School Board In Routine Meeting

The board of trustees of the Lockney Independent School District held a routine meeting Monday evening. Among the business matters attended to were:

The board voted to buy approximately \$11,000 in school bonds, some with maturity date of 1984, thus saving almost an equal amount of interest. The board has had this under advisement for some time. Of the total, \$7,000 of the bonds were issued in 1954 and the remainder of little less than \$4,000 was the bonded indebtedness assumed by the district from the South Plains district when 10 sections of land were transferred to the Lockney district from that district.

The board agreed to deed the lots on which the County Cannery is located to the County, Commissioner Hugh Counts and County Judge J. D. McBrien met with the board briefly.

The board appointed an equalization board, composed of Ernest Tannahill, chairman, Hubert Frizzell and Alvin Wilson. The board will meet June 14-15.

The matter of the local colored school was discussed and the board voted to move the school building to a location on the Lockney Loop, secured by the Committee for Segregation some time ago, provided the said committee would use the money they have secured by donations to pay for the moving and improving the building. Supt. H. H. Nicholas said that the colored school building would be remodeled inside, a large room added which will be used for an auditorium as well as class room, an office for the principal provided and other improvements made.

The board re-organized following the recent trustee election but named the same officers as have been serving. They are Oscar Golden, president; Clark Harris, vice-president; Robert Lee Smith, secretary-treasurer.

Longhorn Relay Team Wins 6th

Lockney Longhorn's 440-yard relay track team, Cliff Hardy, Jerry Williams, Gene Handley, and Nelson Wofford, finished sixth in the Class A state finals held at Austin last Friday and Saturday.

The relay team was said to be in third place until the last exchange, but speedy anchor men such as Mike McClellan of Stamford (100-yard dash winner in state meet) and Sidney Garton, of New Boston (200-yard dash champ in state meet) pulled their teams into the lead. Stamford finished first, New Boston, second.

Lockney's team qualified for the finals by coming in fourth in their heat Friday in the preliminary race. A bad exchange possibly prevented a better finish in the preliminary run.

Jerry Williams, who ran the 100-yard dash in 9:7.5 earlier this year and Regional I winner in that event, finished fifth in a preliminary race Friday. Only the top four men entered the finals.

Nelson Wofford also won fifth in a 220-yard preliminary heat and did not qualify for the finals.

A wet field and damp weather hampered athletes in the meet. Also the Longhorn's training had been slowed down considerably for two or three weeks before the state meet due to wet grounds.

Coach Haile stated that he hoped to enter larger meets such as Odessa and Big Springs meets next year, thus giving the boys a chance to test stronger competition before the state meet. This year Lockney did not face extremely stiff competition prior to the state meet.

Barwise Lad Is Critically Injured In Fall Tuesday

Ross Baird, 7-year-old son of Mr. and Mrs. Earnest Baird of near Barwise, was critically injured in a fall at the Barwise elevator Tuesday afternoon. He suffered a badly fractured skull and was bleeding from the ears when brought to the Lockney General Hospital for treatment. Local physicians rushed him on to the Methodist Hospital at Lubbock for attention of a brain specialist.

The lad was playing in the elevator with two other small boys, relatives said, when they started climbing one of the ladders. The Baird boy fell, from what height is not known, almost knocking one of the other boys from the ladder. He suffered a two-inch cut on the side of his head also in the fall.

A report from the hospital at 6 a. m. Wednesday said that the boy was still unconscious and that physicians did not plan to operate unless a blood clot develops.

The family live two miles south of Barwise. The young fellow is a second grade student in Floydada schools.

Wheat Plow-Up Date Extended To May 20

Tom Hutchins, Floyd County ASC office manager, said late Wednesday that he had been advised by the Agriculture Department that the plow-up deadline for over-planted wheat acreage had been extended until May 20 in Floyd County. The extension provides, however, that the farmer must request it if it is to be effective.

Due to wet weather many farmers have not been able to get into the fields to plow up their surplus wheat. For this reason Hutchins requested an extension of the deadline last Monday. Deadline normally is May 10.

The requirement not only includes over-planting of wheat but also volunteer wheat on soil bank acreage, Mr. Hutchins said.

Segregation Group To Meet Tuesday

The Committee for Segregation and donors to the Negro school fund have been asked to meet at the J. H. Cooper Insurance office next Tuesday evening at 7:30. The disbursement of the money collected for the Negro school building is to be discussed, according to Dr. A. E. Hewitt.

