DAY-DALEY ASSN. DRILL WELL NO. 5 IMMEDIATELY

Cleaning out of Well No. 4 on the Hall-Dutton tract is progressing nicely and should be completed within the next week. The well is showing up stronger as cleaning out proceeds and after being allowed to stand a few days following the cleaning, is to be given a thorough test. The spudding in of Well No. 5 is to be begun immediately following the finishing of operations on No. 4, by the Day-Daley Petroleum association. The location for the new well has not yet been announced.

A party of Chicago capitalists, who were here the past week, visited both the Day and the White fields, and made a thorough and careful inspection of the progress made in both fields. Included in the party were M. E. Daley, F. H. Hinckley, C. B. Gibbs and J. H. A. Schroeder, all of whom are stockholders in the Day-Daley Petroleum association, and of which Mr. Daley is vice-president. They were accompanied on their tour of the local oil fields by Thad O. Day, president and field manager of the company. Mr. Hinckley was for 25 years a railroad engineer, and now is one of the officials in the Railway trainmen's union on the Illinois Central, an organization having over 3500 members. Mr. Hinckley, as well as the other Chicagoans, was greatly impressed by the sights in the local fields, and especially were they interested in the flowing of Well No. 2. They returned to Chicago the latter part of last week well pleased with the steady development being made in the

JAS. E. FERGUSON, CANDIDATE FOR PRESIDENT. TO SPEAK HERE FRIDAY

Jas. E. Ferguson of Temple, former Governor of Texas, and now candidate for President on the American Party ticket, is announced to speak in Brady on next Friday, October 22nd, at the court house. This will be Mr. Ferguson's first visit to Brady, and a general invitation is extended all citizens of McCulloch and surrounding territory to hear him. The speaking will be had at the court house.

Peter Koch and son, William, were here this week from Peoria, Ill., investigating local oil operations. Mr. Koch is interested in the Willbarger field, and also the northwest extension of the Breckenridge field. He was greatly interested in the intense development here, and anticipates making extensive investment in McCulloch county oil properties.

"Uncle Jack" Beasley came up from Mercury yesterday as a witness in county court. He reports the greatest activity in the Mercury shallow field and says development is coming mighty fast, and that the whole Mercury section is to be tested out. The gas well on the White ranch is one of the most important discoveries, and gives oil men every reason to believe there is a great pool of oil and gas underlying the Mercury section. One of the most recent developments is the placing of a rig on the Roy Cawyer tract, two miles south and a little east of Mercury. Equipment is now being hauled out to this location, and drilling is to be in progress within the next few days. The promoters of this well have contracted the drilling of five wells on this tract.

CORRECTING ERRORS IN ANNOUNCEMENT OF PREMIUM AWARDS AT EXHIBIT

In publishing the list of premium awards at the McCulloch County Co-Operative Exhibit, it appears that a number of errors and omissions were made. The Standard will be glad to publish a corrected report on such errors or omissions, when attention is called to the matter.

In the list, as published, J. A. Carlson was reported among the winners; this should have been J. E. Carlson. Mr. Carlson won first premiums on a Jersey cow and a Jersey bull, and 2nd and 3rd premiums on draft mares.

In the Textile department, Mrs. J. L. Jordan's name was omitted from the list of winners, as was also that of Miss Vivian Jordan. Mrs. Jordan captured 1st premium over all for crocheted counterpane, and Miss Jordan received second prize for counterpanes in the Brady exhibit.

FAVORS CONCENTRATION OF ALL WHISKY IN ONE GOVERNMENT WAREHOUSE

Washington, Oct. 14.—The purchase of millions of gallons of intoxicating liquors now held in storage, and concentration of the supply in one warehouse, is advocated by Representative Thomas L. Blanton of Texas, in letters today addressed to members of Congress. Following this he suggests that the liquors be destroyed as beverages and converted into fuel which could be sold commercially.

The liquor is being held in 376 warehouses which the government is guarding, but by gathering it under one roof he believes the cost, as well as the chance for leakage and stealage can be reduced.

600 COTTON PICKERS BRO'T IN SUNDAY FROM TEMPLE

Credit J. D. Blackburn of Brady and John Thomas of Eden with swelling the population of McCulloch and the McCulloch country by nearly six hundred Sunday. The new arrivals were cotton pickers, and included 503 negroes and 82 Mexicans. The bunch was rounded up in Temple and brought to Brady aboard a special train, only three white men, including Mr. Blackburn and Mr. Thomas, being allowed to travel with them. Those who did not get off the train at Brady went on to Eden in charge of Mr. Thomas.

Mr. Blackburn says that he started east last week looking for pickers, and when he got to Temple he found a couple thousand there ready to start out west. He shouted out that the McCulloch country had the best cotton and was paying the best price for picking; that the train was ready to go, and all who wanted to come to the McCulloch country should climb on board. A near-stampede resulted. "You couldn't keep them off that train," said Mr. Blackburn. Extra coaches were brought up, and the train was made up of six coaches, with the aisle packed and jammed full of passengers obliged to stand.

McCulloch county cotton fields are white with cotton. Conrad Johnson Saturday reported that he estimated he had something like 100 bales open in his field, and everywhere throughout this section similar conditions prevail.

SISTER TO SALOME

5-REEL DRAMA

An astounding drama of a woman's dual existence. The greatest mystery play of the year. A romance in which the final climax is a stunning surprise to the most far-seeing; one of the greatest pictures ever shown on the screen—with the noted Gladys Brockwell as the star. It is a stirring romance that will keep you guessing until the final scene. Don't miss it.

