Vincent Family Reunited, Are Moving To Okla.

The C. L. Vincent family was reunited here this week and they are moving to Cheyenne, Okla., where they will live. Vincent told a Beacon reporter Wednesday that "Cheyenne will be a temporary home until I get my other business settled."

Vincent was released from Hale County jail Sunday afternoon on a \$3,000 bail after being charged with murder Saturday night in the pistol slaying of Virgil E. Johnston, 31, a former employee. Johnston collapsed and died of a bullet wound in the chest as he ran down an alley in Plainview about 10 p. m. Saturday.

Vincent waived examining trial at his arraignment before Justice of the Peace W. J. Lewis in Plainview Sunday afternoon. His bond was set to await action of the Hale County grand jury which meets June 3.

Vernon Daniel of Lockney, Vincent's father-in-law and a number of other relatives and in-laws were on hand for his arraignment Sunday. Vincent accompanied them back to Lockney and was still here Wednesday.

The Vincent family lived in the Lone Star community last year where he farmed. Previously they lived near South Plains. They have lived in this immediate area for several years and he has been engaged in farming and custom farm work. He also has been in the trucking business.

Johnston worked for Vincent last year and up until January 24 of this year, Vincent said Wednesday. The victim had lived in the Lone Star community while driving a truck for Vincent. Recently he has been working in Lubbock but was preparing to move to Sayre, Okla., officers said.

Vincent and his wife have been estranged the past several months. He has been living at Cheyenne, where he has an interest in an implement firm. Mrs. Vincent has been working in Lubbock. Vincent went to Lubbock Friday in an effort to effect a reconciliation with his wife. The couple came to Lockney Friday afternoon and prepared to pack and move to Cheyenne, Saturday. Mrs. Vincent left the farm home alone. Early in the evening Vincent took the children and drove to Plainview. Late in the evening Vincent saw his wife and Johnston sitting in her car parked on Sixth street. Vincent told officers that he stopped his car and walked up to the car in which the couple were sitting. He said that Johnston had a gun in his hand. Vincent said that he fired one shot while Johnston was sitting in the car and another shot after he got out of the car. He did not know which shot struck him. Johnston staggered a few steps and collapsed in the alley.

Vincent immediately went to the police station in Plainview and told officers, "I just shot a man. You'd better call an ambulance." He surrendered a 22 calibre automatic pistol to the officers at the same time. He also accompanied them to the scene of the shooting. Officers detected no sign of life in Johnston when they arrived at the location. They found a 22 calibre revolver under his body, they reported.

Vincent told a Beacon reporter Wednesday, "It was just something that had to be done."

Johnston and his wife have been divorced several years. They have a daughter. Survivors include his parents, Mr. and Mrs. V. U. Johnston of Sayre. The body was shipped to Sayre Sunday afternoon for interment.

N. S. Abbott will direct the music which is based on scripture relating the death, burial and resurrection of Christ. Approximately thirty members of the Concord (young people) Choir and Adult Choir will participate.

This cantata is Mr. Eboalt's 1956 edition and is rated one of the finest in the field of Easter music. The choir has spent many hours in practice time during the past few months in preparation and it is expected to be the best performance they have offered.

Junior-Senior Banquet Friday

The annual Junior-Senior banquet for Lockney High School will be held Friday evening of this week at the Hilton Hotel in Plainview. The program starts at 7 p. m. Teachers and members of the school board will be special guests for the occasion. Some 125 are expected to attend.

Highlight of the evening's program will be the revealing of banquet favorites from the Senior Class. These will include the boy and girl considered most popular, the friendliest, most likely to succeed and most dependable.

Also the class prophecy and the class history will be read. A girls sextette from the First Baptist Church of Plainview will present a number of vocal selections during the evening's entertainment.

David Howell, president of the Junior Class, will act as master of ceremonies. Roland Watson is the senior class president.

Following the program, one group of the students will dance in the Hilton ballroom while another group will attend a party specially planned for the occasion at the home of Sally Cox, daughter of Mr. and Mrs. Leslie Cox, in Lockney.

