Pneumatic Tires Said to Improve Farming Tractor In a series of tests extending over a period of several months at the University of Nebraska it was demonstrated that tractors equipped with pneumatic tires were more efficient, more economical in operation, and generally outperformed tractors equipped with steel wheels having spade lugs. According to the published reports of the investigators, the tractors equipped with air-filled tires used an average of about 20 per cent less fuel on all operations than the steel wheeled tractors and plowed about 10 per cent more acres in the same amount of time. The air-filled tires were said to have been much easier on both tractor and driver because of smoother riding and easier steering. They also operated in high or intermediate work that steel wheeled tractors could perform only in low. This meant higher average speed and lower gasoline consumption. One of the outstanding features of the pneumatic tires according to the report was their exceptional mobility and adaptability to any and all road or ground conditions. They can be moved rapidly from one field to another, from field to barn, if power is needed around the barn, right down any roads, over concrete, across plank bridges—many places where steel wheel tractors cannot be used. Because the pneumatics are such big, soft tires (they only use about 15 pounds of air) they won't pack seed beds, turf, or hay. Farmers can travel over new fields without danger to seedlings; orchards can be worked without fear of damaging tree trunks or roots. According to Mr. Perkins, tire-department manager of the local Montgomery Ward store, it is simple to put pneumatic tires on any tractor and they usually pay for themselves within a year by their economical operation. He also pointed out that Wards are especially proud of their line of Riverside tractor tires because they have all the best features of modern tractor tires plus Wards famous and exclusive power-grip tread which gives the best traction under all ground conditions of any non-skid tread known. Mr. Perkins said, "Riverside tractor tires are remarkably low priced today and can be purchased on very convenient terms with payments spread over a period of six months."

who will visit here for a few weeks. Mr. and Mrs. J. E. Doty and Miss Helen Louise Lawson of Cleo, spent Sunday here with Mr. and Mrs. Charles Lee. Mr. Doty and Mr. Lee are half-brothers. Mrs. Frances (Thornton) Cooper of Eastland was here Friday in the interest of her campaign for county treasurer. She was accompanied by Miss Beulah Speer, who was formerly County Superintendent of Schools. Gene Browning and his sister, Miss Capitola Browning, drove down to Dublin on business Monday. Rev. A. E. Miller, pastor of the Presbyterian church at Handley, was the guest of Mr. and Mrs. W. H. Davis Thursday evening. He was returning to his home after having attended the Presbyterian campmeeting at Kerrville. Mr. and Mrs. Jim Duncan and little son of Lubbock, are visiting her brother, Wiley Powers and family, and will remain until after the home-coming. Dan W. Powers of Lubbock, was in the race for county judge. There had been several in the race at the first primary but he and the present judge are in the run-off. His many friends here wish him success. L. F. Brothers continues to improve his attractive home, having recently had it repainted. Frank Moore did the work. Mr. and Mrs. Obed Henslee and daughter, Barbara, Mr. and Mrs. Minor Wallace and little daughter and Mr. and Mrs. Olin Hilliard, all

of Freer, came in Thursday for a few days visit with relatives. Married, on Wednesday, August 1st, Miss Faye Anderson and Elbert Walls. The bride is the daughter of Mr. Sallis Anderson Huffman and was a member of the graduating class of Desdemona High school in May. They will make their home with his parents, Mr. and Mrs. J. J. Walls, who moved Thursday to Graham. Many friends are extending congratulations and good wishes. Mrs. Will Gresham of Conyn, came up Wednesday to visit her step-sister, Mrs. S. T. Stover, and her step-mother, Mrs. Louise Lookingbill. She was accompanied by her daughter and son-in-law, Mr. and Mrs. Havis and also another daughter, Miss Eula Gresham. On Sunday night an unusually large crowd gathered at the community tabernacle and listened attentively to the splendid sermon preached by Rev. E. E. Stanford on the subject "The Drawing Power of the Cross." This was the closing service of the Methodist revival which had continued a little more than a week. Rev. Stanford is pastor of the Eastland Methodist church and he came down and assisted Rev. Z. L. Howell by preaching every night during the week and almost every morning also. Much interest was manifested and the meeting was quite a success. Mrs. E. K. Glanton is visiting her daughter, Mrs. O. A. Young in Fort Worth. Rev. and Mrs. Sherrod Stover came in Monday afternoon for a

short visit with his parents, Mr. and Mrs. S. T. Stover. He had just closed a successful revival at his church near Cleburne. A short time after they reached here, another visitor arrived at the Stover home, being Eugene Sherrod, a nephew of Mrs. Stover's from Chicago. He was left an orphan when young and made his home here with the Stovers for a year, but they had not seen him for seven years. He is about grown now. They were delighted to see him. On Friday night one of our town's well known citizens passed away suddenly and seemingly without a struggle when Lute Beach, known to all as "Daddy" Beach, was found lying on his bed, dead. His son, Ben Beach, and wife had gone to the revival at the tabernacle and on their return found him lying there just as if asleep with his clothes on. He is survived by several children, to all of whom sincere sympathy is extended. He was buried Sunday near Stephenville beside the graves of his parents. "Daddy" Beach was a unique character, a man who was known for his remarkable memory, being able after hearing a sermon or lecture to repeat it almost word for word. He had attended the revival on Thursday night and those near him had remarked on his intense listening. He was known in the town for his sense of humor and dry wit, also for his honesty in all business dealings, his loyalty to friends and devotion to his family. Quite a large crowd of friends and relatives attended his funeral.

One more tribute of respect to "Daddy" Beach is that during the years that he lived here he was ready to do his duty as a citizen in paying his taxes—paying his ballot in every election. Fish Distributed to South Texas Lakes BROWNSVILLE. — Approximately 500,000 fish are being distributed in lakes, streams and ponds in south Texas, the Omito Fish Factory of the Texas Game, Fish and Oyster Commission, Roy Linn, superintendent, said. Linn is stocking the water with bass, crappie and several types of perch. Fishing waters in the low valley sections are being restocked, particularly the 20-mile-long resaca. Pneumatic Tires Said to Improve Farming Tractor

In a series of tests extending over a period of several months at the University of Nebraska it was demonstrated that tractors equipped with pneumatic tires were more efficient, more economical in operation, and generally outperformed tractors equipped with steel wheels having spade lugs. According to the published reports of the investigators, the tractors equipped with air-filled tires used an average of about 20 per cent less fuel on all operations than the steel wheeled tractors and plowed about 10 per cent more acres in the same amount of time. The air-filled tires were said to have been much easier on both tractor and driver because of smoother riding and easier steering. They also operated in high or intermediate work that steel wheeled tractors could perform only in low. This meant higher average speed and lower gasoline consumption. One of the outstanding features of the pneumatic tires according to the report was their exceptional mobility and adaptability to any and all road or ground conditions. They can be moved rapidly from one field to another, from field to barn, if power is needed around the barn, right down any roads, over concrete, across plank bridges—many places where steel wheel tractors cannot be used. Because the pneumatics are such big, soft tires (they only use about 15 pounds of air) they won't pack seed beds, turf, or hay. Farmers can travel over new fields without danger to seedlings; orchards can be worked without fear of damaging tree trunks or roots. According to Mr. Perkins, tire-department manager of the local Montgomery Ward store, it is simple to put pneumatic tires on any tractor and they usually pay for themselves within a year by their economical operation. He also pointed out that Wards are especially proud of their line of Riverside tractor tires because they have all the best features of modern tractor tires plus Wards famous and exclusive power-grip tread which gives the best traction under all ground conditions of any non-skid tread known. Mr. Perkins said, "Riverside tractor tires are remarkably low priced today and can be purchased on very convenient terms with payments spread over a period of six months."

