Here Are Scenes, Ships, Personalities Figuring In War With Axis

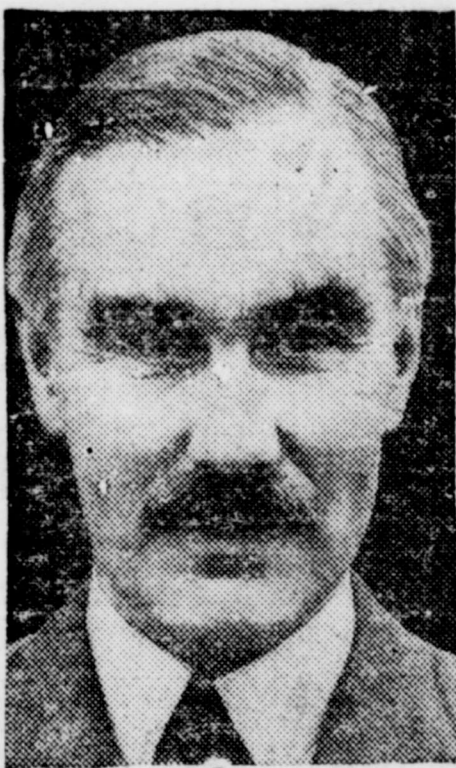

This is the Japanese submarine I-61 which may have been the type among those reported in the Pacific between Hawaii and San Francisco. This submarine was completed in 1927 and had a reported cruising range of 16,000 miles, enough to cross the Pacific ocean and return without refueling.

The U. S. S. Houston, under command of Admiral Thomas C. Hart, is the flagship of the Pacific fleet.

Mighty coastal gun on the Hawaiian island of Oahu. This gun may have been used against the Japanese in their surprise attack on the United States Pacific base.

Joseph C. Grew, the U. S. ambassador to Japan.

Lieut. Gen. Walter C. Short, commander of the Hawaiian department.

Admiral Claude C. Bloch, commander of the 14th Naval district (Hawaii).

Admiral Osami Nagano, chief of the Japanese naval general staff.

General Gen Sugiyama, chief of the Japanese army general staff.

View of the American Airlines station on Wake Island, tiny U. S. possession in the mid-Pacific, reported taken by the Japanese. Wake Island has only one square mile land area. It lies 2,200 miles from Hawaii.

U.S. Wages War On Entire Axis

(Read Story on Page 16)

What Is Our Job In This Emergency?

Now that war has come to the U. S. all of us are asking, "What can I do to help?"

It is typical of Americans, of the American spirit, that each individual wants to do that thing which will assist his country most in times of danger.

The youth of our nation are offering their lives!

Theirs is an important task and we glory in their bravery. We are proud of every one of them. We love them more for their sacrifice, although we felt all the time that when the country's call came they would be the first to answer.

Ours, too, is an important task.

The nation's armed forces must be fed. The world is calling for FOOD. Normally it would be easy for you to hire labor and buy the power and machines you need for expanding your operations. But now farm labor is scarce at any price—and there may not be enough new machines to go around.

COMMON SENSE SAYS THIS IS A YEAR FOR WISE AND SKILLFUL REPAIRING. Restore old tractors and machines and make them work. Take care of them. Keep them housed and lubricated. Help your neighbor and let him help you and together you help your nation.

This next year will be a trying one for all of us. Everyone will have new problems. Your International Harvester dealer will supply all the new machines he can—and he is equipped to do a service job as never before. COMMON SENSE SAYS IT CAN PAY YOU OVER AND OVER AGAIN TO KEEP IN CLOSE TOUCH WITH YOUR EQUIPMENT DEALER. His stock of machines, his service facilities and his practical advice are at your command.

HARTLEY TEACHER IS WED SATURDAY

Mrs. Ola Bird, teacher in the Hartley schools, and C. P. Whittier, long-time resident of Hartley county, were married Saturday night. The wedding was quietly solemnized in Clayton.

BREAKFAST GIVEN AT PIRTLE HOME

Mrs. W. B. Pirtle was hostess yesterday morning at a breakfast meeting for the VFW Auxiliary. Mrs. Albert McCannless, vice president, presided during the business session.

Plans were made for a Christmas party to be given on December 17. Mrs. N. A. Scott will be hostess.

DALHART GIRL RECENT BRIDE

Mr. and Mrs. O. J. Rounsaville announce the marriage of their daughter, Mildred, to J. R. Blackwell, Jr. of Amarillo, which took place in Clovis, N. M., on Sunday, November 16.

