

Working Toys to Weigh Down Santa

NEW YORK.—"If you want to make your child happy, put him to work."

That's the new deal in toys for Christmas, 1934. The latest models for Santa's pack, assembled from 32 states for display at the Toy Association, feature educational playthings that exactly reproduce every adult business and housekeeping activity in workable miniature.

Among the new thrills Santa Claus will bring:

Electric trains with extreme stream lines and real chuggers. A metal loom which reproduces the perfection of industrial weaving for the first time.

An adaptation of the electric eye for playroom use. A mirror device by which you can draw your own pictures even if you have five thumbs. Streamlined doll carriages that have a trunk for doll wardrobes included in the body. Toy autos that set new speed records by running 100 feet in a minute. Riveting for playroom builders—without the noise of adult construction, however.

There are a hundred types of building sets for youngsters. They can build every type of modern airplane and boat. A new cardboard boat can be built which will stay in the water for three months.

Juvenile wheel goods are streamlined and geared for transformation tricks. A fireman's hook and ladder can be changed into a dump truck or an ambulance. Sidewalk autos have rattle seats and dump truck attachments.

A new soda jerking set will turn the playroom into an efficient drug store fountain. Grocery stores come complete with counters, scales, dial phones, a safe with a combination, a cash register and an efficient dial typewriter, all in the lowest price ranges.

Children's books combine drawing and painting activities with the mastering of the alphabet.

New Collapsible Oil Drill Is Made

BEAUMONT, Texas.—A new collapsible drill bit, calculated to revolutionize the oil drilling industry, will be manufactured here soon, according to its inventors.

The bit, invented by L. P. and C. J. Kinnears, both practical drillers and pioneers of South American oil fields, would be used in rotary drilling. The tool was the result of eight years' work.

The outstanding feature of the bit, according to the Kinnears, is in the ability of drillers to maintain rotation of the drill pipe and circulation of drilling fluid while changing the tool. Any desired pressure may be held on the walls of the well during this operation, they said.

This operation is accomplished by a piston-like action in the pipe, controlled by a valve at the top of the hole.

As soon as the new tool is put in use, the entire method of drilling with an ordinary drill pipe and external upset drill casing, will be done away with, the Kinnears said.

This operation is accomplished by a piston-like action in the pipe, controlled by a valve at the top of the hole.

CLASSIFIED

OIL PERMANENTS — Two for \$1.00. Loflin Hotel.

AUTO LOANS—No delay; small payments. C. E. Maddocks & Co.

BROWN'S BONDED TRANSFER & STORAGE CO., 111 So. Marston, Ranger.

Bilious Attacks

For bilious attacks due to constipation, thousands of men and women take Theodor's Black-Draught because it is purely vegetable and brings prompt, refreshing relief. "I had a Black-Draught," writes Mr. T. L. Austin, of McAdenville, N. C. "There is a package of it on my mantel now. I take it for biliousness. If I did not take it, the stomach and headache would not go out of my mind. It is the safest medicine to take for me that I know."

Theodor's BLACK-DRAUGHT Purely Vegetable Laxative. "I have used this for years."

HOLLY MOVIE STAR WITH CIRCUS

Miss Vates Lola, Hollywood movie star, who is presenting Schell Brothers Circus' herd of elephants when the circus shows in Ranger on the afternoon and night of Friday, Nov. 9.

PRESBYTERIAN CHURCH
Sunday School, 9:45 a. m., S. B. Baker, Superintendent.

Morning Worship, 11 a. m. "A Ring of Glowing Fire" will be the theme of the pastor's Armistice Day sermon. While honoring our dead, the frightfulness of war must not be overlooked nor Christ's position in it.

Evening Worship 7:30 p. m. "What Shall I Do?"—a talk concerning life.

Christian Endeavor Societies at 6:45 p. m., Senior and Junior.

The "Forward Again" campaign will begin in this Presbytery on Tuesday next. A team of three will visit Ranger Tuesday evening, after a session at Strawn in the forenoon and afternoon. Revs. H. G. Markley and L. B. Gray, and Mrs. J. G. Smith will conduct these rallies. There will be a buffet luncheon at 4:15 p. m., followed by an evening session. Every member of the church is expected to be present, and as many of our friends as can come. It should mean much to our church. On account of this meeting, and the fact that the pastor will be attending a similar conference in Eastland on Wednesday night, there will be no midweek service and lesson study.

"When a man is dead the pastor will be asked to hold a whole service just for him. Yet that same man, while he is still alive, will ignore several hundred or thousand services that others would be glad to share with him."

The Little White Church on the Hill cordially invites you to attend all its services. Let us help you "Carry On" for God and the right, and help us.

Methodists Vote On New Amendment
FORT WORTH, Nov. 8.—The Central Texas Methodist conference passed an amendment to its constitution limiting the terms of presiding elders to four consecutive years and allowing them to return to the office again only after four years' service in a pulpit. The amendment carried 254 to 48. Other Texas conferences also have adopted the amendment.

ENTIRE TOWN IS BELIEVED LOST IN FIRE

JOHNSTOWN, Pa., Nov. 8.—The entire town of Cherrytree was feared destroyed by fire today after a gasoline truck exploded at a service station.

Communication with the town, which has a population of 550, was severed shortly after first reports of the fire reached here.

First reports said the gasoline truck, unloading at the station, blew up and started the fire which spread quickly. The town had no fire equipment.

Starving Dog Is Given Good Home

EL PASO.—A large German police dog which barely escaped death from starvation, now has a fine home.

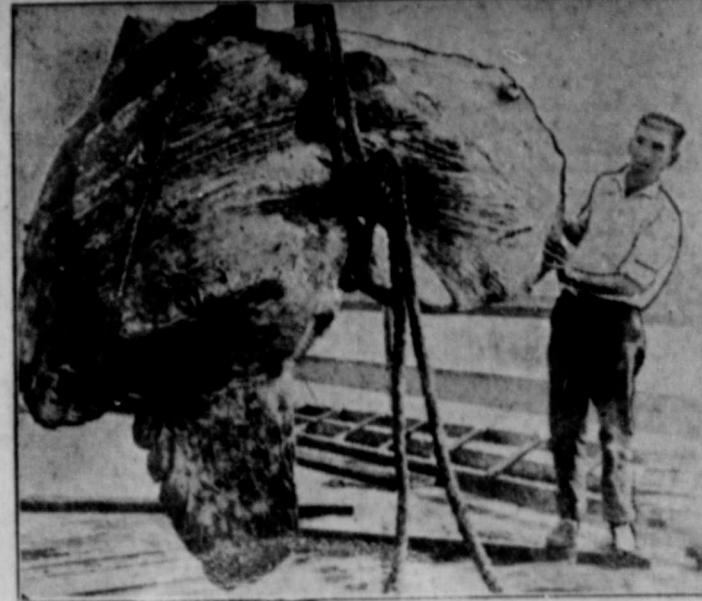

For several days residents in the neighborhood of a hill back of the El Paso smelter, reported they heard a dog barking on top the hill.

At length a woman called the sheriff's office and said she was afraid the dog had located an injured person.

Deputy Sheriffs McHenry Hargus and Joe Webster investigated and found the dog held fast by his chain which was caught between two rocks. He was so exhausted from hunger and exposure he could hardly walk.

The dog was given to Mrs. Norman A. Ferguson who promised it a good home.

IN MARINE EXHIBIT HERE

A giant "Mola-Mola" which will be exhibited in Ranger with the big marine exhibit on the corner of Pine and Austin streets, Friday, Saturday and Sunday. Only five of these sea monsters have been captured since 1886. The specimen to be shown in Ranger weighs 2,300 pounds.

Old People's Sunday Held at a Church

STONEHAM, Mass.—The 59th annual observance of Old People's Sunday was held at the First Congregational church here.

The Rev. D. Augustine Newton, 89, who preached the sermon, was one of the youngest of the 65 members attending the special service.

Among those present were Mrs. Ethel Lathan, 96; Henry Wallace, 94, a G. A. R. veteran; Mrs. Addie Farnham, 93, Mrs. Amina Munger, 92, and three others more than 91 years old. All persons invited to the service were more than 80 years of age.

COLONY

The Colony P. T. A. met in their regular session Friday afternoon, Nov. 2, with Mrs. G. T. Smith presiding. Several matters of business were attended to and discussed. A very interesting program was given by Mrs. R. F. Tallaferra of Mineral Wells preparing several hundred acres on the Cunningham dairy farm to sow in small grain. He is doing the work entirely with machinery. He has binders, threshers, etc. Jack was found dead on the railroad in Gordon some time back.

The Halloween carnival which was held here last Wednesday night was quite a success. We wish to thank the people for their support in all of the events. The business houses of Ranger and Eastland together with the parents of our community donated most of the materials which were used as prizes. We want to express our thanks to these people. The P. T. A. booth, which was one of the most attractive—that of eating, was a success. They express their thanks to the women of the community who so willingly made donations to them.

Mr. and Mrs. Harry Herman and daughter, Margie, visited in Brownwood last week. The Herman family will move to Brownwood in the near future, it is learned.

Colony football boys met Morton Valley boys on our home court Monday afternoon in a very interesting game. It turned out to be a scoreless tie.

The basketball boys and girls are to meet Robinson Springs at Carbon Wednesday night, Nov. 7. They hope to be victorious in these games. We are also playing the boys and girls of Alameda on our home court Friday afternoon. We invite everyone to attend these games and back out teams in this series of games.

It may be peach picking time in Georgia but its peanut threshing time in Colony. If you people think its fun to cook for a thresher crew, just try it a while. The peanut crop could be better, of course, but it will help out this winter.

"His Uncle's Niece" is to be given in the Colony auditorium in the near future. It is given by the English students and directed by Miss Griffith. If you want to have some fun, don't fail to see this play.

Mr. Eual Bond of Morton Valley is to teach a singing school here beginning Nov. 12. If you want to learn to sing and really enjoy hearing good singing, we invite you to attend. You will be benefitted by it.

