MILLIONS OF POUNDS HAVE BEEN USED

BY OUR GOVERNMENT

There are many men and women in this town whom life apparently has treated unkindly. Without true friends they struggle against odds. Yet the church around the corner is full of men and women

anxious to help. Christianity Means Helpfulness

Meet these church people half way. Give them an opportunity to be your friends. "Come unto me and I will give you rest." Thus directed the founder of Christianity. His promise stands today. Test it. Crosses which arise in business, in school, in the home are more easily borne if one has accepted the assurance that Jesus Christ is ever ready to help.

> First Presbyterian Church L. B. GRAY, Pastor

CONTENTMENT

Peace of mind . . . how priceless it is! Born of confidence in having performed life's tasks willingly, with consideration for others, it finds its most permanent source in the ever-gratifying knowledge of having made the last rites perfect.

SHE FELT MARVEL-**OUS WHEN HABITS BECAME REGULAR**

Kellogg's ALL-BRAN Relieved Her Constipation*

Read this splendid letter: "I tried everything, with little or no results. I felt miserable, was 20 but looked much older, and my skin

was continually breaking out. "I decided to try ALL-BRAN, three meals a day for about a week. Elimination became regular; I felt marvelous and looked better. Even my outlook on life was changed."—

Mrs. Armand Hamel, Pawling, N.Y. *Constipation due to insufficient

Kellogg's ALL-BRAN provides "bulk" to aid elimination. It also furnishes vitamin B and iron.

The "bulk" in ALL-BRAN is genuals. More effective than "bulk" in leafy vegetables, as it does not break down within the body.

Isn't this natural food pleasanter than patent medicines? Just eat two tablespoonfuls daily. Chronic cases, with each meal. If not re-lieved, see your doctor.

Get the red-and-green package at your grocer's. Much more effective than part-bran products. Made by Kellogg

Texas Highways Builders Plan Mighty Program

"Highway building extraordinary" is the program out- from lack of national foresight. lined by the Texas commission. Harry Hines is the new chairman. Gobb Gilchrist continues highway engineer. A session was held Tuesday. The commission awarded contracts aggregating \$665,000, and made the interesting announcement that it would seek \$100,000,000 in federal funds for emergency construction. Mr. Hines and Engineer Gilchrist will journey to Washington where they will consult or confer with the powers that be. They are going to ask that Texas' portion of the federal government's \$4,-880,000,000 work relief program be increased from a tentative \$46,000,000 to \$100,000,000.

Chairman Hines insists that Texas needs a minimum of \$100,000,000.

There will be a Centennial celebration next year. Highways of Texas, the main arteries of travel and traffic, should appeal to a vast army of tourists who are coming to Texas. There is one point the state legislators of Texas should not overlook. They have been reminded time and again that the principle of non-diversion of special highway user taxes was given masterful recognition by the congress in 1934 in the Haydon-Cartwright act, whereby any state will be denied a third of its federal aid fund for highways if by diversion of user taxes it reduces its contribu- is tilled, it is green with growing crops, and the farmhouses tions to the federal aid system."

there is said to be only two blind lawmakers under the big for enjoyment of all the people-who, by this time, have dome of Texas when a legislator happens to be throwing plenty of leisure to enjoy such things. bills into the hopper and winking at the diversion to other scources or departments of the highway tax paid by the motorists of Texas and all other American commonwealths.

Another Body Blow Given NRA Recovery Act

There is an election coming next year. A third of the membership of the senate will face the voters of their respective states for re-election. The United States senate voted to extend the NRA until April 1, 1936, after eliminating its price fixing provisions and limiting its regulations to interstate commerce. President Roosevelt asked for an extension of its life for two years.

All this happened after the senate had backed up the New Deal power program against in adverse court decision, voting 56 to 19 to give the Tennessee Valley author ity specific power "to generate, transmit and sell electrical energy." Only a score of senators were in the chamber when the NRA extension measure was passed without a record vote. Senator Lafollette, progressive, of Wisconsin, warned that it "would kill the recovery law as dead as a doornail," but he said the house will grant the two by J. P. Sutton, manager industriyears extension recommended and then the conferees named by the house and the senate will complete the job-

Texans are reminded that the senate resolution would extend the recovery law "with price fixing eliminated except in mineral natural resource industries and with purely intra-state business exempt from the code structure." Texas is the greatest of oil and gas mineral natural resource industries. Eternal vigilance appears to be the price of liberty today as it was in colonial times, when freemen were preparing to battle for a republic of their own.

