

THE LOCKNEY BEACON

Established 1902

Published Every Friday

J. L. SUITS, PUBLISHER
MILDRED HAGE, EDITOR

Entered April 14, 1902, as second class matter at the postoffice at Lockney, Texas, by act of Congress, March 3, 1879.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The Beacon will be corrected gladly upon its being brought to the attention of the publisher.

POLITICAL DEPRESSION

People have been jittery the past seven years that they call every little reverse in business conditions a "Depression," and since we now have with us a business slump, of course every body is hollering their heads off about another depression.

Yes, we have a depression if you wish to call it that, but it is nothing more or less than "Political Depression" and it is all uncalled for, just a lot of hard-head stuff, neither side will give or take or compromise; it is a battle to death, and while it is going on, the people of the United States must pay the bill and do the suffering.

Whenever every thing is side-tracked for a fling the great sport of "politics" business is going to pop. Take your own little individual business as an example, when you take a big hand in politics your business begins to crumble, you make plenty of enemies as a rule and then if you should lose out in this great game you are just a dead injun, that's all, and who wants to be a dead injun, so you will do everything in the world in order to win.

Up at Washington, it has been one of the greatest games President Roosevelt and the Deal party have played against Big Business and the laboring class. The Deal party have been playing the game of "divide and conquer" and the laboring class has been the opposite of the Deal party's prospect.

ous through many years, by forming large corporations, to double and triple their wealth until they have become all-powerful in the business world and in fact just about control everything in the way of business. They can make or break the country, or could up until the present administration came into existence.

The New Deal administration has many agencies to hold followers in line. The farmer has been given a farm program with the idea in mind to make every farmer's income equal. That is a farmer with a 160 acre farm would have as large an income as his neighbor that has 160 acres. That is impossible for we have good farmers, fairly good farmers and poor farmers. But in order to even things up, they are paid so much to do this and so much to do that and so much not to do this and that, until the farmer doesn't know whether he is riding or walking, flying or crawling on his hands and knees, but it is a good agency to hold them in line, because a fellow always likes to get something for nothing—Santa Clause always did have an appeal.

The laboring class of people have had laws passed governing the number of hours they should work, the rate of pay they should receive, unemployment insurance, old age insurance, the right to strike, picket, organize, sit down or walk out. All of which is good to hold the laboring class more in line.

Now on the other side of the fence we have large industries, such as railroads, industrial plants,

auto factories investment houses, cotton and wheat merchants and hundreds of other business enterprises that go to make up what we call "Big Business" and they are bucking up about being taxed to death, telling how to run their business. Passing this and that law interferes more or less with the operation of their business. Telling them how to pay their help, etc.

So there you are folks. They are all in Washington trying to get laws passed and repeal the effects this way and that. It has developed right down to politics pure and simple. And business says if they get this law passed or that law repealed they will have to shut down their factories and that causes more unemployment. The New Deal boys say "you shall not pass" and the battle is on. Factories begin to cut down the number of men on their payroll. Congress votes more relief money, more factories down. Then price of farm products begin to take a nose dive. Henry Wallace's outfit begins to loan farmers money on cotton and wheat, tomatoes, pumpkins and what have you. More people lose their jobs. The little country merchant and bankers become frightened and talk about another depression "worse than the last one," and business slides right down to the bottom of the adder.

We believe the people are in the right frame of mind for the conference table and give a little compromising. Get around

New Deal and business boys do not agree on what the damage would be. Some said it would not produce a thing, that it would fall down, heads would turn white an cut all kinds of capers. Others said it would snap out of it and we would have about a 75 per cent crop. Some became panicky and plowed it up; others grazed it off. So there you are folks No authority on wheat after a severe freeze. The Green bugs did a lot more damage around Lockney than the freeze did. There is one thing to remember about wheat; it is a winter plant, and is plenty tough when it comes to cold weather.

We are terrible uneasy. We notice in the papers that a fellow shot another man because he owed him 85 cents. We are in the market for a coat of armour, plenty heavy, for if they go to 85 cents, our creditors are going killing people because they owe to cut us up in small hunks.

