

Bull Town Bulletins

By Bill Ellis

IF YOU HADN'T noticed, there seemed to be a special requirement for football teams making the playoffs from our particular region this year.

That requirement was that the city involved be located on Highway 84. Almost every city from the state line to Interstate 20 had a team which made at least the first round of playoffs.

Starting to the west, the Farwell Steers were the champions in District 5-AA. Then you come down to Littlefield, where the Wildcats won District 2-AAA and survived their first round.

Up the road a bit, the Anton Bulldogs, members of conference A, are in the playoffs. So are the Shallowater Mustangs; in fact the Mustangs have been state-ranked. (Of Shallowater's 10-1 record, the "1" was handed them by Friona).

In the city of Lubbock, where Highway 84 is one spoke of the "hub," three schools made the football playoffs. They included the Monterey Plainsmen in class 5A; and both Estacado and Dunbar in 4A.

Estacado and Dunbar met in the final district game to decide the district champion and runnerup in an eight-team district.

Just southeast of Lubbock, and still on Highway 84, the Slaton Tigers made the playoffs once again this year. They were edged by a team, Frenship, that we could almost claim on this list, since Frenship is just off Loop 289 on the west side of Lubbock. It's within a stone's throw.

On down the line, and definitely on the road, is class AAA Post, whose Antelopes have been ranked first in their class in the state for much of the year. Down at the tip-end of our region, Brownwood made the playoffs in conference 4A.

That's ten teams we've mentioned, which is just about every town between Farwell and Roscoe. And of the exceptions, Muleshoe came close to making post-season play. The Mules were involved in the three-way tie with Friona and Dimmitt, and it took five tosses of the coin before the Chieftains won the right to the district's new runnerup slot in the playoffs.

And Snyder's Tigers are usually a sure bet for the playoffs, but must have had a bad year.

That's not a bad record. Maybe the "Highway 84 Association" (if there were such an organization) should put up some signs, proclaiming the road as the "Route of the Champions."

DALE GILBREATH

New Marks Set In Passing Stats

A balanced attack was indicated by the season statistics for the Bovina Mustangs, released this week by the BHS athletic department.

The figures showed three players gained over 500 yards rushing for the season. In addition, quarterback Dale Gilbreath passed for 1112 yards and had 1,656 yards total offense for the year.

Richard Shepherd was the leading rusher for the team, although sitting out the final game of the season with an injury. Shepherd gained 690 yards on 117 attempts, an average of 5.8 yards per try.

Joe Pat Wright was second in rushing with 682 yards in 122 attempts, 5.5 per try. Joe Black gained 501 yards in 107 carries, 4.6 per try, and Gilbreath gained 344 yards in 110 attempts, 3.1 yards per try.

Gilbreath finished out a fantastic high school career, completing 68 out of 137 attempts, 49.6 per cent, for 1,112 yards. This was an average of 16.3 yards per pass, and included seven touchdowns.

Jon Riddle was the leading receiver with 18 catches for 332 yards, 18.4 per catch and two TDs. Greg McClaran was next with nine receptions for 157 yards, 17.4 per catch and a pair of TDs.

Henderson Griggs caught nine passes for 143 yards, 15.8, and one TD; and Terry Glasscock caught seven for 118, 16.8. Shepherd caught seven for 117, 16.7, and two TDs, and Andy Alexander caught seven for 104, 14.8. Wright caught six balls for 93, 15.5; and Black had four for 24 yards, 6.0.

In scoring, Shepherd was the leader

with 50 points. Gilbreath was the runner-up with 48, Wright scored 33 points, Black 26, Riddle and Gomez 14 and McClaran and Judd 12.

Gilbreath also is the team's punter, and kicked 34 times for a 40.1 yards-per-kick average.

On defense, Riddle was the leading tackler with 108. Glasscock was next with 92, followed by Danny Silva with 91; Wright with 88 and Gilbreath and Judd with 73 each. Gomez had 69, Martin Contreras 64 and Griggs 57.

Gilbreath finished a three-year high school career with a number of school and area records.

In three years, Dale completed 339 of 720 passes, an even 47 per cent, good for 5,295 yards—more than three miles in gains. He threw for 57 touchdowns.

Gilbreath's figures for attempts, completions and yards ranked first in class AA, and placed him on the all-time list in each category. He ranks second for attempts, third for completions and third for career touchdowns. The total yardage figure ranks first overall for class AA and fifth all-time.

His records include most attempts, season, 307 in 1981, and 39 for a single game, vs Lazbuddie in 1981; completions, 151 for season and 25 vs Lazbuddie, 1981; touchdowns, 34 for season (1981) and four in one game.

