

BAILEY FOR GOVERNOR SECOND IN COUNTY--FIRST IN STATE

ED JACOBY WINS PUBLIC WEAIGHER RACE IN PRECINCT 1 BY 6 VOTES

SEE-SAW BETWEEN CANDIDATES ENDS IN JACOBY'S FAVOR IN RE-CHECKING OF VOTES--OTHER COUNTY RACES WALK-AWAY FOR SUCCESSFUL ONES.

The see-saw in the race between W. F. Evans and Ed Jacoby for Public Weigher Precinct No. 1 was finally decided in Jacoby's favor this morning when a re-checking of the votes from the various boxes in the weigher's precinct showed that 31 votes had been credited to Evans at the Waldrip box instead of the 21 votes cast. Up to this time, Evans had showed a lead over Jacoby of four votes. The error turned the balance in Jacoby's favor by six votes. By agreement between the county candidates prior to the primary election, there will be no runoff, and Jacoby wins the contest unless the official counting of the ballots next Saturday discloses errors in favor of Evans sufficient to overcome Jacoby's present lead. The Camp San Saba box is the only one not reporting up to the present, and until these returns are received, Jacoby can show a lead of but one vote over Evans. Report by telephone, however, shows Jacoby received at Camps five more votes than Evans, which makes up the former's lead of six votes.

According to state press reports, Neff gained somewhat on Bailey as returns in the governor's race were being compiled Monday, but later reports to the Texas Election Bureau showed Bailey regaining somewhat of his former advantage over Neff for leadership in the first Democratic primary. Thomason stands third in the race with no chance to overcome Neff's lead. Monday night Bailey had a plurality of 3,278 over Neff, out of 373,205 votes accounted for. At one time Monday afternoon Bailey's lead over Neff had shrunk to 2,759 votes.

The standing in the Governor's race Monday night was:

Bailey	125,111
Looney	42,120
Neff	121,835
Thomason	84,139

In McCulloch county, Neff received 149 more votes than Bailey, the vote being: Neff, 555; Bailey, 406. This total does not include the Camp San Saba box.

In the race for congress, Blanton had a walk-away with his opponent, Grisham, as the telegrams reprinted on this page show.

Of interest to McCulloch county citizens is the defeat of James L. Slayden by Carlos Bee for congressman from the Fourteenth district.

The Home Ownership amendment carried, apparently by a vote of two to one. In McCulloch county, however, the vote was 281 for and 378 against the proposition.

Outside the Brady precinct, two close races were run for Commissioner in Precincts 3 and 4. In the former, J. F. Priest won over J. L. Smith by 9 votes, and in the latter, H. E. McBride won over Leonard Sansom by 10 votes.

Congressional Races.

Results in Congressional and Courts of Civil Appeals races remain unchanged on the face of later returns, except that Judge J. M. Talbot of the Fifth Court of Civil Appeals at Dallas, has established a firm lead of nearly 6,000 votes over H. B. Daviss of Corsicana.

In Congressional races the winners are:

Third District—Bond and Sanders go into runoff primary.

Fourth District—Congressman Hayburn has heavily defeated State Sen-

MISSOURI STATE LIFE INSURANCE COMPANY

WROTE \$68,000,000.00 NEW BUSINESS from January 1st, to July 1st, This Year.

The Best Policy for Any Man or Woman.

C. A. TRIGG
General Agent
Brady Texas

Tenth District—Congressman Buchanan has heavy lead over A. T. McKean of Austin.

Eighth District—Garrett of Houston has defeated Fisher of Houston, two to one.

Fourteenth District—Congressman Bee has defeated former Congressman Slayden.

Seventh District—Congressman Blanton has decisively defeated Judge Grisham.

In the Fourth Court of Civil Appeals race at San Antonio, Judge T. D. Cobbs of San Antonio has defeated Sluder of that city by a heavy majority.

Totals in Other Races.
The Election Bureau has received reports so far from 239 counties, Thirty-four of these counties have sent in complete returns.

Totals in other races at the time of the last compilation follow:
Home Ownership—For, 64,220; against, 31,001.

