TOM TAYLOR GIN HAS \$1,000 FIRE LOSS SATURDAY

The Tom Taylor gin, in the east part of town, sustained a heavy loss early Saturday morning when fire destroyed and damaged some 600 or 700 bales of bagging. Origin of blaze is unknown, and the only possible explanation advanced is that rats gnawing matches might have started the conflagration. When discovered about 6:00 a. m. by J. L. Edwards, superintendent of the plant, and who lives adjoining the gin, the fire had gotten good headway, and the seed house in which the bagging was stored, was ablaze. Quick action upon the part of Mr. Edwards and neighborhood volunteers, who manned the gin's fire hose, together with a prompt response of the Brady fire department, alone prevented the entire destruction of the plant. As it was, in addition to the damage done the bagging, the interior of the seed house was quite badly scorched and charred.

In all, Mr. Taylor had something like 1,000 bales of bagging stored there valued at over \$2,000. No accurate estimate of the loss has so far been made, pending arrival of the insurance adjuster, but with more than half the bagging damaged, it is certain the loss will run well over \$1,000. Fortunately the damage is fully covered by insurance.

The nearer winter approaches, the greater will be the danger of disastrous fire loss. Don't overlook safeguarding your interests by securing adequate protection from fire loss. An insurance premium is a small thing; but a fire loss may wipe out the work of years unless you have a policy to protect you. Anderson & Carrithers, the insurance men.

EVERY NIGHT FEATURE PROGRAM AT THE LYRIC —FATTY ARBUCKLE NEXT

Just a glance at the players and the plays that make up the program of pictures for the coming week at the Lyric theatre—it's all star. Madeline Travers in "Iron Heart," D. W. Griffith's latest feature "The Idol Dancer," Wallace Reid in "Alias Mike Moran," Elsie Ferguson in "A Society Exile," Elaine Hammerstein in "The Shadow of Rosalie Byrnes," and J. Warren Kerrigan in "Lord Loves the Irish." Then as a starter on the program for the week following, Mr. Levy announces "Fatty" Arbuckle in his latest and greatest comedy, "The Garage."

Probably no comedian ranks higher in the affections of theatre-goers than does Fatty Arbuckle—and there's a reason. His comedies are always laughable; they are wholesome and they never have a sober minute. In "The Garage," Fatty is a scream from start to finish, and as a fireman he is one of the most heroic of heroes.

The big feature for this week, and one which has everywhere been hailed as the most remarkable picture ever produced by D. W. Griffith, is "The Idol Dancer," which will be shown on Thursday night. In the cities this great picture has shown to packed houses and at prices double and treble those charged here. Regardless of cost of production, however, Mr. Levy is determined to maintain the same prices as always, 15c and 25c, for all pictures.

ANNOUNCEMENT.

Have just returned from New York City where I have completed an extensive post-graduate course at Columbia University, in radiograph, conductive anesthesia, exodontia and oral surgery, and am prepared to offer the best service to my patients. DR. H. W. LINDLEY.

DO NOT HARVEST LOW GRADE COTTON; MARKET WILL BE DEMORALIZED

Col. W. B. Thomson, a well known cotton factor of New Orleans, and a life-long friend to the cotton industry, sounds a note of warning in the Manufacturer's Record of the danger that threatens the marketing of the present crop, and points out a specific remedy within the hands of every grower.

"During the past three years low-grade cotton has been a grievous burden upon the cotton industry," says Col. Thomson. "During this period the supply of these damaged grades has been abnormally large and the demand therefor abnormally small. The over-supply condition was caused by bad weather after the cotton opened, and the lack of demand has been due to the fact that the normal low-grade markets have been closed and to the additional fact that during the war the United States government in formulating its contracts rankly discriminated against the lower grades. As the result of these conditions the grades below middling have declined to preposterous discounts. Low middling is quoted at 10 1/2-4 cents per pound less than middling, the next grade above, and good ordinary at 18 1/2 cents per pound less than middling, and even at these discounts all the grades in question have been and are still practically unsalable.

Low-Grade a Liability.

