McCULLOCH CO. TURKEYS-THANKS-GIVING DINNERS

This year, as usual, McCulloch county turkeys are being shipped to northern and eastern markets where they will grace many a festive board as the piece-de-resistance of the Thanksgiving dinner. The only difference will be that this year there will be many more than ordinarily. The turkey crop is good, and the shipments this year promise to be the biggest ever made from this point.

Mayhew Produce Co. Tuesday evening began slaughtering the national birds, and increasing their killing force as rapidly as hands can be had. They expect to use, at least thirty pickers when the season opens in full blast. Last year they made a splendid record, averaging two cars a week, and shipping a total of ten cars of dressed birds, but this year they anticipate shipping not less than fifteen

cars. According to Ira Mayhew, the birds this year are especially fine, having had good mast and being fat as a consequence. The firm is urging all raisers to hold their lighter birds for later markets, and as a consequence are getting the heavy stuff in now. Before the Christmas holidays, the light birds will have had an opportunity to increase their weight, and will then also command a good market.

The local house is receiving birds from all points in this section, birds being shipped in from San Saba, Mason, Menard, Kimble and Concho counties.

In addition to the birds being slaughtered by the Mayhew Produce Co., other local dealers are making shipments of live birds to market, so that the total shipment of turkeys from this point is certain to set a new record.

REPUBLICAN LANDSLIDE IN TUESDAY'S ELECTION SHOWS INCREASE IN FINAL COUNT

New York, Nov. 3.—The Republican landslide continued to roll along in even greater proportions today as belated election returns came in from the West.

Besides electing Harding, it was assured that the Republicans would increase their margin in both houses of congress, and the senate in particular would change their precarious control by one to substantial working majority.

Congressional returns were slow, as were, indeed, the returns on the vote for President. But on the basis of actual returns at hand and indications from partial returns coming in, it seems that Harding will have not less than 330 votes in the electoral college, with a probability of more than 350, while all that could be counted in the Cox column were the 127 votes from the solid South.

Everywhere the shift toward the Republican column was heavy. Many states which went to the Democratic strength when Wilson defeated Hughes in the senatorial election of 1916, returned to the Republican column in yesterday's balloting.

Boston going Republican for the second time in its history; New York giving Harding an unheard of plurality and ratios of two to one in many states give indications of the proportions of the Republican slide, which apparently left the Democratic candidate nothing but the traditionally solid South.

Pat M. Neff, Democratic candidate for governor of Texas, was elected to that office by a majority of more than 200,000 votes.

Neff is leading John G. Culbertson, his Republican opponent by more than 75,000 votes, with less than one-half of the votes cast in Tuesday's election counted. Temple H. McGregor, candidate on the American party, was running third, but his vote was comparatively light.

The closest contest reported in the state was that in the fourteenth Texas district where Carlos Bee, Democrat, was opposed for a seat in congress by Judge Harry M. Wurzbach, Republican. Practically all doubt as to the election of Wurzbach was removed at noon Wednesday when incomplete returns from over the district indicated that the Republican's majority over his opponent would be in excess of 2,000 votes. Wurzbach is a native of San Antonio, a Spanish-American war veteran, and served two terms as county judge of Guadalupe county.

In Brady the election passed quietly enough. Quite a number of ladies participated in the voting, but in spite of this fact the vote was light, and instead of the anticipated 1,000 or more ballots, only 419 were cast. At that, the Brady vote almost equaled the entire McCulloch county vote cast in

the general election two years ago, at which time there were cast 430 Democratic, 22 Republican and 3 Socialist votes.

The Brady vote complete was as follows:

For Electors—Democratic, 314; Republican, 62; Black and Tan Republican, 1; American Party, 4.

For Congress—Blanton (D), 329; Cowan (A), 7.

For Governor—Neff (D), 325; Culbertson (R), 60; Capers (B & T), 1; McGregor (A), 6; Rhodes (S), 3.

For Comptroller of Public Accounts—Smith (D), 330; Mulkey (R), 50; McCampbell (B&T), 1; Blakeslee (A), 6; Matthews (S), 3.

For State Treasurer—Baker (D), 330; Sparenberg (R), 40.

For Commissioner General Land Office—Robison (D), 330; Kingsberry (R), 39; Boyd (B&T), 1; Riley (A), 6; Scroggins (S), 3.

For Attorney General—Cureton (D), 331; Wharton (R), 59.

For State Supt. Public Instruction—Annie Webb Blanton (D), 332; Lindsay (R), 50; Washington (B&T), 1; Alsop (A), 5; Mrs. Carlton (S), 3.

For Railroad Commissioner—Mayfield (D), 332; Baum (R), 49; Moore (A), 7; Forbes (S), 3.

For Asso. Justice Supreme Court—Pierson (D), 331; Harris (R), 50.

For Asso. Justice, Court Civil Appeals—Brady (D), 335; Jenkins (D), 341 (Two to be elected).

For State Senator—Baugh (D), 338; Fitzgerald (A), 5.

For Representative—Beasley (D), 340; Griffin (A), 6.

The vote on the amendments was as follows:

Increasing Tax Rate Cities — For, 205; Against, 84.

School Amendment — For, 244; Against, 55.

Compensation Amendment — For, 140; Against, 118.

The county candidates on the Democratic ticket had no opposition, and all ran uniformly good races, polling from 350 to 351 votes or receiving the full Democratic strength.

As will be noted from the above returns, the American Party cut but little figure in Brady; however, the six who cast American party ballot, voted that ticket straight.

The Socialists polled but three votes, and one lone Black and Tan Republican endorsed his party from Presidential electors on down through all the state offices. It will be noted that two years ago the Socialists cast three votes in the entire county.

Practically all the returns from the various boxes are in, and are published elsewhere in this issue. Some of these boxes show a gain for the Republicans, Camp San Saba being notable on the list, having cast 18 votes for Democratic electors, 9 for Republican electors and 2 for the American Party electors. Five shows up strong-

est of all the county in American Party support.

PLANTING OF LONGER STAPLE COTTON IS URGED BY BUREAU OF MARKETS

College Station, Nov. 1.—In circular letter to cotton classers and county agents of Texas, L. A. Huff, field supervisor of the bureau of markets, United States department of agriculture, says that the immense amount of short staple cotton grown in many districts, on which money had been advanced by bankers and others, and for which no market can be found, is the direct cause of much of the cramping of the money market in the regions so affected. The result has been "cramping and affecting every line of business and limiting the funds of farmers to an insufficient amount to operate properly," Mr. Huff says.