In three years, Gilbreath has punctured the ball 121 times for 4,413 yards. This means he advanced the football—by passing or punting—a total of 9,078 yards, over 5 1/2 miles! (And this doesn't include his rushing totals).

Two Tie For First In Contest

Todd Ware and Ricky Shepherd tied for the top spot in the Bovina Businesses' weekly football contest, with near-perfect entries.

(The Hale Center-Hamlin game, whose score ended in a tie, was counted wrong for every contestant. Since 95 per cent had picked Hale Center, it mattered little whether it was counted right or wrong, and kept the option open that each contestant has, of picking a tie).

Both Ware and Shepherd picked the tie-breaker score the exact same: River Road 14, Friona 13, missing the actual score by 16 points.

Third place went to Jo Blackwell of Friona, who also had a score of 13, and missed the tie-breaker by 17 points. She picked River Road in the playoff game, 14-12. River Road won the game, 26-17.

Four contestants correctly picked 12 games, missing out on one of the weekly prizes by just a point. They were Billy Shepherd, Olga Serina, Renee Bartlett and Dick Morgan.

After about eight weeks of having a tie for the lead, Larry Wiseman pulled a point ahead in the overall standings, with a score of 112 (12 for the week). Wayne Thatcher, with whom Wiseman had been tied, dropped a point off the pace at 111, after scoring 11 for the week.

Two weeks remain in the 13-week contest. The contestant with the top score at the conclusion of the event will win the grand prize of \$100.

Court Okays Election Results At Meeting

Canvassing of election results was the first order of business for the Parmer County Commissioners at their meeting November 8 at the courthouse. The results were approved as presented by County Clerk Bonnie Warren.

Motion was passed to pay the county's 1983 dues to the Texas Association of Counties, in the amount of \$820.

Soil Conservationist, SCS

By properly managing crop residues through simple tillage operations, the sustained use of cropland can be continued without deterioration to the soils.

It is important to leave adequate crop residue on the soil surface to protect the soil from water and wind erosion. By decreasing the erosion occurring with crop residues, the finer, more easily erodible soil particles remain in the field where needed instead of blown along fence rows or washed into creek beds.

Crop residues left on the soil surface not only help prevent erosion but improve the soil tilth by increasing the organic matter content of the soil. By increasing the organic matter content, the soil is capable of taking in greater amounts of rainfall and reducing runoff. Also crop residues left on the soil surface shade the ground and help prevent the evaporation of the moisture in the soil which can make the difference between a following crop emerging or not.

Most of the cropland in Parmer County should be maintained with approximately 1000 and 1750 pounds of residue on the soil surface of clay loam and fine sandy loam soils, respectively, until the seedbed for the next crop is prepared. Residues can be maintained on the

surface by using tillage equipment such as a chisel, field cultivator, or tandem disk which covers only about 20-25 per cent of the residues with each tillage operation. One way disk, offset disk, moldboard plow, and listers should not be used until preparation for a clean-till seedbed is needed because 50-90 per cent of the residue is covered by each tillage operation with these implements.

In order to maintain 1000 to 1750 pounds of residue on the soil surface, there is a guide for estimating residue production from projected yields of crops.

A corn crop which yields 200 bushels/acre will produce about 14,400 pounds of residue; 20 bushel wheat will produce about 2000 pounds of residue; 1 bale cotton will produce about 1500 pounds of residue; and 3000 pounds/acre grain sorghum will produce about 4050 pounds of residue/acre.

Why travel over your field with a rotary hoe or sand fighter, wasting fuel, trying to stop the soil from blowing, when all you had to do was keep adequate residue from the previous crop on the soil surface instead of plowing it under or burning it?

How better energy decisions make the difference

You and Southwestern Public Service Company are partners, making energy decisions that make the difference.

