CAN'T COME BACK

Again, the people of Texas, have expressed their desires in the governor's race, and again the Fergusons have been defeated. It has been demonstrated beyond a shadow of doubt that the State of Texas is through with the Fergusons politically.

TYPHOID FEVER—A NATIONAL DISGRACE AND AN UNNECESSARY EVIL

J. C. Anderson, M. D., State Health Officer. Because typhoid fever is spread through the careless disposal of human excreta, it has been called our "National Disgrace." Man alone appears to be the source of typhoid infection.

There are, however, two classes of individuals who enjoy a high degree of immunity: (1) Those who have had one attack and survived and (2) those who have been rendered immune through anti-typhoid inoculation or "vaccination."

According to Tosenau one attack of typhoid fever, however mild, usually produces lasting immunity, but second attacks do occur. Immunity by anti-typhoid vaccination lasts from two to four years, but two years is generally understood as the most reliable period of immunity.

Typoid fever is an acute communicable disease of man characterized by fever and other symptoms, and may range in severity from the easily recognizable and typical cases to milk cases manifesting little or no symptoms of illness.

The diagnosis of typhoid is now generally made bacteriologically. The bacilli are found in the blood of the patient a few days after the onset of the disease, and will continue to be present in the feces and urine (and also in the saliva) long after the fever has subsided.

The typhoid bacillus is very small and similar in appearance to the B. Coli, the normal inhabitant of the intestinal tract of man and animals, and requires an exact technique to differentiate. Its distinct characteristics may be observed under the microscope and in certain cultures.

The individual bacilli are two to four micro-millimeters in length, a half millimeter in thickness, while the filaments may be such as eight or ten micro-millimeters in length. This means of course that they are very, very small.

Ordinarily the typhoid bacillus does not grow and multiply outside the human body. It is estimated that if all typhoid germs could be prevented for eighteen months from entering a human body, the cycle would be broken and the disease would disappear.

Milk in contrast with the substances mentioned above, affords a very good culture medium for typhoid bacilli. When introduced into milk on a small particle of infected human excreta, the bacilli may multiply in a short time under favorable temperatures to such proportions as to afford infection sufficient to scatter over a large territory. For this reason great care

should be exercised in handling milk. On the other hand, the typhoid bacillus as compared with other disease producing bacteria, is easy to kill. Boiling will kill any typhoid germs contained in water, while heating milk as in pasteurization to 145 degrees F. and holding at that temperature for thirty minutes will kill typhoid germs if present in the milk.

How the typhoid bacillus originated is not known any more than how any other living matter originated, but man has become the host of this plant and furnishes the medium by which its life cycle is kept up. The bacilli are thrown off in great quantities in the feces and urine of a patient, convalescent, or carrier, and may be conveyed to another person through several channels.

There seems to be no natural immunity from typhoid fever because of an excellent state of general health. Young athletes in the pink of condition have been known to succumb while persons in poor health have escaped infection though equally exposed.

There are, however, two classes of individuals who enjoy a high degree of immunity: (1) Those who have had one attack and survived and (2) those who have been rendered immune through anti-typhoid inoculation or "vaccination."

is brought about by administering three doses into the subcutaneous tissue in the arm or abdominal wall at intervals of five to eight days. Administering the three injections usually covers a period of about three weeks and immunity is understood to begin as soon as the reaction is complete.

It is well to keep in mind, however, that artificial immunization is not intended to take the place of sanitary practices and even though an individual has received such protection he should not disregard other prophylactic measures.

(b) CARRIERS. It has been conservatively estimated that from two to four per cent of the persons having typhoid fever carry the bacilli long after convalescence. Even after negative results are shown for weeks there have been sporadic returns of the bacilli in the feces and urine due to the fact that the gall bladder suddenly decides to expel some that have been stored therein.

(c) WATER SUPPLIES. Typhoid fever will continue to be a menace to public health as long as gross pollution of water supplies exists. It has been estimated that the purification of water supplies exists. It has been estimated that the purification of water supplies, perfect sewerage, rigid screening, and proper supervision of outdoor privies would result in a reduction of typhoid case rate to less than 14 per 100,000 population.

If a well shows contamination the water should be disinfected, the source of the contamination removed, and the well protected to guard against future contamination. Samples of water may be sent to the laboratory of the State Department of Health, Austin, Texas, for bacteriological examination if no local laboratory is available.

All refuse that is subject to decay should be burned or deeply buried. Manure heaps in the barnyard, spoiled food left in an open garbage pail or carelessly thrown upon the ground furnish admirable breeding places for flies. But above all human waste is most dangerous when improperly disposed of.

HELPING TO BUILD TEXAS

Beaumont has let contract for 91,642 worth of additional paving. Canyon is laying twelve additional blocks of brick pavement. Victoria is paving twelve blocks of Austin St. from Rio Grande to North Main.

Dinmitt is to have natural gas, the West Texas Gas Co. having completed preliminary survey of a line there from Hereford. Peerless Carbon Black Co., Pittsburg, has applied to the Railroad Commission for permit to erect an additional carbon black plant in Gray county.

Texas white citizens are looking after the schooling of their negro citizens. Bryan is getting bids for a \$40,000 school building for negroes. Cleburne is erecting a new negro high school in place of the Booker T. Washington school that burned during the last session.

Texas did not lead the states in population gains in the 1930 census, standing sixth in numerical increases. But it retained fifth place in standing of the states with a population of 5,821,272 or 10,589 more than a previously announced total.

Texarkana is getting another mile of street car tracks, and will pay half the paving expense incurred by the Texarkana Street Railway Co. The

line will serve Buchanan Ave., Seventh, State Line and Hazel Streets. Del Rio is installing 47 overhead street lights on Main Street with sidewalk lamp posts of ornamental metal and burning 400 candlepower lamps. Palestine is soon to have a new \$100,000 Theater. University of Texas has let contract for a \$250,000 memorial archway and its regents have approved plans for a \$750,000 library and \$800,000 class room building. Mineral Wells has begun work on a \$20,000 ward school.

