Minute Editorials

Let us not therefore judge one another any more; but judge this rather, that no man put a stumbling block or an occasion to fall in his brother's way.—Romans 14:13.

THE GOVERNOR of Texas will be elected in the second Democratic primary Saturday of this week. Needless to say, every qualified voter should go to the polls though there is reason to believe that the vote will be light. The two national political conventions have served to attract interest away from the Democratic primary. Candidates are finding it hard to get a hearing from Mr. Voter. Perhaps it's just as well. Most people have their minds made up and it will be a relief to most of us to get this campaign out of the way.

THIS WRITER has on file in his office reprints of letters from four present or past state officials of veteran organizations as well as state law enforcement agencies and one from the newspaper reporter who uncovered the veterans land scandals, all stating positively that they have made thorough investigation and found that the block land deals through which Bascom Giles was able to defraud the state, were made after Price Daniel had left the Land Board and become a United States Senator. Yet some people, because their real reason for opposing Senator Daniel would probably make votes for him, are still falsely accusing him of being negligent and trying to hang the blame on him for the land scandals. At any rate, we have letters from these men who investigated the matter

saying that the charges against Senator Daniel are untrue. If you want to read them we'll be glad for you to come by this office and do so. Meanwhile it looks appropriate to us to vote for the man who has made his campaign for governor upon his merits—Price Daniel. Mr. Yarbrough, through his various campaign managers, has continued the practice of trying to smear the name of his opponent in order to win the election. It's a poor way to campaign, and we don't believe that it will get the votes.

THE DEMOCRATIC National Convention is over and you know the nominees. We were pulling for Stevenson because we believed him to be the most moderate candidate who had any chance for the nomination. Of course, Lyndon Johnson would have pleased us more but he never had a chance from the beginning. Stevenson has his faults but so do the other candidates and some of them a lot more than Mr. Stevenson. We were sorely disappointed in Kefauver's nomination as vice-president but Kennedy wouldn't do either. Kennedy is a noted "gold brick" as far as work goes in the Senate, so the boys in the know say. He's always on hand to take the plaudits but he never gets around to doing the work. He's also too liberal to suit our taste. In fact the only thing we know good about him is that Harry Truman was against him. But Kennedy was a comparative unknown and also a devout Roman Catholic, the combination of which would have not helped the ticket. Probably the selection of Stevenson and Kefauver produced the strongest ticket possible for the Democrats to bring out. Both are well known and both have a considerable following.

THE FARM BELT and the South had better digest Kefauver as best they can and support the Democratic ticket this year. The Democrat's civil rights plank is bound to be more moderate than that which the Republicans will adopt this week. The revolt of several states four years ago taught the Demos a lesson and they gave the so-called "Solid South" a little more consideration this time — with a little aid from Sam Rayburn. Another reason for supporting the Democratic ticket is, of course, the farm situation. Mr. Eisenhower forgot his 100% of parity pledge and thereby left the poor farmer in a mess. We are sure that the Democrats, if given the power, will do better by the farmer. As far as socialistic tendencies go, the Democrats couldn't be any worse than the Republicans have been in trying to socialize the national government.

THE STRONG NORTHER which blew in Saturday, the 18th of August forecasts an earlier than usual frost this year. The old saying "90 days from the first norther to frost" pretty well holds good most of the time. Last year the first norther came on August 29th and the first frost on October 21, just 56 days. If the saying holds good, we will have a frost this year around October 18. However cotton is early this year much earlier than it has been in any recent year. Farmers will probably be ready for a frost by October 18th, maybe before. Last year they weren't ready because of the

'HARVEST GUARDS' REFLECT ECONOMY

How do conditions compare with those of one year ago? Individually, the situations will vary but, from an overall viewpoint, there appears to be a radical difference.

The sudden appearance of "harvest guards," for instance, is a far cry from the attitude in 1955 when everyone you met invited you to "come on out and get some spuds." Last year many farmers left their potatoes in the field, rather than pay out money to gather them. This year the price has soared to the point where a single potato has run as high as 10 to 15 cents in cost. Such a situation makes it inevitable, therefore, that nightwatchmen would be employed to watch over potato, carrot and onion fields.

