## Damage Suit To Involve Floyd Labor Ass'n

A damage suit asking for \$375,000 filed in San Antonio Monday by the Mexican Government will involve the Floyd County Labor Association. It appeared Wednesday. The local association, which placed banners among farmers of the area during cotton harvest the past two years, operated from the Whittenburg Gin here and was managed by Fred Braunig, a number of local farmers were members of it.

The suit came out of a truck wreck in October of 1954 near Del Rio, Texas, in which 11 men were killed and 17 injured. None of the dead were on the labor list from the local association, it was reported here, but possibly some of the injured were. The Mexican laborers were being transported to this area for labor purposes by the associations. Also named in the suit were the Hi-Plains Cotton Association of O'Donnel and the Farmers Co-operative Labor Association of Lamesa.

This suit relates to the injured in the wreck. Another suit will be filed soon in connection with the dead from the wreck, it was reported.

Most of the words on the 5th and 6th grade word lists were used before contestants from Floydada and South Plains were eliminated. Janice Carthel was alternate for Lockney in this division.

Bill Mangold and Ricky Dollar were contestants from Lockney in the senior division. Bill placed fourth. Winner in this division was Sue Williams, 13, an eighth grade student at Floydada who correctly spelled the word "alluring" and became the champion Floyd County speller. She will compete in the Lubbock Avalanche-Journal spelling bee to be held March 17 in Lubbock.

Each contestant and those who tried out were given white ribbons bearing National Spelling Bee sponsored by Lubbock Avalanche-Journal lettered in gold. James Ray also carried home the blue ribbon.

Thirty-six students from Lockney tried out and twelve from Floydada.

## PROCLAMATION Sixth Observance Of Public Schools Week

To the Citizens of Lockney School District:

The struggle of men for freedom and the dignity that adorns freedom is an old story, but one that has attained increasing importance in these years of uncertainties. Perhaps never before has man lived in a world of such opportunities, where he has to take his stand for freedom against slavery, integrity against degradation, Christian brotherliness as opposed to primitive brutality, intelligence against superstition.

Sometimes we see as through a glass, darkly, but the image is becoming more and more clearly revealed. The struggle now is for the minds of men. Certainly we need bodies, spiritual growth and stout courage, but we also need clean-cut concepts of the way of life of free men.

Our forefathers in their prophetic wisdom provided the instrumentality for all of this in the public school, which today assumes increasing importance as we look to our youth to take up the burden of the struggle which we must soon pass on to them.

Lockney can well take pride in its devotion to the principle of free schools—free from bigotry and falsehood, as we prepare our own Sixth Annual Public School observance.

I, Therefore Proclaim and Direct That all citizens of Lockney School District should observe Public School Week March 5th through March 10th, 1956, and urge every citizen to visit one of our schools during this period and to become personally acquainted with the programs and accomplishments of our educational system.

In official recognition whereof, I hereby affix my signature this 24th day of February, 1956.

J. E. COX  
Mayor of Lockney

## Lockney Gets 25% Good Fire Record Insurance Credit

The City of Lockney will receive the maximum credit for a good fire record on insurance premiums the coming fiscal year. The maximum credit is 25%. The past year the city has had a 20% good fire record but the low fire loss showed the credit to the maximum the coming year. The fiscal year starts March 1.

This means that fire insurance premiums within the city will be as low as is possible to have for the new year.

By comparison other cities of the area have:

Plainview, 20% credit.

Floydada, 5% credit.

Crosbyton, 10% credit.

Hale Center, 0.

Oilton, 25% credit.

Petersburg, 10% credit.

Silverton, 20% credit.

Holdovers on the council are Kellon Shaw and Jimmy Hodel along with Mayor J. E. Cox.

Mrs. J. B. Allen has sold her school store at the Lockney grade school to Mr. and Mrs. H. B. Anderson. Mrs. Allen will continue to work with the Andersons for some time.

Mr. and Mrs. Anderson are from Worthington, Minn., but have been living at Kress recently. They plan to move a house onto the lots adjoining the store on the south and make their home there. Mrs. Anderson is a granddaughter of the late Mr. and Mrs. Will McCune, pioneer residents of Lockney.