Lieutenant Governor—Culp, 36,829; Davidson, 77,325; Humphreys, 37,247; Johnson, 53,709; McNealus, 32,121.

Judge Court Criminal Appeals—Davidson, 146,236; Martin, 57,367.

Justice Supreme Court—Hawkins, 75,206; Key, 59,569; Pierson, 83,139.

Commissioner of Agriculture—Dixon, 87,847; Terrell, 122,619.

Railroad Commissioner—Andrews 79,928; Mayfield, 131,688.

Comptroller—Smith, 120,727; Wiginton, 115,229.

The election returns from over McCulloch county were bulletined on a board on the northeast corner of the public square, Manager J. B. Whitman of the West Texas Telephone Co. securing the returns from the various precincts over the phone, and Messrs. W. R. Davidson and T. P. Grant assisting in the recording and compilation of the totals. Several thousand citizens, assembled from all parts of the county, jammed the square eagerly awaiting the returns. Lohn box sent in her returns with remarkable speed, the complete vote being phoned in fifteen minutes after the closing of the polls. Voca also showed remarkable promptness. Almost from the start, the successful candidates showed a lead, and, with the exception of the public weigher's race in Precinct 1, none of the contested races were in doubt. The local count was continued until 12 o'clock at night, when the judge and clerks adjourned for the night. Counting the vote was resumed early Sunday morning and completed at about 10:00 o'clock.

McCulloch county returns complete with the exception of the Camp San Saba box, are given in another column of this issue.

While there were but 579 votes cast in the Brady election box, the vote as announced for the tax collector's race shows a total of 582 votes as having been cast. This is an obvious error, but could not be checked from the tally sheets, as the number of tallies as given in the totals for the Brady box were recorded on the sheets.

Get ready now for this fall. We have "Harness" now, but don't know how it will be later. O. D. MANN & SONS.

SATISFACTORY, SAYS NEFF.

WACO, July 26.—"The result of Saturday's primary is satisfactory to me," said Pat M. Neff, here this afternoon.

THOMASON'S MANAGER FOR BAILEY.

DALLAS, July 26.—Headquarters here of Joseph W. Bailey, candidate for the Democratic gubernatorial nomination, announced today that a telegram had been received from R. M. Dudley of El Paso, manager of the campaign of R. E. Thomason, announcing Dudley would support Bailey in the runoff primary of August 28.

The message, addressed to Luther Nickels, said:

"While I do not agree with Mr. Bailey in many things, yet I do know where he stands. He has not advocated issues because they were popular; he has not made a campaign of misrepresentation, nor thrown mud at his adversaries. He has not made a sectional issue. For these and many other reasons I shall support Mr. Bailey."

BLANTON WINS CONGRESSIONAL RACE EASILY

Abilene, Tex., July 25, 1920.

Editor Schwenker,
Care The Brady Standard,
Brady, Texas.

Carried every box in Taylor County. Big majority. Have possibly carried every county. Deeply grateful to you and all friends there.

THOS. L. BLANTON.

Brownwood, Texas, July 25, 1920.

Brady Standard,
Brady, Texas.

Blanton carried Brown County two to one. Carried every box in Taylor County. Probably not lose a county in District. BROWNWOOD BULLETIN.

SCHOLASTICS TO RECEIVE \$14.50 EACH NEXT YEAR

Austin, July 21.—The scholastic apportionment by the State Board of Education is \$14.50, the highest on record and \$6 above that of last year.

The increase was made possible because of the increased property valuation and the gross production oil tax.

Now is the time to come to the aid of your party. It is also the time to come to your own aid, by making arrangements for a Thomas Grain Drill for sowing the fall grain. O. D. MANN & SONS.

STATE TAX RATE FIXED AT 62 CTS. BY STATE BANK

Austin, Texas, July 19.—The total tax rate for this year, which was fixed late today by the State Automatic Tax Board, is 62c, a reduction of 13c under last year's rate, which was 75c, the constitutional limit.

