### CITY BUYS TWO-STAGE SULLIVAN AIR COMPRESSOR-PUMPING OUTFIT

NEW CITY WELL PROMISES BIG SUPPLY OF PURE, FRESH WATER AND WILL BE PLACED ON PUMP-SHIPMENT OF NEW PUMPING PLANT PROMISED IN 15 DAYS.

Aldermen B. Simpson, Lee Jones and G. B. Awalt, who composed the committee sent to San Antonio for the purpose of purchasing a pumping outfit for Brady's new water well, returned Saturday, and reported having closed a contract for a two-stage Sullivan air compressor with a complete pumping outfit. Shipment of the new pumping plant is promised from Chicago in about fifteen days. The new city water well, which was drilled to a depth of 2011 ft., continues to stand full of water to within 70 ft. of the surface, and promises a big supply of pure, cold water.

Drilling on the city well was discontinued on Wednesday of last week, at which time the contractors, Messrs. Bedner & Conaway, had drilled to a depth of 2,011 ft., exceeding by 11 feet their drilling contract, which called for a depth of 2,000 ft. Sand was struck in the well, after drilling through very hard lime, at a depth of 1462 ft., and a fine flow of water was had when the drill was first stopped at 1506 ft., the water rising in the hole to within 70 ft. of the surface. After making several attempts to test the well, which were ineffectual owing to the fact that a pump sufficiently heavy for the work could not be obtained, it was decided to continue drilling to at least the contract depth, in order to ascertain if further and stronger flows of water might be had.

The drilling continued in sand to the full depth of 2,011 ft., the sand varying from coarse to fine, and at one time, the drill passed through 120 ft. of blood red sand. A coarse white sand was entered at a depth of 1810 ft. and the drill continued in this formation until the 2,011 ft. depth. This white sand very much resembled coarse white sugar, and was universally declared to be the finest of water sands. The water continues to stand in the hole to within 70 ft. of the surface, and is declared to be of the finest quality. The hole has been cased to 1252 ft. with 10-inch casing, and as the sand drilled through shows no indication of caving, it has been decided to pump the hole without further casing. Even should the sand cave, which is considered unlikely because of its hard formation, the water would come up through the cave. The new pumping outfit has a capacity of from 150 to 300 gallons per minute, depending upon the depth from which the water will have to be pumped. Its cost will be in the neighborhood of \$2,250, not including transportation and installation.

#### Card of Appreciation.

We desire to thank each and every citizen for their efforts in helping us during the fire which destroyed the compress last Friday morning, and especially do we feel appreciative of the splendid efforts of the Brady fire department, and which helped us save our office building and records.

BRADY COMPRESS COMPANY,  
R. D. McCaskill, Supt.

#### ON AN OUTING

You will need one of those new Hot and Cold Bottles, one-gallon size, with opening large enough to insert hand. Call and see them. BRADY AUTO CO.

We are now located on the West Side of the Square, where we will be glad to welcome you. We are still rendering the best of service in our repair department; also carry a line of the best in jewelry. A. F. GRANT, Jeweler.

Give me a trial with your next roll of films. John McDowell, next door to St. Clair's. Don't delay ordering your coal for winter. You'll save money by getting in on our July shipment. MACY & CO.

#### NOTICE!

I have just received over 60 patterns of Comers stylish high-grade Rain Coats. See my sample coat and samples before you buy. J. L. THROWER, located second door north Moffatt Bros. & Jones, Brady, Texas.

### FIRE AT WILLIAMS WAGON YARD DOES LITTLE DAMAGE-TIMELY DISCOVERY

Timely discovery of an incipient blaze at the Williams Wagon yard prevented a bad blaze early Monday morning. Boys stopping at the yard, noticed a light in the office at between 3:00 o'clock and 4:00, but paid no attention, until the popping of cartridges called their further attention and an investigation showed a slow smouldering fire in one of the show cases. Nightwatch Will Evans was notified and turned in the fire alarm, with the result that the fire boys broke down the doors and extinguished the fire before the blaze could communicate to the hay and other produce in the building.

