

# RANGER WEEKLY TIMES

We can't understand how a nation of Germans who have been living from hand to mouth can now be armed to the teeth.

Had who always had difficulty describing the shortest distance between two points grew up to be a taxi driver.

VOLUME II

RANGER, TEXAS, FRIDAY, JUNE 21, 1935

NUMBER 22

## INFORMATION ON NEW WORK PLANS GIVEN

First information reaching the county administrator on the new works program was given Monday by H. E. Driscoll at the Rotary club luncheon.

Likely scale for workers in this section was given by Administrator Driscoll as follows: \$24 per month for common labor; \$36 per month for semi-skilled labor; \$48 per month for skilled labor and \$53 per month for professional and technical workers.

Driscoll stated, according to information received, that payment to workers will be on a monthly salary basis with no deduction to the worker because of rainy weather or circumstances over which he has no control.

It has been indicated, Driscoll said, that 95 per cent of workers on the new project, made possible by the \$4,800,000,000 appropriation of congress, will be from the public relief rolls and who are registered with the National Re-employment service.

Wage scales, however, Driscoll said, would vary in sections and commensurate with local conditions.

Round table discussion of members of the county administrator disclosed relief rolls in the county are decreasing; the workers have completed over 150 work relief projects; 600 residents of the county can not work and are only eligible for direct relief.

Ben Hamner and J. B. Johnson were members of the program committee.

Due to absence of B. M. Collier and C. A. Hertz, who are attending the International Rotary meeting in Mexico, incoming president Ben Hamner presided as president and T. E. Richardson as secretary.

S. M. Gamble invited Rotarians and their ladies to attend the Lone Star picnic Saturday in Eastland.

M. A. Tracy of Dallas, guest of S. M. Gamble, was a visitor.

## Chum of Eastland Man, Ex-Governor Of State, Buried

A boyhood schoolmate and chum of C. F. Shepperd of Eastland who advanced to the governorship of Kentucky was buried Monday.

Shepperd, elevator operator at the courthouse, recalled Tuesday experiences shared with the boy, E. P. Morrow, and later as the governor.

Hometown of both was Somerset, Ky., their birthplace and scene of their early education.

Shepperd returned to Kentucky in 1923 and spent the last day of his visit with the governor at the Kentucky capital.

Morrow was governor from 1919 to 1923.

## Eastland Woman Elected Officer of Music Group

Second vice president of an organization of music teachers embracing a territory of 11 West Texas counties is Miss Wilda Drago of Eastland.

Perfection of the organization was made at Abilene and the following were also elected: Pat Malone, instructor of Abilene Christian college, president; Anna George of Albany, first vice president; Adolph Eberle of Sweetwater, third vice president; N. Froh, Stephenville, fourth vice president; Craig Lasley, secretary-treasurer.

Aim of the association is holding of annual May contests among pupils of the members, with noted judges to be brought to Abilene for the occasions.

Fisher, Stephens, Jones, Palo Pinto, Shackelford, Erath, Eastland, Comanche, Callahan, Taylor and Nolan counties are included in the district organization.

## First of Year's AAA Cash Is In

Guard of AAA's benefit payments for this year has been received by County Agent M. Metz Head in 375 cotton checks for signers in 1934 for 1935 contracts.

The checks represent payment of \$4,139.13.

The county agent Tuesday expected completion of distribution of checks by Thursday.

## Storm Damage North of Ranger Reported Large

BRECKENRIDGE, June 19.—Wind, variously estimated at from 40 to 50 miles per hour, took a heavy toll of rigs in this section Monday night, damaged homes in Breckenridge and surrounding communities and uprooted a number of trees, although it was thought to have damaged the small grain crop.

A check on the latter was being made by County Agent Luke Ballard and no authentic report of county-wide scope was available immediately.

In all about half a hundred rigs were blown down, Gulf and the Texas companies leading the list as reported, with seventeen and sixteen in the order mentioned.

The Phillips Company reported four down. Hanlon lost a few, and J. D. Sandifer one east of town, in reports received Tuesday morning, although it was known that others had suffered losses. Pitzer & West, local operators, reported they suffered no loss.

At Parks it was reported that the Ridley and Elmwood homes were unroofed and about five garages and two hen houses blown over. The Vick Grocery store suffered heavy damages and a few shingles were blown off the church.

The railway company reported a few telegraph poles blown down in the Frankel section, where there was a little hail mixed in with the rain. The far southwestern corner of the county received no wind, or rain, at all, it was said.

## Alton Announces Corn-Hog Contract Compliance Start

Compliance work of the corn-hog contract association began Thursday, E. F. Alton, county supervisor said. Completion of measuring of acreage on which corn is planted and other duties of the field supervisors will probably be made in five or six days, Alton stated.

Work this year is being done before approval of contracts, an innovation in regular procedure, Alton said.

Alton of Cisco, Rt. 2, heads the following field supervisors: Gordon district, O. F. Carr, Wayne White; Eastland-Ranger district, H. L. Fry, F. M. Spurlin; Cisco, L. R. O'Brien, Ned Morris; Rising Star, Levi McCollum, W. E. Cooper.

## Wind Storm Hits Desdemona Mon.

Freak storm hitting Eastland and Ranger Monday night was cause of considerable damage in Desdemona, it was reported Wednesday.

"The storm late Monday afternoon did quite a bit of damage here," said a Desdemona resident.

"Barns, small buildings, fences, and trees were blown down," the Desdemona resident said. "Roofs were torn from houses and windows from small residences."

"Most of the people rushed to their storm cellars for safety."

## Ranger, Eastland, Breck Teams Will Vie In Ball Games

Softball teams from Ranger, Eastland and Breckenridge will compete in the Lone Star tourney on their annual picnic Saturday, in Eastland, it was announced Wednesday.

First game will be played by Lone Star Gasoline plant teams from Breckenridge and Ranger at 2 o'clock on Connelley Park field. Eastland Merchants team will play the Community Natural Gas team of Ranger.

With lure of free tickets to a dance that evening for the winners, victors in the initial games will play for the championship.

## Fire On Freighter At Houston Put Out

HOUSTON, June 19.—Fire aboard the French freighter, Lois Lane, was brought under control at noon today. Most of its cargo of cotton will be salvaged, it was said.

Steam forced through closed hatches of the vessel smothered the flames. The fire did not reach the cargo of lumber, rice and oil.

## Products of Economy, Needlecraft Seen As Dresses Shown in Contest; Winners in Annual Event Are Named

Results of a small amount of money coupled with industry and needlecraft were seen by 200 women Wednesday at the Eastland Methodist church as 99 dresses were modeled by their makers in the annual 4-H and home demonstration clubs contest.

The event, annually sponsored by the county home demonstration agent office, attracted a field of entries larger than in many previous years. Last year there were 38 entries. Fourteen of the 15 home demonstration clubs and all five of the 4-H girl clubs were represented in the contest.

Material cost of the dresses range from 20 cents to \$2.50. Miss Ruth Ramey, county home demonstration agent, estimated the dresses were duplicated in stores at a cost of \$3 to \$6.

Entries in the contest were judged by Miss Mamie Pryor, Stephens county home demonstration agent. First place winners will receive a free trip to the annual week's short course at College Station. The group will leave July 28 by school bus. Others who desire to make the trip may arrange with Miss Ramey. All expenses will be covered for \$8.75. Miss Ramey stated.

Winners in the contest were as follows:

Class 1 demonstrators group—First, Mrs. R. W. Gordon, Ranger Co-Workers club; second, Mrs. O. O. Wolf, Peak club; third, Miss Willie Lee Swan, Word club; honorable mention, Mrs. W. Grieger, Flatwood, and Mrs. W. E. Morris, Reich.

Class 1 co-operators group—First, Mrs. Louis Pitcock, Ranger; second, Mrs. Calvin Swan, Bass Lake club; third, Mrs. W. T. Butler, Morton Valley; honorable mention, Mrs. Tom Thompson, Grandview, and Mrs. Charles Starr, Dan Horn club.

Class 2 demonstrators group—First, Mrs. Ruth Turner, Flatwood; second, Mrs. Elbert Ezzell, Reich; third, Mrs. Malva Turner, Peak club; honorable mention, Mrs. Earl Holmes, Ranger, and Mrs. J. B. File, Elm.

Class 2 co-operators—First, Mrs. E. E. Todd, Bass Lake; second, Mrs. Henry Capers, Bass Lake; third, Mrs. Mike Alsbrook, Bass Lake; honorable mention, Mrs. J. E. Holding, North Star, and Mrs. G. T. Williams, Ranger.

Four-H girls' group—First, Miss Johnny Foster, Flatwood; second, Katharine Webb, Romney; third, Dorothy Jean Brown, Olden; honorable mention, Miss Betty Joe Brown and Miss Aldie Spurlin, Olden.

## Coast Countians Inspect Eastland County Building

Three Chambers county commissioners and their judge inspected Eastland County's courthouse on Thursday morning.

In the group were Chambers county commissioners, E. L. Wilbourne, F. C. Matthews, W. L. Evans and Judge Coy C. Jackson, Jr., who are inspecting courthouses before building a courthouse to replace one recently destroyed by fire.

Suggestion that the coast county body inspect Baird courthouses, a less elaborate and expensive building than Eastland's edifice, was given by Criminal District Attorney Grady Owen before they continue westward.

## Young Democrats President Not to Resign, He Says

FORT WORTH, June 19.—President John McCarty of the Young Democratic clubs of Texas, today denied he was going to resign as head of the body and defended Elliott Roosevelt, who has been charged with seeking the presidency.

In a statement McCarty said he had no intention of resigning and he did not think Young Roosevelt wanted him to do so.

Phil Overton, leader of a group of Dallas malcontents of the organization, has charged a conspiracy is afoot to force the resignation of McCarty in favor of Roosevelt. Overton said today ouster of Roosevelt as vice president will be sought here July 16.

Elliott, when informed of Overton's latest move, said he "would be glad to resign the vice presidency."

## Sunday Shoot of Gun Club Proves Biggest To Date

Thirty-two participated in skeet shooting of the Oil Belt Gun Club at their range Sunday. Fourteen participated in the regulation trap shooting.

Interest manifested in the shoot was declared Monday as being at the peak since organization of the inter-county club.

Scores of the events were announced as follows:

Skeet: P. J. Knight 85-100; Ross Brewer, 70-100; W. Fairless, 70-75; D. Fox, 62-75; G. W. Ewing, 61-75; J. G. Staples, 59-75; Mrs. Jas. Horton, 58-75; E. Spencer, 47-50; Jas. Horton, 46-50; J. O. Matheny, 42-50; T. A. Davis, 40-50; F. W. Brazelton, 38-50; W. A. Wiegand, 36-50; Jno. W. Turner, 36-50; Jas. H. Cheatham, Jr., 34-50; N. A. Moore, 31-50; P. B. Glenn, 31-50; A. H. Rhodes, 27-50; J. L. Barnett, 29-25; P. D. Luce, 19-25; Horace Oldham, 19-25; Slim Koker, 19-25; Lance Brown, 18-25; Joe Tompkins, 18-25; Dr. Poe Lovett, 17-25; W. J. Peters, 17-25; Sammy Whitley, 16-25; Frank Dwyer, 15-25; Herby Thompson, 15-25; R. W. Fullington, 14-25; Jim Connelley, 11-25; R. G. Kemp, 9-25.

Regulation Trap: P. J. Knight, 40-50; A. H. Rhodes, 36-50; Mrs. Jno. W. Turner, 23-50; T. A. Davis, 22-25; W. E. Fairless, 22-25; J. L. Barnett, 23-25; E. Spencer, 20-25; G. W. Ewing, 19-25; D. Fox, 19-25; Joe Tompkins, 19-25; Ross Brewer, 17-25; Slim Koker, 17-25; C. A. Vaustrain, 14-25; Alex Kime, 11-25.

## County Board to Complete Cotton Contracts at A&M

With correction of discrepancies and completion of cotton contracts their objective, members of the county board and County Agent C. Metz Head met with the state board at A. and M. in College Station Thursday and Friday.