TO HOLD CONSOLIDATED INSTITUTE HERE DEC. 13-17

Announcement is made by County Superintendent W. M. Deans of the holding of the Annual Consolidated Teachers institute in Brady in December, the dates set being from December 13th to 17th inclusive. It is anticipated that not only will Mason, McCulloch, Menard and San Saba counties join in the holding of the institute, but Concho county is also expected to meet here. The first four have already signified their intention of meeting in Brady, and Concho county will advise within a few days whether she will participate.

Supt. Deans announces one of the strongest programs ever held in connection with a consolidated institute here, having already been assured of the presence during the entire week of Dr. H. T. Musselman, Dr. H. T. Bruce of the University of Texas, and Dr. French W. Thompson of Daniel Baker college, are also on the program.

Your Teeth May be the Cause of That Ailment You Have

It has been proven that bad teeth and gums have caused rheumatism, kidney and heart trouble, and many other ailments, also death.

READ THE FOLLOWING NEWS REPORT ON THE FAMOUS MAYO BROS. SANITARIUM AT ROCHESTER, MINN.:

The Mayo Brothers in Rochester, Minn., now make a complete radio-graphic examination of the teeth of all patients and have a large dental department fully equipped. Their idea is to clean up any bad dental conditions before proceeding to operate upon the patient. This, of course, does not apply to emergency cases, where haste is a matter of life or death.

I have just finished a post graduate course at the Columbia University in New York City on Diagnosis, Radiograph, Oral Surgery, Pyorrhea, etc. This is one of the highest courses in dentistry, and I am thereby enabled to make scientific diagnosis and treatment of your teeth and gums. PEAR VALLEY WHISPERS.

Chuck and Sunday School Sunday—Ervin Shannon Improving.

Pear Valley, Texas, Nov. 2.

Editor Brady Standard:

After an absence of several weeks I will try to send in a few items. Cotton picking is the order of the day here.

The Pear Valley school began this morning with a very good attendance. Mr. Jim Matlock, Misses Ethel Harris and Ruby Thompson are the teachers. We are hoping for a good school and believe we are going to have a good one.

Mrs. W. H. Seymore and little daughter, Maggie May, spent the day with Mrs. Spraggins today.

Miss Maudie Belle Reed of Llano spent Saturday and Sunday in the Valley. She went to Broadmoor Monday morning where she began her school work.

Ervin Shannon who had the misfortune of getting his right leg broken some three weeks ago, is doing nicely at this writing.

Grandpa Vineyard and son, George, went to Van Alstyne Friday, where they were called to the bedside of little Velera Vineyard, who had blood poison in her lip.

There will be church at the Christian church next Sunday and Sunday night. Everybody come.

We have a Sunday school worth coming to so everybody be on hand next Sunday at 10 o'clock, and help keep this good work going.

Ira Ferguson and family of Bandera are visiting relatives here.

Mr. and Mrs. Hubert Watts who have been at Eastland the past three months returned home Friday so as to start the children to school.

Miss Loina Bullock, the primary teacher in the Lohn school spent Saturday and Sunday with home folks.

Mrs. Johnson of Oklahoma is here visiting her sister, Mrs. J. Reed and other relatives.

The party at Mr. Jones' last Tues-

day night was enjoyed by all present.

Mr. and Mrs. Craven Ferguson and Ira Ferguson made a business trip to Doole today.

Word was received here this morning of the death of Velera Vineyard of Van Alstyne. Mr. Vineyard lived several years here, moving from here to Van Alstyne about four years ago. We extend to the loved ones our deepest sympathy.

As news is scarce must ring off for this time.

EAST SWEDEN ECHOES.

School Re-Opens After Closing for Cotton Picking.

Brady, Texas, Nov. 1.

Editor Brady Standard:

After several weeks absence I'll try to send in a few items from our little midst. A good rain fell last Saturday night which is very beneficial to small grain, but as to cotton, clear, dry weather is greatly hoped for.

We are very sorry to report Mrs. R. L. Walsh's baby daughter as being very ill, but hope that it won't be long until she will be fully recovered and again enjoy good health.

Miss Rudell Salter visited Miss Beda Hendrickson last Monday. Mr. and Mrs. O. E. Hurd and son, Leslie, visited at the Franz Johnson home Sunday afternoon.

C. J. Nelin has been reported on the sick list, but is reported better at this writing.

The East Sweden school reopened again Monday morning, having been discontinued for about one month or so, as the children were needed at home to help pick cotton as hands were very scarce.

Miss Adelia Hendrickson spent several days visiting friends at Rochelle. Rev. and Mrs. Otto Martinson were guests at the J. A. Eklund home Sunday afternoon.

Misses Hazel and Lucille Johnson were callers at the John Bridge home Sunday.

Miss Jewel Salter visited at the Oscar C. Johnson home Monday afternoon.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of Deafness are cured by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. 75c.

Tested Eighteen Months to Prove Perfection

TWO years ago a puncture-proof cord tire was unheard of.

Many experts believed the final development in pneumatic tire-making had been reached with the production of a Fabric puncture-proof—the only one, the LEE.

Motorists naturally looked to LEE for a puncture-proof cord.

LEE has succeeded in building such a tire. It has all the economy and resiliency of the best cord tires. It practically eliminates blowouts, tread separation, broken sidewalls and other common tire troubles. And it is positively puncture-proof!

For 18 months this tire was cruelly tested before being offered to the public. It rode as lightly and as smoothly as a cord without the puncture-proof feature. It was as economical on fuel and oil. It was easier on tubes. And—it outlasted cord tires that were not puncture-proof!

Let us demonstrate the economy of the new LEE CORD PUNCTURE-PROOF.

WONDER WORDS.

Can You Tell the Nationality When You See the Name?

Wonder, Ore., Oct. 28.

Editor Brady Standard:

We are having nice weather since the big protracted rain.

I have been wondering how the judges at the county exhibit decided upon the superiority of those nice preserves, sweetpickles, etc? Did they taste of each and every individual's product? If so then I should have liked to be one of the judges! Tho' perhaps I should have had my life insured first, for I might have eaten too much. I feel quite sure one could not judge of the merits of goodies without tasting them, and yet by that method it would do an injustice to the competitors who were at the last to have theirs tasted. For by that time the judges' tasted would be so perverted he would say those he tasted at first were the best, and those at the last were not so good. Yes, "Amos Keeter" I will promise to remember all of ye correspondents who will answer this question. Give me the name of the capitol of the state or country where these three of my neighbors came from: Ole Hanson, Hans Olson and Erick Erickson.