WARDS New FIRST QUALITY... Precision-Built RIVERSIDES

You should know these facts before you buy new tires!

New RIVERSIDES ARE FIRST QUALITY - Precision-Built!

Advertisement for Wards tires listing features: "FIRST QUALITY tires in every detail! Built by one of America's largest and most famous makers. First quality materials... experienced, well paid craftsmen... 53,000,000 test miles on the road and in the laboratory in 1933! BUT what's even more important—new Riversides are ENTIRELY NEW tires! Improved, strengthened, especially designed to more than meet the terrific demands put on tires by today's 'mile-a-minute' driving pace, whitening turns, and grinding stops. In new Riversides you get that extra margin of quality that means longer wear—greater safety!"

New RIVERSIDES ARE GUARANTEED without limit!

Advertisement for Wards tires listing guarantees: "WARDS UNLIMITED guarantee gives you complete protection for the entire life of the tire against all road hazards as well as defects in material or workmanship! Should any new Riverside fail for ANY reason (with the exception of punctures, fire, and theft) Wards will either repair the tire FREE OF CHARGE or replace it with a new tire charging only for the amount of service actually received. That's the most liberal and simplest adjustment policy we know... And remember that Wards will make good on this guarantee quickly and cheerfully right here in town or in ANY one of our 489 Retail Stores."

New RIVERSIDES ARE 18% TO 20% LOWER PRICED...

Advertisement for Wards tires listing savings: "You get REAL SAVINGS on Wards new Riversides! Actually 18% to 20% lower than Ward tires of comparable first-quality as recently as five months ago—in spite of the fact that rubber has gone up more than 50% in price, while cotton, other raw materials and labor have increased steadily. Wards tremendous volume and economical selling methods make these low prices possible... It costs just as much, frequently more, to make a new Riverside than it does other fine tires. BUT it costs a LOT LESS to sell them! That's why you SAVE on Riversides at Wards. CONVENIENT TERMS MAY BE ARRANGED"

700 TEXANS SHOT TO DEATH IN A SINGLE YEAR

Law enforcement has been the slogan since the very beginning of the campaign for the nomination of candidates for major and minor offices. This should be placed in the record for the edification as well as the information of all the people: "Texas crime toll, measured in the number of homicides, reached an all time high last year. Those who died at the hands of others in 1933 totaled 982, the highest number ever recorded by the Texas bureau of vital statistics. Sixteen of each 1000 people of Texas died in that fashion last year."

Homicides have gained in number during eight of the past 40 years. Five times as many people were homicidal victims in Texas last year than in 1923. December was the worst month for Texas killing. During the past 10 years an average of more than 59 were killed in that month. Why not law enforcement? Why not the organization of a state police? Why not an amalgamation of all the units or agencies of law enforcement? Why not legislation that will tend to make life sacred and property secure in Texas? Why not higher salaries for penitentiary guards? Why not an increase in the number of guards to promote vigilance in order that desperate characters incarcerated may be kept where they belong until their term shall have expired?

A New Deal along many lines in Texas is necessary. Lawmakers elected in November must face the issue. They must sweep aside antiquated methods and systems and make way for the coming of the New Deal in governmental affairs in state and district and county and municipality.

Southeast Texas
Cattle May Starve

BEAUMONT.—Death by gradual starvation to thousands of head of cattle in five counties of Southeast Texas unless they are moved shortly was forecast by cattlemen in this vicinity.

Seriousness of the situation was increased when more than 200 square miles of coastal land was covered by salt spray or water during the recent gulf storm.

Grass was almost entirely killed, or made unfit for grazing.

Already the pastures were damaged seriously by drought. Vast areas were burned out.

Fooding the masses with salt water has only aggravated the situation which was bad to begin with, farmers and cattlemen reported.

The market the cattle would only add to the many troubles cattlemen are now experiencing.

At the same time, it was pointed out to send so many thousands of head of cattle to the packing plants would only flood the market there and further reduce the price.

Federal authorities have been asked to include Jefferson, Chambers, Liberty, Horton and Orange counties with those to which aid will be given in connection with the emergency drought relief program.

The storm, which was accompanied by a tidal wave, left thousands of ponds as breeding places for mosquitoes, another factor which has aggravated the situation.

Expense Accounts
Filed By Candidates
In Governor's Race

AUSTIN, Aug. 6.—Attorney General James V. Allred spent \$9,421.13 in his first primary campaign for governor. His third expense report filed with the secretary of state, reveals today.

Tom Hunter, his opponent in the run off, spent \$5,500.54, his report showed.

Earl Small of Amarillo, eliminated in the first election, spent more than either of the successful candidates. His expenses total \$7,676.36.

sunburn and ruin just as they began to ripen and we have seen a few tomatoes blister while they were still green, but we have never seen green apples sunburn while still hanging on the trees weeks and even months before time to ripen, until this summer. Many apples on this farm that are exposed to the direct rays of the sun all day are damaged to badly they will be unfit for food even if they should stay on the trees until ripening time.

Hundreds of acres of land was not planted here at the regular planting time in the spring, but showers came in July and many farmers took courage and planted these acres to a late feed crop and the major part of this planting has been eliminated and died, and if we don't get rain soon it will all die. All of the pools and tanks in this community are dry. No water here except in wells. And we are optimistic still and thank God it is no worse. Every cloud has a silver lining; a balm for every soul that's pining; a joy for every tear that's climbing, down the furrowed cheeks of man.

Mrs. M. E. Hazlett is spending this week with friends in Carbon.

Born in Jurungabad, India, Dr. Ardagh was a pupil of Westward Ho school in Devonshire with Rudyard Kipling, who was nicknamed "Ginglamps" because he wore glasses.

Following graduation, Dr. Ardagh went to British East Africa, now Kenya colony, where he was sent by the Church of England Mission society. He was invalided home after a year and a half with malaria.

British Columbia was selected by the society for the young doctor's next field, and he arrived at Indian village of Metlakatla in 1880, where two years later he established the first hospital in that territory.

Following a 10-year rest in the Old Country, Dr. Ardagh returned to British Columbia in 1911 and resumed practice of medicine, under direction of the bishop of the diocese.

Youth Is Doing "America First"

BILLINGS, Mont. — "Seeing America First" is Reuben Plevinsky's motto. He arrived here the other day, six months out of Haverhill, Mass.

Young Plevinsky not only is doing his sight-seeing thoroughly—but cheaply. Graduated from Boston University in 1932, Plevinsky sought unsuccessfully for employment, decided in desperation to write "the great American novel."

To gather Americana, Plevinsky decided on an up-down and cross country tour, via railroad rods, hitch-hiking and any other economical means.

He told reporters here he had spent only \$20 since leaving Miami, Fla., in March. On that \$20, he had visited the Gulf of Mexico, the Pacific Coast and the Pacific Northwest—with stops at New Orleans, San Antonio, Phoenix, Los Angeles, San Francisco, Sacramento and other cities. He left Massachusetts in January and wandered down the Atlantic seaboard.