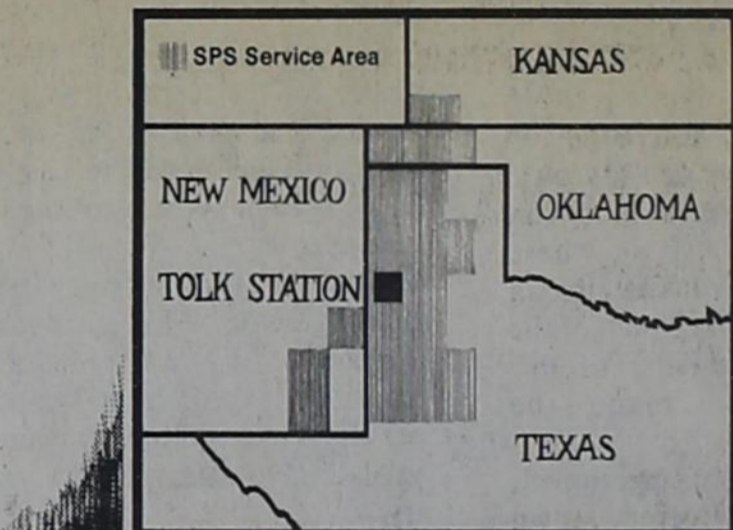

How you manage electricity in your home helps us make our decisions about generating power to meet the electrical requirements of the Southwest. For when you install a High-Efficiency Add-On Heat Pump, you can manage the electricity used for your home's heating and cooling — which helps SPS determine how much power you, and the Southwest, will need.

So that economical power will always be available, SPS is developing better ways to generate electricity. One way is with coal.

Construction is now completed on the first unit of our second coal-fired power plant, Talk Station, which is now on-line and generating electricity. Harrington Station, SPS's first coal-fired power plant, has been operating since the early 1970s.

As partners we have made energy decisions which have built Talk Station. We're proud of the new power plant as you will be too. You're invited to the Open House of Talk Station between Muleshoe and Earth, Texas. Just follow the map and join us Saturday 10 to 4 p.m., November 20, or Sunday 1 to 4 p.m., November 21. Come as you are, dress casually. There will be refreshments and guided tours for the whole family.

As you've been driving around the area lately, you've no doubt noticed a lot of pumpkins for sale at roadside stands. Perhaps this has started you thinking about pumpkin dishes for your family meals.

Freshly baked pumpkin dishes are a sheer delight. But it may surprise you to learn that pumpkin is an excellent source of many nutrients.

Rich in Vitamin A, pumpkin also contains iron, potassium and Vitamin C, plus it is low in calories, sodium and fat.

As for just how popular the pumpkin really is, it's estimated that over 88 million pumpkin pies were baked by Americans in 1981.

Dessert lovers will delight in the flavors of a glamorous "Pumpkin Peace-Pipe Pie" garnished with caramelized almonds.

PUMPKIN PEACE-PIPE PIE

- 1 pint vanilla ice cream, softened
- 1-10 inch pie shell, baked
- 1 can (16 oz.) solid pack pumpkin
- 1½ cups sugar
- ½ teaspoon salt
- 1 teaspoon ground cinnamon
- ½ teaspoon ground ginger
- ¼ teaspoon ground cloves
- 1 teaspoon vanilla
- 1½ cups whipped cream
- 1 cup slivered almonds
- ¼ cup sugar

Spread softened ice cream in cooled pie shell; place in freezer. Mix pumpkin with sugar, spices and vanilla; fold in 1 cup whipped cream. Pour filling over ice cream. Cover with foil; freeze about 4 hours. Combine nuts and ¼ cup sugar in small skillet. Stir constantly and rapidly as the sugar begins to turn color. Remove from heat when almonds are caramel-colored and spread on greased cookie sheet. Break apart when crisp. Garnish pie with remaining whipped cream and caramelized almonds. Yields one 10-inch pie.

The weather around our area has been rather cold and gloomy and no showers in the forecast. Winners of the football contest this week are: Todd Ware and Rick Shepherd tied for first place and Jo Blackwell of Friona was next in line. Congratulations!

We want to congratulate Floyd and Ann Lee Englant on the birth of their fifteenth grandchild! She has been named Lessie Leanna and she is the daughter of Katie and Charles Collins of Littlefield. The proud great-grandmother is Bessie Webb. Lessie has two sisters and one brother.

We also want to congratulate Leon and Martha Schilling on the birth of their first grandchild, a little boy. He has been named Cody Allen and his parents are Terry and Sabina Schilling. Other grandparents are Mr. and Mrs. Al McNamara of Clovis. Great-grandparents are J.A. Decker of Pep, and Mr. and Mrs. H.F. Schilling of Slaton.

Cody's great-great-grandmother is Erna Sehnert of Frankfurt, Germany.

Friends say Arlin Hartzog is still unconscious following the accident in which he was involved. He is listed critical but we understand they are very hopeful about his condition.

Leon and Martha Schilling drove last Friday to San Angelo to be with their daughter Karen who is a sophomore at the San Angelo State University and they enjoyed Parent's Day at the university. They returned home Sunday night.

The Chamber of Commerce will be sponsoring a 42 and spade tournament December 3 and 4. If you are interested, contact Suez Smith at home or the super market and tell those out of town about it.