I am slow about collecting those sugar pine cones, as I am depending upon the school children to bring them to me for a candy reward and they don't have much time to go back in the mountains where the large ones grow.

As my letter is getting too long, I will omit that measure (the amendment to our constitution) to be voted upon for the present and send it later. Suffice to say that the people of Oregon have gone buggy on the subject of germs and microbes of supposedly constant dissemination.

"O. I. C. U. R. RIGHT." P. S.—Don't forget about my three neighbors, viz.: Erick Erickson, Hans Olson and Ole Hanson.

ABNER DAVIS AND OTHER OPERATORS BECOME ACTIVE McCULLOCH COUNTY; PIPE LINE, REFINERY FOR MERCURY

Mercury, Nov. 2.—There is quite a bit of activity in the new Cooper shallow field in this place this week.

A. W. Cooper has two wells nearing the sand, to be drilled in a few days.

King Oil Company No. 2 expects to drill in this week.

DeSoto Petroleum company is making good progress in their well.

George Denoon and associates of Springfield, Mass., who probably have the largest gas well in the United States for its depth, 2,000,000 cubic feet at 370 feet, have made a second location and will start a well in a few days.

National Petroleum syndicate of Wichita Falls has purchased acreage from A. W. Cooper and expects to start their well No. 1 next week.

Otto R. Winter, drilling on survey 276, is making good progress, having reached a depth of about 100 feet.

Penway Oil & Gas company of Boston has purchased acreage and will start operations immediately.

W. W. Skinner of Comanche, Texas, has taken over a block of acreage and contracts to drill three wells, operations to start within thirty days.

Hart Drilling company of Dallas has secured acreage and contracted to drill six wells, and have now started

well No. 1.

Charles Davis and associates of Breckenridge have purchased acreage and contracted to drill six wells, operations to start at once.

W. B. Wiggins of Lincoln, Neb., is expected to arrive and start a well on acreage he has secured from A. W. Cooper.

Hawkeye Oil & Refining company of Cedar Rapids, Iowa, has purchased acreage and contracted to drill a number of wells.

Abner Davis, who is under contract to build a refinery at Mercury and who recently purchased 5,000 acres of leases from Cooper, has two rigs on the road and will start an extensive development campaign as soon as machinery arrives.

Attachments to Telephones—And Why We Object to Them

The rules of the telephone company prohibit the use of special devices attached to the telephone or "cut in" on the telephone line.

The general use of such attachments—as, for instance, special mouthpieces, hook-switch locks, patent ear-pieces, receiver holders, special switches and other appliances—would so complicate the upkeep and operation of the telephones in the exchange that uniform and satisfactory service would be impossible.

In the interest of uniform and dependable service for all alike, therefore, we must adopt the policy of ourselves specifying and providing all equipment used on or connected with our lines. We cannot be responsible for the upkeep or operation of telephones or lines to which outside devices, not standard equipment, are attached.

WONDER WORDS.

In Oregon Fires are Needed September to June.
Wonder, Ore., Oct. 17.

Editor Brady Standard:

As I perhaps have said before, there is no use for me to tell you about Nancy Jones, Mary Smith or Dick Brown, for that will not interest your readers who are unacquainted with them. But the Oregon weather is something different. Last week we had a two days' showery weather, then it cleared off and yesterday morning we had our first frost and ice and in less than an hour it was raining again and has kept steadily at it ever since.

I received a letter from Fredonia, written September 28th, stating that was their first norther, but was not cold enough for fire. While here we have been building fires in the living room all through September and up to the present time; and expect to have to keep it up till next May or June. When the mercury goes down to forty it is almost cold enough for ice, and one can enjoy sleeping under two or three heavy quilts and a pair of double blankets.

Wake up ye scribes! Let's hear from you! "Charity" begin at home but do not stay there! and "A Citizen," let us hear from our old stamping grounds as often as possible, consistent with your business activities. I certainly would have enjoyed being at your county exhibition.

P. S.—I asked Art Williams, our young man stage driver to tell me what kind of fruit a newly-married couple reminds you of? He didn't know, so I told him a green pear (a green pair). He said he knew what kind of fruit he likes best. I asked him what kind. He said it was a date with a peach. Did you ever pare a pair of pears?

Next week I may send you one of the Oregon constitutional amendments to be voted on at our next election in November. It may be brought up in your state some time, but I hope not. "O. I. C. U. R. RIGHT."

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

PEAR VALLEY WHISPERS.

Chuck and Sunday School Sunday—Ervin Shannon Improving.

Pear Valley, Texas, Nov. 2.

Editor Brady Standard:

After an absence of several weeks I will try to send in a few items.

Cotton picking is the order of the day here.

The Pear Valley school began this morning with a very good attendance. Mr. Jim Matlock, Misses Ethel Harris and Ruby Thompson are the teachers. We are hoping for a good school and believe we are going to have a good one.

Mrs. W. H. Seymore and little daughter, Maggie May, spent the day with Mrs. Spraggins today.

Miss Maudie Belle Reed of Llano spent Saturday and Sunday in the Valley. She went to Broadmoor Monday morning where she began her school work.

Ervin Shannon who had the misfortune of getting his right leg broken some three weeks ago, is doing nicely at this writing.

Grandpa Vineyard and son, George, went to Van Alstyne Friday, where they were called to the bedside of little Velera Vineyard, who had blood poison in her lip.

There will be church at the Christian church next Sunday and Sunday night. Everybody come.

We have a Sunday school worth coming to so everybody be on hand next Sunday at 10 o'clock, and help keep this good work going.

Ira Ferguson and family of Bandera are visiting relatives here.

Mr. and Mrs. Hubert Watts who have been at Eastland the past three months returned home Friday so as to start the children to school.

Miss Loina Butlock, the primary teacher in the Lohn school spent Saturday and Sunday with home folks.

Mrs. Johnson of Oklahoma is here visiting her sister, Mrs. J. Reed and other relatives.

The party at Mr. Jones' last Tues-

day night was enjoyed by all present.

Mr. and Mrs. Craven Ferguson and Ira Ferguson made a business trip to Doole today.

Word was received here this morning of the death of Velera Vineyard of Van Alstyne. Mr. Vineyard lived several years here, moving from here to Van Alstyne about four years ago. We extend to the loved ones our deepest sympathy.

As news is scarce must ring off for this time.

EAST SWEDEN ECHOES.

School Re-Opens After Closing for Cotton Picking.

Brady, Texas, Nov. 1.

Editor Brady Standard:

After several weeks absence I'll try to send in a few items from our little midst. A good rain fell last Saturday night which is very beneficial to small grain, but as to cotton, clear, dry weather is greatly hoped for.

