POSTPONE CAMPAIGN NEAR EAST RELIEF FUNDS

The local campaign for funds for "Near East Relief" has been postponed. This in accord with a message received from campaign headquarters stating that the "Relief Drive" had been postponed until the early part of next month, when a three-weeks' campaign was to be inaugurated. While the weather in Texas has been entirely unfavorable to any campaign, in the North conditions were even less favorable. Cold and snow storms have forced a postponement of the plans until a more favorable time.

While the local campaign was at first started merely as a voluntary subscription, it has now been decided to organize a county-wide campaign, which will be made simultaneously with the nation-wide drive. Voluntary subscriptions already in hand by the Brady committee will be held and applied to the drive fund. Full announcement of drive quota, personnel of the campaign committees and individual contributions will be published at the time the drive is made.

F. D. SCHOOLEY, HIGHLY RESPECTED CITIZEN OF LOST CREEK COMMUNITY IS DEAD

The death of F. D. Schooley, well-known and highly-respected citizen of the Lost Creek community, occurred unexpectedly at 8:00 o'clock yesterday morning, at the home of his son. Mr. Schooley had started to walk to Fredonia, apparently in the best of health and spirits, and stopped at his son's home, a mile away, for a brief rest and visit. While sitting in a chair, death suddenly overtook him, heart failure being pronounced the cause of his demise.

Mr. Schooley was something over 60 years of age. For twenty years past he had lived in McCulloch county, being one of the most highly respected, as well as influential citizens of the Lost Creek community. He was a member of the Methodist church for many years, and was also a member of the Woodmen lodge. Besides his widow, a large family, all of whom are grown and substantial citizens, is left to mourn his passing away.

Funeral services were held yesterday.

NEW STRETCH OF CEMENT WALKS ON SO. SIDE SQUARE

The last gap in the stretch of sidewalks about the down-town section is to be closed with the building of a block of cement walks on the south side of the Brady public square. The walks will extend from the middle of the south side to the southwest corner of the square, will be of regulation width and completion of the walks is anticipated before March 1st. South side property owners who will co-operate in the sidewalk-building campaign include J. F. Schaeg, W. P. Yearly, Sam W. Hughes, R. Hutschenreuter, J. C. Wall. The moving of the Brady postoffice to the west side of the square, which is to be accomplished March 1st, has made the placing of permanent walks along this block imperative, although the necessity of the same has long been recognized. The only gap in the walks of the down-town section will then occur

BRADY'S BANK SHOWING

The statement as made by Brady banks under calls of the comptroller of the currency and state commissioner of banking as of December 31, show an increase in deposits, over that of November 17, of \$202,324.66; with a gain in resources for the same period of \$110,358.25.

The gain in deposits under the call of November 17 was \$582,669.40, and resources gain for the same period was \$280,348.53.

The figures for the two calls were as follows:

	Deposits.	Call of Dec. 31	Call of Nov. 17
Banks			
Commercial National	\$1,076,251.70	\$ 939,196.76	
Brady National	623,124.87	557,855.15	
TOTAL	\$1,699,376.57	\$1,497,051.91	
Resources			
Commercial National	\$1,442,838.71	\$1,397,555.33	
Brady National	824,575.13	759,500.26	
TOTAL	\$2,267,413.84	\$2,157,055.57	

Thus from September 12 (time of call preceding that of November 17) the deposits of Brady banks increased \$784,994.06, while their resources for the same period shows a gain of \$1,353,931.33.

These increases extending over a period of only a trifle over three months is the best indication possible of the prosperous conditions that prevail in Brady and the McCulloch county section.

In our judgment this is but an indication of what is to follow. The outlook for a magnificent business year was never more in evidence than now. The banks of Brady can be safely accepted as barometers showing by their increasingly prosperous condition the trend of events.

S. A. CONLEY & SONS CO. NEW AUTOMOBILE GARAGE OPENED AT MARLIN, TEXAS

Albert Steelhammer, Jr., came down last Saturday from Dallas, where he has been employed with the Buick company the past couple years, and will visit his parents and friends here for a short time before going to Marlin, where he will be associated with S. A. Conley & Sons Co., a new automobile garage firm of that city, and at whose head is S. A. Conley, for many years prominent Brady citizen and one-time mayor of Brady.

Mr. Conley, for a number of years past, has made his home in California, but on account of his health, returned to Texas, and decided to engage in the automobile repair business at Marlin, the city famous for its mineral wells. Associated with Mr. Conley is his son, Joe, who has also been employed with the Buick company at Dallas for a number of years past.

Mr. Conley's many Brady and McCulloch county friends will be glad to hear of him, and to wish him every success in his new enterprise.

BRADY GINNINGS 6,439; COMPRESS RECEIPTS, 17,000

The three Brady Gins have turned out, up to yesterday noon, 6,439 bales, divided among the three as follows:

Planters Gin	1,948
Koerth Gin	2,216
Embry Gin	2,275
Embry Gin	2,275
Total	6,439

Compress receipts to date, according to Supt. R. W. Lee, total 17,000 bales, with 15,000 bales already pressed so far this season. Mr. Lee estimates that this is just about one-half of their total receipts for the present season. In 1914 the compress pressed 50,000 bales.

STEEL AND PLATE GLASS FRONT FOR BRADY AUTO CO.

Among the many building improvements in Brady scheduled for the early part of this year is the reconstruction of the Brady Auto Co.'s building front and office and show rooms. While plans have not yet been fully completed, it has been definitely decided by the members of the firm to replace the present front of the building with steel and plate glass. With a frontage of 100 ft. on North Bridge street, this will give the Brady Auto Co.'s building a most attractive and imposing appearance, and will mean much to the city of Brady from the standpoint of "first impressions" upon the visitor to the city, who will pass the building enroute from the depot to town, and vice-versa.

Other improvements will include the building of a 40x40 ft. office and show room, which will occupy the middle front of the building, giving entrance and exit drives to either side, as well as a circular drive around the office, enabling parking of the cars around the outside walls of the large garage and making them easily accessible to the drive. The office and show room will be glass-enclosed, enabling a view of all parts of the building. Adjoining the office will be built a 30x40 stock room.

Manager B. A. Hallum is very enthusiastic over the contemplated improvements and the great advantage they will give him in the handling and caring for the automobile trade. The improvements should be under way within the next thirty days, and will be pushed to completion before early part of summer.

To Public School Patrons.

This letter is addressed to the patrons of the Brady public schools with the hope that it may promote a better understanding of the Texa Book law. The State of Texas is furnishing books for the children this year and will furnish them in the future. However, the following things should be remembered:

1. That the books are not given to the children but only loaned to them.
2. That any book lost, destroyed or damaged must be paid for before the child can secure another book.
3. That I am under bond to see that the books are not lost or damaged.
4. That all books must be covered and kept clean.
5. That books must be returned when the child withdraws from the school; and the child must secure a card showing that all books have been returned or paid for before he will be

issued books at another school, or at this school.

6. That any person can buy his books at any time and do with them whatever he pleases.
 7. That parents should cooperate with the school authorities in keeping the books clean, etc.
 8. That parents should see that all books are returned when the child withdraws from school.
- Parents' attention to these matters, and their cooperation will be appreciated.

Very respectfully,

ROCHELLE RUMBLINGS.

Here's a Fine Letter to Start Off the New Year.

Rochelle, Texas, Jan. 12.