"It costs more to produce these low grades than the higher grades. Even when they can be sold at all they are sold at an enormous loss. Worse than that, the presence of an accumulation of unmarketable stock in the market is a depressing factor in so far as the merchantable grades are concerned. The conclusion is that the cotton farmer simply cannot afford to produce and market the lower grades. These grades not only represent an unbearable difference between the production cost and the sale price, but

they constitute a weapon with which the producer's antagonists may assault him. Low-grade cotton under present conditions is not an asset, but an infectious liability.

A Plan to Increase the Price.

"Therefore, the plan proposed is simply this. Do not harvest any grades lower than middling.

"But it will be objected that the weather makes the grades and that the farmer cannot control the weather. This is true, but the farmer can regulate the grades he picks and puts on the markets.

"As soon as cotton opens pick it as rapidly and as carefully as possible; have it ginned gradually; when ginned, store it in a warehouse if the same is available; if warehouse is not available, take the cotton home, build a shelter for it, put it on skids and from time to time turn the bale over in order that all sides may be exposed to the air; sell when demand calls for it at satisfactory prices.

Destroy Low-Grade and Profit.

"Do not pick any rain or weather-damaged cotton. When the weather gets bad, turn the cattle into the fields. Do not let the damaged cotton stay to be picked later and sold at ruinous discounts, and in the meantime to be used by your adversaries in beating down the price of your good grades. Destroy the low-grade cotton and through such destruction fatten your cattle and your own pocketbook.

"If this plan is carried out—and it will be carried out by every sensible farmer who considers the same—the coming crop will be reduced by several million bales in quantity, will be increased by many million dollars in value, and at the same time the producer will save the loss incurred in the production of an unmarketable commodity and will rout his would-be despoilers horse, foot and dragon."—Texas Industrial Congress.

THE SHADOW OF ROSALIE BYRNES

A story of gripping interest—sister against sister—in a struggle for happiness. Full of sentiment and action; one sister was an angel and the other a vixen. A story that compels your sympathy; you'll cry, you'll smile, you'll laugh! Twins are well enough when they're same sex twins or twin sixes, but when they're beautiful, grown-up girls with a host of admirers, there's bound to be a peck of trouble. Love may fly out of the window, as the poet says, but there is nothing to prevent it from coming right back, ringing the front door bell and staying for tea.

The mere fact that a man has failed in business or other undertakings does not mean very much unless we know what he did after his failure. NEFF LAND PLANK NOT MENTIONED IN DEMOCRATIC STATE PLATFORM—REFORM LEGISLATION IS PLANNED

The Democratic State platform which was reported to and adopted by the State Convention at Fort Worth Wednesday afternoon contained no reference to what is known as the Neff graduated land tax plank, nor to the proposed Agricultural and Mechanical college for West Texas. According to The Fort Worth Star-Telegram the platform contained the following statement as to "Taxation:" "We are constrained to believe the system of taxation established by the State is capable of more satisfactory meeting the requirements of the people if made operative in accord with its purposes and provisions of the law. If inequalities have crept into the administration it is within the power of the Legislature, under constitutional authority, to enact such provisions as will correct them; and we would recommend that before legislative consideration is accorded new plans of taxation, that a painstaking inquiry be instituted into the adequacy and adaptability of the methods sanctioned by our Constitution and the policy of our statutes."

Other provisions of the platform are outlined by the Fort Worth papers as follows:

Legislation Suggested.

The platform came perhaps within hailing distance of the candidate's purpose of getting the people on the land when it called upon the Legislature to enact legislation without delay making the home ownership amendment operative as indorsed in the recent primary.

"The National Government has declared it a proper governmental activity to render both encouragement and material aid to citizens in the acquisition of homes," the plank goes on, "and we commend to the Legislature consideration of such measures as may be deemed judicious in supplementing the effects of the National Government, to the end that homes may be made available to those desiring to acquire them. With our abundant area of undeveloped and uncultivated agricultural land, the landless man and the manless land should be

great care be used in the selection and arranging of these exhibits; and then special efforts be made by the Program and Arrangement committee for the best part possible in the parade. This of course, will consist largely of original ideas, which, if given a little thought can be made very appropriate. This can all be accomplished to good advantage by working through the Central committee and by calling on them for any suggestions or help you may require.