We are very sorry to report Mrs. R. L. Walsh's baby daughter as being very ill, but hope that it won't be long until she will be fully recovered and again enjoy good health.

Miss Rudell Salter visited Miss Beda Hendrickson last Monday.

Mr. and Mrs. O. E. Hurd and son, Leslie, visited at the Franz Johnson home Sunday afternoon.

C. J. Nelin has been reported on the sick list, but is reported better at this writing.

The East Sweden school reopened again Monday morning, having been discontinued for about one month or so, as the children were needed at home to help pick cotton as hands were very scarce.

Miss Adelia Hendrickson spent several days visiting friends at Rochelle.

Rev. and Mrs. Otto Martinson were guests at the J. A. Eklund home Sunday afternoon.

Misses Hazel and Lucille Johnson were callers at the John Bridge home Sunday.

Miss Jewel Salter visited at the Oscar C. Johnson home Monday afternoon.

Good Rain Falls Friday Night—Personal Notes.

Brady, Texas, Nov. 2.

Editor Brady Standard:

We were visited by a good rain last Friday night.

Mr. Albert Carlson visited at the C. P. Eklund home Sunday afternoon.

Rev. and Mrs. Otto Martinson and family visited Mr. and Mrs. J. A. Eklund Sunday afternoon.

Winston Calley visited the family of his brother, P. C. Calley Sunday.

Misses Rudell Salter and Ruth Hurd visited Misses Ruby and Lucille Johnson Sunday afternoon.

Mr. Harris Carlson visited Messrs. Gus and Arthur Carlson Sunday evening.

Mr. and Mrs. Dan Hurd visited Mr. and Mrs. O. E. Johnson Sunday.

Mr. and Mrs. Ira Williams and little daughter, Annie May, visited Mr. and Mrs. R. E. Williams one day the past week.

Mrs. Ab Salter and daughters, visited Mrs. Eric Nelin last Tuesday afternoon.

Catarhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are cured by Catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. Tel. F. J. CHENEY & CO., Toledo, O.

WONDER WORDS.

Can You Tell the Nationality When You See the Name?

Wonder, Ore., Oct. 28.

Editor Brady Standard:

We are having nice weather since the big protracted rain.

I have been wondering how the judges at the county exhibit decided upon the superiority of those nice preserves, sweetpickles, etc? Did they taste of each and every individual's product? If so then I should have liked to be one of the judges! Tho' perhaps I should have had my life insured first, for I might have eaten too much. I feel quite sure one could not judge of the merits of goodies without tasting them, and yet by that method it would do an injustice to the competitors who were at the last to have theirs tasted, for by that time the judges' tasted would be so perverted he would say those he tasted at first were the best, and those at the last were not so good. Yes, "Amos Keeter" I will promise to remember all of ye correspondents who will answer this question. Give me the name of the capitol of the state or country where these three of my neighbors came from: Ole Hanson, Hans Olson and Erick Erickson.

I am slow about collecting those sugar pine cones, as I am depending upon the school children to bring them to me for a candy reward and they don't have much time to go back in the mountains where the large ones grow.

As my letter is getting too long, I will omit that measure (the amendment to our constitution) to be voted upon for the present and send it later. Suffice to say that the people of Oregon have gone buggy on the subject of germs and microbes of supposedly constiaous dissemination.

Tested Eighteen Months to Prove Perfection

TWO years ago a puncture-proof cord tire was unheard of.

Many experts believed the final development in pneumatic tire-making had been reached with the production of a *Fabric puncture-proof*—the only one, the LEE.

Motorists naturally looked to LEE for a puncture-proof cord.

LEE has succeeded in building such a tire. It has all the *economy and resiliency* of the best cord tires. It practically eliminates blowouts, tread separation, broken sidewalls and other common tire troubles. And it is *positively puncture-proof!*

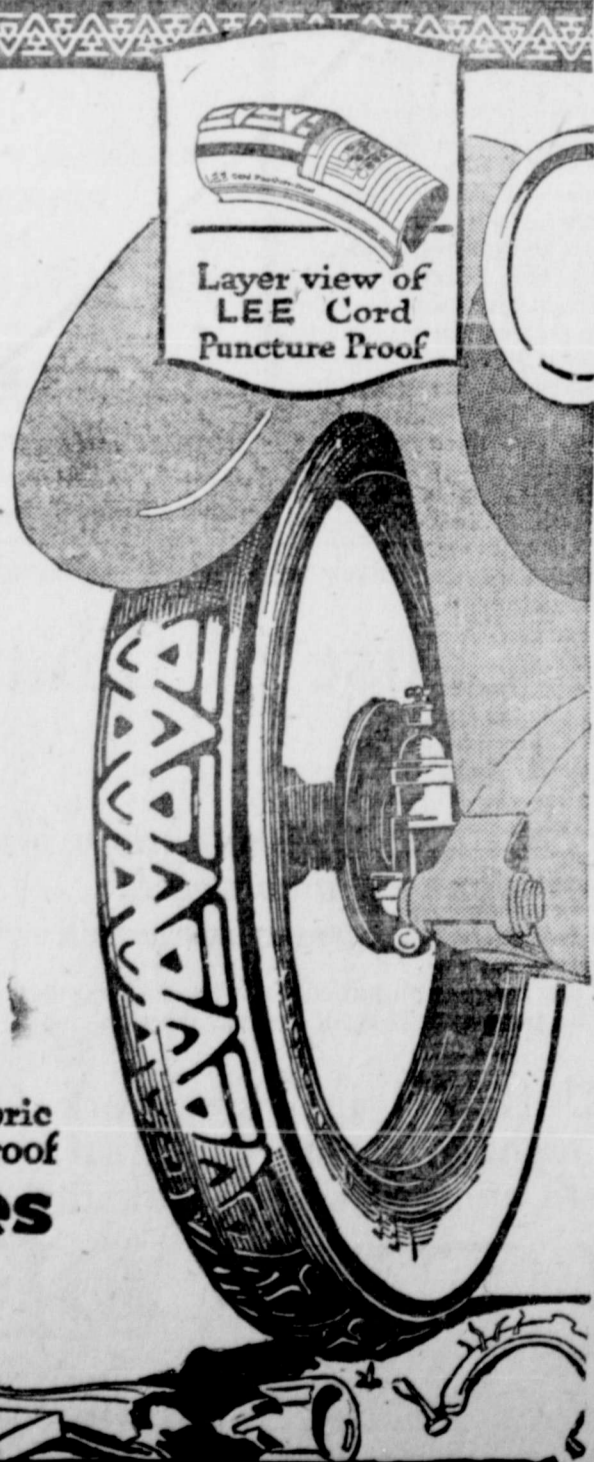

For 18 months this tire was cruelly tested before being offered to the public. It rode as lightly and as smoothly as a cord without the puncture-proof feature. It was as economical on fuel and oil. It was easier on tubes. And—*it outlasted cord tires that were not puncture-proof!*

Let us demonstrate the economy of the new LEE CORD PUNCTURE-PROOF.