The group will carry along with them new contracts which represent 80 per cent of total signed.

Members of the county board are Felix Boland, Seranton; Joe McNewley, Kokomo, and Ira Swift, Rising Star. J. B. Hart of west of Eastland, office secretary, will accompany the county agent and board.

## BUTTON SEWING WINS DIVORCE

CINCINNATI, O.—John W. Kunker, a Cincinnati electrician, was granted a divorce here recently when he testified he had to sew buttons on his own clothes and prepare the meals for himself and his two children.

## Permanent School Fund to Benefit From Bond Sales

The county treasurer has received authorization from commissioners to accept payment on 15 common school district bonds of \$125 each, which were due June 1, a court order on file Wednesday in County Clerk T. M. Collier's office showed.

Receipts of the sale will be placed to credit of the Eastland county permanent school funds, according to the commissioner's order.

## Plaintiff Awarded Judgment in Case

Judgment of \$815 for Mrs. Parlice Jordan from estate of the late H. P. Brelsford, H. P. Brelsford, Jr., as executor, and H. P. Brelsford, Jr., individually, was ordered by 91st district court Tuesday.

A diamond pin on which the plaintiff held a lien was ordered sold at public vendue with receipts to be applied to the judgment. H. P. Brelsford, Jr., surety on the note, was ordered to pay the judgment individually to be reimbursed from the late H. P. Brelsford's estate.

## Final Rites Are Held For Abilene Drowning Victim

CISCO, June 19.—Funeral services for one of two Abilene drowning victims Monday, J. D. Barton, 25, were held here this morning. Rites were held from the Methodist church.

The two men, Barton and W. E. Downing, 45, of Abilene, were drowned while fishing in Lake Kirby south of Abilene at 5 p. m. Monday. The bodies were recovered early Tuesday morning by members of a rescue party that dragged the waters for more than 10 hours.

The Bartons had moved to Hawley from Cisco a month ago. Mr. and Mrs. Barton celebrated their fifth wedding anniversary last Wednesday. He had been an employee of the Humble Pipe Line Department for five years. He was married to Miss Dorothy Sherrill, June 5, 1930, at Rising Star.

Survivors include his parents, Mr. and Mrs. Lee Barton, Cisco, and his widow.

## Bond Filed For Man Indicted Recently

Bail bond of \$1,000 for W. C. Stringer, charged with indictment for swindling, according to Criminal District Attorney Grady Owen, was filed Saturday in district clerk's office.

Sureties were J. L. Barnett, G. W. Pilgrim, M. F. Raney and A. B. Wilson, principal.

## ACCIDENT TOLL MOUNTS

WACO, June 17.—The death of J. E. Tyson, 60, Dallas, today brought to five the number injured fatally in an automobile collision here yesterday.

NO CONSOLIDATION

Since Aker school trustees have decided to send their students to Colony next year by contract, no effort will be made by the latter school to consolidate with Oakley in Stephens county, it was announced Monday.

## EASTLAND TO BE SCENE OF ANNUAL FETE

In celebration of the silver anniversary of the Lone Star Gas company, more than 1,000 employees and their friends will gather in Eastland next Saturday for the sixth annual employe picnic. The picnic will be held in Eastland city park following an address of welcome by Mayor C. W. Hoffmann.

Following an afternoon of sports and entertainment the event will be concluded with a dance on the roof of the Connelley hotel for employes and their friends. H. H. Price and his eight-piece orchestra from Graham will be engaged by the dance committee.

Sports will include, baseball, roquet, tennis, golf tournament, bridge tournament for the ladies, and a horred frog race for children under 12. Employe baseball teams from Eastland, Breckenridge and Ranger will compete in the softball tournament.

Employees from all sections of the Lone Star Gas system, including personnel from Community Natural Gas company in the West Texas area and Dallas will be present.

The picnic committee, Hal Hunter, Sam Gamble and Frank V. Williams, are expecting L. B. Denning, president of the Lone Star Gas company, and Chester L. May, vice president and general manager of the Community Natural Gas company, among other officials to attend the picnic.

Mr. Williams, Eastland manager for Community Natural, will preside as chairman during the speaking which will open the picnic.

The Lone Star Gas company was organized by L. B. Denning a quarter of a century ago, and pioneered natural gas service in Texas with a 100-mile pipe line from Petrolia to Dallas and Fort Worth. Starting with 15,000 families on its lines, it now serves more than a quarter of a million families in Texas and southern Oklahoma with a 4,000-mile integrated pipe line system.

A leader in development of oil and gas in the Eastland-Ranger area, the Lone Star Gas company has contributed more than \$18,000,000 to the economic progress of this section in the form of salaries, taxes, supply purchases, gas purchases, and drilling contracts during the years it has been operating.

## Aker Students to Attend School at Colony For Year

Decision of Aker school trustees and sanction of the county school board to send students of that institution to Colony school by contract for one year was announced Saturday from County Superintendent C. S. Eldridge's office.

Enrollment of Aker school is approximately 40. Mrs. W. H. Mullins, assistant county superintendent, stated.

## Collie is to Meet With Probers of Cotton on July 1

The senate-house cotton investigating committee, of which Senator Wilbourne B. Collie of Eastland is a member, will meet July 1 in Dallas, it was announced Wednesday.

Recognizing that cotton is one of the world's greatest crops, and Texas the greatest cotton producing state, the committee hopes to formulate a comprehensive program.

Invitation to attend the meet has been extended to all in this section who are interested in the growing, producing, ginning, compressing, transporting, shipping, marketing, buying, selling processing, manufacturing, spinning, warehousing or exporting division of the crop.

## Fire Does Damage To Ranger Home

Fire which broke out in a house at Young and Tharpe streets, Ranger, about 2 o'clock Monday morning, did considerable damage to the interior of the house, though the fire department managed to confine the flames to the inside of the house.

The house was owned and occupied by Mrs. Grant, who has been away on a visit since last Tuesday.

No estimates of the amount of loss was made.

## Texas Deficit Has Grown to \$6,500,000

AUSTIN, June 15.—Deficits in the general revenue fund of Texas was \$6,500,000, nearly a million and a half more than on May 31, State Treasurer Charles Lockhart said today.

All over Southeast Texas, relief workers have fought the mosquito. They have dug 525 miles of drainage ditches and drained thousands of acres of land, much of it swamp.

In addition to the land reclaimed, the work has done much to combat malaria, dengue and other diseases spread by the mosquito by eliminating many of the insect's breeding places.

In drought-stricken West Texas, many water supply wells were dug and many others cleaned and made safe for the people dependent upon them. In hundreds of instances, drinking facilities were installed at schools so that the health of children might be safeguarded.

## Desdemona Girl Is Honor Student

STEPHENVILLE, June 17.—Nell Robert, daughter of Mr. and Mrs. A. C. Robert of Desdemona, was named an honor student of John Tarleton College in a report from the registrar's office. Miss Robert was included on the Tarleton honor roll for the second semester of the 1934-35 session by reason of making at least 30 grade points on her semester's work.

## Airline Establishment With Stop At Eastland Virtually Certain, Says Pilot and Eastland C. of C.

Virtual assurance of establishment of a daily commercial air line between Midland and Marshall with stops at Eastland was given Saturday by John Grimmert, well known pilot who has done survey flying in West Texas for oil companies.

"One hundred per cent" backing is being given by the Eastland Chamber of Commerce in establishment of the line, Hamilton McRae, president, and H. C. Davis, secretary, promised Grimmert, who was in Eastland Saturday.

The proposed new service will be known as the Southwest Airline, will fly tri-motored, 10-passenger, two-pilot Stinson planes on daily schedule east to Marshall and west to Midland.

Organized primarily for passenger service between Texas oil centers, the new line, after six months of operation will be eligible to carry air mail, giving Eastland connecting air mail service with eastern points.

Inauguration of the service is expected by July 15.

Many Eastland men have become stockholders in the line.

## Forms Air Line

JOHN GRIMMERT

Decision of Aker school trustees and sanction of the county school board to send students of that institution to Colony school by contract for one year was announced Saturday from County Superintendent C. S. Eldridge's office.

Enrollment of Aker school is approximately 40. Mrs. W. H. Mullins, assistant county superintendent, stated.

## Rites Are Held For H. R. Pafford At Carbon Wednesday

With Rev. Bradford of Abilene and Rev. King of Eastland officiating, funeral services were held from the Carbon Baptist church Wednesday afternoon for H. R. Pafford. Interment was in the Carbon cemetery.

Mr. Pafford died at his home in Eastland Tuesday at 1 p. m.

Mr. Pafford was born in Tennessee in 1884 and spent early years in Arkansas. He moved to Eastland county 30 years ago and spent most of this time farming in the southern part of the county, near Carbon and Okra. Six years ago he was appointed manager of the county farm by the commissioner's court. Failing health forced him to retire. He moved to Eastland recently where he lived at the time of his death.

He is survived by his wife, two daughters, Ethel and Harold, Eastland; one son, Leon Pafford, of Gladewater. A grandchild, Rodrick Pafford; one brother, Will Pafford, Paris; one sister, Mrs. Sally Ryan, Gordon, Ark., also survive. Mrs. Mary Nelson, a niece, of Gordon, Ark., was present for the funeral.

"Homer," as he was known, never complained, friends report. He always "felt better" when asked regarding his health and was optimistic to the last.

Active pallbearers were brother-in-laws of Mr. Pafford.

## Health Projects For the Past Year Add to Property

AUSTIN.—Health and sanitation projects completed by the Texas Relief commission during the past year with the use of work relief labor have added hundreds of thousands of dollars of value to public property, provided work relief for thousands of the state's unemployed, and have been of unmeasurable benefit to Texas in the prevention of disease by the removal of cause, it was declared by State Relief Director Adam R. Johnson this week.

Using labor from the relief rolls, Relief commission engineers supervised construction of 32,640 pit type privies in rural Texas. From a health standpoint, the tremendous need for this type of work is illustrated by a survey in an East Texas county before the work was undertaken. Results of the study indicated rural school children had an average hook worm infection of more than 50 per cent. Dysentery and similar diseases were widespread and typhoid not unusual. Inspection of sanitation revealed a majority of homes equipped only with surface toilets and these often were located near the source of water supply. About 400 homes had no sanitation conveniences at all.

Just as important, the state director believes, is the work done in cities, where relief labor has built 254,200 feet of sewer lines, 17,900 feet of water mains, constructed eight sewage disposal plants and installed 1,025 septic tanks. In addition, repairs and improvements were made on 1,580 water wells, 106,170 feet of sewer lines, 11,220 feet of water lines, and 34 sewage disposal plants.

The city of Fairview now has in operation a new disposal plant built entirely with relief labor. The city cooperated with the relief commission by furnishing materials, foreman, and transportation for the men. The completed monolithic concrete structure is 38 feet in diameter at the top, 31 feet deep and has outside walls 12 inches thick.

Approximately 25 miles of sewer line are being laid in South San Antonio by relief labor on a project which will cost about \$185,000. When completed, the job will serve about 4,500 inhabitants who now are using septic tanks and open toilets.

All over Southeast Texas, relief workers have fought the mosquito. They have dug 525 miles of drainage ditches and drained thousands of acres of land, much of it swamp.

In addition to the land reclaimed, the work has done much to combat malaria, dengue and other diseases spread by the mosquito by eliminating many of the insect's breeding places.

In drought-stricken West Texas, many water supply wells were dug and many others cleaned and made safe for the people dependent upon them. In hundreds of instances, drinking facilities were installed at schools so that the health of children might be safeguarded.

## County Girl Wins 4-H Club Honors

One of 100 4-H girls in Texas selected from 12,000 as a gold star girl is Miss Virginia Gibson of the Eastland Lake group, Miss Ruth Ramey, county home demonstration agent, said Thursday when announcing she would receive award in July.

Reason of selection of Miss Gibson, was because of her record book and year's history, Miss Ramey stated.

Prize accompanying the designation is a paid trip to a short course at A. & M. in College Station in July with presentation of a medal.