TO THE CHAIRMAN OF COMMITTEES, SUPERINTENDENTS OF DEPARTMENTS AND DIRECTORS IN CHARGE OF SPECIAL WORK IN THE INTEREST OF "THE McCULLOCH CO. CO-OPERATIVE EXHIBIT" TO BE HELD IN BRADY OCT. 5 AND 6, 1920.

Your attention is hereby called to the fact that only three more weeks remain before the date of holding our exhibit, and you are especially urged to insist on every member of your committee doing his or her part. We can make the exhibit a success only by co-operation and it is earnestly desired that each and every one do their part well.

Some have said that they do not know how to take hold or what to do; this however, is in only a few instances, as the majority of the committees are working splendidly. For the benefit of these we want to say, there is nothing complicated about the plan and if you will sit down and read it all, as published in last week's papers, you will have no trouble in understanding it. The principal duties of the District Committees, is to see that the best of everything in that district is exhibited and that

WEAK; RUN-DOWN

Carolina Lady Got So She Could Just Drag.—"Cardui Built Me Up," She Declares.

Kennersville, N. C.—In an interesting statement regarding Cardui, the Woman's Tonic, Mrs. Wesley Mabe, of near here, recently said: "I have known Cardui for years, but never knew its worth until a year or so ago. I was in a weakened, run-down condition. I became draggish—didn't eat or sleep to do any good; couldn't do anything without a great effort. I tried different remedies and medicines, yet I continued to drag.

"I decided to give Cardui a trial, and found it was just what I really needed. It made me feel much stronger soon after I began to use it. I began to eat more, and the nervous, weak feeling began to leave. Soon I was sleeping good.

"Cardui built me up as no other tonic ever did. "I used Cardui with one daughter who was puny, felt bad and tired out all the time. It brought her right out, and soon she was as well as a girl could be. We think there is nothing like Cardui."

Do not allow yourself to become weak and run-down from womanly troubles. Take Cardui. You may find it just what you really need. For more than 40 years it has been used by thousands and thousands, and found just as Mrs. Mabe describes. At your druggist's. NC-147

speedily brought together."

Reapportionment Asked.

The platform declares for reapportionment of Congressional, Senatorial and Representative districts.

It declares for a woman's minimum wage law.

It declares for such amendments to the workmen's compensation law as will make it more effective and satisfactory.

Indorses the educational amendment to be voted upon in November, and declares for more adequate support of common schools and higher institutions of learning.

It felicitates woman upon obtaining the ballot, and calls for the enactment of a law which will permit only American citizens to vote in Texas.

It calls for the consolidation of such offices and departments as can be consolidated advantageously, and the creation of new ones unless absolutely necessary.

Favors Good Roads.

With reference to agricultural activities, the platform calls for the bringing together of all executive and law enforcement functions under the Commissioner of Agriculture and all educational functions under the A. & M. College.

A more efficient marketing and warehouse system is called for. A policy of building permanent highways is called for, and the extension of Federal aid for this purpose is commended.

A demand for judicial reform is inserted. The Legislature is called upon to enact such legislation as will encourage the building of factories.

Administration Indorsed.

The Legislature is asked to enact a law, if this is found to be necessary to achieve the end desired, which will permit tax collectors to establish sub-offices for the accommodation of poll tax payers.

The Wilson and Hobby administrations are indorsed and the party is congratulated upon the victory of the principles represented by Pat M. Neff.

The main thing is for each one to have a task and not let that task be too large, so that they can perform it well. Put those in charge of this work who have the interest of the school and community at heart and will try to make it a success. We are going to look after the entertainment features here and if you will do your part towards getting up the exhibits and making your part of the parade good, it will be a success. Everything will be arranged for your convenience and comfort in the way of making your exhibits to the best possible advantage, and we already know that we are going to have a number of visitors from other counties and we want to take advantage of this opportunity to advertise our county and the different communities in it in a way that they deserve.