"I've got plenty of material for my novel," said Plevinsky, "but I certainly wouldn't recommend my 'de luxe' form of travel to anyone. Most people think such a trip is a wonderful experience, but many parts of it have been nightmares."

STILL WEARS INDIAN GARB

GAY HEAD, Mass.—Chief Harrison Vanderloop of the Gay Head tribe of Wampanoag Indians is, perhaps, the only Indian who still wears his native garb. His dress includes a band of wampum around his braided hair from which a feather extends.

You can be sure there will be no war in Europe for a while, since Washington experts say it wouldn't advance prosperity in the United States.

AMOS PLEADS FOR JUSTICE

Amos 5:1, 10-15, 21-24

Amos, who declared he was not a prophet, yet foretold direful things to happen that did happen, fulfilled the meaning of his name—burden or burden-bearer. In all of his writings he portrayed a longing to lift weights from the oppressed.

He is classed as one of the twelve minor prophets, who lived in Tekoa in B. C. 793. Amos, a shepherd and a farmer, was a strong, rugged character. Tekoa was a desolate place almost surrounded by limestone mountains. The east side was open sloping downward to the wilderness of Tekoa. Centuries later, a kindred spirit, John, the Baptist, lived in this wilderness. It was here amid hardship and danger that Amos learned to speak fearlessly and with an oratory that was great in its simplicity, using illustrations from nature and scenes familiar to plainest country life.

When Amos sought the markets in the cities of the world he contacted many rich merchants. Possessing a religious conscience fastened in his quiet sheltered life he saw that the life in the cities reeked with corruption. Idolatry, with its bestial immoralities was rampant; prices and measures were unjust; bad grain was sold as good and everywhere he saw wasteful luxury and extravagance.

We can picture him a great, strong, rugged man of the wilderness, stalking down the street with his soul raging within him, until he steps in the gate and begins to speak in an untrained voice and with awkward gestures. But his messages created a great sensation.

"O House of Israel," is his introduction because he includes it

all from north to south, east to west. He told them of their hatred for anyone who spoke up-rightly and how they trampled the poor underfoot with prices, false measures and bribes; that he knew of their mighty sins; these sins were so mighty that the few who were prudent kept quiet, "for it is an evil time."

He explained to them that it was not enough just to seek good but they must "hate the evil, and love the good, and establish justice in the gate; it may be that Jehovah, the God of Hosts, will be gracious unto the remnant of Joseph."

He concludes this chapter with strong and forceful language. "I hate, I despise your feasts. Take thou away from me the noise of thy songs, are some of the phrases expressing his contempt for their hypocritical show of religion. "But let justice roll down as waters, and righteousness as a mighty stream." He declared to them in ending this chapter their offerings to Jehovah while they still carried idols in their hearts would be punished by "captivity beyond Damascus, saith the Lord, whose name is the God of Hosts."

I wonder what Amos would say today if he should visit this land. He spoke of the "houses of hewn stone" in that day but they cannot measure up to our modern, comfortable homes of today.

Would he find idols in the hearts of people until Jehovah would refuse to hear their songs or prayers?

The sweetest songs, prayers, or music does not reach the ear of God unless the heart of the person is in union with God. Hypocritical people ease their conscience with such services but it avails them nothing.

Group Discusses A Social Service Program In Ranger

A group of representatives of the various clubs and organizations of the city met in the colonial ballroom of the Gholson hotel Tuesday night to discuss ways of aiding the relief work in Ranger, particularly as it pertains to social service work.

After the object of the meeting was explained by Bailey Thomas, Hunter George, head of the social service department of the Eastland county relief administration, spoke on the aims and objects of the organization and how the clubs and citizenship could co-operate.

After some discussion, in which a number of questions were asked Mr. George, which he answered in a clear-cut way, suggested projects were mentioned. Among the things tentatively suggested as needed in Ranger were parks and playgrounds, a reading and recreation room for those who have no access to libraries or recreational facilities, a community canning plant and other projects that were deemed worthy of consideration.

No action was taken on any of the suggested projects, though, when it was mentioned that there was need of canning facilities to save some of the crops that were now ready to gather, this project was named as one to be gone into and started as soon as possible if it was found that there was need for it.

A suggestion was made that since the Child Welfare club was well versed in this type of work that it supervise and direct all such work and that the other organizations co-operate in helping to promote and supervise them.

After some discussion as to

whether or not it would be right to turn all this responsibility over to the group of women who have done so much work along this line already, or to have a committee composed of representatives from all the organizations, it was decided that each representative would be instructed to make a report of the meeting at the next gathering of the clubs represented and the clubs be asked to vote on the proper procedure.

The meeting adjourned after it had evolved into a general discussion on the merits and demerits of all plans suggested. There was no objection to the Child Welfare club handling the projects and supervising them, other than it was thought that the task might be too large for any one organization to handle alone, and it was feared by some that it would place too large a burden on the shoulders of the members of the club.

Another meeting is to be called, probably some time next week, after each club has had an opportunity to discuss the problem and to vote on the questions which arose at the meeting.

Judge Declares a Divorce Moratorium

ASHLAND, O.—Common Pleas Judge C. C. Chapman, who declared a "moratorium" recently on divorces until Sept. 1, has announced he might hear a few cases before then.

"There may be a few exceptional cases that call for immediate attention," Judge Chapman said, "but the majority will be delayed until fall." The jurist declared the moratorium, he said, because "too many divorce cases are being filed in the courts." He believes there would be fewer divorces if more care were taken in the issuance of marriage licenses.

Most Amazing Proof Ever Known OF EXTRA TRACTION AND NON-SKID SAFETY

UP... UP... UP... to 14,000 feet above sea-level! Skirting yawning chasms, tearing around 181 treacherous turns at breath-taking speeds—daredevil drivers fight their way up... grinding, pounding, swaying, over more than twelve miles of tread-torturing granite gravel. What a terrific test of tire stamina!

Firestone High Speed Tires with the tougher, wear-resisting tread were used on the winning car in the Annual Pike's Peak Race. The most amazing proof ever known of Extra Traction, Non-Skid Safety, and Dependability.

This same Extra Quality and Safety are built into the new Firestone High Speed Tire for 1934. Their wider tread of flatter contour, deeper non-skid and more and tougher rubber give more than 50% longer non-skid mileage. Inside eight additional pounds of pure rubber absorbed by every 100 pounds of cords. This additional rubber surrounds every cotton fiber inside every cord in every ply, counteracting damaging frictional heat, the greatest enemy of tire life.

This is accomplished by Gum-Dipping, the ingenious process developed and patented by Firestone. Through its exclusive use only Firestone is able to give you a tire of such cohesive strength and safety.

Ranger Theatres Have Good Films the Coming Week

MANY STARS IN PICTURES AT THE THEATRES

Twelvetrees, Sullivan, Cagney, Montgomery, Oakie, Durante and Tom Tyler in Feature Pictures.

The Arcadia and Columbia theatres offer the best of screen entertainment this coming week when "Murder at the Vanities," "Little Man, What Now," and "He Was Her Man," will be shown. Starting the week Friday the Arcadia will be showing "She Was a Lady," with Helen Twelvetrees and Donald Woods. This is the first time the theatregoers of Ranger have had a chance to see Miss Twelvetrees and her latest picture promises to be very good. This program is supported by a 20-minute comedy and a "Snapshots." Saturday the Arcadia will be showing "Blind Date," which is Ann Sothern's first starring picture. Miss Sothern will be remembered for her brilliant performance in "Melody in Spring." A Betty Boop cartoon, newsreel and a 10-minute review complete this program.