All committee members and donors to the fund are urged to attend.

Baptist Pastor To Preach Last Sermon Here Sunday

Rev. R. E. Wiley, pastor of the First Baptist Church, will preach his last sermons here Sunday morning and evening. He resigned last Sunday morning, effective May 15, to accept the pastorate of a church at San Manuel, Arizona.

He will also conduct the Wednesday evening services on May 15 and following that service deacons of the church have planned a farewell social for the pastor and his family. Each family is requested to bring ice cream or cake and the social will be held in the educational unit of the church.

On the same night a love offering will be taken for the Wileys. All members of the church and friends of the family are invited to attend.

Longhorn Band Due To Get New Uniforms

The Longhorn Band will be smartly dressed in brand new uniforms this fall. This was the decision at the meeting of the Lockney Band Parents Club Monday evening. After several weeks of looking at uniforms and figuring finances, the group decided that they would be able to pay for the uniforms over a period of time and will place the order soon with delivery promised in August.

The contract will be given to the Sol Frank Co. of San Antonio and cost of the complete uniform will be \$73.50. This includes the hat and trimmings. It does not include gloves and shoes. The number to be ordered is 65 and thus the total expenditure will be \$4,775.00.

The Band Parents voted to buy the uniforms subject to approval of the school board. A committee presented the matter to the board and received their approval Monday evening.

The new uniforms will be black with a dark red breast plate. A stripe down the pant leg also will be red and the suit will be trimmed in white braid. The coat is West Point style with two rows of chrome buttons adorning the front. The hat will be black plastic with a white plume. White gloves and shoes will complete the uniform. It is very smartly styled and the group voted unanimously to select it from the many styles shown.

A committee to work out the details of the uniform was appointed by President Mrs. F. O. Schacht. It is composed of Mrs. Milton Ashton, Mrs. George Webster Jr., and Kenneth Wofford along with two students, Gayle Rucker and Don Schacht. The committee will send in preliminary plans, the company will make up a sample uniform and send it back here for inspection before the final specifications are decided upon.

The Band Parents voted to charge \$10 per year rental on the uniforms starting next school term and also to charge \$2 per person membership dues in the club. They hope to raise the remainder of the money necessary through concessions and projects of various kinds.

A meeting of parents of boys who want to play in the Pony League has been set for Friday night of this week. The meeting will be held at the grade school cafeteria at 8 p. m.

It is not necessary for the boys to be present but one of the boys parents must be present to sign him up, it was said.

Labor Camp Is Turned Over To Lockney C-C

Four men who were saddled with the responsibility of operating the Lockney Labor Camp when it was established some 10 years ago voted Monday morning to liquidate the assets of the camp and turn the buildings over to the Lockney Chamber of Commerce. The Chamber will operate the camp for itinerant labor as long as it is an asset to the community, Chamber officials said Monday.

The four men who probably broke some record in holding their non-paying jobs without change in the board are J. B. Seale, Harmon Handley and Ed Whitfill, directors, and W. H. Counts, secretary-treasurer.

Liquidation of the assets means the returning of some \$4700 in cash to those who made donations to help establish the camp. This represents 90% of the original donation and will leave some \$200 in the camp fund which will be used to pay costs of liquidation, current bills and the remainder will be turned to the Chamber of Commerce along with the buildings. Treasurer W. H. Counts was authorized to write checks some time this week to the original donors.

The camp was established here in the fall of 1947 for the purpose of providing housing for itinerant labor. Surplus buildings were bought through the City of Lockney from government military establishments. John A. Thompson was first manager of the camp. There are 20 living units plus a bath house and the caretaker's house. Mr. and Mrs. Melvin Ezzell have managed the camp in recent years.

Chamber of Commerce directors, in a breakfast meeting Monday, voted to accept the Camp and to operate it in the best way possible to benefit the community. The directors also authorized its officials to sign a lease agreement with George Webster, owner of the land on which the buildings are located. Reason for change of the ownership of the buildings, it was explained, was the fact that the board of directors of the camp was not a legally constituted body, having no charter or constitution and by-laws. Therefore they were not in position to sign a lease on the land because of this there was fear that a straight 10-year use of the land without a lease agreement would cloud the title of the land. Since the Chamber is a legally constituted organization it can lease the ground upon which the buildings are located.

The camp is usually well occupied during the fall and also during the cotton chopping season in the summer time.

Vegetable Ass'n To Meet Friday

The Lockney Vegetable Association will meet Friday evening at 8 p. m. at the Junior High building. It was announced this week by Dick Whiteley.

