

## \$35,250 FED'AL AND STATE AID IS GRANTED CO.

At its meeting on July 16th, the State Highway commission allotted to McCulloch county \$23,500 Federal Aid and \$11,750 State Aid on the construction of 4.7 miles of highway on State Highway No. 9, and running from the Mason county line north to the river. This was the information contained in a letter written by J. D. Fautleroy, State Highway engineer, to County Judge Evans J. Adkins under date of July 18th. With the co-operation of the McCulloch county commissioners court, the granting of this aid makes possible the conversion of what has for years been the roughest piece of road in McCulloch county into a pike of the first class, and thereby connect up the highways of Mason county with the highway leading into Brady.

It is not likely that work on this improvement will actually be in progress before fall however. According to District State Engineer Porter, before deciding upon the definite route, inspection will have to be made by the Federal engineer, acting in company with Mr. Porter. Inasmuch as the Federal engineer's district extends as far out as El Paso, the earliest possible date on which the engineer could make this inspection will be between the 1st and 11th of next month. About two months will then be required to get up plans and specifications necessary for the advertising for bids. The intervening time, however, will be put to good purpose by County Engineer Burrows in working out in detail the drainage, and in making cross section of the area which the route may traverse, so that all this information may be available to the state and federal engineers.

The Melvin citizens are going ahead with the road work on the Melvin-Doole road and they now have practically all their structures completed. This includes some eight concrete culverts and bridges, and the force is now at work on a 50-ft. bridge this side of Doole. While this is not a recognized highway, all structures are being built according to plans and specifications covering highway construction. The road builders expect to put the road to the proper grades with graders and freemans and have this stretch of road in fine shape for fall travel.

Out of the Melvin road bonds there have been set aside part of the money for the improvement of State Highway No. 9A, both on this side and beyond Melvin running along the Concho county line. The highway commissioners have offered 50 per cent Federal and State aid on this project for the purpose of building structures and grades, but the offer has not yet been accepted due to the fact that the Melvin folks are anxious to build a better type of road, and are, therefore, deferring action until the matter can be done into further.

### Attend Hardison Funeral.

Mr. and Mrs. S. A. Benham returned Friday from Colorado, Texas, where they attended the funeral services of the Rev. D. R. Hardison. They report the funeral as having been attended by a great concourse of sorrowing friends, and that messages of condolence and sympathy poured in from many different points, indicating the high esteem in which Rev. Hardison was everywhere held. Ministers of other denominations in Colorado spoke feelingly of the deceased, of the nobleness of his life, his work and his comradeship. One immense floral offering in the form of a cross was inscribed "The Oil Boys," indicating that even among the oil field workers he had been held in reverence and esteem. The Boy Scouts of Lampasas, whose leader Rev. Hardison had been for several years during his residence there, sent a beautiful floral tribute, and many Brady friends sent offerings.

Following the tributes paid by the several ministers, the Knights Templar took charge of the body and laid it to rest with their beautiful ritual. All stores and offices in Colorado were closed from 10:00 o'clock until 1:00 in tribute to the departed.

Rev. Hardison died last Sunday a week ago while on a visit and recuperation trip to his old home in Tennessee. Mrs. Hardison was at the point of death at the time of the funeral, and was unable to attend, as her physician feared the least shock might be fatal. Three children survive, one daughter, Miss Louise, and two sons, Una and Marion.

### DEMONSTRATE NEW MALTED DRINK AT C. H. VINCENT STORE TOMORROW (WED.)

A demonstration will be given tomorrow (Wednesday) at the C. H. Vincent store of a most tempting and healthful new drink—Cho-Cho—a concentrated liquid malted milk chocolate. The demonstration will be in charge of Miss Yo Lande Templeton of South Bend, Indiana, representing the Carnation Milk Products Company. Miss Templeton's pleasing personality and her bright, cheery smile straightway make her popular with everyone, and incidentally add to the popularity of the product she is introducing. In her demonstration, she wears a clown suit, representing the famous Cho-Cho of the past, who was with Riggling Bros. circus, and who brought happiness to the entire country with his antics. The drink is said to be similar to the clown in that it brings happiness and health.

Housewives will be particularly interested in the new preparation, inasmuch as many tempting dishes can be made easily and quickly with its use. It is especially good to drink, hot or cold, and requires only about two teaspoonfuls to the glass of milk. It also is beyond comparison for cakes, pies, ice cream, fudge, puddings and other delicacies too numerous to mention. Canned milk, being richer, is used in preference to bottled milk.

Ladies and children are especially invited to attend the demonstration. The ladies visiting the booth will receive as souvenir a recipe leaflet, and the children will receive Cho-Cho whizzers.