We didn't know that farmers were so foolish about cotton until Henry Wallace's top hands began dishing out cotton acreage a couple of weeks ago. Along about cotton gathering time last year and when the price began to slide downward farmers were heard to remark: "We don't give a damn whether we plant a stalk of cotton next year or not. It isn't worth gathering. Wish they would pass a law where a man could not plant the darn stuff for five years." But when they received their allotment and were dished out 25 acres and they had planned to plant 50, the fat was in the fire. People are funny; they

for the past 30 years, could not agree on what the damage would be. Some said it would not produce a thing, that it would fall down, heads would turn white an cut all kinds of capers. Others said it would snap out of it and we would have about a 75 per cent crop. Some became panicky and plowed it up; others grazed it off. So there you are folks No authority on wheat after a severe freeze. The Green bugs did a lot more damage around Lockney than the freeze did. There is one thing to remember about wheat; it is a winter plant, and is plenty tough when it comes to cold weather.

want to do things they think they cannot do. They also wanted law passed allotting each farmer many acres and let him sell all he could produce on those acres without penalty. Well they got that law, and it has steel teeth in it, and some were expecting rubber teeth. Some wanted both rubber teeth, but if it nailed the other fellow the steel ones would come into play. The trouble with all of us is we want to keep our pie and eat it.

MAIN STREET CHURCH OF CHRIST

Earnest McCoy, minister

Bible study at 10 a m
Preaching at 11 a m and 8:30 p m

The subject for the morning hour will be "Can Good Be Saved Out Of Church?"

Young People's class at 7:30. Ladies Bible class Monday at 3 p m.

Prayer meeting Wednesday at 8:30.

Providence News

Members of the Providence Home Demonstration Club met last Monday afternoon at the

home of Mrs J M Williams. The meeting was open by Miss Grimes, county demonstration agent. During the business session of the meeting, Mrs Ben Brandes was chosen for chairman of the recreation committee with Mrs

Erma Smith and Mrs Clarence Brandes. Council report was given by Mrs T E Cowart. Ladies selected to take part in the county chorus were Mrs M C Steel, Mrs W Pierce and Mrs Arthur Samman.

A motion was made at the meeting to pay \$1.25 for council chairman to go to the A & M short course.

calauarete sermon. Dad criticized the sermon, Mother thought the organist made a lot of mistakes. Sister didn't like the choir singing. But they all shut up when little Billy chirped in with the remark: "I think it was a darn good show for a nickle."—The Weekly Record.

WHEN LIFE DEPENDS ON TIRE SAFETY. On May 30, Floyd Roberts shattered all track records in the 500 mile Indianapolis Race, averaging 117.2 miles an hour using Firestone Gum-Dipped Tires. IT'S ALWAYS Firestone. FOR 19 CONSECUTIVE YEARS THE WINNERS OF THE INDIANAPOLIS 500-MILE RACE HAVE PROTECTED THEIR LIVES WITH FIRESTONE GUM-DIPPED TIRES.

THEY said it couldn't be done — that tires could not withstand the torture of the new high speeds. Yet Floyd Roberts set a new record, at this year's Indianapolis Race, averaging 117.2 miles an hour for the 500 miles on Firestone Gum-Dipped Tires. With the sun-baked brick of the straight-away and the granite-hard surface of the turns pulling and grinding at their tires, 33 daring drivers, every one on Firestone Tires, waged a thrilling battle for gold and glory. Never before have tires been called upon to take such punishment. Never in all the history of the motor car has tire safety been put to such a gruelling test. Yet not one tire failed — not one single cord loosened — because Gum-Dipping, that famous Firestone patented process saturates and coats every cotton fiber in every cord in every ply with liquid rubber counteracting the tire-destroying internal friction and heat that ordinarily cause blowouts. Why risk your life and the lives of others on unsafe tires? Join the Firestone SAVE A LIFE Campaign today by equipping your car with Firestone Triple-Safe Tires — the only tires made that are safety-proved on the speedways for your protection on the highways.