Despite the appropriations of over \$7,000,000 made by the recent special session of the Legislature, the Tax Board found it possible to reduce the ad valorem tax rate from 35c to 22c, a reduction of 13c, or about 40 per cent. No change was made in the rate of 35c for schools and 5c for Confederate pensions.

LOCATION FOR WELLS NOS. 4 AND 5 IN DAY FIELD MADE WEST OF WELL NO. 1

WELL NO. 3 TO BE SHOT IN BLACK LIME AND PRODUCER EXPECTED TO DEVELOP—CHICAGO STOCKHOLDERS IN DAY-DALEY PETROLEUM CO. VISIT HERE.

Messrs. M. E. Daley, A. L. Tomm and C. J. Schwartz, leading stockholders in the Day-Daley Petroleum Co., which has taken over development of the Hall-Dutton tract, arrived here Saturday for an inspection of Day well No. 2, as well as other developments in the Day field. After going over the situation carefully, they expressed not only satisfaction, but extreme gratification over the showing made, and were in high spirits Monday night upon taking their departure for their homes in Chicago.

LOCATION

Incident to their visit here, these gentlemen, in company with Mr. Day, made the locations for wells No. 4 and 5, the former being located 300 ft. due west of Well No. 1 and the latter 600 ft. due west of No. 1. These locations, it is confidently expected, will put both these wells on the main structure of the field. Cleaning out of the hole is proceeding steadily in No. 2, and should be completed in time to enable a test of the production this week. Fol-

lowing the shooting of the well with 20 quarts nitro-glycerine a week ago, a second shot of 60 quarts was given the well last Friday with the result that the well is now showing up even better than has been anticipated.

Announcement was made by Mr. Daley that No. 3 is also to be shot in the black lime. The crew is still engaged in a fishing job on this well, but have succeeded in removing all cable from the well and recovery of the string of tools is expected to be completed in a very short while.

ROY HOLLIDAY OPENS AUTO AND GENERAL REPAIR SHOP IN BRADY

Roy Holliday has opened up a general repair shop in the E. B. Ramsay building on the southwest corner of the square. In addition to doing all kinds of house-moving, building, furniture and the general run of repair work, he expects to specialize in auto repairing, vulcanizing and tire work. Beginning August 1st he will have an expert mechanic in charge of the auto department and will be in position to assure the very highest class of service.

Mr. Holliday sees a splendid opening for his new line of endeavors, and since undertaking this work has received business and encouragement to convince him that he is on the right track for business success.

METHODIST SUNDAY SCHOOL WILL HAVE PICNIC AND BARBECUE AT JORDAN CAMP

Members and attendants of the Methodist Sunday school are anticipating a joyous occasion next Thursday when their annual picnic will be held at the Jordan summer camp. In addition to the usual well-filled picnic baskets that will be filled for the occasion, the committee in charge has arranged for a choice lot of barbecue and nothing will be left undone towards making the occasion both an enjoyable and interesting event.

OFFICIAL CANVASS OF ELECTION RETURNS TO BE MADE NEXT SATURDAY

The County Democratic Executive committee will meet next Saturday at which time the canvass of the election returns will be made, and the results officially declared.

BRADY, TEXAS, July 27, 1920

HONEST INJUN.

"The number of 'I told you so's' and 'I sure voted for old Joe,' has grown steadily ever since state returns first placed Bailey in the lead.

COX'S CHANCES.

No matter what happens in November, the next President of the United States will be an Ohio editor, who began active life in a printing-office, successfully edited and published several small-town newspapers, played an unimportant part in Congress, and never attained to a national reputation until this summer.

Ingenuity in advertising is to be commended and doubtless brings rich returns—but the dead line should be drawn at the incorporation of a cemetery into an advertising scheme.

THE PESKY RABBIT.

Four prizes, ranging from \$25 down to \$10, or their equivalent in guns, are being offered by the county commissioners of Brown county for the largest number of rabbit scalps brought in during a certain period.

Like all varminths of destructive and non-useful character, the rabbit should be exterminated. The killing out of the pest, though, in these days of high prices of guns and ammunition, presents a problem in which the farmers and citizens are apt to deem the initial cost as outweighing the ultimate good, especially if the effort at extermination is not made a county-wide or state-wide affair.