## Three Towns to Be Represented In Wicket Games

Teams from Ranger, Eastland and Cisco will play in the Lone Star roquet tournament to be held in Eastland Saturday, players announced Thursday.

Games will be played on the Eastland club's ground at the City Park starting at 8 a. m.

Three teams are expected from Ranger and two from Cisco.

Eastland players to participate in the tournament will be E. C. Greer, C. C. Street, John Barton, John Roper, John Harrison, Arthur Williamson, Carrol Nobles, J. Jones and "Curley" Maynard.

## PLAN REUNION

County Judge Clyde L. Galloway, president of Rankins College, of Gorman ex-student body, held Monday plans were considered Sunday for the annual reunion this summer, with preliminary arrangements to be made later.

## GOVERNORS OF SEVEN STATES OPPOSE NRA

BLOXI, Miss., June 15.—Seven governors are opposed to amending the constitution to permit resumption of the NRA a poll of delegates to the 27th annual governor's conference showed today.

One governor favors such an amendment. Five others said that while they believed the several states can carry out any desirable provisions of NRA and no national act is needed, they see no reason why the constitution should not be amended.

Most of the seven who opposed liberalization of the constitution to remove provisions that formed the basis of the supreme court decision invalidating the NRA are emphatic in their opposition to amending the constitution but also to continuation of the NRA.

The governors who opposed the continuation of NRA are from Arkansas, South Carolina, Georgia, Maryland, Illinois, Louisiana and Michigan.

## Rites Are Held For H. R. Pafford At Carbon Wednesday

With Rev. Bradford of Abilene and Rev. King of Eastland officiating, funeral services were held from the Carbon Baptist church Wednesday afternoon for H. R. Pafford. Interment was in the Carbon cemetery.

Mr. Pafford died at his home in Eastland Tuesday at 1 p. m.

Mr. Pafford was born in Tennessee in 1884 and spent early years in Arkansas. County Judge Clyde L. Galloway, president of Rankins College, of Gorman ex-student body, held Monday plans were considered Sunday for the annual reunion this summer, with preliminary arrangements to be made later.

# ON TEXAS FARMS

"My mother and I sold eggs to pay for my bedroom improvements which cost \$7.30," reports a young bedroom demonstrator from Rusk county.

Examination of the improvement achieved with that expenditure indicates that this young person has learned early that ability, initiative and industry are effective supplements to cash.

The list includes a new mattress, home-made from home-grown cotton; mattress and spring covers made from washed and bleached sugar and fertilizer sacks; book shelves made from scrap lumber; the floor refinished with "crank case oil" and waxed; new shades; new curtains; and old furniture refinished.

Six hundred and eighty-two 4-H club girls in 80 counties are entered in an improved bedroom contest, and 11,365 4-H club girls are cooperating with them and improving their bedrooms in definite agreed-upon ways. In this work they learn not only to make the most of what they have, but the principles involved in making a comfortable and healthful bedroom. From a young bedroom demonstrator in Johnson county we get this—"It is important to have

circulation of air in the bedroom," and to accomplish this she has put stops on the top sashes of the windows so that they may be lowered from the top as well as from the bottom.

Clothes closets also have the approval of these 4-H club girls. From Collingsworth county this comes—"Daddy says I am as proud of my closet as he was of his first pair of long trousers" and that story describes how "Daddy" made the closet for his young daughter out of shiplap covered with paste board boxes and papered with cream colored building paper. The top part was separated off as a storage place for quilts. Shelves for linens and hats, a soiled clothes bin and a rod for clothes hangers completed the job.

CROCKETT—"Our cotton is under water, but I have enough green vegetables canned to last us a year," Mrs. Everett Morgan, a 4-H pantry demonstrator for the Antonio home demonstration club told the Houston county home demonstration agent, Orne McClellan.

Mrs. Morgan has in her pantry 60 cans of English peas, 60 cans of greens, 50 jars of jam and 20 glasses of jelly which she has canned this year. She is canning green beans and corn this week.

A wash able with the usual equipment finished the bathroom.

RICHMOND—Although she did not gather much out of her fall garden, Adele Wehring, member of the Cottonwood girl's home demonstration club of Fort Bend county, was not discouraged.

She went ahead and planted a spring garden from which she reports that she has gathered 158 pounds of fresh vegetables so far. Adele had a surplus of beets so she canned 13 quarts while they were small and three pints of early beans. The value of her garden work to date is \$7.50.

BRONSON—R. C. Anderson, a 4-H club boy from Sabine county, took six acres of cotton, five acres of corn, two acres of peas, and one-half acre of tomatoes for his club demonstrations.

By June 4, he had sold \$134.40 worth of tomatoes from the one-half acre. He broke his tomato ground early in the fall, leaving the land in a good state of cultivation. The tomato plants were kept in a hotbed during the cold weather, later transferred to the cold-frame. R. C. set his plants out in the field early, fertilized and cultivated them carefully, result, success. His other crops are all in good condition.

PORT LAVACA—Perry L. Haskin, Jr., 4-H club boy from Calhoun county, reports that he has produced 5,000 pounds of Irish potatoes on one-half acre of land. His net profit is \$85.65 and he has a second crop of grain sorghums growing for his heifer calf. Perry says that he will plant one acre next year.

CORSICANA—W. C. Pierce, a feed crop demonstrator of Navarro county, reports that stock beets have been a life-saver to his stock of hogs during the winter of 1934-35.

As a result of drouth, his corn and other feed crops were almost an entire failure and had it not been for a crop of stock beets they were planted early in the spring of 1934 and harvested in November, he would have had to go out of the hog business.

Mr. Pierce produces enough hogs each year to supply meat and lard for himself and three families who reside on his two farms. He advised that since the first of March his breed sows and pigs have been kept on pasture and stock beets supplemented with a little cotton seed meal and bran feed in slop once daily.

### Pentecostal Meet Starts In Ranger

The Pentecostal church of Bullock, George R. Farrow, pastor, has opened an open-air revival campaign on the old Oil Belt lake, Caddo highway and Austin street, Ranger. Services will be held nightly, except Monday night, at 8 o'clock, for an indefinite period. The preaching will be done by Rev. Farrow and other ministers.

### Yawl Through With Ocean Voyaging

"Never again!" Twenty days on the rolling Atlantic in a 15-foot yawl crewed Eric Johnson (right) and Carl Holms of maritime bravado for all times, they insisted on docking at New York, enroute from Bermuda to Toronto. They were blown into the ocean, the yawl was capsized and they outdred a two-day storm during the perilous crossing.

Good singing, both congregational and special, will feature each service.

Some of the special sermon topics will be "The World's Greatest Need; An Old-Time Revival," "Last-Day Perils, and Their True Cause," "Prophecy Being Fulfilled Among the Jews and in Palestine," "Signs of the Close of the Gentile Times," "The Battle of Armageddon," "The Baptism of the Holy Spirit as at Pentecost."

Mr. Farrow is an able speaker, having had many years of successful ministry throughout the United States and in Canada. The general public, Christians, and ministers of all churches are cordially invited to attend.

### Same Mat Program Carried Over For Next Monday Night

Due to the storm last Monday night the Elks wrestling card was postponed until next Monday night, June 24.

The same program will be on. Doug Henderson of Dallas will take on the wily Mexican, Babe Rodriguez of Mexico. Both of these boys are aggressive and scientific wrestlers and should prove to be a fast match.

The final bout will be between two junior heavyweights, Tiger Billy McEuin of Pasadena, Calif., and Charlie Lay of Ranger. There is quite a bit of rivalry and some ill feeling between these two boys. McEuin was here last Monday night raring to go, but due to the storm there was no show. However, Billy did say that he would be back next Monday night and dump the pride of Ranger. It will be up to Lay to defend himself. All outstanding ringside reservations for last Monday night will be honored next Monday night.

### Goodrich Company Over 65 Years Old

More than 65 years of rubber product manufacture during which it expanded from a small enterprise to one of America's outstanding corporations is the history of the B. F. Goodrich company, according to Al Tune, who recently was appointed a tire dealer to represent Goodrich in Ranger.

"The Goodrich company was founded in Akron, O., its present location by Dr. B. F. Goodrich, a Civil War surgeon," Mr. Tune says. "From a modest beginning during which production consisted of wringer rolls, belting, carriage tires and fire hose, the Goodrich company has grown until today the list embraces more than 32,000 rubber articles.

"Goodrich was the first rubber company west of the Allegheny Mountains and was America's first tire manufacturing concern. As a pioneer in the industry, Goodrich constantly developed new products, new methods of manufacture and new compounds, many of which have been adopted by the entire rubber industry.

"Dr. Goodrich, when he founded the company, told his employees that 'Goodrich must build good destined for service,' a policy that has remained the guiding spirit through more than three-score years," Mr. Tune says.

The continued development of new products indicates that Goodrich remains a pioneer. The company maintains a large research staff and employs a testing fleet to prove by actual service each new development.

Texas Service Station, located at the Derrick, with the complete Goodrich line of Silvertown and Cavalier tires, tubes and accessories.

visiting her parents, Mr. and Mrs. Tom Rainey, this week.

### Treating Units For Oil Is Planned

PORT ARTHUR, Texas.—Construction of treating units for lubrication oils, to cost several hundred thousand dollars when completed, is under way at the Gulf Refining company plant.

Projects under way include: A methyl ethyl ketone-benzol solvent dewaxing plant; a multi-solvent extraction plant, and additions and improvements on treating units. The work is expected to be completed by next fall, according to C. R. Stevenson, manager.

### "Sinclairizing" Is Urged By Agents

Harold Wright, agent for Sinclair gasoline, motor oils and other products for Eastland county, has announced the opening of a new service station on the corner of Houston street and Highway 80.

The station is putting on a special campaign for "Sinclairizing" automobiles for summer driving, and the station is equipped for this service.

Before becoming agent for the Sinclair products here Wright was district sales manager for the company, covering nine agencies in a territory including Breckenridge, Cisco, Brownwood, Ranger and other towns in this section of the country.

### SALEM

Mrs. Hobson visited Mrs. Highsmith Sunday and Sunday night.

### A Lucky Jockey Turns \$50 Into A Racing Stable

OMAHA, Neb.—Joe Dine would fit into a Horatio Alger role.

Thirteen years ago, Dine came to Omaha from Lincoln, Neb., with a desire to become a jockey and with his eye on the Ak-Sar-Ben track here.

He returned this year wearing diamonds. Joe confessed he has had some rough times since 1922.

Landing in Chicago May 17 last year, Dine told newsmen, he had \$50 and a promise from Texas friends they'd do right by him.

Dine collected on 20 straight winners, parleying most of his bets and claiming horses until at the end of the meeting in September he'd won \$100,000 in purses and wagers. He had a string of 18 claiming horses, selling all but three.

### PEARL WITHOUT PRICE!

A great gem cannot be measured by price alone. Not everyone can even appreciate its excellence. In superior funeral direction, too, there must be those priceless elements of sympathy, understanding, consideration and expert knowledge. Here one is assured the ultimate in service and at charges within the reach of all.

## PICTURES OF SILVER

BEULAH K. HICKS

**CHRISTIAN MISSIONS**  
Acts 1:6-8, 13:1-12

Golden Text: Go ye into all the world, and preach the gospel to every creature.—Mark 16:15.

The Mount of Olives near Bethany, in the time May 18, A. D. 30, was the scene where Jesus spoke his last words before his ascension. Jesus and the wondering disciples stood waiting. The disciples had so long looked and waited for a material kingdom of pomp and glory, remembering past glories of Solomon's reign.

They did not understand. The dark hours that Jesus lay dead were forgotten in the glad hours of his resurrection and they thought surely now his kingdom will be established, hence the question, "Lord, dost thou at this time restore the Kingdom to Israel?"

How great was the patience and understanding of Jesus as he answered them, knowing that they would not fully understand until he was gone and the Holy Spirit dwelled in their hearts teaching and bringing all things to their remembrance with power. They must

learn the lesson of patience, waiting God's time for the development of kingdom work.