Do not forget, too, that your help in a financial way is needed; not that any one individual should give a large amount, but that all be identified in this way. Remember you will get out of it in proportion to what you put into it, not only in a financial way, but more especially of your time and service. You may not be able to see where the immediate return will come to you measured in dollars and cents, but we must get away from that viewpoint, and remember incidentally that it is impossible for you to help anyone else without helping yourself; and the ultimate object of this move, as we stated before, is to improve our social and economic conditions and incidentally, if we do that, we will improve our conditions generally. Come up and do your part and you will be proud of the results.

EXECUTIVE COMMITTEE.

HEAVY ATTENDANCE BRADY SCHOOLS --TO ELECT ADDITIONAL TEACHERS

TOTAL ENROLLMENT MONDAY 514—INCREASE OF 125 OVER LAST YEAR—MISS DAVISON ELECTED MONDAY NIGHT TO REPLACE MISS GAYDEN, RESIGNED.

At the meeting of the Brady school board last night, the problem of the crowded conditions in the Brady schools came up for first consideration. N. A. Cleveland, superintendent, reported a total enrollment of 514 pupils in both high and central schools, or approximately 125 more pupils than were enrolled the first months of last year. He further reported 64 pupils enrolled in the Third Grade, while 53 were enrolled in the Seventh Grade. As a matter of fact, all the grades from the third to the seventh are filled almost to capacity, more than 50 pupils being enrolled in each. The school board promptly decided upon the election of two additional teachers in order to relieve the overburdened conditions, and to enable proper attention to the pupils in the various grades.

Central School Enrollment, 386
High School and Seventh Grade, 128

The above was the total enrollment Monday, one week after the opening of the schools. Today several additional pupils were registered, bringing the total up to about 520. Not only is Superintendent Cleveland short on teachers, but on available instruction rooms as well. In order, in a measure, to meet this emergency, it is very likely that the low seventh grade will be transferred back to the Central school building.

Another matter coming up before the school board Monday night was the resignation of Miss Gayden from the high school faculty. The school board accepted the resignation. Miss Julia Cherry was transferred from the Central school to the high school where she will be in charge of the English classes, and the school board voted to elect Miss Kittie Davison of Fort Stockton to take the place of Miss Cherry in the Central school.

Miss Puckett was taken ill the past week, and her place on the faculty was taken temporarily by Mrs. Seth Abernathy. Miss Puckett is able to again resume her duties this week, however. Pending arrival of Miss Davison the end of this week, Mrs. Cleveland is filling the position left vacant at Central school by the transfer of Miss Cherry. Miss Davison will begin her school duties next Monday.

Despite all these difficulties, Mr. Cleveland is getting the work at both the schools started off in good shape, and is coming in for much commendation for his masterful handling of the difficult situation. Everything seems to be going fine, except teachers are being overworked and all classes are too large for the best work. The school board already has in view several teachers, and expects to select the two additional members of the faculty within the next couple days. Their arrival will greatly relieve the present untoward circumstances.

The following is the assignment of teachers at both High and Central schools:

- Mrs. W. B. Anderson, Principal, High school, History.
- Miss Tempa Davis, Home Economics and Geography.
- Mrs. Mary H. Pence, Spanish and Math.
- Miss Julia Cherry, English.
- Mr. P. P. Moss, Science and Math.
- Miss Elzora Cunningham, Principal, Central building, High Fourth.
- Miss Dora Rawlings, Low First.
- Miss Irma Davenport, High First.
- Miss Ruby Granger, Low Second.
- Miss Maxine Williams, High Second.
- Miss May Stobaugh, Third (to be divided when another teacher is elected, 64 in the grade).
- Miss Lucille Puckett, Low Fourth.
- Miss Lela Kirkman, Math. and Spelling, Fifth and Sixth.
- Miss Bertha Heinetz, Geography, Fifth and Sixth.
- Miss Kittie Davison, Reading and English, Fifth and Sixth.