As an incentive towards this end, the offering of prizes for the largest killing naturally is more apt to get good results than the paying of a mere bounty, which is not apt to be large enough to cover the cost involved.

Tillie Clinger says the reason she thinks there is some kind of home brew at her boarding-house is because she came home late last evening and found the dining-room dark and the landlady lit up—Dallas News.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. Kindergarten Helps for Parents

This is No. 46 of a series of articles issued by the National Kindergarten Association. They will appear weekly in these columns.

By MISS HARRIET FRANCES CARPENTER.

A mother who had taken a course in kindergarten work made a call at the school where she had studied. "I cannot tell you of what value my training has been, but I wish I could have more," she cried wistfully. "The problems a mother has to meet are so many. For instance, my little girl has long, curly hair, and when I take her to the shops the clerks comment upon it before her. I fear she is becoming very vain. Only the other day she said, as she posed before the mirror: 'I HAVE pretty hair, mamma!'"

"What did you say?" asked the kindergarten training teacher. "I replied as calmly as I could: 'It looks very well when you keep it NEATLY COMBED.'"

This answer showed that the mother had grasped the core of Froebel's idea when he wrote: "Mother, let your behavior be such that your child may early learn to realize that your approval is given not to his small, visible person, but to his true self."

Such a mother finds no drudgery in her task. Rather has she the feeling of the artist, for joy is her ruling motive, not joy in selfish possession, but joy in perceiving growth and attaining desirable achievements. She is ready to pause for a song on the way, is not impatient at the length of the journey and, cheerfully follow-

ing the long zigzags of the steps hewed by Nature's own slowly unfolding methods, she guides the child up the path of the mountain of life.

Wise is the patient care of this mother guide, knowing no fear, even when the child errs, for has not the great Goethe told us that although man has aspiration he cannot but err? Has not the newer poet-dramatist, Ibsen, for all his grave sense of human culpability shown us Solweig, the mother, waiting at the cross-roads till Peer Gynt learns that he has chosen the wrong path, patient through all the years for him to come to her in this old age to purge his soul of dross and fill it with the truth?

"Where was I?" he asks as he kneels before her, dazed by his sense of failure, this man rich in world's success, but barren in things of the soul. "Where was I as myself, the whole man, the true man?"

"In my faith, in my hope, in my love," answered the eternal woman, undaunted in her belief in the final outcome.

"The boy has been resting on his mother's lap

They two have been playing all the life day long,

The boy has been lying close to my breast,

All the life day long. I will cradle you

"Wife, mother, sister, art thou," answered the newly-inspired Peer, seeing her for the first time as she was, the woman not of flesh alone, nor of intellect nor of this world, but the spiritual mother of the race.

What mother is there who does not long for this high role of motherhood to her child's soul?

LOCAL BRIEFS.

Mr. and Mrs. B. L. Malone and son, Norman, returned Saturday evening from Frost and Waco, Texas, where they had been on a visit to his brothers.

A postcard received from Mrs. S. A. Benham gives a view of the magnificent \$1,000,000 Hotel Galvez at Galveston, and conveys the news that she and Miss Lucille are enjoying their stay on the Gulf very much.

C. J. Hallett, the merchant prince of Wagram, was a business visitor in Brady Monday and reported everything looking good down his way. He is making preparations for an immense volume of business this fall.

Clyde Wilhelm is here from Galveston for a visit with friends. Clyde has been employed with the Electric Garage of that city for the past two years, which, he says, is the best evidence of the fact that he likes his work fine.

S. W. Simpson was a business visitor from the Rochelle community Monday. Shad reports having had an abundance of fine and timely rains out his way, and says what they really need now is dry and pretty weather for the crops.

J. R. Lovelace, who is now located at Stephenville where he is employed in the barber business, was a visitor in Brady Monday. Ray reports being well pleased with his new location, which has evidently agreed with him as he has become much stouter since leaving Brady a couple years ago. His family is visiting his parents at Mercury.