Editor Brady Standard:

For the first time this year, 1920, I'll try to give you the happenings in and around Rochelle, and the first thing to tell is that we are having some cold, wet weather. Actually having some wet weather. And we are pretty sure we will get the cotton out in time to replant the ground in something. Just what ever will make the most in mud with no sunshine.

Well, Christmas, with all its joys and sorrows has come and gone once more and one more year, 1919, gone into history. A history of a bountiful crop of all kinds, and while the farmers have had a hard pull trying to harvest, from inclement weather and also from shortage of labor, but what has been gathered has brought such a fine price, that it makes folks forget those troubles and rejoice in prosperity and plenty. Cotton priced at from 30c to 40c per pound—is fine to pay up back debts of the three previous hard years and not only makes the farmer smile, but also brings out a grin on the face of the banker, the business man, the blacksmith, and even the preacher is enjoying more plentiful of everything, and how thankful each of us should be for this splendid abundance! And it was also fine on the man who had bought a home on time and had been struggling along, striving to keep the interest paid up and at the same time to keep the wolf from the door of his home. And so many have taken advantage of the present opportunity and bought homes, and if they could not pay them out entirely, made such an enormous payment as to put them on easy street.

Hauling wood is the order of the day now at this place, and it don't get too wet for this, either, for if they can't pull the load with two horses or mules, they just hook up four and go right along. Mr. Willie Sellman's team took three leads to

the school in progress nicely under the skillful management of our efficient faculty of teachers.

Now, Mr. Editor, as it is too wet to get out and hunt up news and we have had no phone service since the freeze about Thanksgiving, you can't expect much news this time. I hope before time comes to write again, we will have our lines all up and service complete.

"And how is your little playmate, Willie?" she asked her small niece.

"Why auntie, didn't you know?" Janie answered cheerfully. "Willie's done dead and drug off."

Resolves to Write More Often—\$37 Proceeds Box Supper.

(Too Late for Last Week).

Brady, Texas, Jan. 6.

Editor Brady Standard:

A new year has begun; how many of us correspondents have made a new resolution to be more prompt in sending in the news? We are not so rushed with work now, so let's have the news every week.

If we could have two weeks pretty weather most everybody would get their cotton gathered. Several have finished picking the past week, and the rest have sufficient help to get through if we only could get the sunshine, but it is misting at present and looks like a cold spell coming.

Cleve Hemphill moved to the Shaver place last week.

Mr. Bert Hughes, wife and baby and Miss Mary Winstead of Brady visited at H. L. Winstead's Sunday afternoon.

Mesdames J. Newton Hilliard and Purdy spent the day with Mrs. N. C. McShan Sunday and in the afternoon several ladies dropped in to see their used-to-be neighbor, Mrs. Purdy.

A crowd of young people enjoyed themselves at a singing at Cleve Hemphill's Sunday night.

We had our box supper Saturday night and were well pleased with results. We only had 17 boxes, tho' they brought in \$57.00—the highest box sold for \$9.75; the lowest for \$1.75. There was some lively bidding—the married men making the boys pay for a box when they got it. We only had a small crowd, mostly Cow Gap folks. We are indebted to Mr. Bill Burdy for auctioning off the boxes so well. By adding a little more to it, we will get a \$25.00 library and a steel book-case for the school.

Chas. Hilliard's brother and brother-in-law from Comanche are here on a visit.

Bill Purdy and mother from Carroll Colony attended the box supper Saturday night.

Master Porter Dillard who was hurt in a run-away was able to start to school again Monday.

We failed to get our mail yesterday on account of muddy roads.

Wonder, Ore., Jan. 5.

Editor Brady Standard:

Tell the "Cotton Moth" that I am still on the turf; and I have found out who it is, and I suppose that will mean another box of fruit.

Well, the more the merrier. But, my! what a name!

If you were in Oregon you would be a coddling moth, for that is the kind that destroys the apples. We have to spray the growing apples with arsenate of lead to kill the larva of the coddling moth before it buries itself in the apple.

I hope the Texas legislature doesn't enact a law compelling farmers to spray for boll weevil for it would take all the profit, it is bad enough to have to dip cattle to kill ticks, and once in a while kill a noble young man in consequence.

I am glad "Seed Tick" changed to the name "Hope," and I hope "Boll Weevil" changes to "Faith" or "Charity." "Faith," it's a pretty name, but the book of Truth says that of the three Christian graces, charity is the greatest. Charity hideth a multitude of faults, so gentle reader, I must crave the indulgence of your charity. Also your patience. I have so many important things to write about, but will have to defer them till later.

is going to get that long talked-of paper dollar.

I being so busy myself, can realize why it is I didn't receive more ears than I did.

I received two parcels of very fine pecans, one of which did not bear the name of sender. If I find out who it was sent them, I will lay to get even with them for playing such a Christmas trick on me.

Everybody seemed to have a merry Christmas this time, and I hope that happiness and prosperity may abound throughout the year.

Kindergarten Helps for Parents

This is No. 21 of a series of articles issued by the National Kindergarten Association. They will appear weekly in these columns.

By DOROTHY CANFIELD FISHER.

A well-known doctor has suggested that every person, once in his life, should be prevented by force from drinking a drop of water for twenty-four hours, in order that thereafter he might appreciate what free access to water means for health and comfort. On the same principle it might be a good thing if every country mother should be obliged to spend a month with her young children in the city, so that she might thereafter appreciate what splendid opportunities lie all about her country home. For the poorest, busiest country mother can easily have conditions and materials for which many a highly trained kindergarten teacher sighs in vain. Perhaps the greatest of her privileges is the wonderful resource of having all outdoors, but this is a privilege which the mother of young children is apt to neglect. She herself must be in the kitchen or near it during much of the day, and she must have her babies where they are within sight. It often follows that country little folks spend almost as much time hanging drowsily around a kitchen, where they are in the way and where the air is not good, as do the city cousins. What else can the busy mother do?

She can apply to her children the lore she has learned about little chicks. Her men folk, hardened to fencing long stretches of field and meadow, would laugh at the ease with which a little square of yard outside the kitchen door can be inclosed. Fencing which is not good enough for chickens will keep little children safe from automobile haunted roads, from wandering cows, from running out of sight of their mother's eyes. And there is no farm in the country where there is not enough discarded fence material of one kind or another lying about to inclose a spot, say twenty feet square, though it might be larger to advantage. It is better if there is a tree to furnish some shade for hot days, but if there is none near enough to the house, a piece of old paper roofing, or a section of old corrugated iron roofing, or some old boards with odds and ends of shingles put over them, will furnish shade in a corner of the baby yard for hot days, and protection from the rain during summer showers.

Now with her little ones foot free and yet in security, out from under her feet in the kitchen, and yet close at hand within sight and hearing as she steps about her daily work, the country mother can take counsel what to do next. The very next thing to do is to learn by heart a short and simple maxim, and to repeat it to herself until she has absorbed the essence of it into her very bones. The maxim is: "Little children wish and need to be doing something with their bodies and hands every minute they are awake." The problem faced by every mother is to provide them every minute with something to do which cannot hurt them, which will not be too upsetting to the regularity of the family life.

Now the country mother has at hand a dozen easy and satisfactory answers to this problem for every one which is available to the city mother. To begin with, if a load of sand is dumped in one corner of the baby yard and some old spoons and worn out pails contributed from the kitchen there will be many hours of every day during which the fortune of a millionaire could give the little folks no more happiness. Such a child yard, with sand pile in it costs almost nothing in time, money or effort, and no words can express the degree to which it lightens the labors and anxieties of the mother. And yet one can drive a hundred miles in rural and village America without seeing an example of it.