School Committee Hears Reports

The Citizens School Committee met Monday evening with members of the school board to hear various reports on the school curriculum. Some 20 people were present for the meeting.

The clinic begins at 8:30 a. m. until noon and from 1 p. m. to 3 p. m., and is sponsored annually by the local Parent-Teacher Association in the interest of healthier school children.

Parents incur no obligation by having their children examined during the clinic. If deficiencies are found parents may consult their family physician.

Lockney Post No. 141 received two certificates of merit at the convention, according to Curtis Williams, post commander. One certificate was because the local post now has the largest membership in its history and the other was for reaching its membership quota this year.

Local Legionnaires attending the annual convention were Kenneth Moody, A. J. Jester, Joe Taylor, Curtis Williams, Walter Gloyna, Bill Whitlock, "Bud" Casey, and Wayne Bybee.

Cotton Meeting Set Here May 10

John T. Gregg, representing the National Cotton Council met with a group of area ginners and others here Monday morning for the purpose of planning a mass meeting of farmers and business men. The meeting has been set for May 10th at the high school auditorium.

Mr. Gregg pointed out that the total market for U. S. cotton can dwindle to as little as \$8 million bales within the next four or five years or it may grow to as much as 16 million bales, depending upon what steps growers, spinners, and others interested in the cotton industry take to remedy the present trend. Facts supporting this statement will be presented at the meeting. Colored slides, charts and other information will be used to inform the cotton producer exactly what the status of the cotton market is at present and what the National Cotton Council is doing and plans to do. Mr. Gregg said.

The meeting here is one of a series which are being held and will be held over West Texas.

I will not leave you comfortless; I will come unto you.—John 14:18

THE ENTIRE COMMUNITY has ample reason to be proud of the Lockney Longhorn Band after their performance last Thursday evening. The "Colo-rama of 1957" was one of the best shows presented here in years and lived up to all expectations. Quality of performance as well as the beauty of the scenes was excellent. Congratulations to every member of the hard-working band and to Director Clyde Seaman. It was a fine show. And Bob Miller did a fine job as MC.

THE ONLY DISAPPOINTING thing about the show was that the auditorium was not overflowing. It was comfortably filled, which is perhaps all that can be expected in such busy times, but had the people of the community realized what was in store for them, no doubt but that the balcony would have been filled also. If we are to continue to have a band we can be proud of, it must have the support of a big part of the community. We're hoping that the support for the band grows with each season.

THE BAND PARENTS CLUB is the band's most ardent supporters, of course. That organization has raised and spent some \$3,000.00 during the present school year for the band needs. This money includes instruments, equipment, building repair and similar items.

It is a good record which probably few organizations can touch. But the Band Parents Club has been unable to even touch the present crying need of the band and that is for new uniforms. Neither does the school board see their way clear to help. The band's present uniforms are 10 years old. They no longer look nice and neither are they adequate for the band needs. In some instances band members do not dare stoop over in their uniforms for fear of rips. The cost of 60 new uniforms would run around \$1500.00. It is imperative that the band have new uniforms by next fall and that would require that the order be placed soon. Got any ideas?

WE WOULDN'T want to disappoint our Yarborough supporter friends by failing to mention the Senate race last week. They all seem very happy and we are happy for them that at long last they can be happy. After all every man is due a little happiness in life. But we see no reason for gloating. Mr. Yarborough goes to the Senate with the support of less than two out of every five voters. Such a "back door" entrance to a public office seems to us would be a mite disappointing to even such a persistent campaigner as Mr. Yarborough. However beggars can't be choosers and we suppose that, after all the years of trying, even that kind of a win is welcome.

AS WE SEE IT, Mr. Yarborough is going to find himself in somewhat of a pickle, however. If his legislative program pleases some of the radical elements that helped to elect him he will lose the support of a lot of other people who are not so radical. If it does not please the radical element they will find themselves another candidate and he will probably not gain much support from the conservative group. It will be interesting to see just how he manages this situation.

HAVE YOU written your Congressman asking that he do all he can to trim the national budget. As we read the daily newspapers there is much pressure being exerted on Congress to reduce the budget but there won't be enough until every voter lets his voice be heard. After all, Congress is your hired servant — not your master. Let's help them know what we think. Even Mr. Yarborough will probably need some help on such a large undertaking as this.