The loss was entirely confined to the destruction of the show case, and its contents, including a miscellaneous lot of candles, stationery and merchandise. It is presumed mice gnawing matches caused the blaze, and but for the fact that the heat exploded the cartridges, the entire building might have been fired. As it is, Mr. Williams places his loss at between \$30 and \$40.

### VETERAN OF TWO HISTORIC STRIFES DIES AT BLANKET

Brownwood, Tex., July 25.—Capt. W. A. Routh, 93, one of the last survivors of the Mexican war and Confederate veteran, died at his home in Blanket, near here, yesterday. Born in Tennessee, he spent his boyhood in Illinois, coming to Texas in 1845. During the Mexican war he organized a company of Texans, assisted by the late James S. Gillette of Paris.

### COWBOYS CASH IN ON WESTERN SKILL AT CHICAGO EVENT

Chicago, Ill., July 25. — Tommy Kirnan of El Paso won the title of best all-around cowboy at the end of the second annual cowboy championships concluded here. He won firsts in trick riding and trick roping and fourth in calf roping. Yakima Canutt of La Crosse, Wash., won the bronc riding championship and Fred Beason of Kansas City, Kans., retained his calf roping title. Prize money amounting to about \$25,000 was distributed.

### BRADY IS READY TO WELCOME THE RE-UNION VISITORS-PROGRAM COMPLETE

NORMAN G. KITTRELL, PROMINENT HOUSTON ATTORNEY, TO ADDRESS VETERANS AFTERNOON OF OPENING DAY-ADDRESSES VETERANS NAT'L REUNION.

Everything is set for the great three days' reunion in Brady, and from the first bugle call at 8:30 Wednesday morning, there will be something to occupy the attention of the visitors every minute of their stay. The parade, headed by the celebrated Brownwood band, will start the wheels of the three days' celebration to moving, and neither time, money nor effort has been spared towards keeping everything running smoothly and in good shape. Of great interest to every veteran attending the reunion is the acceptance of the invitation to address the veterans upon the opening day, by Judge Norman G. Kittrell, prominent Houston attorney, and one of the foremost men of the south. Judge Kittrell addressed the veterans at the National reunion last October, and his simple, heart-spoken words made a profound impression upon all.

In sending his acceptance of the invitation to address the veterans on the afternoon of the opening day, Judge Kittrell stated that he would make no set speech to the veterans, but to put it in his own words, he will make "A heart to heart talk to the 'old boys,' whom I reverence." Needless to say, the 'old boys' are looking forward to the coming of this eminent man, and to the hearing of his heart to heart words. The reunion grounds already presents an appearance that is altogether attractive. Demp Branscum, in charge of grounds committee, has performed a wonderful service. Not only have the grounds been cleared and cleaned in excellent fashion, but every detail of the work has been carried out, even to the building of a substantial foot bridge across Brady creek, and which makes the veterans' camping grounds on the south bank, readily accessible to the reunion proper.

The veterans camp is laid out in orderly fashion, and electric lights

#### The Friends We Never See.

Around the corner I have a friend,  
In the great city that has no end.  
Yet days go by and weeks rush on,  
And before I know it a year is gone;  
And I never see my old friend's face,  
For life is a swift and terrible race.  
He knows I like him just as well  
As in the days when I rang his bell  
And he rang mine. We were younger then,  
And now we are busy, tired men—  
Tired with playing a foolish game,  
Tired with trying to make a name.  
"Tomorrow," I say, "I will call on Jim  
Just to show him I'm thinking of him."  
But tomorrow comes and tomorrow goes,  
And the distance between us grows and grows.  
Around the corner—yet miles away—  
"Here's a telegram, sir." "Jim died today!"  
And that's what we get and deserve  
in the end—  
"Around the corner a vanished friend."  
—Selected.

### BRADY COMPRESS TO BE REBUILT AT ONCE—FIREPROOF CONSTRUCTION

SUPERINTENDENT R. D. McCASKILL ADVISED BY GEORGE W. KING, ASSISTANT GENERAL MANAGER OF NATIONAL COMPRESS CO. AT WACO—TO BEGIN AT ONCE.