Now this plain, bare provision for perfectly untrammelled running about is in itself a better fate than befalls the average child under five, and this much can be attained by any country mother with less effort and expense than a yard for poultry. But this can be varied and improved in innumerable inexpensive ways until conditions are almost ideal for little children. A piece of platted board can be nailed upon four stout sticks driven into the ground and another on higher sticks put before it, and the little folks will have a bench and table which cost, perhaps, twenty cents, and are as serviceable as the pretty kindergarten painted ones which cost ten times as much. Potter's clay can be bought for a few cents a pound and for a variation from sand pile plays young children turn gladly to clay modeling. If the mother has time and ability to supervise this carefully, so much the better, but if she is so busy that she can only call out from the kitchen

stove or wash tub a cheerful suggestion to make some little cups and saucers, or a bird's nest and eggs, this will serve very well, as a beginning. If the clay is kept where it can be obtained easily, it is possible that one or more of the children may show some stirrings of native ability and begin to try to reproduce the animal life of the country.

If the country mother has followed these suggestions she has now, with small trouble to herself, put at the disposal of her children the two great elements of air and earth. There is another one, almost as eternally fascinating as sand, and that is water. If four strips of wood are nailed in the form of a square at one end of the little table and a pan half full of water is set securely down into this square so that it will not tip over, another great resource is added to the child yard. With an apron of oil-cloth, a spoon and an assortment of old tin cups, odd jelly glasses and bottles, it is an abnormal child who is not happy and harmlessly busy for a long time every day. Any ordinary child over fourteen months of age loves to play with water in this way and learns steadiness of hand and sureness of eye which go a long way toward insuring agreeable table manners at an early age. As he grows older a fleet of boats made of bits of wood or walnut shells vary the fun. A little apron can be manufactured in a few minutes out of ten cents worth of table oilcloth. If the mother is very busy she can fasten it together at the shoulder and back with safety pins. A single apron should last through the entire babyhood of a child.

Children under four, often those under five, are too small to "play house" as yet, but they delight in climbing, and, if possible, provision should be made for that. A wooden box can be set a little down in the ground, so that it will not tip over, and the edges padded with a bit of old comforter so that the inevitable bumps are not too severe. The smallest of the little playmates, even the baby who cannot walk, will rejoice endlessly to pull himself up over the edge and clamber down into the box, thereby exercising every muscle in his body.

Little children can not co-ordinate their muscles quickly enough to play ball with much pleasure, but if a large soft ball is suspended by a long cord, they can swing it back and forth to each other with ever increasing skill, and they should have a rubber ball to roll to and fro on the ground.

A small wooden box with one side knocked out makes the best seat for a swing for small children. The three remaining sides make a high back and keep the child from falling. If this is swung on long poles instead of ropes there will be no side-to-side movement and little children will be safeguarded from falling out sideways. If the support for a see-saw is made very low even children under five can enjoy and benefit by it in acquiring poise.

If a two-by-four board is laid on the ground the little folks will find much fun in trying to walk along it and acquire thus a considerable addition to their capacity for walking straight and managing their bodies. A bit of hanging rope with the loose end within easy reach will mean a great many self-invented exercises in balancing, and will give a certainty of muscular action which will save the child from many a tumble later. A short length of board, perhaps four feet long, propped up on a stone or bit of wood, with one end fastened to the ground, furnishes a baby spring board which will delight the child from three to five. A pile of hay or straw to jump into will save the little gymnasts from bumps and bruises, and marsh hay will answer just as well as the best timothy. This simple set of apparatus may be completed by a short, roughly built ladder, with the rungs a short distance apart, set up against the house, with a soft pile of hay under it. This furnishes the little folks the chance to indulge their passion for climbing things, which is so dangerous when directed towards the kitchen table or bedroom bureau.

MUNICIPAL LIGHT AND POWER PLANT RECOMMENDED FOR CITY OF BROWNWOOD

In his annual report to the City Council, presented at Tuesday night's meeting, City Manager E. R. Brashear recommended, on account of the increasing cost of electricity for street lights, and for power for operating the water works plant, charged by the Texas Power & Light Co., that the city install and own its own electric power plant.

Mr. Brashear cites that the city pays to the Texas Power & Light Company monthly \$305 for street lights, \$746 for power at the water works pumping station, \$36 for lights at the city hall, and \$53 for power for the city sewer pump, making a total of \$1,140 per month paid by the city for electric power and lights.

"This," states Mr. Brashear, "is entirely too much for the service, and there is no reason why the city cannot install a plant of its own and light the streets and pump their water at the same time, and save \$500 per month in so doing." — Brownwood Semi-Weekly News.

SCHOOLS OF McCULLOCH COUNTY SHOULD JOIN INTER-SCHOLASTIC LEAGUE

We are expecting every one of the schools in the county to join the Inter-Scholastic League, so that we might have a county meet this year. It is necessary that we give this matter immediate attention as we hope to have our meet in March.

You join this league by paying your annual sum to Mr. E. D. Shurter of Austin, Texas. All schools are not classified alike, tho. The membership fee shall be graded for different classes of schools, as follows: Schools having no more than three teachers and not in an incorporated town, \$1.00; ward schools and schools having no more than 600 white scholastics, \$2.00; High schools in Districts counting more than 600 scholastics, \$3.00; after you send in this fee you will receive full information about the rules of the different events.

If further information is wanted, write

LOST CREEK ECHOES.

Wants Good Roads Day Named—V. C. Miller Makes Record.
Voca, Texas, Jan. 11.
Editor Brady Standard:

At the time of this writing it has been raining; had about forty hours almost without a letup. The ground is so wet it don't look as though it could get any wetter.

No one that I have heard of has begun farming here and it looks now as if we will not begin any work soon. Lots of the land was bogged before this last wet spell; we had an inch last week and on top of that we had a sleet and snow that about covered the ground.

Yes, that right, Mr. Editor. Keep the good roads ball rolling on. We are all in favor of a wet weather road—all parts of the county are now isolated from the county capital.

Most of us over this way have not paid our taxes yet, and in the absence of airplanes, I don't see how we can reach the collector's office. Automobiles are worthless in this case.

Name the time for the big good roads rally and we will be there, if we have to walk. We are blown up if we have to continue to go in this way.

A few of our farmers still have cotton in the field. Some have corn in there also, and some yet have hay in the field.

Who can beat this? Our good friend and neighbor Mr. V. C. Miller told this writer that when he has finished selling all of his cotton of the 1919 crop he would clean up \$2500 with the seed left, which will bring around four hundred dollars. He said himself and wife made it and picked it, with the exception of six days' hoeing and five or six thousand pounds of picking. He is sixty years old and his wife is not far behind him in age.

Ernest Henderson left last Friday for a visit to relatives at San Saba and Holland, in Bell county.

Quite a funny little accident occurred at D. H. Henderson's one day last week. He owns a registered Poland China sow that he thinks a great deal of. He turned her out of the pasture one morning on the waste pecans and she disappeared, not to be seen or heard of. After a diligent search for the sow all over the neighborhood, and failing to find her, he looked in an out-house on the place, filled with hay, the door of which had been left slightly open for ventilation, the sow had gone in the house and shut the door and could not get out. Queer things do happen.

