Conserve and Save
Tips for Your
DISHWASHER

- ★ Clean the filter screen often. A clogged filter can reduce the efficiency of your dishwasher.
- ★ Use only detergents manufactured specifically for dishwashers. A wetting agent helps prevent water spots on glasses and silverware.
- ★ A dishwasher will usually hold a whole day's dishes. It takes as much hot water and energy to wash 1 dish as it does a full load. Stack your dishes out of sight in your dishwasher and wait until you have a full load to turn it on.
