Obituaries, cards of thanks, notices of lodge meetings, etc., are charged for at the regular advertising rates, which will be furnished upon application.

Entered as second-class matter January 3, 1934, at the post office at Ranger, Texas, under the Act of March 3, 1879.

Subscription Rate \$1.00 Per Year, Payable in Advance

FARLEY PLACES MANY NAMES ON POSTAL PAYROLL

Postmaster Gen. James A. Farley has placed 1885 names on the payroll of the department. There is a reason for it: postal business had increased to such an extent that many additional employees were put to work Aug. 6 in 71 offices. The hiring of the workers, whose combined annual pay is around \$3,400,000, came after the recent statement that for the first time in 15 years the postoffice department for the fiscal year ended June 30 showed a surplus over ordinary operating expenses—of around \$6,000,000. "Sunny Jim" pointed out the additions all would come from the civil service rolls, the regular positions going to senior substitute employees.

"Sunny Jim" is not going to make the race for governor of New York. He has plenty to do as a cabinet officer and national chairman of the machine organization of the party of Thomas Jefferson and listening to the frantic appeals of millions of hungry democrats who are ready to make affidavit that "they saved the country in 1932." Gov. Henry H. Lehman, democrat, will be a candidate for re-election. He will have the backing of the Roosevelt administration, Alfred E. Smith, the new Tammany hall and the leaders of all factions of democracy in the empire state of the East. "Sunny Jim" knew where to find his hat.

After fishing for a while, an Oklahoma fisherman went to sleep. All of a sudden he was awakened by a loud splash. Looking around he found his friend missing. He had fallen into the water. Suddenly he appeared. The sleeping fisherman helped his friend back into the boat, and asked how he happened to fall in. The answer he received was, "I did not fall in. I just crawled in to see what kind of fish you were trying to catch."

INFORMATION ON CANNING MEATS IS GIVEN OUT BY HOME DEMONSTRATION AGENT

The following information and methods on meat canning have been sent out from the Extension Service, College Station, Texas, to help with preserving the meat for winter use. The person canning and opening the can is responsible to the family and directions should be followed and when experimenting, do it on other things and not with food supply of the family.

These meat canning instructions have been made to assist in the areas of drought where immediate canning is necessary to prevent further loss of animals or loss of weight of animals without pastures or feed. In order to prevent spoilage and to insure a product which will be safe for use as a food.

Requirements for successful canning of meat in the summer:

1. Carcasses must be washed with cold water and wiped dry with a cloth before transporting to cold storage plant.

Meat canning centers must be located or selected at points where adequate refrigeration facilities are available.

a. The minimum period of cold storage for an animal of 500 pounds live weight is at least eighteen hours when the temperature is thirty-four to thirty-eight degrees, and at least twenty-four hours when the temperature is 42 to 45 degrees.

b. As a maximum the carcass should be allowed to remain in cold storage two or three days for ripening.

c. If the temperature of the storage plant is below freezing, the meat should not remain longer than twelve hours or it will begin to freeze.

3. Chilled meat must be canned promptly after leaving the storage plant or refrigerator to avoid deterioration. There are two possible methods of preventing meat from becoming too warm during preparation after it is removed from cold storage.

a. The first method is to remove from storage one quarter at a time, cut and can it before removing another. The portions of this quarter not being prepared should be kept in a refrigerator.

b. The second method is the most desirable for community canning and may be used in combination with the first method. Cut meat in the storage plant. Tubs and pans should be lined with clean wrapping paper and clean cloths and the cut portions packed in these, then covered with clean cloths or paper or ducking, or both. This wrapping will exclude the heat while the products are being transferred. When the meat reaches the home or the plant all portions not being prepared should be kept in the refrigerator until ready for use.

Methods of Preparation
To prepare the meat for canning cut as usual to remove meat from bones in the best way for canning, and as completely as possible. Methods of cutting beef and veal are described in Texas Extension Service Bulletin 79.

Stew Meat, from beef or veal, is made of the better portion. This includes trimmings from the roasts and other good pieces free from connective tissue. Cut the meat into one inch cubes. Stew meat may include some fat. A small quantity of kidney fat may be added if the meat is quite lean.

Hamburger is made of the portion of the beef not suitable for roasts. Fat lots may be ground, fine and coarse. Fine hamburger is made of lean meat free from connective tissue. Grind this through the one-eighth inch or fine plate of the grinder. Coarse hamburger may contain a little connective tis-

ness as above and cool immediately. Roasts, put one or more pieces of raw meat in each can. Stack without sealing in retort basket so that no can is directly on top of another. Precook long enough to change color from blood red to the cooked stage color. This will require about fifteen pounds pressure for fifteen minutes. Test one or two cans from each tier in the retort basket to determine this. One person a sealing able may be designed for this purpose. Counting time for precooking starts when the pressure gauge has registered the required number of pounds for seven minutes. This means there is no air left in the top of the retort and the cans have started heating. As soon as precooking is completed release steam slowly to prevent liquid being drawn from the cans. Use another can to fill those lacking in weight. Do not fill so full so that the lid must be forced on. If necessary add enough liquor to bring weight up to twenty or twenty one ounces. Add one and one-half teaspoons salt and pepper mixture (4 parts salt and one part pepper) and at least two teaspoons of soup broth to each can. Exhaust and seal. Process time given above and cool immediately.

Hash is made of the meat from the bones after they are steamed (60 minutes at 20 pounds pressure) cut in length of one inch or less. Heat thoroughly in enough soup stock to prevent burning. Fill cans with drained meat, add broth to cover, one and one-half teaspoons salt and pepper mixture as in above recipes. Exhaust, seal and process as above. Cool immediately.

JOHNSON'S SALARY BOOSTED
WASHINGTON, Aug. 28.—Gen. Hugh S. Johnson's frequent complaint he could not afford to sacrifice his private business earning capacity for government service have won him a pay boost from \$6,000 to \$15,000 a year as NRA administrator. Recovery administration officials revealed today that Johnson's salary was increased July 1 by order of President Roosevelt.

RABBIT PURSUIT FATAL
LE MANS, France.—Leon Menant, farmer, driving into Le Mans with neighbor Gustave Plumard, saw a lettuce devouring rabbit on the highway and tried to run it over. The car struck a rock and overturned. The rabbit escaped. M. Plumard was killed.