ABNER DAVIS AND OTHER OPERATORS BECOME ACTIVE McCULLOCH COUNTY; PIPE LINE, REFINERY FOR MERCURY

Mercury, Nov. 2.—There is quite a bit of activity in the new Cooper shallow field in this place this week.

A. W. Cooper has two wells nearing the sand, to be drilled in a few days.

King Oil Company No. 2 expects to drill in this week.

DeSoto Petroleum company is making good progress in their well.

George Denoon and associates of Springfield, Mass., who probably have the largest gas well in the United States for its depth, 2,000,000 cubic feet at 370 feet, have made a second location and will start a well in a few days.

National Petroleum syndicate of Wichita Falls has purchased acreage from A. W. Cooper and expects to start their well No. 1 next week.

Otto R. Winter, drilling on survey 276, is making good progress, having reached a depth of about 100 feet.

Fenway Oil & Gas company of Boston has purchased acreage and will start operations immediately.

W. W. Skinner of Comanche, Texas, has taken over a block of acreage and contracts to drill three wells, operations to start within thirty days.

Hart Drilling company of Dallas has secured acreage and contracted to drill six wells, and have now started

well No. 1. Charles Davis and associates of Breckenridge have purchased acreage and contracted to drill six wells, operations to start at once.

W. B. Wiggins of Lincoln, Neb., is expected to arrive and start a well on acreage he has secured from A. W. Cooper.

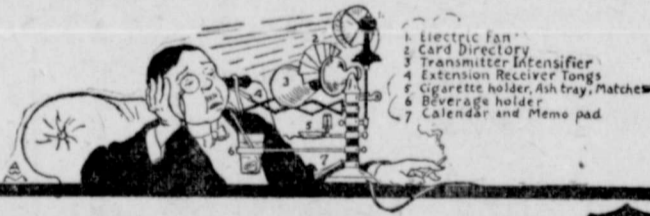

Hawkeye Oil & Refining company of Cedar Rapids, Iowa, has purchased acreage and contracted to drill a number of wells.

Abner Davis, who is under contract to build a refinery at Mercury and who recently purchased 5,000 acres of leases from Cooper, has two rigs on the road and will start an extensive development campaign as soon as machinery arrives.

Attachments to Telephones— And Why We Object to Them

The rules of the telephone company prohibit the use of special devices attached to the telephone or "cut in" on the telephone line.

The general use of such attachments—as, for instance, special mouthpieces, hook-switch locks, patent ear-pieces, receiver holders, special switches and other appliances—would so complicate the upkeep and operation of the telephones in the exchange that uniform and satisfactory service would be impossible.

In the interest of uniform and dependable service for all alike, therefore, we must adopt the policy of ourselves specifying and providing all equipment used on or connected with our lines. We cannot be responsible for the upkeep or operation of telephones or lines to which outside devices, not standard equipment, are attached.

WONDER WORDS.

In Oregon Fires are Needed September to June.

Wonder, Ore., Oct. 17.

Editor Brady Standard:

As I perhaps have said before, there is no use for me to tell you about Nancy Jones, Mary Smith or Dick Brown, for that will not interest your readers who are unacquainted with them. But the Oregon weather is something different. Last week we had a two days' showery weather, then it cleared off and yesterday morning we had our first frost and ice and in less than an hour it was raining again and has kept steadily at it ever since.

I received a letter from Fredonia, written September 28th, stating that was their first norther, but was not cold enough for fire. While here we have been building fires in the living room all through September and up to the present time; and expect to have to keep it up till next May or June. When the mercury goes down to forty it is almost cold enough for ice, and one can enjoy sleeping under two or three heavy quilts and a pair of double blankets.

Wake up ye scribes! Let's hear from you! "Charity" begin at home but do not stay there! and "A Citizen," let us hear from our old stamping grounds as often as possible, consistent with your business activities. I certainly would have enjoyed being at your county exhibition.

P. S.—I asked Art Williams, our young man stage driver to tell me what kind of fruit a newly-married couple reminds you of? He didn't know, so I told him a green pear (a green pair). He said he knew what kind of fruit he likes best. I asked him what kind. He said it was a date with a peach. Did you ever pare a pair of pears?

Next week I may send you one of the Oregon constitutional amendments to be voted on at our next election in November. It may be brought up in your state some time, but I hope not. "O. I. C. U. R. RIGHT."

You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS Chill Tonic has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS Chill Tonic when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

HONEST INJUN.

Harding appears to have successfully ridden the Republican landslide into office.

WOMEN VOTING.

There was a goodly sprinkling of women votes cast in the general election Tuesday in the various voting boxes of McCulloch county—and there would have been more, but for the refusal of election judges to permit women to vote if their poll tax was unpaid. In Harris county, the women were permitted to vote, regardless of whether or no they had a poll tax receipt, the law recently passed by the state legislature assessing a poll tax having been declared unconstitutional by a judge in that county. This ruling was applied only to Harris county, however, and the election judges in other counties of the state were instructed not to permit anyone to vote who had not paid his or her poll tax.

H. Capers, candidate for governor on the black and tan Republican ticket, issued an eleventh-hour statement just before the election in which he declared that every woman in Texas had the right to vote, such privilege being granted her by federal amendment, and that no state possessed the power to abridge this right. Capers' statement was as follows:

"Every woman in Texas has the right to vote without poll tax. The United States government has given the women the right to vote by a constitutional law, which is the supreme law of the United States; no state or city has the right to pass any law contrary to the constitution of the United States. The constitution of Texas also says that a poll tax can not be bought after Jan. 31; therefore a man who will be 21 in February can not buy a poll tax in January; but the courts have ruled that he can vote without any poll tax. Now the women are in identically the same fix; besides the constitution of the United States, and the constitution of Texas, the courts have the last say at all of our laws; and Judge J. D. Harvey of Harris county has very wisely handed down a decree that the women can vote without any poll tax. Let the women go to the polls and demand the right to vote under the constitution of the United States, and under the decision of Judge Harris. The men can not refuse them, but if any election officer should refuse, then let the women ask them to vote in a separate box under protest, and we will see to it that your votes are counted if we have to carry it to the supreme court of the United States."