THE AVALANCE

5-REEL DRAMA

The story: Chichita, Spanish dancer in her father's inn, marries an English gambler, travels with him for five years, bears him a child, then puts the latter in a convent when her husband suicides. Helene, the girl, grows to womanhood, marries Price Ryler, English novelist and meets her mother, now married to Nick Delano, a gambler. Over the gambling table, Helen loses heavily and Delano threatens to expose her to her husband when her mother interferes. Ryler learns of his wife's gaming tendencies and when he can no longer be concealed Chichita straightens matters out to the satisfaction of all without acquainting them of her identity and leaves them in happiness.

THE LAW OF MEN

5-REEL DRAMA

She was only a struggling little artist in Greenwich village, trying to sell her first piece of work. So when Keene, frivolous architect, and man-about-town, made her a glittering offer—she fell in his trap. In escaping she moulded the lives of three men as she moulded her status of clay. See its pet-falls and traps for the unsuspecting and broken. A girl artist's desperate fight to escape a trap—a sensational murder trial and a dramatic confession—the wedding that was interrupted by the police in the artist's quarters and many other scenes. It's a picture you'd be sorry to have missed.

5-REEL COMEDY DRAMA

The story: Daphne Saxon, against the wishes of an aunt who has a rival ambition, keeps company with a married man. Gossip abounds and not until Daphne is placed in a compromising position does she awake to the situation. Immediately she plans to return to her father, whom she has not seen for years. Fate places her on the same train as the man with whom she desires to evade. A reporter from a scandal sheet, Patrick Darrels, follows, and in Washington finds them together. But Patrick falls in love and refuses to send in the story; instead he remains in the little town where Daphne's father runs a paper and together with her, helps run the paper.

BRADY, TEXAS, Oct. 19, 1920.

HONEST INJUN.

If you cherish any doubts as to the success of the McCulloch County Co-Operative Exhibit after reading The Standard's reports on the affair, then read what our neighbor, Ballinger, has to say, and be convinced.

THEY DIDN'T NEED TO ADVERTISE.

Under the above caption an advertising agency recalls the disappearance of Pearlina from the market, and the reason for its eclipse, and then points the moral of the story as follows:

"Do you remember Pyle's Pearlina? Once it was the most popular washing powder in America.

"In 1907 Pyle's Pearlina ceased advertising. They did not have to advertise. Pearlina was a good product and everybody knew about it.

"In 1914 the Proctor & Gamble Company bought Pyle's Pearlina at their own price to save it from bankruptcy.

"In seven years the public forgot Pearlina. You have got to do more than make a good product. You must tell your dealer and consumer and keep on telling them the advantages of your article.

"If people did not die, if people did not move, if new generations did not grow up, if customs and habits did not change, if competitors did not compete, if people were not open to suggestion, and receptive to new ideas, then there would be no need of advertising.

"But until then advertising is the safeguard for the established product, the most certain hope for the new idea."—Advertising Age.

PAPER WILL BE LAST.

Press reports tell us that prices are beginning to come down, and some small evidences of the good news can be found in a few lines of merchandise in the local markets. Flivvers are selling for less, sugar has taken a tumble, it is said that clothing and shoes will be cheaper.

But the thing in which the publisher is more interested is paper, and those who claim to, and should know, say that will be one of the last commodities to drop. The reason they give is shortage of world supply. The usual supply carried by the mills has not been in evidence for the past two years at least. In place of a surplus from which to fill orders the mills are from three months to a year behind on orders. There are practically no stocks in the hands of the jobbers. Houses that under normal conditions would be carrying heavy stock have practically nothing on their shelves at the present time, and for months have been using every shipment they could get to fill back orders. In the same way the stocks in the hands of the printers of the country are depleted. In the big printing establishments in place of going to the stock room for paper when the press is ready to run they are holding presses waiting for the stock to come in.

And the wise ones say that even with a decreased demand, should that decreased demand come, it will be several months, possibly more than a year, before the mills can catch up and again give us a normal condition in the paper market. Until that time, they say, we cannot hope for any appreciable decrease in the price of paper.

COTTON FIRES.

The disastrous compress fire at Cameron, of undetermined if not of incendiary origin, may have no connection at all with other serious gin and compress fires over the south; but in view of recent warnings in various sections that such fires would follow if activity was not brought to a halt in an effort to boost the price of cotton, the average individual will be loath to accept the belief that the Milam county blaze was just another of those mysterious but preventable conflagrations.

The Telegram does not like to think there is anybody in central Texas who is foolish enough to believe that by burning up all the cotton in this section or in the south, the price of the staple could be increased to a profit-

able bulge; but that there are a few such ignorant and misinformed people in southern states is reflected in Associated Press accounts of the operations of night riders and the veiled threats of terrorists who have lately been trying to stop the gins in several localities.

These men should be both pitied and punished; pitied for ignorantly believing that they are helping their own cause along, and punished for perpetrating crimes against those who are least responsible for the decrease in the price of cotton.

But if they cannot be pitied then they must be apprehended and punished, for they constitute a menace to society and a danger in every community where they operate. Any man who would burn up other people's property in order to enhance the value of his own would become a murderous highwayman if it were not for his own cowardice. The sad part about it, however, is that when a serious fire is perpetrated some individual loses disastrously, and not a soul in the world profits.