RUCKER - WHATLEY VOWS SPOKEN SUNDAY

The home of Mr and Mrs J S Rucker south of Lockney, was the setting for the wedding ceremony in which their daughter, Pauline, became the bride of Raymond Whatley. The nuptial vows were read by the Rev. H H Hamilton of Lockney Methodist Church. The bride, who is a graduate of Plainview High School, was attended in a british tan frock and

carried beige accessories. Her bouquet was of baby breath. She was attended by Gwen Wofford, who was dressed in beige and and british tan. The bridegroom is the son of Mrs Lizzie Whatley of Lockney. He is a graduate of Lockney High School and is employed at the Cox Hardware & Furniture Company here. He was attended by Avon Powell. Following the ceremony, a wedding breakfast was served to the

following guests: Lola Amarillo, Mr and Mrs Raymond Rucker, Mrs Lizzie Whatley, Mrs L O Landrum, Ridginald Landrum; Miss Jessie Landrum; Mrs Goods, Gwen Wofford, Avon Powell; Mr and Mrs J S Rucker, and the honorees, Mr and Mrs Raymond Whatley. Following the breakfast, the couple left for Lubbock and Quitaque for a weeks visit. They were the honored guest at a dinner given this week at Quitaque by Miss Jean Puckett. The couple returned to Lockney Wednesday where they will make their home.

School News
Liberty school closed last Friday with the closing exercises held at 10:30, followed by the seventh grade exercises. Those receiving diplomas from the seventh grade were: Valdictorian, Thomas Warren, salutarian, Bobbie Sue Langley, Vivian Dillard, Dorothy Brewer and Glenna Brewer. This class will to the seventh grade the following: Glenna Brewer will her willingness to work, Peggy Dillard will her red hair, Bobbie Sue Langley will her dimples, Dorothy Brewer will her smile, and Thomas Warren, his ability to study. Those visiting in school last week were Worgen Burchfield, Otis Long and Jackie Yeary. We are happy to report that we will have two teachers at Liberty next year. Miss Doris Brock of Henrietta will teach the primary grades and Miss Mattie Taylor will teach the higher grades. Miss Taylor has taught in the Liberty school for the past two years.

Buren Foreman and son, Vernon, visited Henry Brewer and family Sunday. Mr and Mrs M H Taylor and family visited Henry Brewer and family Sunday night. Mrs D V Foreman, Mrs Henry Brewer and son, Duwayne, and Buren Foreman visited Mr and Mrs Jim Green and family Sunday evening.

Get-To-Gether
Wednesday afternoon at the home of Mrs N T A following were present: Bloxom, A R Bloxom, wards: J G McGuffey, W Fields, J E Watson, and the hostess, Mrs Byars. The club will have its next meeting Wednesday, June 22, at the home of Mrs Adria Blankenship.

Elwana Smith of Floydada spent the week-end in Lockney with her cousin, Gwen Wofford.

THE LOCKNEY BEACON

Established 1902

Published Every Friday

I. L. SUITS, PUBLISHER
MILDRED HAGE, EDITOR

Entered April 14, 1902, as second class matter at the postoffice at Lockney, Texas, by act of Congress, March 3, 1879.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The Beacon will be corrected gladly upon its being brought to the attention of the publisher.

If your car is not in tip-top shape you had better keep off the highways for Texas State Highway Patrol Officers are roaming up and down the highways picking up those that have bad lights, bad brakes, no tail lights and a variety of other infractions to cut down highway accidents and deaths. It is for your safety and the safety of others, so let's co-operate in this movement. Have your car inspected now.

We just noticed in the papers where Jim Farley, the Postmaster General, has an office in Washington that makes all other offices of the capital city look like PWA projects. But one must remember if it had not been for Jim Farley those other Democratic boys would not have needed an office of any kind. They would still be at home in their office up over the bank building.

June 19th is Dad's Day, also nigger day. Remember Juneteenth has always been a big day for the niggers since they received their freedom. At first we disliked

Dad's Day coming on this day for fear the niggers would outshine the fathers and put on a bigger celebration and so forth. But after we thought over the proposition a few days we decided it was all right, for most fathers have been more or less nigger for the family anyway. So we will celebrate the same day with the niggers.

Well, if the pump needs priming, prime it. Don't fool around and die of thirst because the pump needs priming. If your nose needs blowing, blow it, even if it want stay "blowed". You ought to know that a pump will not stay "blowed". Some smarty politician thought up that pump priming gag to put the wet blanket on the scheme to help the "forgotten man"—"Uncle Bill" in Sterling News-Record.

That's the great trouble, Uncle Bill, with this pump priming business or anything else the Government goes to do, all political angles must be worked out first, and prime the pumps where the votes

--- the Worst is Yet to Come

are the thickest and most doubtful. People are getting worried with so much politics. They want the boys up at Washington to get down to business and cut out the monkey business. When the pump needs priming, it needs priming, or does it?

