FERN HAVINS TO BE HONORED AUG. 7

Saturday, Aug. 7, 1976, is designated Fern Havins Day according to a proclamation issued by Mayor S. E. Adams of Robert Lee.

Fern Havins Day at Robert Lee has been so designated to honor an outstanding citizen and civic leader.

The Robert Lee-Silver Lions Club has erected signs at the Fern Havins City Park in honor of Mr. Havins.

The Fern Havins Park is a continuing beautification project of the Lions Club. The erection of the park signs is this year's major Lions Club contribution to this continuing project.

Coffee and donuts will be served at the park at 10:30 a.m., Aug. 1, and the park will be officially dedicated. The public is invited to attend.

Lions Club members and city engineers have been busy preparing for this event for the past two weeks with the help of local civic clubs and business men.

Fern Havins has been a life long resident of Robert Lee, born Oct. 31, 1895. He has served as city commissioner, county commissioner and has been active in the Robert Lee-Silver Lions Club since 1946. He is presently semi-retired but finds time to be chairman of HUD, chairman of the hospital board and rancher.

Mr. Havins is well known for his golfing. He shoots in the 80s.

ATHLETES TO TAKE PHYSICAL EXAMS AUGUST 6 AT 1:30

Physical examinations for all athletes at Bronte High School will be given Friday, Aug. 6, starting at 1:30 p.m. The examinations will be conducted at the John Harris Clinic.

Dr. G. W. Speck from Dyess Air Force Base will be on hand to examine the athletes.

All students who plan to participate in sports during the coming school year and haven't had physical exams are urged to get one Aug. 6.

Mr. and Mrs. Tom West of Rising Star visited recently with Mrs. Grady Barrett.

West Coke Hospital to Close

The West Coke County Hospital will close Aug. 1, according to Robert Verner, administrator.

He said the hospital is voluntarily closing for the lack of a doctor and, therefore, being unable to meet requirements of Medicare.

The West Coke County Nursing Home will remain open, Verner said.

"I feel this closing is only temporary," Verner said. "We are in contact with several doctors but no commitments have been made yet," he said.

Dr. Jerry Schultze of San Angelo is making rounds in the nursing home and caring for its residents. Members of the hospital district

board said they regretted having to close the hospital, but they are short of funds and are unable to operate the hospital any longer without a doctor.

The closing will leave Coke County without hospital care as the hospital at Bronte closed several weeks ago.

I am going to buy a new car which will be financed by our local bank. What types of coverage will the bank require on the car?

Banks generally require only Physical Damage coverage. Physical Damage is basically divided into two major parts: Comprehensive and Collision. Comprehensive Coverage applies to physical loss other than by collision... such as glass breakage, fire, hail, etc. It may be purchased with or without a deductible... depending on the cost you wish to pay. Collision Coverage pays for all losses incurred by collision with another object and may be purchased in various deductibles. The bank does not require Liability Coverage but such coverage may be required for other reasons. Therefore, make sure you are adequately insured in all respects... not just for financing requirements.

Fall Fabric Trends to Plaid

It's plaid-mad tartan and matras world for fall, adding new dimensions, built in interest and excitement to the season's fashions.

Plaids with their special fabric design present a challenge to the home sewer, but produce results well worth the extra effort.

For best results with plaid fabric, select a pattern with a minimum of seams. Also, check the pattern envelope to see if the garment is appropriate for plaids. If the envelope states "unsuitable for plaids," this means that the seams can't be matched due to the garment design. As a rule, if the garment is illustrated in a plaid on the envelope, the pattern designer feels it is particularly suited for plaids.

When buying plaid fabric, choose one in scale with the size of the person to wear it. Also, don't try to buy plaid from a small sample or swatch — the illusion created by several repeats of one pattern may be much stronger than the single design.

When buying a printed plaid, check that the lines of the plaid follow the grainlines of the fabric. Do not buy a plaid that is off-grain more than one inch per yard. If a print is slightly off-grain, lay out the pattern to match the plaids rather than the grain, because the plaid is the more noticeable.

Allow extra yardage to match plaids. Generally, the larger the plaid, the more widely spaces each repeat and the larger the pattern size and garment, the more yardage needed.

Arrange and cut pattern pieces so the plaids will match at major joining seamlines, not cutting lines. Do this by placing pattern notches of the plaid design. For example, a joining piece on the same area of notch at the top of a repeat should match its corresponding notch at the top of the same repeat.

If you are hesitant to try sewing a plaid fabric, begin by using a plaid for garment trim such as a collar, cuffs, pockets or yokes, or choose designs with few pattern changes.

Even plaid designs are also easier to sew and are arranged in the same design sequence crosswise and lengthwise. When folded through the center of any design, the lines of the top and bottom layers mirror each other. Uneven plaids vary in design either crosswise or lengthwise or both.

Mr. and Mrs. Bennie Hambright and Mark spent last week visiting friends and sightseeing in Houston.