FAST JACK RABBITS AND WILD GOATS WANTED FOR McCULLOCH CO. EXHIBIT

RABBIT DRIVE AND GOAT ROPING TO BE STAGED ON BRADY PUBLIC SQUARE—PROGRAM COMMITTEE COMPLETES OUTLINE OF PROGRAM FOR 2 DAYS' EVENT.

Plans for the great McCulloch County Exhibit are rapidly being gotten into shape, and everything looks promising with interest on the increase daily. The program committee yesterday completed the outline of the program for the entire two days, and which will be found in another column of this issue. The program includes band concerts, free moving picture shows, lectures, stock and poultry judging, base ball, basket ball, goat roping, rabbit races—in fact, it is the most varied and extensive program ever attempted in Brady.

W. F. Dutton of Brady, in charge of the goat roping contests, is anxious to get in touch with all goat ropers desiring to enter the contest; also all parties having wild goats or animals they want entered in the roping contest, should get in touch with Mr. Dutton at once. This promises to be one of the big features of the exhibit, and, if agreeable to the ropers, will be staged on the public square in order to enable all to attend and witness the contest.

Another novel feature will be the rabbit drive, also to be staged on the square. Edd Broad, of Brady, in charge of the rabbit drive committee, announces that the committee wants from 50 to 75 of the longest, tallest, keenest and fastest-running jack rabbits in the country, and, in order to get them, stands ready to pay 25c per head for the rabbits, delivery to made alive on Monday before the opening day of the fair. All parties having knowledge and possession of such rabbits now, or at any time before the opening of the fair, are invited to see Mr. Broad and make arrangements with him concerning delivery of same. Assurance has been had by the committee that all the fast-running hound dogs and rabbit chasers will be on the job ready to give Jack Rabbit the run of and for his life, and with the crowds blocking all the openings leading away from the square, the rabbits and hound dogs will be forced to confine their operations to the center of the square in full view of the spectators.

The foregoing are but two of the many features being arranged for the big exhibit. There will be two days of dizziness, delirious, dazzling fun, frolic and amusement. You'll want to be there; the children will want to be there; grandpa and grandma will want to be there, and most everybody is going to be here.

HE TRAVELED ALL OVER THE WORLD

But Tanlac Helped Him More Than Treatments Here, In Europe and In South America.

"I have been treated for indigestion in France, Italy, Switzerland, North and South America and in fact all over the world, but Tanlac is the only thing I have ever found to do me much good," said H. L. Finniger, watch maker for Nathan Dohrmann & Co., San Francisco, Calif., living at 36 Plato St.

"Always after eating," continued Mr. Finniger, "I would have such cramps in my stomach that I could hardly stand it. I had fallen off until I weighed only ninety-eight pounds and was so nervous the least little thing would upset me. I could sleep but little and get up in the mornings feeling all fagged out. My strength and energy left me and I felt like I would have to give up entirely. Besides taking everything in the way of treatments and medicines I tried dieting and the rest cure, but never got more than a little passing relief.

The way Tanlac brought me out is marvelous. I can eat anything now without any trouble afterwards, I have gained twenty pounds and my nerves are as steady as a clock. I sleep fine every night and get up in the mornings ready for a good breakfast and a full day's work, and am enjoying better health than I have in years."

Tanlac is sold in Brady by Trigg Drug Store, in Mercury by J. T. Matlock and in Rochelle by C. W. Carr.

LOCAL BRIEFS.

Relatives here have received news of the arrival of a fine 9½ pound girl at the home of Mr. and Mrs. Elmer Gould at Stamford, Texas. Mother and babe reported doing nicely.

V. D. C. Middleton was a business visitor in Brady last Friday, and reported that he and his family had moved from the Stacy community to Melvin, where the children will attend the public schools.

T. E. Davis has returned from a business visit to Goldthwaite, Brownwood and other points, and reports the McCulloch county section as promising the best crop of all the sections visited.

Carl Thornbloom and two boys have been over from San Saba for a visit with relatives and friends. Carl has been at San Saba the past couple years, employed in the Arhelger garage, and says he is kept mighty busy all the time.

Harl Meers has gone to Fort Worth where he has accepted a position with the Oil Well Supply Co., and he expects to learn the supply business from the ground up. Harl is a thorough-going, conscientious and industrious worker, and is certain to make good in his new line of work.