The Telegram cannot believe that the Cameron fire has any direct connection with this sort of activity, but other sections of the state are menaced by these misinformed terrorists and it is well that each and every section should be on guard against the possibility of the visit and activity of such anarchists. There must be a group of leaders back of these warnings, and those leaders—wherever they are—should be apprehended. That task might be well performed by nabbing some of their dupes who have been instructed to touch a match to a gin or compress.

Everybody, of course, is dissatisfied when the farmer cannot get a fair price for his product; but it is insulting to accuse the average intelligent farmer of even condoning arson anywhere. Besides, he knows that if all the cotton in Texas were burned up tonight he would not profit therefrom, but would lose.—Temple Telegram.

SOCIETY GOSSIP.

The Democrat-Voice has received the following society item from Brady:

"Wm. Broad and three other conspirators rendered a male quartette as an introductory to Benham's style show which was one of the main attractions at the McCulloch County Fair held at Brady. Mr. Broad, with the touching pathos of his expensively manufactured voice swept the vast audience that crowded every available space in the magnificent auditorium and as one soul they greeted him with the applause and encore that is always accorded him when he appears before the public."—Coleman Democrat-Voice.

The social event was a grand success, even though "Bill" Broad was the goat (one of them). The quartette may not have known the ABC's of music and harmony, but they knew the B-A-A's of the sheep range to perfection.

FOR TORPID LIVER

Tennessee Lumberman Talks of His Successful Use of Black-Draught for Colds and Headaches.

Jamestown, Tenn.—"I have used Theford's Black-Draught for years. In fact it is the only liver medicine that does me any good," says Mr. L. A. Ragan, a well-known lumberman of this place. "When I was single, I used it for headaches, and especially if I got a cold and feel feverish, I take a good dose of Black-Draught, and it sets me right."

"Since I have been married, I have used it in my family, and never have found its equal for torpid liver or disarranged stomach, especially with children. I can recommend Black-Draught, and gladly do so."

Every member of the family occasionally needs the assistance that Black-Draught can give, in helping to cleanse the system and relieve or prevent the troubles that come from a lazy, torpid liver.

If your liver is not doing its duty, you may suffer with headache, constipation, biliousness, indigestion, etc. Unless relief is obtained, serious sickness may result. In its long and successful use, Theford's Black-Draught has been found in thousands of cases to relieve such disorders, by stimulating the liver to do its important work. Ask for Theford's Black-Draught, and insist on the genuine. NC-127

A Matter of Drill. "So our dentist friend has purchased a mining prospect?" "Yes."

"Well, he ought to wix out. That fellow can hit a pay streak with the least drilling of anybody I know."

SAYS BRADY FAIR GRAND SUCCESS

(From Ballinger Banner-Ledger)

Farm Agent Eaton is at home from Brady where he attended the Community Fair at that place and acted as one of the judges in the agricultural and stock exhibits. Mr. Eaton came home booming over with enthusiasm at the way the Brady people put over their fair. "It was a great success, and an inexpensive proposition," said Mr. Eaton. Going somewhat into detail about the way the Brady people put over the fair, Mr. Eaton said that it was made a community affair and brought the various communities of the county together in competing for prizes in the various lines of exhibits. The schools of the county took a great interest and competed in the school contests. Mr. Eaton stated that the exhibits were arranged in a large double building, formerly used for a store, and the livestock exhibits were held at the wagon yards, and thus it was not necessary for the citizens to go to any great expense in providing a place. For entertainment, a rabbit race was given on the square. The people formed around the square and the rabbits were released with the dogs ready for the chase. Another number on the program which attracted a large crowd was a boxing match on the square. A regular ring was constructed, and first two negroes were put up. One of the negroes hit the mat in the second round. A couple of young men from neighboring communities put on the gloves and gave a ten-round bout which was filled with thrills and proved very entertaining for the large crowd. The livestock and agricultural exhibits were fine, according to Mr. Eaton. A pig sale was held, and Mr. Eaton purchased a half dozen pigs—thoroughbreds, for his boys pig clubs in this county. Mr. Eaton says that all gambling and grafts were outlawed and given to understand to begin with that they would not be tolerated. The various skin-games which go with carnivals and are usually found at county fairs, were conspicuous by their absence, according to Mr. Eaton. The crowd came from every nook of the county, and Mr. Eaton says Ballinger should by all means begin now to stage a big fair for this county next year.

PERSONAL MENTION

Thad O. Day was called to Tulsa on important business Saturday night.

B. Simpson was among the attendants at the State Fair in Dallas the past week.

C. H. Vincent returned this morning from Dallas, where he attended the State Fair.

August Evers is here from Llano for a visit with his son, H. P. C. Evers, and family.

Mrs. W. K. Gay and daughters, Misses Jim and Lula, returned Monday from a visit in Austin.

Fred Walter and daughters, Misses Loys, Leola and Jessie May, returned yesterday to their home at Houston after a visit of a few days with relatives here.

Mrs. J. P. Baze and daughter, Mrs. J. B. Kidd, of Camp San Saba left Saturday enroute to Chickasha, Okla., where they will visit her son, Dr. Robt. Baze, and family.

Mrs. J. G. McCall and daughter, Miss Marjorie, Mrs. Sam McCollum, Misses Erin Yantis and Frances Samuel left Monday night for Fort Worth to be there to hear Caruso, celebrated tenor, Tuesday. They will also visit the Dallas Fair before returning home.

Mrs. C. H. Arnspiger returned Sunday afternoon from San Marcos, where she visited for a few days with her parents, and where she also had the pleasure of seeing an aunt visiting there from Memphis, Tenn., and whom she had not seen since she was a child.