Sunday Margaret Sullivan, star of "Only Yesterday," returns to the local screen in her latest attraction, "Little Man, What Now." This picture plays only one day. Sunday, and comes recommended as outstanding screen fare. Monday and Tuesday the outstanding picture of the week will be shown when Jack Oakie will be featured in "Murder at the Vanities." This is one of the latest musicals and promises to be very good entertainment. This program is supported by a Krazy Kat cartoon, a Travlogue and a Hollywood Parade.

The Columbia theatre offers the best pictures Saturday and Sunday to be shown in several weeks. Saturday a new serial, "Wolf Dog," begins and should be very good since Frankie Darro, the boy actor, and Rin-Tin-Tin Jr. are featured. The program also features Tom Tyler in "Ridin' Thru," and a 10-minute novelty. Sunday, the Columbia shows James Cagney and Joan Blondell in their latest attraction, "He Was Her Man." Good short subjects are included on this program.

"Buster" Disproves Red Fox Theory

TRAVERSE CITY, Mich.—An idea that all red foxes are killers and surely hrgtes has been disproved by "Buster," a pet fox in the local zoo. "Buster," one of three fox puppies brought to the zoo when they were babies, have proved to the citizenry of this city that all foxes are not "varmints." However, his two family members lived up to their reputation, becoming surly and disagreeable, in a short time. The Traverse City pet likes attention. Each evening he is allowed the run of the zoo grounds. He romps about playing with anything that will play. He always comes when called and behaves—literally—like a gentleman.

Glamorous Ann Sothern, sensational star of "Let's Fall in Love," achieves a dramatic triumph in her new role in Columbia's "Blind Date" Saturday at the Arcadia theatre. Seen as the flippant, coquettish switchboard operator who turns to a blind date for an amorous adventure and falls head over heels in love. Miss Sothern displays a flair for drama and romantic comedy which marks her as one of the screen's most promising new stars. Neil Hamilton and Paul Kelly are the featured male leads in "Blind Date."

Splendid Card Offered Monday Night In Ranger

A wrestling match of unusual interest is scheduled at the Elks arena for next Monday night when Tiger Billy McEuin meets the rough and ready Jack Fields in a two-hour time limit match where holds in the jiu-jitsu art will be demonstrated. This promises to be good as both these men are fast and both go into the ring to win. Tiger Billy is a favorite in Ranger and is plenty hard to handle.

The second wrestling match is between Bobby Davidson and Doc Pool. Bobby is known as "the strong boy," and is hard on his opponents, especially when they happen to take hold of his arms or legs.

Ten rounds of fighting between Jumping Jodie Cason and Eddie Burke. The fans remember Jumping Jodie in last Monday night's fight when he licked Bobby Reed in the fifth round in what was scheduled for a 10-round affair.

The proceeds from the cards all goes to charity after deducting expenses and the Elks are helping quite a few families in obtaining medicine and groceries. There is no advance in tickets.

Legislature Will Lose Professor Of Government

AUSTIN—The Texas legislature will lose its professor of government as a member, but the place of Dr. George C. Hester, instructor of government in Southwestern University, will be taken in the House of Representatives by one of his former pupils.

Wilson H. Fox, 38, Taylor attorney and present assistant criminal district attorney for Williamson county, will succeed Dr. Hester. The professor did not seek re-election. He supported his former pupil.

Fox received a bachelor of arts degree at Southwestern and was graduated from the law school of the University of Texas. He will represent the florial district made up of Williamson and Burnett counties.

CHILD DEATHS HIGH

BOISE, Idaho.—Forty per cent of the Idahoans who died during the period ending July 15 were children under one year of age, the state's vital statistics report reveals. Of the 378 deaths only 59 were accidentally caused. During the same period the youngest mother was 15; the oldest 50. The youngest father was 18 and the oldest 64.

TO CONTINUE AS HOUSEMAN
OXFORD, Ohio.—Although he will inherit between \$25,000 and \$30,000 from the estate of his father, who died in Aberdeen, Scotland, Davis "Scotty" Milne, 38, plans to continue as houseman at the Delta Tau Delta fraternity house on the Miami university campus here.

ST. LOUIS, Mo.—Dr. Joseph F. Bredeck, city health commissioner, saw one optimistic note in the summer's heat and drought here. About 10 days of 100-degree heat dried up stagnant ponds and pools and killed off all the mosquitoes.

Davenport Has 152 Majority Over His Opponents In Race

In the tabulation of the county vote, carried in Thursday's paper, a mistake was made in copying the unofficial returns in the race for commissioner from precinct No. 1. The tabulation carried showed that Henry Davenport received 1,557 votes, Morris 783 and Cooper 744. A checkup this morning showed the mistake was made in copying the returns from city hall, Ranger. The correct totals, as unofficially announced, should have been, Davenport 1,381, Morris 686 and Cooper 543.

The totals, as carried, gave Henry Davenport a majority of only 30 votes, whereas the correct total would have given him a majority of 152 votes over his two opponents.

The corrected totals for the three candidates is as follows:

	Morris	Cooper	Davenport
1 Eastland	266	101	285
2 Ranger	48	145	346
3 Tudor	2	0	31
18 Olden	44	27	74
21 Mangum	26	7	33
25 Ranger	34	165	280
27 Eastland	266	98	357
Totals	686	543	1381

Ranger Youth Likes His Work In Navy

F. D. Hicks is in receipt of a letter from his son, Baylus, who has been in the navy for the past three years, stating that he was working for an advancement. He is stationed on the U. S. S. Pennsylvania, which is at present at Bremerton, Wash.

Baylus has recently made a trip with the fleet from the west coast to Cuba and the Atlantic, where it was reviewed by President Roosevelt before returning to the Pacific coast. Young Hicks says that he enjoys his work on board the battleship very much.

WHEAT RISES ON MARKETS TO SEASON HIGHS

FORT WORTH, Aug. 6.—No. 1 hard wheat sold for \$1.21 on the Fort Worth exchange today, a new record for the season.

Saturday's close was \$1.14 to \$1.18 1/2. Exchange officials said continued drought and high temperatures over the southwest caused the rise.

CHICAGO, Aug. 6.—Wheat closed 3 1/2 to 4 cents higher on the board of trade today with the May delivery selling at \$1.12 1/2. Corn was up 1 1/4 to 2 cents higher at the close, with May at 71 1/2 cents. Oats finished 1 1/2 to 3 cents up with May at 53 1/2 cents.

Ranger Pastor Is On His Vacation

Rev. L. B. Gray, pastor of the Presbyterian church of Ranger, has left with his wife, on a vacation to be spent in Carlsbad Caverns, El Paso and the Davis Mountains.

"Our principal stay will be at Skillman Grove," Rev. Gray stated, "where we plan to attend the 'Cowboy Camp Meeting.'" This meeting is about 16 miles west of Fort Davis. It was begun 45 years ago by Dr. Bloys, missionary bishop of Western Texas and the charter organization is named in his honor. Four denominations participate.

"Speakers this year are the Rev. Drs. Burma, Anderson, Onderdonk and Yearby. My wife and I expect to return the last week in August."