ENDLESS "DRIVES HAVE AROUSED MUCH OPPOSITION ALL OVER THE NATION

Washington, Jan. 7.—That opposition has grown up throughout the country against "drives," promoted for variously admitted altruistic purposes, but all reaching a common end—to get the money—is evidenced by letters received by members of Congress from constituents inquiring whether a Federal law can not be passed to abate the practice.

The Government was the first to show that money "drives" were productive, in the several Liberty Loan bond issues, and was actively aided by the banks in encouraging the people to invest their savings. To help put the Victory Loan over in Washington, the main residential thoroughfares were liberally placarded so as to remind the citizen as he went to business that the Government had to have the money to make good its war promises. The scheme was so attractive that the morning after the Victory loan drive ended, Washington awoke to find the lamp posts placarded in red, asking subscriptions to a \$25,000,000 fund for certain people in Europe.

Other than the five Liberty Bond sales of the Government, it is estimated between \$750,000,000 and \$1,000,000,000 has been gathered from the people of the United States in "drives," to say nothing of the "tag days" with which the pedestrian is frequently confronted.

BUSINESS ANNOUNCEMENT.

The Standard editor has received requests from tentative candidates for first place in the announcement column. The injustice to us of such a request is apparent. A candidate could hold us up to such a promise throughout the period of campaign, and then never make his announcement, if no opposition appeared. This is to give notice that the first candidate to place his announcement fee in our hands will receive first place, regardless of such requests. If you want your announcement first, let us have amount of fee, and we will make your announcement whenever you desire. Business is business, and we are strong for business methods.

The railroads have more business than they want and are urging people to stay at home and quit riding on their trains. Then the express com-

panies have more business than they can handle, and have limited shipments that any person or firm can make in one day to 100 pounds. The paper makers have too much business and tell publishers they must reduce the size of their papers, and probably suspend publication in a week or two. All of which goes to show that some of the American people have been doing lots of loafing and that other Americans have been very busy acting the part of fools. Work and business sense never brought about such a condition as the country is now experiencing.—Honey Grove Signal.

THIS PHILADELPHIA EDITOR GETS HIS BRAINS AT THE MEAT MARKET.

The following editorial from the Philadelphia Record is enough to put almost any loyal Texan out of humor:

"We regret to see the story of the shameless profiteering of two Texas girls aged 13 and 11. They borrowed \$55 and bought a pig. They have sold \$418.50 worth of pigs, the product of the original investment, the output of the pork mine. They paid \$66 for feed, have a sow worth \$75, and have repaid the loan of \$55, with net profits of \$353.50. This explains why we have to pay such prices as we do for pork chops and bacon and sausage. We have not the least doubt that the father of these thrifty and enterprising purveyors of pork is as loud as any man in Texas (and that is saying a good deal) in his denunciation of profiteering—when it is conducted in the cities, and especially when applied to commodities that the farmer has to buy."

We can almost hear every pig member in central Texas saying, "Let me to that editor first!" If it will help them out any to know it, we will add that we, also, would like to know where he gets that stuff.

But the man who wrote the foregoing paragraph lives a long way from Texas—which offers one explanation for the position he takes. Suppose he should hear about some of those sows around Bartlett worth up into the thousands of dollars, or learn that one Bartlett boy made nearly ten times as much money out of his animal in one year as the two girls in question did?

The truth is, however, there is a little secret in this hog business which the Philadelphia editor obviously is not familiar with, and we do not deem it worth while to inform him. Everybody in Texas understands. Not every boy or girl who raises a pig comes out with fabulous profits at the end of the year, or even with as much pin money as the two Texas girls made. Those who are realizing handsome rewards in the industry are handling the highest bred stuff, and there always ought to be an attractive premium for producing the best no matter what line of work a man is in.

For instance, we might remind the Quaker City scribe that people who write fine pieces for the paper are paid higher salaries than he is paid, if his alarm over two Texas girls

ANOTHER VIEWPOINT.

Even if gasoline does go up the Marshall Morning News says the Christmas gift to the American people by John D. Rockefeller of \$1,000,000,000

LOCAL BRIEFS

"We just must have The Standard," writes Mrs. Freda Hurd in sending in her renewal subscription from Ruelle. "Short, but sweet" is that message—to us.

Congratulations are being extended Mr. and Mrs. Tol J. Roberts upon the arrival of a fine boy who came to brighten their home on Wednesday, January 7th.

T. J. Wood was among the visitors in Brady the latter part of last week, visiting his son, Innes, and family. Mr. Wood moved a year ago from Fredonia to his farm in the Pasche country, and liked it so well there he has decided to remain.

Mrs. O. E. Jackson left last Saturday for Houston, having been called there by the dangerous illness of Mrs. Firman Jackson. Latest advices received here by Mr. Jackson are that the patient is greatly improved, and it is thought will soon be mending rapidly. Her infant daughter, born December 28th, is in the best of health and doing fine.

The Standard's good friend, G. W. Vierling, Sr., writes from Junction to let us know that the news from his old McCulloch county home still looks good to him, and incidentally extends best wishes for the new year. G. W. made a trip to his old home in Southern Indiana last August and was kept so busy telling about the glories and magnificence of Texas that he didn't get back home until the holidays.

Brady friends of the family will regret to learn that it has been found necessary for Mrs. Ed S. Clark to undergo a serious operation within the next day or so. Mrs. Clark has been in bad health for some time, and it is hoped an operation may bring relief and a complete restoration of health. She is now under treatment at the local sanitarium, and attending physicians are optimistic as to the entire success of the operation.

It will be of interest to Brady citizens to learn that Dr. and Mrs. J. V. Guyton have recently moved from San Antonio and have located in Menard, where the doctor will follow his profession. Dr. Guyton last week purchased the Buddie Callan property in Menard for \$2,500. He will be connected in a professional capacity, with the new sanitarium opened by Mr. and Mrs. G. A. Lehmann in the hotel building on the north side of Menard.

Editor Finlay Cope, of the Eden Echo, came over from Eden Wednesday on a business visit, and while here made The Standard a pleasant call. Editor Cope is an applicant for the Eden postmastership, to succeed Mr. Latham, who recently tendered his resignation. Cope is a wide-awake and most capable young man, and is well known to the citizens of this section, having run the Herald at Mason for a number of years prior to becoming identified with the Echo at Eden.

Mac Allman, who has been operating a bakery at Royce City for the past year or two, is now located in Granbury, 40 miles out of Fort Worth on the Frisco railway, where he is operating a bakery. The Granbury News gives the venture the following mention: "M. C. Allman, an experienced baker, has taken over the Nutt bakery and will begin baking this week. He comes well recommended and we feel sure will have a good permanent business, since our town is in need of his enterprise."

L. A. Ferguson, who has been working the past year or so in the Ranger oil fields, is here for a visit with his brother-in-law, J. M. Anderson, and family, and will also visit his father, L. D. Ferguson, and family, at Pear Valley, remaining here until about the 1st of next month. Mr. Ferguson says that the local mud is nothing to compare with the mud at Ranger, and that Brady's muddiest streets were far better than Ranger's sidewalks. At that, he says, it is a place where everybody can find plenty of work and money is plentiful and kept in constant circulation by the fabulous prices charged on every hand.