SLEEPING SICKNESS POSES CHALLENGE

Efforts on the part of city officials to stamp out the threat of any possible sleeping epidemic is a movement which demands community wide support.

Encephalitis, commonly known as sleeping sickness, was until recent years practically unknown to this area. In 1954 and 1955 a few cases were diagnosed and in 1956 a record high of 18 cases were actually diagnosed for Deaf Smith Co. Carrying much the same symptoms as polio, sleeping sickness in many ways can be considered an even worse malady when viewed on a practical basis. Certainly, it far outnumbered the polio cases in this area last year. Public recognition of the hazard was, in fact, the only point where sleeping sickness fell short when compared with polio.

Elimination of typhoid fever killing off mosquitoes has been so effective in other areas that there appears to be little question but that sleeping sickness can also be wiped out.

Compared with vast swamps and similar hazards in many areas, elimination of mosquito carriers in this Plains county is comparatively simple.

With the City of Hereford taking the lead in the movement, the situation appears to be well in hand on a local level. The only catch will be that of complete and thorough cooperation on the part of the public. Since the average person stands to gain so very much from the movement, it is logical to expect that cooperation.

Rural resident, possibly in a less fortunate position, might also prod county officials into some definite action, since government tests show that certain types of irrigation ditches and practices contribute to mosquito growth.

We are for wiping out polio, of course, but it does seem stupid to sit around and let an even worse situation develop when a little effort and leadership could most easily wipe sleeping sickness from the entire face of the Panhandle Plains. — Hereford Brand.

MR. SUMMERFIELD
I notice where Mr. Summerfield expects to close the post offices on Saturday and save something like \$17 million. All in all, this sounds like a pretty good deal, except why don't they close on Wednesdays? This way folks wouldn't miss two deliveries in a row like they will on Saturday shut-downs. Another thing, what happens to the \$17 million we save? Will we get lower taxes or cheaper stamps? — Jimmie Gillentine in Hereford Brand.

Dear Editor:
I see where President Ike says his \$72 billion budget was "intelligently" devised, which I guess is just a back-handed way to say that any sorcerer who objects to it is non-intelligent.

Mr. E... gets pretty irritated at the way a lot of people are criticizing his budget and his driving days, but he will just have to take this as one of the drawbacks of being President.

He is not the first Chief Executive who has noticed that the longer a man stays on this job, the stupider everyone else gets.

Here This Week

"Giant," the film everyone is talking about, will show in Lockney for six nights and three matinees beginning next Friday night at 8:00 o'clock. Taken from a best seller novel by Edna Ferber, the screen play is by Fred Guiol and Ivan Moffat. At The Plains theatre the show can be seen each night Friday, Saturday, Sunday at 8 p. m., matinees at 2 p. m. Saturday, 1:00 and 4:00 p. m. Sunday. At the Seale Drive-In the picture will show Monday, Tuesday and Wednesday at 7:40 p. m.

The three-and-a-half hour production takes its name and setting from the great state of Texas and stars Elizabeth Taylor, Rock Hudson, James Dean, Carroll Baker, Jane Withers, Chill Wills, Mercedes McCambridge and numerous other top performers.

Rock Hudson, young, wealthy Texas ranch owner goes to Maryland to buy a stallion. Here he meets and falls in love with Elizabeth Taylor who accompanied him back to Texas. Complications arise between the two over the status of the Mexican workers on the ranch and one day she takes their two girls and boy back to Maryland for a long visit. They are later persuaded to return. The youngsters grow up, but not as Hudson had planned. The saga of this Texas family over a period of years proves highly entertaining. Some say the end result would have been better had there been more footage devoted to character development of those who surround the family, while others will say it's perfect as it is.

ACCORDING TO THE EXPERTS

Cornell University experts say that it's usually safer to avoid heat when washing plastic measuring cups, spoons, and mixing bowls. Just temper the hot suds, and rinses until the water is comfortable to your hands.

United States submarines sank 214 naval and 1178 merchant vessels in World War II operations against the Axis powers.