### Lady Ann on Way to New Egg Record

Lady Anne, a 10-year-old white leghorn incubator hen owned by Lyle Frank, of Shirley, Ill., is out to break the world record for egg production. She has now laid 1300 eggs, totaling a weight of 175 pounds. The record lay in the life of any hen is 1355 eggs.

### MOST CRIMINAL CASES ON DOCKET DISPOSED OF

The entire criminal docket in county court was called yesterday and today, and the cases being either disposed of, or continued until next term. The cases coming up in Judge Adkins court included the following Monday.

Kate Booker, colored, charged with theft of a pistol from Will Whitfield, also colored. Defendant plead not guilty, but was convicted by the jury and a fine of \$30 and punishment by sentence to serve 15 days in county jail was assessed. This morning Dave Booker was tried on a charge of concealing stolen property, found guilty and given a \$5.00 fine and 7 days in jail.

Manuel Morales, charged with stealing turkeys, failed to put in his appearance when his case was called this morning, and his bond of \$100 was ordered forfeited, and a writ of alias capias ordered issued for the missing defendant.

The cases against C. M. Burns and Arthur Stiles, charged with injuring fences, was continued by agreement to next term of court.

The case against Houston Kennedy, charged with unlawfully carrying a pistol, was continued by defendant.

### LADIES METHODIST CHURCH TO GIVE CARNIVAL THURSDAY ON COURT HOUSE LAWN.

A carnival will be given on Thursday evening on the court house lawn by ladies of the Methodist church, and to which the general public is cordially invited. The affair has been very cleverly planned and should serve to attract a large attendance. There will be various booths in charge of charming young ladies, among the principal ones being the "Fortune Telling" booth, the booth labeled "Why Girls Leave Home," and the one wherein a sale of "Four Roses" will be conducted. Preceding the opening of the evening's events, the Brady Municipal band will give a concert.

### A. F. GRANT FILES VOLUNTARY ASSIGNMENT--WAS ADJUDGED BANKRUPT 12TH

It is with regret that the many friends of A. F. Grant have learned of his filing a voluntary assignment in bankruptcy. The petition was filed on the 7th, and petitioner was adjudged bankrupt on the 12th. Liabilities are placed by Mr. Grant at between \$1400 and \$1500, with assets at \$3500. With careful management, Mr. Grant hopes to see all claims paid in full. The first meeting of creditors has been called for August 1st by D. K. Woodward, Jr., referee in bankruptcy.

Drive by and take home an Ice Cold Watermelon. Mayhew Produce Co.

### COURT HOUSE IS RENOVATED-NEW OFFICES READY

The McCulloch county court house is this week putting on its Sunday clothes every day. Artist M. S. Middlemiss has just finished the interior decoration of the district court room, and also the new office rooms on the third floor just over the court room. The walls are tinted in light and attractive blue, the bottoms of the supporting pillars are in mahogany, harmonizing with the court room seats, and the ceiling in a cream color, making for a most attractive combination. All Mr. Middlemiss now lacks of making a first class and complete job is the varnishing of the seats. In the meantime, the woodwork on the first floor is undergoing a thorough scrubbing with antiseptic solution, and is being put in first-class sanitary condition.

With the completion of the new offices over the district court room, there has been a general shifting about among the county official family. County Judge Evans J. Adkins and County Attorney A. R. Pool now occupy the office on the northwest corner of the second floor, which formerly domiciled the County Surveyor. A door will be cut through to the alcove room just to the east, and which was formerly used as a jury room, giving these officers a private consultation office.

County Surveyor and Engineer Ed A. Burrows now occupies the room on the southwest corner of the third floor, formerly occupied by the County Superintendent.

County Superintendent Marion Deans is established in one of the new offices, being located in the northeast corner of the third floor. Just across the corridor, in the southeast corner, is a most comfortable room which will be used as the meeting place for the county commissioners and also as the grand jury room.

In the northwest corner of the new addition the petit juries will henceforth hold their sessions, and in the southwest corner, just across the corridor, County Agent Geo. E. Ehlinger will hereafter be ensconced.

Miss Mae Belle Smith now offices in the alcove room on the first floor, just to the left of the north entrance, and which County Judge Adkins has just vacated.

McCulloch county citizens might do well to paste this directory in their hats. The court house has grown into a sizeable place with the new office room addition, and it may save much stair-climbing to know the exact locations of the officers.

We are now delivering coal on the new cheap summer prices. Order your winter coal today and save further worry. Macy & Co.

### Death of Mrs. F. M. Campbell.

Citizens of Brady were grieved to learn of the sudden death of Mrs. Francis Campbell, which occurred at the family home this morning at 2:00 o'clock. Mrs. Campbell had enjoyed a three-weeks' trip and visit among relatives and friends at San Antonio, Waco and Temple, and accompanied by her daughter, Mrs. Hughes, had returned only last Friday from Temple. She complained of feeling bad ever since leaving San Antonio, and upon the doctor's advice, took to her bed. However, no serious outcome was anticipated, and Mrs. Hughes returned only yesterday morning to her home at Temple. Demise was caused by Brights disease.