Cedar Hill Home Demonstration Club met at the club room on Aug. 19th, at 2:30 o'clock. The subject was "Children's Clothes."

For the Sept. 16th meeting the following subject, "Some Good Results of Fairs and Contests," will be discussed by Mrs. Lois Durham and Mrs. Higgins.

Miss Strange gave a demonstration on Children's Clothing, considering points on cutting and fitting a child's garment; also the hygiene and simplicity of their clothing.

There were eight members present: Mesdames Ray Willington, Joe Hanna Lois Durham, John Seay, Rene Yeary, Brand, Dozier Dillard, Gladys Lackey.

Four visitors were present: Mesdames Carl Lemons, Esley Yeary, Miss Nora Belle Seay, and Miss Stockton, who is to take over the home demonstration work of Lubbock county.

Our next meeting will be on Sept. 16th and the subject will be, "Community Work, Our County Fair."

The club had a general discussion on plans for the fair. We especially urge these visitors to come back and be with us, also others. And members, you are wanted, Sept. 16th to help work out plans for the County Fair.

Mrs. Paul Shick Entertains In Honor of Mrs. Joe Kaberna

Mrs. Joe Kaberna of Amarillo, formerly Miss Grace Wise, was the honoree of a delightful bridge party given by Mrs. P. E. Shick at her home Thursday afternoon at 3:00 o'clock. The house was decorated in sun flowers and marigolds, and the tallies were made to resemble sun flowers.

Ice cream and cake, iced to resemble sun flowers were served to Mesdames Joe Kaberna, Clyde Applewhite, Henry Hodel, Archie Crager, E. H. Rankin, O. E. Stevenson, E. L. Woodburn, Bryan Wells, Marvin Gilbert.

AN APPRECIATION OF THE VOTERS OF FLOYD COUNTY

I want to express my appreciation to the voters of Floyd county for the splendid vote they gave me in the race for county superintendent of their county. I lost the contest, but feel that I have won a lot of new friends and have had the pleasure of spending ninety days mixing with the finest people on earth.

With congratulations to my opponent and the kindest feeling to one and all, I am,

Sincerely yours,
OLA HANNA.

AN APPRECIATION OF THANKS TO THE VOTERS OF FLOYD COUNTY

I want to express my sincere thanks to the voters of Floyd county for the splendid vote they gave me in my race for County Judge. I certainly do appreciate your vote and friendship and with your co-operation I will try to make you a good officer, for I want the help of all good citizens, even the legal talent.

Sincerely your servant,
J. W. HOWARD.

To My Many Friends and Voters:

I want to thank everyone of you for your loyalty and support in Saturday's primary.

KENNETH BAIN.

I wish to express to each and every voter of Floyd county that endorsed and supported me for the office of County Judge in the Primary Election of the 23rd my sincere thanks and appreciation for your every effort in my behalf; while it seems that we were in the minority I am still of the opinion that the principals I advocated and

and for which you endorsed are true and correct principals of government.

Your sincere friend,
Wm. McGEHEE.

To the Voters and Citizens of Floyd County:

I wish to take this method of thanking the people of Floyd county for the nice majority they gave me in the runoff election, also the vote that was accorded me in the first primary, which has made it possible for me to serve you as your tax assessor for the next two years. I cannot find words to express my appreciation for the many favors you have shown me, but will endeavor to give you the best service that it is my ability to render in the office you have given me.

Again, thanking you for past favors, and pledging myself to give you good and efficient service, I am

Yours very truly,
ROE McCLESKEY.

TO ALL SCHOOL PRINCIPALS, FLOYD COUNTY, TEXAS

We are enclosing to you a copy of an agreement between Supts. Patty and Biggers which means much toward the further betterment of instruction and teaching in our county schools.

We regard this as the greatest forward single step yet taken in what is popularly thought of as "standardizing" our schools.

This agreement was secured, and signed early this year, but inasmuch as our schools were then practically half out for the term 1929-30, we thought best not to publish, or distribute same until beginning of a new school year.

The people at large have a right to expect and to demand, that the quality of instruction in our rural schools shall stand the test, at least as far as they can reasonably be expected to go. However, we must remember that the larger schools can and do provide better facilities for instruction in many subjects than it is possible for the smaller schools to have.

The general scheme on which the schools of the county are classified are as follows: two teacher schools, 8 grades; three teacher schools, 9 grades; four teacher schools, 10 grades.

I believe that in the great majority of instances the work of the rural schools is standing the test in the First Class High Schools of this and other counties.

We earnestly request our rural teachers to co-operate with our high school superintendents and try to put out a type of work that can and will be approved. Parents and pupils are alike exhorted to co-operate in that our rural schools may be entitled to the recognition for which we have been striving.

We have a system of records in our office for all high school work done in our rural schools. This system shows the attendance, department, and grades made month by month through out the school year.

Parents, do your part in trying to keep your children in school regularly, and seeing that your child is making his work. Pupils, do your part by putting forth earnest, conscientious effort to master the respective subjects you have, so that you will not feel humiliated or embarrassed when you call for a certified copy of your record in future years. Teachers, be thorough in your teaching, honest and fair in your grading, in order that your work will reflect credit upon you, and the position you are filling.

Respectfully yours,
PRICE SCOTT,
Co. Supt. Floyd County.

Copy of Original Now in County Superintendent's Office

To Whom It May Concern:
This is an agreement entered into by W. E. Patty for Floydada High School and W. D. Biggers for Lockney High School relative to the recognition of credits from rural schools of Floyd and other counties.