Spring House Cleaning Is Out Of Fashion

College Station — Spring, or fall house cleaning, for that matter, is fast going out of fashion, according to Minnie Bell, extension home management specialist. It's a killing job when all of it is done at one time.

Smart homemakers are learning that they will look and feel better, and appearance of the home will always rate tops if some of the special cleaning jobs are planned throughout the year, along with the regular cleaning.

Women are both managers and workers in most homes. Even women with maids will get more for their time and money if they plan ahead. Good management means choosing the best time to do a job, choosing the easiest method, and keeping supplies and cleaning equipment handy and in good condition.

Keep plans simple and flexible, suggests specialists. Start by listing the jobs that need to be done. Decide when they should be done and make a schedule. If family members help with cleaning, decide who will do each job.

Work out the best method for doing each job. Ask yourself "What do I do and why?" Answer by checking the way you work. Chances are you will be able to eliminate steps and cut down on walking, standing, carrying, stooping and reaching.

Decide what tools and supplies will be needed for the various jobs. Locate them in the most convenient places. Small equipment and supplies can be assembled in an open basket or box with a handle which can be carried easily from room to room. Convenient cleaning closets save time and energy and keep equipment in good condition.

Methods for cleaning walls, woodwork, floors and furnishings are given in Extension Bulletin, "Housecleaning Made Easier." Copies are available from your local home demonstration agent's office.

Grass Seed Is Urged By Board

Planting grasses for seed production is urged by the Floyd County Soil Conservation District Board of Supervisors. They are pushing this practice because of the heavy demand for grass seed to be used in Soil Bank Conservation Reserve program and to re-seed the range land that has been damaged by drought. Any local source of seed that can be obtained will give better results than one that is not climatized or adapted to this area.

There have been several farmers who have grasses for seed production, but only two have made preparation to plant them. Eddie Fortenberry and Bill Sherman of the Barwise community are planting Blackwell Switch, side oats Gramma and Indian grass. Eddie is planting 20 acres of each grass and Bill about the same amount.

The expected seed yield per acre of this grass the first year under irrigation are: three to five hundred pounds of Switch grass, one to three hundred pounds of Side Oats Gramma and a light to two hundred pounds of Indian grass. With proper care the expected yield per acre the second year is from 300 to 1000 pounds on the Switch grass, 300 to 500 on Side Oats Gramma and 500 to 1200 on the Indian grass. Other grasses that produce well on tight soils are Blue Panik and Weeping Love grass.

The best results are received from any grass planting when the grass is planted at a depth of one fourth to one half inch deep, never exceeding three quarters of an inch. The seed bed must be firm and should have a good protective cover of little when grasses are to be used for seed production it is best to plant them in a good soil and in thirty-eight to forty inch rows, for they will need cultivating three or four times the first year and

irrigation. While on dry land they should be planted in twenty inch rows or drilled with a ten inch spaced grass drill and sown on the contour.

The seed rate should be based on the amount of pure live seed, which is affected by purity and germination of the seed. For those who are interested and want further information on grass planting, either for the Soil Bank Program or grass seed production, contact any of the technicians at your local soil conservation service office located in the

Agriculture building at Floydada.

June was named after Juno, goddess of marriage.

The submarine was not generally recognized as a legitimate instrument of warfare until the Civil War.

Employment in the oil-producing branch alone of the oil industry increased over 40 per cent in the past ten years — from 220,200 in 1946 to 312,000 in 1955.

Cotton Farmers . . .

Yes, there are good, practical reasons why so many West Texas farmers are changing over to PANHANDLE MUTUAL HAIL ASSOCIATION hail insurance. A few of the reasons are listed below:

1. The Panhandle Mutual Policy is the only cotton policy that does not have the replant clause.
2. We do not adjust cotton on the stand population basis.
3. We do not defer our losses until fall.
4. Our adjustments are prompt and honest adjustments made by local adjusters.
5. Free cancellation due to crop failure until June 15.
6. This is a farmer's company.
7. No interest charge on notes until after maturity.
8. The only company which has an arbitration clause in the hail policy.
9. Our policy is written to fit West Texas cotton farming conditions.
10. We limit our liability per township and per section so as to avoid overloading.
11. The last and most important is the fact that we now have catastrophe reinsurance with the Lloyds of London as added protection to our West Texas farmers against hail years.