Sam J. Hartsfield of Tyler was honored on his 90th birthday and 69 members of his family and friends gathered at the Walter Fair Methodist Church Youth Building Saturday, October 16 to help him celebrate.

Booster Club

Reviews Projects

The Bovina Booster Club met for its last weekly meeting November 8. It was reported that the group will be meeting on a monthly basis at called meetings for the balance of the year.

At their November 8 meeting the Boosters reviewed projects already accomplished: (1) installing an air conditioner donated by Ralph Roming, in the athletic room, (2) secured an ice machine which can be used by the school, (3) secured a "tossback," to be used in the basketball program.

Members of the Bovina Booster Club feel these projects were a great addition to the school needs and much had been accomplished by their efforts.

living children were with him that special day and they were Freda, Frank, Flora, Fred, Floy Mae, Fernelle and Forrest Dale. Those who were unable to be with the family were Finley, Floyd, Frauncie Lou, Faye and Flossie.

The afternoon of his birthday the group enjoyed visiting and reminiscing about the old days and also enjoyed eating good food. Also attending the get-together was Mr. Hartsfield's pastor, Dr. Wayne McCleskey.

Freda was telling me of her admiration for her dad and how he was still able to attend church services each Sunday and that the family went to church with him when they were there. The people at the church sang Happy Birthday to him in the morning services and we understand they take lots of pride in having Mr. Hartsfield as a member.

The Senior Citizens will be meeting November 24 for their regular luncheon. You are invited to come and bring a friend and the building will be open by 10 a.m.

We congratulate R.B. and Kathy Riley on the birth of a new baby girl, Casey Barbarette, born Monday of this week. The proud grandmother is

Barbarette Sikes and granddad is Earl Riley of Tucumcari, New Mexico.

We know there are three youngsters especially proud of the little one and they are her big brother and big sisters, Scott, Angie and Penny.

I talked Tuesday with Anita Guest who was hospitalized in the West Plains Medical Center in Muleshoe from Monday until Friday of last week.

She said she was sick one week before she was well enough to enter the hospital. Anyway, she says she had an infection in the lining of her lung and was under oxygen the entire time she was hospitalized.

Mrs. Alvoy Kersey was hospitalized for two weeks in the Muleshoe hospital with pneumonia. She was released last Wednesday but said it would be a few weeks before she would be back to feeling good again. She had the flu for a week and then went to the hospital suffering with pneumonia.

George Turner entered the Friona hospital last Thursday suffering with a bacterial infection. I talked Tuesday with his wife, Montie and she said he is feeling much better but did not

know when he would be released.

Opal Wines has recently returned from a trip to Azle, Texas to visit her brother and sister-in-law, Bob and Mildred Blalock. Opal went with her sister and brother-in-law, Dick and Pernie Free of Dumas. While there they were able to visit with another brother and sister-in-law, Merna Jo and Glen Blalock of Everman and a sister and brother-in-law, Mr. and Mrs. Bill Green of Bowie. Opal was away from home about ten days.

Elbert Kelley was hospitalized last Friday in the High Plains Hospital in Amarillo and underwent surgery to have cataracts removed from one of his eyes. His sister, Sid, said he is getting along real well and came home from the hospital Sunday.

Visiting over the weekend with the Keith Knights were Nancy's aunt and uncle, Mr. and Mrs. John Bylers and their son Johnny of Dallas. While here the men had a good quail hunt near Elida Saturday.

Bethel Wilcox was hospitalized in the St. Mary's Hospital in Lubbock last week for tests. Friends say they do not know when she will be released.

Our deepest sympathies extended to Jimmy Parsons and family. Jimmy's sister and brother-in-law, Eddie and Alice Faye Champion, died last week near Abilene. They were survived by one son and one daughter.

Agency Offers Aid To Disabled Workers

The Texas Rehabilitation Commission is the state's principal authority on matters relating to the vocational rehabilitation of the handicapped. It is one of the largest agencies in the state government but one of the youngest (it became independent from the Texas Education Agency in 1969).

The commission's main mission is to assist vocationally handicapped people to enter or return to the work force to become productive, taxpaying citizens.

The disabled population of Texas, some 1.6 million strong, is a diverse group of people with sometimes complex needs. To meet the varied needs of this group, Texas Rehabilitation Commission offers a variety of services.

Most people, whether they realize it or not, are disabled in some way. Some have relatively minor disabilities, such as nearsightedness or a speech impediment. Others have more severe disabilities, such as paralysis, an amputated limb or deafness.