A number of problems facing the association will be discussed including the questions of what to grow, when to plant, amount of acreage, and other things.

Members of the association are also asked to meet Friday morning at 10 o'clock in the Plains Hotel dining room when Bob Brice, representing the Craddock Food Company of Garland, Texas, will be here to discuss cucumber acreage.

At a meeting Tuesday morning Mr. Price signed up 70 acres and got a promise of 250 more. He is wanting from 200 to 400 acres of cucumbers.

Raise Money For Water Line To Lockney Cemetery

Buck Sams and L. M. Honea have been working this week soliciting donations for the project of laying a 2-inch water line from the Lockney city limits to the cemetery. Cost of the project is estimated to be around \$2,000.00.

Up to Wednesday evening the men had around \$1500 on hand which included some \$700 raised toward the project last year. Mr. Sams thought they would be able to reach the \$2,000 goal very soon.

The water well at the cemetery has been practically useless for several years and this brought about the project of piping city water there. The cemetery already has water piped from the storage tank to various parts of the cemetery.

Eighth Grade Honor Students Are Announced

Louise Bollman, daughter of Mr. and Mrs. Henry Bollman, will be valedictorian of the 8th grade graduating class in Lockney Junior High. It was announced this week by C. H. Cheves, Junior High principal. Salutatorian will be Jackie Lou Frizzell, daughter of Mr. and Mrs. Jack Frizzell of the Lone Star community.

The 8th grade graduating exercises will be held in the High School auditorium on Thursday evening, May 30 at 8 p. m.

Miss Bollman has a grade average of 96.88 to earn the right to be valedictorian. Miss Frizzell's average is 95.38. Mr. Cheves announced the other eight high ranking students of the class and their average grades as follows: Carolyn Harris, 95.08; Nancy Schacht, 94.90; June Caldwell, 94.32; Carolyn Merrell, 94.19; Frances Stapp, 93.94; Raye Watson, 93.63; Mary Lacy, 93.38; Mickey Mosley, 93.22.

Improvements Planned For League Field

A grass field, a sprinkler system and a link-wire fence around the outfield are some of the improvements planned at the Lockney Little League baseball field, according to Tom Moore, commissioner. These plans were revealed at a meeting of boys and parents last Friday evening at the High School auditorium.

The cost of the improvements and the operation of the league for the year was estimated by Mr. Moore to total around \$1100.00. Members of the Lions Club, who sponsor the league, have been working this week to raise the money.

Work has already begun on the field. This week interested persons broke the field and seeded it with Bermuda grass. Forty pounds of seed was given by Rowland-Gordon Company. Remainder of the work now waits until sufficient money is secured to assume completion.

Up to Wednesday afternoon 66 boys, ages 9, 10, 11 and 12 had signed up for the League. Moore said that no more than 78 would be signed up and that Saturday night of this week would be the deadline for signing. If 78 is reached before that time, however, no more will be accepted. Those parents who haven't signed up their boys may do so at Knox Grocery here.

A late report of the financial drive said that the amount received thus far was approximately two-thirds of the amount needed.

Hart Indicted On 4 Counts

Former County Commissioner P. L. (Fay) Hart of Precinct 4 was indicted by the Floyd County Grand Jury Wednesday. Charges included "fraudulent conversion of county property to his own use" and "theft of money from the county treasury." Hart resigned from the Court last week and a grand jury investigation followed.

District Attorney John B. Stapleton told The Beacon that the Grand Jury returned four indictments against Hart, each having two counts. One count in each indictment charged "conversion" and the other "theft." Hart was charged with using county money to purchase automobile tires and then using the tires on his own car on four different occasions. These dates were listed in the indictments as April 9, June 11 and Sept. 10, 1956 and April 8, 1957.

In the "theft of money" charges, the amounts were listed as \$60 on April 9, 1956; \$31 on June 11, 1956; \$31 on September 10, 1956 and \$59.88 on April 8, 1957.

Bond was set at \$1,000 in each case by District Judge J. D. Ratliff. Hart came in voluntarily and was in the process of making bond late Wednesday afternoon.

Hart submitted his resignation to the Commissioners Court last week and the Court accepted it the same day. The grand jury was called to meet Wednesday morning of last week and spent Wednesday and Thursday going into the affair. They then recessed until Wednesday of this week.