That ansas weather forecaster who admitted it was getting cooler when the mercury dropped from 102 to 60 probably will feel safe in ordering his coal by February.

Cattle Buying to Be Continued Until Emergency is Met

AUSTIN, Tex. — Representatives of the Texas Southwest Cattle Raisers' Association, The Gulf Coast Cattle Raisers' association, the Drouth Relief Service, Bureau of Animal Industry, State Livestock Sanitary Commission and railroads met at Houston Wednesday to coordinate the cattle buying program in Texas and attempt to inform the public generally of the problems of the program.

C. Z. Crain, head of the surplus commodities department and R. D. McCrum, cattle movement supervisor of the Texas Relief Commission, attended the meeting from Austin.

Explaining the county quota basis, Crain said it was necessary to limit the shipments from each county to 450 head per week in order to avoid congestion at pens and processing plants. He explained that the processing plants can handle only about 70,000 head of cattle per day at capacity. At the same time, Crain said he had been assured from Washington that the buying program will be continued "until the emergency has been met."

To farmers and ranchmen whose herds have not yet been reached Crain declared that the program will continue until every cattle raiser has had a chance to sell the animals he wishes to cull from his herd.

As a result of the government's program, the cattle population of Texas, estimated at near 7,000,000 is expected to be reduced by approximately 2,000,000. Already, some 600,000 heads have been shipped from the state.

Under the quota arrangement, the most acute cases of distressed cattle are to be handled first, Crain said. In addition to the 450 head for shipping purposes, exemptions of cows unfit for shipment will bring the total sales per county per week up to approximately 650 head. One visit to a pasture doesn't necessarily mean that it is the last. After animals hardest hit by the drouth have been eliminated, federal agents may return later to buy other undesirable animals, and farther reduce the surplus.

Crain again asked cattle owners to bear in mind that field representatives are working just as fast as quotas will allow them and that every effort will be made to reach all distressed herds.

Maybe if California wants to get rid of its Communists, they'd do welcome in Cincinnati. They'd do almost anything there to start an uprising of the Reds.

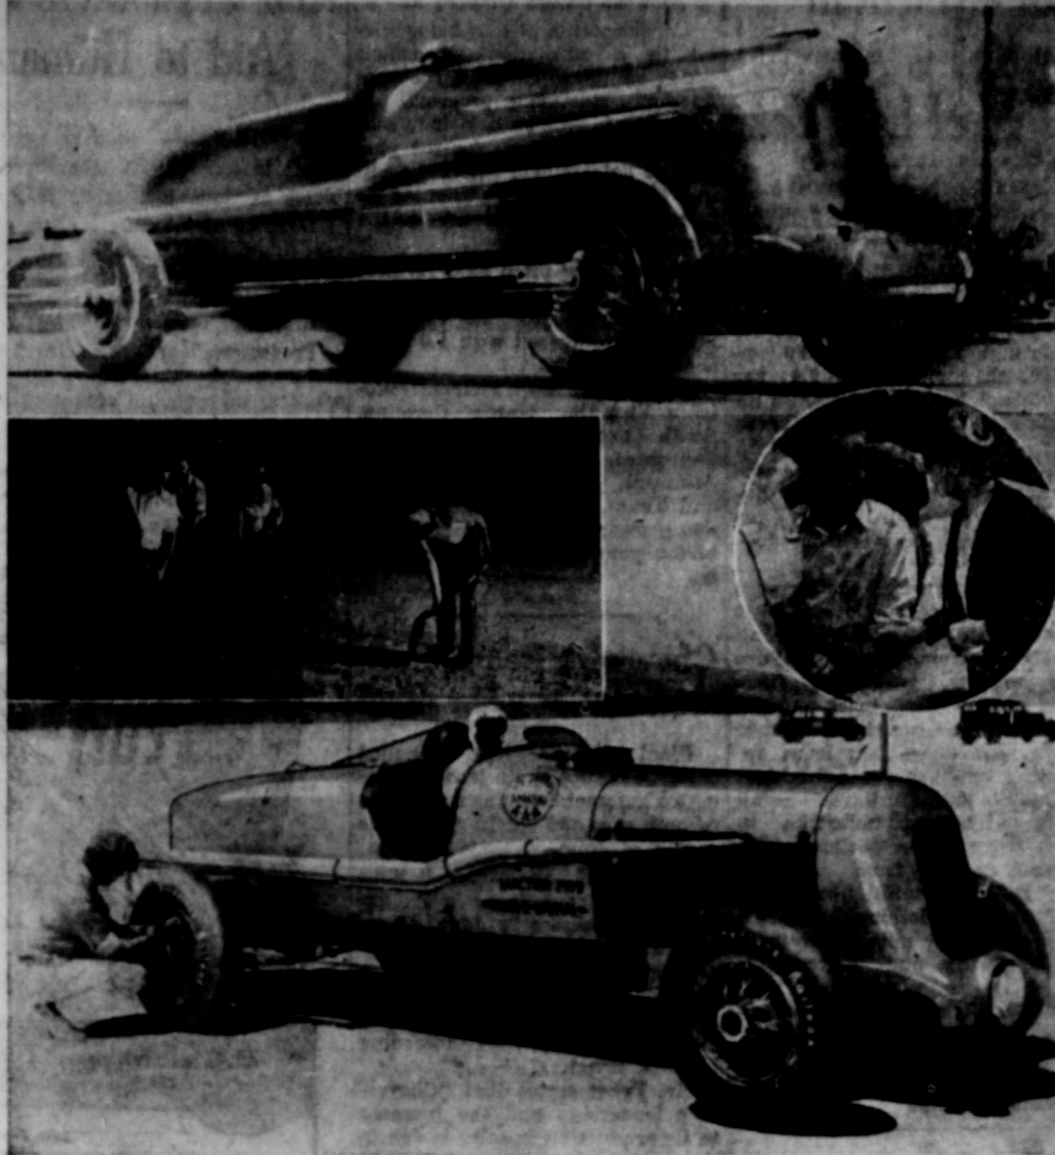

Activities of the H. Demonstration Clubs of County

Care of Clothing—Storage
Proper storage space is one of the big secrets in dressing well and making clothes last longer. If we expect to keep well dressed and expect our clothes to last we must treat them with care. Nothing contributes more toward prolonging the life of ones garments than a well arranged, well kept, clothes closet. This type of closet also minimizes the amount of energy in caring for the clothing. These are some of the suggestions Mrs. Elbert Ezell, clothing demonstrator of the Reich home demonstration club give the cooperators of her club and the women of the county. She suggests the following dimensions for a clothes closet; build to the ceiling and use the surplus space in top for storing quilts or boxes; as wide a space will permit and at least 24 to 26 inches deep. A rod should extend the full length of the wardrobe and be up high enough to keep all garments from touching the floor. Closets narrower than 24 to 26 inches are not wide enough to prevent the garments from being crushed when the door is closed. Shoes may be kept in drawers, on one of the shelves or on a rack on the door or wall. Make plans for all garments and articles.