The best news of the week is contained in the advice given R. D. McCaskill, superintendent of the Brady Compress Co., that the local plant, destroyed last Thursday night by fire, is to be rebuilt. Work is to be begun as soon as insurance adjusters have completed their work. The wharf and shed room is to be constructed of concrete, making for fireproof, and while the new compress will hardly be completed in time to handle this year's crop, yet the wharf and shed room will be in readiness and available for cotton by the opening of the season.

First advice of the intention to rebuild was contained in a telegram received from Waco headquarters of the company by Mr. McCaskill. In a conversation over the phone Sunday with George W. King, assistant general manager of the National Compress Co. at Waco, confirmation of the telegram was given Mr. McCaskill. The news quickly spread, and caused much rejoicing among the local cotton men, and as well the entire citizenship. Checking of the compress office records discloses that 732 bales of cotton were on hand, and were destroyed by the fire. A revised list of the individual and firm losses known to date is as follows:

- E. H. Perry & Co., 43 bales.
  - A. H. Richardson & Co., 284 bales.
  - Huey & Roe, 119 bales.
  - Bellamy & Walker, 45 bales.
  - Wiley W. Walker, 50 bales.
  - Will Hampton, 11 bales.
  - Lee King, 46 bales.
  - J. M. Fuller, 14 bales.
  - T. T. Smith, 1 bale.
  - D. A. Roper, 14 bales.
  - Southern Products Co., 89 bales.
- Other losses have not so far been checked.

The fire, which originated at 12:45 P.M. Friday morning, was practically burned out by daylight, so quickly did the flames devour the cotton and dry timbers of the shed and wharf. The fire in the huge pile of coal was also extinguished, and the major portion of the coal salvaged. Similar good luck did not attend the efforts to salvage the patches, as about the time the fire was thought to have been put out, it would break out in another spot. The office building, and a good part of the wharf intervening between it and the stored cotton was also saved from the flames.

### THIRTY THOUSAND TOES IN BRADY SIX THOUSAND FEET IN BRADY Now-How Many Corns in Brady?

To any person, or set of persons, letting us know the number of CORNS on the THIRTY THOUSAND toes in Brady, we will give the party, or parties, one bottle of REXALL CORN SOLVENT and will guarantee the Corn Solvent to remove at least FIVE corns, if used according to directions.

We will further guarantee to remove the corns from the THIRTY THOUSAND TOES of Brady, granting that there is only ONE CORN to the toe, and Oh! Oh! that corn on the toe, and GEE! Durn how it does BURN! When you are seated all comfortably in the show or church and all at once you begin to squirm—not at what you see on the curtain or the TRUTH the preacher told—but OUCH! that old Sunday CORN—GEE how it BURNS!

Now your corn will get EASY. REXALL CORN SOLVENT will take them OUT. Price 25c.

#### "Brady to Waco."

To save the price of a room and board, we made the trip in our Henry Ford; We camped at night beside the streams, where the heat did not disturb our dreams; We cooked our meals between two rocks; We'd wade the creek, then dry our sox. The red-bug's bite would cause us pain; and we would of't seek him in vain; He's the "biggest bug" to be so small; and possessed of consummated gall. Rochelle and Richland Springs flew by; as we sped the jitney along on high; San Saba, then that great Lam Pass—Twas there we had to have more gas; Too much hot air, then a blow-out scrape; An extra put us in good shape. We passed a town called Copperas Cove; you could look on her streets without a stove. The corn fields dead and dry as dust; the citizens said: "It's rain or bust." The bad roads merged into fine paved way, and Belton was in sight, hurrah! The big white tents on the camping ground, bespoke that Campbellites abound. S. M. Martin and Ezra Jacks were there preaching and singing the Gospel facts. To Temple then we drove with ease, but could not find a home to please. We write these lines to let you know We will make our home in old Waco.

EVANG. CAMPBELL.

BRADY, TEXAS, Aug. 2, 1921.

**HONEST INJUN.**

As for an original fire alarm, we recommend the plan of putting cartridges wherever fire may break out. The bursting of cartridges gave the alarm of an incipient blaze, and saved a block or more of buildings for Brady this week.

**THE DAILY STANDARD.**

The Daily Morning Standard will make its bow to the public tomorrow (Wednesday) morning. The hour of publication has been set for 10:00 o'clock, and The Daily Standard will greet you each morning at this hour—during the three days of the reunion.