THURBER

A large crowd attended the Halloween carnival Tuesday night in the home of Mr. and Mrs. Frank Arrendale. It was sponsored by the Baptist W. M. S., the proceeds to go to the orphan's home. There was a fishing pond, a booth where packages were sold, fortune teller and other attractions. Mrs. Glen Simon and Mrs. Lillian Herring sang several songs with Mrs. Ralph Wynne at the piano.

Mrs. Jack Campbell entertained the Presbyterian Auxiliary with a Halloween party Wednesday, Oct. 24. Games and music were enjoyed.

The Methodist ladies met in a Bible study lesson Tuesday afternoon in the home of Mrs. W. M. Brown. Rev. W. E. Anderson brought an interesting lesson. Lemonade and cookies were served. Rev. W. E. Anderson, Mrs. Ralph Wynne, Mrs. O. F. Hedrick, Mrs. Maggie Masters, Mrs. Will Oyler, Mrs. H. M. Brown, Mrs. Cherr Harris, Miss Lavada Fenwick and the hostess.

James M. Bradford of DuVal attended the Halloween carnival at Mrs. Frank Arrendale's Tuesday night.

Frank Whitworth had as guests Sunday afternoon Mrs. Fern Clark of Mingo, Will Kellow of Gordon and Mrs. Walter Brown of Mojave, California.

F. Hedrick and family moved Friday to Midland. This family took active part in school, P. T. A. and church work. They will surely be missed.

Blond and Bobby Miller of Fort Worth and Douglas Conn of Searles attended the show here Saturday night.

M. M. Miller and son Eddie had as guests Mrs. J. E. S. Lee and Mrs. Oscar L. Weaver and children who were Stephenville visitors Friday.

Mr. and Mrs. Bill Cwrighton and daughter Annie Corrine of Stephenville were recent visitors in the home of M. M. Miller and family.

Wilson Guest of Strawn visited with Bob Miller last Friday.

Kenteth Bridges, who broke his leg several weeks ago, is reported doing nicely.

Mrs. Frank Arrendale and son James and Grandmother Arrendale attended trades day in Strawn Saturday.

Sharp's Valley

The rain Friday was light, but heavier East and South. The farmers are trying to do

but without moisture it is useless. He is preparing several hundred acres on the Cunningham dairy farm to sow in small grain. He is doing the work entirely with machinery. He has binders, threshers, etc. Jack was found dead on the railroad in Gordon some time back.

Jack was found dead on the railroad in Gordon some time back. The people gave Mrs. Jack Robinson and children a fine shower last week. Jack was found dead on the railroad in Gordon some time back.

Many Necessities Being Furnished To Relief Clients

AUSTIN.—Mattresses, rice and potatoes are commodities that the Texas Relief Commission is distributing to clients now, C. Z. Crain, chief of commodities distribution has announced.

Carrying the program into 65 counties, relief officials have given away more than 5,000 mattresses manufactured in relief owned and operated plants.

Eight carloads of rice, about 320,000 pounds, have been shipped to Dallas, Fort Worth, Waco, San Antonio, Austin, Texarkana, Beaumont and Houston. Approximately 50 per cent of relief clients will receive a two-pound allotment at this time, Crain said, with another allotment expected soon. Rice is distributed as a surplus commodity and is not charged against the clients' budget.

More than 200 carloads of Maine Irish potatoes have been received at Galveston and will be sent to 30 central points for storage. The shipment includes about 30 pounds for each client on the rolls. Three allotments of 10 pounds each will be made, Crain said, and these also will not be charged to the recipient.

And G.O.P. Should Spell Elephant

By United Press
DENTON.—The Blue Eagle, symbol of New Deal reforms, has made a deep impression on the mind of George Hubbard, son of L. H. Hubbard, president of Texas State College of Women.

In a spelling lesson George was asked to spell dog and cat. He spelled them successfully.

"Now spell eagle," the teacher said.

"NRA," was George's quick reply.

POSSE SEEKS SIX BANDITS AFTER ROBBERY

RIO VISTA, Johnson County, Texas, Nov. 8.—A posse of officers and citizens searched the hills of the Brazos and Klondike region today for six bandits who, last night, robbed the Rio Vista State bank of \$300.

In a well executed robbery, the six bandits seized Matt Aiken, city night watchman, after enticing him from a filling station. They taped his mouth and bound him to railroad ties stacked outside the town.

W. A. Crow, Aiken's father-in-law, also was seized when he started to search for Aiken. The bandits taped his mouth and bound him also.

The men entered the bank by smashing a rear door. Using a torch they opened the safe and took its cash contents.

Sheriff Oren Smith directed the search.

PROponents HOPEFUL OF ITS PASSAGE

AUSTIN, Nov. 8.—The house representatives today voted to suspend the rules and take up the centennial tax bill. The vote was 107 to 32.

It was taken up after a patriotic plea by Mrs. Sarah Hughes, Dallas representative, who challenged the members to kill the bill fighting, if they wanted to kill it, but not to retreat from a vote on it.

The overwhelming vote by which the rules were suspended gave proponents hope the bill may pass.

Tension in the legislature eased today, following the senate's capitulation to the house over the delinquent tax relief bill.

The senate voted for a thorough study of Texas' entire tax system, adopting a resolution by Senator Duggan creating a special committee of three senators.

The committee was instructed to study the tax and financial situation with a view to "distributing the tax burden more equitably by bringing all property under taxation."

Put away those pay increases you've been promised under the New Deal. President Roosevelt says the cost of living will go higher.

Marshall to Build New Disposal Plant

MARSHALL, Texas.—Preliminary construction on Marshall's new sewage disposal plant is under way.

Sheds have been built and contractors have moved equipment to the location site, south of the south Marshall ward school.

PWA officials in Fort Worth have given approval of the project, and official Washington approval, accompanied by a \$166,000 PWA loan and grant, is expected soon.

plish with a whole box of shells. While hunting near Geneva, Neb., Weiss fired at two ducks flying low over the surface and was gratified when he saw he had brought down both. He was astonished, however, a second later to see a large jackrabbit leap from the bushes and fall over dead. He investigated and found part of the charge apparently passed between the birds killing the rabbit.

Houston Is On Threshold of a Building Boom

By THOMAS O. HURST
United Press Staff Correspondent
HOUSTON, Nov. 6.—The city of Houston is on the threshold of its first building boom since 1925.

Indications of the boom were contained in a survey released by the Houston real estate board, which revealed the number of vacant houses and apartments in the city has increased 75 per cent in the last three years.

Vacant houses in 1931 numbered 2,572 out of a total of 57,360. Of 60,053 houses, only 647 were empty, the survey showed.

"A boom in construction of houses and apartments is much needed at this time," M. H. James, president of the board, said, "and is expected to get under way as soon as assurance is received from the federal government that it will assist."

Due to the scarcity of houses and apartments, rent has increased 10 per cent in the last three months and more than 20 per cent in the last two years, authorities said.

Figures in the survey was obtained in an actual house-to-house count made by postoffice department mail carriers.

The number of apartments in Houston has increased during the last three years from 11,312 to 12,680, while vacancies dropped from 2,282 to 540, according to the survey.

The absorption of new apartments and the decrease of vacancies were caused by the influx of hundreds of families to Houston following establishment of branch offices of oil companies after the Conroe oil field was discovered Dec. 1, 1931.

In 1931 there were 80,181 places where mail could be delivered, with 6,606 vacancies, leaving 73,572 actual mail delivery stops. Now there are 85,421 possible stops, with 2,699 vacancies, leaving actual stops at 82,722 places. This shows an increase of 9,150 stops, or 23 per cent.

Vacant offices have decreased from 1,188 to 1,121, while the total number of offices was increased from 4,003 to 4,239.

Figures showed 3,130 more families occupying apartments than in 1931.

The real estate board said rentals on both houses and apartments probably would be increased another 10 per cent within the next three months.

Vacant stores and business buildings decreased from 567 in 1931 to 391, while the total was increased from 5,706 to 8,442.

Houston has seven more office buildings than it had three years ago.

Brownwood Water Saved Rice Crop

WHARTON, Texas.—Rice growers in this section of Texas are completing the harvest of a 62,000-acre crop which was saved from the drought with water brought 480 miles.

Had the growers not resorted to this experiment in long-range irrigation, the crop would have been ruined, they agree.

Growers and the Gulf Coast Water Supply company last June negotiated with operators of the Brownwood dam to buy 14,000 acre feet of water for \$10,000.

When the plan was undertaken, rice fields in Wharton, Matagorda and Colorado counties were suffering heavily from lack of water and drastic action was required to prevent crop destruction.

The water was started downstream from the Colorado river June 27 and began to reach its destination July 4. Pumping station lifted the water from the river and poured it on fields 480 miles away.

An unplanned occurrence assured growers of plenty of water. As the last of the water contracted for was released, a heavy flood-gate jammed and for days resisted efforts to close it.

Through the gate rushed 40,000 acre feet of water in excess of what had been sold. Before the gate was closed the dam was drained of most of its stored water, but the rice fields benefited.

MONTREAL.—McGill University's Date Bureau, designed to save shy students from pining away by finding them partners for an evening, is a failure. Less than a month after it started, the organizers admit that the lonely students are too shy to apply for partners.

REDUCED PRICES

Our 75th Anniversary Sale!
Now in its sixth big week, is the greatest sale of A&P's entire history. Read these prices, and remember that you can depend on a company whose reputation for high quality foods has been maintained for three-quarters of a century.

Pig Bristle Brush Latest Beauty Aid

PARIS.—The latest beauty treatment in Paris consists in rubbing the skin with a brush made of pig's bristles.

This is contrary to the theory that soap and water and a brush bruise the skin, and that it never should be touched with anything save lotions, creams and cleansing powders. No more strawberry or lemon juice for bleaching the face and arms, according to the latest edicts from French capital beauty parlors. Women have petted and pampered their skins too long so that they have come flabby and unable to resist the ravages of age and strenuous occupations.

Albino Deer Killed
RALEIGH, N. C.—An albino deer has been killed in Northampton county, and presented to the State Museum. The 170-pound buck is only the second of his species ever to be received at the museum.