The following announcement, reprinted from the Sweetwater Reporter, will be read with interest by Brady and McCulloch county citizens. In addition to being at the head of the Sweetwater publication, Owen Henry Roberts, at one time publisher of the McCulloch County Star at Brady, is also general superintendent of all of H. B. Terrell's seven publications. The article in the Sweetwater paper reads: "O. H. Roberts of the San Antonio Express, who is to be identified with The Reporter in an official capacity,

is expected to arrive in the city Sunday. Mr. Roberts is a successful newspaper man, and has made a brilliant career as a member of the Express staff. Mr. Terrell plans to place the best talent obtainable in charge of the daily editions of The Reporter, according to an announcement made by him while in the city a few weeks ago, and make the paper one of the best dailies to be published in West Texas."

It is always a pleasure to hear from former McCulloch county citizens, especially since the news is almost invariably of their success and progress. There's A. G. (Pat) Mayas, for instance. A McCulloch county boy, who was raised among us, received his newspaper training right here in Brady, and who went out into the world to make his mark. Did he succeed? He did! For a number of years now he has been advertising manager on the McKinney Courier-Gazette, and has been freely given credit by his employers for building that paper into one of the most prosperous and successful dailies in the state. Success has come to Pat along with his efforts for his employers, and not only did he win a most charming lady of that city for his bride, but a recent announcement in the McKinney paper states that he has also purchased a modern home, located close to the heart of the city, and in a most desirable section of town. We congratulate our old friend Pat, and trust his star of good fortune may never set.

LADIES ARE URGED TO PAY THEIR POLL TAX SO CAN VOTE IN PRIMARY

Every lady in McCulloch county of voting age is urged to pay her poll tax at the earliest possible moment, which will enable her to vote in the next primary for Presidential Electors, Congressmen, Governor, State Senators, State Representatives, all other State officials, and all county officials. The primary is the nomination and more important than the election proper.

Should thirty-six states ratify the Federal Suffrage amendment before election time, which now appears very probable, the lady who has paid her poll tax will then be enabled to vote in the election proper, as well as on all other matters which are decided by popular choice.

To The Standard it appears that every lady who exercised her privilege of voting in the primary last year, when no poll tax was required, should now prove her real title to citizenship by performing all the duties of a real citizen, one of which is to pay her poll tax.

DON'T RISK NEGLECT.

Don't neglect a constant backache, sharp, darting pains or urinary disorders. The danger of dropsy or Bright's disease is too serious to ignore. Use Doan's Kidney Pills as have your friends and neighbors. A Brady case.

Mrs. J. Coopender says: "I was annoyed by kidney complaint for some years. My condition was diagnosed as uric poisoning. I always felt heavy and depressed and had had attacks of rheumatic trouble. I was very nervous and frequently headaches came on. I used different remedies for this trouble but can honestly say that Doan's Kidney Pills gave me far better results than any other." (Statement given April 29, 1915).

On May 15, 1919, Mrs. Coopender said: "Doan's Kidney Pills gave me a cure that has been lasting and I am now enjoying the best of health. My opinion of this medicine is the same as it ever was." Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Coopender had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Announcement.
The following announcement has been received from San Marcos, Texas:
Harry Miller, Junior
December thirty-first
Nineteen hundred nineteen
Mr. and Mrs. Harry Miller
The congratulations and best wishes of a host of Brady friends are extended the proud father and happy mother.

Bridge Club.
Mrs. R. W. Turner was hostess on Tuesday afternoon for the Bridge club, two tables being arranged for the series of games. Mrs. Ed Campbell received high score and club prize.

A salad course was served by the hostess to members present as follows: Mesdames W. D. Crothers, Ed Campbell, H. B. Ogden, Bailey Jones, C. T. White, F. R. Wulff, Herbert Wood, W. R. Davidson, W. L. Hughes; and Mrs. Thos. P. Grant, who was a guest.
The next club meeting will be held with Mrs. C. T. White.

State University Students Entertain.
Misses Ann McAtee and Jonnie Thompson entertained the McCulloch and San Saba club, State university, at the Newman Hall club room Friday evening from eight to eleven. Progressive "42" and "500" furnished diversion for the evening.

Club guests for the evening were: Misses Fannie Ratchford, Margaret Goggan, Grace McAtee, Margaret Lanham, Isola Chadwell, Dalores and A'ne Burt. Members of the club present were: Misses Bernice Sanderson, Jonnie Thompson, Elizabeth Kirkpatrick, Ann McAtee; Messrs.

Robert Tabor, Leslie Townsend, Sabbin and Herbert Marshall, R. M. Grey, Stewart Harkrider, Tom Petty, Uluth Sanderson, R. E. McNatt, and Gus Shropshire.
The hostesses served sandwiches and tea to guests and club members.

Five Hundred Club.
The regular meeting of the Five Hundred club was held last Friday afternoon with Mrs. F. R. Wulff, the following members being in attendance: Mesdames J. S. Anderson, J. G. McCell, G. C. Kirk, B. Simpson, C. T. White, Wiley W. Walker, Ed Campbell, John Wall; Miss Lucille Benham. Guests present included Mesdames Frank Wilhelm, H. W. Lindley, Burl Wiley.

Prizes for high score fell to Mrs. Walker for the club members, and Mrs. Lindley for the guests.
Dainty refreshments were served by the hostess.

Burns-Spiller.
A wedding of universal interest occurred on last Saturday night at the home of Mr. and Mrs. T. J. Spiller in the Voca community, when Miss Ruth Spiller became the bride of Mr. Grady Burns. The ceremony was performed in the presence of only the immediate members of the families, the Rev. M. Bishop of Fredonia officiating.

The bride is one of McCulloch county's most charming as well as attractive young ladies, the only daughter of Mr. and Mrs. T. J. Spiller. Her charm of manner and many sweet, womanly qualities has won for her a large circle of admiring friends, all

of whom rejoice with her in her happy marriage. The groom is the son of Mr. and Mrs. R. L. Burns, and is a substantial and progressive young business man, having operated a garage at Voca for the past year or more, and is in every way worthy of the splendid help-mate he has chosen. Both Mr. Burns and his bride are graduates of the Montgomery high school at Voca, class of 1919, and it was during their school days that the romance began which culminated so happily Saturday.

Mr. and Mrs. Burns are making their residence temporarily with the bride's parents, where they are at home to their friends. The best wishes of all is extended, and may every happiness attend their marital course in life.

Celebrate 65th Wedding Anniversary.
The following item, reprinted from the Dallas County (Iowa) News, gives an interesting account of the observance of the 65th wedding anniversary of Mr. and Mrs. W. L. Macy at Adel, Iowa, and at which Mr. and Mrs. O. S. Macy of this city were attendants:

"Last Saturday was the 65th wedding anniversary of Mr. and Mrs. W. L. Macy of this place and the event was celebrated at the home of their son, L. M. Macy, by a gathering of relatives and old friends who were invited to a splendid dinner in honor of the aged couple. Mr. Macy is 85 and Mrs. Macy 86 years of age. They were married December 27, 1854 at Economy, Indiana. Mrs. Macy's maiden name was Maria Couch. In 1855 they came to Iowa, settled southwest of Adel where their children were born and raised and here they still live to see their great grand-children. Mr. and Mrs. Macy are enjoying very good health for people of their age and have the respect and esteem of all who know them for honorable, upright, christian lives. To them truly the gray head is a crown of honor. Those present for the occasion, not including the members of the family living here were their son and wife, Mr. and Mrs. O. S. Macy of Brady, Texas, Geo. Couch of Earham, Mr. and Mrs. Geo. Couch of Valley Junction, Mr. and Mrs. H. M. Couch, Mr. and Mrs. M. M.