Ringold Leads In Third of Boxes In Eastland County

With seven men in the race for representative of the 106th district, E. A. Ringold of Ranger carried one-third of the boxes in the county, the complete tabulation of votes showed, to give him a slight lead over George Davison Jr., second high man in the race.

Mr. Ringold carried both the Ranger boxes by a large majority over his two opponents, and in addition carried Tudor, Sabanno, Scranton, Nimrod, Romney, Mangus and Cook.

George Davison Jr., second high man, carried five boxes in the county, including two Cisco boxes, while Eastland voted both boxes for Ed T. Cox.

Points were awarded the organization in athletics, drill, camp cleanliness, etc.

Baptist Revival Is Being Conducted At Cross Roads

Part of the church strength of the First and Central Baptist churches is being combined in an evangelistic campaign at Cross Roads this week.

Rev. H. H. Stephens, pastor of the Central Baptist church, has been secured to do the preaching and brought the initial message of this series of meetings Sunday afternoon on the subject, "Jesus Knows Our Needs."

As Bro. Stephens could not spend the first Sunday night of the meeting away from his church, supply work was done in that service. After a service of song and devotion, Rev. Dan Donowho, who has been recently called into the ministry, brought a wonderful message on the subject, "If My People."

Both services were well attended and a good meeting is in prospect. The community of Cross Roads and those having part in the meeting extend to the general public an invitation to attend these open air meetings which are being conducted at 8 o'clock each evening.

Homesteaders Still Active in the West

SACRAMENTO, Cal.—The day of the homesteader has not yet passed in California, according to Ellis Purlee, register of the United States Land Office here.

Some Appointees May Continue In Offices They Hold

AUSTIN, — Many appointees who secured state positions when Mrs. Ferguson became Governor have anchors to windward. Failure of the Ferguson candidate to get into the run-off for governor does not necessarily sever them from the state payroll. Many, cannily, became active for candidates in minor races. If their candidates in such races win, they have a fair chance to continue in state employment in some department.

Ferguson supporters who were placed on state boards and commissions are secure for four more years. The boards and commissions are made up of members with six year terms. The terms are so arranged that a third of them expire each two years.

Former Gov. Ross S. Sterling's appointees to such boards are secure for two years more. The arrangement of the terms so that only a third expire at one time is supposed to make the commissions and boards non-partisan.

Mark Wiginton, former Hillsboro banker and former Hill county official, who became secretary to Governors Dan Moody and Ross S. Sterling, in turn, will be back at his present secretarial desk in the state highway department soon. An acute attack of appendicitis sent him to a hospital.

Should Attorney General James V. Alfred be elected Governor, Pat Dougherty may again be secretary to a governor. He was on the secretarial staffs of both Governor Dan Moody and Ross Sterling and became assistant to Attorney General Alfred when Governor Sterling retired. Pat formerly lived in Bell county. Paul Wakefield, another of Former Governor Sterling's office staff is assisting Alfred's campaign as publicity man.

Correspondents Gessed Wrong On Governor's Race

AUSTIN, Tex.—How great a surprise was occasioned by Tom Hunter running ahead of C. C. McDonald for Governor is indicated by the "gesses" made by eight newspaper correspondents at Austin two weeks before the primary. Each of the eight wrote his guess of the order in which the candidates would finish. The guesses were placed in a sealed envelope, not to be opened until after July 28.

Five of the eight picked McDonald to run second. One picked him to run third; one, fourth; and one omitted him. All but one picked Alfred to head the list.

SHERIFF SPURNED ADVICE

CARD OF THANKS

There are many things that one can feel and say after an election but none as sincere as the words: "Thank you!" You have shown by your vote that you have approved of my serving you as your District Attorney, and at the same time have impressed upon me more fully the duty I owe Eastland County in seeing that the affairs of this office are carried out efficiently, and diligently; and that the offenders are brought before the courts. I take this means of extending to all, whether they voted for me or not, my whole-hearted co-operation, and I am sure that the people will help me accordingly. I pledge you faithful service, and want to express my grateful appreciation.

GRADY OWEN

TO THE VOTERS OF EASTLAND COUNTY:

Ever and always shall I be deeply grateful for the overwhelming majority given me on last Saturday for County Judge. I try to think of the fine vote given me as an expression of confidence in my honesty, integrity and ability and it shall be my constant aim and endeavor to serve you honestly and efficiently.

I feel that I owe the people a debt of gratitude which I shall never be able to repay. I certainly appreciate everything my friends did for me and desire to say that I have the kindest feeling for those who for any reason did not see fit to support me.

Yours very sincerely,
C. L. (Clyde) GARRETT

CECIL A. LOTIEF THANKS VOTERS OF DISTRICT

I take this means of thanking the voters of the 107th Floterial District for their loyal support given me at the polls in the primary election. I construe the nice lead given me to be an endorsement of my efforts in waging a battle for the masses in your legislative halls at Austin.

I hereby pledge to you again that I will be honest to the trust imposed in me and that I shall remain faithful, conscientious and endeavor to carry out your wishes.

With sincerest good wishes to every citizen, I remain,
Your servant,

CECIL A. LOTIEF STATE REPRESENTATIVE

ALLRED FACES HARD RUN-OFF WITH HUNTER

By GORDON K. SHEARER
United Press Staff Correspondent
AUSTIN.—Attorney General James V. Allred faces a harder run-off campaign in his race for governor than that in which he has just emerged as leader in the first Democratic primary.

The second man in a preliminary primary has won a run-off as frequently as the leader. There seems to be something in human nature that aligns supporters of the losers against the leader.

Strangely enough, Allred, who has been attacked as a radical in past campaigns, becomes the conservative in the pending race. Tom Hunter's proposals are more radical than those of Allred.

Prohibition, which likely would have been the main issue in a run-off between Allred and C. C. McDonald, seems destined to have little part in the runoff between Allred and Hunter. Both are dry.

Should McDonald with the aid of the Governors Ferguson be able to swing the bulk of McDonald's vote to either Allred or Hunter, the result of the Aug. 25 primary would no longer be in doubt. But it is doubtful that any such thing can be accomplished.

Sen. Roy Sanderford, manager of the McDonald campaign, said he does not fear the "ringers" will attempt to influence the decision of McDonald supporters as to whom they should support in the runoff. He has a card index of the "original McDonald men" in each county and indexes of all with whom McDonald headquarters was in correspondence during the first campaign. He said that it is not contemplated that any caucus will be called before a decision between Allred and Hunter is announced.

Should the Ferguson-McDonald forces be able to accomplish their announced purpose and determine the winner in the runoff, very material results might be expected. They, naturally, would expect a voice in the decision on political plums that go with the governorship. Mrs. Ferguson, in her term as governor, had the opportunity to name one third of the present membership of state boards and commissions. Could the Ferguson and McDonald supporters dictate the naming of another member they would have two thirds, or a majority of the board membership. With the majority of the membership, patronage is available.

The political future of "Farmer Jim" might be helped. He aspires to be National Democratic Committeeman from Texas, on the selection of the state democratic executive committee at its meeting in Houston last March. A declaration in his favor from the state Democratic convention in Galveston next September would help. Failing that, silence at the convention on the matter would be to his advantage. State conventions notably are responsive to the will of the party's nominee for governor.