Mrs. Campbell was born at Seguin, and at the time of death was about 60 years of age. She was married at Seguin to Mr. Campbell in February, 1885, and the family came to Brady 36 years ago, making their home here continuously since. Mrs. Campbell was a staunch and faithful member of the Catholic church, was a noble Christian woman, and was held in highest esteem by all for her many virtues and noble womanhood.

Besides the bereaved husband there survive nine children; six boys, Mike of Dallas, Ed of Lohn, Leo, George Dewey, Francis and John; and three girls, Mrs. Chas. Tupman of Brady, Mrs. Nettie Allen, recently of Dayton, Ohio, but now of Brady, and Mrs. R. B. Hughes of Temple. Also two brothers, Hume and Hal Young of San Antonio, and two sisters, Mrs. Charles Wolf of San Antonio, and Mrs. Janie Jones of Del Rio, survive.

The body is being held pending arrival of relatives, and funeral services will be held tomorrow (Wednesday) morning at 9 o'clock, at the Catholic church, the Rev. Jas. F. Dwan conducting. Interment in Brady cemetery at 10:00 o'clock.

### F. W. GREBER IS HEAD OF ALL COMMITTEES FOR CONVENTION.

By authority of the organization of which he is the vigorous president, the Chamber of Commerce, of this city, P. A. Glanville, has appointed F.W. Greber as the chairman in chief of all local arrangements that are to be made in regard to the holding of the West Texas Chamber of Commerce Convention in Brownwood next year. Mr. Greber is known as one of the liveliest hustlers in Texas, and it has been largely through his persistent efforts that many things worth while have been accomplished for Brownwood. He has at all times worked hand in hand with the Chamber of Commerce and has yet to refuse or decline to act when asked to do matters that pertain to the material welfare of this city and of the Brown county and Brownwood section of country. Mr. Greber has called to his assistance Ed B. Gilliams and W. A. Bell, also two live wires and it is probable that some interesting announcement in regard to tentative plans for the West Texas Chamber of Commerce Convention will be announced within the next few days.—Brownwood Bulletin.

### OPEN MICA MINE ON CAPPS PLACE NEAR PONTOTOC

A new project in the McCulloch county territory, and which promises to develop into an industry of considerable magnitude, is the mica mine, which is just being opened on the Capps ranch, about 33 miles southeast of Brady in the Pontotoc community. The mine is being developed by J. L. Anderson, for the past six years proprietor of one of the leading hotels in Shattuck, Okla. Mr. Anderson has spent the past year in locating and cleaning up the lease, preparatory to beginning actual operations, and in this process has accumulated something like a couple thousand pounds of mica. Having sold out his hotel proposition in Oklahoma, he has been joined by Mrs. Anderson, who accompanied him to Brady yesterday to assist in the purchase of supplies and tools, including scissors for the cutting of the mica.

Mr. Anderson is originally a native of Lee county, and in his youth he discovered the mica deposits, and for nearly half a century he has dreamed of the possibilities of developing this into a great industry. It took him two weeks to re-locate the mica deposits, and a year has been spent in clearing away and getting ready for actual operations. For the past week a force of ten men has been at work, and this force will be greatly increased as the mine is more fully opened up.

The mica now being mined is found in large sheets, and is of the highest grade. The sheet mica is transparent and is used largely in lanterns, doors of oil stoves and as well in coal and gas heaters, being more commonly known as isinglass. Even the smaller pieces of mica are valuable, being used in the manufacture of axle grease, artificial snow and for many other purposes. The Andersons are very enthusiastic over their proposition, and believe the industry is now in readiness to be developed to great proportions.

BRADY, TEXAS, July 24, 1923

HONEST INJURY

The merchant who boldly announces that he does not advertise, is advertising to Bankers that he is a "Poor Risk."

#### WHERE BRADY LOSES.

One of Brady's most serious handicaps is the lack of adequate fire protection. This statement casts no aspersions upon the Brady fire department; it does not mean that the pressure pumps are not properly at work during the fighting of a fire; it does not mean that the big fire truck and the chemical truck, the hose and the other equipment are not of the best and adequate insofar as they are intended to serve. But it does mean that Brady lacks the water mains to carry the water to such points and in such volume as the town's needs require. Of what avail is fine fire-fighting equipment; a splendidly-organized fire department; a tremendous water pressure, if the water is not piped to where it is needed?