Storing Canned Foods
Due to the length of the hot summer storage period in this section one should have a cellar or well ventilated pantry for storing canned food, states Mrs. J. W. Tune, cooperator of the Peak home demonstration club. Containers should be placed on shelves ten and one-half inches above each other and not more than three containers deep nor two high, in order to let the air circulate around at all time. Shelves built this way will not waste space because the cans and jars fit in and fill all available space.

Fall Greens
Swiss Chard is a vegetable cold weather will have little effect upon. I plant this every fall and have all the greens needed for the family and surplus green food for the chickens. The bitter taste some complain of can be done away with by removing the large coarse veins from the leaves. This is a good green for canning and is a quick growth. Mrs. R. L. Cooner, Bass Lake home demonstration club cooperator, gave this information in a discussion of leafy

77 Records Fall as Ab Jenkins Speeds More Than 3000 Miles in 24 Hours

Ab Jenkins, veteran speed king, shattered 77 world, international and A.A.A. speed records in his recent 24-hour run on the hot salt desert at Lake Bonneville, Utah. Jenkins is shown above hurtling through space at an average speed of 127.2 miles per hour including all stops for a distance of more than 3,000 miles, — through the

scorching heat of the day, and the black of the night, with temperatures as high as 120 degrees. The inset at the left shows workers on the desert. Previous to the run, holes on the course had been filled with crushed rock as hard as granite with knife-like edges. At the right Jenkins is shown receiving congratulations of his friend mother.

The lower photograph shows a tire check-up of the big 2 1/2-ton 240-horsepower machine by E. Waldo Stein, Firestone field representative who saw the tires, battery and spark plugs made by his company come through this greatest of all endurance runs without trouble of any kind.

vegetables in the diet at a club meeting. We always plan a fall turnip patch, change this year or try both greens in the year.

Pantries Can Be Filled in Dry Weather
Six hundred and forty containers of food fill the pantry shelves of Mrs. P. S. Larkin, farm food supply demonstrator of the Peak home demonstration club. Mrs. Larkin has traded peaches for pears, apples and grapes in order to have a variety of fruit for the family. The food supply contains Irish potatoes, dry beans and peas

and the fall garden will supply other vegetables for storing, such as turnip and pumpkin and sweet potatoes. The meat supply is to be canned and cured yet, one beef and the pork.

This pantry is worth approximately two hundred dollars and cost me about \$18 to preserve, states Mrs. Larkin. With the supply on the shelves, I can give my family the fruit and vegetables they should have each day. It is cheaper to feed the family to keep well rather than pay a doctor bill. The canned products include leafy vegetables, starchy and other vegetables, tomatoes, fruits (canned, dried, and preserved), jellies and pickles, and the meat and protein supply will be supplied with the canned and cured meat, the dried vegetables, milk and butter and eggs from the dairy and poultry of the farm. Since the potato and fruit crop started in we have traded these products for the staple groceries and have not had to be out any cash for the family food supply. I have these products stored in a well ventilated storage space and they are not hot in summer and not cold in the winter. The storage is one of the most important points to consider when planning the food supply.

Sweet Corn
Honey June sweet corn is good for this section in dry weather and the seed will be given four co-operators in the Romney 4-H club by the demonstrator, Katherine Webb, to try next season which may be a more suitable season for all products. Katherine planted one-tenth of an acre of the corn and has tried this fresh, but did not get any due to the drouth cutting it short. Katherine and the cooperators of the club plan to plant the corn another year and try canning, drying and using fresh. The demonstration this season is more in treating the seed corn to keep the weevils and moths out. This can be done by artificial heat, but I have treated mine in the following way: This method was recommended in a bulletin from the Agricultural Experiment Station, College Station, Texas. Spread the seed in a thin layer, not more than two seed deep, on sheet metal or the roof (sheet metal) exposed to the direct rays of the sun from 10 a. m. to 4 p. m. The sun rays are the required temperature 120 degrees during this time. This treatment should be done on a bright cloudless quiet day. After treating, store in a sealed paper bag or glass jar.

BOTTLES TRACE HISTORY
ASHLABULA, O. — Bottles, large, small, of all shapes and made to hold everything from vinegar and soda pop to perfume and whisky, comprise a collection of several thousand pieces owned by Miss Mary Hall. The collection is so complete that it almost traces the history of the United States, she believes.

There seems to be little romance left in the last roundup, now that all the cows are due to wind up as poor relief canned goods.

Excavations Show Development of Man
NINI-TAGIL, U. S. S. R. — Excavations in an ancient peat swamp near here have shown that "primitive" man in the Ural district was not so primitive after all, in the opinion of Prof. D. N. Edding, head of the Soviet archaeological expedition which arrived here recently.

Among other articles found by the expedition were wooden idols of man, various utensils decorated with carved images of birds' heads and wooden images of elk, their backs scooped out to serve as bowls. These indicated that "primitive" man in this region had attained a rather high degree of artistic skill.

Scholarships To Be Offered in Schools Under FERA Plan

AUSTIN, Tex.—The FERA will offer scholarships to 50 Texas college graduates in order to obtain trained workers for the job of providing relief for thousands of destitute persons.

The scholarships will entitle the selected 50 to a semester of training at one of four colleges at St. Louis, New Orleans and Atlanta, according to Val M. Keating, special service consultant of the Texas Relief Commission.