Among those who testified before the grand jury were present County Judge J. D. McBrien, former County Judge O. P. Rutledge, Commissioners W. H. Counts, John Fowler and Fred Plumlee; County Auditor Carl Conner, Treasurer Troye L. Stansell, Sheriff Walter Holiums, Deputy Sheriff Ray Hardin, three employees of precinct 4 and three former employees, a former mechanic at the county barn, A. J. Strawn, Lubbock equipment company manager, and J. F. Patterson, an oil company dealer here. Others appeared before the grand jury yesterday.

County Judge McBrien will appoint Hart's successor but said Wednesday that he would do so with the advice and after consultation with the other Commissioners.

The Floyd County Hesperian last week pointed out that Conner, the county auditor, was appointed last fall and made his first quarterly report on March 31. "Whether this report precipitated the call of the grand jury into session was not learned," the newspaper said.

But if any man be a worshiper of God, and doeth His will, him he heareth. — John 9:31

DRY LAND farmers are in good shape from a moisture standpoint, probably in better shape for planting than they have been in several years. After suffering with the drought-itis and Benson-itis for five to seven years it would be real nice for the dry landers to get rid of at least one of these itises this year. A real good dry land crop along with the irrigated should put the country in good shape. Reminds us of the news we saw the other day where it was so wet and muddy some farmers couldn't get in to cash their drought-relief checks.

BASEBALL is in the air. With the Plainview Ponies already trying to operate between showers, the local Little League and Pony League plans are underway and first thing you know there'll be more baseball going on around here than you can shake a stick at. The baseball program for boys is a movement that is so beneficial to the community that it is surprising it doesn't have more support. If you have a little extra money you want to put into something really worth while the Little League or the Pony League can qualify.

LOYALTY is where you find it. Last year we heard a lot of talk from the so-called "Loyalist" Democrat about being loyal to the Democratic party and considerable complaint because some of us weren't as loyal as they thought we should be. Committee in Texas and probably to oust the committee completely if they find they have the power to do so. As we understood it, the State Democratic Executive Committee was organized on a give-and-take basis with all segments having representation on it. But the liberals are still not satisfied. They are out to gain complete control of the Party in Texas and oust every one who disagrees with them. It may be that this very move will result in the disintegration of the liberal organization in Texas.

TIME IS getting short for the Texas Legislature. Their pay days will soon be over and probably adjournment will follow soon after that. Some measures have already fallen by the wayside and others will likely do so. Measures which were introduced but now have no chance of passing include these: abolish the property tax on autos; re-districting of county precincts; require county judges to be lawyers; allow cities on local option to elect officials for four years instead of two; raise minimum age of senators from 26 to 30 and the minimum for representatives from 21 to 25; require persons over 60 to obtain exemption to vote, and several others.

BILLS WHICH have passed the Legislature include these: use of tax money to advertise Texas; levy penalties for tossing litter on public roads, parks and beaches; unlawful to carry switch-blade knife; permit skipping of jury trials in lunacy cases; create a new Securities Commission; full-time paid supervisors for paroled convicts; define rights of REA co-ops to operate in areas annexed by cities.

SPEAKING OF bills, the bill creating the White River Municipal Authority by which Post, Spur, Crosbyton and Ralls expect to build a dam across the White River below Crosbyton has been passed through the Legislature and now awaits the governor's signature. Another bill requiring office holders to resign from one office before seeking another is likely to pass, reports say.

WHEN you finally get your place in the sun you'll also find that you will be blistered occasionally.

ADVERTISING

ADVERTISING—WHY, WHEN AND WHERE — Advertising is a means of communication. To the merchant it is simply a means of telling the people what he has to sell, where it is available, and at what price. It is much easier, less time-consuming, and by far cheaper than person by person solicitations. But, advertising alone cannot do the complete selling job. It takes the co-operation of buyers, salesmen, clerks and everyone else in the store.

Why Should I Advertise?
1. Because you want to sell merchandise at a profit.
2. You advertise because there is something about your product that you want people to know.
3. Advertising then is the cheapest means of getting your message to the people.

When Should I Advertise?

1. Advertise consistently; it will pay.
 2. Kick-up advertising for seasonal demands.
 3. Advertise to create a demand in off-season.
- What Should I Advertise?**
1. Guard against advertising too much at one time.
2. One item in a small ad is enough. Perhaps two items in a larger ad. Don't confuse the buyer by stuffing too much at him in one advertisement.
3. Watch seasonal items. Push them when people want and need them.
4. Use leader items to bring people into the store.
5. Advertise what you have to sell and also your place as the place to buy it. — Texas Press Bulletin.