The point raised is an interesting one. Certain it is, that if the women of Harris county had the right of suffrage, regardless of whether they had, or had not, paid their poll tax, then this right should have been granted the women of Texas in general.

THE ELECTION RETURNS.

"Greatest Political Victory in History of Country, Except 1912," reads a headline in the Brownwood Bulletin. Well, it was to be expected. Had not the late Theodore Roosevelt split the Republican party eight years ago, the Republicans would, in all probability have continued in power up to the present time. With the country normally Republican, such a case was to be anticipated, and only a split in the ranks of the Republicans could have had a tendency to prevent their regaining control of the office of President in the recent election.

There is always a tendency of the people to become dissatisfied with the conduct of the party in power during a period of war or other strenuous period. Had the Republicans been in power during the recent World War, it is very likely that the country would have swung round to the Democratic party in an effort to find surcease from the burdens imposed during war times.

Be that as it may, we are in for four years of Republican administration. All we can do is to forget politics and buckle down to business. America and the United States is going to forge ahead regardless of whether or no our political favorites are at the head of the government.

A good thing to bear in mind is that McCulloch county needs that \$35,000 Federal Road aid on the Puget Sound to the Gulf Highway. And jot this down in your note book, that the time for securing that Federal aid is so limited McCulloch county citizens have not a moment to lose.

FOWL PRACTICES.

Swat the boll weevil next year by raising chickens! A Parker county farmer discovered the pest in his eight-acre patch and moved his chicken roost to the center of it. Result: Twenty-five dozen eggs per week and four bales of cotton. Such is the substance of a press dispatch from Weatherford.—Stephenville Empire.

It has long been known that geese and turkeys, also chickens, are great helps to cotton raisers. A Missouri man has three thousand geese which he rents out to cotton farmers at cotton-chopping time. Wherever crabgrass grows, geese are first-class helpers in keeping it under control. Why should not some smart man in every community keep a great flock of turkeys to be hired out in boll weevil time? Turkeys are better than chickens for this work because they can reach higher. Chickens might do all right in the bumble-bee cotton such as grows in some States, but in Texas, where cotton is tall and kingy, it takes a turkey to pick the bugs off the top branches. But even if the geese and turkeys should fail to save the cotton crop, they would grow fat in the cotton patch. And say what you will, a couple of geese eggs, or a dish of turkey hash, are quite desirable breakfast food. If State Press were a farmer he would never plant more than twelve acres of cotton. On that twelve acres he would raise ten bales, if intensive methods are what they are cracked up to be. And in addition to his ten bales of cotton he would have a flock of geese, a bunch of turkeys and a squad of chickens. Also he would have seven hundred bushels of corn, raised on twenty acres of ground, ten bushels of peas raised with the corn, a thousand bundles of fodder stripped off the corn, six shoats, two calves, one canary bird, nine children, and no dog whatever. As editor and proprietor of such a farm, such a home, such an independence, he would no more think of getting red in the face at thought of Wall street, or of cussing the Government for not affording sugar tests at the Federal Reserve Banks than he would think of approaching Saint Peter with a cigar in his mouth.—State Press in Dallas News.

What the Manufacturers Have to Say About the Prices of

Majestic Ranges

To the right is printed a letter just received from the makers of the

GREAT MAJESTIC RANGE

The price and the Range is right.

WHY MAJESTIC RANGE PRICES CAN NOT BE LOWERED

There are two kinds of prices—honest prices and inflated prices.

Sound reasoning will convince anyone that honest prices on ranges cannot be lowered until material and labor is lowered. Only prices that are inflated (too high) can be lowered today, and leave an honest profit for the manufacturer. Majestic Range prices are honest prices, they have always been based on actual costs of material and labor, plus an honest living profit.

To lower the price of Majestic Ranges today, would be the same as saying our prices WERE inflated, because, material that goes into our range, and labor, is not one cent less than it was when we made our last price—in fact, material is higher right now.

Iron, Steel and Copper, of world-wide demand now, show no indications of a decline.

Skilled workmen who make Majestic Ranges, have never been paid inflated wages, but have always been given honest wages based on costs of honest living. Remember this—the lowering of inflated prices and inflated wages should never be confused with honest prices and honest wages.

Majestic Ranges may seem high—and on the surface they are higher than many other ranges, but in the long, economical service they give, they are THE LOWEST PRICED RANGE ON THE MARKET TODAY.

DALLAS NEWS STAFF REPORTER GIVES McCULLOCH CO. WRITE-UP

VISITS BRADY LAST TUESDAY AND GATHERS DATA ON COUNTY'S RESOURCES AND OPPORTUNITIES—ARTICLE MAKES GOOD READING, EVEN FOR HOME FOLKS.

Robert R. Penn, special staff correspondent of the Dallas News, who spent last Tuesday in Brady, made the most of his visit here and gathered a valuable lot of data on McCulloch county resources and opportunities which furnished the basis of an interesting article published in the Dallas News on last Thursday, October 28th. The following is a reprint of the article from the News:

BRADY, Texas, Oct. 27.—Bumper cotton crops are being gathered by the farmers of McCulloch county, and with the higher prices of cotton in the last few days the spirits of both town and country people are rising steadily. McCulloch county is one of the largest cotton producing counties in Central West Texas and a crop of more than 30,000 bales is expected this year, the average being in excess of half a bale to the acre.

Pests Do Not Bother.
 The boll weevil and the bollworm are almost unknown in this county, and although there is much hilly, rocky land, there are great sections of the county which are unusually fertile, and among the farms of the county are several which run into the thousands of acres. The acreage in cotton, however, is somewhat smaller than last year, because tenants and labor were scarce, and so, though the average yield per acre is higher than ever before, the total cotton production probably will be several thousand bales lower than last year. Many

farmers of the county have already gathered half a bale to the acre on the first picking and are expecting at least a quarter more, while some have reported yields on small tracts of as high as a bale to the acre.

The Staple Is Unusually Good.
 All of this is by no means to say that McCulloch county is exclusively a cotton county. In 1919 the county had one of the largest small grain crops in its history. The heavy rains of last fall and winter prevented the planting of another big grain crop, but corn and the forage crops, particularly milo maize and kaffir corn, have done unusually well this year, and there are great acreages of all three. Winter oats and wheat are now being planted extensively, the rain of the last few days being of great benefit.