Scholarships will be awarded students between 21 and 35 years of age who have had some undergraduate work in the social sciences. Most of the scholars will be selected from the staffs of county welfare boards.

After their period of training, the students will be required to remain on the staff of the relief commission for one year. They may study at Tulane, Washington, or St. Louis universities. Negro students selected will be trained in the Atlanta School of Social Work. FERA will spend \$23,000 in Texas for training welfare workers. In addition to the scholarships, a six-

weeks training institute is planned at Dallas beginning Oct. 1; regional schools throughout the state for case workers will be held Oct. 1 to May 15; four and a half months of supervised work for college graduates is planned at Dallas; and six weeks institute beginning April 1 at Dallas for relief workers and college groups.

CARD OF THANKS EASTLAND COUNTY VOTERS

Eastland County Voters—I wish to express my sincere thanks to the voters of Eastland county for their splendid vote on Aug. 25, which nominated me as your County Treasurer. Especially do I wish to thank my friends who worked in my behalf.

I assure you all that I will conduct the affairs of the office in an efficient and courteous manner that will best serve your interests. Your Humble Servant, JOHN WHITE.

Employment in Texas is Above July of Last Year

AUSTIN, Tex.—Employment and payrolls in Texas continue above those of a year ago by a considerable margin, according to The University of Texas Bureau of Business Research.

Reports from 1,561 establishments with a total of 82,669 employees show a gain of 9.6 per cent in number of workers, an increase of 11.3 per cent in payrolls during the week ended August 18 in comparison with the corresponding week last year, the Bureau's report said. There was practically no change from July to August.

Industries in which the increase in number of employees was greater than the average for all industries combined were: Pure food products, beverages, flour mills, meat packing, brick and tile works, railroad car shops, electric railway car shops, petroleum refining, newspaper publishing, quarrying, public utilities, retail stores and hotels. Industries in which there was a decline of 10 per cent or more from last year were: Cotton oil mills, cotton compresses, men's clothing, women's clothing, lumber mills, furniture manufacturing, and cotton textiles.

Cities showing more than average gain were: Amarillo, Austin, Beaumont, Dallas, El Paso, Fort Worth, Port Arthur, San Angelo, and Wichita Falls.

Peanut Growers To Get Benefit Payments on Crops

WASHINGTON.—Acting secretary of Agriculture Resford G. Tugwell today proclaimed that rental and benefit payments will be made on peanuts, designated by the last Congress as a basic agricultural commodity under the Agricultural Adjustment Act. The payments will be derived from a processing tax, the rate and scope of which will be considered at a public hearing to be held August 21, in Room 1, Board of Tax Appeals, Internal Revenue Building, Washington, D. C., it was announced by Chester C. Davis, administrator of the Act.

J. B. Hutson, chief of the tobacco section, has been designated to work out the peanut adjustment program. The plan provides for diverting a portion of the 1933 and 1934 crop from the shelling to the oil trade and for adjusting the plantings in 1935.

Under this proposal, benefit payments would be made this season on that portion of the crop diverted to oil, which would bring the returns to growers for such peanuts used for oil to approximately the level prevailing for shelled goods. The contracts would have flexible provisions under which the individual grower could divert a small or large portion of his crop to oil depending on the prices paid for shelling goods. In addition he would receive rental payments in order to make the adjustment to the desirable production next year. It is expected that the details of the plan will be

completed and contracts available to growers before October 1.

Consideration also is being given to a marketing agreement which would supplement the production adjustment program. A conference will be held in Washington on August 30 for the purpose of determining whether shellers and millers desire to enter into a marketing agreement for the coming season.

The average price paid farmers for peanuts during the last marketing season was 2.9 cents a pound as compared with 1.6 cents a pound in 1932.

Peanuts the grown commercial in Virginia, North Carolina, South Carolina, Georgia, Florida, Tennessee, Alabama, Mississippi, Arkansas, Louisiana, Oklahoma and Texas. Approximately 200,000 growers produce around one billion pounds of peanuts annually.

Chevrolet Leads In Sales During June

Final figures just compiled show Chevrolet again leading the entire automobile industry in sales of both cars and trucks during the month of June.

In spite of expert predictions of a 12 per cent slump in the automobile business in June, Chevrolet finished the month with 88,483 sales to its credit. This is a gain of 12.3 per cent over May's total of 71,740 and it is the best month since May, 1931, according to C. B. Pruet.

Mr. Pruet states that "Chevrolet's leadership and the increase in its production in sales is due to the ever increasing popularity of its production. Thousands of owners with many thousands of miles on their cars are every day testifying to the comfort and dependability of Chevrolet's 'knee action'—body by Fisher, the splendid economy the car affords and the many other comfortable and convenient features, which make it a pleasure to own and drive this new Chevrolet."

It looks as if Aimee Semple McPherson might be slipping. A small-time evangelist has tied her for kidnapping honors and another preacher is one snake bite ahead of her.

DON'T LET COMMON CONSTIPATION DULL THE JOY OF LIVING

Kellogg's ALL-BRAN Brings Relief

Constipation takes the sunshine out of your days. It may bring headaches, loss of appetite and energy, sleeplessness, sallow skins, pimples.

Fortunately, you can avoid this condition by eating a delicious cereal. Laboratory tests show that Kellogg's ALL-BRAN provides two things needed to help overcome common constipation: "bulk" and vitamin B. ALL-BRAN is also a rich source of blood-building iron.

The "bulk" in ALL-BRAN is much like that of leafy vegetables. Within the body, it forms a soft mass. Gently, it clears out the intestinal wastes.

How much better than dosing yourself with patent medicines. Two tablespoonfuls of ALL-BRAN daily are usually sufficient. With each meal in chronic cases. If seriously ill, see your doctor—ALL-BRAN is not a "cure-all."

Get the red-and-green package at your grocer's. Made by Kellogg in Battle Creek.

Animal Blood Is Aid to Humans

MOSCOW.—Radical experiments in transfusion, whereby the blood of dogs and other animals is introduced into the human system to counteract certain diseases, are being carried out by the Central Institute for Blood Transfusion here.