The bride was graduated from Dalhart high school last May. Mr. Blackwell is with the Santa Fe Railroad.

The couple will make their home in Amarillo.

CHRISTMAS PARTY CALLED OFF

Mrs. G. W. Dawson announced today that the Christmas party scheduled for the Woman's Literary Club next Monday afternoon will not be held. The meetings will be resumed December 29.

Mrs. Dawson also reminded that the club would furnish Christmas baskets for the needy. Members are asked to have the gifts at the home of Mrs. J. M. Burrow by Dec. 24.

TEA SHOWER IS GIVEN FOR BRIDE

Mrs. Gene Dugger, the former Bobbie Isbell, was the honoree at a prettily appointed tea-shower given last Sunday afternoon by Mrs. Julius Selby.

Fifty friends of the bride called at the Selby home between the hours of 2 and 6 o'clock.

Mrs. L. E. Isbell and the hostess presided. The table, covered with white, was centered with pink sweet baskets.

LUCILLE KEYSER DECEMBER BRIDE

Announcement has been made of the marriage of Miss Lucille Keyser, daughter of Mr. and Mrs. J. H. Keyser, and Ray Paulk, which took place Sunday night at the Street Methodist parsonage.

Rev. R. H. Campbell officiated in the presence of Mr. and Mrs. Maurice Peden.

The couple will live in Dalhart. Ray Paulk is employed by a local oil station.

ANNUAL LINEN SHOWER TONIGHT

Mrs. J. T. Ellison has announced a meeting for the Eastern Star Chapter for tonight at 7:30 o'clock at the Masonic Hall. Each member is asked to bring some linen for the holiday boxes to be sent to orphans and the aged.

C. Of C. Meeting Tomorrow Night

The new and holdover directors of the Dalhart Chamber of Commerce will elect a president, vice-president and treasurer at their first meeting which will be held at 7:30 tomorrow night. Secretary Rex Mahoney reminded today.

The selection of a secretary-manager and assistant, the discussion of the budget, and other business of the new year is scheduled.

The Selective Service Medical Division reports that 20 per cent of its rejections were for dental defects and nearly 14 per cent for defective eyes.

HELPS PREVENT COLDS From Developing

Farmers No. 1 Need Is Lowered Freight Rate, Declares Roger Babson

By ROGER W. BABSON

NEW YORK CITY, Dec. 11.—"I wish I had the pull with the County Agent that John Jones on the other side of town has." . . . "The present plan of helping agriculture is very unfair to the honest farmer." . . . "I got a check for \$125 today for doing something which I have done every year for 20 years." . . . "Can't some farm aid plan be devised of which the crooks cannot take advantage, something not only fool-proof but burglar-proof?"

Stopping the Leaks

The above are a few extracts from letters recently received. As a result, I have been studying the farm problem. I find that the Federal Government is now returning each year about \$1,000,000,000 to the farmers in the form of various kinds of bonuses. Politics, carelessness, and even injustices have crept into this distribution. These troubles can increase every year until pandemonium reigns. The distribution of this money can become so complicated and create so much hard feeling — neighbor against neighbor and all against the Government—Congress will sometime lose its patience and wipe out the whole business. It is for the interests of farmers, therefore, to quit the policy of "Let's get all we can while the getting is good." Instead they should seek some fool-proof simple method of accomplishing better results with more fairness and less waste.

The problem has become further complicated by President Roosevelt allowing the railroad employees a wage increase of \$325,000,000 with the sub-rosa promise to the railroads of a further rate increase with lower freight rates are needed. I, therefore, want to tell of a plan which will save both the farmers

and the railroads. I will call it the Prince Plan after the name of Frederick Prince, who first suggested it. It should interest every taxpayer as well as every farmer and railroad bondholder. Politicians, however, will not like it; neither may some county agents and labor leaders.

Needed: Lower Freight Rates

Instead of paying the farmer on the present set-up which encourages him to plant as little as possible, the Prince Plan allows him to plant all he wishes, but gives him a reduction in railroad rates and protection against unfair foreign competition. Interview 100 farmers and 95 of them will tell you that they could make a fair profit on their products if it were not for transportation costs. The difficulty is that the farmers, fruit growers, and livestock raisers are suffering from too high freight rates. In many instances the freight amounts to more than the price of the product at the farm. This plan also gives farmers freedom to raise what they wish and to sell for what they wish.