Mr. and Mrs. J. D. Baxter of Uvalde arrived here Sunday and announce their intention of locating in Brady and engaging in business here. Mr. Baxter, prior to removing to Uvalde the early part of the year, was located in Coleman for a number of years, where he was engaged in the variety store business, making a remarkable success by reason of his advanced business methods and unusual sales efforts.

Geo. Yantis has been spending the past week or so here as a guest of his parents, Mr. and Mrs. W. J. Yantis, while recuperating from an operation which he underwent recently at Sweetwater, and which kept him confined to his bed in the hospital there for a period of 18 days. He is now making a rapid recovery and expects to be able to return about Friday to Abilene where he is employed with one of the leading drug firms of that city.

Mr. Ben Anderson, who is at St.

Louis markets buying the Fall millinery stock for the Popular Dry Goods Co., writes that she is securing a splendid line of hats, and that the new Fall styles are especially attractive and becoming. Mrs. Anderson expects to remain in St. Louis until about the 10th of August taking a course in trimming from one of the leading fashionable milliners of that city and who has just returned from the style markets of Europe.

Dr. Aug. J. Streit, accompanied by his wife and son, John, are here from Marlin having planned a big fishing trip in company with H. R. Hodges and wife, down on the Llano river in the Junction country. The doctor came out here last winter on a hunting trip and had such an enjoyable time that he decided to try a fishing trip. While the rain this morning temporarily disarranged the plans of the party, they are figuring on making up for lost time when they do get to the river.

W. M. Murphy was the victim of an unfortunate accident last Friday at the Mann-Ricks garage. Bill was "warming up" a brand new car and endeavoring to get the stiffness out of the starter by the use of the crank. He turned the engine over several times and just sufficiently to get a good compression, when someone unthoughtfully turned on the electric switch without giving him warning. The engine promptly backfired, the crank jerking Mr. Murphy's arm with such force as to break both bones in the right arm at the wrist. The broken bones have been reset, and aside from the discomfort and inconvenience, Mr. Murphy is getting along very nicely.

Messrs. Will Keng and Paul Allen were numbered among the Whiteland folks in Brady Saturday on business, and Keng demanded to know why Whiteland had not been included among the communities reporting good rains. Of course, we had our alibi ready for instant use, and used it with entire success. Will states that Sunday and Monday a week ago they had a splendid rain out his way, although the rain was very spotted and covered but a limited territory. Crops are looking fine, however, and there is every reason to look forward to a big turn-out this fall. Mr. Keng stated further that Whiteland folks very much desire the location of a good merchant in their midst, as Messrs. Joe and K. Morrow, who have been conducting a general store at Whiteland, have decided to discontinue the business and move to Melvin where they will be actively associated with the Maxwell & Morrow store. Should Whiteland fail to locate a merchant in their stead, there is danger of the postoffice at that place being discontinued.

CENSUS MAY GIVE TEXAS 5,000,000 PEOPLE—BIG INCREASES SHOWN

Washington, July 22.—Unless the Texas population figures from counties yet to be announced bring down the average gain, the Lone Star State is sure to go into the 5,000,000 class when the 1920 census totals are completed.

Figures thus far disclosed make it certain that Texas will show a greater percentage of growth between the years 1910 and 1920 than in either of the two preceding census periods.

Big Increases are Shown.

Despite the fact that rural counties throughout the Nation as a whole, are merely standing still or showing losses, the population totals on ten Texas counties announced to date record a 34 per cent gain. Four Texas counties have already shown losses, but they are proportionately small as compared with gains recorded in other counties. None of these counties include cities, all are small counties.

Figures have been compiled for 37 cities and towns. Most of the large cities have been announced and many of the smaller cities. These thirty-seven cities show an average gain in population that might easily do credit to industrial centers of the East or automobile centers of the Middle West.

In 1910 these cities had a total population of 526,829. This year they are credited with 876,295, a gain of 349,466 persons, or approximately 66 1-3 per cent.

May Pass 5,000,000 Mark.

Statisticians believe that if the populous Texas counties show a healthy increase, the average net gain for the State will be 40 per cent. If so, then Texas will go beyond the 5,000,000 persons.