Professors of the Institute claim recently that a patient, too weak to undergo an operation for the removal of a stomach ulcer, was cured of it by having a quantity of dog's blood injected into his body. Similar successes are

claimed in other experiments with the blood of lower animals.

It has long been known, the Institute points out, that in cases of pernicious anemia and loss of blood, a patient may be saved by injections of human blood of the same type as his own.

However, recent research has convinced the Institute that in other types of illness, wherein the entire constitution is not affected, but only isolated parts of it, as is true of certain infections and inflammations, the diseased parts may be benefited by blood radical-ly different from that of the patient's body. This strange blood is said to encourage an inactive, idle system to do battle against infection. Similar successes are

Ferguson Forum May Be Suspended

AUSTIN, Aug. 30.—After more than 17 years of publication, the Ferguson Forum, weekly edited by former Governor James E. Ferguson, may be discontinued.

Today he wrote: "On account of hard times our subscription list has been reduced to where the revenues are not sufficient to publish the paper. I have made arrangements, though, to continue the paper for a few weeks yet and give the people an opportunity to say they want the Forum to continue."

Holiday SAFETY WEEK

Buy Firestone SAFEST TIRES IN THE WORLD! PRICES REMARKABLY LOW! HERE'S PROOF OF SAFETY

TWO BREATH-TAKING ENDURANCE RUNS LAST WEEK ON SAME TRACK—A DRAMATIC COMPARISON OF SAFETY! READ BOTH LETTERS!

THE Proof of leadership is performance! Many claim it, but Firestone proves it. Never before have tires withstood such severe, continuous, grinding torture, breaking 77 speed records for 3,000 consecutive miles at 127.2 miles per hour.

Hour after hour, on through the scorching heat of the day and inky blackness of the night, with temperatures as high as 120 degrees—breaking record after record for speed, strength, safety and blowout protection—all in a stupendous demonstration of safety performance for car owners.

For your holiday trip have the Firestone Service Dealer or Service Store equip your car with Firestone Tires, Spark Plugs and Battery and reline your brakes with Firestone Aquapuf Brake Lining. Protect your life and the lives of your family with the world's safest tire. Buy now before prices increase.

And remember, every Firestone Tire carries the Triple Guarantee—Unmatched Performance Records—For Life Against All Defects—For 12 Months Against All Road Hazards (Six months in commercial service)

Listen to the Voice of Gladys Swarthout—every Monday Night over N. B. C.—WEAF Network

Lake Homeville, Utah Aug. 10th, 1934

Mr. Harvey S. Firestone, Chairman, Firestone Tire & Rubber Company, Akron, Ohio

Dear Mr. Firestone:

Under S.A.A. supervision, I have just completed a 2,000-mile run on the hot salt flats at Lake Homeville, Utah, averaging 127.2 miles per hour, breaking 77 speed records—without any "blow-outs." Firestone Tires gave an absolutely reliable performance, with temperatures as high as 120 degrees.

Last year I made a similar run with a set of less good and spent considerable money on other make whose national advertising featured blowout protection. Well, I had a blowout and made a number of tire changes.

This year I also used Firestone Spare Plugs and a Firestone Extra Power Battery with good all-around results. Not a single spark plug failed and the battery required no service of any kind.

If every car owner knew what my Firestone tires would through they would appreciate what "blow-out" means in strength and heat protection. Last year Firestone tires kept me from blowouts. This is the toughest run I have ever made in my 10 years of breaking speed records.

Sincerely yours,
Albert J. Swarthout

Lake Homeville, Utah Aug. 10th, 1934

Mr. Harvey S. Firestone, Chairman, Firestone Tire & Rubber Company, Akron, Ohio

Dear Mr. Firestone:

I have just finished a 2,000-mile test run on a 127.2 mile per hour salt flat. I was equipped with tires which I have blown out. I was equipped with tires which I have blown out. I was equipped with tires which I have blown out. I was equipped with tires which I have blown out.

After this experience, I appreciate Firestone tires. I appreciate Firestone tires. I appreciate Firestone tires. I appreciate Firestone tires.

I was unable to control the car on the hot salt flats. I was unable to control the car on the hot salt flats. I was unable to control the car on the hot salt flats. I was unable to control the car on the hot salt flats.

After this experience, I appreciate Firestone tires. I appreciate Firestone tires. I appreciate Firestone tires. I appreciate Firestone tires.

I was unable to control the car on the hot salt flats. I was unable to control the car on the hot salt flats. I was unable to control the car on the hot salt flats. I was unable to control the car on the hot salt flats.

Very truly yours,
H. H. H.

DESDEMONA

Mr. and Mrs. Chas. Lee left Wednesday in their car for Casey Hill, where they will spend two weeks with his mother.

Mr. Wm. David of Tulsa, Okla., arrived Tuesday night and will spend his vacation here and at Gorman. Mrs. David and their four children have been here the past month visiting her sister, Mrs. Roy Ashburn and family. They also visited her other sister, Mrs. E. M. Oney and husband at Cisco. At Gorman they will visit his parents and other relatives.

Mr. and Mrs. Donald Howell and three daughters left Tuesday for their home at Kilgore, after a 10 days vacation spent with her mother, Mrs. J. E. Derrick here and his parents, Mr. and Mrs. J. S. Howell of De Leon.

Guy Bruce and his little nephew Billy McKain, left Wednesday for Kilgore.

Miss Catherine Stanton of Olden was the guest of Mrs. Robert Sneed on Tuesday of last week.

Mr. and Mrs. Lee Wright of Palo Pinto have been guests of his brother, Dr. J. M. Wright and family the past week.

Mr. and Mrs. Wright were residents of Desdemona during boom days and besides their relatives have many friends who are delighted to see them.

Mrs. J. H. Rushing, Jr., and children and Mrs. J. H. Rushing, Sr., were shopping at Ranger Friday.

John Hammond came up from Comanche early Wednesday morning and took charge of the Senary Market while the owner, G. S. Bruce, went with Ford Reid on a fishing trip.

Mrs. Z. L. Howell left Thursday with her brother, Mr. Middleton of Olden, for a family reunion at their mother's home in Ellis county. After the reunion she visited her married daughter at Greenville.

Misses Ruth and Lois Howell who had been visiting in Greenville returned with her Sunday night.