Coke Party Honors Lone Star Couple

Mrs. E. J. Foster and Betty Jean were hostesses for a coke party in their home Friday afternoon at 3:30 honoring Mrs. Cleon Wylie. Mr. and Mrs. Wylie, newly weds, have recently moved from Lockney to Lone Star to make their home. Mrs. Wylie was a resident of the community before her marriage. More than 30 Lone Star neighbors attended.

Assisting Mrs. Wylie in greeting the guests were her mother, Mrs. Floyd Jackson and grandmother, Mrs. Buck Sams.

Laid with bamboo mats from Hawaii, the dining table was centered with an antique dough bowl filled with ice and cokes. The bowl belonged to Mrs. R. W. Smith. Also accenting the table was a Fastmokinippe which is a cluster of wooden spoons made in Sweden and used in that country as a token of love for the bride.

It takes the place of an engagement or wedding ring and the bride always keeps it hanging in her home for good luck. The Fastmokinippe was presented to the honoree as a hostess gift. A wooden tray made of monkey pod wood from Hawaii and a set of three wooden trays made by Mrs. Foster's son, Eddie Joe while in Cub Scouts were laden with a variety of homemade cookies.

Arrangements of giant-sized yellow jonquils from the Foster flower garden were used throughout the house.

The honoree was presented with a kitchen foods shower. Many cans of food were marked with poetry, advice to the bride or recipes for love, instead of the name of the cans contents label.

Paul Montandon Is Honored At Party

Mrs. Tommy Montandon honored her son, Paul with a party on his fifth birthday, Thursday, April 4 from 3:30 to 5:00 o'clock in the Montandon home in Sterley community.

Hot dogs served in bandana handkerchiefs hobo fashion proved to be a great treat for the youngsters.

Enjoying the occasion were Kenneth Patterson, Karen Whiteley, Lanny and Oran Watson, Paul R. Montandon, Cindy Montandon and the honoree.

WHY A WOMAN "DOCTORS" UP A DISH

Any good cook likes to add her personal touch to what she serves. Take baked beans, for instance. If she "doctors it up" with ketchup and brown sugar, decorates the top with strips of bacon and puts it in the oven long enough for the bacon to crisp — she has a dish that's truly hers and some very fine eating, as well.

SYMBOL

Legend has it that, long ago, the dogwood came into bloom on Calvary and that, afterwards, a cross was implanted into the flower itself, to remain for all time. You can see it if you look closely, rust brown against the white of each individual blossom.

Many of us carry crosses, faint like the dogwood's emblem but with us, nevertheless. Somehow, in this Lenten season, we become particularly conscious of them and of our need for help—a certain kind of help, that can be found only through the things we learn in Church.

The Church doesn't pretend to banish our cares and woes. But, its teachings realistically consider the experiences of life itself. No matter what our personal cross may be, we seem able to bear its burden with more strength.

Lent is a wonderful time in which to begin making church-going a regular part of your life—if you haven't already.

**THE CHURCH FOR ALL . . .
ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

4-H Girls Prepare For Dress Revue

An estimated 350,000 teenagers are cutting, fitting and sewing outfits which they hope will be in the spotlight at their local, county, and state 4-H dress revues this summer. Their ultimate goal is to model the clothes in the national dress revue at the 4-H Club Congress in Chicago next December.

The 4-H dress revue program, directed by the State Extension Service, is designed to teach 4-H girls the highly important art of selecting styles, colors, and fabrics suited to their individual personalities and wardrobe needs. Poise, self-confidence and good grooming habits are developed along with leadership qualities and learning to work with others.

Merited awards will be supplied for the 11th consecutive year by the Simplicity Pattern Company. The state winners will receive an all-expense trip to the Chicago Club Congress, and a special gift of a leather encased scissors set. Blue award county winners will get handsome medals of honor.

Girls between the ages of 10 and 21 are eligible to enroll in the dress revue. Detailed information may be obtained from local 4-H leaders of the county extension office.

