

In this corner, with COLLINS

A R D E N MARSLENDER, daughter of Mr. and Mrs. Bill Marslender, is passing out lolly-pops this week — reason, her Appaloosa horse, Dutchess, is the proud mother of a filly. The little filly was born Sunday and has not been named at this time.

IF YOUR DAY starts out with a 'let-down' just have a cup of coffee with L. L. Bruce. He has a laugh for every occasion.

COME MONDAY morning the Bulldogs of Ranger High will be unleashed to begin their fall football training. Coach Charlie Smith has several returning players from last year's squad that will be out working off some of the summer blubber and getting in shape for the first game of the season, which will be against the Cisco Lobos here in Bulldog Stadium.

AND SINCE football is the main conversation now it looks like we just might be playing the Eastland Mavericks, the second game of the season, in a day-light game since their lights on the east side of their stadium were blown down during the storm in that city on June 19. But that is some time away and the Bulldogs are not worrying about the Mavs since they take one game at a time.

THE FIREMEN were rather busy Tuesday afternoon and evening. As a matter of fact, they were fighting a large grass fire on the J. D. Johnson place north of our city. It was reported that some 200 acres of grass was burned off during the fire. The fire started around 5:30 or so and the volunteers went out and put the fire out then a couple of hours later they were called out to the same place and fought the blaze until about 10:00.

SPEAKING OF FIRES... Chief Charlie Isabel urges all local residents to please use some type of cover on trash barrels when burning trash. Several residents burn their trash and do not wait until the last spark of fire is out before leaving it and sure enough a small bit of paper blows out on the grass and before long a large grass fire is started. He reminds all citizens that there is an ordinance against burning trash without some sort of covering and if this is not done, the ordinance will be strictly enforced.

HAVE YOU noticed the Rescue Truck the Firemen have? It certainly looks nice with its new paint job and the bright lettering on it. We hope the firemen do not have to use it, but should the emergency arise they are trained and equipped to do a fine job.

NOTICE

There will be a cemetery working at the Bullock Cemetery Friday morning, Aug. 15. If not possible to work Friday morning, Thursday afternoon will help, it was reported.

School will officially begin for pupils on Tuesday, September 2 when all buses will run and the lunchrooms will serve meals. Buses will run a little early the first day Clark said in order to have time to acquaint students with the route and still get them to school on time.

For teachers, principals, aides, cooks, bus drivers, secretaries, custodians and other employees, school will begin at 9 a.m., Thursday, August 28 with a general meeting in the High School auditorium. After the meeting all will be dismissed except teachers who will meet again at their respective buildings and later again in the auditorium on Friday morning.

Parents who think their children are entitled to free lunches in the Ranger Public Schools this fall should come to the office of Supt. James R. Clark, 204 Main St., and fill out an application blank. Free meals will be given to those who need them, Clark said and information on who qualifies for free lunches may be secured also.

It is anticipated that 25 children will be served free meals daily Clark said, providing the lunchrooms are able to feed them free financially. No hungry child will be denied a lunch, he said.

Arrangements can be made for children in the Junior-Senior High School to work for free meals where a free meal is not wished.

Aug. 16 Deadline For Claiming Part In Drug Funds

Attorney General Crawford C. Martin has urged Texas consumers to check their records and file refund claims for broad spectrum antibiotics purchased during the years 1954 through 1966.

Aug. 16, 1969, is the deadline for mailing a notarized claim to the Clerk, United States District Court, P. O. Box 745, Bronx, New York, 10451, he said.

Texas consumers will receive a share of \$100 million offered by five large drug manufacturers in settlement of multiple civil antitrust actions filed against them by Martin and the Attorneys General of other states.

Forms may be picked up at the County Clerk's office in each Texas county.

The drugs involved are Aureomycin, Terramycin, Achromycin, Mysterin, Panalba, Panmycin, Polycycline, Steclin, Tetracyclin and Tetrex.

If a person fails to file a claim, it will constitute authorization to use the money recovered in his behalf for the benefit of all consumers in a manner directed by the Federal Court.