John N. Edy Given Important Federal Post

hn N. Edy is one of the famous city managers of America. A Missourian by birth and education. He held many posts in as many American cities. He was called to Dallas as city manager. He made a magnificent record. He some coming from as far as Minwas thrown out by the practical politicians. It appears to have been a promotion for him. Now President Roosevelt has appointed the Dallas castoff to be assistant director of the bureau of the budget. Flowers for the living. They will be sent to Washington. As for the wilted flowers handed to Edy by Dallas, "they are dust to dust," while Edy contniues to march onward and upward in his chosen

For the past few years a lot of people have rested and waited for developments. We have had them. Most of us are still wondering, "Where do we go from here?"

Men who will not boost the home town and help in its many lawyers and state officials, development, but are willing to ride along and profit by what their neighbors are doing, are burglars-just plain, ordinary burglars.

"In the devising of public gardens, the problems are varied and at times complex. To achieve the greatest effect, the combination of art and science is necessary," so says the Anglo-Brazilian of Sao Paulo, Brazil.

The Port-of-Spain, Trinidad, Guardian tells about one hundred thousand dollars worth of old stamps being burned by the government to make way for a new issue of pictorial stamps. What a heartache for the stamp collectors!

The automobile tourist trade is a big factor in the busi-

Hope Makes Brighter Future Than Despair

A prophet may be without honor in his own country, but he generally has a good deal of fun. When you set out to tell what things are going to be like two or three centuries hence, no one can possibly prove that you are wrong, and to talk without fear of contradiction is one of the greatest pleasures known to man.

Rexford G. Tugwell apparently enjoyed himself very much when he told an audience at Albany, N. Y., the other Friends and neighbors plodded would discuss the report. day that the entire middlewest will be a trackless, treeless, rain and wound up a hill to the waterless desert in 300 yars unless something is done to grey church today to pray for the waterless desert in 300 yars unless something is done to grey church today to pray for the have anything to say," Walsh de conserve water levels and check erosion.

Ht put his prophecy in the form of some travel notes by a British explorer in the year 2235, and it made pleas- ents. antly shivery reading. He had his explorer poking about church but the parents did not aton the site of St. Louis, finding the Mississippi nearly dry, themselves and the babies' nor did traversing a lifeless waste where the corn and wheat belt now lies, and meditating profoundly on the evils that arise had said they might.

However timely as a warning all this may be, it might its simplicity. be just as much fun to write a similar prophecy based on optimism rather than pessimism.

Let us suppose, for instance, that we heed all the warn- ers were busy with congratulatory ings we have been getting in recent years-warnings about soil conservation, industrial waste, social injustice, the need for rehousing, and so on; let us suppose that we manage to do all the things which it is evident today that we Man Is Killed By need to do, and put our national house property in order.

What would the traveler of 2235 A. D. find then? It makes an enchanting picture. We can see him visiting great cities that are free from slums, with every family occupying a clean, decent home and every child having access to grassy parks and groves for play; cities which manage to get along without unemployment or soup kitchens or poverty, governed as efficiently and sensibly as a school of technology, say, is governed today.

Beyond these iities our traveler would find the world's home. Officers said he had sent and villages are both levely to look at and comfortable to Funeral Is Held For A blind man should be able to decipher the words, and live in; where the land is not tiled it is park-like, reserved

> A prophecy built along these lines is quite a contrast with the one Mr. Tugwell put together; and the comforting part about it all is that it is quite as likely to come true home four miles southwest of Ran-

> And that, after all, is what makes the present, with all burial in the Colony cemetery. its problems, a good time to be alive. Our destiny is in our dent of Eastland county for a hands as never before.

> If we run the risk, through blindness and greed, of oil field worker for many years. making Mr. Tugwell's doleful forecast come true, we also ty, on April 25, 1868. He is surhave the chance—and, all in all, a better chance—of build-vived by his widow, Mrs. Minnie ing a future brighter than anything we dream of today.