Big Attractions to Be At Arcadia This Week

MAE WEST TO BE HERE IN LATEST FILM

A week of unusual attractions has been booked for the Arcadia Theatre by B. E. Garner, manager, for the week beginning Saturday and Sunday. Included in the bookings are some of the most talked of pictures of the year, pictures that everyone has been waiting to see.

For Saturday and Sunday Mae West's latest picture, "Belle of the Nineties," will be the presentation at the Arcadia. In her latest, and possibly her best picture, Miss West sings a number of songs, including "My Old Flame," "Troubled Waters," "When a St. Louis Woman Comes Down to New Orleans," "Memphis Blues" and "My American Beauty." The cast includes Roger Pryor, John Mack Brown and features Duke Ellington's orchestra.

At the Columbia Saturday will be seen Tom Tyler in "Mystery Ranch," while on Sunday "Inside Information" will be presented.

Starting Monday, Nov. 12, one of the most spectacular pictures of all time will be presented when Cecil B. DeMille's "Cleopatra" will start a two-day run. The most gorgeous scenes and costumes ever assembled for a picture of this kind were worked out for the picture, which is historical in nature, as it portrays one of the most vivid and impressive periods in all history, as well as one of the most famous love affairs of all time. Claudette Colbert, Warren William and Henry Wilcoxon head the great cast in this picture.

Mob Violence Is Feared In Missouri Over Adam Richetti

COLUMBIA, Mo., Nov. 8.—Fearful possibilities of mob violence against Adam Richetti or an attempted delivery of the Charles (Pretty Boy) Floyd side, Boone county officers today concealed all activities connected with the gangster's return here.

The departure of the Boone county sheriff was interpreted to mean that he will aid in returning Richetti from Lisbon, Ohio, to stand trial for the slaying of Patrolman Ben Booth.

Senator Cutting May Be Re-Elected

ALBUQUERQUE, N. M., Nov. 8.—United States Senator Bronson Cutting, progressive-republican, appeared today to have survived a democratic landslide in the state.

With all but 77 precincts of the state's 788 reported, Cutting held a lead, in his fight for re-election, of 530 votes over Representative Dennis Chavez, his democratic opponent.

United Press tabulations from 711 precincts gave Cutting 67,793 and Chavez 67,263.

Premier Doumergue's Cabinet Is Wrecked

PARIS, France, Nov. 8.—Premier Gaston Doumergue's cabinet, formed after the bloody riots of February, was wrecked today on the rocks of party politics and a grave crisis was precipitated.

Police and republican guards were stationed at public buildings, ready to suppress any disorders after the cabinet had resigned.

By agreement, Pierre Laval, Doumergue's foreign minister, was delegated by the president to form a new cabinet. Within little more than an hour Laval told the president he was unable to form a cabinet.

WASH OUT 15 MILES OF KIDNEY TUBES

Win Back Pep... Vigor... Vitality
Medical authorities agree that your kidneys contain 15 miles of tiny tubes of filters which help to purify the blood and keep you healthy.
If you have trouble with too frequent bladder passages with scanty amount, or the burning and discomfort, the 15 MILES of kidney tubes need washing out. This danger signal may be the beginning of uric acid buildup, leg pains, loss of pep and vitality, swelling up nights, hazy vision, swollen feet and ankles, rheumatic pains and dizziness.
If kidneys don't empty 2 pints every day and get rid of 4 pounds of waste matter, your body will take up these poisons causing serious trouble. It may knock you out and lay you up for months.
Ask your druggist for DOAN'S PILLS, a doctor's prescription... which has been used successfully by millions of kidney sufferers for over 40 years. They give quick relief and will help to wash out the 15 miles of kidney tubes.
But don't take chances with strong drugs or so-called "kidney cures" that claim to do you up in 15 minutes for they may seriously injure and terrify delicate tissues. Insure the DOAN'S PILLS, the old reliable that contains no "dope" or habit-forming drugs. Be sure you get DOAN'S PILLS in the original package. 1934, Foster-McClellan Co.

GOOD LINE—BETTER LINES!

A ready wit and her world famous hour-glass figure are Mae West's deluxe equipment for charming in her new Paramount picture, "Belle of the Nineties," coming Saturday to the Arcadia Theatre. Featuring Roger Pryor, John Mack Brown and John Miljan, the new picture presents Miss West in a fast-moving story of the Mauve Decade.

ARCADIA FRIDAY

Master detective-lawyer of "The Case of the Howling Dog," as ably portrayed by Warren William, in the Warner mystery-romance coming to the Arcadia.

Dog Star Displays Reason In Recent Tests at Studio

When the lady, and it can be said that she came from Oklahoma, because she didn't, visited the Stage and Screen Productions studios in Hollywood, she was most interested in watching the star of that company's new picture at work. The film, "Inside Information," was well advanced in its production.

The lady from Oklahoma was overwhelmed at the tremendous amount of work and fussing that went into the making of the screen play. She was duly introduced to the star, who extended his right paw in the accepted proper fashion in dogdom and he even suffered himself to be petted and cooed over. Tarzan, the police dog, who through his excellent work was awarded star role in "Inside Information," although not temperamental, was plainly bored with both the visitor and her gushing ways.

The studio guest had just seen Tarzan go through a particularly difficult scene and she was noticeably impressed. "Does he know any other tricks?" she asked Matt McHugh, the dog's trainer.

"Cleopatra" Brings New Coiffure Aid To Feminine Lure

After going through a cycle of 20 centuries, coiffures are turning again to the styles worn in Rome and Egypt at the time of Cleopatra and Julius Caesar, according to the nation's foremost beauty experts.

The trend, already inaugurated, is being heightened by the influence of hairdresses worn by Claudette Colbert, Claudia Dell, Gertrude Michael and others of the feminine principal; in Cecil B. DeMille's "Cleopatra," coming Monday to the Arcadia theatre, in which Miss Colbert is featured with Warren William and Henry Wilcoxon.

The Roman headdress worn by Claudia Dell as Octavia consists of double bangs of stylized curls, giving a lacquered effect which is further carried out by more rows of flat curls across the top of the coiffure.

Everybody Is Going West After Famous Film Siren's Picture

If Mae West, Paramount's blonde siren, were to accept the invitations to join every one of the organizations which have asked her to enroll during the past year, Miss West would have to devote 40 hours of each day to her social duties alone.

Miss West, who returns to the scene of her former triumphs, the burlesque show of the "Gay Nineties" in her newest Paramount picture, "Belle of the Nineties," coming Saturday to the Arcadia theatre, has received bids for honorary membership from over 500 organizations in less than a year.

A born "joiner," as she terms herself, Miss West started out by piling up memberships in every organization that invited her, until Paramount suddenly found its star devoting more than half her day to those affiliations, and a halt had to be called.

It all started about six months ago when the vast regiment of Kentucky colonels voted to place a spread eagle on the star's shoulder. A week after this feat was reported, Miss West could have become an honorary member in a dozen other societies, and it has grown steadily ever since.

Within two weeks time after it became known that the locale of "Belle of the Nineties" would be in New Orleans, Miss West was extended membership in 32 New Orleans groups, clubs and social orders.

Not only has her popularity caught the fancy of association committees but of commodity manufacturers as well. With a few exceptions, however, she had to decline on the pretext of their commercial enterprise.

Clothes shops, beauty parlors, delicatessens and ice cream parlors throughout the land would be bearing the legend "Mae West" on their windows if proprietors could get clearance on the name.

Her name isn't immune even from men's shaving soap, of which one manufacturer sent Mae West a glowing prospectus of what it would look like on a colorful label.

An Illinois flower conservatory named a rose after her. Requests for the name on dolls, hand mirrors, face-powder boxes and perfumes have been received.

City Dump Salvage Brings High Price

DALLAS.—For the past year the city has sold the privilege of salvaging material from the city garbage dumps for \$250 a month.

On Nov. 14 when the bids for next year's contract are to be let, the city council will try to obtain a still better offer, it was said.

The present salvager has done well with the contract for the past 13 months, council members said. His contract expires Nov. 30.

Tom Tyler at Columbia

Tom Tyler, who will be seen in his latest western "Mystery Ranch" at the Columbia Saturday.

Ford Frick New Head Of National League

NEW YORK, Nov. 8.—Ford Frick, former sports writer, today was elected president of the National Baseball league, succeeding John A. Heydler, who recently resigned.

ST. LOUIS.—Discounting the ability of the League of Nations to settle differences between Japan and China, General Tsi Ting Kai, hero of the Chinese army in the 1932 march of Japan on Shanghai, told members of his race at a meeting here that the only way to settle the Sino-Japanese dispute "was to keep on fighting."

"Case of Howling Dog" Has a Large Cast of Film Stars

An unusually large and capable cast will be seen in the Warner Bros. production of "The Case of the Howling Dog," which comes to the Arcadia theatre on Friday. Warren William and Mary Astor have the stellar roles.

William portrays a famous criminal lawyer and investigator who solves the mystery of a series of murders. This is the second time he plays the part of a detective and the second time that of a criminal lawyer.

Just recently he was cast as Philo Vance in "The Dragon Murder Case," and some time ago was the lawyer in "The Mouthpiece."

Mary Astor, recently seen in "The Man With Two Faces," and "The Return of the Terror," both mystery murder stories, now appears as a beautiful society woman

accused of the murder of her husband.

The picture is based on the magazine story by Eric Stanley Gardner and dramatized for the screen by Ben Markson. Alan Crossland directed.

BELL-RINGING EGG TIMERS

LEIZIG.—An alarm bell will announce just when your egg is soft, medium or hardboiled. The cook may entirely disregard the clock during the anxious moments when the cooking of an egg is nearing completion. When the eggs are placed in boiling water, an hour glass, or rather minute glass, is turned, which is set to measure just the right boiling time. On the instant the sands of the glass run out an ingenious contrivance rings a warning bell. The same contrivance, which has been demonstrated at the Leipzig fair, proves invaluable in homes and business offices in measuring the length of telephone calls.