The railroads will reply: "But we are as hard-up as the farmers. Just now we are making money; but after the war we will be in worse condition than ever. We need higher, rather than lower, freight rates. To add to our troubles our railroad employees have now been given a raise which will cost us over \$300,000,000 more a year." I reply by saying that we do not want the railroads to lose a dollar. The Government should send the railroads a check each month equal to the amount the railroads reduce their freight rates for the benefit of the farmers and increase their wages for the benefit of the Broth-

erhoods.

Four Advantages

As you see, this lower-freight rate plan has several advantages: (1) It treats all farmers alike, whether Republicans or Democrats. (2) It eliminates arguments with the county agents. (3) It greatly reduces the cost of supervision. (4) It saves taxpayers' money. In short, instead of having to get information from millions of farmers and mail millions of checks, it would be necessary for the Government only to mail a few hundred checks. Under this plan all parties—farmers, railroads, labor and consumers would be better off. In the end, the farmers' well-being and the nation's well-being are one and the same thing. Only as more is produced, is there more to divide in the form of wages, salaries, interest on savings accounts, and dividends.

The whole system of restricting production to build up prices, or of raising railroad rates to increase income, is "cock-eyed." We get richer as a nation only as we produce more and reduce costs, not as we produce less and raise prices, wages, or freight rates. The farmer, who is willing to live out on the prairie away from the advan-

tages of the city, should receive some compensation for doing this. The natural way to compensate him is through rebating freight rates, not by raising them. Perhaps my best argument in favor of this plan is the fact that most market gardeners, fruit growers, and others living close to the cities are making money now. In other words, it is the freight rates that are raising havoc with the farmers and now we are talking about raising them more!

What About Foreign Competition?

Some exporting bounty that will protect the farmer from foreign competition should also be considered, perhaps something like the McNary-Haugen Bill. This provides a certain rebate, or subsidy, on what is sold abroad below a reasonable price. No politics or unfairness could work into such a program. The Government knows exactly what is being exported and where it is going. They can base checks thereon and distribute the money, as Senator McNary has so well worked out. The details of this, I am not now discussing. The two, however, must go together. One is the "lock" and the other is the "key"; one the "hatchet" and the other the "handle"!

NOW SHE SHOPS "CASH AND CARRY"

Without Painful Backache

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking out the excess acids and waste out of the blood. They help most people pass about 3 pints a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up at night, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Mail Box Explodes

OAKLAND, Calif. (UP) — Harry King presumably knows about love letters. When he heard an explosion in a mail box, he telephoned the police to "come quick, a love letter has blown up." A post office inspector, however, who came and opened the box found it had been a firecracker instead.

DON'T MISS THIS CHANCE!

Red Cross Benefit Doubleheader Cage Battle Is Tonight

A doubleheader cage battle will be played in the Dalhart high school gym tonight, beginning at 7:30. All proceeds will go to the Red Cross.

The Dalhart Independents will entertain the Borden Creamery basketballers of Amarillo at 7:30. The Dalhart Hi-Y, coached by George H. Thomas, will meet the Sedan, N. M. club at 8:30. Admission is 15 cents. Joe Smith, Jr., said.

Hartley Tigresses Won Over Dalhart

The Hartley Tigresses Tuesday night at Hartley beat the Dalhart Wolverines 10-24, instead of the Wolverines beating the Tigresses, as was reported in The Texan yesterday. The error was made in writing the story.

The Tigresses, playing their seventh game of the season, were in fine fettle to crush the Wolverine attack. Maurine Peden, Dalhart, rang up four instead of 10 points.

Wolves captured their half of the doubleheader 24-17.

Magnolia Slates Grid Broadcast

The Magnolia Petroleum Co. announced that it had again arranged for a broadcast of the quarter-final games in the Texas high school football championship race.

The first game will be played tomorrow at 2:30 p.m. in Temple between Temple and Tyler. Burton Bishop will handle the color broadcast; Tee Casper will do the play-by-play reporting.

The other three quarter final games are to be played Saturday afternoon: Wichita Falls against Ysleta at Wichita Falls at 2:00; Sunset High vs. Highland Park, both of Dallas, at 2:30. Austin High against Lamar High of Houston at 2:15.

Four Texas radio networks with a total of 32 stations will handle these games. Outstanding sports announcers and color men have been employed.

Landmark of 1776 Sold
FREEHOLD, N. J. (UP)—An old frame building adjacent to the Monmouth County court house, which in the Revolutionary War was used as a hospital during the battle of Monmouth, has been sold for \$50,000. It was purchased by Arthur Goldberg, an attorney, and Morris Oglensky, a contractor.