## Lloyd Wofford New President Of Rotary Club

Lloyd Wofford, owner of the Wofford Manufacturing Co. here, was named new president of the Lockney Rotary Club in voting last Friday at noon. He will serve for the fiscal year beginning July 1.

Other officers elected were Leslie Ferguson, vice-president; Eddie Holcomb, secretary-treasurer; Claude Brown, sergeant-at-arms, and LeRoy Durham, Herbert Nicholas and H. B. Coggin, directors. Retiring president Bob Miller will also be a member of the board of directors.

The Club heard a musical program during the Friday luncheon presented by Rev. and Mrs. Royce Dowell of Lubbock, and accompanied by Mrs. Ellen Naylor of Lockney. Popular and sacred songs were presented and much enjoyed by the club members.

Visitors included Rotarians from Plainview and Floydada. Mrs. Barbara Merrill of Lubbock, formerly pianist for the club here, was also a visitor.

## Kemp Sells Oil Business To Rowland-Gordon

A deal has been consummated the past few days in which J. C. Kemp, local Phillips "66" jobber, has sold his oil, gas and butane business to the Rowland-Gordon Company. The new owners will take charge of the business today, March 1.

The Rowland-Gordon Company is made up of Virgil Rowland and Jason O. Gordon, and they have been operating in Plainview and Lubbock for several years handling farm fertilizers, insecticides and farm chemicals. Here they will continue to handle gasoline and oils for retail and wholesale as well as butane but will expand the facilities to include fertilizers, insecticides and farm chemicals of all kinds. Mr. Rowland said Wednesday. They plan to build an additional warehouse on the property, which is located on Highway 70 in south Lockney. It will take several weeks to expand the facilities as they new plan, Rowland said.

The Kemps will continue to live here until school is out but will then move to Coushatta, Louisiana, where Mr. Kemp will engage in stock farming. He has owned some land there for some time and recently purchased additional land. He is a native of that country.

The Kemps will be sorely missed here. He has been active in Cub Scout work, serving as Cub Master the past year, and also in the Lions Club. Mrs. Kemp is president of the C. N. Townsend Parent-Teacher Association this year and has been very active in PTA and Cub Scout work for several years. They have lived here for six years.

There will be no change in the employees at the Phillips station, Mr. Rowland said, except that two more men will be added. Weldon Latimer and Jesse Savage will remain with the station. Alfred McWhorter, who has previously worked for

Have mercy upon me, O Lord, for I am weak; O Lord, heal me.—Psalm 6:2

**PRESIDENT IKE** has done more for the people of Texas than any other President. His veto of the natural gas bill along with his about-face on the farm program, among other things, have lost him enough votes that we doubt if he can carry Texas again if he runs for President. Ike originally advocated "100 per cent of parity" farm loans and "states rights." Now he has let the Republican boys talk him into a "less than 90 per cent of parity" farm program and apparently his zest for states rights is cooling off quickly as indicated by his veto of the gas bill. Ike may run again and will probably win if he does, but we predict he'll

do it without the help of Texas.

**MEANWHILE** the Democratic boys are having a hard time deciding which side of the segregation fence to get on. Gov. Averell Harriman of New York came out in favor of cutting off federal funds from all schools which practice segregation while Gov. Adlai E. Stevenson says to "keep segregation out of politics." Mr. Kefauver also advocates the cutting off of funds to segregated schools. Of course, we think Stevenson is most reasonable in this issue, providing the pressure boys don't push him off of his stand before the national convention.

**ALL THIS** adds up to one conclusion: of all the minorities in the nation, of all the sections with special interests, the South has less influence in the national capital than any other. The political boys up north, of either party, will cater to the wishes of the Harlem vote of New York state in preference to listening to the combined wishes of some 10 or 12 Southern states. It is a sad day when political considerations are the chief concern in any issue of national importance.

**THE NEED** for public schools never changes, but times and conditions may change or require to be changed methods and practices of public education. This is inherent with anything that grows, for growth is the result of change.

**OUR TEXAS PUBLIC SCHOOLS** were created 102 years ago. In 1854 the first law establishing public schools was passed. The State Constitution declares, "A general diffusion of knowledge being essential to the preservation of the liberties and rights of the people; it shall be the duty of the Legislature of the State to establish and make suitable provisions for the support and maintenance of an efficient system of public schools."