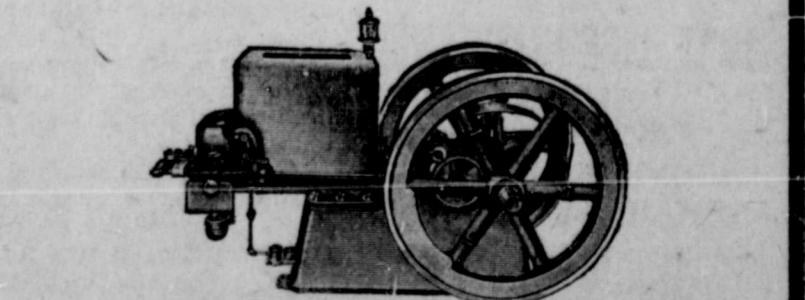

The Quinine That Does Not Affect the Head Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE. 30c.

TEXAS COTTON CROP IS POOREST OF LAST DECADE DECLARES COTTON EXPERT

Dallas, Texas, July 24.—Three factors—the lateness of the season, destruction by boll weevils and the pink boll worm—have had the effect of making the present cotton crop in Texas the poorest of the last decade, according to E. E. Shropshire, secretary of the state division of the American Cotton Association.

"While since June 1 there has been a marked improvement in crop conditions, the present indications are that the season's supply will not be in excess of 11,000,000 bales," Mr. Shropshire said here recently. "Natural conditions, which include the weather, boll weevil and pink boll worm, are largely responsible, but an acute labor shortage has played an important part in the cotton production.

"It is unquestioned that the world's stock of spinning cotton on hand and in the manufacturers' and merchants' stocks of goods on hand are far below the average for a period of years. Both American and foreign mills, with rare exceptions, are running full time and from information available now the outputs are contracted for many months in advance. This at profits which yield dividends in keeping with those paid by manufacturers for the last two or three years and which are the highest in the history of the cotton manufacturing industry.

cotton crop ever produced in the history of the South. It will be entirely too valuable a product to expose to the weather as in the past with a loss of millions of dollars. Warehouses with facilities for sufficient protection should be provided.

He asserted that men, or a combination of men, might be able by a "chalk-mark" method to bring the price of cotton below the cost of production, but maintained that the South was rapidly organizing to combat this manner of speculation at the producer.

MINE OWNER WAS FORCED TO QUIT

Moves To Coast Seeking Health — Takes Tanlac and Will Return Home A Well Man.

"I was forced to give up my mining business and move to Los Angeles seeking health, but thanks to Tanlac I am going back a well man," said William H. Hart, who owns the Vindicator-Divido mine in Tonapa, Nevada.

"For nine years," he continued, "I suffered terribly from indigestion, my appetite was poor and everything I ate would cause so much gas in my stomach that I would be drawn almost double with pain. I got so nervous I couldn't write a letter and even the wind blowing around the house at night would upset me so I couldn't sleep. I lost forty pounds in weight and finally had such bad attacks that I couldn't stay on the job another day. I just gave up and came out here, but the change, like all the treatments I had taken, seemed to do me no good at all.

"One day a friend recommended Tanlac to me and I will never be able to thank him enough, for now after taking four bottles I feel like a new man. I eat three hearty meals a day, my nerves are as steady as a rock, I sleep like a child at night and I am going back to my mines feeling fit and fine in every way. I am glad to have a chance to tell other people what a great medicine Tanlac is."

Tanlac is sold in Brady by Trigg Drug Co., in Mercury by J. T. Matlock, and in Rochelle by C. W. Carr.

CITATION BY PUBLICATION.