Credits recognized on the preceding year's work shall be on condition that the pupil receiving such credits shall be on trial and should such pupil show an unusual weakness in any subject the credit in that subject may be forfeited at the discretion of superintendent and said pupil required to repeat the work of the previous year in that subject. Credits in work taken prior to the preceding year shall stand unless some condition it attached to same at the time of recognition.

It shall be our policy to recognize credits in English, History, and Mathematics through three years work where schools are classified to teach the work, with the understanding that in second year Algebra the chapters of Quadratic Equation and Graphs shall be covered, that in History Map Book and Note Book Work shall be required and that in English pupils should earn at least ten points each semester on outside reading as indicated in State Course of Study.

In Language, either Spanish or Latin, we shall be glad to recognize one unit of work in same provided the pupil will take the second unit in our school and make good on it.

In Science we are not allowed by the High School Department of Education to grant full credit, however, we are willing to group as much as a unit and a half of Science work in any of the following subjects and give one unit credit for same: Agriculture, Physiology, Physical Geography, General Science, marking it a credit in General Science. This does not apply to schools with laboratories.

In 4-H work where a girl has had two years of work and presents a certificate from the County Home Demonstration Agent with satisfactory notebook on same we will grant one unit of credit for such in Home Economics, provided that the girl will take the second year of Home Economics with us and make good on it.

That we do not grant full credit for Civics as the State planned Course of Study provided that American History be prerequisite to taking Civics. However, we will allow one half unit for civics taught in either eighth or ninth grade.

That we discourage pupils from taking Advanced Arithmetic as it is planned to be a Senior subject and we would be unwilling to recognize a half unit in it, except as a means of graduating a pupil who has been in only for the Senior year.

Respectfully submitted,
W. D. BIGGERS,
Supt. Lockney Public Schools.
W. E. PATTY,
Supt. Floydada Public Schools.

ONE WINDMILL for a Lifetime

Is all you will need to buy if you select with care. The Auto-Oiled Aermotor is made to last a lifetime. It oils itself, adjusts itself to the strong winds, and works quietly and efficiently in any wind. Day after day, year after year, you will depend on it to pump the water which you are constantly using.

If you choose an Aermotor of the right size for your well, and a tower high enough to get the wind from all sides, the Aermotor will do the rest. One oiling a year is all that it needs. The gears run in oil in a tightly enclosed gear case.

The improved Auto-Oiled Aermotor is stronger and better than ever. It is so skillfully designed and so well made that there is nothing to get out of order. Turn it loose and let it run, and you will always have fresh water when you want it.

Sparks from the Camp Fire

The Tandra group of the local Camp Fire met in a business session Monday afternoon at the home of Mrs. E. H. Wall. Organization plans were completed, and the following officers elected:

Virginia Hohlaus, president; Frankie Dodson, vice-president; Leota Shelton, secretary; Mary Roselea Jackson, treasurer; Patricia Patterson, Scribe, Mary L. Woodworth, song leader.

Tandra, meaning to love, honor, and respect, was selected as the group name. The girls selected their individual names and began plans for the making of their symbols.

Mrs. E. H. Wall has been elected guardian and Mrs. Carl McAdams assistant guardian. An application has been filed for a charter, and as soon as this is received from national headquarters, the girls will begin the regular Camp Fire work.

Every parent and every citizen is urged to co-operate with these girls and their guardians to help make this organization a success. The purpose of Camp Fire is to take care of the out-of-school time of adolescent girls, and it works quietly toward the end that through fun and happiness girls may achieve a beautiful and useful womanhood.

The Camp Fire law, which every girl promises to follow is: Seek beauty Give service Pursue knowledge Be trustworthy Hold on to health Glorify work Be happy.

Tuesday morning the Camp Fire girls enjoyed an hour's sport in the swimming pool, under the direction of Mrs. McAdams. Several of the girls made rapid progress in their swimming.

The girls belonging to the Tandra Fire group are: Leona Shelton, Leota Shelton, Mary Louise Woodworth, Patricia Patterson, Frankie Dodson, Virginia Hohlaus, Mary Roselea Jackson, Florence Beall, Glenna Whitfill, and Anna Dell Whorton.

To the Voters of Floyd County: I hereby express my appreciation to the voters of Floyd county for the splendid support given me in the primary election, Aug. 23rd.

So far as I know this race has been conducted free from any mud-slinging or criticism of a hurtful or destructive nature. I appreciate, indeed, the three people who have been my opponents during this campaign. They have always ranked with the best of our teachers. I am glad to say to you, and to them, that they are capable of, and entitled to the most responsible and best paying positions among our county schools. I shall indeed be glad to have them continue with us in the educational development of our boys and girls.

Yours to serve, PRICE SCOTT.

KIMBALL-KROGH PUMPS Have been specified by the Engineers for the City of Los Angeles, Cal., and have awarded contracts for 28 more since last November, making a total of 125 Kimball Pumps during the last ten years, being used for pumping water for this great city. What greater recommendation could any pump give? Kimball-Krogh Pumps are distributed in 48 counties of the West Texas Plains by GREEN MACHINERY CO., of Plainview, Texas, who sold and installed the first irrigation pump in Plainview territory, and since that time of April, 1911, have made more wells and equipped them for irrigation than all other concerns together, doing public work of this class. Does it mean anything to you, dealing with a Home Company, having the direct experience in the different conditions of this locality, and will without question give you the best and yet save you money. We will gladly give you estimate on any part or complete Irrigation Plant, including well. GREEN MACHINERY CO. Plainview, Texas A. J. COOPER, AGENT Lockney, Tex.