The Daily Morning Standard is merely a little bit of enterprise to show the citizens just what we can do with our splendid equipment and our efficient workmen. It will keep reunion visitors posted as to the program for each day, and the happenings of the three days' celebration. The paper will be circulated free of charge upon the Brady streets and at the reunion ground.

You will find therein much interesting reading matter, and in all, a valuable souvenir worth taking home, reading at your leisure, and preserving for future reference.

**WELCOME VETERANS AND VISITORS.**

In behalf of the citizens of Brady, The Standard extends a hearty welcome to the veterans and visitors within our gates. For the past twelve months Brady has looked forward to your coming, and her citizens have been laying plans for your entertainment. We trust that your stay among us may be a most enjoyable one, and that you will carry home with you many pleasant memories of your stay here.

The committees in charge have especially endeavored to look after the comfort of the veterans, and the best will be none too good for the gallant old soldiers.

The program, we believe, is one of the best ever arranged. It combines harmony, melody, patriotism and pleasure. Besides the entertainment at the reunion ground, there is to be staged a most elaborate program at the local amusement park, and which will include rodeo events, riding, races, ball games and the like. These events will be presented morning, afternoon and night, assuring visitors of not a single dull moment.

Every visitor will find Brady citizens most hospitable, and the friendships formed here will linger long and pleasantly in memory.

So we bid you one and all, Welcome—thrice welcome—and trust every anticipated pleasure may be more than yours.

**OUR BLESSINGS.**

The Ledger would not knock any kind of an oil boom, but the experience of the oil field towns should teach us a lesson, and in case of an oil boom here, not to overdo the thing. The mushroom growth of some of the oil field centers has resulted in blowups which will take something greater than an oil boom to overcome. They are dead.—Baling Banner-Ledger.

McCulloch county has indeed been fortunate. There has been no oil boom here to build fictitious values; there has resulted no depression from a bursted bubble; on the contrary, McCulloch has seen great activity from among oil men; she has been thoroughly explored, and still is

being explored. The present operations may yet serve to give to McCulloch a great flow of the liquid gold. And in the meantime, McCulloch county land holders have reaped a rich reward from the leases they have given—and the rentals received came at a most opportune time, when it appeared that all else had failed our citizens.

So let us rejoice that we have been so favored among the counties of Texas. After all, there is something greater in life than the mere accumulation of wealth or of sudden riches, and that is peace, happiness and contentment of mind.

**DON'T BE DISCOURAGED.**

Remember this: When Abraham Lincoln was a young man he ran for the legislature in Illinois, and was badly swamped.

He next entered business, failed, and spent seventeen years of his life paying up the debts of a worthless partner.

He was in love with a beautiful young woman to whom he became engaged—then she died.

Later he married a woman who was a constant burden to him.

Entering politics again, he ran for Congress and was badly defeated.

He then tried to get an appointment to the United States Land Office, but failed.

He became a candidate for the United States Senate, and was badly defeated.

In 1856 he became a candidate for the Vice-Presidency and was again defeated.

In 1858 he was defeated by Douglas.

One failure after another—bad failures—great setbacks. In the face of all this he eventually became one of the country's greatest men, if not the greatest.

When you think of a series of setbacks like this, doesn't it make you feel small to become discouraged, just because you think you are having a hard time in life?—Praetorian Guard.

**SHE DID NOT WORK FOR PAY.**

She never "earned" any money. She lives on an Ohio farm, but she lives on almost every other farm. She is somebody's mother; maybe your own. She has earned nothing. No, but in her thirty working years she has served 432,983 meals; she has made 3,123 garments, 32,000 loaves of bread, 5,930 cakes, 7,932 pies, 1,500 gallons of jars; she has grown 1,432 bushels of vegetables and 1,550 quarts of all kinds of fruit; she has raised 7,660 chickens, churned 5,430 pounds of butter, put up 3,625 jars of preserves, scrubbed 177,725 pieces of laundry; and she has put in 35,839 hours of sweeping and washing and scrubbing. At accepted prices for this work, it is worth \$115,485.50. She can't retire on her savings—she has to keep on. Not earning! No. How do you define the ordinary American woman's contribution to her family's wealth—to the nation's wealth.—Coller's Weekly.