**IT IS A HEALTHY THING** in our democratic way of life to have intelligent understanding of the important functions of our basic institutions. This is especially true of the schools. The initiative and resourcefulness and the wisdom and leadership that our schools are inculcating in the youth of today are the answers of the problems of citizenship in the years ahead.

**YES,** "bring me men to match my mountains." That is the need of our times and must come from the public schools—schools that are strong in virtues required for building strong men and women.

**WE CAN BE ASSURED** of this and do our part in understanding and helping the public schools to fulfill their great obligation to our times by being a participant in the annual Public School Week, March 5 through 10. Schools will hold open house; accept their hospitality, and you will enjoy the experience of going back to school — if but for a day.

#### SUNDAY LOSING ITS IDENTITY

Sunday, once respected as a day of rest and worship, has almost lost its identity in Hale Center and other neighboring communities. During the busy season many farmers gain an extra day of work each week by working on Sunday. Many local stores remain open on Sunday, and hundreds of people shop on Sunday. Sunday often resembles a busy Saturday afternoon in Hale Center. All of us together often turn Sunday into a noisy, baw-

dy day, resembling a carnival, completely lacking all the reverence and respect with which many of us once held from childhood for Sunday.

Born out of prosperity and nourished on greed, our reckless disrespect of Sunday reflects a complete lack of appreciation for the many good things we enjoy. It reflects an unhealthy attitude of people who have become so involved in a mad, aimless restlessness that they don't have enough time to observe Sunday, even though the end of the race offers no rest... no peace.

By abusing Sunday, we have turned the many, many blessings this community has enjoyed for ten years into a curse that has led many of us into

the foolish belief that we are performing a noble service for mankind by working on Sunday. Once some of us suffered from a feeling of guilt when we worked on Sunday. But continued transgressions have left us so indifferent that we no longer feel that guilty tug that used to keep us from straying too far away from our honest beliefs. We now find it easy to offer good excuses for opening our stores on Sunday... for plowing our fields on Sunday... for irrigating our crops on Sunday... for harvesting our grain or cotton on Sunday... or worse, by hiring somebody else to do our work for us on Sunday.

More and more people are joining the ranks of Sunday workers. Competition for business during the busy season often drives merchants who consider working on Sunday a sin into violation of their own honorable belief to keep up with their competitors. During pressing work seasons, farmers become so occupied with irrigating and cultivating their young crops or gathering their bumper crops that they forget Sunday, although many of them believe that working on Sunday is wrong. Too often many of us find the excuse that leads us to the fields and to the stores on Sunday instead of taking one day a week for worship and for our employees to worship. — Hale Center American.

#### NEW CROP

A temporary out for irrigated farm lands that have been lost to cotton and wheat under allotments could be putting the "lost" acres into corn. Most likely this possibility has been explored by farm operators. Hybrid corn has produced phenomenally in some instances here. Probably you have to have the know how for successful corn culture — the same as for cotton. But most Floyd County people have a corn planting background and can "take to it" easily. There are no corn allotments in this area this year and there is a support price. — Floyd County Hesperian.

"Now I have time to prepare my menus for each meal... taking advantage of the many specials offered by our local grocery stores." You'll save money on clothes, too, with an electric clothes dryer, for you won't have to buy as many and they'll last longer.

"With five in the family, I really have a big wash. But, with an automatic washer and dryer, it's really no work at all." When you dry clothes electrically, you cut your ironing time in half, save 40 miles of walking and two tons of lifting and lugging in a year.

"I bought my washer first, but had I known how wonderful it is to have a dryer, I certainly would have purchased it first." Let your Reddy Kilowatt Dealer demonstrate his electric clothes dryer now and see for yourself why the dryer has become "America's Most Wanted Wife-saver."

He is the author of a textbook and more than 30 publications dealing with the utilization of radioactive materials.