Mr. and Mrs. W. E. Barron and son Billy Jack, and her mother, Mrs. R. K. Glanton, visited Mr. and Mrs. J. W. Harrison at Ranger Sunday.

Mr. and Mrs. Gifford Acrea spent Sunday with relatives in Dallas.

Mr. and Mrs. Dick Cutting of Plainview visited their many friends here Saturday.

Mr. and Mrs. Plummer Ashburn and Mr. and Mrs. Claud Lee drove up to Cisco Saturday night.

Melvin Lawson of Cisco, who lived here several years before his parents, Mr. and Mrs. O. G. Lawson moved to Cisco, visited friends here Saturday and Sunday and attended the zone meeting of the B. Y. P. U. His many friends will be glad to know that he has made fine records in Cisco schools.

Mrs. Alton Claborn entertained Friday afternoon with a delightful party honoring the fifth birthday

of her little daughter, Wynell. After games were played the hostess served delicious ice cream and cake to the following: Mrs. Pitt Cranford of Olden and Mrs. Otha Claborn of Okra, both grandmothers of Wynell; an uncle of the honoree, Baldrige Crawford of Olden was also a guest. The following children were present: Billie McMillan, Wanda Sue Watson, Sara Crawford, all of Olden; Naomi Coffey of Flatwoods, Otha Lee Claborn, Wilma Claborn, Daphne Claborn, all of Okra and the following of Desdemona: Helga Moon, Doris Pearl Miles, Edward Moon, Bobbie Jean Lane, Dorothy Krauf, Evelyn Joiner, A. D. Ash, Arvilla Ash, Billie Tom Martin, Joyce Martin, Dorothy Jean Salyer, James Edward McEntire.

Mrs. A. J. Glanton and little daughter, Sharon Joyce of St. Louis, visited her sister-in-law, Mrs. W. E. Barron and mother-in-law, Mrs. R. K. Glanton, from Thursday till Saturday.

Mrs. A. C. Robert and Mrs. A. C. Moore drove down to De Leon on business Wednesday.

Mr. and Mrs. S. M. Glazner and little daughter Virginia Ruth of Dallas, arrived Saturday for a visit with Mr. and Mrs. G. S. Bruce. The Glazners were for a number of years among the most popular teachers in our schools and they have hosts of friends who are delighted to see them and their attractive little daughter who is nearly six years old.

Misses Irene and Geraldine Dyson of Stephenville were guests of their aunt, Mrs. R. L. Black, the past week. While here they assisted with the music at the Baptist revival, just as when they lived here.

Mrs. Ben Wilson and daughter, Miss Orpha Wilson, who lived here a number of years and who are visiting her mother at Gorman, were guests of friends here Saturday. They will always be welcome here.

Mrs. Gifford Acrea entertained the Methodist Missionary Society with a delightful social meeting Monday. At the close of the meeting she served a very pretty plate of delicious ice cream, topped with cherries, and base of red jello, with Nabisco cookies.

Rev. Jones Weathers closed the Baptist revival Sunday night. During the two weeks more than 25 members were taken into the church. Rev. Z. C. Chambliss, the pastor, Rev. Weathers and Rev. Sherrard all helped with the services.

SUNDAY SCHOOL LESSON

PICTURES OF SILVER

By BEULAH K. HICKS

Micah Champions the Oppressed.

Micah prophesied "in the days of Jothan, Ahaz and Hezekiah, Kings of Judah," and was a contemporary of Isaiah. He was a native of Moreshethgath in Judah.

He opens this lesson in the year B. C. 740, with a very magnificent and dramatic passage.

"Hear ye now what Jehovah saith; arise contend thou before the mountains, and let the hills hear thy voice."

He thought of the hills and mountains that had lasted through all the generations of God's people and they had witnessed the Lord's patience, tender mercies and keeping power and the rebellious people had gone away from God.

Jehovah addressed His people, in tender words, through this prophet:

"O my people, what have I done unto thee? And wherein have I wearied thee? Testify against me." Verse 3.

The people address the prophet in verses 6 and 7 asking the way of true worship. Should they come before the Lord with empty hands or with a great sacrifice?

Micah was trying to teach them the true essence of religion and the danger of a form or an expression of religion. Their sacrifices were empty without the life behind it being filled with love and obedience.

He sums this up in verse 8 with language simple but forceful.

"He hath showed thee O man, what is good; and what doth Jehovah require of thee, but to do justly and to love kindness, and to walk humbly with thy God?"

He then gives a very graphic picture of the times when the rich have gained wealth by deceit and false weights and yet answers their question of religion again:

"Shall I be pure with wicked balances, and with a bag of deceitful weights?"

How well this lesson fits the time of today! How true is the religion that Micah taught—today! God has made his revelation to

people of this time through His word in the time of these old prophets and the coming of Christ and His teachings. To do justly, be fair to all people and to love fair dealing is the first requirement. You can measure your influence by their reaction toward you. Does your family and friends confide in you? Do they tip-toe around to avoid unpleasantness with you? Does family or friends turn to you for sympathy in sorrow or in joy? Do they realize that you love kindness and walk humbly? Do they regard you as a child would say, "a big bug" not to be bothered with anyone's cares or sorrows?

The life filled with love of justice, kindness and humility is the happy life in any time be it a good or stormy time. Selfishness shuts Christ and His influence out of any life.

But in the humble life of service is found blessing and "peace that passeth understanding" with true personal liberty in God.

But be ye doers of the word and not hearers only, deceiving your own selves, James 1:22.

But whose looketh into the perfect law of liberty and continueth therein, he being not a forgetful hearer, but a doer of the work, this man shall be blessed in his deed, James 1:25.

Pure religion and undefiled before God and the Father is this: to visit the fatherless and widows in their affliction, and to keep himself unstained from the world, James 1:27.

CARD OF THANKS

I wish to thank the voters of Eastland and Callahan counties for the majority given me in my race for second term as a member of the Legislature. I am grateful to my many friends who spent liberally of their time and efforts in interest of my candidacy, and to those newspapers of my district, I desire to express my appreciation for the space and unbiased publicity favored me in their news columns.

It is now my desire to serve the people of Eastland and Callahan counties with my best efforts, and I wish to say to those who voted against me that I want to be their servant just the same as I will be the servant to those who were for me.