HEADQUARTERS FOR DISTRICT

WASHINGTON, May 25. President Roosevelt today offered cities an outright gift of \$405,-000,000 as an incentive to join in

the work relief program. He ruled the \$900,000,000 public works money in the \$4,000,re-employment fund should be distributed to municipalities on a 45 per cent grant and 55 per cent loan basis. He set inter-

est rates at 3 per cent. PWA distributed its original \$3,300,000,000 by granting 30 per cent and loaning 70 per cent. The money drew 4 per cent.

Headquarters for Texas were announced, which included: District 7, with headquarters in Fort Worth and which will include

Palo Pinto county.
District 8, with headquarters at
Waco and which will include Johnson and Ellis counties.

District 13, with headquarters in Sweetwater, including Eastland and Stephens counties.

Merriman Church To Hold Conference

Announcement has been made that the Merriman Baptist church would meet in conference the first Sunday in June, beginning at 11 a. m., for the purpose of deciding upon a revival meeting.

At the same hour preaching services will be conducted.

All members of the church have been urged to be present, and visitors have been extended a most cordial invitation to be present.

Aged Peddler Dies At Ranger Hospital

After confinement in Ranger City-County hospital since May 17 when a portion of his right foot was reported severed by a freight train at Eastland, J. M. Nash, aged peddler, died Friday.

Nash was injured, according to reports, when he attempted to crawl under a tarrying freight train and the cars resumed motion. Survivors include his wife, a step-son, "Snooks," in a CCC camp, aand other relatives at E Paso and Cleburne.

PROTECT YOUR LIFE AND THE LIVES OF O'

THERE are three questions you should ask yourself about the tires you buy:

1-"Will the non-skid tread give me the greatest traction and protection against skidding?"

2-"Are they built to give me the greatest blowout protection?"

"Without sacrificing these two important safety features will they give me longer mileage, thus making them the most economical tires I can buy?"

Answer No. 1-Harvey S. Firestone early realized the value of tire traction and safety and was the first to design an All Rubber Non-Skid Tire. Through the years Firestone has led the way in the design and development of tires with most effective non-skid treads,

Firestone does not depend solely on traction and non-skid tests made by its own engineers-it employs a leading University to make impartial tests for non-skid efficiency of its tires, and their most recent report shows that Firestone High Speed Tires stop the car 15% quicker than the best of all popular makes of tires.

Answer No. 2-Blowout protection must be built into a tire. Friction and heat within the tire is the greatest cause of blowouts. Firestone protects its tires from friction and heat by a patented process which soaks every cord and insulates every strand with pure liquid

Gum-DippedHigh

5.50-17 10.70

6.00-16 11.95

We select from our en stocks of raw materials the best and highest grade rubber and rubber. This is an additional process known as Gum-Dipping, by which every 100 pounds of cotton cerds absorb eight pounds of rubber. This extra process costs more and is not used in any other make of tire.

Leading race drivers investigate the inbuilt qualities of the tires they use, because their very lives depend upon their tires, and they always select Firestone Tires for their daring speed runs. In fact, Firestone Tires have been on the winning cars in the gruelling Indianapolis 500-mile race for fifteen consecutive years, and they were on the 5,000-pound car that Ab Jenkins drove 3,900 miles in 231/2 hours on the hot salt beds at Lake Bonneville, Utah, at an average speed of 127.2 miles per hour, without tire trouble of any kind. These amazing performance records are proof of the greatest blowout protection ever known.

Answer No. 3-Thousands of car owners reporting mileage records of 40,000 to 75,000 miles, is proof of the long mileage and greater economy by equipping with Firestone High Speed Tires. Let these unequaled performance records be your buying guide.

Go to the Firestone Auto Supply and Service Store or Firestone Tire Dealer and let him equip your car with Firestone Tires, the safest and most economical tires built.

EVERYBODY'S thrilled-when the pleasing ribbon of light gray concrete swings into view.

The nervous tension, generated by ordinary roads, disappears. Conversation resuntes. Everybody feels better on the true and even surface of concrete.

The car leaps ahead faster...smoother...safer. Tires sing. The steering wheel feels firm, free from road shocks. Motoring zest is quickly regained.

Concrete roads are safer . . . you're less apt to skid. You'll stop more quickly, more surely. There's less chance of blow-outs. Light, clean-cut edges make visibility much better at night. Your car operates more economically.

Route your course over concrete. Stay on it. Insist on it.