The next scene, Acts 13, which was written by Luke, who was Paul's physician, is laid in the church at Antioch. There were gathered prophets and teachers, studying, praying and fasting. The word prophet meant fore-teller. They had a special insight to the future while teachers were less exalted but were the explainers of the truth.

As they went about ministering to the Lord through the services of the church, the Holy Spirit spoke asking that Barnabas and Paul be separated for special work.

There was a spirit of prayer and waiting for the Spirit to lead prevailing in the church so that when the spirit spoke, no questions were asked but plans made to follow at once.

"And when they had fasted and prayed, and laid their hands on them, they sent them away." So Paul's first missionary journey was begun. Paul probably thought back over his life before

he met Christ in the vision that was so real to him and opened his mind and heart until he felt the great obligation to serve Christ unceasingly. He could never pay his debt to Him in a lifetime of service. He wanted to fulfill the last words of Jesus to go "unto to uttermost part of the earth" to all people.

He declared, "I am debtor both to Greeks and to barbarians, both to the wise and the foolish." Church history teaches us that only the churches who grasp the vision of Jesus as he stood on the Mount of Olives, looking down the corridors of time, and said that all people in all places of the earth should be taught of him and his teachings go forward in service.

How the world needs today to again turn and vision, the cross, the resurrection and ascension and apply its cleansing power to heart and mind. There is no other way to open the purses of men so that missionaries may be returned to the foreign fields with new help, hope and power.

How many in this sin-sick world today seek power! All power in heaven and earth is locked up in Christ. He is waiting to give each a glorious task with mighty power that will build mansions in eternity.

"Ye shall be my witnesses." Is our religion worth giving to anyone else? Will it benefit the heathen? How can it be made worthy?

A life yielded to the teaching of Christ through the study of his word will bring visions of beauty that lead to the green pastures of fruitful service in kingdom work.

God be merciful unto us, and bless us; and cause his face to shine upon us; Selah.

That thy way may be known upon earth, thy saving health among all nations.—Psalm 67:1-2.

## You'll Take Cheese; Law Says So

"Cheese, sir? Not any? Well, you still get it. This is Wisconsin." So Miss Lexy Nikias, Madison waitress, carves a slice, as a recently enacted state law requires two-thirds ounce of Wisconsin cheese and a like portion of Wisconsin butter be served with every meal at 25 cents or more. The dairy industry is satisfied, the customers, too, and restaurant men—well, they serve them.

Miss Lorena Prestidge were guests of Mrs. Leo Huddleston Friday evening.

Mrs. Charlie Goodwin and son, David, visited her parents, Mr. and Mrs. Charlie Everton of Kokomo, Sunday.

Several from here attended the all day singing at Leon Sunday. Brother Hughes of Desdemona will fill his regular appointment here Sunday. Everyone is invited to come.

## DESDEMONA

Mmes. W. E. Barron, S. E. Snodgrass, C. W. Maltby and Miss Ruth Greshaw (as substitute for Mrs. J. E. Heeter, who was at Odessa) were hostesses on Tuesday of last week at a very delightful meeting of the "21" Study club at the club house, which was beautifully decorated with mesquite and wild flowers and vases of roses and sweet peas. Fruit punch and cookies were served to the members and guests from a very attractive table presided over by Mrs. Barron. The meeting was presided over by the president, Mrs. A. B. Henslee, and the program which was "Parliamentary Day," was led by Mrs. C. W. Maltby who presented a clever playlet. Miss Nell Robert played several popular piano numbers and Miss Adell Maltby gave a musical reading and piano solos were played by Billy Joe Maltby and Kathleen Henslee. Mrs. Mattie Henry conducted several contests. The special numbers were much enjoyed.

Mr. and Mrs. Robert Dawley and little daughter of Caddo, were guests of her parents, Mr. and Mrs. A. B. Henslee, Sunday.

Mr. and Mrs. Claud Lee accompanied by their niece, Miss Ollie Mae Coles of Burkburnett, who is visiting them, drove to Ranger Sunday.

Mr. and Mrs. Obed Henslee and little daughter, Barbara, came in Sunday afternoon from Freer, and are visiting her parents, Mr. and Mrs. A. B. Henslee, and her parents, Mr. and Mrs. W. B. Hilliard.

G. S. Bruce drove to Ranger Sunday morning to meet his daughter, Miss Virginia, who had been visiting her sister, Mrs. Bill McKain at Gladewater, the past two weeks.

Frank Daniels and wife of De Leon visited her brother, S. T. Stover and family Sunday.

Arthur Weir and family of Kilgore came in Sunday for a few days visit with her sister, Mrs. Bill Parks and family. They are always welcome guests in their former home town.

Mr. and Mrs. Aldridge Wilcoxson of Austin came in Saturday from Breckenridge where they had visited her parents, Mr. and Mrs. T. J. Northcutt and are now visiting his parents who live a few miles east of town and also his brother, Maborn Wilcoxson and family, who live here. Mr. and Mrs. Wilcoxson were reared here and attended our high school.

Billy May, son of Mr. and Mrs. Edward May of Shamrock, is spending a few weeks here with his grandparents, Mr. and Mrs. W. B. May.

A. C. Robert Jr., and Weldon Rushing were in De Leon Saturday.

Mr. and Mrs. Frank Gee and two children left Thursday for their home at Van after several days visit here with her parents, Mr. and Mrs. E. J. Morrow, and with many friends.

A wedding that was a surprise was that of Miss Neta Joy Wilcoxson and Earl Stewart, which occurred Sunday. The bride is the attractive daughter of Mr. and Mrs. Maborn Wilcoxson, who was valedictorian of the senior class of 1935 of Desdemona High school, and is quite a favorite among our young people. The groom is employed in the south Texas oil fields. He was reared on a farm near here. Their many friends are extending congratulations and good wishes.

Ed. E. Thompson who now lives at Austin, is spending a few days here visiting relatives and his

many friends who hope he may decide to come back to live in the near future.

Mr. and Mrs. R. D. Wright and Miss Romalee Wright, who are attending the North Texas State Teachers College at Denton, came home to spend the week-end with their parents, Dr. and Mrs. J. M. Wright and Mrs. J. R. Buchan. They were accompanied by Chester and Azle Browning, nephews of Mrs. Buchan.

Mrs. Roy Rushing and her sister Mrs. Worth Smith of Eliaeville, drove out to Sweetwater Thursday to take their mother, Mrs. John Williams, who went from there by train to Western New Mexico, where she will stay during the summer with her son, Brad Williams.

Little Frankie Jean Lee is the guest of her grand-parents, Mr. and Mrs. J. J. Simmons at Olney this week.

Mr. and Mrs. D. E. Lewis and little daughter left Saturday for a vacation trip to South Arkansas and Mississippi where they will visit relatives and friends. During the absence of Mr. Lewis, Weldon Rushing is working in the Rad-Co office.

Robert Thompson Jr., of Lubbock, auto accessories salesman, spent Sunday here visiting his aunts, Mrs. W. B. May and Miss Mae Thompson. Sunday afternoon they drove over to Bass Lake and were accompanied by Mrs. J. H. Rushing Sr., and Billie May, grandson of Mrs. May.

Mrs. J. E. Heeter drove over to De Leon Monday afternoon.

Mr. and Mrs. Frank Smith of Los Angeles left Saturday morning after a few days visit with his aunt, Mrs. A. C. Moore and family. He is an officer in the Navy and was on leave before going to China.

## GRANDVIEW

This community was visited by a wind and rain Monday evening, which did quite a bit of damage to fruit and gardens, as well as the young crops.

Miss L. V. Brown has returned from Eliaeville where she has been visiting friends.

Elbert Denton and son, LeRoy, spent the week-end in Breckenridge.

Mr. and Mrs. George DeVall and family and Mrs. Alma Cregg attended church at Cheaney Sunday night.

Montie Ruth Browning of Carbon spent the week-end with home folks.

E. B. Choate has gone to Olden where he has a position.

Mr. and Mrs. A. J. Lamb and family visited in the home of Mr. and Mrs. Lambineck Sunday evening.

Mrs. Bill Logan and son Harlow returned Sunday from Stephenville where they have been visiting.

Mr. and Mrs. W. A. Moseley of Alameda and Mr. and Mrs. A. J. Lamb and family were supper guests of their parents, Mr. and Mrs. C. M. Prestidge, Monday.

Mrs. Crawford Thurman and

## PIGGLY WIGGLY

Grandmothers of Cleburne Have Day

CLEBURNE, Texas—Other persons may observe mother's and father's day, but citizens of this town observe "grandmother's" day as well.

Gardner Finds Way To Protect Flowers From Passers-By

DALLAS—Clarence I. Browne, Dallas gardener, has a novel way of stopping persons from stealing flowers from his garden.

Magnetic Machine Gathers Road Junk

EDINBURG, Texas.—Large amounts of metal have been cleared from main-traveled highways in Texas recently through the use of a magnetic highway cleaner.

New Stations to Warn Vessels of Coming Storms

WASHINGTON.—Decentralization of the hurricane service of the U. S. Weather Bureau on July 1 will make life easier for Washington forecasters.

Sea not assigned to the San Juan and New Orleans centers.

The reorganization also involves changes in the collection of observations from ships on waters in the path of hurricanes. Co-operating ships supplying information only during the hurricane season, June to November, will increase the number of their daily observations from two to four.

ing ships supplying information only during the hurricane season, June to November, will increase the number of their daily observations from two to four.

In addition, the new program calls for a systematic scheme for obtaining special weather, tide and swell observations from the Weather Bureau's storm warning display stations at many ports in the hurricane belt.

FARMER! Replacements of their machinery, automobiles and implements cost U. S. farmers approximately \$400,000,000 annually. Poor lubrication is to blame for much of this cost. To help farmers reduce this expense, hundreds of farm equipment manufacturers recommend Sinclair lubricants—the lubricants we sell. Let us tell you about it. We sell Sinclair Opaline and Sinclair Pennsylvania Motor Oils, Sinclair Tractor Oils, Sinclair H-C Gasoline, Sinclair Cup and Axle Greases, Sinclair Opaline Gear Lubricant, Sinclair Super-Flame Kerosene Sinclair Stock Spray, Sinclair P. D. Insect Spray and all Sinclair Farm Oils. Just phone or write. SINCLAIR OILS HAVE A HIGH WORK-FACTOR RATING SINCLAIR HAROLD WRIGHT Oils, Greases, Gasolines, Kerosene Phone 91 Ranger. Here are the things your car needs for Summer even though it is in perfect mechanical condition: TRANSMISSION AND DIFFERENTIAL—Every car manufacturer says drain, flush, and refill in Spring, for Summer Driving. We use only Opaline Gear Lubricant. RADIATOR FLUSHED—Let's thoroughly rid the cooling system of anti-freeze, rust-scale and sludge—then, no overheating. FRONT WHEELS—A pull and re-pack every 5000 miles—needed for safety, car manufacturers say. We re-pack with tough, Opaline Universal Grease. CHASSIS LUBRICATED—Ours is Sinclair Indexed Lubrication. Keeps your car "riding" like new. CRANK-CASE—You know, yourself, your car needs a crank-case flush and refill. Insist on Sinclair Pennsylvania or Sinclair Opaline Motor Oil. SPARK PLUGS—Dirty plugs can waste one gallon of gasoline in ten. Inspection free. Cleaning and adjusting at small charge. OIL FILTER—Yours is good only for 10,000 miles. We'll check—and if you need a new one, we will replace for a very nominal charge. SHOCK ABSORBERS—Riding's a lot more comfortable if they're kept filled. We will be glad to inspect and refill if needed. BATTERY—Tested and filled to proper level. That means longer battery life. And it's free service. We'll gladly call for and deliver your car! Phone us today!

# MITCHELL IS SCORED FOR STATEMENTS

WASHINGTON, June 19.—Motives of Ewing Mitchell in bringing charges of corruption against the Department of Justice and the shipping board, were assailed today when Mitchell brought his charges before the senate commerce committee.

Members of the committee denounced the attitude of Mitchell. One accused him of "blackening the reputations of honorable men."