Couch, Mr. and Mrs. J. S. Fish, Mr. and Mrs. Wm. Coffin, Mr. and Mrs. M. M. Williams from this vicinity, Mr. and Mrs. H. H. Mudge of Des Moines and the editor of this paper, E. W. Dingwell, Mr. and Mrs. Jeff Couch of Dexter, and Mr. and Mrs. Gamber of Redfield. Of those present there were five people eighty years old or more. They were Mr. and Mrs. Macy, Mr. and Mrs. Wm. Coffin and M. M. Williams, whose combined age was 416 years.

"An interesting feature of the event was the fact that it was the 64th anniversary of the birth of their son, L. M. Macy, at whose spacious home the guests were entertained at a dinner that would be a banquet for a king, in quantity, variety and perfect preparation. The art of cooking has been well mastered at the Macy home. All those who were present wished the guests of honor many returns of their wedding anniversary. Mr. and Mrs. Macy were each presented with a nice easy chair. Their children are L. M. Macy, and daughter, Miss Mary, of this place, Allen and T. A. Macy of California and O. S. Macy of Texas."

ANNOUNCING

The Oldsmobile Six

Abundant Power—Flexibility—Speed—Dependability—
Longevity—Economy—Comfort

These are the qualities assured by the Oldsmobile. For 21 years the Olds Motor Co. of Lansing, Mich., has been manufacturing Oldsmobiles, and in the "Oldsmobile Six" is to be found their masterpiece.

The Model 37-A Oldsmobile is a light, six-cylinder car, weighing 2400 pounds, and which embodies everything essential and desirable in an automobile of class and distinction.

In the Oldsmobile you will find such refinements as natural wood finish hickory wheels, tasteful use of nickel trimmings, smart beveled side rails, walnut instrument board with instruments mounted flush—add to the distinctiveness of this car. The balanced crank shaft means the minimum of motor vibration; the light, valve-in-head motor, with its long stroke and high-speed type gives wonderful horse-power. The unusually long and wide, flat, semi-elliptic, underslung rear springs give riding comfort seldom equalled in much larger cars, while the box pleated upholstery of finest, long-grain leather means comfort and service of the highest type.

Young People Enjoy Dance—H. Shaver Locates in Brady.

Brady, Texas, Jan. 13

Editor Brady Standard:

Not much news this week but plenty of mud. We certainly have had a 10-day siege of rain and mud. No mail but once in ten days. The roads are almost impassable.

Mr. H. Shaver and family went to Brady last week to make their home. Their car of household goods having arrived.

A. J. Cottrell came out last Friday. He will farm with Newt McShan this year.

Tracy Sanders and Miss Helen Newton visited the school Friday afternoon.

Two of W. A. Newton's fine calves he ordered came in Sunday.

Misses Anna Lohn and Mabel Huie visited Mrs. John Fullager Sunday.

The young people enjoyed themselves at a dance in the Jess Shaver rent house last Tuesday night. Mr. and Mrs. Shaver chaperoned.

"HOPE."

Preparedness applies to the human body as well as to nations. A bottle of Prickly Ash Bitters on the shelf at home is the best and cheapest form of preparedness for indigestion, constipation and kidney troubles. It is the dose taken in time that wards off sickness and saves money. Price \$1.25 per bottle. Trigg Drug Co.

And He Didn't Pay.

When you do not intend to pay a bill there is nothing like being decisive in your refusal. The other day a bookseller had an "account rendered" returned to him with the following reply scrawled across the bill-head:

"Dear Sir—I never ordered this beastly book. If I did, you didn't send it. If you sent it, I never got it. If I got it, I paid for it. If I didn't, I won't. Now go and hang yourself, you fathead.—Yours very respectfully, John Jones."

Literal.

An army mule at one of the cantonments "went west." The private who had charge of the last rites had a bill out the regulation form, and came across the suggestion:

"Disposition of Carcass."
After a moment's thought Sammie wrote on the blank line:
"Mean and deceitful."

COURT OF CIVIL APPEALS RULES WOMEN MAY VOTE IN PRIMARY BY PAYING POLL

The Court of Civil Appeals at Austin has recently decided that women can vote in the primary elections. But in order for them to vote in the future it will be necessary for them to pay poll tax. The State and County poll tax is \$1.75 and must be paid to the county tax collector before February 1st and a receipt issued. Those living in the city limits of Brady in addition will have to pay \$1.00 to the city tax collector before February 1st. It is very important that the women of McCulloch county give this matter prompt attention.

The women of Texas at the last primary election by participating therein saved the state. Their help for clean government is not only needed but is necessary. The enemies of good government are working to elect members to the legislature who will repeal many of our good laws, and who are fighting woman suffrage in all its phases. The women of McCulloch county should all continue their good work by paying their poll tax and participating in the primary elections of this year. It is very probable that in the near future they will be qualified to vote in all elections.

Respectfully,
MRS. NINA WHITE.

ATTENTION! SOLDIERS, SAILORS AND MARINES HAVING DISABILITY

A representative of the Federal Board for Vocational Education will be at the Courtland Hotel in Abilene from January 23rd to January 26th, inclusive, and at the Landon Hotel in San Angelo from January 27th to January 29th, inclusive to explain just what the Government is doing for men who received vocational handicaps in military service.

After talking to either of these representatives, if you are eligible for this vocational training and decide to accept it, they will go over your particular problem with you and help you select some course of training that will fit you for a gainful occupation.

There is nothing military about this training; it is just a chance offered disabled men to be successful in life in spite of their handicaps.

Don't forget the dates: Abilene 23, 24, 25 and 26; San Angelo: 27, 28 and 29.

We will have a car load of furniture in a few days. Come in and look through. O. D. MANN & SONS.

RURAL CARRIER EXAMINATION FOR McCULLOCH COUNTY ON FEBRUARY 14TH

The United States Civil Service Commission has announced an examination for the county of McCulloch, to be held at Brady, Texas, on February 14, 1920, to fill the position of rural carrier at Brady and vacancies that may later occur on rural routes from other post offices in the above-mentioned county. The examination will be open only to citizens who are actually domiciled in the territory of a post office in the county and who meet the other requirements set forth in Form No. 1977. Admission of women will be limited to the widows of U. S. soldiers, sailors, or marines, and to the wives of U. S. soldiers, sailors, or marines who are physically disqualified for examination by reason of injuries received in the line of military duty. This form and application blanks may be obtained from the offices mentioned above or from the United States Civil Service Commission at Washington, D. C. Applications should be forwarded to the Commission at Washington at the earliest practicable date.

MORGENTHAU PLEADS FOR HELPING HAND IN THE NEAR EAST

Former Ambassador to Turkey Says America Should Not Let Armenian Allies Starve.

By HENRY MORGENTHAU, Former Ambassador to Turkey and Leader in Near East Relief.

If they were good enough to fight and die for us when we needed their help so sorely, they are good enough now to share some meager little crumbs from our plenty when they have nothing, when hundreds of thousands of them are homeless, unclad, foodless and threatened with extermination by their enemies and our own.

Not far from a million Christians have been murdered by their Turkish oppressors. Hungry, terror stricken hundreds of thousands of refugees now look to the United States for succor.

Have Trust in America. We cannot refuse. Next to their faith in God is their trust in the disinterested good will and generosity of

Copyright by Underwood & Underwood. HENRY MORGENTHAU.

the American people. They look to us as the human agency to extricate them from the frightful situation in which they have been left as a consequence of the war.

If we should fail to aid them, starvation and the winter's cold would go far to completing the work done by the unspeakable Turk.