THE STATE OF TEXAS—To the Sheriff or any Constable of McCulloch County—Greeting:

You are hereby commanded to summon W. M. McMorris by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 35th Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 35th Judicial District, to appear at the next regular term of the District Court of McCulloch County, to be held at the Court House thereof, in Brady, on the third Monday in September, A. D., 1920, the same being the 20th day of September, A. D., 1920, then and there to answer a petition filed in said Court on the 15th day of July, A. D., 1920 in a suit, numbered on the docket of said Court No. 1937, wherein May McMorris is Plaintiff, and W. M. McMorris is Defendant, and said petition alleging that plaintiff is an actual bona fide inhabitant of the State of Texas, and has been for a number of years next preceding the filing of this petition, and has resided in McCulloch County for a number of years next preceding the filing of this petition, and that the residence of defendant is unknown to plaintiff; that on or about the 15th day of July, 1893, plaintiff was lawfully married to defendant, and plaintiff and defendant continued to live together as husband and wife until on or about the 10th day of September, 1916, at which time defendant permanently abandoned plaintiff and has ever since remained apart from plaintiff; that at the time of said abandonment plaintiff was the mother of a number of children by defendant, which children were minors and dependent upon plaintiff for support, and plaintiff has maintained and supported herself and her children ever since said abandonment without aid from defendant and defendant has contributed nothing toward the support of plaintiff or their children since said abandonment by defendant; that plaintiff was always faithful and dutiful to defendant during their married life and did nothing to merit such treatment from defendant. Plaintiff prays that defendant be cited by publication to appear and answer herein, and for judgment dissolving the marriage relations subsisting between plaintiff and defendant and awarding plaintiff a legal divorce, for costs of suit, and for general relief in both law and equity.

Herein Fail Not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given Under My Hand and the Seal of said Court, at office in Brady, this 15th day of July, A. D. 1920.

P. A. CAMPBELL,
Clerk, District Court, McCulloch County.

MAN'S BEST AGE

A man is as old as his organs; he can be as vigorous and healthy at 70 as at 35 if he aids his organs in performing their functions. Keep your vital organs healthy with

GOLD MEDAL HAARLEM OIL CAPSULES

The world's standard remedy for kidney, liver, bladder and uric acid troubles since 1696; corrects disorders; stimulates vital organs. All druggists, three sizes. Look for the name Gold Medal on every box and accept no imitation.

PENDULUM TELLS THE SEX OF EGGS—CAN'T FOOL THIS DETECTOR

At a recent meeting of the Societe Nationale d'Acclimation in Paris an interesting discussion took place on the possibility of detecting the sex of eggs. M. Le Fort announced that this could be done with a pendulum, a ball of copper fastened to a copper screw and hung to a chain of steel that contained no nickel.

If this copper ball be held suspended over an egg, said M. Le Fort, it will, after a few seconds, begin oscillating like the pendulum of a clock, if the egg contains the germ of a rooster; but it will describe circles in space if the contained germ be that of a hen.

M. Le Fort said he had tested this many times and always with complete success. Once he tried it on seven eggs. The pendulum announced two hens and two cocks and three doubtful. The eggs were placed in an incubator and produced two hens and two cocks, while the three eggs did not hatch, being unfertilized.—Dallas News.

Champion Mowers and Harvesters have stood the test of time; they have advantages over all others. Let us show them to you. O. D. MANN & SONS.

There Were Six.

It was a new town in the West, and after breakfast I wandered up and down the one long street to find the office of the local weekly paper. By and by I came to a shanty with the sign of "The Herald," but the door stood open, the windows were out, and it was plain that a removal had taken place.

"Who you lookin' fur?" gruffly inquired the saloon man next door.

"For the editor."

"He's over thar!"

"Over where?"

"Can't you see the fenced-in place over thar?"

"Certainly. Looks to me like a graveyard."

"And so it is, and that's where he's planted. You air speakin' of the last one, I take it?"

"Has more than one been planted around here?"

"I should gurgle that there had? Let's see? One—two—three—four—five—hold on a mint! Hello, Hank."

Hank came across the street, and the saloonist asked:

"How many of these newspaper critters hev bin' planted around here?"