A unique circumstance appears in the psychology of the situation, too. Very few "potato pilferers" would go into super markets and shoplift vegetables, yet they think nothing of taking them from the fields. Farmers insist, however, that the loss amounts to the same with them as with the food store, which is able to close and lock its doors at night.

Last year when prices were extremely low, jobs were scarce, his year practically anyone who wants to work can find employment. People who

late crop. Grades were poor and yield was down. This year we have probably the earliest and best cotton crop seen in this area in many years.

POLITICAL CONVENTIONS

Speakers at the Democratic Convention are having trouble holding their audiences, judging from the empty seats visible on TV. Could it be that the delegates don't enjoy all that corn shucking and ham slicing any better than we do? For example, Sam Rayburn slapped at the Republican administration and their failure to do something and then bragged that the Democrats outnumbered the Republicans in both houses — which explains why some Republican proposals have never been passed by the legislative bodies. It is difficult to separate the statistics and the record from the corn. But if you think this convention is different, just watch the Republicans when they convene. Television party conventions may be the beginning of the end of the present system of selecting presidential candidates. The sickening rottenness of politics is now evident to every TV owner and from this educational look into conventions may come a public demand for the election of presidents on a popular vote rather than the present political boss-operated system. — Bits of Nothing in St. Jo Tribune.

The Champ, one of the most remarkable exhibits in agriculture, is now touring the country, stopping at many of the major state fairs and livestock exhibitions. Produced by the Ralston Purina Company, it is dedicated to promoting a better understanding of the cattleman's business of producing beef for our nation's people. Visitors may walk through the giant steer's body and see realistic demonstrations of how feed and roughage are made into beef. People enter the animal by doors that open out of the neck. Inside, they see how the vital organs of a steer's body work in the production of beef. They also see demonstrations of how a cow makes milk and how an unborn calf develops from a 30-day to a 9-month embryo. So life-like is the exhibit that the body gives off the sound of the steer's breathing and heartbeat. The Champ stands 12 feet tall, 19 feet long, and nearly 6 feet wide. It weighs 4000 pounds without the tractor and trailer. The exterior was built in 25 different parts, then assembled out of doors. Leading veterinarians and animal nutritionists assisted in making the interior displays.

Cotton Acreage Drops, Yield Remains High

College Station.— Cotton acreage has dropped in the nation 37 percent since 1951 but production by only 3 percent. In Texas, John McHaney, extension economist, reports the acreage of cotton dropped 42 percent during this same period but production only 1 percent.

Production is up because, he says, there is no better income-producing enterprise than cotton for the cotton belt. It is a dependable crop and responsive to improved practices. He predicts that acre yields will continue to increase. Since 1951, nationally, yields are up 52.9 percent and in Texas 69.9 percent. Too, production in the Far West has increased very rapidly where yields average around 700 pounds an acre. Other areas making noticeable production increases have been the Mississippi Delta, Lower Rio Grande Valley and the Texas High Plains.

McHaney points out cotton has been planted on the better land and that growers are also using better varieties, cultural methods, following stricter insect control programs, using more fertilizer and irrigation to increase production. Too, he believes, as more and more of the known production technology is applied, yields will continue to rise.

From the consumption standpoint, McHaney says cotton has not shared the increase use of fiber. In 1920, cotton's per capita consumption was 26.5 pounds and in 1954, 25.4 pounds. Per capita consumption of synthetic fibers in 1920 was only 1 pound while in 1954 it was 9.1 pounds. The per capita consumption of wool, silk and flax was 3.5 pounds in 1920 and 2.4 pounds in 1954.

McHaney expects consumption of cotton to increase with the rising population but points out that cotton faces a crisis in its research program to meet its competition with other fibers. He says strong competition from foreign cotton producers can be expected and if

present trade policies remain in effect exports may equal or slightly exceed the average for the past four years. Because of incentives and opportunities to apply technology, production is expected to continue to exceed demand.

