EDITORIAL By EL MERLE

Someone has said that man cannot live to himself alone. How true this is! We often do not realize the extent to which we depend

upon our fellowmen.
In this age of specialization we have come to depend on others more, than ever. Each person Seniors desiring cards make yourspecializes in one particular occupation or study and depends on others to supply his other needs.

Man depends on his fellows for clothing, food, shelter, recreation, and last, but not least, love. Perhaps we do not realize the importance of the love expressed by an for his fellowmen, but it is what makes life worth living. It is as necessary to man as air; it land High School. Here's hoping is the thing that makes the "world go 'round"; without it man would be rather pitiful, struggling along trying to be sufficient unto him-

We have seen cases of people with a warped idea which caused em to believe that they could live alone, away from the rest of the world. Hermits, as we call them, but do they seem happy? No. deed! They seem so pitifully alone that it touches our hearts to e them.

Let's try to learn that the more we live for others, the fuller and finer our own lives will be. Just! so much as we give ourselves in trying to make others happy will we purselves. We cannot give of

Ours Is a Government of Five Branches!

The government of the United States, we were taught in schools, consists of three branches, the executive, legislative, and judicial.

Of recent years, a fourth appears to have been added unofficially: The investigative. Few can doubt the valuable services of this branch; to wit, in the matter of Tea- Knox. pot Dome, the banking investigation, and the munitions

Now we seem in a fair way to developing a fifth branch, the telegraphic. This is the long-distance lobby, or technique of delivering a shower of telegrams on the doorsteps of congressmen at the psychological moment.

Rejection by the senate of the World Court appears as the most vivid example of the power of this fifth branch at the moment. On Friday, it appeared likely that the World Court would pass. Over the week-end, several wielders of this fifth arm of government got busy. And in the cloudburst of telegrams that descended on the senate, the World Court was lost.

It is not precisely a new technique, yet there are signs that it is being developed to a new high point. Members of Congress not familiar with its manifestations must now give careful consideration to its meaning.

Naturally, a congressman ought to pay attention to his | briefs. mail, and especially to telegrams, from his constituents. That is one way for him to know how the folks at home are thinking.

But it is, after all, only one way. It ought to be evaluated, weighed, and not necessarily always accepted at face al, joint motion to dismiss; The portion of time it is used in makvalue.

For instance, large numbers of identical telegrams might be discounted, say, three for one. For a certain amount of suspicion always attaches to the intrinsic value as well as to the deep conviction behind the message that comes in another's words.

Old, experienced congressmen know this. Messages Jesse W. Rice, appellee's motion nished these rooms. NATURAL LAXATIVE FOOD WINS NATION

Kellogg's ALL-BRAN Helps Millions to Regular Habits

Kellogg's ALL-BRAN is one of the most popular laxative foods in the country today. Millions have found it thoroughly satisfactory for

orrecting constipation due to in-afficient "bulk" in meals. In addition to its popular approval, ALL-BRAN has been accepted by science. Research shows it offers mild "bulk" to aid elimination. Also vitamin B and iron.

The American Medical Association Committee on Foods has granted Kellogg's ALL-BRAN its Seal of Acceptance. This delicious cereal is also approved by Good Housekeeping Institute.

Within the body, ALL-BRAN forms a soft mass which gently clears out the intestinal wastes. More effec-tive than the "bulk" in fruits and vegetables, as it does not break down in the body.

Isn't this food better than patent edicines? Unlike cathartics, it remains effective with continued use, we to be lespoonfuls daily are usully received. Chronic cases, with ach real. If not relieved this way,
