived in Eldorado, guess I'd learn to whittle too.
—An Observer.

of the Bayou valley 25 years ago because the irrigation company demanded that the town give up its city-owned waterworks system, and the citizens refused to make this sacrifice.

We stated that a number of the leading citizens opposed this giving away of the city waterworks and we mentioned names, but it seems that we failed to mention the names of the right parties.

We understand now that citizens of Brownwood 25 years ago who were entitled to the most credit for saving the waterworks system from going over as a gift into the hands of a private corporation, were J. H. Grove, W. T. Huskinson, C. H. Bencini and Ira Hall. At least two and perhaps one other of these four men were serving as city aldermen at that time.

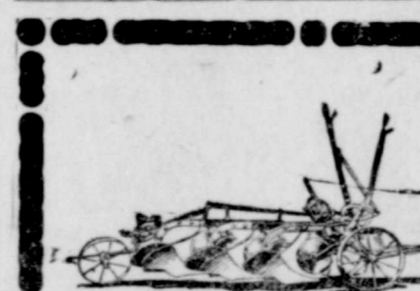

Tom Bell now of Brady, (Mr. Bell lives in Corpus Christi) was mayor of the city at that time, and he headed a number of business men who made every effort to deliver the waterworks system into the hands of the irrigation company in return for the advantages that would result in furnishing water to irrigate 50,000 acres of Bayou farm land.

But all this is ancient history. The city-owned waterworks has proven an immense economical saving to Brownwood, but we are able to realize it better now than the citizens were privileged to realize it 25 years ago.

Still the success of this city-owned utility furnishes a point applicable to our present conditions and opportunities.

Twenty-five years ago the Brownwood waterworks were valued at \$65,000. Today it is worth a half million dollars as a community property.

Push Pins. The Brady Standard.

Here is a Practical Outfit

This Case 15-27 H. P. Oil Tractor pulls three plows in hard plowing—four plows under favorable conditions. It has 25 per cent. reserve power. It burns kerosene successfully and economically. All gears are cut steel enclosed and run in oil. The one-piece main frame insures permanent alignment of all gears, shafts and bearings.

It is also adaptable for all kinds of belt work. It easily handles a Case 26x46 thresher equipped with wind stacker and feeder. Its pulley is properly placed for convenient "lining-up" to a driven machine.

We recommend the 3-bottom automatic lift Grand Detour plow for use with the 15-27 tractor. This makes an ideal combination for the average size farm. It is neither too large nor too small. It can plow from 9 to 14 acres in ten hours.

The plow is light, but owing to its simple construction it is strong and durable.

We will be glad to explain this rig in detail. Write or call us today. Investigate before you buy.

O. D. Mann & Sons

NOTICE: We want the public to know that our plows are NOT the Case plows made by the J. I. Case Plow Works.

DOCTOR ADVISED HIM TO TAKE IT

A. F. Roberts, Successful Cattle Dealer Gains 16 Pounds In 60 Days Taking Tanlac.

"One of the best doctors in Colorado advised me to take Tanlac, and it has not only overcome my troubles but I have gained sixteen pounds since I began taking it sixty days ago," said A. F. Roberts, who lives at Rocky Ford, Alberta, Canada, a few days ago.

Mr. Roberts is one of the largest cattle dealers in his section of the country, and before moving to Canada a short time ago, he had spent most of his life in Colorado, U. S. A.

"I can now understand why Tanlac enjoys such wide popularity both in Canada and the United States," continued Mr. Roberts, "and since it has done me so much good, I know that it is a very dependable medicine and deserves all the praise that is being given it. For the past two years I have suffered from stomach trouble, and when I commenced taking this Tanlac, it was almost impossible for me to retain anything I ate. I was very nervous and never got a good night's sleep, and finally got so weak and rundown that I was hardly able to get about. I often had dizzy spells, and was bothered a great deal with constipation.

My physician certainly knew what he was doing when he prescribed Tanlac for me, for it has done the work for me, as I am as healthy and strong now as I ever was in my life. In fact it has done much more for me than I ever expected it would do. I have a fine appetite and everything I eat agrees with me perfectly, and I never have the slightest sign of stomach trouble of any kind. I am no longer bothered with constipation, and never have those dizzy spells any more. I have regained all my strength, too, and that nervousness has left me, and I sleep like a log every night. In fact, I am simply enjoying perfect health again, and I give Tanlac credit for it all."

Tanlac is sold by leading druggists everywhere.

MAKING 45c DO THE WORK OF \$112.50

CAUSE

Last Tuesday a friend said we had boosted our Classy-Fied Ad Column so hard, he was tempted to try it in selling his home.

EFFECT

Wednesday night we sent him the names of a number of inquirers. By Thursday noon we had a buyer for him at his own figure.