Schell Brothers Circus Was Once A Small Outfit

Possibly a great number of the older generation remembers when Schell Brothers Circus came to town as a small wagon show which traveled overland, and oh, boy, these were the real days of enjoyment for the youngster.

Twenty-four years ago, Mr. George E. Schell, who was a circus performer with one of the larger circuses, decided to enter upon the field as a circus owner and manager, starting out from his home in a small town in Minnesota with a small tent, a few old wagons and some discarded brewery horses, and the townspeople said, "Some day George may take the show out on the road all right, but his pa will have to go get it and bring it home when winter sets in," but with a few old friends who were performers with other circuses, he had no trouble in surrounding himself with the very best of talent and a performance was given that was equal to a great number of the larger shows, and with this pleasing entertainment, he was enabled to establish a reputation that was profitable for his show.

As years slipped by he enlarged his circus, bought good horses, larger tents and an elephant and a few other animals; hired more artists and was gaining territory every year and about that time the circus trust was formed and in order to weather the storm of opposition, he added four members of his family to the management of the circus, and enlarged the circus to a good sized railroad circus to meet his competitors and fought the trust in a price war. Today this is one of the few independently owned circuses on the road. In the past three years, his policy to give more for less money has enlarged the number of seats and gets the crowds which bring in the business.

Schell Brothers Circus will be in Ranger, for an afternoon and night performance, Friday. Be on hand early. The menageries is one of the real features of Schell's circus and its doors open one hour prior to the main performance.

Died in Birth Room
MALDEN, Mass.—Mrs. Florence L. Minott died recently in the same room where she was born 91 years ago. She had lived in the same house all her life.

Freshmen: Highest honors, Hazel Thomas, Jack Hall, Lewis Hughes, Homer Smith, Rita Moonney. High honors, Faye Davis, Nelma Robinson, T. M. Brown, Ernest Green, Nadine Miller, Mozelle Crews, Merle Branton, Dorothy Jean Bruce, Claribel Coffman. Honors, Mary Beth Donley, Lonnie Mae Martin, Margaret McKeehan, Lee Roy Kiriputrik, F. P. Brasher, Jo Davis, Jim Gallo-way, Richard Golden, Ross Hodges, Dean Milma, Arline Stevens, Julia Rose Needham, Helen Jacobs, Nora June Hartin, Rita Gallagher, Iva Dell Coones.

Non-Inflamable Gas Struck In Water Well

CANADIAN, Texas.—Gas experts today were puzzled by the tremendous pressure of an intended water well being drilled at the department of commerce airport here. The gas "pocket" was struck at 270 feet. Pressure blew tools away from the well and pushed the casing up several feet. Nobody was hurt when the well ran wild. Gas escaped at the rate of 2,000,000 cubic feet daily, and sprayed nearby land with a fine mist mixed with sand. The roar of the well could be heard several hundred feet.

Experts said the gas not only inflammable and therefore had no value as a fuel. The "strike" was made when airport officials sought a water supply.

Try a WANT-AD!

More Suspects In June Robles Case Are Being Sought

PHOENIX, Ariz., Nov. 8.—The early arrest of two additional suspects was predicted today in the kidnaping of June Robles, whose imprisonment in an iron cage in a desert enraged the southwest last April.

The men were hunted by federal agents who departed for an unannounced destination after Oscar H. Robson, 31, was arraigned on extortion charges. Robson denied he sent extortion notes to June's father.

The agents refused to identify the suspects they sought.

MORE ARRESTS PREDICTED IN URSHELL CASE

OKLAHOMA CITY, Nov. 8.—Additional arrests in the Charles Urschel kidnaping case were predicted today as an aftermath of the capture of a man and woman in Oregon.

Agents of the department of justice spread their nets quietly to other sections while Alvin H. Scott, 36, lay critically injured in a Roseburg, Oregon, hospital. He was hurt in an automobile accident as federal agents closed in on him.

He had money identified as part of the Urschel \$200,000 ransom paid for his release from the Bailey-Bates-Kelly gang in 1933. Only about half the ransom has been found.

Bandit Gang Fails To Blast Open Bank

CAMBRIA, Wis., Nov. 8.—A bandit gang took possession of this village today, firing upon citizens and terrorizing them, but was thwarted in attempts to blow open a bank safe.

Six men invaded the village, cut all telephone wires, stationed guards at the bank and set off three charges of explosives in front of the vault.

Perhaps Uncle Sam wouldn't hesitate about buying more dirigibles if he had a few Ekeners to operate them.

INSURANCE IN ALL ITS BRANCHES

Sea Monsters Will Visit In Ranger

Commencing tomorrow for three days, the Pacific Marine Research company of Long Beach, Calif., brings to this city the world's outstanding educational exhibition of marine life.

There are over 1,000 specimens in all, which are presented life-like in the flesh the same as when they were removed from the ocean. There are no stuffed, artificial or mounted specimens. Outstanding among the exhibits are a 1,625-pound sea turtle nine feet in length, which is said to be in the neighborhood of 400 years of age. A rare Mola Mola weighing over a ton, and one of the five captured since 1886 is the largest of all the fish family. There are several species of shark, among which is the giant man-eating Bonita shark 12 feet in length, weighing over 1,500 pounds. Hundreds of tropical Tawailian fish, sea shells, a porpoise, flying fish, sea horses, and other peculiar specimens complete the exhibition.

A competent crew of lecturers are on hand at all times, to acquaint the visitors with the various specimens, and to acquaint them with the life, habits, and methods of capture of the various specimens.

The exhibition is located in a giant 100-foot exhibition ship, which is located on the corner of Austin and Pine streets, opposite

the city hall. General admission is 15 cents for adults and 10 cents for children.

RANGER WEEKLY TIMES

TIMES PUBLISHING COMPANY, Publishers
211-213 Elm Street, Ranger, Texas

PUBLISHED EVERY FRIDAY AT RANGER, TEXAS

F. D. NICKS, Business Manager W. H. MAYES, Jr., Editor

Notice to the Public
Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation, which may appear in the columns of this paper, will be gladly corrected upon being brought to the attention of the publisher.

Obituaries, cards of thanks, notices of lodge meetings, etc., are charged for at the regular advertising rates, which will be furnished upon application.

Entered as second-class matter January 3, 1934, at the post office at Ranger, Texas, under the Act of March 3, 1879.

Subscription Rate \$1.00 Per Year, Payable in Advance

Oil Income For Texas

The difference in \$1 oil and 60-cent oil is \$12,000,000 a month income for Texas. Part of this income the state itself shares in royalties.

A fight, whose significance is just beginning to show itself, was that of the state officially to prevent the drastic cutting of oil prices, as was undertaken by a few minor companies, but which was checked before it spread to the large purchasers.

The 40-per cent cut in oil prices was threatened just at a time when federal agencies were moving in to stop the flow of illegal oil and gasoline interstate—to stop that excess blamed for the threatened collapse—and thus at a time when the price of oil should have been ready to appreciate, rather than decline.

Fortunately, state of production taxes are no longer affected by price reductions below \$1 a barrel; but a revenue of \$30,000,000 a year to Texas producers is a factor of tremendous importance.

And the efforts of the state to preserve that revenue at the same time preserved an undetermined number of the smaller operators from the squeeze-out of destroyed values.

Legislating Lame Ducks Back

The redistricting idea before the legislature as to state senate districts would be a happy method of giving a few defeated candidates a chance to come back by giving them a different constituency.

The scheme is dead for the present in its original tracks.

GAME PRESERVATION NECESSARY

A new departure in state governmental activity for vocational education was taken this week. Executive Secretary William J. Tucker of the Texas game commission, conferred by invitation with E. J. Kyle, dean of agriculture of A. & M. college, on tentative plan to inaugurate instruction on game management in the college.

His course would instruct the student in the methods of raising wild game, in the habitat and usefulness of various types of game and fur-bearing animals, and in the mechanics of operating game-breeding plants and the like.

Secretary Tucker submitted a reference list of 50 books available to be used in instructional work.

At the same time, the game department took steps to secure graduate research work in zoology and biology under supervision of the University of Texas to study game resources in certain areas of the deer country of Southwest Texas.

New Secretary Is Selected For the Retail Merchants

At a recent meeting of the directors of the Retail Merchants association, Mrs. Eva B. George of Ranger was unanimously elected to the place of Mrs. Alice D. True, who resigned a few weeks ago.

Mrs. George has for several months been working part of the time for J. C. Penney company of Dallas, and comes highly recommended from Brownwood, her former home, and is thoroughly capable to fill the position as secretary of the Ranger credit bureau.

She was for several years bookkeeper and office lady for the Printers Gin, or Brownwood Cotton Oil Mills, who reported her services very satisfactory.

For several days she has been working with Mrs. True in the Retail Merchants office, who reports that Mrs. George is very apt, and is learning the work rapidly. Mrs. True is moving to McAllen, where she will make her home, and again expresses her appreciation of the Retail Merchants and business people, and urges that the members and merchants give to the new secretary the same wholehearted co-operation in their work for Ranger.

Help Kidneys

Keep your kidneys in good working order. They are the filters of your body. If they become clogged, you will suffer from getting rid of poisons. Exposition to Open Community Drive

CLEVELAND, O.—An exposition showing the work of the city's welfare agencies will be held here prior to opening Nov. 19 of Cleveland's \$3,500,000 community fund campaign.

Though this year's quota is smaller than generally, Cleveland has been a pioneer in community chest raising and has set a recognized high standard of social work among other cities.

CALLS ALL-BRAN NATIONAL NATURAL LAXATIVE

Delicious Cereal Checked His Constipation

Here is an unsolicited letter from Mr. Daniels:

"For many years I have been habitually constipated, and have used all sorts of laxatives. So, in fairness to Kellogg's ALL-BRAN, I heartily claim it to be a most wonderful remedy for constipation.

"Need I tell you that I have long since ceased using laxatives? Kellogg's ALL-BRAN is the National Natural Laxative. If it were used by every family in the United States for breakfast, we would have a much healthier race of people."—Mr. John Daniels, 1090 Third St., North Bergen, N. J.