The Texas Press Association convention will meet in Lubbock next year. This was decided at the meeting at Port Arthur last Saturday. This is the first time in many years that the Press Association comes to West Texas, and that Lubbock will handle the job in a big way without saying. Deskin Wells, publisher of the Wellington Leader, was elected president.

The load of political ammunition of Roosevelt, Garner, Farley, Wallace, Corcoran & Co., backfired in Iowa election and near blowing up the home camp. When these political potatoes step out and tell different states just how and who to vote for, they had better be sure their powder is dry before they begin to fire away. Some people have ideas of their own.

John L. Lewis, the big wig of the C. I. O., is jumping out of the frying pan into the fire and then jumping back into the pan again, and then out again, and by this performance is gradually slipping. It is fast becoming the goal of every political trap set by the owners that he is on his way out. His own followers are beginning to distrust him.

Government credit has taken the way out. For a while this was used as a kind of inflation, but it has burnt itself out and we may have some other kind of inflation. However, FDR is opposed to inflation, but it is going to take a dose of it to ever get things better again. When you begin to talk about inflation, the boys that hold the money bags begin to get uneasy because it will make the dollars they have now hoarded up worth considerable less. The farmer, the small business man and laborers always welcome controlled inflation. The farmer had rather receive \$1.50 bushel for wheat and 18 cents for cotton even though the money received for these products does not buy as much as does today. They handle more money, they feel better. Laborers who receive \$2.00 per day today had rather receive \$3.00 under inflation practice and the business man receives money for his goods, and that makes him more happy.

If you don't look out the hoppers will get you. In the per Panhandle they are fighting them day and night. They are thick as flies around a mill. If you haven't poisoned better do it now. Of all the normal years, this one takes the most.

Grasshoppers: farm program leave out land, plow up cotton land and wheat land, no place for a garden, and dates as thick as chives at a country picnic down on creek.

If you get one of those "chairs" from the Veterans Club of Kansas City, it will stove or waste three or four hundred dollars that city are sending for mail" again.

to send a dime or so to five other people, etc., something like the last chain letter craze. Don't be a sap, chuck it.

Japan continues to kill Chinamen like snowbirds under a dead-fall. Airplanes sail over Chinese cities and let go with a ton of bombs and there you are dead stewn every where, men, women and children and the city in ruins, and no war has been declared yet. Guess when they get tuned up good and proper they will perhaps declare a state of war exists. If we wanted to start a war we would pay a handsome sum for this Japanese-Chinese start. No thanks, we don't want anything to do with a war. We had rather pursue life in our own happy-go-lucky way.

The governor's race is getting to be comical. They are promising everything under the sun if elected, when in fact they cannot do a thing unless the Legislature gives its sanction. The Governor is nothing more than the chairman of the meeting. He likes a lot of being the "whole cheese so don't let them kid you. For a Governor to carry out one-fifth of his promises, he has to sweep into office with him two-thirds of the members of both the House of Representatives and Senate. Think that over, then see what the chances are for various candidates to do what they promise.

The Old Age Pension proposition is getting to be the greatest political football proposition of all time. It is fast working into a gigantic political graft for ward-healers (the boys that get out of the vote and promise everything). They make the old people believe if their candidate is elected their checks will be enlarged, and those that are not on the pension roll will be placed there immediately. These old people have a lot of money, and so do their relatives, and that is what they are after. Some propose a sale tax to raise the money so everyone 65 years of age will receive a check. It all sounds good and has an appeal in the Santa Clause angle, but it is hard to do. It takes a lot of money, and it should be done where the case is worthy. We believe every old person who has no income upon which to live should receive a pension, but the rules are so strict many old people are in want and do not receive one penny. If they have a relative that is getting along fairly well financially, they tell you that relatives should support you. There is no law that compels one relative to support another, but they are making those old people believe there is, and thereby keep them off the pension rolls, which is all wrong.

THE LIBERTY LEAGUE'S SUCCESSOR

The part the Liberty League played in national affairs a while back is to be taken, dispatches indicate, by a new organization to be called National Rededication. Its announced purpose will be to uphold the principles laid down in the declaration of independence and the federal constitution. Its personal appearance will be much the same as of the Liberty League. There is a place, undoubtedly, for an organization in the American scheme of things. We believe certain basic principles are being reversed, and we are prone to think that the Liberty League perhaps should be re-dedicated.