"Thousands of Texans are eligible to make claims and I hope they will avail themselves of the opportunity," the Attorney General said. "The form is a simple one, providing for estimates of the total amount a consumer purchased and the names and addresses of the drugstores where the purchases were made in the years 1954-66."

Support of Peanut Assessment Program Urged by Associations

The assessment program to be decided in the September referendum by Texas peanut growers has been endorsed by officials of every local grower association in Texas. Grower leaders emphasize that Texas is the only major peanut producing state, which has not voted the "check-off" program.

"Texas produced peanuts ought to go into the stomachs of American people and not into storage warehouses," says J. O. Jackson, Jr. of Gorman, president of the West Texas Timbers Peanut Producers Association. Jackson believes that peanut promotion needs to be vastly expanded and accelerated to stay ahead of the fast-grow-

ing peanut yields in the state. The dollar per ton assessment will not be a cost to the grower he emphasizes, but rather it will be a fine investment which will be returned many fold to producers.

George Toolson of Pearsall says, "We have seen the return on dollars invested in research here in Frio County. If all growers statewide pitch in on this important program, we can really be effective in finding the answer to our pressing peanut production problems including diseases and insect control." Another grower, Chester Cunningham of Grape Land said, "I have wanted this program for Texas growers a long time. I have seen what a little help can do in research and education. With this program throughout the state, we can make great progress."

Ballots will be mailed to all growers on Sept. 6 so they can vote from Sept. 9-24 either For or Against the "check-off program." If two thirds of those voting, vote for the proposition — up to \$1. per ton

will be assessed on all peanuts marketed in Texas beginning about Oct. 1, 1969. At the same time growers will vote to elect 9 growers to a producers board. The board once elected will organize and employ an executive secretary to carry out its program.

Growers who contribute money to this program may get refunds if they so request within 60 days of the date of assessment. Some already having similar plans on peanuts Oklahoma, New Mexico, Georgia, Alabama, North Carolina, Virginia and Florida.

J. N. Pruitt, peanut grower from Palo Pinto County, summed up the feeling of grower association leaders recently by saying, "all peanut growers are willing to help themselves by providing resources to deal with their problems."

The Potters are expecting a very important phone call!

In the years ahead, you'll be able to preset your telephone to transfer calls to the number where you're visiting.

Electronic switching — using a sophisticated computer system — will make this and many other new services possible.

For example, your phone will have a memory. By dialing just two digits of a frequently called number, you'll activate

that memory, then the phone will dial the remaining digits automatically. Electronic switching is fact, not fiction. It's part of our program to plan today for tomorrow's communications needs.

We may be the only phone company in town, but we try not to act like it.

New Rules To Govern Highway Right-of-way

AUSTIN — Colonel Wilson E. Speir, director of the Texas Department of Public Safety, has announced that effective September 1, laws passed by the Texas Legislature will establish new rules of right of way and new rules for following too closely.

Speir urged all drivers to review the rules closely, and note the instances in which they must stop, yield and grant the right-of-way.

Drivers at intersections controlled by stop, yield or traffic control devices must obey

the signs. Drivers of vehicles on a single lane street or roadway consisting of two traffic lanes, upon approaching an intersection not controlled by signs of a divided street or a street or roadway divided into three or more marked lanes, must stop, yield and grant the privilege of right-of-way to vehicles on the larger street.

Speir said the act provides a rule of evidence that in cases of collision, the person shall have been presumed not to have yielded the right-of-way if the four conditions have not

been satisfied. The following too closely law, as amended, will require drivers to maintain an assured clear distance between the vehicle ahead exercising due regard for the speed of the vehicles and the traffic upon and conditions of the street or highway. Drivers must be able to bring their vehicles to a stop, using these guidelines, without colliding with the preceding vehicle, or veering into other vehicles, objects or persons on or near the street

Drivers of vehicles on streets of equal size and paving must stop, yield and grant the privilege of immediate use of such intersection to any other vehicle which has entered the intersection from such driver's right, or is approaching such intersection from the driver's right in such proximity as to constitute a hazard.