WET PERIOD AHEAD?

Due to recent rains, U. S. Weather Bureau forecasts at Washington are predicting that the drought will not return to

the Southwest this year. "You can't break a drought with one month of heavy rain," a Bureau spokesman said. "In some places it's going to take two or three years to restore the moisture content of the soil. But, with the rainfall we've had and what we expect, things are looking up."

A few months ago, a nationally known weather expert predicted the prolonged drought would end soon and the nation would enter a new wet period, beginning about 1960.

It's too early to say whether this wet period already has begun, or whether recent rains have been only temporary phenomenon, but it's only natural for Southwesterners to hope that the prognosticator is right.

As for Texas, the drought may not have been entirely broken, but in most sections, it is badly bent. — Lubbock Avalanche.

IT'S ELVIS AGAIN

Had a delightful argument with a group of girls from Holiday yesterday. They wanted me to "write something good" about Elvis. Okay. Here goes: Elvis is not triplets. (That's the best thing I know about him, girls). — Glenn Shelton in Wichita Falls Record News.

Dear Editor:

A fellow from up the creek here says he sees where the President's budget calls for one-third more money to pay bankruptcy referees during this next year of unprecedented prosperity.

Which he says shows the government is very tender-hearted and stands ready to furnish the best referees money can buy for any citizen it has taxed into bankruptcy.

Which at least is practical sympathy and not like my bank-running neighbor who sympathizes with me in trouble but only in a non-material way.

REA Bill Passes Out Of House

Representative Leroy Saul has advised the press that the House Bill No. 547, commonly known as the REA Bill, was successfully passed out of the House after probably the most industrious study and effort by the House of any measure considered this session. Saul revealed that the sub-committee and the whole committee of State Affairs had worked in excess of 150 hours in research and consultation on this vital measure affecting the future of the REA program in Texas.

Saul's committee, with complete cooperation from the whole committee and interested members of the House accumulated material and facts which resulted in an all time record for the "biggest grandfather clause" in the history of Texas. Saul explained that a grandfather clause is legislative lingo for keeping a situation status-quo, which means no rights can be disturbed now held by any Texas citizen affected by legislation. In other words, no rights on the farms, in the homes, or property of any REA customer or service will be turned off.

Saul revealed that his committee's biggest obstacle was to overcome a proposed limitation that the REA service within city limits be limited to a ten year period. The bill recommended by Saul's committee and adopted by the House carried no ten year limitation and protected the REA from infringement by private power companies forever.

Saul concluded that never in his legislative history had there been so much confusion or misrepresentation surrounding the purposes of a bill. "The true purpose," Saul said, "is to see that the progress of the REA is not curtailed in any way and at the same time the rights of cities and towns for local

Recharge Well Put In Operation At Petersburg

Petersburg. — The Recharge Well, an experimental project of the High Plains Water District, on the Allmon farm east of town, has been turned on and is taking water from a lake at about a thousand gallons per minute, according to Bill Broadhearst, Underground Water Engineer of the District.

This well is located on the edge of about a fifty to seventy-five acre lake and it is estimated at this time that it has about fifty thousand acre feet of water in it. Water from the lake is drained back into the underground water sands in an effort to recharge them. This is really the first time that a large amount of water has been in the lake since the project was started something like two years ago. Recently a pump was installed and the well pumped out, and it was found that water previously drained into the well had a good effect on the water bearing sands, causing them to be loosened up to where they would take water much faster. This recharge well is being watched with much interest and could easily be the fore-runner of many such wells being put down in the future if plans materialize as are now before the Department of Agriculture at Washington.

AUSTRALIAN VISITORS — Tasman J. Scott, left, and Peter Copestack, center. Australians are here viewing a registered Black Angus cow belonging to L. B. (Buddy)

Brandes, right. The Australians were guests in the Brandes home in the Providence community from Tuesday night until Friday noon of last week and Mr. Brandes

spent time showing them the farming methods and machinery of this area. They were very impressed with the advanced farming techniques used by West Texas farmers.

Brandes Family Entertains For Four Australians

Mr. and Mrs. L. B. Brandes were hosts at a barbecue dinner last Thursday evening at their farm home, five miles north of Aiken. They were honoring the four Australians who have been visiting in this area.

During the evening the Australian guests enjoyed seeing slides of America while the other guests enjoyed slides of Australia which one of the honorees brought.