**Ten Reasons For Belonging To Farm Bureau**

1. Farm and Ranch people should be organized.
2. Farm Bureau is strictly democratic in its operation, solely supported by membership dues from individuals interested in Agriculture.
3. Its policies are developed from the individual member in cooperation with other members.
4. Half of the membership fee stays in the county to support local services which are vital to any organization.
5. Its work on State legislation, among other things on the State level, is positive evidence that the portion of fees allocated for that purpose is well spent. An office has been established in Austin where two men work on State legislation during each session of Congress.
6. Many things on a National level are being accomplished through the Farm Bureau. Among them is an improved world trade which will help reduce agricultural surpluses.
7. As in any democracy, individual votes count, therefore each membership adds strength. We pay a poll tax for the privilege in civil affairs, but our membership in Farm Bureau is a family membership that offers services.
8. Farm Bureau incorporates all phases of agriculture, therefore a membership in the largest Farm organization in the world with a positive, constructive program will have more lasting effect on agriculture than smaller "protest" groups.
9. Along with other services afforded by the Farm Bureau, it offers an insurance program designed for people engaged in Agriculture. It pays a substantial dividend on its Life, Fire, Farm Liability, Automobile and Pella policies. On these services alone, it will pay you four dollars to every one paid on membership dues in savings, if you discount the other advantages you have by belonging to this organization.
10. Farm Bureau offers the Farmer and Rancher an opportunity, if he so desires to participate, to have more influence on his economic and future welfare. Approximately sixty per cent of the Farmers and Ranchers of Floyd County were Farm Bureau members in 1955. When these have renewed along with its new members, approximately seventy per cent

of the county will be members. If seventy percent of your neighboring Farmers and Ranchers say it is a good thing, we think you should be one too. 47-11.

**Hospital Qualifies For Foundation Aid From Ford**

Floydada — Belief that Peoples Hospital has met all the requirements of the Ford Foundation to qualify for the \$10,000 grant tentatively awarded the hospital in January, was expressed here this week by F. C. Harmon, chairman of the board.

Sounding a generally optimistic note, Harmon said that all papers and forms showing the status of the hospital had been sent to the office of the Foundation. He anticipates an early hearing that will be favorable.

Only unfavorable aspect is the fact that the hospital is being assessed for taxes by state, county, school and city. Hospitals that qualify for the grant are indicated in general as tax free by the foundation to be eligible.

If the grant is allowed the hospital will be able to better equip its technical department, and numerous features can be added to add to the extent of the services now being rendered the public, Mr. Harmon believes.

### Pre-Measuring Cotton Land Is Offered Again

Cotton and wheat measurements, the wool program, cotton loans and grain loans are discussed in a news letter issued this week by the Agriculture Stabilization and Conservation Committee of Floyd County, of which Buck Sams, Tom Porter and Gerald D. Lackey are members.

In the bulletin it is revealed that 2,281 CCC loans have been made on grain sorghum stored in warehouses, 19 on farm stored grain sorghum; 28 loans on warehouse stored wheat, three on farm stored; while one loan on corn stored on the farm, four on Pinto beans, three on barley and two on rye, have been approved.

As to measurements the bulletin says:

The cotton pre-measurement service will be offered again this year. If you want your cotton ground measured before planting time, you can make application to the ASC office in Floydada. The charge for the service will be \$9.00 for the first plot plus \$2.00 for each additional plot over one per farm.

If you do not want to pay this amount for pre-measuring your cotton will be measured after planting without charge, as in the past.

If you intend to plant additional wheat, do not let it be measured until it is all seeded.

You will have until May 15, 1956, to destroy any excess wheat. A charge of \$2.00 will be made to check the destroyed wheat.

1955 Wool Program: The 1955 Wool Program ends March 31, 1956. Be sure that all receipts are brought to the ASC office before April 30, 1956, and sign application for payment. This will include any wool sheared after Jan. 1, 1955.

New Grower Allotments: New Grower Cotton Allotment application must be filed with the ASC office by Feb. 24. Only producers having no interest in a farm with a cotton allotment in Floyd County will be eligible. Also the producer must make a major portion of his income from the farm.

1955 Cotton Loans: April 30, 1956, is the last day for putting 1955 Cotton in the Commodity Credit Corporation loan.

#### GLASSWARE TIP

The Gas Appliance Manufacturers Association suggests soaking sticky glasses in warm sudsy water before washing. This avoids the necessity for hard scrubbing which is apt to scratch or crack glassware.