Mr. and Mrs. Harley Workman and family will leave Friday for Red River where they will spend their vacation. Their daughter, Harleen, will arrive in Lockney Thursday and will make the trip with them. She has been attending summer school at North Texas State in Denton.

Indian Dance At Canyon Sept. 1-3

Some 80 of the best Indian dancers in the nation will appear in Buffalo Stadium in Canyon on Sept. 1, 2 and 3 for the first annual Palo Duro Indian Ceremonial.
Representing the Kiowa, Comanche, Apache, Caddo and Wichita tribes of Oklahoma, the dancers will perform in two shows daily during the Labor Day weekend. The afternoon shows, which begin at 2 p. m., will be made up of various tribal dances and Indian games, and each day's performance will be completely different.
The evening performance, beginning at 8 p. m., will be a historical pageant entitled "The Peace Pipe of the Prairie." The pageant composed and staged by the Indians, will cover the history of the Plains tribes from before the time of the Spanish to the present.
Included in the pageant will be demonstrations of the Indian way of life before and after the horse was introduced, ceremonials and dances. One of the dances which will be performed only at the pageant will be the Geronimo Apache Fire Dance.
One of the dances to be shown on the first afternoon performance is the Shield Dance, in which two dancers, armed with spears and shields typify a mock hand-to-hand battle.
Another dance to be performed will be the Horse Thief Dance, which was danced in

the old days in honor of the horse stealing activities of the tribes. The dancers look along the ground for horse tracks and signs of other Indian tribes and settlers. The dancers trail and signs they find and capture the horses.
Tickets for the Palo Duro Indian Ceremonial will be on sale at the gate. Prices are \$1.50 for adults and 75 cents for children under 12.

Savings Bond Totals Are Released

Joe Giddens County Savings Bonds Chairman announced today that the citizens of Floyd county purchased \$16,637 in U. S. Savings Bonds during the month of June. Sales for the first six months of 1956 were \$146,519, which is 45.8% of its 1956 quota of \$320,000. Sales in Texas for the same period were \$98,307,958, which is 45.2% of the 1956 quota of \$217.5 million.

Chairman Giddens reminded the people that by their continued purchase of Savings Bonds they are helping themselves and their government. By putting more of the National debt in the hands of individuals, citizens of Floyd County are helping the government in its efforts to maintain a strong and stable economy. Not only are the people helping the government, they are purchasing one of the strongest and safest investments in the world today.

Series E Savings Bonds pay 3% interest, compounded semi-annually, when held to maturity, and both interest and principal are fully guaranteed by the U. S. Treasury Department. "I feel confident," Chairman Giddens continued, "that the people of this County will get behind this worthwhile program and that Floyd County will make its 1956 quota."

Judith Nicholas, Don J. Crumbley United

THE ISSUE IN THE GOVERNOR'S RACE

From now until Saturday night, you had as well shut off your television and your radio — All you are going to see is the face of Senator Daniel, and all you are going to hear is his voice proclaiming that he is for home, love and mother and against sin. But remember, with Allan Shivers openly endorsing Senator Daniel, and the powerful Shivercrat machine, built up with the spoils of more than seven years of Public Office, openly supporting Senator Daniel — Endorsement and support that Senator Daniel has never repudiated or denied — There is but one real issue in the Governor's Race — Whether you will vote for Ralph Yarborough and an honest Democratic Administration in Austin, or for Senator Daniel and a continuation of the most scandal-ridden Administration that has ever disgraced the honored name of Texas — Veterans Land Scandals, Insurance Scandals, Legislation by lobby and all the rest. Think it over.

Rural Voters Overwhelmingly Support Will Wilson for Attorney General

Will Wilson, Democratic candidate for Attorney General of Texas, has much in common with the rural folks.

He's a farmer too! He is sharing with many of them, disheartening experiences with the drought.

Wilson loves the land, and is a practical farmer. He spends all available time trying to fix his fences and to save the crops and trees he planted himself.

Wilson recently toured Texas with the Soil Conservation Service inspecting the small dam projects planned for creeks. He believes that this form of flood control is a possible solution to the water problem.