Looking farther into the future there is a reason why Ferguson might desire the election of Allred. The Senatorial term of Morris Sheppard expires in 1937. He will be renamed or his successor nominated in the Texas Democratic primary of 1936. Allred, as governor, might be expected to seek the customary double term, rather than enter the race for senator.

Popular report now is that Rep. Wright Patman, Texarkana, may be a candidate against his fellow townsman, Sheppard. Patman is as dry as Sheppard. With Ferguson in the race on a wet platform and them splitting the dry vote, the prospect would not be dark for the former Governor to close his tempestuous political career with a crowning victory.

Try a WANT-AD!

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sore and sick and the world looks gray, don't swallow a lot of salts, minerals, oils, heavy candy or chewing gum and expect them to make you suddenly want to jump out of bed in the morning.

For they can't do it. They only store the toxins and a slow movement doesn't get at the cause. The reason for your liver trouble is in your liver. It should work out the poisons of liquid bile into your blood daily.

If this bile is not flowing freely, your blood doesn't clean. It just stores in the toxins. Get your liver working. You have a liver, but it's not working. Your blood is full of poisons. Your liver is the only organ that can clean up the poisons. Your liver is the only organ that can clean up the poisons.

It takes three good old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel like a new man. They contain no harmful, irritating, or poisonous chemicals, and when it comes to making the bile flow freely, they are the only pills that can do it. Buy a box of Little Liver Pills, and see the name Carter's Little Liver Pills on the red label. There is a picture of a man on the label. © 1934 U. S. C.

C. C. McDonald Urges His Supporters To Vote For Hunter In August Primary

Says a Survey of His Followers Is Cause of Choice

AUSTIN, Aug. 6.—C. C. McDonald, who was third in the July 28 democratic primary, today announced a decision to support Tom F. Hunter for governor in the runoff campaign.

Last week McDonald asked his supporters to advise him of their choice for governor in the Aug. 25 election so all might stick together and "hold the balance of power."

Today he said that leaders in his campaign after polling friends, had responded and that 1,016 advised him to support Hunter, 31 to support Allred and five to remain neutral.

He said the decision concurs with his own choice.

"Our supporters come from the tolling masses," McDonald said. "The only hope for those who toil and labor lies in Hunter's election."

Gold In Gizzards May Lead to Strike

COTTAGE GROVE, Ore.—Gold found in the gizzards of ducks today led to the hope that placer gold is nearby.

O. V. Breese accidentally discovered the gold when he broke a gizzard of a duck raised on Silk creek. He then retrieved another gizzard he had discarded and found other nuggets. The nuggets from both ducks were worth about \$1.

Professor Believes Society Pendulum Swinging Back

CINCINNATI, Ohio.—Dr. Ernest L. Talbert, associate professor of psychology at the University of Cincinnati, believes that society's pendulum is swinging back from the day typified by the "flapper and the jazz hound" toward a more conservative era, he told students here recently in a campus address.

"The social sciences, once a subject for jokes and ridicule, are arising in popular esteem. The generous support given to the courageous and humane social philosophy of President Roosevelt is indicative of collective attitude. Whatever may be the outcome of his efforts, for the time being there is an upturn in the status of social scientists," he said.

Pigeon a Prowler In Deserted Home

SALT LAKE CITY, Utah.—Lights flashed on and weird shadows danced across windows at the home of Jeanette Rosser. Neighbors knowing that no one was home, called police.

"Stick 'em up. You're covered. It's the law," shouted the police. Wings fluttered at one of the windows and a pigeon, which had entered via the chimney, turning on light by knocking over an electric candlestick, flew out.

There were no arrests.

WINS HONORS

Win of second highest individual scoring honors was made by Elmer Brown of Eastland who amassed 17 1-2 points in the Texas A. U. meet in Fort Worth Saturday.

Drouth Loan Office In the Courthouse

The Eastland county emergency drouth loan office has been moved from the county relief office to the basement of the courthouse, offices now located in Milton Newman's justice of peace offices, with Walter Gray in charge. This change will be more convenient to farmers and stockmen desiring loans for the purpose of feeding livestock or the planting of forage crops.

Children Held After Nudist Camp Raid

DELAWARE, O.—Eight adults and two children were held in county jail after a raid on an alleged nudist camp near here by Sheriff C. E. McKinnie.

"A space of two acres had been carefully cleared of underbrush," the sheriff said. "The debris had been piled around the edges to form a wall of brush. None of the people had a stitch on. Some were playing volleyball, some were pitching horseshoes and some were sitting around talking."

A man, who said he was a member of the "executive board" of the camp, told the sheriff the group called themselves the Health Hunters' Club. He said he was an unemployed school teacher.

BREAKS COLLAR BONE

George Parrack, while umpiring the Cisco-Dublin baseball game in Dublin Sunday, was struck by a ball during the fourth inning which broke his collar bone. After treatment Parrack came back to the game.

Dublin won the game 5-4.

FRIEND OF CUSTER DEAD

CADIZ, O.—Miss Sarah McFarland, 92, who went to school with Gen. George A. Custer and carried food to volunteers fighting Morgan's raiders during the Civil War, died here recently. She rode horseback to get news of her four brothers and 14 cousins in the Union army.

Treat your horse as you would a lady, a Pennsylvania riding academy advises its patrons. But it won't accept a cigaret.

A Philadelphia scientist has devised a saliva test to discover whether a race horse has been doped. An easier way would be to bet on the horse.

Weather Too Hot For Ohio Nudists

RAVENNA, Ohio.—Ironically, nudists of the "Natural Friends League," near Rootstown, found the weather too hot for nudity recently. That's the way Chester Riel, colony head, explained the shortage of members when Sheriff Leroy Jones raided the colony.

Only three, in the nude, were found by the sheriff when he penetrated the mass of undergrowth surrounding the camp. All were men, sitting around a home-made picnic table. Riel, at his office, explained the scant numbers: "It's the weather. Too hot."

Secretary of State Has a Big Job After An Election

AUSTIN, Tex.—Secretary of State W. Heath's office has looked like a newspaper office since election day.

A new law requires the Secretary of State to tabulate returns on primary elections—a duty formerly left to the party executive committee.

To comply with the law, he has had to prepare huge sheets upon which to enter the vote by counties on races for nomination for district or state offices.

Several large flat-top desks are required to hold the tabulation sheets. The procedure of tabulation is practically the same as that used in daily newspaper offices prior to the time that the Texas Election Bureau was organized to compile returns.

Complete county returns only are tabulated in the secretary of state's office, which simplified the work.

Beaumont Movie Goers Prefer the 'Wicked' Pictures

BEAUMONT, Tex.—Movie-goers here may petition for clean pictures, but they prefer to see the "wicked" ones, a check of Beaumont theater receipts revealed.

Theater managers said a check showed that cinema productions featuring murder, gangster or sex angle are far better money makers than those of superior artistry and more exalted theme, but comparatively lacking in the sensational element.

Locally, the best drawing card for the past year or so has been Mae West. Two of her pictures have been shown here. A checkup showed that "I'm No Angel" was witnessed by approximately 1,000 more children than was "Little Women," despite that parents were urged to leave children at home during the Mae West run.

"Little Women" was considered a box office flop in Beaumont.

George Arliss pictures here are regarded as certain outs and out flops, although Arliss is considered one of the few really supreme actors of the screen.