The trouble with telling a good story is that it reminds the other fellow of a dull one.

### No Entangling Ties Declares F. B. Speaker

Floydada.—O. K. Hoyle, field representative of the Texas Farm Bureau Federation told members and guests of the Floyd County unit of the nationwide farmers organization here Tuesday night of its aims and objectives and the means by which it is trying to get a fair portion of the national income for the farm families of America.

Hoyle declared the strength of the Farm Bureau is in its basic concepts — a farm membership which gets its authority from the grass roots, and operates without subsidy or silent support from any other sources.

Urging strengthening by more memberships Hoyle said that at this time the national organization is supporting measures which do not exactly fit the needs of the southwest. "However, we were out-voted, and we expect to gain more by fighting on the inside than by protesting from the outside."

Mr. Hoyle praised the Texas leadership in Congress.

He said that farmers generally are against pressure groups. "We don't like it but we have to take it," he said, explaining the farmer attitude to town members of his audience. The Farm Bureau works

for a definite and constructive program, he said.

An audience of 30 present was composed of members of the Farm Bureau principally and of several invited members of the banking, newspaper and business fraternities.

Robert Lee Smith, county president, presided. In his introductory remarks he urged that the membership campaign due to kick off soon be given strong support to increase the membership materially in this county. He said the southwest is growing in membership and will be able to make its voice heard to a greater extent with the passing of time.

Service director W. R. Puckett spoke briefly, pointing to the value of helping to develop the unity program.

The meeting was held in the Commercial Hotel Coffee Shop where a buffet supper preceded the formal session.

#### BROILED EGGPLANT

Try eggplant this way: Peel out into 1/2" thick slices, salt and pile up with a weight on top to extract the brown juice. Rinse and dry. Marinate in french dressing, then broil directly under the flame until golden brown. Serve hot with any kind of meat.

Whenever you are tempted to tell your troubles to other people, remember that half of your listeners aren't interested and the rest are glad you're finally getting what's coming to you.

### 6,602 Young Men Register In January

Austin, Texas. — A total of 6,602 young Texans registered at the state's 137 draft boards in January, bringing the total number of men on draft board rolls to 930,144.

Nearly all these men registering in January were registered on their 18th birthday, or within five days after their 18th birthday, Colonel Morris S. Schwartz, state Selective Service director, said.

This is in line with federal draft regulations. Although no one is drafted in Texas under 21 years, except volunteers or men delinquent with their boards, the law obligates all males to register at age 18.

The law provides that a man must register when he is 18, no matter whether he is at home or not. He is required to go and register at the nearest draft board, no matter where he is. A man can find out where the nearest draft board is by going to a post office.

If a man wishes to be registered with his draft board at home, all he has to do is give his place of residence address in that area, and that is where his registration card will be sent.

All males in this country born since August 30, 1922 have had a legal obligation to register since August 1948, except those not yet 18.

Failure to be registered as

fine of \$10,000, five years in prison, or both.

#### DESSERT FOR MALES

Try this on the men and boys: Combine 1 package butterscotch pudding and pie filling mix, and 2 cups milk in saucepan. Add 1 square premium unsweetened chocolate. Cook and stir over medium flame until mixture comes to a full boil. Remove from heat. Pour into bowl. Chill. Makes 4 or 5 servings. Expect requests for repeat performances on this one from the guys.

GO TO CHURCH SUNDAY.

Mr. and Mrs. Ray Roberts of Dimmitt are parents of a baby daughter born Sunday, February 26th at Plainview. Grandparents are Mr. and Mrs. Vernon Daniel, Lockney, and Mr. and Mrs. "Slim" Roberts, Plainview.

#### OUTSIDE CLEANLINESS

You can remove oil drippings and other stains from your sidewalk, garage and driveway in a matter of minutes. Simply scrub the surface with hot soapsuds (or detergent suds) and a broom, then spray your garden hose to blast away the loosened dirt.

#### NO FILM ON PUDDING

You can avoid surface film when making milk puddings on the top burner of your stove. Simply place waxed paper directly on the top of the pudding after it is poured from the sauce pan or double boiler into the mold.