L. D. Wood and son, P. L. were business visitors here from Pasche yesterday. The younger Mr. Wood operates the Embry-Wood gin at that place, and reports having just begun the new season by ginning their first bale. In addition to operating the gin, Mr. Wood is pastor in charge of the Welview and Live Oak Baptist churches.

Dr. H. W. Lindley, who returned the past week from New York City, where he had been spending some two months taking special courses in dentistry at Columbia university, reports a most enjoyable and interesting stay in the great metropolis. In addition to receiving down-to-the-minute instructions in ex-ray examinations, oral surgery and other latest and most approved methods of the profession, Dr. Lindley found occasion to make some interesting visits in that section, among others being a trip to Niagara Falls, and a visit over in Canada. Returning home, he stopped at Boston to attend the meeting of the National Dental association, at which were assembled dentists from all over the U. S. The most remarkable of all his experiences however, occurred on the Frisco near Dublin, while homeward bound from Fort Worth. Here the two sleepers left the track, and one turned over on its side throwing the occupants helter-skelter. Dr. Lindley was pitched from his berth, but fortunately escaped injury. The occupants of the pullmans were loaded aboard the day coaches, which they found crowded to capacity, necessitating their standing up throughout the remainder of the night until the train reached Brownwood. The doctor states Mrs. Lindley and daughter will continue their visit with relatives in New York for a couple months yet.

MISS IDA TAYLOR AND CREW OF MISSIONARIES REACH CHINA SAFELY

Word received by the Rev. and Mrs. J. H. Taylor announces the safe arrival in China of the crew of missionaries, among whom was their daughter, Miss Ida Taylor. The ship carrying the missionaries—some 71 in number—sailed from Vancouver Island, and reached Shanghai, China, eighteen days later, the trip being the shortest ever made by Miss Taylor. Remarkable as it may seem, out of the entire number not a single one developed any illness during the trip, and all landed in China in good health and spirits.

Miss Taylor has been spending the past year in the United States as a guest of her parents, and relatives and friends, and incidentally to attend a school for missionaries. Her visit here followed a seven years' service among the Chinese as missionary.

Good Minstrel Show Coming.

The old and reliable Virginia Minstrel show will appear under canvas one night only. This is now without doubt the largest and best of all real negro minstrels. Best of singing, dancing, comedy of a refined kind. High class vaudeville such as wire-walker, hooproller, juggling, contortionist, fireater and many feature acts, making this the show that is different because it's better than the rest, and will surely please all who attend. Watch for Band Parade at noon and hear the concert at night. Remember one night only. Brady, Friday, Sept. 17.

Birthday Celebration.

W. R. Pence was 78 years young on Monday, September 13th, and something over 200 friends, old and young, gathered from all parts of the county to help him fittingly celebrate the passing of another milestone in his life, and all who attended were unanimous in the opinion that this occasion was one of the most enjoyable of all celebrations held by Mr. Pence in the past number of years.

In order to better enable all to be present, the celebration was held on last Saturday night at the beautiful country home of Mr. Pence's son-in-law, Kid Jeffers, on the Brownwood road. The spacious lawn, brilliantly illuminated by Willys-Light, furnished through courtesy of Ricks & Murphy, local agents, presented a most attractive scene, with its throngs of happy guests. Stretching across the lawn was the dinner table, something like 200 ft. in length, and upon this was assembled the choicest of viands, including salads of every kind and description, bread, tomatoes, pickles and pies and cakes galore, with ice tea, coffee and other drinks alongside. The piece de resistance of the dinner, however, was the delicious veal, barbecued to a turn under the expert supervision of Kid Jeffers, who performed this duty so well that the barbecue all but melted in one's mouth. In raising the calf, Mr. Jeffers had in view the birthday celebration, and accordingly for several months it had been fed grain, with the result that at 8 months of age it was one of the most perfect specimens of baby beef in this section, and tipped the beam at 632½ pounds.