Tests show Kellogg's ALL-BRAN furnishes "bulk" to exercise the intestines and vitamin B to help tone the intestinal tract. ALL-BRAN also supplies iron for the blood.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. Isn't this food much pleasanter than risking pills and drugs? Two tablespoonfuls daily are usually sufficient. If not relieved this way, see your doctor.

Get the red-and-green package at your grocer's. Made by Kellogg in Battle Creek.

Students Wanting Only Good Times

SAN FRANCISCO, Calif.—Sixty-seven years' observation of educational trends in America have led Rev. Allen Manderville Elston to the conclusion that present-day college and university students want only a good time from their school careers.

Rev. Elston, who will be 90 on Christmas day, recently was notified by officials of the University of Missouri, the oldest university west of the Mississippi river, that he is the institution's oldest living alumnus.

The pastor graduated from the University of Missouri with the class of 1867.

"Looking back over a span of 67 years," Rev. Elston observed:

"In my day, young people went

to college to study—now they seem to want only a good time."

Union soldiers were quartered on the university campus and General Prentiss maintained his headquarters there when Rev. Elston entered as a freshman. Classes could not be held in some buildings because they were in use as military prisons.

Rev. Elston was ordained for the ministry at the University of Kentucky, came to California in 1871 and has six children and 19 grandchildren. Four of the latter now are students at the University of California.

Leader Claims "Y" Facing Real Test

CLEVELAND, O.—The Y. M. C. A. is facing the most crucial period in its history, John E. Manley, general secretary of the National Y. M. C. A. council told

300 delegates at the opening session of a three-day meeting here.

"Not only must the association find a sound financial basis for its work, but it must assume leadership in other fields, with 3,000,000 young people who are just out of school and have never had a job. An added burden is the fact that

the voice of religion is none too sure today."

Councilman Sports His First Necktie

TIFFIN, O.—When Councilman Charles H. Trimmer walked into

council chambers here his colleagues felt like singing "Blest Be the Tie." Trimmer was wearing a cravat for the first time in 20 years.

"I'm celebrating the return of prosperity," Trimmer smiled. He admitted he hadn't put on a necktie since 20 years ago when he had

refused to put on one to be photographed with a group of labor leaders.

EAST WEYMOUTH, Mass.—Mrs. Jennie Crocker, widow of a veteran retired sea captain who died recently, is believed the only woman who holds a master's license to sail ships on all oceans.

MOBILIZE FOR WINTER!

Protect your car with MOBIL OIL • MOBIL GAS • MOBIL GREASE

Winter Proof NOW for quicker starting... easier shifting... smoother performance

- Magnolia Stations and Dealers offer these services to protect your car
- 1 CRANKCASE... Drain, flush and refill with winter grade Mobiloil.
 - 2 CHASSIS... Lubricate chassis thoroughly with special Mobilgrease.
 - 3 DIFFERENTIAL... Drain, flush and refill with winter Mobil Gear Lubricant.
 - 4 TRANSMISSION... Drain, flush and refill with winter Mobil Gear Lubricant so that gears will shift easily.
 - 5 GASOLINE... Assure instant starting by changing now to winter Mobilgas.
 - 6 RADIATOR... Flush and clean radiator thoroughly; put in anti-freeze or alcohol as required.
 - 7 BATTERY... Check battery and refill with distilled water; remove corrosion and grease terminals.

WINTER is on its way! Overnight the temperature might drop twenty or thirty degrees. It has happened before. It can happen again!

It doesn't take snow and ice to ruin an automobile. Even moderately cold weather calls for special winter lubricants. When starting is difficult... when gears are hard to shift... look out! A few minutes of hard starting adds months of wear to your motor. It can even

mean scored cylinders, burned bearings... a major repair bill!

A Magnolia Winter-Proof Job means freedom from winter driving worries. Check the seven important points at the left. Notice how completely your car is protected throughout the entire range of winter temperatures... from a brief cold snap down to sub-zero weather. Mobilize now before winter whips around the corner... WINTER-PROOF YOUR CAR!

Remember... You can MOBILIZE only at...

MAGNOLIA STATIONS AND DEALERS

"Stay with Magnolia and you stay ahead!"

Doctor Says Care Should Be Taken After An Illness

AUSTIN.—Speaking of the precautions that should be taken in households, during and at the close of an illness from any of the "catching" diseases, which are prevalent at all seasons, Dr. John W. Brown, state health officer, said recently: "Any plan for the prevention or control of this sort, depends upon the intelligent co-operation of individuals and communities with the medical profession and the health authorities for its success."

Those who are in charge of persons suffering from influenza, pneumonia, tuberculosis, scarlet fever, measles, infantile paralysis or any other of the diseases spread by discharges from the nose or throat, are warned that these discharges are sources of great danger, and are urged to have the patient use paper handkerchiefs or soft cheesecloth, that can be disinfected or burned or otherwise safely disposed of.

The sterilization of dishes and utensils used in the sick room, by boiling after each use of them, and of the patient's clothing, sheets, towels, and pillow cases, are equally necessary. Then, at the close of the illness, a thorough cleaning of the room, bedding and personal belongings of the patient, scrubbing the floors and woodwork, and opening the place to the fresh air and sunlight, are urged as a final precautionary measure.

"Fortunately, the best disinfect-

Houston Is On Threshold of a Building Boom

By THOMAS O'HURST
United Press Staff Correspondent
HOUSTON, Nov. 6.—The city of Houston is on the threshold of its first building boom since 1925.

Indications of the boom were contained in a survey released by the Houston, real estate board, which revealed the number of vacant houses and apartments in the city has increased 75 per cent in the last three years.

Vacant houses in 1931 numbered 2,372 out of a total of 57,360. Of 60,053 houses, only 647 were empty, the survey showed.

"A boom in construction of houses and apartments is much needed at this time," M. H. James, president of the board, said, "and is expected to get under way as soon as assurance is received from the federal government that it will assist."

Due to the scarcity of houses and apartments, rent has increased 10 per cent in the last three months and more than 20 per cent in the last two years, authorities said.

Figures in the survey was obtained in an actual house-to-house count made by postoffice department mail carriers.

The number of apartments in Houston has increased during the

last three years from 11,312 to 12,680, while vacancies dropped from 2,282 to 540, according to the survey.

The absorption of new apartments and the decrease of vacancies were caused by the influx of hundreds of families to Houston following establishment of branch offices of oil companies after the Conroe oil field was discovered Dec. 1, 1931.

In 1931 there were 80,181 places where mail could be delivered, with 6,606 vacancies, leaving 73,572 actual mail delivery stops. Now there are 85,421 possible stops, with 2,699 vacancies, leaving actual stops at 82,722 places. This shows an increase of 9,150 stops, or 23 per cent.

Vacant offices have decreased from 1,188 to 1,121, while the total number of offices was increased from 4,003 to 4,239.

Figures showed 3,130 more families occupying apartments than in 1931.

The real estate board said rentals on both houses and apartments probably would be increased another 10 per cent within the next three months.

Vacant stores and business buildings decreased from 567 in 1931 to 391, while the total was increasing from 5,706 to 8,449.

Houston has seven more office buildings than it had three years ago.

Try a WANT-AD!

Alameda School News

Friday, Nov. 3, Miss Champion entertained both high school and grammar school with a very interesting program. Among the numbers were a song by Dealva Fox, Edith Dewalt and Laverne Echols entitled, "Moonlight and Skies." A piano solo by Dorothy King, a song by Florence Rogers, and Miss Champion entitled "Long Long Ago." A song by Dorothy King, Bartie Lou Cameron and Miss Champion entitled "Love in Bloom" and a reading by Jack Bishop. A very good time was enjoyed by all who attended. We welcome all visitors. The program will be held from 1:30 till 2:15 next Friday and Mr. Hodge has charge. Every one is invited to attend.

Miss Edith Cameron visited school last Friday. We were all glad to see Edith, since she was once a member of Alameda High, but finished last year.

Last week a meeting was held clearing editors and reporters for the paper. They were as follows: Junior Hart, editor in chief; Inez Horn, associate editor; Dorothy King, sports editor; Bartie Lou Cameron, 11th reporter; Billie Horn, 9th reporter; Myrtle Vaughn, 8th reporter and Deola Perrin, 7th reporter. This work is supervised by Miss Champion.

In keeping with our program of the improvement of our library, this week a number of new books have been added to it. About 25 or 30 new books arrived this week. Among them are books to be used in history and English.

The boys and girls of Alameda High school have started basketball practice this week. The boys have turned their attention from football and are now devoting their time and interest to the preparation of a strong, efficient team.

The Alameda girls and boys teams will play the Colony basketball teams at Alameda Friday evening, Nov. 3, at 3 o'clock.

The players of the Alameda main team of girls are: Ellen Tucker, Billie Horn, centers; Florence Rodgers, Delta Lee, forwards; Dorothy King, Luzelle Sims, guards; Captain, Billie Horn; sub-captain, Ellen Tucker. The subs are: Katy Thurman, Myrtle Vaughn, Laverne Echols and Mydelle Thomas.

There have been a bit of improvements made on the school building at Alameda this year.

They have added a study hall which reaches more than the width of the rest of the building. They put in 42 new seats, also a new stage in the study hall.

They have added a laboratory which will make the study of science more interesting. They have put the equipment into the laboratory that is necessary for making the experiments demanded in the course of science. They are now piping water into the laboratory.

SACRIFICE FOR PUPILS
IRONTON, O.—Public school teachers here gave up a vacation-with-pay to attend a district teachers' meeting and stayed in their schoolrooms because "we deemed it advisable to give the time to the children." They said they made the sacrifice on account of uncertainty of school finances and doubt as to the length of this year's term.

Peaches Browning was cut off in "Daddy's" will. Sort of canned peaches, you might say.

LEGION AUXILIARY WILL SELL POPPIES MONDAY

The ladies of the Auxiliary of the Carl Barnes Post No. 69, will sell poppies on the streets of Rangre Monday, Nov. 12th. The proceeds from the sale of these poppies go for the benefit of disabled soldiers who are in hospitals.