Brady also is in the edge of the ranching country—somewhat betwixt and between the big farming section and the cattle and sheep country, and there are many large ranches in the county, both sheep and cattle, and many farms on which stock-raising on

a smaller scale is being developed. With the increasing realization of the need of diversification there has come a heightened interest in live stock and hogs are coming in for a large share of attention. The example of Bartlett farmers in making their town a recognized center for fine hogs is to be emulated here, the farmers and business men plan, and much interest is being shown in hogs of the finest breeds and types.

Big Wool and Mohair Crop.
 The warehouses of Brady now hold more than 250,000 pounds of wool and mohair, held because of the lack of market of these products, and many of the farmers roundabout have lost as a result, but there are not many exclusive sheep and goat raisers in the county. To the south and west, however, there are large sheep and goat ranches and to these the low prices mean considerable losses.

Practically the same situation exists as to hides and furs of all kinds. The warehouses here have immense stocks of hides on hand, with the market now only 6c to 6½c a pound on salted hides as against 40c to 50c at this time last year and 15c to 20c before the war. Brady handles close to 200,000 pounds of hides a year. There also is a large amount of trapping over this section and prices of furs have dropped, too.

One of the "money crops" of the farmers of this section is turkey raising, and the marketing of these birds is just beginning. One concern here alone ships annually from 40,000 to 50,000 dressed turkeys to Boston and New York, besides shipping many carloads of live birds. Other poultry is raised to a considerable extent.

Great as are the farming resources of McCulloch county, there are also mineral resources of considerable importance. There are a number of producing shallow oil wells in the Mercury, Day, Cooper and Lohn fields, in the northern part of the county, development of which is still under way. The deep tests so far drilled in the county have been disappointing.

Coal Is Also Found.
 In the northern part of the county, near the Coleman county line and the Colorado river, there are considerable deposits of a very good grade of coal. These deposits appear as outcrops on the bluffs of the river, and mining has been developed to a slight extent in Coleman county and also in McCulloch county though the work on that side of the river has been practically abandoned, due to lack of transportation facilities. Explorations so far made show that the field has an extent of at least five miles. Development has been retarded because no railroad reaches the field on either side of the river, and the handling of the coal has been limited almost entirely to the needs of the gins nearby.

During the coal shortage of the war, an enterprising rural mail carrier of Brady made unique use of his light car on return trips. His route extended from Brady to the coal district, so he obtained a light trailer and each day he would bring back a quarter to a half ton of coal from the mines, disposing of it to customers in Brady.

It is the hope of Brady people that before many years will pass a railroad connection to these coal deposits can be provided, by a line such as from Coleman southward through Brady. Such a line also would open up to commercial development some extensive granite deposits in the southern end of this county, including several mountains of solid granite of high quality. The county also has some extensive deposits of yellow ochre, from which paint is made, and other valuable mineral resources.

The Brady Chamber of Commerce

of which Wilson Jordan is president is working actively in behalf of better roads in the county. When two bond issues were exhausted, due to increasing costs of labor and materials, the Chamber of Commerce raised funds to complete the work, especially on the road from Brady to old Camp San Saba, on the San Saba river. An adequate and modern hotel is one of the needs of the town toward provision of which the Chamber of Commerce is working.

Card of Thanks.

To those who assisted us and who offered us comfort and consolation in our hour of sorrow, we wish to express our deep gratitude. We especially wish to thank the Order of Eastern Star and the Brady Masonic Lodge and others for their kindness and the beautiful floral offerings. We shall ever hold you in grateful remembrance.

Revenge.

For years a bitter feud had existed between the Browns and the Robinsons, next-door neighbors. The trouble had originated through the depredations of Brown's cat, and had grown so fixed an affair that neither party ever dreamed of "making it up." One day, however, Brown sent his servant next door with a peace-making note for Mr. Robinson which read: "Mr. Brown sends his compliments to Mr. Robinson, and begs to say that his old cat died this morning."

Robinson's written reply was bitter: "Mr. Robinson is sorry to hear of Mr. Brown's trouble, but he had not heard that Mrs. Brown was ill."

How about your watch? Is it keeping correct time? If not, let us remedy the trouble for you. Satisfaction guaranteed. A. F. Grant, jeweler, east side square, Brady, Texas.

LOCAL BRIEFS

Mrs. J. B. Wilson of San Saba is receiving The Standard now, the paper being sent with the compliments of her sister, Miss Alta Ranne of Brady.

The Standard is in receipt of a brief letter from Chas. McMillan, former Camp San Saba boy, and well-known throughout this section, asking that The Standard be sent him so he can keep up with the happenings of his old home. Chas. is now in the army service, being with the 37th Infantry, Headquarters Co., and for a time was stationed at Laredo. His company was transferred from Laredo October 13th, and arrived in Detroit on the troop train October 18th, from where they went in camp at Fort Wayne. He writes that the new camp is a far better place than the Mexican border, the fort being near Detroit, and only a 5-minute ride from the heart of the city. At the time of writing (November 1st) he stated it was cold enough to wear overcoats out to drill.

A Horse Lover's Lament.

Col. Eph Lillard was a famous Kentucky character. He had been a raider in the Confederate army under General Morgan. He figured prominently in politics in his native State for many years. He was the close friend and body-guard of Governor Goebel, and was walking at Goebel's side in January, 1900, when Goebel was killed. Like most Kentuckians of his generation, Colonel Lillard was a lover of good horseflesh.

In his later years he served as warden of the Kentucky State penitentiary at Frankfort. It was his proud boast that no inmate of this institution, whether white or black, ever complained of his management or expressed dissatisfaction regarding the way things were run while he conducted the establishment.

One morning the town of Frankfort was startled by the news that during the night one of Colonel Lillard's charges had hanged himself to the bars of his cell. J. M. Allison, the Frankfort correspondent of the Cincinnati Enquirer, at once set out to find the warden and learn the details of the tragedy.

Colonel Lillard was at breakfast in his home when Allison entered. "Colonel," inquired Allison, "is this true what I hear—about one of your prisoners committing suicide?"

"Yes, Jimmy; it's deplorable, but true," said Colonel Lillard in tones of sincere regret.

"It can't be possible that he disliked your way of running things, can it?" asked Allison.

"No, son; not that, I hope," said Colonel Lillard. "I've just been looking into the circumstances of this distressing case. It would seem that this fellow had been sent up here three times—each time for stealing a horse. And the way I figure it out, the poor devil got to brooding, and just naturally despaired of ever getting himself a horse." — Saturday Evening Post.

Appreciation.