Admiral H. I. Cone, former chairman of the shipping board and one accused by Mitchell of irregularities of business, was defended by Senator Duncan Fletcher.

er, Democrat, Florida, and Wallace White, Republican, Maine.

When Mitchell referred to Cone as a "messenger boy for the international merchant marine," Fletcher objected.

"Mr. Mitchell, you are a lawyer and you know that if a witness before a court were to repeat what you say, the court would say to him 'stick to the facts,'" Fletcher said.

"No witness has the right to blacken the name of honorable men without any facts. I know Admiral Cone and have known him for many years. I know many of the men who blackened his name are unworthy to unlace his shoes."

WASHINGTON, June 19.—Government spending in the current fiscal year has passed \$7,000,000,000 with the end of the year two weeks away.

Expenditures for the full year, which ends June 30, are expected to break the previous peace-time record of \$7,105,050,000 in the last fiscal year.

# ABYSSINIA IS PREPARING FOR ITALIAN WAR

ADDIS ABABA, Abyssinia, June 19.—Throbbing drums in rain soaked jungles and grilling thousands in Abiss Ababa, are preparing for war with Italy in August or September.

The entire country is convinced war will come. No one believes the Italian-Abyssinian commission, meeting next week at The Hague, will settle the dispute and the only hope is that Great Britain and France may influence Italy against her plans.

Brisque recruiting here and in Harar in the last four months has increased the army from 3,000 to about 15,000.

Streets of Addis Ababa, customarily lined with loungers,inged continually to commands shouted at little groups of men drilling on every corner, under orders of the emperor, all government employees are devoting spare time to drills.

# Fight Half Won as Senate O.K.'s Utility Holding Company Bill

Representative Sam Rayburn

Senator Burton K. Wheeler

Co-authors of the bill for abolition of utility holding companies by 1942, Representative Sam Rayburn of Texas and Senator Burton K. Wheeler of Montana saw prospects brighten for the measure's enactment when the Senate passed the bill with minor amendments.

Representative Rayburn predicted the House Interstate Commerce commission would report the bill for a vote by the House.

# Rat-Borne Diseases Prevail In Texas

AUSTIN.—WARS have been lost by generals and won by epidemics of rat-borne diseases, according to Dr. Hans Zinzer in his recent book, "Rats, Lice, and History." Texas has more of the disease than Dr. Zinzer has written about, typhus fever, than any other state, according to Dr. John W. Brown, state health officer.

There are two types of typhus fever—the epidemic or Old World type, and the endemic or New World type, known as Brill's disease. In the former the death rate is very high and in the latter, commonly found in Texas, it is very low. The most cases appear during the hot months. The rat and mouse are the reservoirs of this disease and it is spread to man by fleas, lice, or ticks that have fed on an infected rat. The cycle being rat-flea-man.

The symptoms of typhus fever are very similar to those of typhoid fever, except the course of typhus is generally two weeks. The onset of the disease is usually sudden with chills, fever, headache, and general body pains. Nausea may be present. The fever rises rapidly to a maximum of 105 degrees. There is also a reddish mottling of the skin and a hacking cough is generally present.

Typhus fever could be prevented by the eradication of rats and mice. This would not only result in the prevention of much suffering but would be of great economic value as it is estimated that the damage by rodents amounts to about 12 million dollars annually in Texas.

# Widow Spider Is Cause of Death

OKLAHOMA CITY, June 19.—The blood red "hour-glass" which identifies the black widow spider, became a symbol of death today. Authorities attributed the death of one man and illness of several others to black widow spider bites and warned the public to ward off encounters with the insect.

Heretofore a comparatively rare species, the spider is appearing in increasing numbers here and in other Oklahoma towns.

FORT STOCKTON, Texas, June 18.—Mrs. J. H. Cameron of San Antonio, wife of a telegraph operator, died today of injuries suffered in an automobile wreck. Cameron and their four children were injured.

WASHINGTON, June 18.—The house administration forces today defeated a price-fixing amendment to the AAA bill which would have authorized the secretary of agriculture to fix minimum retail prices for farm products.

The amendment was offered by Sen. Thomas O'Malley, Dem., Wis., and was defeated without a record vote.

# NIGHT and DAY you're safe on CONCRETE

At night the superiority of concrete becomes most apparent because of its visibility. Its light gray surface with sharply defined edges reflects light but is not glossy. Concrete conforms precisely to the formula for the ideal pavement set up by the International Illumination Congress of 1928 and by the Illuminating Engineering Society in 1934. The importance of this is emphasized by the fact that the rate of death per accident is 43% higher during hours of darkness. Concrete, smooth but non-skid, insures a quick, certain stop even in the rain. Blow-outs, spring breakage, steering gear failures, accidents of all kinds are less apt to happen on concrete. Yet concrete is not only safe—it is more comfortable—it saves in driving costs—it costs less for upkeep—and cost of construction is less than that of any other pavement of equal load-carrying capacity.

## UNITY

By MRS. T. E. HALE

The rain the past week hindered the grain cutting but was a great benefit to corn and other growing crops.

We are glad to report Mrs. J. W. Minnick and Mrs. George Cox improving after several days' illness.

Most all housewives have been busy the past week canning vegetables and other produce.

Mrs. Luther Fuller entertained in her home Friday afternoon in honor of her sister, Mrs. Kelsey Wylie, of Hannibal. A very sociable hour was spent in games and other amusement, after which the honoree was presented with many nice gifts. Cake, ice cream and lemonade was served the following ladies: Misses, Cub Blue, Charley Venable, Tommy Venable, Tate Fulfer, Ted Fulfer, Bob Blue, Lois Venable, Pink Wylie, Cagle Wylie, Clayborn Cox, Billy Fulbright, Luther Fulfer, Elizabeth Wylie, Carl Fulbright, Mrs. Ponder, Mrs. T. E. Hale, Misses Dovie Blue, Vivian Dorris Fulbright, Elizabeth Wylie, and the honoree, Mrs. Kelsey Wylie.

Mr. and Mrs. Doc Woods of Thurber moved in our community last week. We welcome them in our midst.

Bro. E. E. Barber of Dublin, who filled his regular appointment at Liberty Sunday, visited for a while with Mr. and Mrs. M.

N. Singleton Sunday afternoon.

Mr. and Mrs. Raymond Blue and little son, Alvin Ray, of Dodson Prairie, visited relatives here Sunday. They were accompanied by Miss Ora Bell Blue of this place, who had visited for several days in their home.

Mr. and Mrs. George Cox had as week-end guests in their home their son-in-law and daughter, Mr. and Mrs. Herschell Campbell of Fort Worth.

Mr. and Mrs. John Jordan of Fort Worth visited here last week in the home of her brother, J. W. Minnick, and family.

Mr. and Mrs. Elmer Havens and sons, Gene and Billy Mart, of Overton, who had been visiting his brother, Bill Havens and family in Thurber, spent one evening last week in the home of Mr. and Mrs. George Foster.

Mrs. Marvin Hughes and Junior of Palo Pinto spent last Tuesday here in the home of her parents, Mr. and Mrs. Bob Blue.

Mrs. Albert Wilson was in Ranger last week with her baby son, Jimmy Lee, who was under the treatment of a physician. We hope to soon have a favorable report from the little fellow.

Henry Thompson and children, Dal and Alice, of Guthrie, Texas, arrived here last week for a visit with his daughter, Mrs. Granville Davis, and family. Mr. Thompson has returned home but Dal and Alice remained for a longer visit with their sister.

Mr. and Mrs. Lonnie Coleman and little daughter, Bettye, were Ranger visitors Thursday.

Mr. and Mrs. Will Fulfer attended the ball game at Gordon Sunday.

Messrs. Orlander and Charley Venable left Saturday night for Tulsa in response to a message that their father was very ill. We hope to soon report him on the road to recovery.

George Onstott of Alameda visited here recently in the home of his sister, Mrs. Ona Davis and family.

Mr. and Mrs. Isom Davis and children and Mr. and Mrs. Jack Davis were Stephenville visitors Saturday.

Mrs. Mabel Foster and children of Thurber visited in our community Friday.

Mr. and Mrs. Clyde Woods and little daughter, Margaret Ann, and Mrs. Tom Woods were Thurber visitors Saturday.

### CAMP REGISTRATIONS

Registrations for Camp Billy Gibbons are now being received at the Council office and as the scout sends in his registration he is sent a Camp Billy Gibbons cap free of charge. This offer will continue until July 1. After that time scouts will be asked to pay for same. So Scouts send in your registration fee now! We have estimated reports from scoutmasters of four troops. These four estimate that they will have 85 scouts in camp. With some 41 units on the rolls this should be a record breaking camp year.

There will be a number of new features in camp this year and some of the old features will be enlarged upon. For instance, the handicraft part of the camp this year will be the best and the largest in the history of Camp Billy Gibbons old scouts, who have had training in various work of this kind, will assist in the handicraft institute. The entire handicraft department will be under the leadership of C. L. Pouncey and Dan Gill.

Swimming—All old scouts will remember "Toots" Gillian, who was in camp in 1933. He has promised to be with us this year, conditionally. Of course the slogan at the swimming pool will be "Every Scout a Swimmer." Some 14 or 15 scouts were taught to swim at least year's camp.

Many have ask if we will have the same cooks this summer that were at camp last year. Both have already signed contracts to be there. However Bill says, "Will the Bull Gang please go down, a few days before camp opens, to scare off the rattlesnakes and the screech owls?"

### NATIONAL JAMBOREE

Good news has just been received at the scout office whereby the Jamboree Scouts will not need to bother about cots and extra blankets because the government will furnish these.

Another welcome news item to these scouts is that there will be no dish washing in camp. Paper dishes will be used exclusively. This will save much time and the necessity of having some scouts stay over for dishwashing, which might cause them to miss some part of the Jamboree or a sight-seeing tour.

NOTE  
Scout Claude Gunn of Ranger

has registered for the National Jamboree. His name should have been in the list of those Jamboree Scouts mentioned in last week's news.

### "Kinked" Neck Fatal To Dairy Cattle

WALSH, Colo.—John Poyner's 14 select milch cows died from "kinked" neck. They were all he had.

Poyner believes that they ate cocklebur plants, or some other weed which sprung up following recent rains. Before the rains numerous cattle died on "sand colic."

### The Way to Happiness

Happiness is not a place. It is not a thing. It is a relation between things. We discover it most easily at the end of the path of daily unselfishness when we pass under the shining arch, "Help Another Every Day."

#### Do a Good Turn Daily

Help the blind or feeble man to cross the street. Carry the packages home for that little old woman. Give a pleasant smile to the clerk who waits upon you. You will feel better and they will. Greet the world with a smile and it will smile back. Christianity is founded on love to others. Attend the church of your choice Sunday and discover by daily effort what the true measure of Christianity involves.

First Presbyterian Church  
L. B. GRAY, Pastor

### Blow-out!

### BUY THE TIRE WITH THE GOLDEN PLY AND STAY OFF THE ACCIDENT LIST

At the high speeds that are common on the highways these days, you motorists need real protection against dangerous blow-outs. Let us tell you what happens inside tires when you go 40, 50, 60 miles an hour. Terrible heat is generated. The rubber and fabric separate. A blister forms—grows bigger and bigger. Then BANG! A blow-out!—and a serious accident may result. But Goodrich Safety Silvertowns are protected from these blow-outs by the famous Life-Saver Golden Ply—the amazing invention that resists this internal heat, and prevents these blow-outs before they start.

### ONE LOOK AT MY COLLECTION OF TRAGIC Blow-out SHOTS AND YOU'D NEVER GAMBLE ON TIRES

### SCHEDULE OF BULLDOGS IS NOW COMPLETE

The 1935 schedule for the Ranger High School Bulldogs was completed this week with signing of a contract to play in Amarillo against the Amarillo Sandies on Friday, Sept. 27, it was announced today by O. M. (Red) Moore, coach.

The signing of the contract to play the Sandies gives the Bulldogs 10 games, including the five conference games, every one of which is expected to be a tough assignment and will make one of the hardest schedules the Bulldogs have ever faced.