According to Mrs. J. D. McClister, these unfortunates do not get any compensation from the government and the poppies are made by them and sold for their benefit.

Be sure you have a poppy in your coat buttonhole Monday and thereby help the disabled veterans of the World War. The price will be from 10 cents to \$50.00.

THIS CHANGE Helps Children

Intestinal irritation in many growing girls and boys can be traced to one mistake.

Are you making this mistake with your children? The "liquid test" will tell.

"What is this 'liquid test' they talk about?" ask mothers. Just this: a simple way of finding out if any boy or girl with irregular or insufficient bowel movements is in need of relief, or is getting the wrong treatment.

Doctors urge a liquid laxative for children. The child who has been convalescing in a hospital will often come out with bowels working like a clock, but will watch. Hospitals give children a liquid laxative of suitable ingredients, suitable strength, and in suitable amount.

The Proper Treatment
Give that sluggish child a liquid laxative containing senna (a natural laxative). California Syrup of Figs has the right amount for children's use, and this rich, fruity syrup does not upset them.

Just give any headachy, bilious child a little of this gentle laxative when constipated, and a little less if dose is repeated until the bowels seem to be moving regularly and thoroughly without need of help.

How to Begin
Stop all use of mineral drugs, whether they are salts, pills, tablets, or "candy" form. Even once a month is too often to give any child a cathartic strong enough for adults.

It is not wise to give laxatives of

adult strength to a child, just because you give them less frequently or in less amounts.

So, get a bottle of California Syrup of Figs from your druggist, and start tonight, if your child is constipated, giving a good, cleansing dose. Repeat if necessary, giving a little less each time. That's the secret of this treatment—gradually reduced dosage.

When you change to California Syrup of Figs instead of harsh medicines, you'll risk no more violence to your child's appetite, digestion, and general physical condition. You'll have a safer and more satisfactory result, too.

THE "LIQUID TEST"
This is the way to relieve occasional sluggishness, or constipation in a child of any age:

First: select a liquid laxative of the proper strength for children.

Second: give the dose suited to the child's age, and condition.

Third: reduce the dose, if repeated, until the bowels are moving without any help at all.

An ideal laxative for this purpose is California Syrup of Figs which every druggist keeps in stock. Be certain that it is the genuine product, with "California" blown in the bottle.

LUCKY GIRL

Her mother felt that family physicians and child specialists, and the hospitals must be right. A simple test that proves they are.

MRS. STRONG AND DAUGHTER, NANCY

If anyone in your family is occasionally sluggish or constipated; especially any child, you should know this medical truth:

You cannot get safe relief with any medicine if you cannot regulate the dose. And to regulate dosage, you should have a liquid laxative. With a liquid laxative, you can gradually reduce the dose. And that is the secret of safe relief from a sluggish, constipated condition.

Why Doctors Use Liquid Laxatives
A liquid laxative can be measured. Its action can be thus controlled. If properly made, of natural laxative elements like senna and cascara, it forms no habit—even in the youngest child. And such a laxative will help the bowels to help themselves, not make matters worse.

Dr. Caldwell's Syrup Pepsin is an approved liquid laxative containing herbs, active senna, and cascara, and is the one widely used. You can always obtain it at any drugstore. Why not make the "liquid test" which has attracted so much attention of late? It helps nearly everyone who tries it. It may make you feel better than you have in a long time.

If you will risk sixty cents to discover the natural, comfortable action of Dr. Caldwell's Syrup Pepsin, we believe bowel worries will be over for your household.

TRY A WANT AD - IT ALWAYS PAYS!

That the Advertisers May Know---

The Ranger Daily Times and the Ranger Weekly Times reach every community in this trade territory in plenty of time for the people of each community to study the advertisements of the Ranger merchants and take advantage of specials advertised in these two papers—especially does this apply to Friday and Saturday bargains.

WEEKLY MAIL SCHEDULE

In order that the readers of Strawn, Mingus, Thurber, Gorman, Carbon and other community centers may receive their weekly paper in time to take advantage of the merchants advertisements the paper is published on Thursday night and goes into the post office in time to make the midnight and early morning trains out of Ranger so as to reach the designated post office early Friday morning in sufficient time to be handled by the rural carriers—we invite the business men to check these records—anything put in the mails later than Thursday night does not get to the readers until late Saturday and in many instances it is Monday.

The Times is giving the merchants of Ranger complete coverage in this territory. We appreciate the interest and the cooperation of the Ranger merchants and business men in the support given the Weekly which is one of the best in Texas and is less than a year old.

DAILY TIMES SCHEDULE

The Daily Times is distributed by carrier in Ranger and makes the mail each afternoon in which papers are sent to Thurber and Strawn and goes into the homes of the rural subscribers each morning as they are handled by the rural carriers. On each afternoon The Times has a special route from Ranger to Olden and some 20 people between Ranger and Olden read the Times each afternoon, besides the city of Olden itself which has a special route and the people in Olden read The Times about as early as do the Ranger readers.

The Ranger Weekly Times has filled a long felt want in the weekly field. The Ranger Daily Times is read and appreciated in 75 per cent of Ranger homes—there can be no substitute for PAID circulation.

Farm News of Interest to the Farmers of This Section

Seed Corn Option Purchase Price Is Raised to \$1.25

WASHINGTON, D. C. — Contracts for the optional purchase of between 500,000 and 1,000,000 bushels of seed quality corn, to be selected from corn sealed on farms under Commodity Credit Corporation loans, will call for payment for such corn at the rate of \$1.25 per bushel, on exercise of options, it was announced today by the Agricultural Adjustment Administration.

It is expected that the contracts will be in the field within the next few weeks. The plan for optioning sealed corn, as a measure to prevent unsealing and feeding valuable seed stocks, originally placed the option price at \$1 per bushel.

Under the seed corn conservation plan, the Agricultural Adjustment Administration will select crops of seed-quality corn in such states as South Dakota, Kansas, Minnesota, and Missouri, where the seed corn situation is most serious, and where reports indicate that the supply of 1933 sealed corn suitable for seed may be threatened by the demand for feed.

Producers holding corn that meets the specifications for seed quality and is held under storage conditions that will preserve its qualities, will be used.

ON TEXAS FARMS

One 4-H club boy in Shackelford county reports gains of 300 pounds on his baby beef after four months feeding at a cost of \$12.06. The calf weighed 330 when it went on feed.

Self-feeder-fed pigs owned and shown by a 4-H club boy of Carson county won third place in the litter class in Amarillo recently. The pigs average 241 pounds apiece and had been fed on a ration in which skim milk largely supplied the protein. His net profit was \$40.51 on this demonstration which was his first.

Juanita Billingsley, first year Tarrant county 4-H club girl, put up 114 quarts of food this year in her club work. She declares it makes her feel good to have made such a substantial contribution to the family food supply.

An attractive flagstone walk has been made by Mrs. George Williams of Schleicher county with rock secured from an old fireplace which was torn down. Wide and narrow rocks were used alternately and laid even with the surface of the lawn. Mrs. Williams plans to cultivate the native grass in her yard and allow it to grow in between the rocks. She is yard demonstrator for the Eldorado Home Demonstration club.

BASTROP — Harrell Hancock, 4-H club boy in the Oak Hill neighborhood in Bastrop county sold \$99.85 worth of watermelons from his 4-H club demonstration, according to the report of W. S. Millington, farm demonstration agent. Young Harrell also said that the vines were still producing and had a number of green melons from which he hoped to sell enough to swell his sales to more than \$100.

GAIL — "It pays to work your cotton land whether it rains or not," A. N. Surratt, Borden county farmer, told Ralph Howe, farm demonstration agent. Mr. Surratt has produced 1540 pounds of net lint from 12 acres of cotton and will get about one-half bale more from the same acreage. He summer followed his land and worked it four times before planting his certified Acala seed. He made the large yield in spite of the fact that less than a quarter inch of rain was received on this crop from the time it was planted until it was harvested.

VEGA — Jack Cotton, Oldham county 4-H club boy, showed the grand champion barrow and grand champion litter at the fair in Amarillo recently, and in the open class the grand champion barrow combined with two litter mates placed reserve champion trio, according to J. F. Ford, farm demonstration agent. More than 200 barrows, including the winners of the 4-H club division, were eligible in the open barrow show, and young Cotton's accomplishment in placing his best pig as open class champion against some of the outstanding show herds of the United States has seldom been equaled in the show ring, according to Mr. Ford. This is the second consecutive year that the Pig Club championship has been awarded an Oldham county exhibitor.

HUNTSVILLE — Mrs. Sam Parish of the Moore's Grove community in Walker county believes what the Bible says about using what you have in your own hands, according to Miss Frances Punched, home demonstration agent. Mrs. Parish uses elm bark instead of cane for chair bottoms. She takes the elm bark just as it is stripped from the tree and cuts it in half to three-quarter inch strips while it is damp either from tree moisture or from soaking. Then she plaits or weaves it directly upon the chair. Several of the chairs which Mrs. Parish has covered are in the Moore's Grove cannery. The work is extremely smooth and even, and the bottom is firm and more substantial than cane, according to Miss Punched.

SAN ANGELO — In spite of the drought, Mrs. A. E. Lock of Tom Green county gathered enough Mustard-spinach (tender greens) from one 40-foot row to can 17 number two cans and use 50 lbs. fresh, according to Miss Nette Schultz, home demonstration agent. Mrs. Lock not only served the greens boiled but used them for salad. She makes the salad by shredding the greens and pouring a hot dressing over them or by cream, vinegar, sugar, salt and serving them with a dressing made mustard.

FLORESVILLE — Seventeen acres planted in pease in Wilson county have provided fresh vegetables for families on the relief roll unable to have their own gardens and have provided enough for 6400 cans to be used for relief.

Acidity Robbing Farming Lands of Its Alkalinity

OMAHA, Neb.—Present day intensive farming is breaking down alkalinity of the soil and developing acidity thus robbing its products of chemical elements needed for proper growth and health of the human body, according to Dr. H. M. Harvey, Gothenburg, Neb.