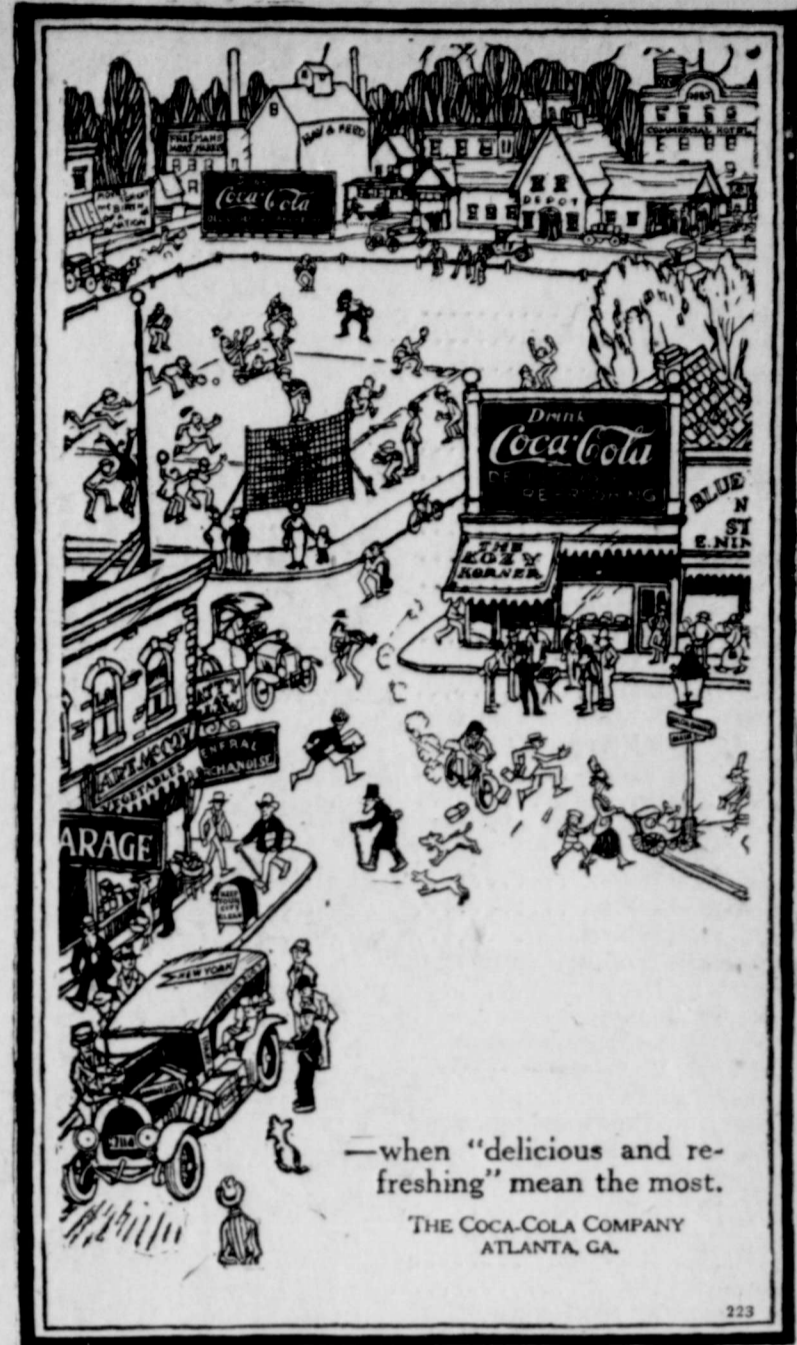

"Six," was the prompt reply, "and they say thar's anther cayuse in town smellin' around to start another paper. I'm jest lookin' him up. Is this the feller?"

"Oh, no!" I replied in my softest tones. "I'm either going to start a saloon or a faro-bank. I was just inquiring out of curiosity."

"Then that's all right and we'll drink at your expense. Any legitimate business is welcome here, but the critter who comes along with a newspaper hurts our feelings and insults our manhood, and has got to dodge or drop. Saloon or faro, eh? Better make it faro, 'cause we are long on saloons and short on faros just now. Glad to meet you. Allus does me good to shake hands with a newcomer who has the interest of this town at heart."—Ex.

The Useful Ouija.
"Where were you all evening?"

"At the club."
"I don't believe it."
"All right. Ask the ouija board."