Sept. 20, San Angelo at San Angelo, night game.

Sept. 27, Amarillo at Amarillo, afternoon game.

Oct. 5, Polytechnic at Fort Worth, night game.

Oct. 12, Cleburne at Ranger.

Oct. 18, Eastland at Eastland, conference.

Oct. 25, Abilene at Abilene, conference.

Nov. 2, Sweetwater at Ranger.

Nov. 11, Cisco at Cisco, conference.

Nov. 22, Brownwood at Brownwood, conference.

Nov. 28, Breckenridge at Breckenridge, conference.

Coach Moore announced at the same time that fully 45 boys were expected out for the early season practice, which will begin in September, as about that number were out for spring training. There are six lettermen back on the team and several players who did not letter but who saw some service during the 1934 season who are expected to develop into good players.

The six lettermen are Rayburn Buntun, Bill Payton, Dean Walsh, Everett Donoho, Mellinger Jacoby and ita Sharp.

Those who were out for spring training and who are expected out when the call is issued for the fall practice are:

Harmon, Ainsworth, Lemmie Bray, Gates Barker, Robert Dryden, Bill Goforth, Glenn Ed Murphy, Wallace Reid, Floyd Russell, Nathaniel Sneed, Claude Simmons, Robert Stephens, Homer Weison, Roy Williams, Newton Whaley, Terrell Williamson, Barcus Coalson, Woodrow Dinsmore, Willard Gray, Durwood Hartin, Tom Fred Reese, Joe Rhodes, Wilmot Simpson, Roy Spiess, Clarence James, Paul Adkins, Harold Ertley, Jack Connell, Dick Fox, Raymond Lingie, Zavalla Bowen, Louen Burnett, Walter Cox, W. D. Haley, Eugene Kribbs, Marlin Sneed, George Cox, Jack Mace, Junior McKeehan, and Otis Westfall.

### Odell Bailey Will Remain in Ranger as Jefferson Agent

Odell Bailey, who has been agent for the Jefferson Standard Life Insurance company, stated today that many were under the impression that he was leaving this district, but that he was going to remain in Ranger.

Bailey was emphatic in his statement to the effect that he was in Ranger to stay, saying that he wanted his policyholders to feel free to call upon him at any time for any information he might be able to give them regarding their life insurance.

### Proposal Made For 49th State

OKLAHOMA CITY.—A forty-ninth state, Texlahoma, is being sponsored.

A move is under way to disassociate 23 western Oklahoma counties and 46 counties of the Texas Panhandle—thousands of square miles with some 1,000,000 citizens—from the two states.

Capital city of the new state, according to A. P. Sights, Clinton, Okla., chairman of the committee seeking to achieve the projected secession, probably would be Amarillo, Texas.

Sights is polling legislators on the proposed move, and says the answers have been favorable by a 2 to 1 majority.

Sponsors of the movement argue that the Oklahoma "secession sector" is so far from the state capital—in some instances 300 miles—that theirs is the "forgotten people" insofar as state benefits—roads, hospitals and relief—are concerned.

Sights declares that the 23 Oklahoma counties "are \$9,000,000 behind in road improvements."

The plan is for a huge convention of representatives of the vast area proposed for the new state. The convention time has been fixed for "some time this summer," to set up a permanent, active organization to work for the forty-ninth state, and a new star in the flag.

### Sweeping Change in Silver Situation

Thousands of Philadelphians who were accustomed to being paid in crinkly paper bills got the surprise of their lives when they hefted pay envelopes filled with silver dollars, some of the fatter ones weighing ten pounds. Ann Frank is shown sweeping coins out of a truck in which they were hauled to paymasters' offices. The occasion was "Flow of Silver Day," purpose of which was to induce quick spending.

### Motorcade to Seek New Park Sites

M'ALLEN, Texas.—A motorcade traveling from Byers, in Clay county, to Hidalgo, in the southern part of the state, will investigate Highway No. 66 for proposed park sites, according to Commander H. Miller Ainsworth of the American Legion Department of Texas.

The motorcade will formally open Highway 66, one of the important through highways in the state, at the American Legion Memorial highway. The state highway commission recently approved of the new name.

The 600-mile trip will be made June 24, 25 and 26. Traveling in the motorcade will be legion officials, members of the highway commission, and others interested in the plan.

Sites for roadside parks in each of the 18 counties through which the road passes, will be selected. Another project which is being considered is the planting of poplars along both sides of the highway.

Following is the schedule for the motorcade: Leave Byers at 10 a. m., June 24; stop for noon at Wichita Falls; night stop at Mineral Wells. Breakfast, June 25, at Stephenville; noon stop at Lampasas; night stop at San Antonio. Noon stop, June 26, at Alice; night stop at McAllen.

### Postpone Ranger, Eastland Games Sunday Afternoon

### Pyramid Valley to Become a Park

EL PASO.—Federal funds are to be requested to help make El Paso's newly-discovered "Valley of Pyramids" into a park.

At the proposed park site, "pyramids," caused by wind erosion action on clay and limestone formations, rise up sheer from the floor of a valley near Fabens.

Deer and antelope are still common in the region of the park.

### GRAFT CHARGE HURLED BY OUSTED MAN

WASHINGTON, June 17.—Ewing Mitchell, ousted assistant secretary of commerce, attacked the new deal today in a statement that charged "improper favoritism and graft abound" in the department of commerce.

"It is unfortunate but none the less true," he said, "that the department of commerce is not the only department in Washington where the ideals of the new deal have been strangled, improper favoritism and graft abound, where there is apparent evidence of corruption, and the progress of the old deal unabated."

Mitchell's services were terminated Saturday by President Roosevelt after he refused to resign or accept subordinate legal positions. In a statement it was said he was removed to obtain "more effective supervision of certain bureaus of the department of commerce."

### Eastland Boy Is Dartmouth Degree Receiver Monday

HANOVER, N. H., June 17.—Milburn McCarty IV of Eastland, Texas, was among the 475 Dart-

mouth college seniors who received the Bachelor of Arts degree this morning at the 166th commencement exercises of the historic New England college, as the largest class in the history of the institution was graduated.

McCarty, who prepared for Dartmouth at the Eastland high school, has been especially prominent in campus affairs, serving as

managing editor of The Dartmouth, undergraduate daily, and editor of the Undergraduate Chair in the Dartmouth Alumni Magazine. He won his varsity letter in squash and his freshman tennis numeral, and was active in the Dartmouth Union, Junco, Round Table and Spanish Clubs. He is a member of Alpha Delta Phi fraternity, and majored in history.

A smart young man, we'd say, knows when he needs a spare he needs a good one. But with Seiberlings on the ground he won't need it often. A good cheap used tire that will fill the bill and you can always get them from us.

Real 'Hero of Ypres' Remains Unsung

When Viscount Byng, famous British wartime troop commander, died the other day the newspapers were full of tributes to the "the hero of Ypres."

It was Byng who commanded in the bloody salient about that Belgian town when the Germans rimmed it with heavy artillery, drenched it with poison gas, and poured the flower of their army into it in a desperate, vain effort to smash their way to the sea.

In all its centuries of fighting the world has seldom if ever seen any more bloody or determined struggles than the one which raged about Ypres. And because we like to personalize all combats, we speak of how Hindenburg tried to take the place, how Haig parried his thrusts, how Byng heroically beat him back; and Byng is and always will be "the hero of Ypres."

Such a way of speaking is natural. We seem to be unable to make a hero out of a whole army. And no army is ever much stronger than the man who leads it; if he cannot diffuse some of his own fire and determination into it, it will fail, no matter how brave and sturdy its individual members may be.

And yet there is a great deal of injustice in this habit of ours.

For the real hero of Ypres, like the real heroes of all the other great battles of the World War, was not any bemedaled general. He was a bowed, weary, dirty nameless private soldier; a man who lived in mud and ate his food, when he got any, in the hideous reek of the battlefield, and endured terror and strain and agony greater than anything even Dante could imagine for his inferno.

This man has never had his just dues. Probably he never will get them, because the only men who can really understand what he went through are the men who stood at his shoulder and suffered with him, and they do not talk much about it.

But we must not forget him when we start talking about the "hero" of this battle or that battle. His was not the mistakes of command. He never sacrificed a company, or a battalion, or a whole army, because of stubborn pride, or misunderstanding of the conditions of modern war, as some of the generals did.

He never sent someone else out to go through a hell that he himself did not have to enter. He was there, in the thick of it, silent and dogged and heroic with a heroism that passes all ordinary understanding.

It is no use trying to learn his name, for there were millions of him. He came from every nation and wore every uniform; he left his bones at Ypres and Cambrai, at Verdun and along the Somme, by the Masurian Lakes and on Gallipoli peninsula.

The glory of war passes him by. The titles and the medals go to the generals. But the real hero of the war was and always will be the unsung and inglorious private soldier, who let his superiors send him out to the most horrible of deaths because he had in him something that was brave, loyal and deathless.

'Close up the Gaps'—Slogan of Highway Builders

Harry Hines, chairman of the state highway commission, knows what he wants and he has outlined it in a building program.

He would close all the gaps in Texas, and there are thousands of gaps left open in bygone years. There are millions at the command of Chairman Hines and his co-commissioners. They are going to close the gaps first if possible.

They are wise. The yare starting right. There should be no gaps left "unclosed" in the road system of this commonwealth. Patchwork should be voted a thing of the past. Unsightly gaps should be abolished without delay. There should be scientific building all along the line. Chairman Hines has convinced himself that \$100,000,000 will be necessary, and that this sum would provide labor for a vast army of Texans who are clamoring for jobs and who don't believe in the dole—if it is necessary for labor to avoid it.

Chairman Hines has gone to Washington to consult with the powers that be. He needs an additional \$70,000,000 for vast construction work as well as for the huge task of closing the gaps. More power to his brain and elbow—and his vision.

Idealist and Realist Was Ben Franklin

Grown weary of reformers whose idealistic yearnings outrun their common sense a harassed Michigan newspaper editor the other day suggested that a pretty fair sort of man to pattern after in these parlous times is old Benjamin Franklin.

Franklin, remarked this editor, was that rarity, a man who could work for radical reforms and at the same time keep both feet squarely on the ground and remember the importance of getting a little money into the cash drawer.

"Ben was a New Dealer, too, and wanted things chang-

ed a bit," the editor mused. "He liked women, built cook stoves, wrote editorials, negotiated treaties, fought the king, published a paper, and discovered electricity—but his perspective of things was eternally right."

At a time when the U. S. Supreme Court has sprayed some very chilly water on the skins of ardent reformers who remembered everything except the value of practicality, Franklin and his inexhaustible fund of common sense are worth remembering.

Franklin, as the Michigan editor points out, was a New Dealer. If we think we have public discontent with the status quo in our land today, we might remind ourselves that it is only a pale shadow of the discontent that was abroad in the land in 1776.

The old order was being put into limbo with bullets, then, and Franklin was one of the men who would have gone to the scaffold if the attempt had failed. If we are getting a new deal today, we got a new deck and a new game then.

Such times provide a field day for crackpots. They tempt a man who wants to see a new order of things established to follow his ideals until his fet leave solid ground altogether.

Franklin, one of the foremost of the idealists, never once lost his contact with reality.

He was able, that is, to build for the future without forgetting the necessity for living in the present. He could go to Paris and sell the most autocratic court in Europe on the beauties of democracy and freedom, and at the same time he could write down those homely bits of earthy advice that filled Poor Richard's Almanac.

He could help build a better world and simultaneously remember that Saturday night's payroll had to be met.

All of which might remind us that it is not necessary to go off into the clouds when you are working for sweeping reform. The vexing argument about whether we are to have recovery or reform is wasted effort.

Evidently America hasn't a monopoly on careless movers. In France last week three cabinets were dropped.

Visiting Indian prince eats breakfast with his cap on. It was probably the only way he could keep his hair dry when he tackled the grapefruit.

While the states defeated the government in the recent U. S. Supreme Court NRA decision, there are no hard feelings. The states are spirtsman-like enough to continue receiving relief money as if nothing had happened.