Fan Fare

If you like basketball—and you will if you attend a few games and get the hang of it—here's a tip:

There'll be two rapid-fire battles in Stratford tomorrow night. It's only a delightful half hour's drive up there, and pavement all the way.

The Dalhart Wolves and Wolverines, who opened their season against Hartley Tuesday night with a double-barreled victory, will be pitted against the Stratford high school basketballers.

We don't have any dope on Stratford, but it traditionally turns out splendid cage clubs.

In the past two years Texas Christian University at Fort Worth has been invited to three bowl games and won all of them. It now faces its fourth test—this time in the Orange Bowl at Miami, Fla., against the strong University of Georgia Bulldogs.

This can be said with certainty: The thousands who jam the bowl will see plenty of action because Frog Coach Leo R. (Dutch) Meyer is the nation's foremost exponent of the forward pass.

Back in 1935 TCU missed the Southwest conference championship by one game, but bowl fans wanted to see Slingin' Sammy Baugh in action. So the Frogs were matched with the Louisiana State Tigers in the Sugar Bowl and won 3-2. And there wasn't much passing, because the battle was played in a downpour.

In 1936 the Frogs were beaten twice and tied twice in 12 games, but they wound up with a knockout over Santa Clara, which later won the Sugar Bowl championship. As a result of this whirlwind finish, the Frogs got to play in the Cotton Bowl and won 16-6.

In 1938 the undefeated, untied Frogs met Carnegie Tech, pride of the East, in the Sugar Bowl and won 15-7 with Little Davey O'Brien leading the aerial assault.

This year the Frogs catapulted into the national limelight with a 14-7 win over the highly publicized Texas University Longhorns, who early in the season were heavy favorites for the Southwest conference championship.

The Southwest loop this year wound up in a dizzy maze of upsets. After beating Texas, the Frogs had a mathematical chance to be conference co-champs with the Texas Aggies, who at that time were still unbeaten.

But the Frogs let this chance go by when they allowed Rice to tie them. That handed the kingship to the Aggies, even though they later lost by a 0-23 score to the Longhorns, who finally pulled out of

the bog and went on a rip-snortin' stampede.

The Longhorns last Saturday defeated Oregon by a 71-7 count. Oregon was defeated by Oregon State only 13-6. Oregon State won the Pacific Coast championship, and thus automatically became host in the Rose Bowl. The Duke Blue Devils, undefeated and untied, were invited, thus becoming the only undefeated and untied team to play in any of the five bowl games on January 1 next.

Doctor Fights Snake Poison
SHAMOIN, Pa. (UP)—Dr. G. B. Kohraker, Shamokin physician, applied his scalpel to his leg after he was bitten by a copperhead snake while picking berries in the woods near his home. He then drove to a hospital where other treatment was given to reduce the

Your Electric Servant

Is Classified as a "National Defense Utility"

This Company is serving Camp Barkeley, Abilene; Goodfellow Field, San Angelo; Bruce Field, Ballinger; Arledge Field, Stamford; Victory Field, Vernon; and other associated and cooperative projects, all of which are defined as National Defense Premises.

The Company, therefore, is classified as a National Defense Utility, and its property is protected by an Act of the Congress of the United States (Chapter 926-3D, Session 76 Congress) approved April 20, 1918; and Texas Labor-Violence Law (H. B. 800) passed by the Legislature on April 4, 1941.

Section 5 of the Federal Law reads as follows:

"That whoever, with intent to injure, interfere with, or obstruct the national defense of the United States, shall wilfully injure or destroy, or shall attempt to so injure or destroy, any national-defense material, national-defense premises, or national-defense utilities, as herein defined, shall, upon conviction thereof, be fined not more than \$10,000 or imprisonment not more than ten years, or both."

Section 1 of Texas H. B. No. 800 reads as follows:

"It shall be unlawful for any person by the use of force or violence, or threat of the use of force or violence, to prevent or to attempt to prevent any person from engaging in any lawful vocation within this state. Any person guilty of violating this Section shall be deemed guilty of a felony and upon conviction thereof, shall be pun-

ished by confinement in the State Penitentiary for not less than one (1) year nor more than two (2) years."