Corpus Christi Lady Glad To Praise Konjola

Old Residents Eager to Tell What New Medicine Did for Her After Others Failed

"I was badly run down and even the simplest foods brought on attacks of indigestion," said Mrs. H. L. Dryer, for more than fifty years a resident of Corpus Christi, Texas, residing at 1337 Ocean Drive in that city. I bloated terribly after meals and suffered severe belching spells. Constipation was a source of constant worry and I had severe pains in my abdomen after meals. I was unable to sleep at night.

"I have taken Konjola but a week and I can say that every ache and pain in my stomach is gone. I can now rest well at night and eat what I wish without any of my former miseries. I have never used a medicine like Konjola and although I am 68 years of age I can do plenty of work. I am more than glad to pass my praise for this medicine on to others."

This is not an exceptional case. Konjola does work quickly and none the less thoroughly. It is the best in most cases to continue the treatment over a period of from six to eight weeks.

Konjola is sold in Lockney, Texas, at the Stewart Drug Co. and by all the best druggists in all towns throughout this entire section.

Davis, Plainview; Olin S. Miller, W. T. Hopper, Floydada, and J. E. Bowman, Plainview.

Dates for holding the first annual show have been set for Wednesday, Thursday and Friday, Dec. 10, 11 and 12, 1930. Slaton has been chosen as the permanent home of the show, the holding of which is the main purpose of the new association, it being the belief that such a regional poultry show will prove of much benefit in developing the poultry industry throughout the area.

Plans Made for Show

There will not be separate classes in breed and production types of poultry in the show, but there will be a breeders' flock class, each flock to consist of eight or ten birds, these to be judged on utility. The official to make awards for the flocks will not be a licensed American Poultry Association judge. The judges for pens, singles and trios will be a licensed A. P. A. judge, show officials decided. All standard varieties will be eligible for premiums.

The association's executive committee has been named as follows: Taylor White, Tahoka; J. O. Roberts, Rotan; L. A. Wilson, Slaton; George Sansom, Post; E. E. Young, Ralls; C. W. Morton, Snyder; and Ray Mowery and D. F. Eaton, Lubbock. The manager of the show will be L. A. Wilson of Slaton, who will appoint the show superintendents.

Egg-Laying Contest

Special committees to prepare the show catalog and premium list, to secure judges, to arrange for educational features during the annual show and to give the event all possible President White of Tahoka.

The association went on record as favoring the inauguration of an annual egg-laying contest to be held by Texas Technological College at Lubbock.

Membership in the Texas Panhandle-Plains Poultry Association is open to all persons within the territory who are interested in development of the poultry industry. There are no membership dues. Exhibitors will be required to pay nominal entry fees when entering birds for exhibition at each annual show in Slaton. The association voted to incorporate and secure charter.

54 Counties to Join
Plans for holding the first annual

show will proceed at once, said Taylor White, first president of the body.

The 54 counties included in the association's territory are: Dallam, Sherman, Hansford, Ochiltree, Lipscomb, Hartley, Moore, Hutchinson, Roberts, Hemphill, Oldham, Carson, Potter, Gray, Wheeler, Deaf Smith, Randall, Armstrong, Donley, Collingsworth, Parmer, Castro, Swisher, Briscoe, Hall, Childress, Bailey, Lamb, Hale, Floyd, Motley, Cottle, Cochran, Hockley, Lubbock, Crosby, Dickens, King, Yoakum, Terry, Lynn, Garza, Kent, Stonewall, Gaines, Dawson, Borden, Scurry, Fisher, Andrews, Martin, Howard, Mitchell and Nolan.

\$215,000 FIRE AT LUBBOCK, LIGHTNING CAUSED BLAZE

Approximately \$215,000 fire loss was caused in Lubbock Saturday night as a result of lightning striking two buildings during a terrific electrical display about 11 o'clock.

The Temple Ellis building, a four-story brick structure, housing the J. C. Penney store and a number of doctors' and lawyers' offices, was practically destroyed; and a mill belonging to W. K. Dickinson and D. R. Crouch was destroyed.

The walls of the Temple Ellis building are still standing though the building was completely gutted. The J. C. Penney stock is said to be a total loss, either from fire or water damage. The doctors and lawyers were able to salvage some of their equipment and records.

The mill had no wheat in storage but was only a short distance from an elevator that was full of stored wheat. However, the elevator was not endangered by the blaze at the mill.

The Temple Ellis building represents a loss estimated at around \$200,000, while the mill had a value of between \$17,000 and \$18,000, but the

warehouse did not burn, making a loss around \$15,000 to \$16,000.

The fire department of Lubbock had to fight both blazes at the same time as lightning struck the two buildings but a few minutes apart.

At the Temple Ellis building the lightning struck a transformer adjacent to the building on the wire, starting the blazes in several different parts of the structure at the same time. The fire was first discovered in the basement of the building occupied by the J. C. Penney Company, whose main store was on the first floor.

The Temple Ellis building was owned by the Lubbock Mercantile Company of which Temple Ellis is the active head.

Mr. Ellis plans to remodel the building, starting work immediately on a fireproof structure.

HANKINS CASE IS UNEXPLAINED—CHILDREN WENT TO PLAINVIEW MONDAY TO VISIT RELATIVES.

Whereabouts of two Plains citizens remains today a complete mystery while officers and friends continue the search for them. One of them, C. B. Hankins, Plainview, is thought by his friends to be dead, the victim either of foul play or of a car wreck. The other, J. V. Flippin, Floyd county farmer, simply has disappeared and left no important clues by which the mystery might be solved.

The disappearance of Hankins, whose death was described in a letter found in Hankins car at Erick, Okla., is yet unexplained. While relatives are mourning his death, officers at Erick are convinced that he is not dead. Mrs. Hankins and her five children are still at Levelland with his mother.

Elmer Renner, city marshal at Erick said Monday that he does not believe Hankins is dead but still believes he is in Amarillo. The letter found in the car declared that Hankins was killed in a car wreck and that the writer and another man hid the body where it would never be found.