Any service that I can render please do not fail to call on me.

Sincerely,
Cecil A. Lotief,
State Representative.

Scientists agree that radio isn't the cause of the drought. Huh! We could have told 'em that. Too many programs are all wet.

OAK GROVE

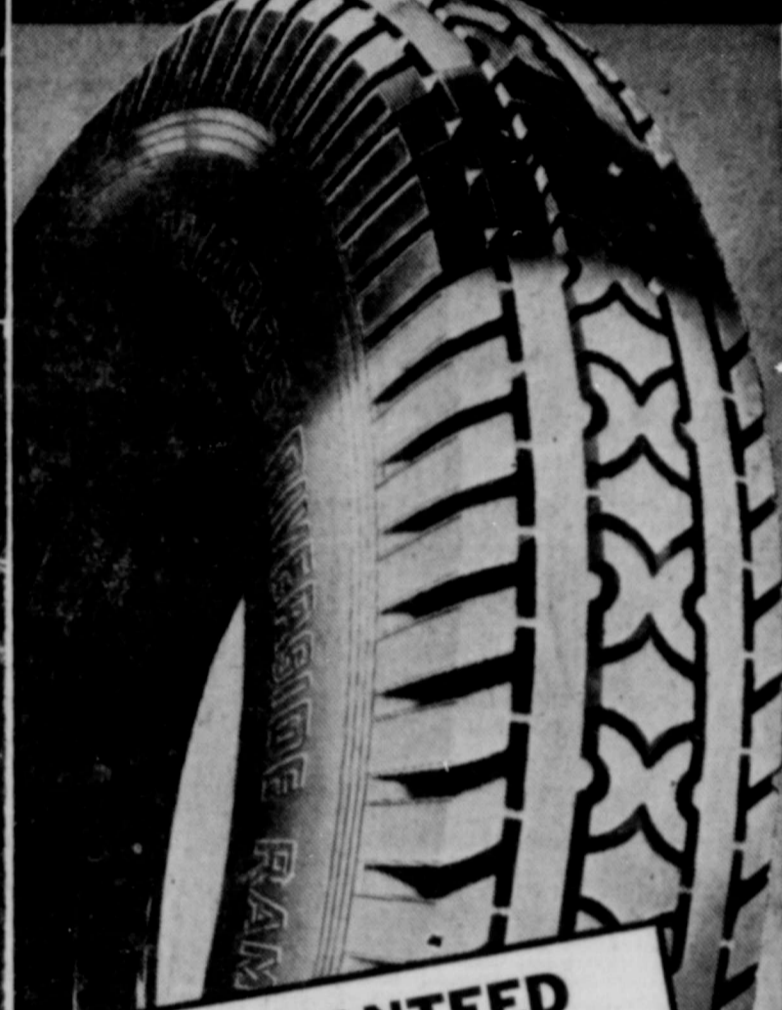

OAK GROVE, Aug. 29. — We are glad to report no sickness in this community at this time.

A nice cool wind blew from the north for a few hours in the afternoon of last Friday, Saturday and Sunday, which reminds us that "ya better save ya money case de

ANGLER'S PARADISE
LAKESIDE, O.—A fisherman's paradise of late abounds around the reefs in Lake Erie, north of here. Catches of three and four hundred pounds of pickerel have been reported, with one group of Mansfieldians taking a string of nearly 500 pounds, the largest on record. Several pickerel have weighed as much as eight pounds, a good size for catches hereabouts.

The real test will face Chancelor, a fisherman of Austria after the 25th fever season. Almost anyone can pronounce his name now.

"A Woman must have had a hand in styling the new FORD V-8"

• A handy compartment for gloves and purse. • A steering ratio that makes parking decidedly easy. • Plenty of body, head, and leg room in the rear seat.

THE fact is, many women did. For this new Ford car was definitely planned to meet the needs of women as well as men.

That's why you'll find a special compartment for your purse in the dashboard and sun-visors for your eyes. That's why interior fittings have been so tastefully designed. Why a finer grade of upholstery has been used. Why brakes act on the slightest touch of your toe. Why the steering ratio is 15-to-1 in order to make this car easier for a woman to handle.

And remember, the Ford V-8 has all the safety features modern engineering skill can devise—a V-8 Engine, Torque-tube Drive, All Steel Body, Welded Steel Spoke Wheels, Safety Glass and many others.

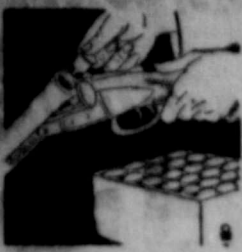

Remember, too, that the Ford V-8 is the most economical car to operate Ford has ever built. Not only that—Ford V-8 delivered prices are decidedly low.

\$505 and up. F. O. B. Detroit. Easy terms through Universal Credit Company—the Authorized Ford Finance Plan.

STAFF

Spencer Hazard was a business visitor in Eastland Tuesday.

Mr. and Mrs. Virgil Drake were Eastland visitors last Saturday.

Maurice Hazard was the guest of William Hazard of Morton Valley from last Saturday until Tuesday.

Harry White, who has been attending the State university at Austin this summer, recently returned home and is visiting with his parents, Mr. and Mrs. W. H. White, for a short while before taking up his work as a teacher in the Graham schools.

William Hazard of Morton Valley is visiting with Maurice Hazard this week.

This community was visited by a fine shower of rain on last Sunday afternoon.

Green Wright and Sam Newcomb were business visitors in Ranger last Monday.

There is Sunday school every Sunday morning at 10:30 o'clock at the Staff Baptist church and the public is cordially invited to attend these services.

Mr. and Mrs. M. O. Hazard were business visitors in Ranger Monday.

Mr. and Mrs. Carl Elliott and two small daughters, Carleta and Maurice, were visiting with relatives in Carbon last Friday.

Jean Harlow to Be at Arcadia In Feature Film

"The Girl from Missouri," the Metro-Goldwyn-Mayer picture that opens Monday at the Arcadia theatre, brings Jean Harlow back to the screen after an absence of eight months.

In her new starring vehicle, the popular Miss Harlow essays one of her most amusing characterizations, that of Edie Chapman, a girl who embarks upon a social-climbing career because she is determined to get financial security and position along with her marriage ring.