No Wheat Marketing Quota This Year

College Station—The wheat will not be subject to the marketing quota plan in 1938, according to Geo Slaughter, Wharton, chairman of the Texas Agricultural Conservation Committee. The new farm act set May 15 is the latest date for establishing a national wheat marketing quota subject to referendum by wheat growers, and also provides that no wheat quotas can be in effect during the marketing

year beginning July 1, 1938, unless provisions for parity payments have been made.

The Texas committee received word at its headquarters at Texas A. and M. College from AAA officials at Washington that the wheat marketing quota would have been proclaimed if parity payments had been provided for within the required time, Slaughter said.

The farm act provides that the wheat quota shall be proclaimed when the total supply of wheat will exceed the normal year's domestic consumption and exports by more than 35 per cent.

The Division of Crop Estimates has indicated that the probable production will be 754 million bushels of winter wheat and around 200 million bushels of spring wheat, and there is a carry over of about 200 million bushels.

The total supply of wheat is expected to be approximately 1,154,000,000 bushels. This amount would be 400 to 450 million bushels in excess of the normal year's domestic consumption and exports and about 200 million in excess of the marketing quota level.

Wheat is the only crop for which marketing quotas this year depended upon provisions of parity payments, Slaughter pointed out. Marketing quotas are already in effect for cotton and for flue-cured, burley, and the dark tobaccos. The act provides that there shall be no marketing quota for rice this year.

Mr and Mrs Olin Ridings and daughter, Yvonne, of Waurika, Okla. arrived here Sunday for a visit with friends. Ridings will look after after farming interests while here.

Austin Strickland of Hagerman, N. M., is here visiting with his sister, Mrs. Wayne Davis; and brother, Clarence Strickland.

Brief Of The 1938 Soil Conservation Program

Most of the allotments have been mailed to the producers with the exception of a few work sheets which will have to be split or combined for the 1938 Program. These people who have not received their allotments should contact the County Agent's Office, bringing all parties interested, in order that the split or combination may be executed and the allotment given out to the farm as it is to be operated in 1938.

Because of the rush in the Office in getting out allotments, it has been impractical to try to hold meetings in the different communities other than these which have been held in the last two weeks. As soon as time will permit, educational meetings will be held in the different communities and until that time, producers should contact the County Agent's Office if in doubt about any phase of the Program.

The following is an example of a typical Floyd County farm having 100 acres of crop land on which has been allotted 30 acres of cotton, 43 acres of general al-

lotment and 27 acres of soil conserving allotment. On this farm the producer must plant not more than 30 acres of cotton.

He can plant as low as 24 acres and still draw his full cotton payments. If he plants less than 80 per cent of his cotten allotment his payment will be figured at the rate of whatever acres he plants times 1.4 times the normal yield per acre times 2.4c per pound. This producer is allowed 43 acres of general allotment, which means that he can have 43 acres planted in general crops such as wheat, barley, oats; maize, hegari; kaifir and other grain crops for harvest and these crops can be sold. This farm has 27 acres of soil conserving allotment which can be planted to sudan, cane or millet for hay or the sudan may be grazed. There are other ways which the soil conservation acres may be treated. For instance, 1. It may be left idle and contoured or basin listed; 2. Devoted to cow peas and turned under after good growth; 3. Strip cropping of soil depleting crop with fallow acreage may be used but the producer should bear in mind that the Soil Depleting acres such as maize or hegari will count as part of the general allotment. Only the fallow strip will be considered as Soil Conserving and this may be accomplished by planting this way: Plant 2 and skip 3 forty inch rows; plant 2 and skip 4; plant 4 and skip 4, etc. If this is not absolutely clear, suggest that you contact the County Agent or Assistant if you plan to use this method.

The Class I cotton payment for this farm would be 30 acres times the normal yield times 2.4c per pound and figuring at 100 pounds per acre normal yield, his payment would be \$72.00.

The Class I general payment would be 43 acres times the index, an average of which is \$1.00 per acre and would equal approximately \$43.00. Wheat and grain sorghum are in general allotment for compliance this year. There will be wheat this year for the purpose of computing the payment. Within the general allotment, the wheat payment would be the average number of bushels per acre times 12c times whatever wheat allotment is given within this 43 acres.