Day after day, and year after year, Brady is paying the penalty in increased insurance rates, because her water pipes around the square and in the business section of town do not conform in size to standard specifications. Out in the residential district the fire plugs are few and far between. A house is destroyed—be the loss \$1,000 or \$25,000 it is a criminal waste when adequate mains would have prevented such a loss. Think of a half inch pipe laid from the W. H. Ballou residence west on Crothers avenue to the W. D. Crothers residence. That is all the fire protection afforded by the city mains in this particular section of Brady. No doubt but what other sections fare equally as bad.

Citizens, let's get behind a move to better Brady fire protection. The replacing of the mains about the downtown district will pay for itself. The lowered insurance rate will virtually make the insurance companies pay for this improvement if Brady citizens but finance the deal. The smaller mains about the square could be used to extend the water system to other sections of the town. The time to act is now. "Penny wise and pound foolish" is the idea that would prevent or delay this improvement.

"Sixty thousand men needed to end 12-hour day," says Judge Gary. No, Judge, it needs just ONE real MAN.—Columbia State.

#### EDITOR TOLD THE TRUTH

Only a short time ago the editor of a paper in Indiana grew tired of being called a liar and announced that he would tell the truth in the future, and the next issue of the paper contained the following items:  
John Benin, the laziest merchant in town, made a trip to Beville, Monday.  
John Coyle, our groceryman, is doing poor business. His store is dirty and dusty. How can he do much?  
The Reverend Sty preached last Sunday night on "Charity." The sermon was punk.  
Dave Canky died at his home here Tuesday. The doctor gave it out as heart failure. Whisky killed him.

Married—Miss Sylvia Rhodes and James Collins, last Saturday at the Baptist parsonage, by the Rev. Gordon. The bride is a very ordinary town girl who doesn't know any more about cooking than a jackrab-

bit and never helped her mother three days in her life. She is not a beauty by any means and has a gait like a duck. The groom is an up-to-date loafer. He has been living off the old folks at home all his life and not worth shucks. It will be a hard life.  
Died—Aged fifty-six, six months and thirteen days. Deceased was a mild-mannered pirate with a mouth full of whisky. He came here in the night with another man's wife and joined the church at the first chance. He owes us several dollars for the paper, his meat bill, and you could hear him pray for six blocks. He died singing "Jesus Paid It All," and we think he is right—he never paid anything himself. He was buried in an asbestos casket and his friends threw palm leaf fans into his grave, as he may need them.—Canadian Pharmaceutical Journal.

Don't believe everything you hear by radio.—Portsmouth Star.

### Crisp, Cool Dishes That Tempt the Jaded Palate

THINK of the better living made possible by that luxury-necessity known as ice;

Sherbets—Ices—Chilled Melon—Crisp Salads—all the delights of freezer and Cook Book.

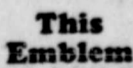

There's no sadder dish than a wilted, warm salad—no greater tempter of summer appetite than the crisp, cool concoction skillfully blended for tang and flavor.

With the ever present and paramount necessity of protecting all foods with a plentiful supply of the pure ice which keeps the goodness in and the badness out.

According to State Superintendent Marrs, the high school pupils of Texas are not studying Latin to near the extent of former years. This fact developed in the material-ly reduced demands for Latin books. According to Mr. Marrs the students are looking for utilitarian languages and the courses are becoming practical with the result that Spanish is being taught in a vastly increased volume.—Granbury News.

'SFUNNY, ISN'T IT, the things you see on the main arteries of auto travel these vacation days? Nineteen-tenths of the cars going south and west have fishing poles conspicuously displayed and everybody smiles. Coming back, they never stop for anything but gas and water and the drivers have that chiggerish expression like something was a bitin' of 'em. Strange what a great difference a little matter of direction will make.—Milford News.

The locating committee for the Technological College is now making its rounds of the towns which seek the location of the institution, receiving the glad hand and bearing of the wonderful advantages of the several towns, all of which is very pleasant and entertaining. This committee is composed of some of the very best men in Texas, who will not be influenced by sentiment, but will seek to locate the school to the very best interests of same. There is no fear of any grafting or ugly work in that connection.—Granbury News.

A fire occurred in a provincial town and occasioned no small amount of excitement. No member of his regular staff of reporters being available at the time, the news editor of the local paper sent the newly engaged social editor to investigate the matter and report. The following description was handed in to the office some hours later:

"A brilliant fire was held yesterday afternoon at the house of Mr. and Mrs. Sniff on Dash street. A large number of persons were present. Mrs. Sniff, who had recently had her hair bobbed made a charming escape in a pretty silk blouse, a pattern of which appeared on our woman's page last week. The fire-

men were becomingly garbed in blue, full-cut tunics. The weather was quite delightful for an affair of this kind. Because of the fire Mrs. Jones of 266 Dash street opened her home to Mr. Sniff and her two charming daughters. The expression was heard on all sides that the fire was a most successful event. It must have cost at least \$25,000."