Powerful Sick. In the bright sunlight of a railway station in Georgia slept a colored brother. He snored gently, with his mouth ajar and his long, moist tongue resting on his chest like a pink plush necktie. A northerner climbed off a train to stretch his legs, unscrewed the top of a capsule and, advancing on tiptoe, dusted the grains of quinine on the surface of the darkey's tongue. Presently the negro sucked his tongue back inside his mouth and instantly he arose with a start and looked about him wildly.

"Mistah," he said to the joker, "is you a doctah?"

"Nope."

"Well, then kin you tell me whar I kin fin' a doctah?"

"What do you want with a doctah?"

"Ise sick."

"How sick?"

"Powerful sick."

"Do you know what's the matter with you?"

"Suttin'ly I knows wuts de mattah with me—mah gall's done busted."

"Yes."

"Well, he ought to wix out. That fellow can hit a pay streak with the least drilling of anybody I know."

WOULD GLADLY GO 100 MILES FOR IT

That Is What Mrs. Burns Says After Taking Tanlac—Gains Nine Pounds.

"I had to go sixteen miles to get my first bottle of Tanlac, but after the way it helped me I would gladly go a hundred miles rather than be without it," said Mrs. George M. Burns, of 1900 Spruce avenue, Kansas City, Mo.

"For six months I had stomach trouble and indigestion so bad that what I ate gave me no strength at all, continued Mrs. Burns. "I had no appetite whatever and was so nervous even the barking of a dog would completely upset me. My kidneys gave me a lot of trouble and I suffered dreadfully with pains in my back; I couldn't get any relief at all and finally I got so weak and run-down I couldn't do my housework."

"A friend advised me to take Tanlac and I had to go all the way from Chataqua, Kan., where I was then living, to Sedan to get it. But that was surely a profitable trip, for the Tanlac helped me right from the start. My appetite picked up and I can now eat anything I want and it does me good, too, for I have already gained nine pounds, am strong enough to do all my housework and am getting stronger every day. My nerves are as steady as can be and I am in better general health than for many years. I have recommended Tanlac to a lot of my friends and very one of them has been benefited by it."

Tanlac is sold in Brady by Trigg Drug Co., in Mercury by J. T. Matlock and in Rochelle by C. W. Carr.

VETERINARY SURGEON COMING TO BRADY.

Dr. Sanderson of Brownwood, Veterinary Surgeon, will be in Brady Friday and Saturday to treat all diseased stock and do any kind of veterinary work. See him at the Dutton barn.

Catarhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system. It will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars Free. All Druggists, Tex. Circulars Free. F. J. CHENEY & Co. Inc. 1500, Q.

RUN IT IN WITH THE CLASSY-FI-ADS

Said G. C. Kirk in giving us some local advertising for his store recently!

Mr. Kirk, and a good many other Brady merchants have come to realize that the Classy-Fi-Ad column is one of the most closely read sections of the paper—and they know that by placing their ads among the Classy-Fi-Ads, they are doubly certain to secure attention of these readers.

Classy-Fi-Ads are the cheapest servants you can hire. They carry your message to the four corners of the county; they work morning, noon and night, and, best of all, their cost is a mere trifle.

For best results use More Often.

The Brady Standard Classy-Fi-Ads

FOR SALE—Classy-Fi-Ad space in The Brady Standard.

The KITCHEN CABINET

One single day is not so much to look upon. There is some way of passing hours of such a limit. We can face a single day; but place too many days before sad eyes—too many days for smothered sighs—And we lose heart. Just at the start. —George Kingle.

SWEET SANDWICHES TO TAKE THE PLACE OF CAKE.

A sweet sandwich is a dainty which may be made in an emergency when small cakes are not at hand, and they are always appropriate to serve with lemonade, tea, cocoa or coffee.

Cinnamon Sandwiches. — Use white or Boston brown bread, unbuttered. Mix three tablespoonsful of granulated sugar with one teaspoonful of cinnamon.

Date and Orange Sandwiches.—Blend one-half cupful of finely-chopped dates with two tablespoonfuls of orange juice; use on buttered whole wheat bread.

Coconut Sandwiches. — Take one cupful of freshly grated coconut, one-quarter cupful of walnuts, chopped, one teaspoonful rosewater, one tablespoonful of powdered sugar; mix well; add three tablespoonfuls of thick cream and spread on buttered white bread.

Honey and Pecan Sandwiches.—Mix four tablespoonfuls of honey with two tablespoonfuls of chopped pecans. Split hot baking powder biscuits and fill with the mixture.

Strawberry Sandwiches.—Take half a cupful of fresh strawberries, cut crosswise into slices, cream one tablespoonful of butter; add three tablespoonfuls of powdered sugar and spread on slices of unbuttered bread. Lay on the sliced strawberries in a single layer and cover with a slice of buttered bread.

Neapolitan Sandwiches. — Grind three tablespoonfuls of pistachio nuts to a paste. Cut fine three tablespoonfuls of preserved cherries; mix with softened fondant or honey to make of the consistency to spread. Spread on buttered white bread.

Nellie Maxwell The KITCHEN CABINET It is easy to find fault, if one has that disposition. There was once a man who, not being able to find any other fault with his coal, complained that there were too many prehistoric toads in it.—Fudd'nhead Wilson's Calendar.

GOOD THINGS FOR THE FAMILY.