Englishmen Caught Joke Second Day

DALHART, Texas.—Geoffrey De Freitas and John S. Crippe, of London and Gloucester, England, respectively, wanted to see some jack rabbits when they visited here recently.

"We've heard of the rabbits here which have ears two feet long," they said.

O. T. Williams, who showed the visitors over a wind erosion control project, pointed out a big Jack and told them it was a "more infant." It was several days before the Englishmen caught the joke.

NEGROES EAT CLAY

WILSON, N. C.—Wilson negroes have discovered a new medicine—rich, gritty clay found in a ditch prepared by FERA workers for a sewer line. At night the negroes fill sacks with the clay and take it home to eat when they get sick.

Pits His 68 Pounds Against 170 Pounder

CINCINNATI, Ohio.—George "Midget" Hader, 24, recently upset the prize ring axiom that a good, big man is better than a good little man, and for his trouble he received a 30-day jail sentence.

Hader, who is 4 feet 4 inches tall and weighs 68 pounds, was arrested for an alleged assault on Nick Grippo, a boxer who is 5 feet 7 inches tall and weighs 170 pounds. The fight took place in a beer garden.

In court Prosecutor Harry Wernke looked at the robust boxer and then the midget and asked, "How many beers had you had, 'Midget'?"

"Only 15," answered the little fellow.

Clipper Ship On Its Return Trip

SAN ISLAND, Midway Islands, June 17.—Retracing its non-stop course over 1,388 miles of water, between Midway Island and Honolulu, Pan American Airways trail blazing clipper ship left San Island at 12:54 p. m. today.

MRS. PHILLIPS IS RELEASED FROM PRISON

TAHACHAPI, Calif., June 17. Clara Phillips, California's notorious "tiger woman," was released from prison today. Deliriously happy, she rushed

through the gates and threw herself into the arms of her sister, Mrs. Hodda Weaver. "I'm so glad it's over. I feel so good I have to cry," she sobbed. The hammer murderess was released shortly after 8 o'clock after serving 12 years and 15 days for the slaying in 1922 of Alberta Meadows, pretty young stenographer.

She was found guilty of second degree murder by a jury which was told she beat Mrs. Meadows to death with a hammer because she suspected her husband, Armour Phillips, of intimacy with the stenographer.

ATHLETES SAY: "THEY DON'T GET YOUR WIND!"

Read below what these famous athletes say about their experiences in smoking Camels

● Follow the athletes in your search for cigarette mildness. Tommy Armour says: "Camels never bother my nerves or shorten my wind—convincing evidence that Camels are mild."  
Mel Ott, heavy-hitting outfielder of the New York Giants, reports: "My experience is that Camels are so mild they never get my wind."  
And Stubby Kruger, Amy Lou Oliver, and Lester Stofen agree with Pete Knight, who says: "Camels—there's a smoke so mild it never cuts down your wind, never gets you out of condition."  
A mildness that will please you too! Camels are made from costlier tobaccos. They are mild, cool, gentle on the throat. Smoke them all you wish. Camels don't upset your nerves... or tire your taste. And athletes find that Camels do not get their wind.

SO MILD YOU CAN SMOKE ALL YOU WANT!

Camel's

COSTLIER TOBACCOS!  
Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

(Signed) R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

### Spider Poisoning Reported In Texas

AUSTIN—Several cases of spider poisoning caused by the bite of the so-called black widow spider have been reported in Texas this year and people who live in rural districts might well take precautions against bites from these poisonous insects, warns Dr. John W. Brown, state health officer.

The scientific name of the black widow spider is *latrodectus mactans*, and it is called the "hour-glass," "black widow," and "shoe button spider." Its shiny black round abdomen gives rise to the name of shoe button and the bright red patch, which may be shaped like an hour-glass, is responsible for the hour-glass designation. It obtains the name "black widow" from its custom of eating its mate. The body of the female is often an inch in length and the long, shiny black legs may stretch over a spread of as much as two inches.

This spider builds its web in dimly lighted places, generally in old toilets, garages, and other out-buildings. Its rough, coarse, irregular web is found under floors, in corners, between rafters, but especially under the floors of toilets, sheds, barns, etc.

Many requests have been received by the Texas State Department of Health relative to the best methods of controlling these insects. Spraying crude oil or creosote in cracks and crevices, particularly around the seats of old toilets, is an invaluable procedure, but precautions must be taken against fire. It is possible, also, to crush the egg masses with a stick. Other methods of control are unknown, although efforts are being made at the present time to find a parasite which will feed on the egg masses.

After the sharp, stinging bite, acute pain develops in the region of the surface bitten, spreading to other parts of the body. In addition to the pain, there is generally writhing, muscle contraction, difficult breathing, cold perspiration, nausea, and an extreme rigidity of the abdomen. If recovery occurs there is a long convalescence, during which there remains general weakness, numbness, and pain. There should be no delay in calling a physician in cases of spider bite.

Arkansas, Florida and South Carolina. But the prohibition forces claimed victory, or at least partial victories, in Alabama, Tennessee, Georgia and North Carolina.

A state-wide liquor bill was defeated in the North Carolina legislature this year, but 18 counties were granted permission to hold local option elections as to whether liquor will be legalized in their communities. The first elections are to be held June 22 in Wilson and Edgecombe counties.

By a 243-vote majority, the dries won the election of May 15 to repeal Georgia's 27-year-old dry law. The wets were victorious, however, in polling an 8,000-vote majority for legalization of the sale of beer and Georgia-made wines. Wets have taken to the state supreme court two cases testing the validity of the dries' victory in the hard liquor referendum, but legal authorities believe there is little chance of overturning the 243-vote dry majority.

Alabama defeated proposals in a February election to legalize liquor, beer and wine. The wets were given another setback in Tennessee when the legislature there defeated a liquor bill.

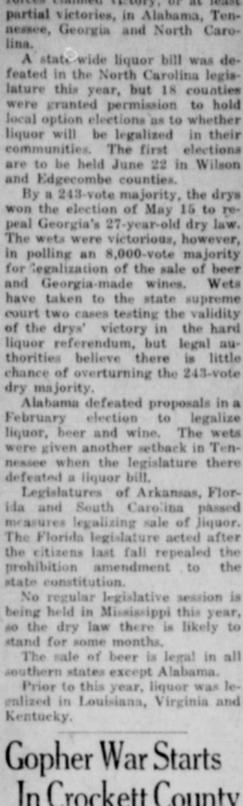

Legislatures of Arkansas, Florida and South Carolina passed measures legalizing sale of liquor. The Florida legislature acted after the citizens last fall repealed the prohibition amendment to the state constitution.

No regular legislative session is being held in Mississippi this year, so the dry law there is likely to stand for some months.

The sale of beer is legal in all southern states except Alabama.

Prior to this year, liquor was legalized in Louisiana, Virginia and Kentucky.

### America's No. 1 Birdwoman

With grave intensity and concentration, these eagle-eyes are fixed on the motor whose correct overhaul may mean new speed records or life itself. They are the eyes of Amelia Earhart Putnam, No. 1 birdwoman of the U. S. A., who is shown here in a camera study which well reveals the character in the intent face below the famous windblown bob.

### Gopher War Starts In Crockett County

CROCKETT, Texas.—Gophers have dug themselves out of a home in Houston county, according to C. E. Bowles, agricultural agent.

The animals ruined fields and orchards, broke terraces and damaged pastures and crops by their burrowings.

Farmers west of here have blocked up 2,000 acres and baited each mound with poison. As the gophers are driven from one farm to another, more acreage is added to the block.

The concerted drive was expected to rid the county of the animals.

### REVISED AAA ACT URGED BY HOUSE GROUP

WASHINGTON, June 17.— Passage of the revised AAA amendment, extending the power of the secretary of agriculture, was urged today by a house committee.

Expressing belief that the measure now meets constitutional problems, raised by the NRA decision, the committee said the new amendment would supplement the AAA act "to permit the AAA program to operate more effectively."

The committee said the changes, "made certain the program will be carried out in the limits of the regulatory power given congress and no authority to carry out the program will be in conflict with the principle that power cannot be delegated to an executive officer, unless adequate standards are provided."

WINTER HARBOR, Me.—Two large sturgeon, believed the only ones in captivity outside the New York Aquarium, were caught here by Roy Sargent. The fish became entangled in codfish gill nets.

### South Is Slowly Yielding Before Drive of Wets

By ED WERKMAN  
United Press Staff Correspondent  
ATLANTA, Ga.—A few oases are appearing in the traditionally legally dry South, but Dixie still remains the stronghold of the prohibition forces.

Outside of Kansas, the other legally dry states of the country—Mississippi, Alabama, Georgia, Tennessee, Texas, North Carolina, and Oklahoma—all are in the South.

Reluctantly the dries took defeat this year in three southern states.

### Strip Dance Row Ends in Shooting

Refusal of Mrs. Vivian Wilkinson, 21, above, to do a "strip dance" at the alleged demand of Walter L. Abernathy, 72, left below, led to a fight which ended when Abernathy, wealthy Kansas Citian, shot Vance Wilkinson, 24, right, six times, according to Wilkinson's version to police. Abernathy, free on bond, said he shot after Wilkinson had knocked him down when ordered from the Abernathy home.

### Margaret Roosevelt as Bride

First honeymoon in Bermuda, then to Rome to establish her new home. That's the schedule before these newlyweds—Lieutenant and Signora Alessandro Pallavicini, pictured after their marriage in New York. The bride is the former Margaret Roosevelt, distant relation of the President, her husband an Italian aviator and son of an important Roman family.

### He'd 'Becalm' Windy Congressmen

What the House of Representatives needs is a few good, old-fashioned murders, in the view of Maury Maverick, the Texas congressman whose salty personality is well revealed by these three action studies by the candid camera. Maverick caused a sensation recently by urging two special days, Quaker Day, when none could talk except by divine inspiration, and Murder Day, when all who talked on Quaker Day would be "liquidated" in the Russian manner. Thus "purged," the House could get some work done, Maverick argues.

### "Dusting the Covers of Texas History"

For the Texas Centennial Celebrations of 1936

Jake Harrell came out of his hole the same thing some time, split-log cabin by the banks of the Colorado river, and watched the group of Texans quietly. His was the last cabin on the Colorado—what could they be wanting? He had had few visitors since 1837, when President Lamar—God bless him—had come buffalo hunting with Fontaine, his secretary. He had been with Lamar as he looked from the hill onto the valley covered with wild rye—the mountains up the river, and beautiful view to the south that had never looked lovelier. "This should be the seat of the future empire," Lamar had said. He would always remember Lamar's exact words, for he dared.

Further down the river there were a few cabins at a little settlement called "Waterloo." Jacob Harrell, raised his hand in salute to the moon.

The result of the commissioners' long talk with Jacob Harrell and visions of the countryside convinced them that no better site for the capitol could be selected. Hurrying back to Houston, they created a great stir of excitement with their news.

"Waterloo has been selected!" "Waterloo? And where can that be?"

People queried each other when they heard the commissioners' re-

port. Waterloo! An unknown town!—if it could rightfully be called a town. Waterloo was in a central location, where the population extended from the Colorado to the land of the Comanche and "bisson." Onion Creek, Walnut Creek, and Brushy Creek were reported as streams offering fine water.

Enthusiastic descriptions of Waterloo had a good effect on the people. The newspaper reported: "The commissioners confidently anticipate the time when a great thoroughfare shall be established from Santa Fe to our reports and another from Red River to Matamoros, which two routes must of necessity intersect each other at this point . . . They are satisfied that a truly national city could at no other point within the limits assigned them be reared up . . ."

Weeks later the Matagorda Bulletin reported that "persons who have visited Waterloo agree that it is a most judicious selection, and all speak in favorable terms of the country that surrounds it."

At last, the capitol of Texas had been decided upon! A free and independent republic, the challenge of an uninhabited region, a far-sighted dream of the future—no more auspicious beginning could have been for any republic. The original capitol does not stand today, but the one centennial visitors will see in 1936 was built with the same firmness of purpose and thoughts for the state that the first capitol was built.