Refreshments were served to Mmes. McGavock, Lola Sparks, Ora King, Elva Reeves, Jewel Reeves, Artie Webb, Oleta Pruitt, and the hostess.

I see where some non-union working men are picketing a picket line where a union has stopped work on a construction job.

Which I guess is fair and reasonable as I have never heard that unions have any patent on the art of picketing.

But this sort of thing could go on and on if the union now decides to meet this emergency by setting up another picket line to picket the picket-picketeers.

Beacon Completes 55 Years Service

The issue of last week, April 4th, completed 55 years of service to the community by The Lockney Beacon. The Beacon was established here in April, 1902 by F. N. Oliver, an uncle of Leslie and Dr. J. M. Floyd.

This week completes 15 years as editor of The Beacon for Edgar R. Hays, who came here and leased the paper on April 14, 1942. It has been a very short 15 years as perhaps the 55 years has been short to some old timers here.

3 Lockney Students Help With Senior Plans At Wayland

Plainview. — Three Lockney students are helping as Wayland Baptist College prepares for the sixth annual Pioneer High School Senior Day, April 12, when more than 600 students and their counselors are expected for the spend-the-day on campus, according to Dr. Cecil Cosper, chairman. They are Frankie Sparkman, David Hartman and Johnny Warren.

High school seniors from Texas, Colorado, Nebraska, Eastern New Mexico and Western Oklahoma have been coming in increasing numbers to Wayland's Pioneer Day. Wayland students will put on a program of music, drama, devotionals, championship basketball demonstrations and a talent show. Auditions for the Wayland International A Cappella Choir and four music scholarships will be held in the afternoon. Harley J. Redin, director of athletics, will interview students who wish information about the Pioneers' team, which won the District 8 NALA championship this month, or the Hutcherson Flying Queens team, which this year won its fourth consecutive National AAU crown.

75% Of Million Dollar Goal Is Raised For College

With only thirteen of the 104 participating groups of members of the Churches of Christ in West Texas and Eastern New Mexico having completed their solicitation, Mr. O. T. Shipp, Area Chairman for the Lubbock Christian College Campaign announced today that over \$260,000 has already been subscribed.

Under the leadership of the local chairman, N. H. Gamme, the members of Christ in Lockney have raised \$9,710 for the new school. Paul Epps is the minister and F. L. Montandon of Lockney is serving as County Chairman.

Approximately \$500,000 has been raised among the congregations of ten churches in Lubbock and it is the object of the area campaign to raise a similar \$500,000 goal making in all, the contributions by the members of the Churches total \$1,000,000.

In a statement made by Dr. F. W. Mattox, President of the new school, regarding the area total of over \$260,000 he said, "With 37 groups having turned in only partial reports, 27 more working but having made no report and 28 groups yet to begin their campaign, there is no doubt of our reaching our \$500,000 objective."

Paul Sherrard, Chairman of the Board of Trustees, believes that the area solicitation could easily reach \$600,000 to \$750,000.

Effort is being made at this time to complete all solicitation by May 1st.

Change In Cotton Referendums Is To be Discussed

Dallas. — A meeting to discuss whether or not cotton growers should have a wider choice in referendums is scheduled for April 24, according to J. Walter Hammond, president of the Texas Farm Bureau.

The meeting, one of four being sponsored by the American Farm Bureau Federation in the cotton growing states, will be held at the Baker Hotel, beginning at 9 a. m.

"Alternative programs to be discussed would not supersede the present program," Hammond explained. "Farmers would simply have the choice of the present program or any alternate program that is developed," he said.