An easy pastry and one which may be kept for several days in the ice chest is prepared as follows: Take one cupful of lard and one-half cupful of boiling water, add one teaspoonful of salt and stir until the lard is dissolved, then add three cupfuls of sifted flour, mix well and set away to become cool. This makes the crust for three covered pies and the pastry is delicate and tender.

Cherry Sponge.—Take two cupfuls of canned cherries, two eggs, three-fourths of a cupful of sugar, one-fourth of a cupful of hot water, three-fourths of a cupful of flour, one teaspoonful of lemon juice, two teaspoonfuls of baking powder and one-fourth of a teaspoonful of salt. Beat the yolks of the eggs until thick and lemon colored. Add half the sugar gradually, and beat until smooth. Add the flour mixed and sifted with the baking powder and salt. Add the whites of the eggs beaten stiff and dry. In the bottom of a buttered baking dish put the cherries. Pour the batter over and bake in a moderate oven forty minutes. If the cherries are tart sprinkle them with sugar before covering them with the batter. The sauce from the fruit will be all that is necessary to serve with the pudding.

Scalloped Noodles.—This is a dish which offers a variety of combinations. Prepare the noodles—those made at home are much better than the carton variety. Take veal and chicken broth with gravy and small pieces of the meat, make layer of the noodles, meat and gravy and finish the top with crumbs. Bake in a hot oven long enough to cook the noodles. Serve hot as a luncheon dish. This is called warmain in Chinese restaurants.

Apple Corn Bread.—Mix together four cupfuls of cornmeal, two teaspoonfuls of baking powder, half a teaspoonful of salt, then add two cupfuls of chopped apples, one-fourth of a cupful of shortening, and one and one-fourth cupfuls of water. Bake forty minutes in a slow oven.

DODGE BROS. DEALERS TO GIVE AGE OF USED CARS TO PURCHASERS

"Any man who buys a used Dodge Brothers motor car, if he brings it to us for inspection, can learn definitely when the car was built," said F. R. Wulff, local Dodge dealer. "While we operate a used car market ourselves we will gladly give this information because we feel that a man who owns a Dodge Brothers car is a 'member of the family,' regardless of whether he comes in through the front or back door, and we owe him certain definite courtesies. "Owing to the fact that Dodge Brothers cars are not built in series of models and never have shown any material change in appearance, it is often very difficult to determine just how old the car is. Therefore it is easy to make gross misrepresentation to prospective purchasers. "Dodge Brothers have supplied us with complete records of production, so that we are enabled, through certain numbers on the car, to tell just when it was built. Therefore it is apparent that nobody is ever deceived on this point when he buys from our used car market. It is also our policy to overhaul every car we take in before putting it back on the market. We insist on having used cars in good condition before they are sold. This not only makes satisfied customers, but it tends to maintain the good reputation of Dodge Brothers motor cars."

LOCAL BRIEFS.

While in Brady yesterday, A. J. Beasley ordered The Standard sent a year to his daughter, Mrs. O. W. Cochran, at Moran "Uncle Jack" says when you're away from home, The Standard is "better'n a letter."

The News is informed that the trade between Mr. S. A. McCollum and the New York parties, in which the latter were to purchase the McCollum home place, has fallen through; Mr. McCollum receiving \$1,000 forfeit money.—Mason News.

Congratulations are being extended Mr. and Mrs. Al Wooten upon the arrival of a fine girl, born October 12th. Mother and dad are both mighty proud of the new arrival, and the little lady herself appears quite well pleased with her advent into this big world.

The Standard has had added to its collection another centipede about four inches in length, presented as a gift with the compliments of Fred Orte of Camp San Saba, who found it on Blackburn street near the Rohde market. The Standard's original centipede, which measures 9 1/2 inches in length continues, however, to be the daddy of all we have seen.

A. D. Wright and wife, were over from Brady Thursday and Friday, soaking their hides with good water and replenishing their flesh and strength from the fat of the land of the Garden of Eden. Albert got well charged enroute here and kept going in high, even at the table, the entire time of his stay with us.—Eldorado Success.

The 15-months' old baby of Mr. and Mrs. W. H. Williams, who live on the Kirk Jeffers ranch north of town, was brought to Brady for medical treatment last Saturday evening, the youngster suffering with poison as a result of eating jimson weed seeds, which the parents had stored away for next year. After being treated at the local sanitarium the youngster was pronounced out of danger and is now on the high road to recovery.

Arthur Hall was here from Lohr the past week and reported that he and his family were moving to Rockwood, where he would take charge of the phone system there. The Hall boys have had connection with Rockwood exchange for some years past, but only recently acquired the exchange there. They are gradually improving and extending their lines and are developing an up-to-date system and are giving their patrons good service.

The Standard quite failed to note the visit of Dr. Stork paid to the home of Mr. and Mrs. George Davis on Friday, October 1st, and his having left there a fine, bouncing baby boy. Father George, ever since the advent, has been keeping doubly busy—so much so, he failed to tell us of the happy occasion. But it's never too late, and so we are glad to extend congratulations and best wishes to the proud parents, and trust the young man may grow up to be a joy and a comfort to them both.

The Standard rejoices with our good friend, F. M. Butler in his good crop report, for Mr. Butler claims his crop as the finest in the land. In fact, he says that the parties who have covered all the surrounding counties, and various points of McCulloch county as well, say his crop is the best they have seen anywhere. Mr. Butler has 135 acres in cotton, and says he has gotten over half a bale to the acre going over the cotton for the first time, and that more than a third of a bale still remains on the stalks. On 65 acres of this cotton, there was not a thing on when he plowed it the last time in August. Mr. Butler is of the opinion that when it comes to making stuff, McCulloch county is mighty hard to beat.