The class II payment will be the 27 acres times 50 cents, making a total of \$13.50, which is a Class II allowance. Two-thirds of this amount equals approximately nine Units. When these Units are made, the payment is earned. To make these Units, any of the following methods may be employed: One part or all of the Soil Conserving acreage.

1. One acre of green cover crop such as sudan, cane, or millet turned under after reaching a good growth.
2. 200 feet of standard terrace built in 1938.
3. 4 acres of contoured strip cropping.
4. 8 acres of contoured listing or furrowing of crop land in preparation for crop.

Good Things To Eat

"PICK UP!" TO "PEP UP!" YOU AND YOUR DISHES!

Foil flatness in your feasts; put pep in your pallid provender—"pick-ups" can do it!

A "pick-up" is anything that, literally, "pick-up" a dish and how banana slices improve peapod butter sandwiches or dates carries it up to the heights of haute cuisine.

Additional practices, such as riding of pasture land or contouring of pasture land may be used and specifications may be secured at the County Agent's Office.

Answers to questions being asked daily at the County Agent's Office are as follows:

1. Payment may be made if a producer has a cotton allotment and there is no cotton planted.
2. Land planted to cotton will be considered as devoted to cotton when bolls are first formed.
3. Land planted to cotton within the allotment and destroyed by flood or drought may be planted to grain sorghum and the producer still receive his cotton payment, provided he originally planted between 80 per cent and 100 per cent of his cotton allotment.
4. In cases in which small grains are harvested and followed by cotton and the cotton reaches maturity, the small grain, if other than wheat; will not be reported. If the small grain is wheat, the acreage will be counted twice and reported as both wheat and cotton. Seeded wheat is classified as wheat unless designated by April 15 and plowed up by May 15 where it was designated.
5. Alfalfa seeded prior to 1938 is not a Soil Depleting crop but on the other hand this land can not be used to make Units in earning Class II payment.
6. The planting of forest trees is not a Soil Depleting crop and if the producer furnishes more than one-half of the total cost of carrying out the program in cooperation with the Forestry Service, he will receive one Unit for each 2 1/2 acres toward his Soil Building Units. If the Forestry Service furnishes as much as one-half of the total cost of carrying out the program, no credit can be given towards the producers Soil Building Units.
7. Producers should measure their farms and be certain of their acreages as adjustment of Allotments will be made after compliance is checked.

naise, the drop of vanilla in the whipped cream, the snip of chives on the potatoes—these are pick-ups for provender. Notice how a little grapefruit juice pick up the flat French dressing, how a sprinkling of Brazil nuts aids the ice cream, how banana slices improve peapod butter sandwiches or dates the dish of bran?

PICK YOURSELF UP

Pick-ups are, basically, stimulants. The perfect pick-up plants let you down. That delicious drought of coffee that starts off the evening meal is one of the prime pick-ups of them all, because it has no let down afterwards. Canny housewives are finding that to stop in the middle of the morning for a cup of coffee helps them bounce through their work faster besides, it tastes good!

PICK-UP POINTERS

Pick-ups, be the beverage or ingredients, should have two characteristics: they should be decided in flavor, and full in color. If an ingredient, they should offer contrast to the food they accompany.

Deiled Eggs With Brazil Nuts (It's the Nuts!)

- 6 hard cooked eggs
 - 1 1/4 cup mayonnaise
 - 1teasp. mixed mustard
 - 1-2 teasp. onion juice
 - 1-2 teasp. salt
 - Pepper
 - 1-2 cup chopped Brazil nuts
- Shell eggs, cut in halves and remove carefully. Mash yolks thoroughly, add mayonnaise, seasonings and one-fourth cup of chopped nuts. Mix well and refill shells with this mixture. Sprinkle with remaining nuts and serve on a bed of parsley or other green as a first course or with a salad.

Coffee Pie

- Coffee's IN The pie!
 - 1 tsp granulated gelatin
 - 1 cup of strong coffee
 - 3-4 cup sugar
 - 1-4 teasp. salt
 - 3 egg yolks
 - 3 egg whites, stiffly beaten
 - 1 baked 9-inch pie shell
- Soak gelatin in 2 tablespoons cold coffee; add sugar, salt, and egg yolks, mixing slightly. Bring remaining coffee to a boil, add gradually to gelatin mixture and stir until gelatin is dissolved. Chill. When thickened, beat with

rotary egg beater until light and foamy. Fold into egg whites. Turn into cold pie shell and chill until firm. Garnish with whipped cream, if desired.