## TIME TO FERTILIZE!

You may disagree but we surmise,  
That this is the year you should fertilize.  
And in the age old adage there's more truth than rhyme,  
That "Procrastination is the thief of time."  
So don't be robbed and then regret it.  
Let us do the job and then forget it.

## Gospel of Christ

MAIN STREET CHURCH OF CHRIST

THOS. McDONALD  
Preacher

### IS SECULAR ACTIVITY A CHURCH FUNCTION?

"Prove all things" (1 Thess. 5:21). This statement from the pen of the inspired apostle Paul was directed "unto the church of the Thessalonians"; it merits special attention and consideration. All matters of faith and practice must be established by the Bible; we must be able to give chapter and verse for all that we do and teach. To ignore this is to manifest an unwholesome spiritual attitude and to surrender the plea for a return to pure New Testament Christianity.

Some professed gospel preachers are promoting secular programs among congregations. They are advocating that churches provide entertainment and recreation for young people, or for others. They are teaching this as a part of the mission of the Lord's church. The slogan is "if churches are to hold their young people, they must provide an outlet for them." Apparently, the proof (?) is "church buildings are not holy."

Churches are being induced to sponsor athletic teams. Buildings that were erected with the Lord's money for the purpose of prosecuting the God ordained program of the church are being equipped as "youth centers" and "modern playhouses." The order of the day is ping-pong sets, domino tables and such like. This is all in the name of the church and religion. Some congregations are not content to provide parties and schedule play periods for their own, they are endeavoring to feed, entertain, and amuse "young Christians" of whole areas and districts. It is later than you think!

Thousands of faithful Christians are alarmed. We demand chapter and verse; we still believe that the Bible makes known to us all that God intended for the church to do.

The New Testament makes provision for the church to preach Christ to the lost (Eph. 3:10); to edify itself (Acts 20:28); and to do certain works of benevolence (Acts 11, etc.). The church is a spiritual and religious body; its mission is the salvation of souls; its purpose is clearly outlined in Holy Writ. Seemingly, some have difficulty understanding this basic truth. Entertainment and recreation of a wholesome nature are good in the proper place, but their place is not in the program of the spiritual body of Christ. May we be satisfied with the divine arrangements and appointments!—Selected.

### Should You Contribute Or Criticize?

Each time an issue of "The Lariat" comes out someone will say, "This is a swell paper." Others will declare, "This is the worst Lariat ever published! It doesn't have a bit of news. It wasn't long enough."

Which pair of shoes do you fit in? Are you one that is always ready to criticize the paper each time it comes out? If you are, then why not try and help the staff make it better next time, instead of trying to destroy it.

If there isn't enough in it, it is because YOU didn't contribute! The staff has their hands full trying to get the paper ready for publication. Besides this, we gather up all the news to be printed. We can't possibly know of each thing you would like to have published. If you will only put what news you know, whether it is about you or one of your friends, in the boxes, it will enable us to publish a better Lariat. There will also be news about you and your friends in it.

Each article we receive, that is reasonable, we send in. But space doesn't permit all them to be published; so if your article doesn't appear right after you send it in, then perhaps it will be in next week's paper. Please CONTRIBUTE, not CRITICIZE. Remember, this is your paper and your news.

### The Hope Of America

Have you ever stopped to think of the many "for-granted" things we have: our free educational system; our freedom of religion; our freedom of the press; our freedom to speak when and what we want to.

To our forefathers, these were not "for granted" freedoms but freedoms for which they gave their lives.

How can you answer these questions: Do I exercise those freedoms to their fullness? Do I try my best to do my best in all my classes? Do I attend the church of my choice regularly? Do I do my part in helping with the school paper? Do I try my best to make my classes more interesting by taking part? Yes, these are our freedoms, important freedoms, that will only grow and endure when nourished by participation from us, the hope of America.

### COOKIE RESTORATIVE

Have you ever tried restoring those too hard to eat left-over cookies or gingerbread men? A few moments in your oven, set at moderate heat, will bring these tasty, tidbits back to complete tenderness and original flavor. Try it.

With the deeper, more rigid "Y" shaped block, Ford V-8's are built to run smoother, longer. And that's just one of the many V-8 advances that have sprung from

Ford's 24-year experience in building more V-8's than all other makers combined have ever built. "Top all this advanced power off with years-ahead styling and Ford's life-guard safety features . . . and you've got the "eight" that more and more people want (and are buying). Try it!