He was whistling at his work, With a grin upon his face, Not a solitary shirk Seemed to loiter in the place, But this youth who caught my eye Seemed to glory in his task, So I stopped to find out why And this question paused to ask:

"Tell me this, my cheerful lad, As you whistle at your bench, Why it is you seem so glad To employ that heavy wrench? Why so earnestly today Do you labor at your task?" And he looked as though to say "That's a foolish thing to ask."

Then he answered with a grin, As he laid aside his wrench: "Just today the boss came in And he stood beside my bench And he spoke to me like you, Then took up this work of mine, Looked it over, looked it through, And then said it's simply fine!"

You can talk about your pay And the pleasure of a raise, But I'm telling you today That a little word of praise From the man you're working for Does a fellow lots of good, And it makes him, more and more, Want to keep on sawing wood.

—Edward L. Guest.

Elected By a Great Majority

Fought and opposed by seven opponents, but the rank and file and the real people who have the right to decide and whose votes in the form of dollars, have unanimously elected us by a large majority as being the foremost leaders of low prices. The seven other sales have been started to combat and to distract the crowds who are being lead to our store as if drawn by a magnet, but to no avail. Our store is still the busiest store and we are still doing bigger business than any of them or all of them. Why? Because, we deliver the goods. We do as we advertise and we were not here last year for you to have made your fall bills with us. We therefore have no apologies, for the exhorbitant prices you had to pay in some of the stores. We are therefore entitled to your patronage.

PERSONAL MENTION

Misses Rebecca Francks and Lucille Benham are in Lampasas to attend a club dance there tonight.

Mrs. G. L. Brittain is here from Stephenville for a visit with her parents, Mr. and Mrs. J. L. Spiller.

Mr. and Mrs. J. E. White were among the business visitors from the Pear Valley community in Brady Wednesday.

Mrs. A. H. Head, who has been a guest of her sister, Mrs. C. A. Trigg, the past couple weeks, left Tuesday upon her return to her home in New York City.

Mrs. Jacob Christ and daughter, Mathilda, who have been spending the past two months here, with rooms at the Tom Elliot residence, leave today upon their return to their home in New York City.

at the magnificent Hella temple this week.

J. T. Freeman, former Frisco agent at Brady, was here yesterday greeting old-time friends with his old-time cheerful smile, while on an official visit as commercial agent for the Frisco. Freeman now makes his headquarters in Fort Worth.

Mr. and Mrs. J. P. Waddell were business visitors in Brady from the Rochelle community Wednesday. They were accompanied by Mrs. Waddell's sister, Mrs. M. A. Lyons, who came here the past week from Lamesa and who expects to spend the winter with them at Rochelle.

N. A. Cleveland, superintendent of the Brady schools, accompanied by Mrs. Cleveland and baby, leaves this noon for Waco, where he will attend the football game between Baylor university and A. & M. college. Mrs. Cleveland and baby will stop over in Gatesville for a visit with her mother.

Mr. and Mrs. C. A. Trigg and family, accompanied by Mrs. Trigg's sister, Mrs. A. H. Head, of New York City, were week-end visitors in Brownwood, being guests of Mrs. B. E. Hurlbut. They were accompanied upon the return by Mrs. Trigg's mother, Mrs. Lillie Glover, who had been visiting in Brownwood.

Your Little Wife.

Who plans to make your future bright? Who cooks to tempt your appetite? Your little wife.

Who tells her women friends that you are one grand husband through and through? Who's the best girl you ever knew? Your little wife.

Who pats your cheek when you get home? Who smooths the thin hair on your dome? Who looks at you, her brown eyes clear, And snuggling to you, extra near, Says, "This is pay day, ain't it dear?" Your little wife.

Don't forget we have a carload of stoves and heaters now ready for your inspection. The famous Darling Hot Blast Heaters—a guaranteed fuel saver—easy to regulate and easier to operate. In cook stoves we have every kind of a stove for every need. Whatever your wants, see our stock and get our prices. O. D. MANN & SONS.

A GOOD FRIEND

A good friend stands by you when in need. Brady people tell how Doan's Kidney Pills have stood the test. A. H. Conner, carpenter, of Brady, endorsed Doan's four years ago and again confirms the story. Could you ask for more convincing testimony? "My back hurt me pretty bad and it seemed that the pains were mostly over my left kidney," says Mr. Conner. "My kidneys were very congested and the secretions pained in passage and contained sediment. One box of Doan's Kidney Pills relieved the trouble with my back and regulated my kidneys." (Statement given April 29, 1915.) On May 16, 1919 Mr. Conner said: "I still recommend Doan's Kidney Pills as highly as I did when I previously endorsed them. I think Doan's are a fine kidney remedy and I find occasional use of them keep my kidneys in good shape." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Conner had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

EDISON'S NEW DIAMOND AMBEROLA

The World's Greatest Phonograph Value

THINK of the vast difference between Edison's Amberola and ordinary phonographs or "talking machines". The Amberola is the product of matchless inventive genius—of inspiration. Other phonographs are plain, factory-made machines, devoid of inspiration.

Thomas A. Edison's master mind conceived the Amberola to entertain mankind. Commercial phonographs are put together with just one object in view—to sell at so much profit.

No wonder the Amberola has demonstrated its superiority time and again in public comparative tests with "talking machines" and commercial phonographs.

The marvelous tone of the Amberola—the permanent, genuine *Diamond Point Reproducer* (no needles to change)—the practically unbreakable, everlasting *Amberol Records*—all reveal the genius of Edison. And the surprising, low cost of the Amberola puts high-priced "talking machines" and commercial phonographs to shame.

Let us show you how *easy* it is for anyone to own an Amberola. Call at our store or write to us in the next few days. Even if you are convinced you cannot afford an Amberola, put it up to us to make it possible. So remember—call or write—soon.

ODD FELLOWS HONOR SERVICE TO BE HELD MONDAY NIGHT, NOVEMBER 5TH

The Odd Fellows Brady lodge will have an honor service Monday night, Nov. 5th. This service is in compliance with a proclamation issued by Grand Master W. T. Savage of Dallas, and is for the purpose of permitting the old members of the Order to be present and witness degree work and enjoy a real good meeting. This lodge will confer the Second degree on this occasion.

All members of the lodge who have conveyances will bring some of the older brothers who have not been attending the meetings, as many of the heroes of our Order, members of the "faithful few" have kept the fires of the Order burning in the lodge room by their regular attendance and by their sublime devotion to its ideals of mutual helpfulness, and have now grown old and feeble and have not been able to attend our lodge meetings. It is these men that will attend this honor service, and again enjoy the association of Odd Fellows.

A barbecue supper will be served all attending upon this occasion.