Section 2 of Texas H. B. No. 800 reads as follows:

"It shall be unlawful for any person acting in concert with one or more other persons to assemble at or near any place where a 'labor dispute' exists and by force or violence prevent or attempt to prevent any person from engaging in any lawful vocation, or for any person, acting either by himself or as a member of any group or organization, or acting in concert with one or more other persons, to promote, encourage, or aid any such unlawful assemblage. Any person guilty of violating this Section shall be deemed guilty of a felony, and upon conviction thereof shall be punished by confinement in the State Penitentiary for not less than one (1) year, nor more than (2) years."

In these times of national emergency, it is the patriotic duty of every American to report any act or plot which endangers the country's safety. Thus, Your Electric Servant feels free in requesting that you report to local law enforcement agencies or to the nearest WTU office, any person or persons violating or planning to violate any of the provisions of the above acts, of which you have any knowledge.

West Texas Utilities Company

Comparisons In Steel Output Is Disclosed Today

NEW YORK. — The American Iron and Steel Institute said today that the U. S. alone can produce three tons of steel for every two tons that can be made by Germany, Italy, Japan and all the Axis-dominated countries of the world put together.

Combined steel capacity of the U. S., Britain and Russia is considerably more than twice the Axis total," the institute said.

"Even if two-thirds of the Russian capacity should fall into German hands, the U. S. and the Allies could still make 60 per cent more steel than Germany and the rest of the world."

Farm's Part In Defense Stressed

CHICAGO.—Importance of agriculture in preserving the American way of life cannot be over-emphasized.

That was the declaration of Gov. Wright H. Green of Illinois when this midweek he addressed the third annual Champion Farmers' reunion in Chicago.

And agriculture, he said, is determined to achieve new heights as a contribution to national defense.

CAIRO, Egypt (UP) — A railway line which will be used exclusively to carry munitions from Cairo to caves four miles away is being built by the Egyptian government. The caves, many of which are air conditioned and supplied with electricity, can withstand the most powerful bombs.

3000 Texas Aggies Are On Active Duty

COLLEGE STATION. — Since 1918, and formation of the Reserve Officers Training Corps (ROTC) training, more than 5100 Texas A. & M. college students have received reserve commissions and latest estimates place 3000 of them on active duty in the current war.

Of the 6341 students in A. & M. Sunday, 4842 were taking courses in military science and tactics which will qualify them to become commissioned officers in the organized reserve.

There are 549 seniors, under contract to the War Department to complete the two-year advanced course; and 514 juniors. Unless called to duty earlier, the seniors will be commissioned next May 30 and the juniors a year later.

However, the several companies, troops and batteries have already rendered their services to President Roosevelt "in whatever way he sees fit to make use of them."

Bill Scott Meets With Conlen Boys

CONLEN.—The Conlen 4-H club boys, meeting Thursday, received books from County Agent Bill Scott, Dalhart. He also instructed in their use.

President Roy Lee Malone opened the meeting, and the program was held before Scott took charge. A game period closed the session.

U. S. Navy Wants Radio Repairmen

HOUSTON. — Radio repairmen, technicians and maintenance men are urgently needed by the U. S.

Navy. Ensign Brian Coyne in charge of the Houston Public Relations office, said today.

These men, he emphasized, are now being offered ratings as radiomen second class in the U. S. Naval Reserve, with the chance of being rated up to and including chief radioman.

Applicants must be high school graduates, and must have qualified for a Class A or B license; or, in the absence of these qualifications, must be actively engaged in technical radio work.

Enlistments, Coyne said, will be taken at all Navy recruiting stations and sub-stations.

Last Rites Said For Mrs. Jones

Last rites for Mrs. Maha'a Frances Jones, 77, were held from the Peoples funeral chapel yesterday afternoon with Rev. R. H. Campbell, pastor of the Pine Street

Methodist church, in charge. Mrs. Jones died Tuesday.

A quartet — Mrs. Harold Corkill, Mrs. Jack Heald, Mrs. E. F. States, and Mrs. Willis H. Baird — sang "When I can Read my Title Clear," "Rock of Ages", and "Jesus, Lover of My Soul."

Interment was in Memorial Park cemetery.

Surviving are a son, sister, brother, and granddaughter.

Sprightly Film Fare Announced

Mission theater audiences yesterday and last night acclaimed "Sun Valley Serenade," which continues today and tomorrow and stars Sonja Henie and John Payne.

It's a captivating story of fun and beauty. Payne finds that the "little refugee" he is supposed to care for is actually Miss Henie. And she helps a lot by deciding to marry him despite the fact he is engaged to Lynn Bari.

Miss Henie is featured in new skating and skiing numbers. Glenn Miller and his orchestra play seven new Mack Gordon and Harry Warren tunes.