## STRONG

Remember this: "Some folks just naturally wouldn't want a Farm Bureau as strong as all farmers working together could make it."

It is so easy to be "Against" things — A few loud voices can do farmers a lot of damage. Indeed, it is quite another thing for "Loud Voices" to be "for Something" and make it work.

Farmers, through Farm Bureau, have never made a policy of attacking any program without first advancing a better program. WHAT HAVE YOU DONE TO MAKE IT WORK? Do you exert your thinking in shaping policy making resolutions? Do you attend meetings?

Do you accept responsibilities of holding community and county office?

Do you accept committee assignments?

"Loud Voices" don't attack, criticize, and destroy that which they have helped to build.

**Farm Bureau News**

By Chester Carthel

The directors, membership chairmen and committee members along with their wives had a supper at the Legion Hall in Floydada Thursday, February 24, 7:30 p. m. The purpose of the meeting was to coordinate the planning for the membership drive to begin on March 1. Areas of the county and quotas were assigned to the membership chairmen. Attendance was somewhat disappointing due to other events being held in the county but those that did attend got an idea on what the potential membership could be in Floyd County.

President Robert Lee Smith stressed the importance of obtaining new members in the Farm Bureau since it is a democratic organization and depends on votes for its strength. Although the Farm Bureau is the largest and most effective farm organization in America today, the South and Southwest region needs more votes to strengthen its position on National issues. This was evidenced when this area was out voted at the National Convention on the price support issue. The South and Southwest region has consistently gained votes the last few years and with a little more effort can have as many voting delegates as the highly organized Midwest region. It was also pointed out that when this is accomplished, Texas will be in a highly favorable position since some of most influential

positions in our National Government are held by Texans. Sam Rayburn, Lyndon Johnson, George Mahon, were pointed out.

The morning of March 1, was set for the membership drive. All men that are to participate in this drive are to meet at the Farm Bureau office to pick up their area maps and have coffee before 8:00 a. m. this will insure the entire county is being covered. These men will concentrate their efforts on obtaining new members, since over 300 old members have renewed their memberships by mail. By renewing the remainder of the county membership, the Farm Bureau hopes to obtain enough new members to reach their goal of 700.

**National 4-H Week Set For March 3-11**

College Station — The 121,044 Texas 4-H club members will join their fellow members, approximately 2,100,000, from every state in the nation in the observance of National 4-H Club Week March 3-11.

The 4-H club program is directed by the Agricultural Extension Services of the Land-Grant Colleges of the United States in cooperation with the U. S. Department of Agriculture. Locally, 4-H programs and activities, are directed by the county agricultural agents and home demonstration agents with valuable assistance from both adult and junior 4-H leaders.

According to Director G. G. Gibson of the Texas Agricultural Extension Service, the objectives of the week are to provide members a special occasion for taking a look backwards at past achievements and mak-

ing plans for future activities on their farms, in their homes and communities; to inform the public of the value of 4-H training; to recognize the contributions of local leaders and to enlist the support of public-spirited, youth-minded citizens in leadership roles; to give 4-H members and the public an opportunity to know more about the 1956 4-H theme, "Improving Family and Community Living" and to interest other young people in enrolling in 4-H clubs.

Director Gibson says that plans are now being perfected in the counties for the week-long observance. He extends a special invitation to parents and the public to attend and participate in community or county observances.

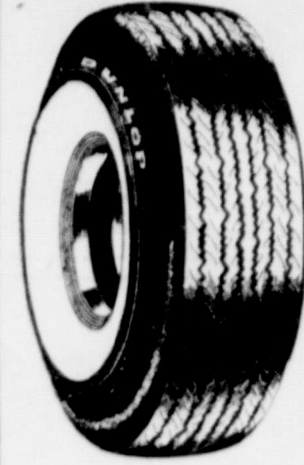

Forerunners of the present 4-H clubs were the corn clubs for boys and tomato clubs for girls. The first corn club in Texas organized by a county agent was the one in Jack county. It was organized and supervised by the late Tom Marks. The year was 1908. To-

**Sheep Stolen From C. K. Bennett**

Thieves backed a pick-up up to a sheep pen on the old Hugh Carrol place, between Lockney and Muncy last Saturday night and made away with 10 ewes and 7 lambs, as best he could count, C. K. Bennett, owner, said this week.