The picture fits with lightning rapidity from Swanky penthouses of New York's ragged skyline to the pleasure palaces of Florida and back again.

Baxter Heads a Good Cast In "Grand Canary"

Warner Baxter heads the strong cast with which Jesse L. Lasky brings A. J. Cronin's best seller novel, "Grand Canary," to the screen of the Arcadia Theatre on Sunday. In his second vehicle as a full-fledged star, Baxter portrays the role of the eminent young doctor and scientist who is the principal character in the magnificent love story and the gripping drama of regeneration.

Funeral For Mrs. Nell Trimble This Afternoon 4:00

Funeral services for Mrs. Nell Trimble, 31, daughter of Mr. and Mrs. L. D. Ferguson of Eastland, who died in Fort Worth Monday following a three weeks illness, were conducted this afternoon from the First Methodist church in Eastland at 4 o'clock with Rev. J. H. Littleton of Hamlin, assisted by Rev. O. B. Darby of Eastland, conducting.

Mrs. Trimble had resided in Fort Worth for seven years where she had married, after coming from Eastland, where she was educated and reared.

Surviving Mrs. Trimble are her husband, Fort Worth; parents, Mr. and Mrs. L. D. Ferguson, of Eastland; a sister, Mrs. Josephine Limmroth, Fort Worth, and an infant son, three weeks old, Walker Lee, Fort Worth.

Mrs. Don Miller were in Breckenridge yesterday on business.
Mary Margaret and Port Stages, Jr., of Austin, are visiting friends in Strawn this week.
Mrs. G. C. Garrett passed away at her home in Thurber, Monday Aug. 27. She was 42 years of age, having spent all her life in Thurber. Burial was in the Davidson cemetery Aug. 29th. She was a niece of Mmes. Ed S. Britton, J. W. McCorkle and O. M. Hurst, all of Strawn. Those attending the funeral from out of town were Mr. and Mrs. Leon Peters of Tyler, Mr. and Mrs. Charlie Kahn and daughter of Fort Worth, also Mrs. Garrett's mother of Illinois.

Dry's checking a saloon in an eastern city announced that hill-billy songs had attracted scores of young people to the den of iniquity. But they overlooked the fact that they must have driven hundreds away.

ONE'S-A-MEAL

is now under the management of Mrs. J. A. Boler of Boler's Grocery and Market. She invites her many friends to come to see her.

WASH OUT 15 MILES OF KIDNEY TUBES

Win Back Pep... Vigor... Vitality

Medical authorities agree that your kidneys contain 15 MILES of tiny tubes or filters which help to purify the blood and keep you healthy.

If you have trouble with too frequent bladder passages with scanty amount of urine burning and discomfort, the 15 MILES of kidney tubes need washing out. The danger signal may be the beginning of nagging backache, leg pains, loss of pep and vitality, getting up nights, lumbago, swollen feet and ankles, rheumatic pains and dizziness.

If kidneys don't empty 3 times every day and get rid of 4 pounds of waste matter your body will take up these poisons sending serious trouble. It may knock you out and lay you up for many months. Don't wait. Ask your doctor for DOAN'S PILLS... a doctor's prescription... which has been used successfully by millions of kidney sufferers for over 40 years. They give quick relief and will help to wash out the 15 MILES of kidney tubes.

Don't take chances with strong drugs, or so-called "kidney cures" that claim to get you up in 15 minutes. For they may seriously injure and make delicate tissues. Inside DOAN'S PILLS... the old reliable one for that contains no "dope" or kidney-forming drugs. Be sure you get DOAN'S PILLS at your druggist. © 1934, Foster-McBee Co.

"Flying has made me mighty careful about the kind of gasoline and motor oil I use. And I find that it pays me to be just as careful about the gasoline and motor oil I use in my automobile. When I'm on the ground I want the same smooth, dependable performance I get in the air. I get it from Mobilgas and Mobiloil."

Ranger's Foremost Department Store

opportunity to sing "Here's the Key to My Heart" in a manner that is reminiscent of her "Nasty Man" number in George White's "Scandals."

Aiding and abetting these two with the comedy are those knock-out slapstick artists, Mitchell and Durant, who are Lew's shipmates in the picture, and Harry Green, a South American impresario. The story takes them from an Asiatic port, through the vicissitudes of life on shipboard to a cafe in San Pedro, California.

Crosby Likes His Job of Singing

Bing Crosby likes to sing—for his own amusement, and if folks want to pay him for amusing himself, it's O. K. with him!

He's one man who enjoys his job, this king of crooners who is fast becoming a motion picture star after a short film career that include but three feature pictures. The first two, "The Big Broad-

cast" and "College Humor," were tremendous successes. The third, "Too Much Harmony," is coming on Sunday to the Columbia Theatre.

Big Thrills In Film At The Columbia

The latest in the series of six Buddy Roosevelt western thrillers is "Boss Cowboy," which the Columbia Theatre will present to its patrons on Saturday. With an extraordinary large cast, headed by Roosevelt, and including Lafe McKee, Fay McKenzie and Sam Pierce, "Boss Cowboy" makes a strong bid for honors as the most exciting western "thriller" produced since the inception of talking pictures.

Ordinarily, producers of western pictures are content to provide two or three outstanding stunts for the edification of audiences. In "Boss Cowboy," no less than ten outstanding "punch-

scenes have been injected, with Buddy Roosevelt the central figure in each of them.

EMBARRASSING MOMENTS FOR MOVIE DIRECTOR

Put four screen artists such as Chester Morris, George E. Stone, Alan Mowbray and John Wray on the same set at the same time and what have you got? A headache for the director.

Chester Morris, Universal star, who is playing his first farce comedy in two years, "Embarrassing Moments," coming to the Arcadia Theatre, which deals with the life of an impractical joker, not only acted the role of a joker but carried it through the entire time was on the picture.

While the new comedy was in the making, there was a laugh a minute caused by the "ribbing" given members of the comedy by the four players.

Try a WANT-AD!

All those who worry about the terrible ordeal of Admiral Byrd in his lonely Antarctic hut should remember one thing: He never was bothered by door-to-door salesmen.