"Berkeley Square," an extremely artistic production, proved almost a complete failure here. "Alice in Wonderland" also was a box office disappointment.

The most talked of picture of the year, "Cavalcade," drew only mediocre patronage.

All the pictures which have been box office disappointments are not necessarily the type that would be approved by the Legion of Decency according to the check here. "Eskimo," for example, billed in some localities as "red, raw drama," didn't click in Beaumont.

Mae West features and "Roman Scandals," "Tugboat Annie" and "Viva Villa" are among the most popular of recent offerings here. "The Private Life of Henry VIII" drew well, as did the latest Garbo attraction, "Queen Christina."

Pictures featuring Jean Harlow, Joan Crawford and Norma Shearer have proved sure-fire box office hits here. Musical comedy extravaganzas and murder mysteries, as well as gangster pictures including popular stars in the casts, can nearly always be depended upon to assist the box office.

The contention of many exhibitors here is that the "better element" of the citizenry does not patronize clean pictures to an extent that would justify showing them exclusively.

Houston Holds Supremacy as the Big Cotton Port

HOUSTON, Tex.—Supremacy as the world's largest cotton exporting port during the 1933-34 season was maintained by Houston, statistics released by the Houston Cotton Exchange and Board of Trade showed.

Total shipments for the season were 2,340,630 bales, a lead of 310,188 bales over its nearest competitor, and 243,864 bales short of the 1932-33 season's record.

Port Houston, however, fell behind in the matter of receipts, being surpassed by Galveston in this respect. The island port had 2,278,724 bales received there in 1933-34, while the receipts at Houston amounted to 2,260,196 bales.

Gross receipts during the season which ended officially July 31 were 2,262,934 bales against 2,889,555 for the previous season at Houston.

Virtually all types of cotton handled dropped behind the previous year, the report said.

Prices paid on the Houston market were higher than those paid in the previous year, the highest for middling being 13.15 cents in the 1933-34 season as against 11.65 cents in the 1932-33 season.

Lowest quotation on middling last season was 8.50 cents as against 5.45 cents for the previous season.

Average quotation on middling for the 1933-34 season was 10.90 cents, compared to 7.25 for the preceding season.

Cotton movement to the Far East last season showed an increase over the 1932-33 season, while the movement to Great Britain and the continent showed a decline.

Japan regained the leadership as receiver of Houston cotton which is lost to Germany last year. The total was 617,083 bales compared to 501,244 bales for the preceding year.

Shipments into Houston during the season amounted to 2,563,639 bales. In 1932-33 a total of 2,797,137 bales were shipped into Houston.

Coastwise cotton shipments from here last season totaled 173,000 bales, slightly less than the 191,154 bales moved in the preceding season.

The close of the season found stocks of cotton on hand at Houston totaling 829,790 bales, which was below the 1,132,338 bales on hand at the close of the 1932-33 season.

Bales of cotton compressed in Houston during the season just ended totaled 1,068,448 bales as compared to 1,898,197 bales compressed in 1932-33.

Total sales reported on the Houston market last year were 1,171,244, while the preceding season reported 1,615,274 sales of all kinds.

Cotton men explained the loss of business this season in comparison to last season by pointing to the international trade situation, which was seriously handicapped by internal troubles of countries which usually are good customers.

LIGHTED AIRWAYS

NAMPA, Idaho.—Idaho has 400 miles of lighted airways, a survey shows. The rotating beacons are on the Salt Lake City-Pasco and the Salt Lake City-Great Falls, Mont., routes.

Why Not A Spring Vacation?

Are you one whose vitality is always lowest in the spring? Do you have what you term "a snappy case of spring fever?" You're probably just run-down and worn-out after a hard winter. What you'd better do is stop right now, rest awhile, and get in trim to carry on for another year.

Tobacco is sold in open auctions. We buy the right kinds—mild and ripe—for Chesterfield—and pay the price

.. but even that's not all there is to it

AFTER you receive the tobacco from the farmers you have to dry it just right and then store it away for ageing for over two years.

Then you take the different types of home-grown and Turkish tobaccos and weld them together in such a way as to make a balanced blend.

The Chesterfield process of blending and cross-blending tobaccos is different from others, and we believe it helps to make a milder and better tasting cigarette.

Down where they grow tobacco—in most places—Chesterfield is the largest selling cigarette.

RABBIT CLUB IS PLANNING ANNUAL SHOW

Plans are being made by the Eastland County Rabbit Club for their sixth annual fall show, which will be held in conjunction with the Eastland County Fall fair Sept. 19 to 22. The show will be staged in the Stubbfield building on the east side of the square, Eastland.

Hugh Owen of Eastland will be the show manager and L. V. Simmonds, also of Eastland, will be secretary. Marvin O. F. Davis of Gainesville will judge the show. Mr. Davis is recommended by the American Rabbit and Cavy Breeders association.

The show this year, according to Hugh Owen, will be better than any previous show as there will be a larger number of entries and also a better grade of entries. There

will also be a larger premium list, which will include both cash and merchandise prizes. Included in the list of premiums is more than \$40 worth of silver cups. Merchandise prizes will be donated by Eastland merchants. There will also be a 40 specialty club offers.

Ceaser Cooper, 32 Years a Sailor, Visiting Sister

Mrs. E. P. Kilburn is enjoying a visit from her brother, Ceaser Cooper of San Francisco, Calif. Mr. Cooper recently returned from the navy after serving over a period of 32 years. At the time of his retirement he carried the rank of chief gunner. While in the service Mr. Cooper served on the big armored battleships and also saw submarine service.

The past few years he has been stationed in the Hawaiian and Philippine Islands and different parts of China.

Mr. Cooper spent his early boyhood in and around Cisco, leaving there at the age of 16 to join the navy.

Mr. Cooper brought his sister a surprise gift, a beautiful hand-woven Chinese rug, made in Peking, China, by one of the famous American women rug makers, who own and supervise the making of hand-woven Chinese rugs. This woman gained fame for her rugs, due to the fact of her exquisite blending of colors in her rugs. The rug Mr. Cooper brought here depicts a Chinese Junk Ship.

Mr. Cooper and Mrs. Kilburn are visiting Mrs. Kilburn's son and wife at Chickasha, Okla. He plans to spend several weeks in Eastland.

Eastland People Land a Big Fish

Landing a 30-pound catfish the first night out was the experience of a group of visitors to the Concho River near Christoval. A number of other nice fish were caught during the stay of a few days.

Mr. and Mrs. Jimmie King and Mr. and Mrs. Morgan Myers were the Eastland people who made the trip. They were joined in San Angelo by Captain Martin Coonsman of Abilene and Mr. and Mrs. E. L. Posey of San Angelo, making the trip to the river in a party.

Myers and Posey, State Highway Patrolmen, are on their annual vacations and Captain Coonsman, in charge of a number of patrolmen in West Texas, spent Friday night with the party.

Dempsey Weeps As Daughter Is Born

NEW YORK, Aug. 5.—Jack Dempsey, the Manassa Mauler, whose "killer" instinct was a prize ring tradition, wept for joy today at the sight of his newborn daughter.

The infant was born to his wife, the former Hannah Williams, stage star. After a night of waiting a morning of jubilation Dempsey tip-toed into a room at the hospital for his first peep at his child.

When he came out his eyes were red, filled with tears. "She's beautiful," he said. "Beautiful. A little angel sent down from heaven."