Inasmuch as this was not only Mr. Pence's 78th birthday, but also the 44th wedding anniversary of Mr. and Mrs. Pence, the honors were divided between the happy couple, and both were showered with congratulations and best wishes.

Following the dinner, which was enjoyed to the fullest extent by all present, Dr. J. B. Granville called the assemblage to attention, and introduced Mr. Jas. T. Mann as the speaker of the evening. Mr. Mann in a speech ringing with feeling and deep sincerity, congratulated Mr. and Mrs. Pence upon the happy occasion, and conveyed to them the good wishes of all their friends and hearty appreciation of their hospitality. Mr. Mann called attention to the fact that to the seven living children and to the 29 grandchildren, as well as to all the many friends, the lives of the host and hostess had been a benediction, and that all were glad to assemble and pay homage to this wonderful man and his charming life's companion.

As a fitting remembrance of the joyous occasion, and in token of the high esteem in which he is held by all, a purse was made up among the guests, and Monday, day of his birth, Mr. Pence was presented with a beautiful, leather-upholstered rocking chair. Mr. Pence was quite overcome by this unexpected token of esteem, and in manner as much as in words, expressed to the donors his deep and lasting appreciation of their thoughtfulness.

Kindergarten Helps for Parents

This is No. 55 of a series of articles issued by the National Kindergarten Association. They will appear weekly in these columns.

By MISS HARRIET FRANCES CARPENTER.

It was suggested to a charming mother that the companionship of other children would help to prevent selfishness in her only son. "Oh," she said, "I won't allow him to become selfish, that I will prevent above everything else!" A few days later this boy was asked to give up the front seat in the automobile to a little cousin who was visiting him. With a look of sullen determination he refused. Tears filled the eyes of the other little fellow, who stood waiting in the road, but when the mother started the car, as if to leave him, he jumped in, glad to take the back seat rather than have no ride at all. This was good training for him, but what of the first boy, sitting in selfish enjoyment of the prized place? His mother's naturally kind heart caused her to question what she had done.

"I must see that he takes the back seat sometimes," she said under her breath, with a serious look. But the time to give him power over himself was then. She had let the opportunity pass, and with each postponement the struggle for unselfish surrender would become more difficult.

"I want my child to love me," protested a father, refusing to check wrong-doing in his son. And later, when the test of love came the child failed because of a weak, selfish will.

A mother, feeling the necessity of teaching her child to take care of his toys, was very severe when she found that a playmate had broken some of them. "You should not have allowed him to play with your toys!" she said reprovingly, not realizing that she was missing a splendid opportunity to encourage the love that forgives freely, and could have emphasized care of toys at some other time.

Could such an attitude be adhered to without marring a child's character? If it had been the other child's mother who had acted in such a manner would she not have been considered unkind? And if a great many mothers were like that would it be well for the social whole?

These and many other questions a mother must ponder. Some things children do she must forbid altogether, as unproductive of good; other activities she will permit because of their value as steps in growth even though they annoy her. Yet she should not permit them simply because the child likes to do them. "Because little boys like to act like monkeys is no reason that they should act

like monkeys; monkeys are only beasts; they are boys," remarked Kingsley.

The wise mother carefully eliminates the coarse and debasing in pictures, choosing to set before her child ideals commensurate with the serious matter of living. An unwise mother gave her children a book illustrated with grotesque caricatures of a little colored boy. She also told them the story which was offensive to good taste.

"They like it," was her comment. "I wouldn't be without it for anything! Whenever they misbehave I can always control them with this book."

"I control my children with pictures of civility," said another mother. "They like them better than anything else; and no matter how restless they may be they soon become manageable trying to be knights."

It has been pointed out by Froebel in his Mother Play Book that children grow along lines that are made attractive to them. The first mother was encouraging buffoonery and ridicule; the second self-control and thoughtfulness for others. The first had failed to rise, as did the second, to spiritual motherhood; for the device of the moment satisfied her, simply because it was an easy form of entertainment. What we imitate we learn to like is an axiom in the kindergarten. This is why Froebel's suggestion of mother-plays is so valuable and why kindergartners study so seriously the play of children and also why play-ground leaders are being introduced into our best schools.