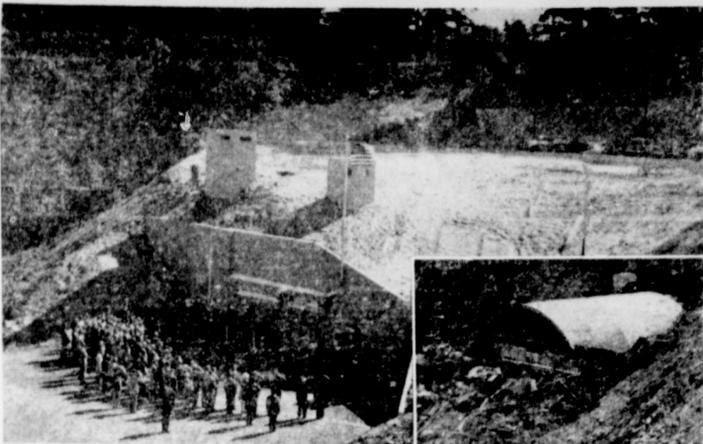

Commenting on the purpose of the meeting, Hammond stated, "It is generally recognized that the present program leaves no choice to the cotton farmer."

It is hoped, he said, that these meetings sponsored by the AFBF will develop a "more realistic" referendum choice.

"In order for any such alternative plans to be presented to growers in the next referendum, of course, necessary legislation will be required during the present session of Congress," he said. "Therefore time is of the essence."

Hammond encouraged all cotton growers to attend the Dallas meeting and "make their thoughts known" on the matter.

Information On Cancer Increasing

Austin — Ever since the first spark of life appeared on this earth, cancer has been one of the most fearsome, most enigmatic diseases mankind has had to contend with. But we know more about it than is generally realized. We know enough, in fact, that a diagnosis of cancer need not be considered a sentence of death.

We know that all types of cancer are different since they affect different tissues of the body. We know cancer has no respect whatever for age, although it does occur most frequently after 40. Conversely, we know it causes more deaths than any other natural cause in children between 9 and 12. Cancer is not inherited, except in perhaps two rare types. A tendency toward cancer may be passed from one generation to another, but the actual cancer cell is not inherited. This we also know.

We know that cancer is not contagious or communicable from one person to another. We know that certain agents or conditions will cause certain types of cancer or are factors in causing cancer. For example, exposure to sunlight over long periods of time (farmers, seamen) is known to cause certain types of skin cancer. Certain chemicals such as aniline dyes may cause cancer in experimental animals. An injury or prolonged irritation of the mouth or lip area such as sometimes comes with habitual pipe smoking is also a factor in causing cancer. Prolonged exposure to x-ray or radium may also cause cancer of the skin or other parts of the body.

We know that certain malignancies are self-limiting; that is, they have the curious property of curing themselves without treatment. This in an unusual happening, but it does occur for some unknown reason.

Perhaps the most important thing we know about cancer, many cases can be cured by early removal by surgery or by irradiation with x-ray or radium or a combination of these techniques. Rapid strides are now being made in treatment of certain cases with chemical compounds.

Since it can be cured, why do more than 10,000 people die in Texas with cancer each year? Because by the time the disease is recognized it is too far advanced for effective treatment. Half of these persons could be saved by early and adequate treatment.

If this one cardinal fact could be drilled into the minds of people until it moved them to action at the appropriate time, cancer deaths would skid downward almost overnight.

Here again are cancer's seven danger signs. It will pay to memorize them: Irregular bleeding or discharge from body openings, unexplained change in normal bowel habits, sore that does not heal properly, persistent cough, any lump especially on breast, constant indigestion, unexplained weight loss, and change in moles.

Hegari Varieties Are Discussed

College Station — There is a lot of difference in the varieties of Hegari now available to Texas Farmers. According to Associate Agronomist Lee Coffey, reports reaching him indicate that considerable confusion exists among farmers as to the variety of Hegari they should plant.

Coffey offers these suggestions to farmers who plan to plant one of the varieties of the popular grain sorghum: Regular Hegari, he says, is recommended for bundle feed. Under good growing conditions, this variety will make a plant about six feet tall and is an excellent producer of forage and grain. Seed supplies are said to be on the short side.

Who rates what for performance and smoother riding in the low-priced three? Chevrolet has laid the answer and the proof on the line!

First, Chevrolet won the Auto Decathlon over every car in its field, and over the higher priced cars that were tested, too. This rugged ten-way test (right, below) showed Chevrolet was the champ in handling ease, braking, acceleration, passing ability, smooth-

ness of ride and other driving qualities you want in a car.

Then, Chevy won the Pure Oil Performance Trophy at Daytona (left, below) as "best performing U. S. automobile."