"Due to the intensive farming practices," Harvey said, "we are breaking down the alkalinity of the soil and bringing about a state of acidity. In nutritional diseases the natural alkalinity of the body is broken down and we find the person on an acid base, because of malnutrition brought about through the food supply grown in deficient soils."

Goats on Hoof In Demand for Relief

AUSTIN—Goats on the hoof are so much preferred by Texas relief clients that there may not be any to can.

"We're giving them away alive at the rate of 3,000 to 4,000 a day," said C. Z. Crain, head of the commodities distribution for the Texas relief commission. "We haven't a surplus goat in our pens."

Counting condemnations, the federal government has bought approximately 100,000 of the 400,000 Texas quota. The task of handling goat purchases in Texas was turned over to the state relief commission, who decided to give the animals away live rather than to slaughter and can them.

The relief recipient is required to slaughter the goat and return the hide to the county administrator as evidence that it has not been resold. The hide is marked and given to the client, who uses it for a rug or in some cases, a vest.

Harvey advocated rotation of grass crops with other so restore alkalinity to the soil thus enabling it to retain its protein necessary to human health.

"Most of our farming processes are destructive from the farming standpoint and it is any wonder we are becoming a de-vitalized people in the middle west," he said. "The erosion of the soil and the farming processes increase the acid in the soil. This is very evident particularly along the Platte river in Nebraska."

"The acid base persons are generally recognized by their flared complexion and thin skin.

"Soils which are virgin are rich in protein and much of our Nebraska land is now so poor in this element that it will not grow good wheat. It must go back to grass."

Eastland County Farmers Will Receive \$211,458 This Year From the Federal Government

By J. C. PATTERSON
County Agent

The agricultural adjustment administration is paying Eastland county farmers a sum of \$211,458 to restrict their crops this year as an aid in adjusting market surpluses.

Three hundred seventy-eight hog raisers will receive a total of \$31,770 for producing 1,864 less hogs and 928 acres less corn than their 1932-33 average. The second payment should be received during the month of November.

Four hundred seventy-eight cotton producers will receive \$50,159 in rental and parity payments for agreeing to plant 5,250 acres less cotton than the five-year average on their farms. The second final checks should be received late this month.

Five hundred thirty-four cotton producers who participated in the plow-up last summer pooled 1,311 bales of cotton on which they received \$29 per bale advance last spring totaling \$26,227. Now an additional advance is offered on this pooled cotton of two cents per pound less accrued expense, making available another \$9,966 to cotton producers.

Twelve-cent loans are available to any cotton producer on this year's cotton crop where stored in a bonded warehouse. Just recently this loan was also made available to non-contract signers who will agree to execute a 1935 cotton acreage reduction contract.

Those who stored cotton last year and received 10-cent loans may now cancel out the old loans and borrow 12 cents per pound on it.

Wheat raisers were offered a reduction contract but only three Eastland county men availed themselves of this opportunity.

Through the drought relief cattle purchasing program 756 producers sold 7,561 head of cattle for \$92,531. During this program 1,174 producers owning 39,723 head of cattle listed 13,120 for sale and while the buying program apparently is at an end producers are coming in continuously to list other cattle for sale to the government.

It may be of interest to note the numbers purchased from producers purchasing different numbers of cattle: purchases were made from 118 producers owning five head or less; from 148 owning six to 10 head; from 251 owning from 11 to 25; from 128 owning from 26 to 50; from 68 owning from 51 to 100,

How To Keep Colds UNDER better CONTROL

When Colds THREATEN

VICKS VAPORUB

At the first sneeze or nasal irritation, quick! A few drops of Vicks VapoRub. Its timely use helps to prevent many colds, and to throw off colds in their early stages.

If a Cold STRIKES

VICKS VAPORUB

At bedtime, massage throat and chest with Vicks VapoRub, the mother's standby in treating colds. All night long, by stimulation and inhalation, VapoRub brings direct relief.

To Build Resistance to Colds: Follow the rules of health that are part of the clinically tested Vicks Plan for Better Control of Colds. (The Plan is fully explained in each Vicks package.)

VICKS PLAN FOR BETTER CONTROL OF COLDS

Activities of the H. Demonstration Clubs of County

Mrs. D. M. Jacobs, North Star Home Demonstration club member is to serve as class 2 clothing demonstrator for her club. Mrs. Jacobs started this work in August and is to complete the following during the year. Plan clothing according to individual needs of each member of the family. 2. Keep records of clothing expenditures for entire family. 3. Have foundation pattern (individually fitted pattern) and make dress and slip for county and state contest.

The accounts are kept to show how the money goes. To help find the leaks and how to make adjustments. To prevent haphazard buying such as sales that are not bargains when considered as they should be. To know the value as to working basis and to learn how to make plans for future buying. Records kept for a year show the materials and garments worth buying and the ones one should not buy.

Mrs. Jacobs was demonstrator in class one during 1934 and made an old wardrobe into a good storage space for clothing, completed her foundation pattern and helped the club members who are co-operators to complete their patterns. This year she will continue the work with foundation patterns, helping women outside of the organized club and work with the family clothing budget.

Mrs. Frank Ziehr, Word Home Demonstration club, is to be yard demonstrator for the club and plans to make the following improvements on the yard. The complete plans for the yard will be worked out to cover a period of three or four years and of course will be continued on for a number of years once the yard is improved. The bed around the house will be widened to four feet for foundation plantings. The roses will be moved from the yard to a rose garden and the lawn sodded, making it smooth and unbroken by flower beds (annuals). The annuals will be in a bed where they can be cultivated and not smothered out the other flowers. There are places for all flowers and Mrs. Ziehr is working on that in her yard improvement plan and will have a pattern yard for the club and the general public when she gets the planting worked out and completed.

Young King Peter of Jugo-Slavia is now head of the army, although he can hardly be said to have been graduated from his soldier toys.

The republicans may be right in their contention that politics is being mixed with relief, but that wouldn't be so bad if it were relief from politics.

A special black shirt organization is provided in Italy for boys as young as 6 years. Soon Mussolini will see that all boys are born in black shirts.

The jurors in the long Inault trial in Chicago are beginning to wonder whether it's Inault or they who should serve time.

Reserve Officer's Special Session at Abilene On Friday

Reserve officers of Eastland, Ranger and Cisco are expected to attend the special session in the interest of national defense in Abilene Friday.

The principal speech will be made by Congressman Thos. L. Blanton, who is chairman of the military appropriations committee in congress.

Other officials to attend the meeting are Col. T. A. Roberts of Ft. Sam Houston, head of Civilian Component Affairs, Eighth Corps Area; Capt. H. Patterson of Fort Worth, president of the state unit of the reserve association, and Capt. John J. Albright, unit instructor for the 35th Infantry and contact officer. Captain Patterson will be accompanied by several of his staff members.

Dinner will be served at the Abilene club at 7:30 and a meeting open to the public will be held at 8:30 o'clock.

TIRE BLOW-OUT IS FATAL TO 3

Two men and a woman were killed and four other persons injured late today when two automobiles were in collision on the highway near Mountain View, Okla. The crash occurred when a car, making him to reverse direction, drove across the highway in front of a truck which was driving about 30 miles an hour when the tires blew out.

HERE'S HOW TO PLAY SAFE!

Get the tire with the LIFE-SAVER GOLDEN PLY. Proved 3 times safer from blow-outs at high speeds.

To prevent blow-out tragedies, every new Goodrich Safety Silvertown has the amazing Life-Saver Golden Ply. This remarkable invention resists heat. Rubber and fabric don't separate. Thus, treacherous heat blisters don't form inside the tire. The great, unseen cause of blow-outs is prevented before it begins.

Let us put a set of Golden Ply Silvertowns on your car now. And remember, they cost not a penny more than other standard tires.

READ THIS TIRE GUARANTEE
Every Goodrich Silvertown passenger car tire is fully guaranteed for a period of 12 months (business use, 6 months) against accidental damage due to cuts, bruises, blow-outs, rim cuts, faulty breaks, wheel out of alignment and ordinary wear and tear.

Two Oil Hearings Slated In Nov.

AUSTIN—Two hearings of national importance will be the features of the Texas Railroad commission's docket for November.

The congressional oil investigating committee meets in Dallas, Nov. 16, to conduct a regional hearing, scheduled to extend thru Nov. 23. The committee is seeking evidence of a possible breakdown in state control of oil and gas production and the need of federal regulation.

The congressional committee will adjourn in Dallas Nov. 23 and go to Amarillo for a hearing Nov. 24. California is the next state on the committee's itinerary.

On Nov. 7 the Texas Railroad commission will sit with the Interstate Commerce commission at Dallas to hear arguments on the application of railroads for a general increase in freight rates.

Increase in revenues anticipated from the tentative new rates has been estimated at \$170,000,000. That increase has been asked in order to offset partly an anticipated increase of \$300,000,000 in railroad operating costs.

The I. C. C. will conduct other hearings on the freight rate applications in Birmingham, Denver, San Francisco, Salt Lake City, Portland and Chicago.

Other major dates on the commission's November calendar are: Nov. 13-15, American Petroleum Institute at Dallas; Nov. 5, pipeline strapping hearing at Austin; Nov. 13, application of Texas ports for rate adjustments to be heard at Austin.

Utility Companies Pay A Big Share of Taxes of the State

AUSTIN—For every two employees of one large Texas utility, the Central Light & Power company of Corpus Christi, there is an invisible employee on the payroll. If his name were entered, it was to be "Tax." Frank Kemp told the legislature this week that the company's tax bill is exactly one-half its payroll for all employees. In a recent year the taxes were 165 per cent of the net operating earnings.

That serving the public with utilities is not as velvet was the burden of the story of electric company representatives at a Centennial tax hearing.

The Corpus Christi concern, for instance, stretches out lines to 188 small towns to provide lights for 330,000 people. It has one customer to each square mile of territory embraced. Lines laid to reach burner tips supplied from an Amarillo gas company would carry the gas to Beaumont in a straight line.