The Mission for prevue Saturday night, Sunday and Monday, will show Betty Grable, Victor Mature and Carole Landis in "Hot Spot." This is the new title of the picture that has been known as "I Wake Up Screaming." According to the critics it's tops as a mystery thriller.

La Rita Sunday and Monday will show Zane Grey's "Last of the

Duanes," which perhaps is greater as a film than it was as an action-packed fiction yarn.

George Montgomery, in his first starring role, establishes himself as a Western star. He avenges his father's murder, and finally has to flee to the badlands to keep away from the Texas Rangers, while he tries to collect needed evidence. He even has to join a band of outlaws. The climax is a smasher, and in full keeping with the action-jammed story.

CHAPPED SKIN

● If your skin is chapped, you will be delighted with the effect of Mentholatum applied to the stinging, red, swollen parts. Mentholatum quickly cools and soothes the irritation, assisting Nature to more quickly heal the injury. Mentholatum is also a most soothing and effective application for other minor skin irritations. Jar, or tubes, 30c.

MENTHOLATUM

It is odd but true, according to the Census that there are more men with wives in the United States than there are women with husbands. The explanation is that many male immigrants have wives who did not accompany them to this country.

Hoyt's Flushed Out All Poison, Says Mr. Spencer
Lubbock Resident Says Hoyt's Compound Ended Constipation, Heart Burn, Gas Pains and Sourness.

"Constipation, heartburn, sour stomach and gas bloating filled my system with poison," says Mr. J. M. Spencer of 223 Avenue

J. M. SPENCER

R. Lubbock, Texas. "My stomach was upset, my kidneys were bad. I had severe pains across my back. I was underweight, run-down and nervous. I could hardly eat. At last I gave up hope of finding relief.

"But after a few doses of Hoyt's Compound, I could see a change. Now my bowels are more regular, and I eat without suffering. The pains are gone. I sleep well, have a good appetite am gaining weight."

Hoyt's Compound is recommended and sold by the Wolf Drug Store and by leading druggists in this entire area.

Altogether 3,703,466 cotton mattresses made under the government's mattress program, have been delivered to rural families in the U. S. Of this number 516,153 have been made in Texas.

Tire Sales Halt In Dalhart Today

Local tire dealers clamped down on the sale of all new car, truck and tractor tires in accordance with instructions received either from their head offices, manufacturers or radio and newspaper reports from the Priorities Department.

The order stops the sale of all new tires, regardless of what purpose they are to be used, unless the purchaser has priority rights and this right is not being issued to individuals or concerns not directly engaged in defense work.

The order stops all sales from December 11 to December 22, until further instructions are received.

Local dealers reported a rush of requests for tires this morning from those who had heard the report. But no sales were made by any dealer.

The order does not affect the sale of used or retreaded tires.

Defense Guard Requested

The Roy Rhoades Legion Post No. 139 and the XIT Post, Veterans of Foreign Wars, this morning applied to Gov. Coke R. Stevenson for authority to establish a Texas Defense Guard or Guards in Dallam and Hartley counties.

The action resulted from a mass meeting, called by the Legion and VFW, and held last night in the Cooperative hall. It was attended by about 50 Dallam and Hartley county persons, all men except Mrs. J. P. Powell, Dalhart. She was a nurse in World War I, has been very active in the Legion Auxiliary and is a past president. The mass meeting last night unanimously voted her into the honorary position of Defense Guard nurse if the application for a unit here is approved.

J. P. Oliver, a veteran of the Spanish-American war, said he was outside the Guard age limits of 18-64, but on petition was unanimously adopted as a mascot.

The application, which points out the many important installations in and near Dalhart, has been signed by the commanders of the Legion, VFW, the mayor, presidents of the chamber of commerce, Lions, Rotary, and Ambassador clubs.

The vital installations include the Denver and Rock Island junction in Dalhart; the Rock Island shops; junction of transcontinental highways; the Canadian River Gas Co. booster station on the 22-inch main that supplies gas for the R. I. shops here; for the Colorado Fuel & Iron Co. in Pueblo and other key defense industries.

O. E. Duggins, superintendent of the Dalhart Gas Co., told last night's meeting that the booster plants have been under special guard since hostilities broke out Sunday. It would take two years to replace booster plant machinery under present conditions, he said.

Last night's meeting not only enthusiastically endorsed the application for a defense guard, but each man present registered for whatever job may be assigned him. The meeting also asked Gov. Stevenson to approve Obart V. Hartshorn as captain of the defense company; Leslie L. Swim, first lieutenant; A. J. Denman, postmaster at Channing, second lieutenant.