Bananas Florentine (Spinach Makes The News)

- 2 lbs spinach
 - 3 tbsps. melted butter
 - 3 tbsps. cream of undiluted evaporated milk
 - 1 teasp. minced onions
 - 1-2 teasp. salt
 - 1-2 cup grated American cheese
 - 4 firm yellow bananas
- Cook the spinach, drain and chop coarsely. Add 2 tablespoons of the butter, the cream, onion, salt and 2 tablespoons of the cheese. Spread in a shallow pan about 6 x 10. Peel the bananas, place crosswise on the spinach; brush the bananas with the remaining butter and sprinkle with a little salt. Sprinkle remaining cheese over spinach and bananas. Bake in moderate oven for 20 minutes or until bananas are tender. Allow half a banana served on some of the spinach for each serving. 8 servings.

Stuffed Olive Dressing (Perks Up The Salad)

- 1 teasp. salt
- 1 teasp. dry mustard
- 1 teasp. granulated sugar
- 1 teasp. paprika
- 1 teasp. cayenne
- 2 tbsps. catsup
- 1 cup mazola
- 1-4 cup vinegar
- 1 2-oz. bottle stuffed olives, sliced.

Mix all the dry ingredients and the catsup together. Beat well with a hand beater or an electric beater at high speed, then add the mazola one teaspoonful at a time, beating well after each addition. Add vinegar gradually, beating all the while. Add the olives and chill. Makes about 1 1/2 cups dressing, and is delicious on romaine or lettuce salad.

Bran Date Bars

- Contrast in Texture
- 3 eggs
 - 1 1-2 cup brown sugar
 - 3-4 cup flour
 - 3-4 teasp baking powder
 - 1-2 cup all-bran
 - 1 cup chopped nut meats
 - 1-2 cup pasteurized dates, chopped.
 - 1-2 teasp. salt
- Beat eggs, add sugar and beat until light and fluffy. Sift flour with baking power and salt. Add to first mixture with remaining ingredients and mix well. Spread batter 1-2 inch thick in shallow greased baking pan. Bake in moderate oven 20 to 30 minutes. While warm, cut into squares or bars. Roll each piece in powdered sugar.
- Yield: 30 bars (9 x 13 inch pan).

If someone has put something over on you, remember there are more than a hundred and twenty-million people in America who have never played you a single dirty trick. — "Daily Breeze", Claude News.

ANNOUNCEMENTS

Announcement fees, payable in advance:

- District offices ----- \$15.00
- County offices ----- \$10.00
- Precinct offices ----- \$7.50
- City offices ----- \$5.00

The Beacon is authorized to announce the following candidates for offices, subject to action of the Democratic Primary, Saturday, July 23, 1938.

- For District Judge, 110 District: KENNETH BAIN ALTON B. CHAPMAN
- For District Attorney: WINFRED F. NEWSOM JOHN A. HAMILTON
- For County Judge: TOM W. DEEN G. C. TUBBS
- Tax Assessor and Collector: E. S. RANDERSON FRANK L. MOORE HENRY BLOODWORTH
- For County Clerk: BYRON CLARK
- For Sheriff: FRED CLARK (Re-Election)
- For County Treasurer: MRS. O. M. CONWAY (Re-Election)
- For County Attorney: W. E. GRIMES JOHN STAPLETON
- For District Clerk: GEO. MARSHALL
- Commissioner Precinct No. 2: E. R. HARRIS HENRY ROBERSON
- Justice of Peace, Precinct No. 2: O. T. PRICKETT D. C. LOWE C. C. HACKNEY

The class II payment will be the 27 acres times 50 cents, making a total of \$13.50, which is a Class II allowance. Two-thirds of this amount equals approximately nine Units. When these Units are made, the payment is earned. To make these Units, any of the following methods may be employed: One part or all of the Soil Conserving acreage.