FERGUSON IS THROUGH, HE SAYS IN FORUM

Austin, Aug. 27.—In an editorial in the Ferguson Forum, signed "Pa and Ma," James E. and Miriam A. Ferguson said today they "never expect to seek public office again."

"Every day," the editorial said, "we are asked what of our plans? Our answer is that, while we never expect to seek office again, we will always be at the command of our friends as private citizens with our bit and mite to battle for the interests of the people."

It was the first statement of the Fergusons since Mrs. Ferguson was defeated for the Democratic nomination for Governor by Ross S. Sterling. In another editorial, Ferguson wrote that the reason Mrs. Ferguson did not congratulate her opponent was because of a reference allegedly made by Sterling about Mrs. Ferguson.

Still Take Interest
While the Fergusons may not seek public office, the Forum gave several indications that Ferguson will still take an active interest in State affairs.

First was an appeal for more subscriptions to the paper so that the "fight may be carried on." Second was an outline of what Ferguson believed the next Legislature should do. One of these suggestions was a complete audit of the affairs of the State Highway Department, the Forum stating that none had been made in four years.

Governor Moody's attention was called to this statement and he denied it emphatically. He said that the books of the department are constantly under audit and that if the Legislature desired it, he would welcome an investigation.

Other suggestions for the Legislature were:
Repeat of the poll tax law, "So that the poor as well as the rich may vote."
Organized opposition in the Legislature to submission to the people of the proposed \$350,000,000 highway bond issue.

A "searching investigation" into campaign expenditures in the primary election.

Make Road Body Elective
Passage of a bill making the highway commission elective.
"These reforms will not be made," the Forum stated, "unless active demand is made for them. The big daily papers will oppose them. The big material corporations will oppose them because they want to be left alone."

Governor Moody, challenging the statement in regard to audit of the Highway Department, said that the first audit was made, by two separate firms, shortly after the new highway commission was installed in 1927.

He said this audit had been made at his suggestion to Commissioners Johnson and Ely.

When the audit was completed, the Governor added, it was found that the department's unpaid obligations totaled more than \$6,000,000 and assets were around \$600,000.

Following this audit, a complete new bookkeeping system was installed and an auditing department added to the Highway Department. It is now possible he declared, to ascertain "within 15 minutes" how much has been spent and what it was spent for.

"It's just another one of Ferguson's had dreams," Moody commented.

the eve of her all Summer's Journey, which will take her through the Canadian Rockies, on to Alaska, back to our Pacific Northwest, through national parks, and other places which await the visits of those who resolve to "See America First." In her own inimitable style, she will describe her experiences in other articles soon to appear in the Beacon.

"This commonly said of the cobbler's children that they never have soles on their shoes. In like manner I have lived all my life on the border of Lake Michigan and never had a trip on the Lake. So this year, being vacant-minded, I decided I must have one."

And what a delightful and health-giving climax to my summer has been this water-jant through the northern Great Lakes region. I'm naturally a lover of the water; and in this whole world, find no music more lulling than the undulating rhythm of water, or no lullaby more soothing than their low, sweet murmur on the quiet shore. Every night aboard the great steel "Manitou" I slept like a new-born child. And every morning I awakened to the beauty of golden-rippled waters and a glorious shore-line, and the stimulation of pine, bracing air.

For that's one about a lake trip which makes it really superior to an ocean voyage. At no time are you out of the sight of land. And the ever-changing panorama of beauty along the shoreline makes you seem to drift through fairyland, while proving a source of keen delight. Beach and forest, hill and dale, inland lake and stream, follow in beautiful succession, as Nature graciously changes her setting which you view, lazily but appreciatively, from the depths of a comfortable deck-chair.

We made our first stop out of Chicago at Portage Lake... the center of one of the most beautiful and healthful resort sections in northern Michigan. Slight wonder that this spot is popular, for here the air is sweet and bracing, and the lake, with its broad expanse of calm water, is crystal clear. Four miles of turquoise blue ripples, outlined by a long stretch of smooth white sandy beach, and backed by forest-clad hills of luxurious green!

Then on to historic Mackinac Island, rightfully named "The Cool Beauty Spot of the World." What a thrill I felt as we steamed through the waters of the Straits and I saw beautiful Mackinac on a rock-bound height above us, its picturesque ruins and forts standing out against the blue of a late summer sky at mute reminders of historic battles fought by the French, English and American troops. And well I understand now, after a few days spent in these delightful surroundings, why Mackinac is the peer of American resorts. Wonderfully endowed by Nature, and rich in legendary lore, cool breezes, and an invigorating atmosphere, it offers the added allurements of historic charm and romantic legend. And to those who come here weary in mind or tired in body, it holds out the opportunity for a complete change and rejuvenating rest.

I'm enjoying every moment of it, knowing that it will prove a relaxation after the excitement of the summer and store up a treasure-house of energy for the year that lies ahead.

KIMBALL-KROGH PUMPS

Have been specified by the Engineers for the City of Los Angeles, Cal., and have awarded contracts for 28 more since last November, making a total of 125 Kimball Pumps during the last ten years, being used for pumping water for this great city. What greater recommendation could any pump give?

Kimball-Krogh Pumps are distributed in 48 counties of the West Texas Plains by GREEN MACHINERY CO., of Plainview, Texas, who sold and installed the first irrigation pump in Plainview territory, and since that time of April 1911, have made more wells and equipment for irrigation than all other concerns together, doing public work of this class.

Does it mean anything to you, dealing with a Home Company, having the direct experience in the different conditions of this locality, and will without question give you the best and yet save you money.

We will gladly give you estimate on any part or complete Irrigation Plant, including well.