Hartshorn is secretary to the Dallam County AAA committee; Swim is district SCS conservationist. Both were commissioned officers in World War I.

Slight Moisture In Snow Flurry

Snow, which fell late yesterday and early last night, brought .07 of an inch of moisture, the U. S. field station reports. The high yesterday was 24, the station said; the low last night 18.

Comparative Power Of Japan And U. S. Navies

TODAY

At the Mission: Sonja Henie and John Payne in "Sun Valley Serenade."

THE WEATHER

WEST TEXAS: Cloudy with intermittent rain or drizzle tonight and Friday. Warmer Panhandle and South Plains tonight.

VOLUNTEER YOUR DOLLARS; OTHERS ARE CHEERFULLY VOLUNTEERING THEIR LIVES

Thousands of American men and boys have volunteered their lives in the defense of this nation.

More thousands are doing so now. Tens of thousands will follow them.

The least that the rest of us can do is to volunteer our dollars in defense bonds and stamps; and in all the other patriotic and defense programs that may from time to time be laid before us.

Treasury Secretary Henry Morgenthau, Jr. urged an American response to the defense securities program that "will demonstrate to our enemies that America to a man is behind our greatest national test".

Morgenthau urges every community to push payroll allotment, bank draft, stamp banks, school program and any other plans looking to increased and consistent support of defense securities. This money, he said, will arm America and help to repel the enslaving forces that now threaten it.

Frank Scofield, Texas Defense Savings Staff administrator at Austin, said today that "nothing is more important now than that you and I work with all haste to supply our boys in this war with the necessary guns, tanks, planes, ships and equipment of war to meet our enemies.

"It behooves us, who are holding the home front to think of 'our way of life' and preserve it for our children".

Stolen Car Is Returned After 108-Mile Drive

A 1940 Mercury, belonging to Harold Medlin of The Texan's mechanical department, was stolen from near the corner of Sixth and Cherry Sts. last night between 10:30 and 11:00.

Officers instituted an immediate search which was still under way when the car reappeared at Sixth and Cherry between 8:00 and 8:30 this morning. It had been driven 108 miles, Sheriff H. D. Foust said.

W. R. Walkup Trial Under Way Today

Seven jurors were chosen this morning in the district court trial of W. R. Walkup, charged with theft, felony embezzlement and swindling. Judge James W. Therpoon appointed R. E. Stalcup defense counsel.

Tax suits, set for tomorrow, were continued for the term on motion of City Attorney J. S. Bailey, Judge Witherspoon said.

Harold Evans Is At Pearl Harbor

Harold Evans, son of Mr. and Mrs. G. T. Evans of North Dalhart, is among the Dalhart boys in the Pacific fighting against the Axis powers, it was learned from his parents last night. He is stationed at Pearl Harbor, objective of the surprise Japanese attack last Sunday.

U. S. Wages--

At 12:24 EST this afternoon President Roosevelt in a 120-word message asked congress for a declaration of war on Germany and Italy.

By 1:04 both houses, without a dissenting vote, had approved. They first declared war on Germany, then on Italy.

Miss Jeannette Rankin, Montana representative, showed herself present but not voting in the House, where all other ballots were ayes. She was the only member of either house who voted against the declaration of war on Japan last Monday. She was among the 53 who voted against the declaration of war on Germany in 1917.

The Senate last Monday and both times today voted unanimously and with unprecedented speed.

Official notification that Germany and Italy had declared war on the U. S. reached Washington at 9:25 and 9:50.

Chancellor Hitler of Germany said Nazi-dominated Europe is impregnable and will shatter all opposition. His Italian satellite—Mussolini—gave a bellowing echo.

Prime Minister Churchill of Britain warned of a struggle, but said the nation would go forward to victory.

Premier Stalin of Russia was silent, but his armies were still on the offensive and slashing into the German lines for new gains.

U. S. Secretary of War Stimson confirmed at noon that U. S. bombers had sunk a 29,000-ton Japanese battleship off the north coast of Luzon Island in the Philippines.

The U. S. has officially announced loss of one old battleship in the Jap raid on Pearl harbor last Sunday. The Cavite and Nichols bases have been under intermittent raids today.

Japanese are still trying to establish a beachhead in the Philippines, but the trickle of unofficial reports indicates they are still failing or at best only partially succeeding.