Natural gas companies, too, think they have now their full share of taxes. "We pay six taxes other industries do not pay," one of the managers said. One West Texas gas company pays taxes that amount to \$6.50 a year for each gas meter.

Night Club Raids Have Little Effect

FORT WORTH, Nov. 5.—Repeated raids by county and city officers on night clubs here seem to have detracted little from their popularity.

Crowds still flock to the amusement spots, especially on Saturday and Sunday nights when the more popular ones are filled to capacity. One club has been raided several times as officers sought gambling games and liquor, but it still plays to a full house.

Another club has been raided repeatedly, with officers finally seeking to padlock it for a year. A third was closed temporarily pending outcome of legal maneuvers to close it permanently.

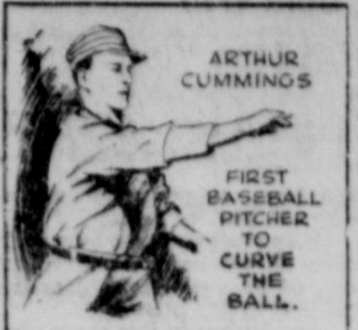

The drive against alleged gambling places began during the primary election last summer.

WHO WAS FIRST IN AMERICA

By Joseph Nathan Kane Author of "Famous First Facts"

FIRST BABY CARRIAGE FACTORY SUCCESSFULLY OPERATED IN 1858, IN LEDMINSTER, N.Y.

CUMMINGS played with the Excelsior Junior Nine and the Stars of Brooklyn, when he introduced the curve ball in 1866. The Benevolent Protective Order of Elks sprang from an older social and benevolent organization, "The Jolly Corks." The first baby carriages were on two wheels and had a long tongue and supporting standard in front. They were made of wood. The first year only 75 carriages were built.

Mounties Will Display Skill at N.Y. Horse Show

NEW YORK.—Men who are expert horsemen because such an accomplishment is a daily necessity will perform in the National Horse Show at Madison Square Garden, Nov. 7-17, when 36 officers and men of the Royal Canadian Mounted Police take part in the varied program for the first time in 51 years of the show's existence.

The mounted policeman always gets his man and in most parts of Canada the "Mountie" must depend upon his horse to get him to his objective. As a police force, the Mounted ranks as one of the most effective in the world and its horsemanship is known and respected everywhere.

The group will not represent Canada in the seven nights of military jumping, to be climaxed on the night of Nov. 13 with the competition among army teams from over the world for the international military challenge trophy. This task in horsemanship will be left to the Canadian Army team, riding against the United States, Chile, Irish Free State, France and probably Hungary.

Instead, the Mounties will take part in other events on the program and give exhibitions of their every day performances of horsemanship which, while not perhaps as exciting as taking a horse over a stiff jumping course, are interesting and will provide spectators a new attraction.

The men, riding their own horses, will be garbed in the same brilliantly designed uniforms that the movies have made known over the world—broad-brimmed, khaki-colored sombreros, deep scarlet tunics, black, yellow-striped trousers, hooded and spurred.

Work of these mounted police is often thrilling and romantic but it is constantly hard and consists of a great deal of routine in administering not only justice and enforcing the law in sparsely settled districts, but in performing other public services. At present the force, which last year observed its 69th anniversary, numbers 2,500.

Utility Rates For Tyler Show Saving

TYLER, Texas.—Citizens of this city will save \$46,000 next year in utility rates.

The cut, a 12.4 per cent saving to consumers, will go into effect in November. The matter of rate reduction has been hanging fire for some time and was finally settled by members of the city commission meeting with representatives from the Texas Power & Light company.

The city commissioners had formerly asked a 30 per cent reduction from the old rate. The new schedule follows: Residential lighting, 15 per cent reduction, saving \$26,931 annually; commercial lighting, 10 per cent reduction, saving \$12,630 annually; residential lighting and range, 10 per cent reduction, saving \$4,078 annually, and commercial power, 8 per cent reduction, saving \$2,489 annually.

Here Mussolini tells his farmers to produce more and we pay ours to produce less. Trouble with Mussolini is he has no brain trust.

Neches River Bridge To Have 176 Feet of Vertical Clearance

AUSTIN.—A group of legislators stood in the state capitol rotunda and gazed up at its dome.

They were trying to visualize the height of the Neches river bridge that will be constructed for an airplane highway between Port Arthur and Orange.

Under an agreement reached between Beaumont and the other two cities the bridge will have a clearance of 176 feet vertically. The capitol dome is 311 feet high, gauged from the dome interior the bridge would cross it at about the point where the capitol dome narrows.

At that height the bridge can never become an obstruction to navigation to the port of Beaumont, it was agreed. It will have 41 feet more clearance than the Brooklyn bridge.

When the agreement was reached W. E. Lea of Orange took his first rest from a job that has occupied all his time for a year. The project was fostered intermittently for more than five years. During the past year, Lea and his associates pushed it through a series of obstacles. They convinced the state highway department, the Army, the Navy, the PWA, and likely, by the time this is printed, will have convinced the legislature the bridge should be built.

High School Boy Has New Announcement

WAXAHACHIE, Texas.—A high school boy here has a graduation announcement idea that is a knock-out to his friends.

According to his plan his announcement will read something like this: "Well, I guess you'll be glad to know that I finally graduate. . . . No presents."

Explaining why he would put the "no presents" tag on the announcement, the boy said: "I don't like to receive duns and I don't like to send them."

\$2,000 WATCH FOUND

AKRON, O.—A \$2,000 diamond onyx wrist watch, lost three years ago by the daughter of Salmon F. Halle, Cleveland department store operator, was recovered and claimed here recently. Mrs. Halle's name, Carrie Moss Halle, engraved on the watch led to its discovery. A Cleveland jeweler had found it, according to police, sent it to an Akron jeweler to have the crystal replaced. B. F. Frankery, Cleveland detective, and Halle's secretary identified it.

Takes Millionth Chance; Lives

Given one chance in a million to live, after he was shot between the eyes with a .32 calibre bullet which lodged in his brain, Homer Tomblin, above, Logan, W. Va., miner, took that chance and won. He declared U. S. Senator H. D. Hatfield, noted surgeon, could save him and Hatfield did, removing the bullet. Tomblin is recovering rapidly.

More Safety For Children on Streets Is Being Stressed

NEW YORK.—Responding to the need for greater safety efforts necessitated by the increasing popularity of bicycle riding and roller skating, school and civic officials all over the country are uniting in bringing traffic rules and safety observances for these sports up to date.

Through the medium of a league for children between the ages of 6 and 16 years, it is hoped to set up a standard of safe practice for those who indulge in these sports. Merchants who sell roller skates and bicycles, including goods and hardware dealers, have taken the initiative in local campaigns to protect boy and girl pedestrians and skaters. It is expected that about 45,000 such stores in the United

States will become recruiting centers for members of the children's safety league.

Members of the league are required to pass simple safety tests for bicycling and roller skating and are awarded the three Cs emblem—the three Cs standing for—Caution-Courtesy-Cooperation. The organization is known as the Three-In-One Safety League. The safety test and application blanks are provided by the local merchant. There is no charge or fee of any kind for membership.

Increasing traffic presents a greater problem to the safety of these sports—especially bicycling, which has been revived to occupy the prominence it enjoyed some 30 years ago. It is felt that not enough training has been given children to cope with the increased hazards especially in metropolitan areas where play at best is difficult. The crusade for proper instruction involves appeals to parents and to schools where safety work is carried on to see that children are taught to ride bicycles as they would be to drive motor cars. It involves a general understanding of traffic rules and ultimately hopes to secure safer places for children to ride and to skate.

Children heretofore have not been supplied with proper information as to their rights when bicycling and roller skating and thus the safety league has issued a handbook which accompanies the emblem sent to the members setting down just what the rules on the subject are.

It is felt that if the children are equipped with proper information and have received emblems of their merit, they will be more inclined to observe the right thing to do.

For example, some of the rules for bicycling say:

Ride in a straight line. Never zigzag, weave in and out of moving traffic, or cut in front of another vehicle.

Do not ride too closely behind another vehicle.

Do not "hitch" on behind another vehicle, or pull children on roller skates or a wagon behind you.

Do not make U-turns in the middle of the block.

And for roller skating: Keep in mind the safety of pedestrians—people on foot. Never do anything that would put them in danger.

Keep out of the street unless traffic has been restricted. Your father or mother will tell you which street is safe.

Always watch out for persons on foot and do everything to keep from hitting them.

Do not coast down steep hills. Go around corners slowly. A fall

at high speed might throw you into the street.

The safety league has established permanent headquarters at 80 Varick street, New York City, and from there distributes information and sets up a bureau of standards for ruling on bicycle and roller skating sports.

HIGH SCHOOL TRAINS
AUSTIN, Nov. 5.—High school newspaper work is making its mark at training school for college journalism classes, according to D. C. Reddick, director of the

Interscholastic League Press Conference.

Bob McGlamery, formerly working on the Eastland High News, school section of an Eastland paper, was named by Reddick as one of the journalism students with previous experience.

These scientific attempts to revive the dead give us the willies. Imagine a dead man returning to see what kind of a sendoff his relatives gave him!

FOR A WONDERFUL VACATION STAY AT THE CRAZY WATER HOTEL
A Hotel With A Homelike Atmosphere

- *A friendly, restful influence that puts you immediately at your ease.
- Offers these distinctive features that make for the good, old SOLID COMFORT that's so necessary to complete rest and relaxation.
- *Light, airy outside rooms furnished and equipped with a thought for comfort first.
- *Invigorating, rebuilding mineral baths under courteous, trained masseurs.
- *Crazy Mineral Water at the noted Crazy Bar, or served to you in your room.
- *Food that dazzles even jaded appetites.
- *A spacious, but cheerful lobby and drinking pavilion.
- *Recreational activities, planned by the staff that is always ready to render "service with a smile."

The beautiful CRAZY WATER HOTEL, nestled in the foothills of the Palo Pinto Mountains is easily reached by paved highway or by rail. Write for full information about our treatment plan.