As attorney general, Will Wilson will act as legal advisor to the Agriculture Commissioner. During his campaign for Attorney General he has pledged strict enforcement of water conservation laws and water rights.

Rural voters of Texas feel that as their Attorney General Will Wilson can bring the attorney general's office closer to them and their problems, as he shares the same problems they have on their own farms.

In the July primary election, Wilson gained overwhelming support of the rural voters. He carried 206 out of 254 counties. In a four man race he received over 49% of the vote and a 185,000 vote lead over his nearest opponent. A total of 673,000 Texans voted for Wilson, in the primary, giving him more votes than any other candidate received in the governor's lieutenant governor's or attorney general's races.

Floydada Couple Is Wed Friday

Miss Ardyth Hateher and William Norman Thomas were united in marriage Friday, August 17, in the First Methodist Church, Floydada.

The bride is the daughter of Mrs. H. A. C. Brummett, Thomas is the son of Mr. and Mrs. Ernest Lee Thomas, Blanco community.

The Rev. Tilden B. Armstrong read the double ring service at 10 a. m. before an altar surrounded by palms and baskets of white gladioli. Candelabra containing white candles flanked the altar.

Mrs. Lucy Dean Record, organist, played traditional wedding music and accompanied Rush Wheeler as he sang "Because," "Walk Hand in Hand" and "The Lord's Prayer."

The bride was given in marriage by her step-father, H. A. C. Brummett. She was attired in a dress of light blue embroidered cotton satin. The princess-line dress featured a classic V neckline with short fitted sleeves. The street-length skirt was full. A tiny hat accented with jewels and a brief veil completed her ensemble. She carried a white satin Bible topped with white gardenias tied with blue streamers.

Miss Peggy Life, Booker, Texas, was maid of honor. She wore a pink linen sheath dress. The fitted bodice was accented with a picture neckline and short sleeves. She wore pink accessories and a white gardenia corsage.

Max Crawford served the bridegroom as best man. Ushers were Elvis Lowrance and Melvis Lowrance.

Candles were lighted by Margwen Lackey and Keith Thomas, brother of the bridegroom.

A reception honoring the couple was held in the church parlor. Assisting with hospitality were Alice Elaine Latta, Mrs. Connie Bearden and Miss Gerry Graves.

A graduate of Guymon High School, Guymon, Okla., the bride attended Oklahoma A&M and West Texas State. Her husband, a Floydada High graduate, is engaged in farming in the Blanco community. The couple will be at home in Floydada.

Community Says Farewell To Family

Rev. and Mrs. H. L. Anderson and sons, David and Stephen, were honored with a farewell party on Sunday evening, August 12, 1956, at Trinity Lutheran Church, Providence. They were presented with a gift in appreciation of their eight years of service to the Church and community.

Mrs. Ernest Sammann registered about 150 guests. On the table with the guest book was a moving van filled with candy kisses.

The serving table was laid with a white linen cloth. Adorning each end were arrangements of pink roses flanked with pink candles. A large sheet cake iced with a replica of the church centered the table and was surrounded by tiny pink rose buds.

Alternating at the serving table were Meses. Hubert Stoerner, Charlie Boedeker, Albert Scheele, H. F. Quebe, Ted Boedeker, E. M. Quebe and L. B. Brandes.

Sons Are Honored
David and Stephen Anderson were given a farewell party by their Sunday School teachers August 15, 1956, in the home of Mrs. E. M. Quebe. The teachers are Mrs. Quebe and Mrs. Albert Scheele.

Games were played and refreshments were served to about 25 children and their mothers.

David received baseball shoes and Stephen, boots, from their classmates.

dollars?

Even with hospitalization or insurance, time spent being sick still costs you money! In the past it often meant long periods of recuperation and absence from work with loss of income.

Luckily today these expenses can be largely avoided thanks to the effectiveness of modern miracle drugs. The wonderful curative powers of the antibiotics, the sulfas and other present-day medicines have practically eliminated the long periods of recovery for many illnesses. When you realize this, the few dollars that your prescription costs are indeed a bargain.

POINT OF NO RETURN !

More intently than ever the pilot now watches his dials, cocking a sensitive ear to the motors' rhythm. He has reached the point of no return. He dare not turn back.