During the evening's conversation, one of the Australians expressed much surprise to find that the American people take their religion so seriously. Mrs. Brandes reports. He went on to say that they thought Americans were a drinking and gambling people but that he hadn't seen any of either sort. It was pointed out that of the eight families attending the affair, there were seven different religious faiths represented.

Present were Peter Copestack, Tasman Scott, Mr. and Mrs. C. O. Ross Fenner, all Australians; Mr. and Mrs. Sam Puckett, Mr. and Mrs. Dennis

HELP FOR THE ALLERGY SUFFERERS

Many families still have an allergy or two to contend with, come summer, so it's important to organize the household in order to give all possible comfort to the allergy sufferers. One good idea is the new nylon zipper cover that claims to be completely allergy free, dust-proof, and is recommended by leading hospitals. It's well tailored with a rust-proof zipper closing, and it comes in nice colors. You can launder it quickly and it dries in minutes. And dust film comes off with sudsing in hot water, of course. Complete cleanliness helps combat the pollen or airborne dust that afflicts allergy sufferers. And don't stop with the mattress cover. Shop for pillow cases which are designed for just such problems. Consult your doctor about summer blankets and bedspreads that will cause no trouble. You'll find that easy washability is a characteristic of them all.

AND WHAT WILL THEY FIND INSIDE?

Here's a handsome, happy family marching through the open doors of a church. But what will they find inside?

A lovely sanctuary? Perhaps. A congenial group of people? Perhaps. An inspiring sermon and beautiful music? Perhaps. All these they may possibly find inside. But here is what they will *certainly* find.

- A group of people banded together by a common faith for a common purpose . . .
- Assurance that there is a God, who cares and loves . . .
- Direction for the perplexities that each day brings . . .
- A demand to live as God would have them live . . .
- A cross as the divine source of faith, hope and love . . .

And if you go to church next Sunday, that's what *YOU'LL* certainly find too!

HOLY BIBLE

**THE CHURCH FOR ALL . . .
ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Nouns, verbs and adjectives are arranged alphabetically in the Word Finder. A new and fitting companion to the famous Word Finder is the Phrase Finder, which supplies the missing link for writers, speakers, and all who deal in words and ideas.

The Phrase Finder can actually think up for you not just a word, but a clause or even a sentence. Other divisions in the book are The Metaphor Finder and The Sophisticated Finder.

Need For Cotton Promotion Told At Meeting Here

Cotton is being out-researched, out-priced, and out-promoted by aggressive competitors and it will take an all-out effort to meet the challenge.

In a special presentation entitled "Cotton's Problem, Program and Potential," staff members of the National Cotton Council brought this conclusion into sharp focus at a meeting here Tuesday evening at the High School auditorium. Some 250 farmers and business men were present.

The speakers, armed with facts and figures developed during a two-year study by a special industrywide committee, revealed that only with a truly adequate program of quality improvement, cost reduction, and sales promotion can cotton hope to gain a greater share of the total fiber market and build a brighter future.

Council field service representatives, John Gregg of Lubbock, Robert Love and Earl Sears of Memphis, Tenn., warned that despite a strong consumer preference for cotton's superior qualities rivals are threatening from every side.

The plain facts, the speakers said, are these: cotton's surplus is up, acreage has been cut, costs have risen, and profits are trending downward. Competition has increased a total of 21 million bales equivalents since World War II. Synthetic fibers, domestic and foreign, have risen by some 8 million bales, paper by a million, and foreign cotton production has gone up 12 million bales. All in such markets as men's wear, work clothes, children's clothes, domestics, and rugs.

A grave disparity exists on the research front too, the speakers reported. Recognizing quality deficiency as their basic weakness, the synthetics have been pouring \$60 million a year (compared to cotton's \$14 million) into research. This effort has resulted in the development of man-made fibers superior to cotton from the standpoint of strength, abrasion resistance, and color fastness, and fibers equal to cotton in absorbency, heat resistance, and water repellency.

Despite these disquieting factors, however, cotton has made giant strides and great opportunities exist for cotton to forge further ahead. For example, despite limited funds, the program of the National Cotton Council — the organization that represents the entire raw cotton industry — has paid these things make it urgent that cotton get competitive on a three-way basis of price, promotion, and research, the speakers said.

Regarding price, it was pointed out that cotton's position in relation to the newer synthetics is good, but compared with rayon, cotton's major rival, it's poor. At home, rayon undersells U. S. cotton by 4-8 cents a pound, and by about the same margin overseas. This price differential hurts cotton in many ways, not the least of which is the growing practice of blending. Blending a percentage of rayon — maybe 20 or 300 per cent — with cotton fabrics which used to be all cotton is eroding markets away, the speakers declared.