Doris Club Entertained With Lovely Party

On Tuesday, August 26th, Mrs. Clyde Applewhite and Mrs. Marvin Gilbert were hostesses at two very attractive parties for the Doris Club at the home of Mrs. Applewhite.

Lovely summer flowers were arranged to lend beauty to the occasion.

At 3 o'clock in the afternoon the guests assembled to enjoy a number of games of bridge. High score was won by Mrs. Richard Stovall of Floydada, and second high by Mrs. Roscoe Snyder.

Dainty refreshments of cake and ice cream were served.

The members playing were Miss Hula Coleman, Mrs. L. D. Harris, Mrs. Henry Hodel, Mrs. Ray Wall, Mrs. Roscoe Snyder, Mrs. Leslie Gilbert, and the hostesses.

Guests of the club were Mrs. Richard Stovall, Miss Alice Honea, Miss Mary Baker, and Miss Maeron Meriwether.

In the evening the Applewhite home was the scene of another enjoyable party.

In the games of bridge Mrs. Richard Stovall won high score for ladies and Mr. Roscoe Snyder high for men.

A refreshment course consisting of chocolate cake and strawberry ice cream was served to the following: Messrs. and Mesdames Ray Wall, Roscoe Snyder, Leslie Gilbert, L. D. Harris, Henry Hodel, Marvin Gilbert, Clyde Applewhite, and Richard Stovall of Floydada.

Sparks from the Camp Fire

The Tanda group of the local Camp Fire met in a business session Monday afternoon at the home of Mrs. R. H. Wall. Organization plans were completed, and the following officers elected:

Virginia Hoblaus, president; Frankie Dodson, vice-president; Leota Shelton, secretary; Mary Roselea Jackson, treasurer; Patricia Patterson, Scribe, Mary L. Woodworth, song leader.

Tanda, meaning to love, honor, and respect, was selected as the group name. The girls selected their individual names and began plans for the making of their symbols.

Mrs. R. H. Wall has been elected guardian and Mrs. Carl McAdams assistant guardian. An application has been filed for a charter, and as soon as this is received from national headquarters, the girls will begin the regular Camp Fire work.

Every parent and every citizen is urged to co-operate with these girls and their guardians to help make this organization a success. The purpose of Camp Fire is to take care of the out-of-school time of adolescent girls, and it works quietly toward the end that through fun and happiness girls may achieve a beautiful and useful womanhood.

The Camp Fire law, which every girl promises to follow is:

Seek beauty
Give service
Pursue knowledge
Be trustworthy
Hold on to health
Glorify work
Be happy

Tuesday morning the Camp Fire girls enjoyed an hour's sport in the swimming pool, under the direction of Mrs. McAdams. Several of the girls made rapid progress in their swimming.

The girls belonging to the Tanda Fire group are: Leona Shelton, Leota Shelton, Mary Louise Woodworth, Patricia Patterson, Frankie Dodson, Virginia Hoblaus, Mary Roselea Jackson, Florence Beall, Glenn Whitfill, and Anna Dell Whorton.

Corpus Christi Lady Glad To Praise Konjola

Old Residents Eager to Tell What New Medicine Did for Her After Others Failed

MRS. H. L. DRYER

"I was badly run down and even the simplest foods brought on attacks of indigestion," said Mrs. H. L. Dryer, for more than fifty years a resident of Corpus Christi, Texas, residing at 1337 Ocean Drive in that city. I bloated terribly after meals and suffered severe belching spells. Constipation was a source of constant worry and I had severe pains in my abdomen after meals. I was unable to sleep at night.

"I have taken Konjola but a week and I can say that every ache and pain in my stomach is gone. I can now rest well at night and eat what I wish without any of my former miseries. I have never used a medicine like Konjola and although I am 68 years of age I can do plenty of work. I am more than glad to pass my praise for this medicine on to others."

This is not an exceptional case. Konjola does work quickly and none the less thoroughly. It is the best in most cases to continue the treatment over a period of from six to eight weeks.

Konjola is sold in Lockney, Texas, at the Stewart Drug Co. and by all the best druggists in all towns throughout this entire section.

54 COUNTIES IN POULTRY SHOW PLANNING

Slaton, Aug. 25.—Permanent organization of the Texas Panhandle-Plains Poultry Association, embracing 54 counties of West and Northwest Texas, was effected at a meeting of poultrymen, county agents and Chamber of Commerce leaders from many points of the area assembled here at a luncheon on Thursday as guests of the Slaton Chamber of Commerce. Initial steps toward the formation of such a body were taken at a meeting here on July 17.

Adoption of a constitution and by-laws and election of the first year's officers were among the important items of business transacted at Thursday's meeting here. Taylor White of Tahoka was elected president; J. O. Roberts, Rotan, vice-president, and L. A. Wilson, Slaton, secretary-treasurer.

30 Directors Named

Thirty directors were elected as follows: R. E. Shaver, Tahoka; D. F. Eaton, Ray Mowery, Lubbock; J. E. Shelton, John S. Powell, Brownfield; W. T. Magee, J. R. Martin, Levelland; E. E. Young, Ralls; Joe E. McDuff, Crosbyton; George Sansom, Knox Parr, Post; W. W. Evans, D. H. Davis, Lamesa; T. L. Kimmel, J. W. Hale, Littlefield; E. L. Tanner, J. M. Hahn, Spur; P. C. Bennett, Robert Ricks, Amarillo; Monroe Jones, Loop; G. B. Martin, Tulia; C. W. Morton, B. F. Russell, Snyder; Ray P. Conaway, Hereford; Frank White Jr., Clarendon; H. C. White, Wellington; R. B. Davis, Plainview, Olin S. Miller, W. T. Hopper, Floydada, and J. E. Bowman, Plainview.