I have not seen with my own eyes the misery in which the Armenians now exist. I have been spared that. But the reports which have been brought in by agents of the Near East Relief and by representatives of the Peace Conference paint a picture of wretchedness inconceivable to those who have not a first hand impression of the savagery of the Mussulman.

Exiled From Homes. Since the beginning of the war the Turkish Armenians have been largely refugees from their homes. A simple agricultural people, they have been exiles from their farms, deprived of all opportunity to support themselves. Year by year their sufferings have increased. Now, a year after fighting has ceased, they are still living the life of nomads, able to continue to keep alive only by virtue of American philanthropy.

These homeless people—"filthy infidels" to the Turk—were good enough to exert their poor might in our behalf while the war was still in the balance. Massacres of a half century had not so broken their spirit that they dared not fight for right and for democracy when justice was the issue. We accepted their aid then. Surely we shall not pass them by without compassion now.

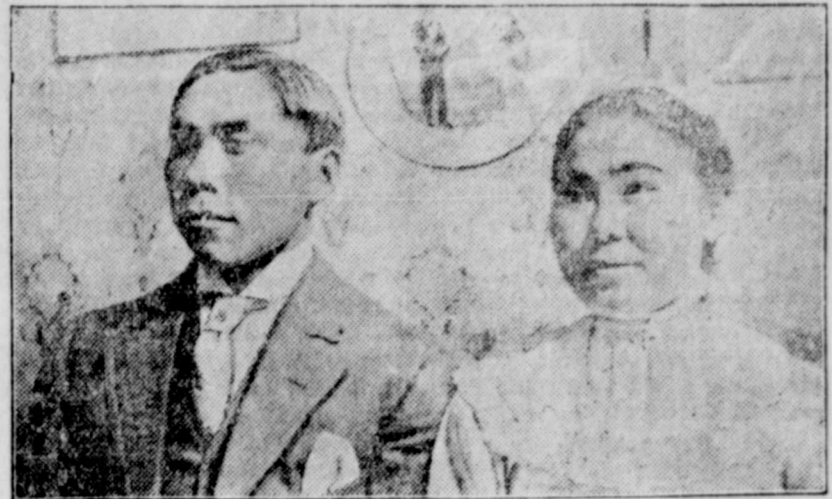

The day has passed when any self-respecting man dares permit absorption in his own personal affairs to exclude consideration of his neighbor's well-being. No honorable man can knowingly allow his neighbor to hunger or to go unclad. The Christian peoples of the Near East are our neighbors. The money needed to relieve them can be spared without causing any man, woman or child in the United States to suffer.

Must Not Rest on Past. In other years of our own free will we sent missionaries to Turkey. Our schools and colleges and hospitals have played a wonderful role in humanizing that dark spot in the world. Our ideas, our educational resources, our material equipment, have been leaven in the Near East. Because we have done well in times past we have this great opportunity for the present.

The Armenians have been treated as perhaps no people in history have been treated because they are the spiritual brothers of western races.

Will America help them? There can be but one answer. Their necessity is dire, but our power is great. We are wealthy. We are a member of the family of nations. Our brothers call us. Food, clothes, money, are immediately wanted. If ever unmerited suffering called for succor the plight of the Armenians should be heeded now. A few months more and it may be relief will be too late for those myriads whom only we can save. We shall not fail them.

Church Changes Eskimo Igloo Life Into Modern Home Making

Mr. and Mrs. Oliver Ongcook.

Art is art, even in Eskimo circles, and "The Angelus" hangs on the wall of Oliver Ongcook's parlor at Unalakleet, Alaska, where in olden days a smoked salmon probably decorated the icy wall of an igloo. That Oliver and his beaming bride have adopted the more intricate but less cumbersome garments of white civilization is shown in this photograph brought to the States by E. A. McIntosh, a lay missionary speaking in this country in the interests of the nation-wide campaign of the Episcopal church.

Oliver is chief reindeer herder for the United States government at

Unalakleet. Unalakleet means "south side" and Mr. McIntosh suggests that it was probably applied to this point of Alaska because it is south of the north pole. There is no other reason apparent.

Chief Herder Ongcook, who plays the guitar and piano when he is not herding reindeer, can also read and write English. His rise in the scale of civilization shows the beneficial effects of the missions and schools in Alaska. The Episcopal church has 25 missions in the frozen North and the church's nation-wide campaign seeks to extend this work there greatly.

SUNDAY SCHOOLS TO BE MODERNIZED

EPISCOPAL NORMAL TO TURN OUT TEACHERS TO MAKE DRY LESSONS ATTRACTIVE.

A project of vital interest to parents and children of this and other communities which is expected to revolutionize the old-time methods of instruction in Sunday schools throughout the country and bring thousands of children into interested attendance where in the past there have been scores, is made public through the nation-wide campaign of the Episcopal church.

The famous Montessori method of instruction, which has been adopted widely in the day schools of the United States, is to be applied in the Sunday schools through the new plan. The idea is to discard the "dry" lesson leaflets of the past and to teach the child through its environment.

The New System.

"The old system was to lead a child to a book or leaflet and say 'learn that,'" explains the Rev. Dr. William E. Gardner, general secretary of the Episcopal board of education. "By the new method, finding the child interested in the church's stained glass windows, we explain these windows and thus teach him stories of the saints and incidents depicted there. This plan is extended indefinitely in similar ways.

"For instance, in the vestments of the priest, we explain that the black stands for separation from the world and white for purity. We also explain that in the colors of the altar hangings and Eucharistic vestments, the purple of Advent is for penitence white at Christmas and Easter for joy, red on saints' days for the blood of the church's martyrs, and the black of Good Friday for death."

To Teach Teachers.

The new idea has been started through the organization of a Church Normal school in New York city with a faculty of 14 men and women, who will give a six months' course to 1,671 Episcopal Sunday school teachers of Manhattan. Similar normal schools to prepare teachers for their work throughout the country are being planned as part of the nation-wide campaign of the Episcopal church.

Whereas the training of Sunday school teachers in the past has been largely a matter of chance and the results of their teaching has been more or less uncertain, it is believed that by the new plan definite results can be obtained toward making the Sunday schools much more attractive to children, and their knowledge of the Bible and the purposes and ideals of the church will be greatly developed.

A Child's Logic.

"A school teacher near Richmond, Va., was instructing a class in geography," said the Rev. Dr. W. H. Milton of Wilmington, N. C., in addressing a meeting in the interests of the nation-wide campaign of the Episcopal church. "She talked about the equator, the different zones and explained the general facts about the elements. To test the impression she had made she asked one little girl to explain why it was that Massachusetts was so much colder than Virginia. The child pondered a moment, and then replied: 'It is this way teacher, Massachusetts is so much further away from the Creator than Virginia.'"

CHICAGO BISHOP LEADS NATION-WIDE EPISCOPAL DRIVE

Rt. Rev. Charles P. Anderson, D. D.

The nation-wide campaign of the Episcopal church, which in the last few weeks has aroused the interest of all church and social workers in this vicinity, is bringing local church workers into closer touch with the leaders of the church than anything done in recent years. Chief among the church dignitaries in the work is the Rt. Rev. Charles P. Anderson, D. D., LL. D., bishop of the diocese of Chicago.

Bishop Anderson was elected chairman of the joint commission on the nation-wide campaign of the Episcopal church at the general convention held in Detroit in October.