It's quite a feeling to know that you are driving a car that performs so well, responds so beautifully and is so finely built. You feel proud, of course. But you also enjoy a surer, smoother, steadier way of going, a keen

Long before the white settlement of West Texas, Indians used the site of Abilene State Park at the foot of Big Chief Mountain as a camping place. The present-day park has been developed to facilitate picnicking and camping in the park's large grove of native trees. Rest rooms, a hundred thousand gallon swimming pool, grills, tables, benches, large parking areas and playgrounds provide comfort and added enjoyment for modern visitors. The park is reached over Farm Highway 89, southwest of Abilene.

Training Union Study Course which was held at the Baptist Church every week day night of last week was attained by Mrs. L. T. Wood, Mrs. Bryan Karr and Yvonne Grigsby Milton and Barbara, H. S. Here's what makes it a new kind of Ford

The frame is wider . . . wheels are lower
(Let's you ride sweet and low.)

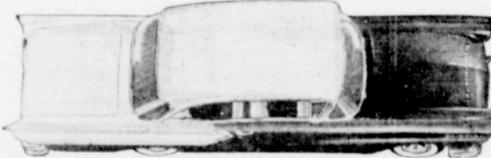

Never before has a low-priced car hugged the road so well. Partly, it's because the frame is sturdier. Partly, it's because the wheels are smaller. Partly, it's the way front and rear suspensions take tilt out of turns. Mostly, it's because there's a whole new smoother-riding quieter-going "Inner Ford."

The power is bigger
(Most power in Ford's 25 years of V-8 leadership.)
And what a V-8 engine! You can have the kind of Thunderbird power that smashed records at Daytona . . . set a new stock car mark at Indianapolis . . . traveled 50,000 miles in just 20 days at Bonneville, Utah!

The comfort is greater
(You've never had it so plush.)
You sit in the lap of luxury. There's head room, hip room, leg room galore. And wait till you get a load of those new upholsteries and color schemes!

The body is "beefier"
(Up to 9 inches longer, 4 inches lower, with full head room, full road clearance.)
From top to floor, front to rear, this body is built like a "battleship." You ride surrounded by new strength.

...and best of all it's the lowest priced* of the low-price three!

PTA Hears Tech Professor Tues.

J. B. Jallen, professor in the Educational Department of Texas Technological College, was guest speaker at the Lockney Parent-Teacher meeting Tuesday evening at the High School Auditorium.

Mrs. Burl Holt, president called the meeting to order and Mrs. J. M. Tye, program chairman, introduced Miss Sue Adams, who sang "Allegheny Moon." She was accompanied by Miss Janice Hays, H. H. Nicholas, School Superintendent, urged the public to write their senators about the teacher situation.

Mr. Jallen gave interesting information on the need for more class rooms, more students trained to teach. He urged the school to keep their good teachers, pay them a salary that will give them a reasonable amount of security and working conditions relieving unnecessary tension. He pointed out that the public should be kept informed on what the schools are doing allowing them to work together as one unit and stated that what people are not up on is what their schools are doing on.

Mrs. Dee Copeland's second grade room won the award and attendance banner for having the best percentage of parents present at the meeting.

In observance of National FHA Week, the local FHA chapter assisted by their sponsor, Mrs. Quentin Adams, served refreshments from the home-making dining room.

The last PTA meeting of this school term will be held May 14.

Each contest closes on Saturday night, and the tickets gathered at the Rhodes Super Market here will then be rushed to Amarillo where other stores will send their tickets. Bands "Colorama" Makes Great Hit

The Lockney Longhorn Band's "Colorama of 1957" received hearty applause from the large audiences who witnessed the performances Thursday afternoon and Thursday night in the high school auditorium. Band Director Clyde Seaman and band members are still receiving compliments through the mail and otherwise on their splendid work.

The "Colorama" based on a production by Peter DeRose, lived up to expectations of being the best performance the band has ever presented. Snappy variety numbers between band and orchestra music, spiced with spectacular lighting effects and the amusing antics of MC Bob Miller all blended together harmoniously for a marvelous entertainment.