Promotion-wise the synthetic producers spend \$20 million annually to sell their products, compared with less than \$1 million a year spent by the raw cotton industry.

In this connection, the speakers noted that cotton's present and future sales promotion opportunities are unlimited. Using slides and other visual aids, they demonstrated how cotton can be effectively sold in those markets where personal preference and opinion are major sales influences. At the same time, they stressed the urgent need for bigger sales budgets off dramatically, the speakers said. Since the Council was founded, far greater consumer demand has been generated, and domestic consumption has risen by 50 per cent or 3 million bales annually. The Council's program has helped stimulate increased efficiency of production and processing. It has improved quality through research, and has spurred sales through hard-hitting advertising and promotion campaigns. With more production efficiency, more research, and more promotion, cotton can hold and steadily expand its markets, the speakers emphasized.

In fact, they said, if cotton can merely hold on to its present share of the domestic and foreign market, the present trend can be reversed and a market for 15 million bales can be built in four or five years. And this can keep pointing upward to 17 million bales for 1956. This will come as demand for fiber products grows across the world, and under conditions of continued population growth and improved standards of living.

On the other hand, if consumption of cotton can be increased by but one per cent at home and by 20 per cent of the expected foreign textile consumption rise, then cotton can balloon its total market to over 17 million bales by 1960, and well over 20 million bales a year by 1965.

But in projecting these possibilities, the speakers again warned that cotton must at least partially overcome present disparities in promotion and research. If the powerful trend now working against cotton and for its competitors is not halted, domestic and foreign consumption will go down to 8 million bales a year by 1960 and will sink further to 7 million bales by 1965, they predicted.

The Lockney meeting was one in a series being held across the nation's Cotton Belt designed to acquaint all those having a stake in cotton's future with the nature of the current crisis. Lester Carter served as chairman of the meeting which was sponsored by ginners of this area.

Mr. and Mrs. R. C. Mitchell attended the sixth annual Swine Short Course at A. & M. College Monday and Tuesday of this week. Mr. Mitchell is president of the Texas Swine Breeders Association. They left Sunday and returned home late Tuesday.

Theme of the meeting was "Developing a Meat Type Hog Program in Texas." Mr. Mitchell gave a response to the welcome address.

A special attraction of the short course was the cut-out contest. Special emphasis was also placed on how to select meat type breeding stock. Other subjects discussed included swine feeding, diseases and parasites, supply and demand, marketing and grade and yield basis, feeding for profit and the testing program.

Mr. Mitchell is state representative of the national Chester White Association and has breeding Chester White stock for several years.

One-Price Cotton Program Urged By Cotton Growers

Lubbock — A one-price cotton legislature program proposed by the Plains Cotton Growers, Inc. won industry-wide support from representatives attending a meeting in Memphis, Tennessee, recently.

Geo. W. Pfeiffenberger, Executive Vice-President of the PCG, attended the meeting as did representatives from the American Cotton Producers Association, The American Cotton Manufacturers Institute, National Cottonseed Crushers Assn., National Compress and Warehouse Association, and the New York, New Orleans and Memphis cotton exchanges were at the Memphis meeting.

Six producer groups earlier had met and drafted the program. These included the Louisiana Council, Mississippi Delta Council, Tennessee Agriculture Council, Arkansas Agriculture Council, Missouri Cotton Producers Association, and the PCG.

Representatives of the industry-wide meeting this week are presenting the revised program to their individual groups for approval.

After another industry-wide meeting of all segments of the industry the ACPA hopes to present the program to Congress, sometime next month.

Pfeiffenberger listed the long range program containing these points:

1. Cotton to seek its own competitive price level, both domestic and abroad.

2. Protect producers income through —

(a) Acreage increase.

(b) Compliance payments.

3. Loan program at a stated percentage under world price for orderly marketing.

4. Continue production controls to prevent huge surpluses from again accumulating.

5. Revision to be made in Soil Bank Act to provide a cotton acreage reserve option whereby individual cotton farmers could elect to participate in the acreage reserve section with increased rates of payment as now provided, or receive additional cotton acreage. Farmers who elect to receive additional cotton acreage would not be permitted to place cotton acreage in Soil Bank.