Years of research by scores of scientists have perfected his plane. Hours upon hours have been spent in readying it for the journey. If something goes wrong now, the pilot will know instinctively what to do, because of his long years of training.

Like the pilot, you try to prepare for emergencies. You realize that without training beforehand, it is impossible to meet a crisis wisely and adequately.

The spiritual knowledge you'll need for these times can be found in the Church. Through its guidance you will learn to meet everyday problems with serenity, and emergencies with confidence.

Begin right now to strengthen your spiritual reserves of courage, faith, and hope. **TODAY** is your point of no return.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

(Continued from Page 1) ds, stamps and other valuables were saved because they were in the big safe. The safe itself was badly scorched on the outside but the contents were undamaged. Mrs. Griffith said. The safe was moved to the new location and put back into use immediately. Lost in the fire was \$192 worth of stamped envelopes and stamped postal cards which were in a case outside of the safe.

Equipment Borrowed
Mrs. Griffith and Pfannmiller scurried around Monday borrowing various items of equipment in an effort to get the post office back in operation. They secured several sections of old boxes from the basement of the Baker Dry Goods store here. Some of these were old pieces used in the early day post office at Lockney and still carried the names of a number of old timers here.

Other pieces of equipment were borrowed from Plainview and Floydada post offices, from Byrd Pharmacy, the First National Bank and other places. Salvaged from the burned building were several rural carrier cases which have been put back into use. Other equipment is being sent here from Lubbock.

Mrs. Griffith expressed her thanks Wednesday for all the help she had received during the emergency period. "I certainly appreciate the co-operation and understanding of the people, the fine work of the Lockney Fire Department, and the help of a number of people. The local postal employees and rural route carriers were all very helpful, as was Mr. Pfannmiller, the postal inspector, Mr. Oliver Bier, postmaster at Plainview, Clay Fowler of Silverton, the Floydada post office, the Byrd Pharmacy, First National Bank and many others who helped us in one way or another.

"We just ask that you be patient with us for a while until we can get the office back in condition where we can give you better service."

Postoffice Fire—

(Continued from Page 1) ported to have contacted the postal inspector, Mr. Pfannmiller, regarding their building a new building for the post office. However, a postal inspector from Fort Worth is expected to be here within a few days regarding the post office location. He is in charge of the negotiating of leases on buildings and Pfannmiller has nothing to do with that phase of post office operations, he said. Speculation here was as to whether the old building would be rebuilt and the office returned there or a new building built in another location.

Cubs-Tigers Win All-Star Game

The Cub-Tiger all-star team won the sugar game of the two-out-of-three series with the Reds Braves all-stars last Saturday night. The score was 23 to 16 and home runs were the order of the day. At least 10 of the scores came on home runs.

The two all-star teams, selected from the Pony League here, had previously played two games with each winning one. The Saturday night game wound up the Pony League activity for the season.

The local Pony Tigers team returned a game with a Plainview team last week losing it 4 to 0. Previously they had defeated the team 16 to 5.

Firemen Asked To Meet Monday

All firemen are urged to attend the regular meeting of the Lockney Volunteer Fire Department Monday evening of next week, Fire Chief Audvie Barnett said Wednesday.

First Norther Drops Temperature To 52

The first norther of the year, which blew in Saturday evening late, wasn't fooling much because by Monday morning the temperature had dropped to a chilly 52 degrees, according to the Weather Bureau at Plainview. This would have been a record but on August 20, 1917, the temperature dropped to 50, a record low for August.

On Sunday the low was 70 dropping from a high of 99 degrees on the previous Saturday. By Wednesday temperatures had warmed up again and we were again having hot weather.

W. Jones Shows Up Good In Game

Weldon Jones, Lockney's all-district guard, did a fine job in the Greenbelt game at Childress last Friday night although his team lost. Weldon was on the west team which lost to the East team 27 to 6.

Coach Rudy Halle reports that Weldon made more tackles than any other member of his team and generally played a fine game. He was used mostly on defense. He never missed a defensive play, Halle said.