This story should be printed in every newspaper in the land. It is a story of millions of women. It is a tale that is not often told. Captains of industry are given pages. Military chieftains are pictured and portrayed. Prize fighters are worked upon by feature writers and camera photographers. Hundreds of newspapers and thousands of writers place in cold type the fistic glories of the champion maulers of the world and the promoters of the game. Woman is the maker of the home as well as its mistress. She is the one superb and never-dying institution of the race. She makes the sacrifices; she toils from dawn until dark; her work is never ended until her eyelids are kissed down on the bed of death. She is the wealth-maker of the world, but man may not believe it; she is the angel of mercy of the world, and man knows it. All that is beautiful in the world, all that makes life worth the living are her mind creations and soul labors. Coller's printed the story, but it should be passed on and on and on.—Fort Worth Record.

Dear folks—you should never correct your wayward son on an empty stomach; always turn him over.

**SNAP SHOTS.**

Mr. Peavish says Mrs. Peavish is so curious that she wakes herself up at night trying to eavesdrop on herself while she is talking in her sleep.—Dallas News.

Paneled Cards and Wedding Stationery. The Brady Standard.

**THE U. S. NOBBY TREAD**

Where the going is specially heavy with snow, mud or sand, in hilly country where maximum traction on the road is a factor, no other tire tread yet devised is quite so effective, or so wholly approved by motoring opinion, as the U. S. Nobby Tread.

Its very simplicity—three rows of diagonal knobs, gripping the road—is the result of all the years of U. S. Rubber experience with every type of road the world over.

**If every one listened to experience, how much they'd save**

**STOP** and talk to the next man you see with U. S. Tires on his car. Ask him why.

Most likely you'll hear an interesting story about his tire experiments—before the answer was found. Money wasted. Promises unkept. Trouble on the road—harmous to every one except the man who went through it.

Finally U. S. Tires. And U. S. Tires ever since.

Perhaps it's the experience of U. S. Tire buyers that makes them more emphatic in their preference than ever this year.

When these men have tried most

everything by the way of "staggering bargains", "hurrah discounts", "discontinued lines at less" and so forth they know what not to get.

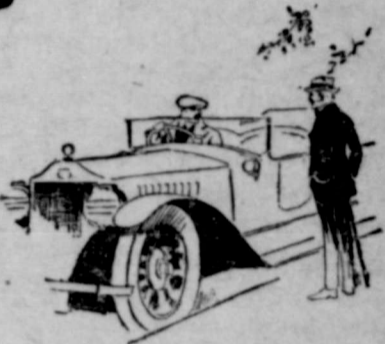

They want a fresh, live tire. With a good reputation. That's everything it says it is. With the people behind it who back it up.

There are 92 U. S. Factory Branches.

Your local U. S. Dealer is drawing upon them continually to keep his stocks sized up, complete—to give you service.

Whenever he gets one or a hundred tires from a U. S. Factory Branch, they are newly made this season's tires.

Sold to you at a net price. Full values. Square-dealing. A reputable maker. A reputable dealer. The whole transaction as befits the leadership of the oldest and largest rubber organization in the world.

"Stop and talk to the next man you see with U. S. Tires on his car."

**'T WAS A LUCKY DAY STATES TEXAS MAN**

Houston Citizen Was About to Give Up But Finds Just What He Most Needed.

"I never had much faith in medicine, but Tanlac has convinced me that there is one, at least, that does what they say it will do," said Harry Davison, well-known wood carver and designer living at 217 East Ninth St., Houston, Texas.

"I certainly would be hard to please if I wasn't satisfied with what Tanlac did for me. I was run down for a year and was mighty nervous all the time. At times my head ached so bad I could hardly stand it and I was awfully nervous and constipated. I got to where I could scarcely do my work and began to be alarmed for fear I would have to quit altogether.

"It certainly was a lucky day for me when a friend dropped in and advised me to take Tanlac. This medicine suited my case exactly and I believe reached every nerve and muscle in my body. My whole system just feels like it had been made over again, and it has been many a day since I was as full of life and energy as I am now. After what it has done for me I am convinced that it is just the thing for folks in a weak and run-down condition, for there is something about it that builds a man up and makes him feel fine.