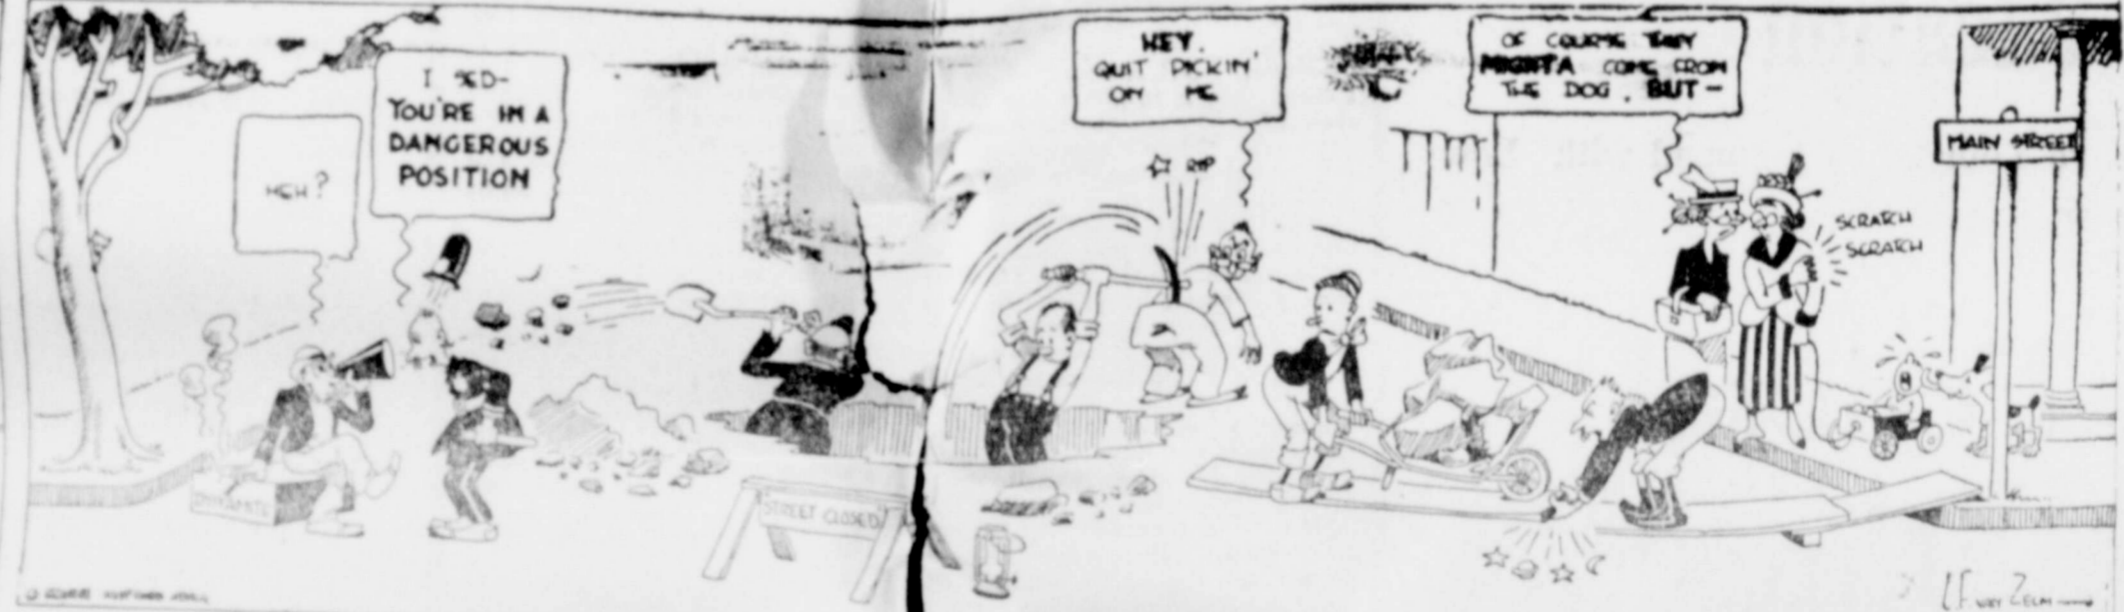

1. One acre of green cover crop such as sudan, cane, or millet turned under after reaching a good growth.
2. 200 feet of standard terrace built in 1938.
3. 4 acres of contoured strip cropping.
4. 8 acres of contoured listing or furrowing of crop land in preparation for crop.