The total cost of the ad was 45c. Had the property been sold by a real estate agent, the regular commission would have been \$112.50.

Kindergarten Helps for Parents

This is No. 3 of a series of articles issued by the National Kindergarten Association. They will appear weekly in these columns.

THE STORY OF THE CLOCK.

By CARRIE S. NEWMAN.

"Come, Betty," said Mother, "put away your dolls. It is time for bed." "Oh, mamma," pleaded Betty "I don't want to go to bed yet. I'm not a bit sleepy."

"But, Betty, look at the clock. The hands are pointing to 7 and you know that is bedtime."

"Horrid old clocks! I wish they'd all stop and never go again," muttered Betty as she tucked Matilda Jane and Josephine into the carriage in which they slept.

"Tick-tock, tick-tock," sounded the dining room clock in the night, and in the quietness its voice seemed to grow louder and louder.

"What's the matter?" inquired the kitchen clock from its shelf. "You seem to be angry."

"Didn't you hear what Betty said before she went to bed? I think I'll stop and see how she likes it."

"Well, if you stop, I'll stop," answered the kitchen clock.

The tall grandfather's clock in the hall paused to listen to the conversation. "If they are both going to stop, I'll stop too. I am quite tired ticking day and night and would like a rest."

Betty opened her eyes. How quiet the house was! But it was quite light and must be time to get up. She tiptoed into mother's room. Mother was wide awake, but still in bed. Isn't it time to get up?" asked Betty.

"I don't know, dear; the clocks have all stopped."

Betty dressed and ran downstairs.

No breakfast ready. "You see I didn't know what time it was. All the clocks have stopped," explained Hannah.

When Betty had finished her breakfast she put on her hat and ran down the street to call for her little chum, Pearl, to go to kindergarten.

"Why, Betty, you are very late," said Pearl's mother. "Pearl has been gone some time."

Betty hurried down the street. Not a child in sight. No one on the playground. She crept up under the window and listened, then turned and ran home, the tears trickling down her cheeks.

"I'm sorry, little daughter," said mother, "but I had no way of telling the time."

"Do you think it's anywhere near 1 o'clock?" asked Betty a few hours later. "You know, Uncle James promised me a ride if I came at 1."

"You'd better run over and see," said mother.

But alas for poor Betty! She ran around the corner just in time to see Uncle James disappear in the distance.

"Betty, Betty, wake up! and Betty opened her eyes to find Mother standing by her bedside.

She sat up and listened intently, then threw her arms around Mother's neck, exclaiming, "Oh, I'm so glad it was only a dream!"

And before she ate her breakfast Betty crept over to the clock and whispered: "I'm sorry I called you names. I'll never do it again."

LOCAL BRIEFS

Mrs. J. H. Snodgrass of Brady was among the visitors to Stacy Monday and while here ordered The Standard sent to her sister, Miss Adie Hammons, who is now making her home at Jouranton.

Bill Hampton arrived Monday from Brownwood, and is greeting his many friends here. Bill will be here this season with the A. H. Richardson Co., cotton buyers. His family will join him as soon as he secures a residence.

Geo. F. King returned to Brady Friday after spending several weeks in Desdemona and various other new oil fields. Mr. King says the Desdemona field is one of the most remarkable he has ever seen in all his many years' experience in the oil game.

A. W. Cooper was among the oil men here Friday, having come down from Fort Worth on business. Mr. Cooper states as soon as Mr. Shields returns from the east they will complete arrangements for pushing the Cooper-Shields well to early completion.

Mr. and Mrs. H. F. Hardin and son, accompanied by her mother, Mrs. J. P. Waddell, were visitors here from Rochelle Monday. Mr. Hardin states that they have been enjoying a vacation and rest the past couple months, but expect to return again to Fort Worth very shortly.

From the Brownwood Bulletin we note that L. P. Cooke has purchased the O. B. Robinson home on Coggin avenue in that city, moving into his new home on Thursday of last week. We congratulate Brownwood upon having acquired as permanent citizens this splendid family.

W. E. Lohn was here Monday from Lohn and reported that he had succeeded in getting his threshing done before the last rain. Mr. Lohn said the last bundle of sudan grass was just being fed into the thrasher when the first spatter of rain began falling. Needless to say, he was in fine humor over his good fortune.

"An editor can move a man about most any place," said J. T. H. Miller last Saturday. "He moved me over to Calf Creek last week, although I have lived in the Dodge community ever since coming to McCulloch county to live some four or five years ago." Well, most editors have a loose cog somewhere—and that was where our cog slipped.

Ev Simpson last week developed a badly swollen left arm, which was diagnosed as blood poison. Mr. Simpson's only account for the trouble was that the arm might have been burnt or infected by dip used for dipping cattle. Fortunately the injury did not turn out serious, but is responding to treatment, and Mr. Simpson hopes soon to have his arm out of the sling.