Dates for holding the first annual show here were set for Wednesday, Thursday and Friday, Dec. 10, 11 and 12, 1930. Slaton has been chosen as the permanent home of the show, the holding of which is the main purpose of the new association, it being the belief that such a regional poultry show will prove of much benefit in developing the poultry industry throughout the area.

Plans Made for Show
There will not be separate classes in breed and production types of poultry in the show, but there will be a breeders' flock class, each flock to consist of eight or ten birds, these to be judged on utility. The official to make awards for the flocks will not be a licensed American Poultry Association judge. The judges for pens, singles and trios will be a licensed A. P. A. judge, show officials decided. All standard varieties will be eligible for premiums.

The association's executive committee has been named as follows: Taylor White, Tahoka; J. O. Roberts, Rotan; L. A. Wilson, Slaton; George Sansom, Post; E. E. Young, Ralls; C. W. Morton, Snyder; and Ray Mowery and D. F. Eaton, Lubbock. The manager of the show will be L. A. Wilson of Slaton, who will appoint the show superintendents.

Egg-Laying Contest
Special committees to prepare the show catalog and premium list, to secure judges, to arrange for educational features during the annual show and to give the event all possible publicity are being organized. The association voted on record as favoring the inauguration of an annual egg-laying contest to be held by Texas Technological College at Lubbock.

Membership in the Texas Panhandle-Plains Poultry Association is open to all persons within the territory who are interested in development of the poultry industry. There are no membership dues. Exhibitors will be required to pay nominal entry fees when entering birds for exhibition at each annual show in Slaton. The association voted to incorporate and secure charter.

54 Counties to Join Plans for holding the first annual

show will proceed at once, said Taylor White, first president of the body.

The 54 counties included in the association's territory are: Dallam, Sherman, Hansford, Ochiltree, Lipscomb, Hartley, Moore, Hutchinson, Roberts, Hemphill, Oldham, Carson, Potter, Gray, Wheeler, Deaf Smith, Randall, Armstrong, Donley, Collingsworth, Farmer, Castro, Swisher, Briscoe, Hall, Childress, Bailey, Lamb, Hale, Floyd, Motley, Cottle, Cochran, Hockley, Lubbock, Crosby, Dickens, King, Yonkum, Terry, Lynn, Garza, Kent, Stonewall, Gaines, Dawson, Borden, Scurry, Fisher, Andrews, Martin, Howard, Mitchell and Nolan.

\$215,000 FIRE AT LUBBOCK. LIGHTNING CAUSED BLAZE

Approximately \$215,000 fire loss was caused in Lubbock Saturday night as a result of lightning striking two buildings during a terrific electrical display about 11 o'clock.

The Temple Ellis building, a four-story brick structure, housing the J. C. Penney store and a number of doctors' and lawyers' offices, was practically destroyed; and a mill belonging to W. K. Dickinson and D. R. Crouch was destroyed.

The walls of the Temple Ellis building are still standing though the building was completely gutted. The J. C. Penney stock is said to be a total loss, either from fire or water damage. The doctors and lawyers were able to salvage some of their equipment and records.

The mill had no wheat in storage but was only a short distance from an elevator that was full of stored wheat. However, the elevator was not endangered by the blaze at the mill.

The Temple Ellis building represents a loss estimated at around \$200,000, while the mill had a value of between \$17,000 and \$18,000, but the

warehouse did not burn, making the loss around \$15,000 to \$16,000.

The fire department of Lubbock had to fight both blazes at the same time as lightning struck the two buildings but a few minutes apart.

At the Temple Ellis building the lightning struck a transformer and went into the building on the wires, starting the blazes in several different parts of the structure at the same time. The fire was first discovered in the basement of the building occupied by the J. C. Penney Company, whose main store was on the first floor.

The Temple Ellis building was owned by the Lubbock Mercantile Company of which Temple Ellis is the active head.

Mr. Ellis plans to remodel the building, starting work immediately on a fireproof structure.

HANKINS CASE IS UNEXPLAINED; NO TRACE OF FLIPPIN

Whereabouts of two Plains citizens remains today a complete mystery while officers and friends continue the search for them. One of them, C. B. Hankins, Plainview, is thought by his friends to be dead, the victim either of foul play or of a car wreck. The other J. V. Flippin, Floyd county farmer, simply has disappeared and left no important clues by which the mystery might be solved.

The disappearance of Hankins, whose death was described in a letter found in Hankins car at Erick, Okla., is yet unexplained. While relatives are mourning his death, officers at Erick are convinced that he is not dead. Mrs. Hankins and her five children are still at Levelland with his mother.

Elmer Renner, city marshal at Erick said Monday that he does not believe Hankins is dead but still believes he is in Amarillo. The letter found in the car declared that Hankins was killed in a car wreck and that the writer and another man hid the body where it would never be found.

ROSELAND

Aug. 27—Mrs. C. H. Brown and

children went to Plainview Monday to visit relatives.

Miss Ida Barton and brother Gene, are spending the week visiting with friends at Littlefield.

Fay Barton is visiting relatives in Oklahoma.

Mrs. Sims and Anna spent Friday in Silvertown attending the canning demonstration given by Mrs. A. J. Folley, Miss Strange, and Misses McKinney and Stockton. They report a heavy rain fell at that place Friday afternoon.

Paul and Will Sims went to Lubbock Thursday to see the "Air Derby" come into that place.

Mr. J. M. Lester and Miss Lola Barton were married at Portales, N. M. last Friday and spent several days in Mexico and El Paso. They will be at home at Floydada after this week. They are very popular young people of our community and their many friends wish for them a happy and prosperous married life.

FERGUSON IS THROUGH, HE SAYS IN FORUM

Austin, Aug. 27.—In an editorial in the Ferguson Forum, signed "Pa and Ma," James E. and Miriam A. Ferguson said today they "never expect to seek public office again."