Forced Delivery. To those who contribute to the support of humane work and the animals' welfare only under pressure or when concerned by some humanitarian, financial strategist, the attitude of Farmer Applegate's cow applies; "How much milk does that cow give?" asked the summer boarder. "Wal," replied Farmer Applegate, "if you mean voluntary contriboosh-oon, she don't give none. But if you kin get her cornered so she can't kick none to hurt, an able-bodied man kin take away about 'leven quarts a day from her."—Our Dead Animals.

Everyone knows the Silver-town Cord tire is the acme of perfection in auto tires. We carry them in stock for Ford trucks. Simpson & Co.

Kinda blank books. The Brady Standard.

McCULLOCH LAD, RAISES PRIZE-WINNING LAMB

Bill Cummins, former McCulloch county lad, and son of E. I. Cummins, who had charge of the John Hill ranch up to a couple years ago, when he removed to London, Kimble county, has the blue ribbon lamb of Kimble county. The award was made at the first public sale held by the First National Sheep club of Kimble county. The following account of the club meeting and sale is reprinted from the Junction Eagle: On September 18th, thirteen members of the First National Sheep club of Kimble county held their first public sale of bucks under the auspices of the First National bank. Convenient individual pens were erected on main street in front of the First National and early on the morning of the 18th the members of the club began to arrive with their sheep and by the noon hour every pen was full and the boys were anxiously waiting for the hour to arrive when their stock would be judged and the prizes awarded. It was an inspiring sight to see these future ranchmen and sheep owners of Kimble county inspecting the offering and passing judgment on the various pens, each confident that his sheep were "head and shoulders" above any competitor on the ground and that his method of handling and caring for his sheep was far superior to that of any other boy present.

Mr. Robert Real, president of the club was on hand and it was very plain that he had rather be here than most any of the boy exhibitors for Mr. Real is a real sheep man and is absolutely at home when it comes to handling sheep and said he was highly pleased with the grade of sheep produced by these young breeders from the foundation ewes sold them by himself. Mr. Real, Mr. Ernest Burt and Mr. Joe Turner were selected to pin the ribbons on the winners. They selected a fine lamb belonging to Bill Cummins to wear the Blue. Bill was as proud as the sheep and a look at Bill's face would convince you of this fact for Bill was seen to smile for two or three hours and said he believed he had the best sheep before the judges said so. The second was awarded to Mark Stevenson on a fine young buck, which was the only entry Mark had, while the purple went to Alton Fleming on a fine youngster of his raising.

There were 29 head sold, which was the entire offering, for a total of \$787.50 or an average of \$27.15 per head. The top was \$60.00 paid for a lamb raised by Lenard Gibbs and was bought by E. L. Jarvis. The exhibitors were: R. M. Cummins, Mark Stevenson, Alton Fleming, Lenard Gibbs, Ed Cummins, Tom Fleming, Roy Baker, Guss Banowsky, Miles Stewart, Charley Bruce, Everett Roe, Alex Kribbe, Chester Eckert.

Many of these boys realized enough from the sale of their bucks to more than pay for the 6 ewes sold them by the First National bank on June 28th, 1919, and some of them have sold more than twice the original cost of their ewes in wool and bucks and have the original 6 ewes sold them by the bank and from one to five ewe lambs, that are now almost as large as their mothers, left. It was a great day for these boys and many of the club were prevented in various ways from being present, much to the regret of their parents and to the officers of the club.

From the original 300 ewes sold these 50 members of the club at a total cost of \$3,000, there has been approximately \$1760 realized by the members from the sale of wool and bucks from the 300 ewes and they now have 436 ewes and ewe lambs. These boys are among the future ranchmen of Kimble county and the First National bank through its vice president, Oren C. Reid, is responsible for these boys starting in the business of raising better sheep and we predict for this sheep club many interesting and profitable sales from sheep of its own raising in the years to come.

Prizes were given by the First National bank of \$10.00 for the first; \$5.00 second and \$2.50 for the third.

Try a Silvertown Cord Tire on your Ford truck. You get more mileage and more satisfaction than any other make you have ever used. Simpson & Co.

Stylographic Pens. The Standard.

PARENT-TEACHERS CLUB CLEARS \$400 FOR SCHOOLS

Members of the Parent-Teachers association are elated with the success that has attended their efforts to provide funds for various needs of the Brady schools. Out of two events within a period of ten days the association has cleared approximately \$400. This will be applied in equipping the Central school play ground, and also in adding to the high school library.

The first event was the sale of sandwiches and refreshments at the County Exhibit, the privilege for which had been purchased by the association. Out of the sales during the two days of the exhibit, over \$184 were cleared. The sale of a goat, donated to the club by Edd Bryson, added \$39 to the total fund cleared. The Home Talent play staged the past week netted approximately \$183 for the association. The first action of the club is to be taken towards the supplying of playground apparatus for the Central school building—something which this school woefully lacks. It is the intention to devote all the returns from the exhibit stand to this purpose, and whatever additional may be necessary. The balance of the funds, it is very likely, will be devoted to enriching the high school library. This is an especially appealing proposition, since the State Board of Education offers to match every dollar spent for this purpose.

The Parent-Teachers association has been doing a great work in fostering and developing the best interests of the schools, and is growing in strength and ability. They are proving themselves real benefactors and too much praise cannot be given the members for their interest and their unselfish labors.