Warden Lawes of Sing Sing Prison had to undergo a second operation to have a sponge, left by a previous operation, removed from his leg. Only those who were ever left inside prison walls by mistake may laugh.

Friends of John White Rally to Aid His Campaign

Friends of John White, who have known him for the last 20 years and who vouch for his honesty and fair dealings and his personal business reputation, are now urging that he be elected to the office of county treasurer, an office he sought in the first primary and will seek again in the second primary on Aug. 25.

Mr. White has lived on a farm south of Ranger, near Staff, for the past 30 years. He was educated in the public schools of Eastland county and spent two and a half years in the colleges of the state completing his education.

He was in the mail service, after passing the civil service examination, and served for eight months as a railway mail clerk. He was transferred to Louisiana where he had to resign on account of his health and return to Eastland county.

He was married in 1923 and has one child eight years old. In 1928 he and his wife purchased a little farm, which they paid for six years. His health became so bad that he could not do the hard work on the farm and was unable to pay for the farm longer and lost it. He also had to sell his livestock and farm implements to pay for a major operation in January, 1933.

The fact that his friends in this section have taken an active interest in his candidacy and have spoken so splendidly of his character and reputation is the outgrowth of no solicitation from Mr. White, as he has not, as yet, been informed of this united effort on their part to aid him in the campaign between now and Aug. 25.

Carbon Cemetery Working For Aug. 15th Announced

The Carbon Cemetery association will hold its annual meeting and cemetery working Aug. 15, according to J. A. (Joe) Neely, president of the association. Other officers of the association includes Ed Allison of the Bear Springs community, who is secretary.

Oldtimers, especially those having relatives and friends buried in the Carbon cemetery, have, for some years, been meeting there once each year and working the grounds and putting them in first class condition. Those attending are requested to bring their lunch as an old fashioned basket dinner will be spread on the ground. Those attending are also requested to bring tools with which to work the grounds.

ELEVENTH CENTURY MILL TO CLOSE

LONDON.—An 11th Century flour mill, dating back to 1086, will close when the venerable mill closes its workers and milling to new works at Victoria Docks. At one time the property of the ancient Syon Monastery, the mill has passed through many an illustrious hand, including that of Henry VIII, who, after he dispersed the monastery, gave it to the ancestors of the Duke of Northumberland.

IDÁHO AUTOS INCREASE

BOISE, Idaho.—More licensed automobiles are on Idaho roads this year than during 1933, a report of the state licensing department reveals. Current year passenger car registrations are 12,476 above the number last year and there are 3,046 more trucks and 80 more dealers.

RECORD WHEAT CROP

WILMINGTON, O.—Herman Brown threshed 290 bushels of wheat from 4.6 acres on his farm near here, a record crop for the region.

91st Grand Jury Returns 32 True Bills, Adjourns

Request that the county commissioners take immediate action in repairing the county jail was made by the 91st Grand Jury which ended its session Thursday after examination of 117 witnesses and the finding of 32 true bills.

The report in part: "We urgently request that repairs be made to the jail before winter and respectfully request that the commissioners take immediate action in this matter."

"We cannot help but express our thanks for the great work of our State senator, Wilbourne Collier, has done toward revising the criminal procedure. We would respectfully ask that he take some steps towards passing a bill governing the sale of second-hand pipe such as a bond and license for dealers, requiring them to have bills of sale from owners keeping a permanent record of same and such other protection for the oil operator as he may think necessary."

DUCK LAYS BLACK EGGS
WARSAW, Ind.—A duck on the farm of Ambrose Horrice is laying black eggs of normal proportions and form. Horrice is conducting an experiment by placing several of the black-shelled eggs under a setting hen to ascertain whether they will produce black ducklings or black-egg-laying ducks.

CUTS 100-CANDLE CAKE
CONNAUT, O.—The Ingolds-Curtis families, holding reunion here, had a special treat. They saw Mrs. Lucy Haak cut her birthday cake, bearing 100 candles.

Bridge Arch Packed Causes Contraction

ST. LOUIS, Mo.—Possibly the strangest use to which ice ever was put was recalled here recently when the 60th anniversary of the famous Eads Bridge, across the Mississippi, was observed.

A speaker related how the last steel section of the arch would not close—being too long despite the most careful engineering calculations in advance.

"The weather was warmer than had been expected, and the steel in place was longer than it should be," he said. "To reduce this length, they actually packed the ribs of the arch in ice, as much as 60 tons were used in one day."

It is a well established fact that heat expands, coil contracts, steel.

BEER INJUNCTION GRANTED

EL PASO.—The city's efforts to close beer parlors in the residential districts under provisions of the zoning ordinance were blocked temporarily when Antonio Flores and T. W. Tullar, operators, filed an injunction suit against officers.

Frank Cameron, representing Flores and Tullar, said the city cannot issue beer licenses and then prosecute the operators.

CCC CAMP'S PROBLEM

ST. LOUIS, Mo.—Paul R. Hughes, of St. James, Mo., provided the biggest problem faced during the C.M.T.C. training period at Jefferson Barracks here. Hughes weighs 297 pounds, is 5 feet 11 inches tall and only 18 years old. He takes size 50 pants, size 20 shirt and then he can't button the collar, and 12 1-2 shoes.

THREE-QUARTER CENTURY CLUB

BETHESDA, O.—Joseph W. Heatherington, 84, of Bellaire, O., was re-elected president of the Three-Quarter Century Club when 87 old-timers gathered for the seventh consecutive year to swap yarns and live again in the past. Dr. H. C. Kemple, 90, Bellaire dentist and Civil War veteran, was the oldest member present.

"I Always Feel Safer in a Ford"

ALL-STEEL BODY AND SAFETY GLASS—The strength of steel protects you when you ride in a Ford V-8.

Around you is an all-steel body, electrically welded into one piece.

Beneath your feet is a rigid, X-type steel frame.

Out in front of you and behind you are strong steel axles, triangularly braced by steel radius-rods and supported by a steel torque tube.

You ride upon steel-spoke wheels, also electrically welded into one piece. The windshield before your eyes is safety glass. (All Ford V-8 De Luxe closed cars are equipped throughout with safety glass at no additional cost.)

Another reason why you feel safer in a Ford V-8 is something that makes every driver a better driver . . . ease of handling. There is always less strain and less likelihood of tight situations when you drive an alert, obedient car.

The Ford V-8 gives you an extra margin of safety because of its quick acceleration, eight-cylinder speed and power, ease of steering, stability on curves and rough roads, and powerful, oversize brakes.

COAL HOLE GIVES WATER

WASHINGTON, Mo.—A 1,000-foot hole drilled here 50 years ago by citizens hoping to strike coal, is furnishing Washington with water since the hot weather dried up streams and springs. The deep hole, uncovered by an old-time resident, who remembered it had filled up with water before being cemented, furnishes enough for almost the whole town.

HEAT IRKS MEDICS

CINCINNATI, O.—The summer heat waves have given physicians and nurses something to think about when they read their thermometers. General hospital attendants here revealed. When a thermometer is taken from a patient's mouth, its mercury line keeps going right on up, Dr. H. H. Langdon said.

PORTLAND, Ore.—A man walked into police headquarters to report the theft of a brief case and requested authorities to broadcast the loss over the police radio. Radio dispatches balked, however, when the man said his name was Terasyvulos Papopoulos.