6. Intensified research and quality improvement programs as absolutely essential parts of any long term program.

7. We oppose any limitations of participation within the framework of any farm program.

8. We continue to urge passage of the Smith bill or textile labeling act.

9. Producer objective are to make United States cottons competitive. All segments between the producer and the mill are urged to work towards optimum efficiency and economy to stabilize charges.

10. The influx of cheap foreign textiles would seriously disrupt American mills. We urge their curtailment through either import quotas or agreements.

11. During the transition period:

1. To provide desirable qualities and insure continuity of sales under the competitive export sales program, the U. S. D. A. is urged to initiate action now to acquire on July 31, 1957 to the 1956 Loan stocks for cataloguing and sale as soon as possible after August 1, 1957.

2. Extension of Public Law 480.

JOE ANDERSON IMPROVING

Joe Anderson, who has been a patient in the Lockney General Hospital for the past two weeks, is improving and may be able to return to his home today (Thursday) members of the family said.

Dear Editor:

I don't think you realize how much trouble I go to and how many difficulties I run into, trying to keep you enlightened about public opinion at this level of society.

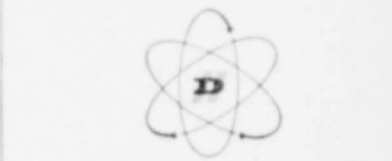

You take this story about the Chicago citizen who had six wives because he likes married life. I ran a poll here to see how this matter was looked at locally and 99.44 per cent of the men polled said they like married life too.

But when I got to the next question about whether they liked it well enough to wish they had six wives, they all drew the Fifth Amendment on me.

Dear Editor:

I note that the politicians keep harping on the theme that federal spending can't come down until us people quit demanding so much from the government.

But I have been inquiring around here and can't find anybody who admits clamoring for more foreign aid, more subsidized bird watchers, more canned hamburgers for the Navy to store up, etc. The noise must be coming from somewhere else.

My neighbor with the dirty mind (unwashed brain) says most of these demands the bureaucrats hear are when they're listening to their own echos.

Many Enjoy May Day Breakfast, Review

The annual May Day breakfast sponsored by Lockney Business & Professional Women's Club held last Saturday morning was enjoyed by many women of the area.

Beginning at 9 a. m. in the high school cafeteria, the event took place in an atmosphere of spring. Tables were arranged in circles marked by pastel colored Maypole streamers extending from a center chandelier. On each table at the base of the Maypole streamer stood a gayly dressed doll. A square table directly under the Maypole top held an arrangement of tulips.

Mrs. Carl McAdams gave the invocation, followed by a welcome address by Mrs. Dorothy Shipp. Mrs. Velma Cox introduced the guest speaker, Mrs. G. C. Applewhite who presented a clever review of George Mardikean's book "I Found A Happy Land."

Places were laid for approximately 75 women. Proceeds were donated to the Junior High School library.

BUILT-IN OVEN ROTISSERIE

One of the most delightful features of many new gas ranges is the rotisserie built right into the oven. Some have as many as three revolving spits which can be removed easily for a good sudsing after each use. Though there is relatively little spattering, a few spurts of juice can't be avoided. So the interior of the oven should always be swabbed off with a sudsy cloth as soon as it has cooled.

FOR SOMETHING NEW IN FLAVOR

There are seventy kinds of soup, and that's a lot of soup. And combining soups improve the flavor. For instance chicken soup becomes a different thing if combined with tomato, clam bisque, mushroom or madrilene.

Mrs. A. B. Blount Birthday Honoree

Mrs. A. B. Blount of Plainview, former Lockney resident, was honored with a surprise party April 30 honoring her 83rd birthday.

Birthday cake and punch were served to Mmes. S. C. Hutchinson, Myrtle Garner, Jr. Finney, W. S. Poer, Nettie Dalton, Vera Mosley, Annie Brown; Mr. and Mrs. Jake Smith, Mr. and Mrs. O. D. Wofford, Misses Josephine Smith, Thelma Mae Poer, Mosley and Debby Boage; Mrs. Raymond Blount, Mrs. Buster Blount, Mrs. Josh Walling of Tulsa; Mr. and Mrs. C. H. Rose, Mr. and Mrs. Hugh Counts, Mrs. Fannie Brown, Mrs. B. A. Howell, Mrs. Maud Staleup, Mrs. Lucy Thomas, Mrs. Mamie Sims and Miss Mildred Thomas, all of Lockney; Mrs. Joseph Cooper of Coleman, Texas, Mrs. Hattie Roberson and her grandson of Amarillo.