Would Help Matters.

"Private Blank," said the Colonel severely, reprimanding a doughboy for a minor breach of military regulations, "what would you do if I should tell you that you were to be shot at sunrise?"

"Colonel," replied the Yank, watching a shadow of a grin steal over his officer's face, "I'd sure pray for a cloudy day."

STATE UNIVERSITY EXPERT COMING TO HOLD BABY CONVENTION HERE IN SPRING

One of the gratifying results of the McCulloch County Co-Operative Exhibit has been the widespread interest that has occasioned, and direct benefits already to be seen. One of the most important of these is the announcement coming here next spring of Miss Jeanie Pinkney of Austin, expert Child Welfare work at the State University, to hold a baby show and convention. On account of the recent baby show being held in conjunction with the other exhibits, it was impossible to get any of the state experts to attend and take charge of the show, but the matter aroused their interest to the extent that Miss Pinkney will come here in the spring and the baby show and convention is to be conducted under her supervision.

This assures all who enter their babies in the contest that ample time will be given to the examination and classification of each baby according to the most approved methods and that the records will be kept on regulation forms.

The coming of Miss Pinkney has aroused great interest among the mothers in this section, and the next baby convention promises to be one of the most notable events of the kind ever held in this section.

New shipment INK WELLS. The Brady Standard.

MERCHANTS CARNIVAL AND HOME TALENT PRODUCTION PROVES A GRAND SUCCESS

Another big success was recorded the past week in the Merchants Carnival and Home talent, staged under the auspices of the Parent-Teachers association. The Friday night program repeated the success of the Thursday night program in entertaining features, and, if anything, was accorded an even greater attendance. On both the nights there were many clever presentations, although on the second night the palm was undoubtedly won by Superintendent W. O. Kirchner in his presentation for the Brady Water & Light Co. The Statue of Liberty was personified by Miss Vivian Jordan, her head being crowned with a halo of colored lights, and her right hand bearing aloft the symbolic torch enlightening the world. The stage setting was completed with the demonstration of various electrical devices.

The two nights' entertainment netted over \$183 for the Parent-Teachers club, which sum goes into the fund for the benefit of the Brady schools.

DIG INTERESTS TO BUILD REFINERY IN McCULLOCH CO.

Mercury, Texas, Oct. 17.—A combination of oil interests with large holdings in the northern part of McCulloch County has just completed plans for the building of a refinery for handling the oil output here. Those interested in the plant are G. R. and W. N. White, large McCulloch County land holders, A. W. Cooper and Abner Davis of Fort Worth. The plant will be erected at Mercury.

A pipe line with a system of gathering lines into the field will be built from what is known as the Cooper shallow field, two and a half miles west of here to the refinery. The line will in all probability be a gravity line. The line is to be extended into the field as development expands and justifies.

The refinery is to be built on the unit system and the first unit, construction of which is to start at once, will have a capacity of 100 barrels daily. All material for the plant, as well as all equipment for the pipe line, is now en route to Mercury. According to an official announcement the plant is to be completed and in operation within thirty days.

There are already a number of good shallow wells in the Cooper shallow pool, as well as in the Lohn field in the northwestern part of the county. Abner Davis has acquired two blocks of offset acreage and has two drilling rigs en route to Mercury. The Casa Oil Company also has a large block of acreage and has made locations for wells to be drilled. The oil in this district is found at depths varying from 365 to 400 feet and the wells have a flush production after being given a small shot of nitroglycerin of ten to twenty barrels daily.

A large geological structure is known to exist throughout much of the northern part of the county. Dr. A. D. Lloyd of Fort Worth, who made the geological surveys for the Cooper interests, believes there is a good prospect for deep oil as well as for the shallow sands. The district has also been gone over thoroughly by Dr. E. H. Peterson, former State geologist of California.—Fort Worth Star-Telegram, Monday, Oct. 18, 1920.

Excusing Adam.

"I contend that Adam was without gentlemanly instincts or he never would have put the blame on a woman."

SEVENTEENTH CONGRESS DISTRICT POPULATION SHOWS BIG INCREASE

Figures on the population of the state, announced yesterday, included figures on the populations of all counties and congressional districts. The latter figures will become the basis of consideration for redistricting of the state, which will be determined by Congress and may result in increasing the congressional representation of the state.

In 1848 Texas had two representatives in Congress, while now the state has eighteen. In 1860 representation increased to four, in 1870 to six, in 1880 to eleven, in 1890 to thirteen, in 1900 to sixteen and in 1910 to eighteen. Congress will have to decide on the size of the House of Representatives after the completed census figures are announced for the nation and also the basis of reapportionment. Texas may then have more representatives, or the same number, or possibly even less, though that is hardly likely.

The figures for the seventeenth congressional district, given below, show that the total population of the district as it is now constituted is 314,367. The figures for each county, compared with the 1910 population, are given:

County	Seventeenth District.		Area
	1910	1920	
Brown	22,935	21,682	911
Burnet	10,755	9,499	1,010
Callahan	12,937	11,844	882
Coleman	22,618	18,805	1,302
Comanche	27,186	25,748	828
Concho	6,654	5,587	941
Eastland	23,431	28,505	947
Jones	24,299	22,323	900
Lampasas	9,532	8,806	955
Llano	6,520	5,360	977
McCulloch	13,405	10,559	1,110
Mills	9,694	9,991	604
Nolan	11,999	19,868	828
Palo Pinto	19,506	23,431	971
Runnels	20,858	17,074	1,073
San Saba	11,245	9,957	1,150
Shackelford	4,201	4,960	926
Stephens	7,980	15,303	926

When you are next in our store ask to have the new Brunswick demonstrated—then you'll know what a wonderful machine this is. We invite comparison, because that is where the Brunswick wins. Various models in stock; also Brunswick records. O. D. Mann & Sons.