I. E. Anderson was among the visitors in Brady Saturday. Mr. Anderson is making his home with his son, Lucien, at Marshall, Texas, but for the past month has been visiting his son, H. E. Anderson, and family about ten miles out on the Brownwood road. Mr. Anderson expects to erect a monument over his daughter's grave at Katemcy cemetery as soon as the stone arrives.

J. W. Woosley arrived Monday from Emory, Rains county, and this morning assumed his duties as carrier on rural route No. 1, having been transferred here by the postoffice department. Mr. Woosley succeeds E. E. Williams, who has carried the mail for the past couple years, and who is removing to Richland Springs, contemplating removing to Big Springs.

From the Eden Echo we note Misses Portia and Marian Brindley of West Fork, Ark., are visiting Prof. B. Davenport and family, and that both will teach music this year, Miss Portia in the Eden high school and Miss Marian at Voca. Miss Portia has taught music at Voca the past couple years with uniform success, and the good people of Voca are to be congratulated upon securing her sister for her successor.

KEPT HER AWAKE

The Terrible Pains in Back and Sides. Cardui Gave Relief.

Marksville, La.—Mrs. Alice Johnson, of this place, writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful."

I could not do anything, not even sleep at night. It kept me awake most of the night... I took different medicines, but nothing did me any good or relieved me until I took Cardui...

I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again... I decided I would try Cardui... By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone.

I shall always praise Cardui. I continued taking it until I was strong and well." If you suffer from pains due to female complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their present good health. Give it a trial. NC-133

J. L. Smith was here from Lohn last Saturday. Mr. Smith last week had an experience which he says he has never before equaled, and that was making his way from Bluffton in Llano county, to Brady through mud and rain. Mr. Smith had gone down there to assist in moving Mrs. Emma Casner's household effects to this place, and the experience was one he does not care soon to repeat.

Our good friend, E. I. Cummins, accompanied by Guy Cummins, and also his nephew, Claud Weaver, was up from London Friday greeting his many friends while attending to business. Eph says the London country is growing some of the finest crops you ever saw, and along with them he has some of the finest stall-fed birds in the world, and he promises to stake all his friends to a first-class feed when they come out his way.

W. L. Hughes, superintendent of the Brady schools, returned Saturday from College Station, where he had been putting in several months of hard work in the study of agriculture and the most approved scientific agricultural methods at A. & M. college. He reports a most enjoyable and profitable summer's work, which he expects to put to good account in the Brady schools this year. Mrs. Hughes and sons, who had been visiting home folks in San Angelo during the summer, returned to Brady also Saturday.

W. W. Anderson returned Saturday evening to his home at El Paso after a visit of a few days here as a guest of his brother, H. E. Anderson, and family. His real object in coming, however, was to see his father, I. E. Anderson, who is also visiting here. It has been something like twenty years since W. W. lived here, although he has made visits here in the meantime. His most recent visit was some several years back when he acted as interpreter in the trial of the Mexican who had his arm shot off while trying to escape following his killing of a Mexican woman.

D. J. Malmstrom of Melvin was among Monday visitors to Brady. Mr. Malmstrom returned just the past week from Detroit, Mich., to which point he accompanied his daughter, Miss Esther, and where they visited another daughter, Mrs. H. A. Anos. Mr. Malmstrom reports the trip well worth the money. The cool lake breezes made his visit at Detroit most delightful, and while there, he took advantage of the opportunities to visit the great Ford factories, which he describes as the most wonderful sight he has ever seen. Miss Esther will continue her visit with her sister for some time.

PERSONAL MENTION

Miss Mamie Penn has accepted a position as saleslady with the S. A. Benham store.

Mr. and Mrs. C. L. Gault came up this morning from Placid on a business visit to Brady.

Mr. and Mrs. Edwin Broad came over from Menard Saturday night for a brief visit with relatives and friends.

Mrs. Jim Matthews and son, Norton, were guests of Mrs. W. H. Ballou while here from Peg Leg ranch on a visit.

J. M. Roe came in Friday from Dublin and is completing arrangements to again buy cotton here during the coming season.

Mrs. W. T. Sheppard and daughter, Willie Bell, arrived Monday morning from a six weeks' visit to relatives near San Angelo.

Mr. and Mrs. S. T. Ballou are visiting in the city, guests of their nephew, W. H. Ballou, and family, while Mr. Ballou is attending to business mat-

ters.

Mrs. Gunter Kiehne and little daughter, passed through Brady Tuesday enroute to their home in El Paso, after a visit with her mother, Mrs. Miers of Lohn.

Mrs. J. W. Waymire left last night for Douglas, Neb., where she will remain while Mr. Waymire makes a trip over the new Texas oil fields and decides upon a new location.