The bishop was born in Kemptville, Canada, September 8, 1893. He took his first degree at St. John's college, Toronto, where he was made an archdeacon. His first charge in the United States was as rector in Oak Park, Ill., a suburb of Chicago. He was bishop of the Chicago diocese in 1905, and has been a leader of the church in the middle West since that time.

In the spring of this year he was leader of the commission which toured Europe in the interest of an international conference of Christian churches.

WAR BOND CHIEF AIDS CHURCH DRIVE

LEWIS B. FRANKLIN, U. S. WAR LOAN DIRECTOR, HANDLES FINANCES OF EPISCOPAL CAMPAIGN.

New interest and assurance of success has come to leaders in the nation-wide campaign of the Episcopal church in this vicinity with the information that Lewis B. Franklin, director of the war loan organization of the treasury department in the government's Liberty and Victory loan campaigns, has agreed to handle financial details.

Mr. Franklin, who formerly was vice president of the Guaranty Trust company of New York, and is recognized throughout the country as one of its most efficient financiers and business organizers, has been elected to membership in the commission and appointed national treasurer of the campaign. His enlistment adds another notable business leader to the number who are giving their services to promote the campaign. Larger participation of business men in the work is expected as the result of Mr. Franklin's influence and active assistance.

Announcement H. R. Hodges.
 To the Voters of McCulloch County:
 In announcing my candidacy for reelection to the office of Tax Assessor for McCulloch county, I wish to state that no one could be more appreciative than I, and the fact that I have received more encouragement this year than ever before, leads me to believe the people appreciate the service I have given. My entire time has been devoted to the duties of my office; it has never been too wet or too cold for me to attend to my work. My work has given the commissioners no trouble, and has never so much as had a correction from the state comptroller's office; on the contrary, I have letters of commendation and approval from that office. I know I am better positioned than ever before to handle the work, and would appreciate the opportunity to continue in office. To this end, I earnestly solicit the votes of not only the men, but of every lady in McCulloch county as well.

Sincerely, your friend,
 H. R. HODGES.

Announcement of R. L. Wash.
 To My Friends and the Voters of McCulloch County:

In announcing my candidacy for the office of Tax Assessor of McCulloch county, I want to earnestly solicit the vote of every lady and man in the county. I was born and raised in the Richland Springs country, and my family records are open to the public. For the past six years I have lived in McCulloch county, and have been engaged in farming four miles east of town. Many McCulloch county citizens know me personally, and I will fully appreciate the vote and support of every one of them. I expect to make a thorough canvass of the county before the primary and personally solicit the vote of every citizen. I feel that I am thoroughly qualified to fill the office of tax assessor, and hope to merit your confidence and active support. If successful in my race, I promise to give the office every care and attention and to so conduct its affairs as to win approval from all.

Sincerely,
 R. L. WASH.

Not Taking Risks.
 A Scotsman came to London for a holiday. Walking along one of the streets, he noticed a baldheaded chemist standing at his shop door, and inquired if he had any hair restorer.
 "Yes, sir," said the chemist. "Step inside, please. Here is an article I can recommend. Testimonials from great men who have used it. It makes the hair grow in twenty-four hours."
 "Aweel," said the Scot, "ye can gie the top o' yer head a rub w' it, and I'll look back in the morn and see if ye're tellin' the truth."
 The chemist returned the bottle to the shelf and kicked the errand-boy for laughing.

F. R. WULFF RETURNS SATURDAY FROM DELCO-LIGHT MEETING AT FORT WORTH

F. R. Wulff returned Saturday from Fort Worth, where he had been in attendance upon the first Delco-Light convention of 1920 held in the Fort Worth district.

Of great interest to the dealers in attendance were the various matters under discussion by Delco-Light experts, and which included talks on "Sales," by R. C. Fowler, Southern manager, of Dayton, Ohio, where Delco-Light is made, and "Service," by Philip Wiesner, manager of the Factory's Service school at Dayton. An Electrical Sales and Service school for Delco-Light dealers was also conducted by P. M. Bratten, district distributor, and factory experts.

The outstanding features of the entire four-days' meeting were the plans developed to make electricity more useful in localities where it is obtained chiefly from independent electric plants like Delco-Light.

Attention was given to the advantages of Delco-Light for the oil fields and an interesting demonstration was given of a special electric plant for oil drilling rigs, said the dealer, but he added that the convention members did not lose sight of the fact that the farms and ranches of this territory will benefit as largely as any other interests through the introduction of independent electric plants which will not only furnish a high quality of electric light for the farm premises, but also power for such jobs as pumping water, grinding feed and running household appliances like washing machines, vacuum cleaners, fans and other devices that can be operated with electric motors.

Members of the convention were more than ever impressed with the great importance of electricity as an agricultural force and they were agreed that as a result of the meeting, still better service and corresponding benefit would result to those who are now getting electricity from their own electric plants.

The announcement of the appropriation of half a million dollars for advertising campaign to be conducted during the present year, was enthusiastically received by the dealers in attendance.

He Was the Tail End.
 Viscountess Cowdray, who, in conjunction with her husband, has promised £20,000 to provide an art museum for Aberdeen, tells an amusing story of an Irishman who (says Lady Cowdray) was giving a graphic description to a lady of his narrow escape from an enraged bull, according to London Tit-Bits.

"I seized him by the tail," he exclaimed, "and there I was! I was afraid to hold on, and I dassn't let go."
 "Between the horns of a dilemma," ventured the lady.
 "No, ma'am, I wasn't between the horns at all; and besides, he wasn't a dilemma. He was a Jersey."

Pleasant for Bashleigh.

Mr. Basnigh was sitting in the drawing room talking to little Reggie while he waited impatiently for the arrival of the boy's pretty sister.

"Do you weigh very much?" asked Reggie, presently.

"Oh, about 165 pounds," answered Bashleigh, wondering what was coming next.

"Do you think my sister could lift you?"

"Oh, dear no!" said Mr. Bashleigh, blushing. "But why do you ask?"

"I don't think she can either," mused Reggie; "but I heard her telling ma this morning that she was going to throw you over tonight."

"On what ground were you divorced?"

"Texas," she answered.

PERSONAL MENTION

Roy Wilkerson left Monday night for Dallas on a marketing trip for O. D. Mann & Sons.

Mrs. Burl Wiley left Tuesday night for a visit of several weeks with home folks at Stephenville.

F. R. Wulff left Wednesday night for Dallas to attend a special meeting of Dodge dealers, at which important announcements are anticipated.

Messrs. Elbert Duckworth and Roy Dickinson have been spending the past couple days here from Eden, the latter taking the examination for postmaster at Eden.

Mrs. O. E. Jackson returned the latter part of last week from Brownwood, where she had spent several weeks nursing Mr. and Mrs. L. P. Cooke through a siege of pneumonia.

Brady friends will learn with pleasure that Mr. and Mrs. Cooke are now well on the road to recovery.

C. L. Tervooren, who spent the early part of the week here visiting his sister-in-law, Mrs. Ed S. Clark, returned Tuesday to his home at Brown-

wood. Little Nellie Grace Clark accompanied him and will visit there until the recovery of her mother, who is to undergo an operation at the sanitarium.

Mr. and Mrs. B. L. Malone and son, Norman, left last night for New Orleans, where Mr. Malone will meet representatives of one of the foremost jewelry houses and will purchase a large stock of jewelry for the coming season. Incidentally, Mr. Malone and family will take advantage of the opportunity to visit his parents at Eupora, Miss., and as this will be the first visit in a period of six years, he is naturally anticipating a most joyful time.