"Every day," the editorial said, "we are asked what of our plans? Our answer is that, while we never expect to seek office again, we will always be at the command of our friends as private citizens with our bit and mite to battle for the interests of the people."

It was the first statement of the Fergusons since Mrs. Ferguson was defeated for the Democratic nomination for Governor by Ross S. Sterling. In another editorial, Ferguson wrote that the reason Mrs. Ferguson did not congratulate her opponent was because of a reference allegedly made by Sterling about Mrs. Ferguson.

Still Take Interest
While the Fergusons may not seek public office, the Forum gave several indications that Ferguson will still take an active interest in State affairs.

First was an appeal for more subscriptions to the paper so that the "fight may be carried on." Second was an outline of what Ferguson believed the next Legislature should do. One of these suggestions was a complete audit of the affairs of the State Highway Department, the Forum stating that none had been made in four years.

Governor Moody's attention was called to this statement and he denied it emphatically. He said that the books of the department are constantly under audit and that if the Legislature desired it, he would welcome an investigation.

Other suggestions for the Legislature were: Repeal of the poll tax law, "So that the poor as well as the rich may vote." Organized opposition in the Legislature to submission to the people of the proposed \$350,000,000 highway bond issue.

A "searching investigation" into campaign expenditures in the primary election.

Make Road Body Elective
Passage of a bill making the highway commission elective.

"These reforms will not be made," the Forum stated, "unless active demand is made for them. The big daily papers will oppose them. The big material corporations will oppose them because they want to be left alone."

Governor Moody, challenging the statement in regard to audit of the Highway Department, said that the first audit was made, by two separate firms, shortly after the new highway commission was installed in 1927.

He said this audit had been made at his suggestion to Commissioners Johnson and Ely.

When the audit was completed, the Governor added, it was found that the department's unpaid obligations totaled more than \$6,000,000 and assets were around \$600,000.

Following this audit, a complete new bookkeeping system was installed and an auditing department added to the Highway Department. It is now possible he declared, to ascertain "within 15 minutes" how much has been spent and what it was spent for.

"It's just another one of Ferguson's bad dreams," Moody commented.

ON MICHIGAN'S DEEP BLUE

By Marian Watson

Editor's Note—The following article was written by Miss Watson on

the eve of her all Summer's Journey, which will take her through the Canadian Rockies, on to Alaska, back to our Pacific Northwest, through national parks, and other places which await the visits of those who resolve to "See America First." In her own inimitable style, she will describe her experiences in other articles soon to appear in the Beacon.

'Tis commonly said of the cobbler's children that they never have soles on their shoes. In like manner I have lived all my life on the border of Lake Michigan and never had a trip on the Lake. So this year, being vacant-minded, I decided I must have one.

And what a delightful and health-giving climax to my summer has been this water-jant through the northern Great Lakes region. I'm naturally a lover of the water; and in this whole world, find no music more lulling than the undulating rhythm of water, or no lullaby more soothing than their low, sweet murmur on the quiet shore. Every night aboard the great steel "Manitou" I slept like a new-born child. And every morning I awakened to the beauty of golden-rippled waters and a glorious shore-line, and the stimulation of pure, bracing air.

For that's one thing about a lake trip which makes it really superior to an ocean voyage. At no time are you out of the sight of land. And the ever-changing panorama of beauty along the shoreline makes you seem to drift through fairyland, while proving a source of great delight. Beach and forest, hill and dale, inland lake and stream, follow in beautiful succession, as Nature graciously changes her setting which you view, lazily but appreciatively, from the depths of a comfortable deck-chair.

We made our first stop out of Chicago at Portage Lake, . . . the center of one of the most beautiful and healthful resort sections in northern Michigan. Slight wonder that this spot is popular, for here the air is sweet and bracing, and the lake, with its broad expanse of calm water, is crystal clear. Four miles of turquoise blue ripples, outlined by a long stretch of smooth white sandy beach, and backed by forest-clad hills of luxurious green!

Then on to historic Mackinac Island, rightfully named "The Cool Beauty Spot of the World." What a thrill I felt as we steamed through the waters of the Straits and I saw beautiful Mackinac on a rock-bound height above us, its picturesque ruins and forts standing out against the blue of a late summer sky at mute reminders of historic battles fought by the French, English and American troops. And well I understand now, after a few days spent in these delightful surroundings, why Mackinac is the peer of American resorts. Wonderfully endowed by Nature, and rich in legendary lore, cool breezes, and an invigorating atmosphere, it offers the added allurements of historic charm and romantic legend. And to those who come here weary in mind or tired in body, it holds out the opportunity for a complete change and rejuvenating rest.

I'm enjoying every moment of it, knowing that it will prove a relaxation after the excitement of the summer and store up a treasure-house of energy for the year that lies ahead.

Wilford Jones' Car Stolen

The Ford Tudor Sedan belonging to Prof. Wilford Jones of Lockney, was stolen from the front of his boarding house in Canyon on Friday night, and so far, the car has not been found. The car was a Ford Tudor Sedan, Model "A", Arabian sand color, Engine No. 526-046, License plate No. 425-357 (Texas). Mr. Jones has offered a \$25 reward for the return of his car.

BRISCO COUNTY SINGING CONVENTION TO MEET SUNDAY

The Briscoe County Singing Convention will meet at Rock Creek, Sunday, August 31st, at 2 o'clock. All singers are invited to be present.

To the Citizens of Floyd County:

I wish to express my most sincere thanks to my friends who gave me such loyal support in Saturday's Primary election. To those who opposed me I wish to say there will be no ill-feeling on my part.

I will do my best to make Floyd county an efficient and impartial officer. Asking in the interest of Floyd county, for the co-operation of all, I remain,

Yours truly,
P. G. STEGALL.