The sheep had no marks or brands and no leads as to the culprits have been uncovered. Mr. Bennett has been losing a few sheep for some time and at one time lost a cow to thieves, he said.

**250 Attend Soil Day Meeting**

Some 250 people were in attendance at the eighth annual Soil Fertility Day meeting held at the Plains Theatre here last Friday, despite the high wind and sand.

The meeting was presented through the co-operative efforts of the Burlington Railway, the Extension Service, the Floyd County Soil District board, and the Lockney Chamber of Commerce. A. K. Hepperly, agricultural agent for the Burlington from Denver, Colo.; Macy K. Orman, agricultural agent from Fort Worth; County Agent Bill Rodgers and Dick Whiteley, manager of the Lockney Chamber of Commerce, were instrumental in the planning and arranging of the meeting. Members of the Floyd County Soil Conservation district board of supervisors also helped in the meeting along with several others.

The Paymaster Serenaders from Station KCBD-TV at Lubbock started the meeting off in a fine way at 9:30 with a musical program. More than 100 were on hand at that early hour to hear the Serenaders perform.

R. G. Dunlap served as morning chairman and introduced Mayor J. E. Cox who welcomed those attending.

Mr. Hepperly spoke shortly on "Why Build the Soil" and was followed by Dr. W. O. Trogdon, agronomist with the Olin Mathieson Chemical Corporation of Houston who spoke on "Use of Organic Matter and Commercial Fertilizer."

"Crop Marketing and Surpluses" was the topic of Dr. Alvin Wooten, economist with the Texas Extension Service at A & M. College.

F. M. Vining, a dirt farmer from Weslaco, told his story of soil building on his own farm to the interested group, to conclude the morning program.

The Lockney Chamber of Commerce was host at the noon hour to a barbecue served at the American Legion Hall. More than 200 were served and still there was barbecue left. The Sanchez Cafe here prepared the barbecue lunch.

Forrest Mickey was afternoon chairman and introduced Don Jones of the Lubbock Experiment Station who spoke on "Irrigation and Fertilization of Cotton."

Dr. Clark Harvey, assistant professor of Agronomy at Texas Tech talked to the group about "Different Cash Crops for Floyd County," and this was followed by a panel by four Floyd farmers. R. C. Mitchell spoke on "Soil Improving Crops." Jerry Cooper talked on "Experience With New Crops." Bob Gibson told of "Deep Plowing and Cotton Burrs," and N. S. Abbott talked on "My Experience With Bindweed."

Mr. Rowland will also spend most of his time working through the local office, he said Wednesday.

Mr. Rowland is a pioneer in the fertilizer field in this area. He and some farmers of this area co-operated together in the early day fertilizer experiments around Lockney. He first went into the business in 1945 at Lubbock.

Mr. Gordon is a former county agent of Floyd County, serving this county in that capacity in the early forties.

**Grandmother Has 19th Birthday**

Mrs. Clara Stowe of Olney, mother of Clyde Stowe of Lockney, celebrated her 19th birthday Wednesday. Of course Clyde is quite a bit older than that but it is all true nevertheless.

Mrs. Stowe's birthday was February 29th and actually she is 80 years of age. Why wasn't Wednesday her 20th

birthday? Well, you see there was no Feb. 29 in 1900. That's just the way the calendar is arranged so actually Mrs. Stowe has had only 19 birthdays in all her 80 years.

Clyde and his wife and their daughter's family, Mr. and Mrs. F. G. Jones Jr. and children all joined with a number

of other relatives to visit the elder Mrs. Stowe last Sunday. The group met at old Fort Belknap, near Newcastle, for the

family gathering. All of her children were present and most of her grandchildren were on hand for the occasion.

Mr. and Mrs. Jack Dempsey of Lubbock were guests in the night.

Mr. and Mrs. Buell Orr of Graham spent Saturday and Sunday here visiting Mr. and Mrs. Claud Holley