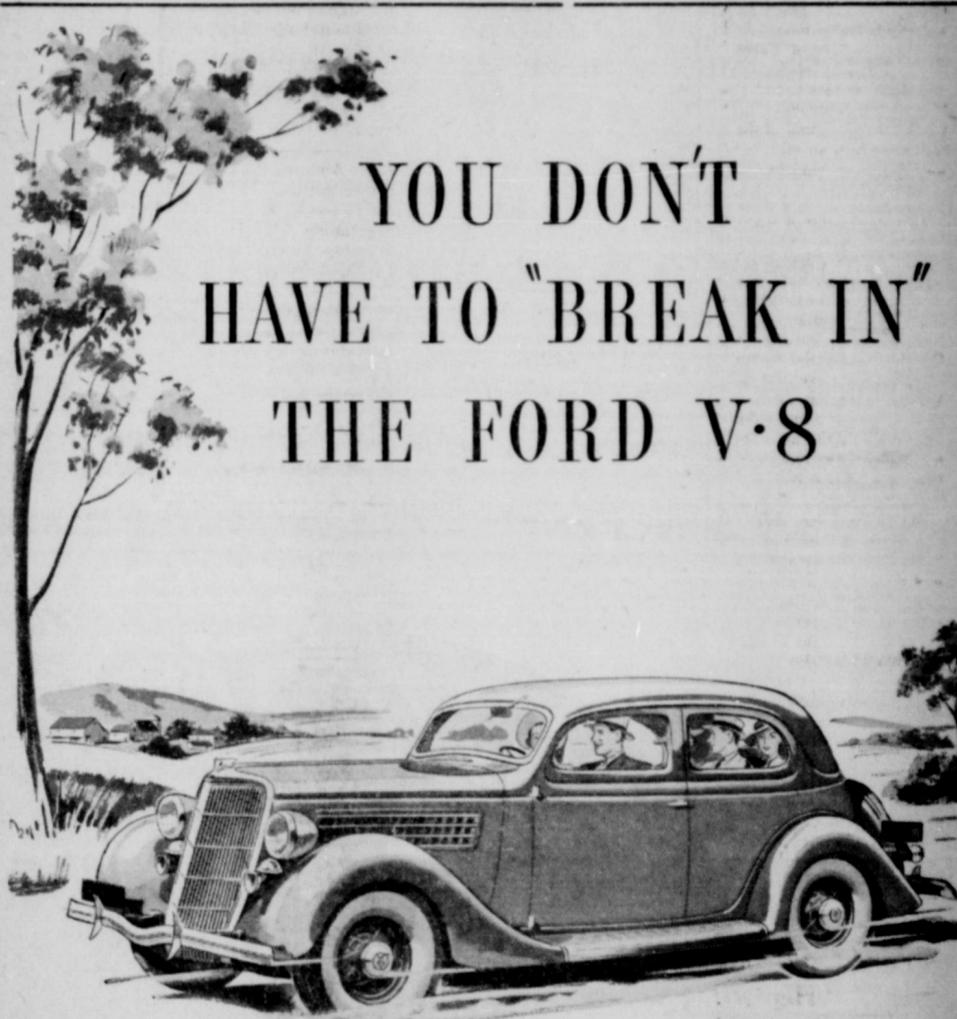

### VACATION HI-LIGHTS at the Smith Family

HERE'S WHY THE SMITHS ALL AGREE ON "how to go"

- GREYHOUND low fares are good every day on every schedule
- GREYHOUND offers, on many trips, a choice of routes
- GREYHOUND coaches are modern and extra comfortable
- GREYHOUND offers convenient, frequent schedules daily
- GREYHOUND serves nearly all of America's Vacation Areas

YOU DON'T HAVE TO "BREAK IN" THE FORD V-8

### You can drive it 50 miles an hour the day you buy it

THE FORD V-8 is ready for normal driving when you buy it. There is no tedious period of breaking-in for 500 or 1000 miles. You can drive it up to 50 miles an hour the first day. And after the first hundred miles you can drive it as fast as you desire.

That means greater motoring enjoyment for every motorist. It is especially important to motorists who are thinking about a new car for a vacation trip — to physicians, salesmen and all those who use a car for business. Instead of dragging along at slow speeds for days, you can make good time from the start.

The reason for this is as important as the result. The Ford V-8 needs no breaking-in because of unusual accuracy in the manufacture of moving parts and the smoothness of bearing surfaces. Clearances are correct when you buy the car. It is not necessary to depend on a long wearing-in period to eliminate tightness and insure smooth running. Longer life, greater economy and better performance are bound to result from such precision methods. They are further proof of the care and quality that go into the Ford V-8.

Formerly only the most expensive cars could be driven at normal speeds from the beginning. That still holds true today — except in the case of the Ford V-8. It gives you fine-car construction, along with fine-car performance, comfort, safety and beauty.

# MANY CITIES STILL SUFFER FROM FLOODS

LA GRANGE, Texas, June 17. The greatest flood on the Colorado since 1913, waged its full force against this city today.

More than half of the city was under water. The muddy torrents lapped at the lawn of the Fayette county courthouse, five blocks from the river.

Residents of the low lands were warned in time to move their livestock and families before the flood.

Hundreds of residents fled from their homes today as flood crests of Texas rivers which already have taken a toll of 12 lives, surged in a destructive tide across South Texas.

The Guadalupe, which rises in the hill country of Texas, threatened the city power plant and dam near Gonzales on the upper coastal plain. Flood gates on two power dams were opened, however, and observers believed the danger was subsiding.

Many cattle were drowned because ranchmen did not receive sufficient warning and the animals were trapped by the water.

Gonzales, Cuero and Gonzales-Seguin highways were covered by several feet of water. Crop damage was expected to total many millions of dollars.

Residents of the Cuero area prepared for the crest of the Guadalupe, moving down from Gonzales. The stream was 22 feet above normal.

Fears were somewhat eased when the Guadalupe broke from its regular channel and flowed through an old river bed.

The water spread over a wide area and cut down the danger of a serious overflow.

Machinery at the Central Power and Light company dam was moved out as a stage of 30 feet was expected tomorrow.

The flood covered the old Cuero-Gollad highway early today and stopped traffic over that route.

Waters swept into the business district of LaGrange on the Colorado river and highway patrolmen reported "most of the town under water" as the river's 54.5-foot rise struck there.

The crest of the most severe flood since 1919 combining the waters of Atascosa, Frio and Nueces rivers poured over the spillway of La Fruta dam, above Corpus Christi. City officials said,

## A Welcome to Summer!

Summer's here! And racing onto the scene comes the Summer Girl of 1935, sprightly, joyous and lovely, eager for the fun the season promises. With the waves at her heels and fleecy clouds above, the beach sprite silhouetted here typifies Miss America, summer model. She is blond and shapely Jeanne Carmen, movie starlet, dashing-gloom to the winds!

however, that they were confident the coast resort town would not be endangered.

The Nueces river above the La Fruta dam was 30 feet above normal and still rising.

TRY A WANT AD

## GREYHOUND'S NEW INTERCITY BUS MARKS RADICAL ADVANCE IN HIGHWAY TRANSPORTATION

This new Greyhound bus, built by General Motors, has been placed in regular passenger service between Detroit and Chicago. After a short experimental period a huge fleet of these ultra-modern coaches is expected to replace present Greyhound equipment throughout the United States. The new super-bus has its motor in the rear, with an extra large luggage space underneath the passenger deck, which is considerably higher than on present buses. The coach is lighter, lower, and smoother riding than present inter-city buses, yet it accommodates 36 passengers, with more comfortable chairs, additional leg room,

## PRISON RIOT IN COAL MINE FRUSTRATED

LANSING, Kas., June 18.—Rioting broke out in the coal mines

at the Kansas state prison when 299 mutinous prisoners tried to rush the gun cage 720 feet below ground.

They were beaten back with tear gas.

Four guards equipped with gas masks were in the gun cage when the prisoners surged into the room and tried to fight their way into the cage with its supplies of guns and ammunition.

The prisoners mutinied this morning. Prison officials had not learned the cause of their griev-

## "OUT OUR WAY" By Williams

ances or demands. A dozen guards were held by prisoners and four other officials who went into the shaft did not return and no word came back from them over the single telephone wire.

The mutiny occurred by careful arrangement after the prisoners were taken into the mine at 6:15. All had been marched from breakfast to the shaft and lowered to the 700 foot level.

## LARGE AREAS INUNDATED BY FLOODS AGAIN

The death toll continued to rise today in devastated regions of the southwest, hard hit by floods and storms.

Residents of the Republican river valley in Nebraska, were forced out a second time in two weeks. The list of dead mounted to 84 with the addition of four names. Property damage mounted to \$13,000,000.

Heavy loss of life in Nebraska was prevented in the second flood by rapid evacuation after warnings were received. Many were not able to return to their homes before the second flood came.

At McCook, Neb., the night was spent in darkness as water swirled through the power and light plant a second time. More than 700 are on flood relief rolls in Nebraska.

Albert Evans, Red Cross relief director said he put the total, including 120 in Colorado and 40 in Kansas at 940, and said the list may grow to 1,200 when all reports are in.

Typhoid and smallpox vaccines were rushed to isolated regions to prevent spread of disease in the wake of the disaster.

## Lightning Strikes Twice at Assembly

KERRVILLE, Texas—Lightning may never strike twice in the same place, but sometimes it doesn't

miss it far, persons attending the Methodist assembly here have found out.

The cottage of the superintendent, the Rev. A. R. Vetter, was struck recently and a floor lamp base and mirror broken. The minister's wife and three sons were unhurt.

The assembly cafeteria was struck by lightning 15 days previous and a workman was knocked unconscious. He was revived two hours later.

## SIX MORE DIE IN FLOODS IN SOUTH TEXAS

Six additional deaths brought to 20 today the number of fatalities caused within a week by storms and floods in Texas.

The town of Columbus in the lower valley of the Colorado, was isolated today as that stream's destructive tide rushed toward the gulf, bursting a levee and flooding most of Columbus.

J. R. Ellis, 76, died in Stephenville today from injuries suffered when a tornado struck there last night. His three daughters were injured.

James Brent, 21, was killed by lightning on the farm of R. A. Adcock, at Weatherford.

Two persons were drowned near Dallas, one when he stepped into a hole while wading in floodwaters, and a second man when his car skidded into the stream and sank in 10 feet of water.

Downstream from Columbus more than 500 farmers and their families crowded into Whatron as the Colorado reached a stage 32 feet higher than normal. The water was expected to rise eight feet more. Conditions were as bad as during the flood of 1913.

Most of the principal South Texas highways were blocked by high water as the Colorado, Nueces, Guadalupe, Brazos and other streams raced to the gulf. Have caused in La Grange yes-

terday when that city was flooded after the Colorado flood had wrecked the municipal water and power plants at Austin and destroyed property valued at \$1,500,000. The highway damage was estimated to be well above \$2,000,000.

## Gonzales Requests Centennial Funds

AUSTIN, June 18.—Gonzales, Lexington of the Texas revolution, today led off 20 delegations seeking aid for local centennial monuments with the centennial control commission.

The plea was presented by Sen. Welley Hopkins, who asked that maximum appropriation be given Gonzales to honor her revolutionary heroes. He urged a \$50,000 to \$75,000 appropriation to mark the site of the first battle of Texas independence.

## Student Pilot Is Injured In Fall

SAN ANTONIO, June 18.—Maj. P. E. Zablan, student officer at Kelly field and member of the Philippine constabulary, was injured last night when his plane crashed in the hills near Boerne. An ambulance was sent from the field to bring him to the hospital here.

## Children Revealed As Movie Critics

HARRISBURG, Pa.—Only two-fifths of the "essential features" of a motion picture retained by the average adult is lost to a child of 8 and 90 per cent is retained by a boy or girl of 15.

The estimates were made by Edgar Dale, Ohio State university, who, in conducting a conference on motion picture appreciation here, said high school students show keen ability to criticize movies and spend more time discussing the direction, photography and casting than they do talking over the plot.