People with relatively minor disabilities, such as nearsightedness, can generally find a simple solution to overcome the disability, such as eyeglasses. Some people have disabilities that interfere with their lives to a greater extent. For instance, some disabled people find it difficult to maintain employment because of their disabilities. They are the people the Vocational Rehabilitation Division serves.

A person must meet two requirements to be eligible for Vocational Rehabilitation Division services: (1) he must have a physical or mental disability which results in a substantial handicap to employment, and (2) there must be a reasonable expectation that rehabilitation services will result in gainful employment.

Not all disabled people are candidates for vocational rehabilitation services. A lawyer who becomes a paraplegic can probably continue in a legal practice. The lawyer is disabled, but not vocationally handicapped. A professional ski instructor who becomes a paraplegic probably cannot continue in that profession. He is disabled and vocationally handicapped.

DPS Investigates 12 Accidents

Sergeant Billy Don Scott, Area supervisor of Parmer County, reports that for the month of October the Texas Highway Patrol Troopers investigated a total of twelve accidents in this county.

There were three injury accidents with a total of eight persons injured, and nine property damage accidents.

In District 5B, which includes the top 31 counties of the Texas Panhandle, there were 229 accidents investigated by the Texas Highway Patrol.

Club Takes Tour In Portales

Ladies of the Bovina Women's Study Club met Wednesday of last week and made several tours in Portales, New Mexico.

Members making the tours were Rosa Roberts, Esta Lee Lide, Lee Stevenson, Bobby Cumpston, Carlene Jones, Alma Clayton, Doris Lawlis, and their guest, Imogene McCormick.

The group toured the Mountain Bell Telephone Company in Portales, also the Southwestern Cannery, where all sorts of soft drinks are canned with the exception of Pepsi Cola. Following these tours the ladies enjoyed lunch at the Cattle Baron Steak House.

After lunch, the tour moved to Roosevelt County Museum at ENMU Campus then to the Pito Peanut Butter plant, where peanut butter is made for several different companies.

Alma Clayton reported that the next meeting of the club would be at the First State Bank Community Room and Reggie Jones would be showing films and speaking about his farm trip to Africa. This meeting will be December 9.

Bovina 4-H'ers Plan Projects

The Bovina 4-H Club held their regular meeting Monday, November 1, at the school cafeteria.

At that time the group elected leaders and officers and projects were planned.

Charles Johnson was elected president; Sharlet Johnson, vice president; Missy Cupit, secretary; Mindy Neal, reporter; David Boozer, council delegate; and Marcie Dale, alternate delegate.

The 4-H'ers and their parents are invited to the next meeting, which will be December 2 at 7 p.m. in the School Cafeteria.

WHEN YOUR BABY IS LEARNING TO SEE

Sometimes all parents get disgusted with their baby when everything they get their hands on seems to go directly into their mouth. Don't fret (unless it is something very unclean) for your baby is learning to see--yes, this is part of the learning process of VISION!

It takes all of our senses pulling together and working together for VISION to develop properly. When your child grabs something and puts it into its mouth it is bringing into play the sense of touch, taste, smell (and yes, hearing) which gives meaning to what he or she saw with the eyes.

SIGHT is the ability to see. VISION is the ability to interpret what we see. VISION is learned gradually from babyhood on with the help of memory by coordinating our other five senses with sight.

So the next time you see your baby putting something into the mouth which is not food, just remember they are developing their VISION!

This message is brought to you in the interest of better vision by Drs. Armistead & Smith, Optometrists, Littlefield, Texas.

On The Farm

By Seth Ralston

Pioneer Hi-Bred International has established a \$4,000 scholarship with the Texas 4-H program, effective June 1, 1983.

The scholarship will be managed through the Texas 4-H Foundation, said H.T. Davison, the foundation's executive director and 4-H and youth specialist with the Texas Agricultural Extension Service, Texas A&M University System. It will be available to 4-H members who are graduating high school seniors.

Candidates for this scholarship must be planning to major in agriculture or home economics and must attend a Texas college or university, Davison said. A major objective for the scholarship is to encourage competent young people to study and remain in the fields of agriculture and home economics.

"We are pleased that Pioneer Hi-Bred International has elected to fund a 4-H scholarship in Texas," said Dr. John Pelham, state 4-H and youth leader with the Extension Service. "Even though scholarship standards are high, several hundred young people compete annually for the more than 70 scholarships available through the Texas 4-H Foundation."

Davison said that about \$350,000 in scholarships will be available to graduating 4-H members in 1982. 4-H members may apply for these scholarships by securing an application from their local county Extension office after January 1, 1983.