It was announced in Washington today that the fleet of U. S. flying fortresses that left the West coast Sunday had not been destroyed by the Japanese. On unofficial report said one had been shot down. The others presumably are in offensive action against the invaders.

President Roosevelt said this morning that the world today faces the greatest challenge to life, liberty and civilization in history. At the same time he assured the nation that its democratic processes are functioning smoothly.

There is little information today (Turn to Page 4, Column 3)

School Holidays Are Announced For Dec. 19 to Jan. 5

Dalhart public schools will close at 4:00 Friday afternoon, December 19, for the Christmas holidays, Superintendent Blake Bolton announced today. Classes will be resumed Monday morning, January 5. The two weeks vacation was decided at a meeting of the board of education Tuesday night. Two teachers were officially appointed at the meeting.

Mrs. Robert Richter of Los Angeles, Calif., has filled the vacancy made by the resignation of Miss Cleo Bourland.

Miss Helen Shirley of Italy, Texas, succeeds Miss Marcelite Reid as fourth grade teacher in Kella Hill school, the superintendent reports.

Mrs. Richter is a graduate of Southern Methodist University, Dallas, and taught in Dallas eight years. She has studied toward a master's degree at the University of Southern California. Miss Shirley, a graduate of North Texas State Teachers College, Denton, taught three years in Texline.

Fred S. Brooks Leaves Service Of Rock Island

Fred S. Brooks, Chicago, father of Mrs. A. A. Schanefeld of Dalhart, at his own request has retired as general livestock agent of the Rock Island after 46 years of railroad service.

He has been on leave of absence six months and has been in Mexico City. He expects to spend Christmas in Dalhart, his daughter said.

K. D. McKenzie, it was announced, will succeed him and have headquarters in Kansas City.

J. W. Hill, general freight traffic manager in Chicago, announced Brooks' retirement "with regret." He has an "enviable record," Hill said. "During the past 20 years he has managed efficiently and faithfully the Rock Island livestock department, making many valuable friends for the railroad.

Ambassador Club To Plan Annual Banquet

The Ambassador club, meeting tonight at 7:30 in their club room, will make plans for the annual banquet and election of officers to be held Thursday night, December 18. Secretary Kenneth Martin said today.

Members are urged to attend.

MAIL YULE GIFTS NOW

The national government has told railroads to be prepared to move 20,000 troops between now and Christmas. Postmaster Jack Wadsworth revealed at noon, and the only way to get Christmas packages to the destinations on time is to mail them now.

"I was advised of the government troop moving order," Wadsworth said, "by Superintendent E. J. Herdman of the Rock Island at Dalhart, and Superintendent J. W. Mode of the Fort Worth & Denver in Amarillo.

Other rules that the post office department absolutely insists of this year are: 1. Wrap all packages securely. Strain on them will be more than ever this year. 2. Address plainly in ink. Need for dispatch has never been greater. 3. Include a return address. Sudden transfers are being made these days, it may be necessary to return the package.

Gravel Plant Man Hurt In Accident

Craig Childers, 28, is in Lorel hospital with neck and shoulder injuries incurred late yesterday when his gravel truck overturned near Channing. He is an employe of the Western Sand & Gravel Co. near Channing, and said his truck overturned when he swerved suddenly to avoid hitting another truck on the hopper.

Mrs. Eva Young returned to midweek from Battle Creek, Mich. where she visited her son, Samuel E. Young of the U. S. Army Engineers, and his wife. He has been ordered to Iceland, sometime after January 1, she said, but all may be changed now. Mrs. Young said she saw Lake Michigan her first glimpse of the Gravel Lakes.

Here's How U.S. Boys Take Treacherous Jap Invasion

How are the boys in our armed forces taking the news of Japan's treacherous invasion of U. S. soil? This question, which has been uppermost in the minds of many, is answered in plain but forcible language by a Dalhart high school graduate now in the Army Air corps stationed at Fort Logan, Colorado. He is Private Randall Bradley, brother of Mrs. Burton Hanbury. He writes:

"We have been preparing for the Air corps for some time now. The fellows were all getting a little discontented. There was a lot of grumbling and bellyaching. Yesterday the attitude of every man changed. We are ready for action. Every man is calm and there seems to be a feeling of a bunch of determined men waiting for the chance to meet the enemy.

"No one is excited or nervous. The civilians have made a greater change in their lives than we have. We are still going about our routine work. Our furloughs have been cancelled until further notice. We are confined to the post and are increasing our studies. Other than that there has been no change."