P. A. Campbell returned Monday from San Antonio, where he had been visiting Mrs. Campbell, who is under treatment by a specialist at that place. He reports her doing as well as could be expected.

Miss Mary Champion, who had been spending the summer with her parents, Mr. and Mrs. Frank Champion, left Saturday night upon her return to Fort Worth, where she will resume her position as teacher in the Arlington Heights school.

The Quinine That Does Not Affect the Head because of its tonic and laxative effect. LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE, Inc.

COLLEGE OF INDUSTRIAL ARTS

STATE COLLEGE FOR WOMEN
Denton, Texas

Next Session Opens Tuesday, September 16th.

Denton, Texas, Sept. 1.—The College of Industrial Arts at Denton, Texas, is the largest educational institution of first rank in Texas except one, which is co-educational, the largest college for women in the Southwest and the third largest college for women in the United States. Its phenomenal growth and remarkable record are due to the fact that its courses of study represent in content and method the very best in the educational of the young womanhood of this country. Their mastery of the courses of study gives intellectual discipline, culture and development of character, and social and economic efficiency. There is no proper phase of the education of a young woman which is not adequately and generously provided for at the College of Industrial Arts. With a faculty of more than ninety (90) members, with twenty (20) buildings located on a beautiful campus of seventy-five (75) acres, and with every modern convenience and comfort this great College is unquestionably better prepared to educate the young women of Texas than any other educational institution of the United States. Why should the young women of Texas attend colleges and universities in the North and the East, when the College of Industrial Arts offers a better and more wholesome environment, a more thorough, comprehensive and adaptable training, larger opportunities for growth and achievement, all for less money, nearer home? Parents, guardians, and girls interested in what the College of Industrial Arts offers in the way of education and training to the girls of this country and who desire a catalogue, should write President F. M. Brally, College of Industrial Arts, Denton, Texas.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Cure is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

MCCULLOCH CO. DELEGATES TO WORLD COTTON CONFERENCE AT NEW ORLEANS

Among the 530 delegates appointed by State Agricultural Commissioner Fred W. Davis, we give below those from this section.

This great conference appears to be the culmination of a movement started some two years ago by Commissioner Davis looking to a producer's as against a speculator's cotton market in the South.

The movement has spread to all the Southern states and has assumed such proportions as to attract world-wide attention. The results of the great New Orleans conference may have vital bearing upon the future of the Southern cotton trade, especially as to its market phases, and we hope it may receive such consideration at the hands of our people as its importance appears to justify.

Commissioner Davis is much gratified at the responses coming from delegates from all portions of the state, indicating marked appreciation by them of the importance of a great representation at the conference of Southern farmers and their friends.

Following is a list of delegates and alternates, respectively, from this section, who are urged to attend this conference:

- D. A. Hurd, Brady—Abner Hanson, Brady. A. T. Anderson, Brady—J. E. Campbell, Brady. August Stromquest, Brady—August Young, Brady. W. R. Rice, Brady—Walter Snyder, Brady. G. V. Gansel, Brady—C. A. Johnson, Brady. Henry Huffman, Brady—Jno. Swenson, Brady. J. T. H. Miller, Brady—G. C. White, Brady. Oscar Engdahl, Brady—Theo Lyckman, Brady. J. S. Garey, Brady. A. J. Johnson, Brady. W. M. Capps, Brady—Henry Miller, Brady. C. L. Hendrickson, Brady—Carl Johnson, Brady. Jno. Nelin, Brady—Herbert Harkrider, Brady. D. C. Middleton, Doyle—J. R. Herd, Doole. Jas. Finlay Fife—R. K. Finlay Fife, Wm. Mc re. Fife—E. B. Baldrige, Fife. J. T. Crow, Rochelle—A. E. Neal, Rochelle. J. L. Smith, Lohn—J. K. Shelton, Lohn. Tom Sellman, Rochelle—C. V. Bratton, Rochelle. W. F. Camel CIGARETTES

18c. a package

CAMELS supply cigarette contentment beyond anything you ever experienced! You never tasted such full-bodied mellow-mildness; such refreshing, appetizing flavor and coolness. The more Camels you smoke the greater becomes your delight—Camels are such a cigarette revelation!

Everything about Camels you find so fascinating is due to their quality—to the expert blend of choice Turkish and choice Domestic tobaccos.

You'll say Camels are in a class by themselves—they seem made to meet your own personal taste in so many ways!

Freedom from any unpleasant cigarette after-taste or unpleasant cigarette odor makes Camels particularly desirable to the most fastidious smokers. And, you smoke Camels as liberally as meets your own wishes, for they never tire your taste! You are always keen for the cigarette satisfaction that makes Camels so attractive. Smokers realize that the value is in the cigarettes and do not expect premiums or coupons!

Compare Camels with any cigarette in the world at any price!

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.