Tanlac is sold in Brady by Trigg Drug Co., in Mercury by J. T. Matlock, in Rochelle by C. W. Carr, and by leading druggists everywhere.

**Made it Expressive.**

The bishop remarked that some one had a blank, expressionless face.

J. W. Lewis has been here from San Saba the past week, a guest of his brother-in-law, J. A. Smith and family.

Mrs. Rosa Commander of Hillsboro is here for a couple weeks' visit with her son, Boyd Commander, and family.

Mrs. J. Coopender and grandson, June McKee, returned Friday from a visit in Fort Worth and Dallas with her daughters.

Mr. and Mrs. Steve Ballou and little son, accompanied by his father, S. T. Ballou, came down Monday from Hamilton for the reunion, and are guests of relatives and friends while in the city.

Mrs. Alice Smith has returned from a three months' visit to Dallas, Waco and Marlin, and her friends are pleased to again greet her here.

Mr. and Mrs. Bob King and daughter, Miss Georgia, are here from the ranch near Eldorado to visit relatives and friends, the while attending the reunion.

Mrs. Arthur Wood is enjoying a pleasant visit from her sister, Mrs. W. D. Stokes, who, with her two children, Bernadine and W. D., Jr., are here from San Antonio.

Mrs. E. B. Ramsay is enjoying a visit from her cousin, Miss Eugenia Gray, who is here from Comanche. Miss Gray spent the winter in California, and the cousins are having an enjoyable time recounting their experiences in and impressions of the Golden State.

J. C. Pate and family are here from Moody for a visit with his brother, J. M. Pate, and family, and to attend the reunion. Mr. Pate reports everything looking very good down his way, the farmers having made good feed crops and having good cotton prospects; however, their wheat and wheat was short this year.

Mrs. J. F. Biggs is here from Sweetwater for a visit with friends. Will Keng was in Brady Monday from Whiteland, and admitted that it was still a little dry out his way.

A. J. Johnson returned Monday from Round Rock, where he had been as a delegate to the annual meeting of the stockholders in the Gota Fire Insurance Co.

Mr. and Mrs. W. I. Myers left Saturday night on their fall marketing trip, and will visit St. Louis and Chicago markets, spending about a month on the trip. Their little son accompanied them as far as Fort Worth, where he was left in charge of his grandparents.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts through the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that fails to cure. Send for literature and testimonials.

F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists. The Small's Family Pills for constipation.

# Announcing The New Buick "Four"

—A Thoroughbred Four, Completing the Famed Buick Line

The new Four-Cylinder Buick, here announced, is a thoroughbred—a pedigreed car well worthy of its name.

Down to the very last detail, this new model possesses every quality of enduring serviceability, complete comfort, and distinctive appearance that have always characterized Buick automobiles.

The advent of this new Four makes the Buick 1922 line complete. It offers to purchasers of a car of this size all the quality and service that go to make up the name "Buick."

The engine, of course, is of the time-tested Buick Valve-in-Head type. The year-after-year concentration of Buick's engineering skill and experience in building Valve-in-Head motors assures the highest standard of performance obtainable today.

Every other unit is of a quality equal to the power plant. The whole assembly constitutes a perfectly balanced chassis which is of typical Buick construction. The equipment of Cord Tires is merely evidence of the quality which characterizes the entire car.

Two open and two closed body types mounted on the Buick built chassis comprise the new series.

Even the most casual inspection of the details of design and workmanship will reveal that full measure of quality which motorists have learned to associate with Buick.

Obviously a high grade automobile—a genuine Buick production—the prices listed below make this great Four even greater. A value such as this is possible only because of the combination of Buick engineering skill devoted to the one ideal of quality, Buick production facilities developed over nearly a quarter of a century, and Buick's nation-wide distribution and service organization.

The Buick Motor Company is proud of the Buick Four. It has the faith of long experience in this newest addition to its line. It places upon it unreservedly the Buick guarantee carried by every Buick automobile produced. That its confidence is well placed is manifested not only by the keen interest with which motorists have awaited this announcement, but also the advance orders placed by distributors, dealers, and the general public.

A Great Car, Prices Make It An Even Greater Value