Maxims of a Modern Maid.
A man's idea of conducting a love affair with smooth diplomacy is to walk over a woman's heart with hobbled shoes, while he whispered, 'Sh! Don't make a noise.'

A woman has begun to grow old when she had rather talk about her aches and illnesses than about the men she knows.

When a man who is spending the day at home can think of nothing else to do, he always discovers that it's time to catch up.

Equip your Ford truck with Silvertown tires, and have the satisfaction of knowing that you are getting the best service that has ever been put into an auto tire.

No Worms
All children tend to be unhealthy, unless they are given as a rule, there is more... GROVE'S TASTELESS... for two or three weeks... improve the digestion... strengthening Tonic to the whole... throw off or dispel the worms... in perfect health. Please...

COMING ATTRACTIONS AT THE LYRIC THEATRE INCLUDE "SKYWAYMAN"

There is an exceptionally good picture program at the Lyric for the coming week. Look up the program on the first page and note the artists who will appear—Gladys Brockwell, Mary Miles Minter, Elsie Ferguson, Enid Bennett, Elaine Hammerstein, Louise Glaum—national favorites, everyone of them.

Then there are some extra special offerings already booked for appearance in the near future, including that great comedy special, "Don't Ever Marry." Marshall Neiland appears in this "mirthquake" and there's a laugh at every turn. Don't fail to see this picture on Tuesday, November 2nd. Then on November 8th, comes that great and spectacular feature—the last fatal picture made by that King of the Air, Omer Locklear. A picture with thrill after thrill—something that the world will never again see duplicated.

Other coming attractions, dates for which will be announced later, include Charles Ray in "Greased Lightning," Pauline Frederick in "Paid in Full," and "Courage of Marge O'Doone," an Alaskan picture that every red-blooded American will want to see.

Lived Happily Ever After.

One of the novelists referring to his hero says:
His countenance fell,
His voice broke,
His heart sank,
His hair rose,
His eyes blazed,
His words burned,
His blood froze.
It appears, however, that he was able to pull himself together and marry the girl in the last chapter.

CHICAGO POLICE CALL PARENTS IN PROBE OF ATTACKS ON GIRLS

Chicago, Oct. 15.—The Cook County grand jury after listening to numerous complaints of attacks upon women and girls decided to begin its investigation into the activities of morons today, calling as witnesses the parents of the young women involved.

"We would like to know why these parents allow their daughters out late at night," said the foreman of the jury, "and we should also like to know why girls are allowed to be out late at night in company of young men not known to their parents and to be in places unknown to them."

Four cases of attacks on girls and women were reported to the police yesterday, two young men were arrested for one instance and two others were held under \$5,000 bond for a case which occurred several days ago.

MOTHERS OF BRADY! Do you know where your daughter is at night? Do you know in whose company she is? Is she with some respectable young man or young folks, or is she in the hands and at the mercy of some libertine?

MOTHERS! Does your daughter come home after church? Or does she go out driving in an automobile with some young fellow you know nothing of?

MOTHERS! Take warning before it is too late. Guard and protect your daughters from all evil influences. Watch them while you can. And, above all, protect them against the dangers of companionship.

Ask your doctor, there are my daughters waiting for you?
—A FATHER.

SHERIFF UNEARTHS EMPTY COFFIN—BIG INSURANCE SWINDLE

Abilene, Oct. 14.—Headed by the sheriff and district attorney of Stone-wall county Wednesday, a searching party opened a grave in a little rural cemetery twelve miles from Aspermont, supposed to contain the body of B. J. Cochran, a farmer, only to find an empty coffin. Over the grave was an imposing monument bearing the name of Cochran and the date of his birth and death.

The search was ordered by the Stone-wall county grand jury as a result of an investigation of circumstances surrounding the alleged death of Cochran on March 9, 1919. He was supposed to have died suddenly and to have been buried by members of his own family who declined the assistance of neighbors.

His widow, who with her five children, has since disappeared, collected \$12,600 in life insurance as a result of the alleged death of her husband.

The New Brunswick—the phonograph without a peer. Beautiful in appearance, wonderfully toned, plays any make of records. O. D. Mann & Sons.

W. W. JORDAN & CO. have prospective buyers for anything you have to sell. List your property with them. Office with McCulloch County Oil Exchange.

The Wonders of the Writing World

—the Eversharp Pencil, always sharp yet never sharpened, and the Tempoint Pen, the pen with the gold point of steel-like hardness and durability.

Each is the accepted leader in its field. They are the world's two greatest writing aids.

WAHL EVERSHARP
The Perfect Pointed Pencil

WAHL TEMPOINT
The Perfect Pointed Pen
(Heretofore known as the Boston Safety Pen)

Pencil carries 18 inches of lead—enough for a quarter million words—and a sure point for every word and every dot.

Pen has the famous Wahl Comb Feed which automatically regulates the flow of ink. Also has an air-tight chamber which absolutely prevents leaking or sweating when carried in the pocket.

Made in both Screw Joint and Self Filling models.

Both Pen and Pencil made in many styles. Pencils, \$1 up; Pens, \$2.50 up.
